

## Conrad Will Lecture Today On Engineering's Progress In First Of Fall Series

Dr. Albert G. Conrad, Dean of the School of Engineering, will deliver the first university lecture in the fall arts and lectures series today at 4 p.m. in Campbell Hall.

DR. ALBERT CONRAD  
DEAN OF UCSB'S SCHOOL  
OF ENGINEERING

The lecture, entitled "Progress Through Engineering," is open to the public.

In 1946 Dean Conrad established Yale's electrical engineering program which is designed mostly around research activity. From then until last fall he was chairman of the Department of Electrical Engineering at Yale.

The University lecturer, who holds two electrical engineering degrees from Ohio State and an advanced degree from Yale, has written two textbooks and over 130 contracts for Yale's engineering department.

Other local faculty members to appear in the series include Professor Lawrence Willson, who will discuss Thoreau, and Dr. David Gebhard, director of the University Art gallery, whose topic is "The Mosque: A Mirror of the Islamic World."

Late in October, Professor R. Murray Thomas of the School of Education will speak on "Indonesia's Struggle For Education." The fall series closes on December 11 with a lecture on "World Cinema In the Sixties: Commercialism Versus Creativity," by Dr. Edwin Schoell, associate professor of speech.

## Committee Needs AS Election Help

Sign ups for the elections committee are now in progress in the Associated Students office.

The first meeting of the committee will be this Thursday at 12:00 in the Huddle. Nancy Grah, chairman, can be contacted for further information.

Other A.S. committees which can use volunteers are: the Awards, Special Events, Charities, Social Publicity, Assembly, and Library Committees.

## New Goleta Valley Hospital May Accomodate Gauchos

UCSB students may be using a new hospital soon. A \$3,500,000 privately owned hospital and medical center will be built soon on 11 acres in Goleta Valley by Tuter-Lehrhoff Co. Dr. Wilfred T. Robbins,

Director UCSB Student Health Service, recently said if the hospital is accredited, "there is every reason to believe it would be utilized in student emergencies."

He said the health center would use the most convenient accredited community hospital.

The hospital will apply for accreditation, and will comply with all state regulations, according to the firms principals, A. G. Tuter and Dr. Irwin Lehroff, PhD.

The building, to be constructed on the corner of Hollister Ave. and More Rd., is planned as a 26-unit structure housing doctors' suites, a pharmacy, lounge and other facilities all of which will be built along with the hospital.

The hospital will be constructed of marble, glass and brick with penthouse suites and rooftop facilities including a sundeck.

All waiting rooms will face landscaped gardens.

The hospital will be of a unique cloverleaf design in the three patient areas,

each of which will have a centrally located nurses stations.

All patient rooms will be equipped with piped-in oxygen, a two-way communications system, and direct outside telephone dialing.

Each room will have windows overlooking patios.

UNIVERSITY PRESIDENT CLARK KERR is pictured in the patio of the Music Building during a recent visit to the Santa Barbara campus. Kerr and his wife will be present at the reception for Chancellor Cheadle tomorrow night in Robertson Gym.

## Sophs Meet Tonight At 7

The first meeting of the sophomore class council will be held tonight at 7 p.m. in SH 1131. The time was changed because of President Kerr's reception at 8 p.m. All members and interested sophomores are urged to attend.

## So. California Dean To Speak For AS Career Program

Dr. Peter V. Lee, Dean of Admissions, University of Southern California School of Medicine, will speak on a career in medicine September 27 at 4 p.m. in the Huddle.

He will be the first speaker in the Career Guidance Program sponsored by the Associated Students.

## Packet Filing Starts Thursday

Students may file their packets beginning this Thursday at the Library, Robertson Gym, Santa Rosa Patio, and South Hall 1004 from 8:30 to 11:45 a.m. and from 1:00 to 4:30 p.m.

Thursday, Sept. 20, and Friday, Sept. 21, all students may file; on Monday, Sept. 24, R-Z, on Tuesday, Sept. 25, A-G, and on Wednesday, Sept. 26, H-Q. (There is a \$10 fee for late packet filing.)

## Future Growth Of UCSB Campus Will Depend On Election Results

UCSB like other university, state college, and junior college campuses throughout the state, has a

## Reception For Kerr And Cheadle Tomorrow Nite In Robertson Gym All Students Invited To Attend

A reception will be held for President and Mrs. Clark Kerr and Chancellor and Mrs. Vernon I. Cheadle in Robertson Gym tomorrow night. All students are invited to attend. The 8 p.m. reception will be the first opportunity for the new UCSB students to meet the University of California's President. Because the President has little time to get around to all the campuses, an annual reception is held in his honor.

## Insurance Available

For \$13 a year, a student can receive accident and illness protection for hospitalization, surgery, ambulance and general medical care while attending UCSB.

The Students' Accident and Sickness Medical Expense Insurance Plan is sponsored by the Associated Students and will cover up to 80 per cent of all hospital bills (to a maximum of \$2,500) that the student might incur while at the university.

Other benefits of the program include payment of the first \$300 of the surgical bill and 80 per cent of the next \$500; coverage of outpatient service, medicines prescribed by a physician or surgeon, X-ray and laboratory expenses and dental expenses (\$25 deductible) on an 80 per cent payment basis. Special emergency outpatient accident benefits are also included. The period of coverage begins when the student leaves home for direct travel to UCSB at the beginning of each semester after applications and the \$13 fee have been mailed in advance to the Graduate Manager, AS UCSB, or at the time of making application and payment if after arrival on campus.

## Class Changes Are Announced

Education 147 class changes were recently announced by the School of Education.

Lecture 1 is changed from Tuesday at 4:00 p.m. to Monday at 7:00 p.m. 2 is changed from Thursday at 7:00 and 8 p.m. to Wednesday at 7:00 and 8:00 p.m.

Lab times will stay as listed in the Schedule of Classes but they will meet in bldg. 431, rm. 107.

## Seniors Must Set Own Appointments

Seniors desiring their pictures in the La Cumbre: The Campus Photography shop will open next Monday and start scheduling appointments. Shooting will begin October 1 and continue throughout the month.

It is each student's responsibility to get his picture taken.

## IRC Meets Friday

The International Relations Club will meet this Friday in the Huddle at 4 p.m. The IRC meetings are open to all interested persons.

PICTURE-SQUE, YES? A campus photographer catches the pagentry of registration in all of its glory.

The reception is one of a series of events which Kerr will attend this week at UCSB. Chancellor Cheadle's inauguration and the Regent's meeting both are scheduled for Friday.

This informal affair has been arranged by the administrative Committee on Public Ceremonies. Refreshments --- cookies, punch, and coffee --- will be served, and dancing will follow in the gym. Music for the dance, the first such affair to be held in the gym, will be supplied by the Embers, a student combo.

Spurs and Chimes, sophomore and junior women's honoraries will assist with refreshments and the reception line.

Name tags for the event will be distributed to all living groups in advance; students who do not receive them can pick them up at the gym on the evening of the reception.

When the President's Reception was held two years ago over 1,500 students were present.

### KERR HISTORY

After President Gordon Sprout retired in 1957, Kerr became head of the University. Long noted for his academic integrity, Kerr has often been in controversial positions.

In a 1946-47 dispute between west coast long-shoremen and ship owners, Kerr arbitrated and came to a fast, acceptable decision. Said insider Harry Bridges: "The assignment was not an easy one. He performed it with skill and courage."

In 1949, when the Regents demanded that Berkeley faculty sign a loyalty oath, Kerr, like the rest of an embittered faculty, signed. As a member of the Academic Senate's privilege and tenure committee, however, he attacked the Regent's notion of firing non-signers. Because of this action, he won widespread respect and in 1952 was appointed Berkeley's first chancellor. At that time he drew sharp distinction between "the honest heretic and the conspirator."

Despite competition from others, Kerr was given the appointment largely because of respect national educators had for him.

### NOTICE!

Registration materials must be picked up by all clubs, organizations and AS committees and boards in the AGB Office in the Student Union area immediately.

# The President's Desk

Many students, even after their second year of college, are still not decided on what career they will pursue. There are other students, who while they know what profession they are going to enter, want more information about graduate school; then there are those students who would like projections, insights, and more of a feeling for their future field.

To help students in each of these categories I suggested during the election campaign that a program of career guidance be sponsored by the Associated Students. Given the opportunity I now have this program underway.

On September 27th, at 4:00 p.m. in the Huddle, we will have a representative from the USC School of Medicine and physician from the Santa Barbara community to talk to students who want to know more about a career in medicine. On Friday, October 19, we will have a top representative of the Peace Corps on campus to tell about his experience; in November we will have a panel of lawyers to discuss aspects of a legal career.

A complaint voiced by all groups is that they are not well informed of the issues before the Legislative Council. To remedy this communications problem not only will this column be written, but heretofore, the minutes of each Legislative Council meeting will be sent to every Greek house, residence hall unit, and off-campus living group. The radio station when operational will reinforce these efforts.

The enrollment at our school has burgeoned to almost 5000 students. Because the residence hall program of the University has not kept abreast of the housing need, the bulk of these students live off campus. Although con-

published semi-weekly every Tuesday and Friday during the school year, except during vacations and exam periods, by the Associated Students, University of California, Santa Barbara. Printed in Goleta by the Campus Press. Entered as second-class matter on November 10, 1954 at the post office at Goleta, California, under the Act of March 3, 1879.

struction is rapid and rampant in Isla Vista, the demand for housing is still greater than the supply. A few landlords aware of this situation have been asking larcenous rents from student tenants. Something should be done about this, and something will be done if the student body shares my concern. During the next two weeks I will examine this problem and then as a first step take our grievances to the Isla Vista Landlords Association.

In my next column I will report our progress in getting a motion-picture made of the UCSB campus.

## Editorial Column ...

### A False Belief?

At the first meeting of the student legislature we again heard the redundant repertoire of the honor spirit. Call it honor spirit or honor system, it is still based on a false belief that all students, under the constant pressure of grades, grades, grades will choose to do their own work, rather than accept the easy way out.

To work, any honor spirit must have the complete backing of an almost impeccable majority. This has not been the case in the past, it will not be so in the future, no matter how much the honorable few rave on.

This is not to say that the efforts of Tom Lloyd, (A.S. President 61-62) and his loyal backers were to no avail. Chancellor Cheadle, who has had experience at Davis with such a spirit, has held the view that constant vigilance is the only way to begin an honor system. In this manner the efforts of this group have been gratifying. If through their efforts a few students have seen more clearly that, in theory, an honor system is the mature approach to a university community, then the hours of toil can be aptly justified.

Unfortunately the assumption that a University student's emotional growth is in step with his intellectual prowess is sadly unrealistic. There are, there will be the few whose honor varies with the scrutiny of the prowess or the inspection of the book store checker. These are the ones who show by their actions the futility of any honor system.

To be sure, any action leading to increased student responsibility must be met in part by correlated student interest. This in itself is a part of the honor spirit. We extend our congratulations for this type of action. Yet we caution those who waste valuable legislative time for such an obviously futile cause.

We are not against honor any more than we are against mother-in-laws, sacred institutions, or Ivory soap. We need not have a spirit to have honor. Honor is a personal virtue and must be decided as such.

JOHN B. MOCKLER  
Editor

### Our Thanks

In our first issue of the EL GAUCHO we incurred the usual first issue press problems. Due to delays it was necessary for a number of students to undergo the task of folding papers at 3 a.m. We wish to thank Dick Dolliver, Ruth Kara, and Judy Birnie for a job well done.

Hi -  
neighbor

We're eager to make your shopping easy --- really pleasant and rewarding.

Take our spotless meat department, for example. Roasts and chops --- all varieties --- are fresh-cut and packaged so you can pick your favorite in a jiffy. Or, if you prefer, our meat cutters will be happy to fix any kind of a special order for you.

In our good-neighbor policy, Jordanos' customer services come first. We keep an eagle eye out for new ways to serve you better --- make your shopping more convenient --- for new ways to bring you an ever-wider variety of low-cost, quality foods --- so that you and your family may always have the best for less.

# UCSB Leads For 59 3/4 Minutes ....but Baird boots Gauchos 16-14

By Bob Walter

It was "Big Question Mark Night" at La Playa field Friday night as 8,000 fans turned out to see the new 1962 edition of coach Bill Hammer's Gaucho football team. Despite a heart-breaking, last-minute defeat by the Gators of San Francisco State, most of the fans had their answer, the Gauchos are vastly improved.

The hero of the game for the San Franciscans can only be Bob Baird, who, with only sixteen seconds left to play in the game kicked a 26 yard field goal to give the Gators their margin of victory. Earlier it seemed that Baird might be the goat after his point-after touchdown attempt was blocked by charging Al Reynolds to give the Gauchos a 14-13 lead.

The Gauchos did not wait until the third game to score this year, in fact, they opened up a 6-0 lead in the first quarter. After the Gators were forced to punt from their own two yard line, the UCSB aggregation headed by fine new quarterback, Chris Dawson moved in for a score in six fast plays with sophomore fullback Reynolds getting the honor of the first 1962 UCSB touchdown by going up the center for three yards. Dawson's attempted conversion pass was knocked down in the end zone, giving the Gauchos a 6-0 lead.

In the second quarter the locals struck again. The Gators had been unable to muster any offense in the first half and were again forced to punt from deep in their own territory. A good punt and an

GaUCHO left end Dennis Lynch leaps high into the night air to take an over the shoulder reception from Chris Dawson against San Francisco State last Friday evening, a play covering some 19 yards. Lynch was also in on the second Gaucho score when he flagged down a seven yard jet from Dawson in the second quarter. The locals turned in their best game in three years though bowing on a last ditch field goal.

equally good return by sophomore halfback Doug Bowman gave the Gauchos the ball on the San Franciscans' 38 yard line. In eight plays, the locals had hit pay dirt again. The short drive gave fans a good look at UCSB's new pass game, however, as the drive featured a 16 yard pass from Dawson to flanker Doug Fell and was culminated by a seven yarder to end Dennis Lynch. The PAT attempt was again a pass by Dawson, this time to Bill Peters, to give the Gauchos a 14-0 halftime lead.

Just as the Gauchos dominated the first half, so the Gators did in the second. Early in the third quarter the Gauchos were one man short and Gator halfback Tom Manney took the high road for sixty-one yards, but was

kept from going all the way by speedy Bowman who hauled him down from behind. It didn't take long, however, for quarterback Dick Valois to engineer his way down to the goal line and sneak in for the Gator's first touchdown. The fourth quarter opened with another Gator drive. The Gauchos assisted quite well again as pass interference was called in the end zone on Fell and the visitors were given the ball on the Santa Barbara one yard line. Valois again sneaked in and it looked very likely that a tie ball game was eminent. However, Reynolds came busting through the San Francisco line to block the kick, leaving the Gators one point shy, 14-13.

A slip-up on a handoff to Carlson caused a fumble

which started the Gators on their drive to a field goal and an eventual victory.

## Cross Country Team Travels To Westmont

By Don Stem

During the last few days many students have wondered who the men are that have been running all over the campus in track suits. These stalwarts are members of the UCSB cross country team, coached by Sam Adams, preparing for their first meet of the season at Westmont this Saturday.

For endurance cross country is one of the most demanding of all sports. The distance of each race varies, but three miles is the average. These races are not held on smooth, flat surfaces, as are other foot races; on the contrary, many times a race will cover sand, mountains and broken ground.

Runners returning from last years team are Jim Carroll, Rolly Cavaletto and Bob Jordano.

### Hoop Meeting Set Tomorrow

Head basketball coach Art Gallon announces an initial indoctrination meeting for all prospective varsity and freshmen cagers to be held tomorrow at 4:00 p.m. in room 1125, Robertson Gym.

### Intramural Meet Today

Ray Thornton and Jack Wilmore, faculty co-ordinators of men's intramural sports, announce the respective organizational intramural managers for the fall semester.

The manager of the various campus organizations are reminded to meet today at 4:00 p.m. in room 110 of building 420. An important corollary to this fact stipulates that any organization not represented will be declared ineligible for all intramural activities during the fall semester.

Listed below are the tentative dates for the fall intramural sports program which may be subject to change:

- Flag football - Sept. 20-Nov. 2
- Golf - Oct. 15, 16, 18, 19
- 2 Man Volleyball - Nov. 3, 4, 10, 11
- Fencing - Nov. 3, 4
- Wrestling - Nov. 5-7
- Basketball - Nov. 6-Jan. 4
- Table Tennis - Nov. 13, 15, 20, 27, 29
- Free Throw Contest - Dec. 8

## Art Exhibit To Feature Specialties

Ten UCSB art professors whose specialties range from painting to pottery are presenting some of their works in the University gallery annual faculty art exhibition until Sept. 27.

Instructors Donald Lent and Bruce McCurdy, assistant professors Howard Warshaw, William Ptaszynski, and Conway Pierson, associate professors Howard Fenton, Jacob Lindberg-Hansen, William Rohrbach, and Robert Thomas, and professor William Dole will be the faculty contributors.

In the Small Gallery, Fuku Ryanosuke, contemporary Japanese artist, will display a collection of his prints. Ryanosuke has received high critical praise for his one-man shows in Japan, Europe, and the United States. The New York Times has called his technical skill "faultless."

The hours of the gallery are 10 a.m. to 4 p.m. weekdays and 1 to 5 p.m. Sundays.

### IRC To Meet In Huddle

The first IRC meeting of the year will be held Friday at 4:00 p.m. in the Huddle.

key chain, an antiquated world atlas bought in a Portland used book store, a Tschaiakovsky record bought on sale, some brochures from the Fair and several pairs of greasy and torn jeans.

Asked to summarize the trip, the boys said, "The scenery was sometimes beautiful, Portland and Seattle and the Fair were great, the experiences were unforgettable, but we wouldn't do it again. Freights are nice to visit but no place to live. But it was a ball...and the total cost for both of us was less than \$60 for 10 days."

IT'S SUCH A COMFORT TO.....Spike and Bo's deluxe transportation to and from the Seattle World's fair comes to a temporary halt. SPA Photo

## 'Freights - Only For Visits,' Say Hoboes Bo And Spike

By Pete Kleinman

Thousands of Americans traveled by conventional means to the World's Fair in Seattle this summer. Two UCSB juniors, however, thought such travel unsatisfactory.

They traveled to and from the Fair by freight train.

Starting in Glendale, California on a piggy back freight, the two adventurers, who were known on the rails as Bo and Spike, were able to reach Portland, Oregon in slightly less than 30 hours. After a day's stopover in Portland at the local YMCA they continued on to Seattle.

"A bed in a YMCA," said Bo, "is pretty much of an improvement over a sleeping bag on a moving freight train. The temperatures in the Northwest got as low as 40 F. and the drafts produced by a freight moving sixty-five miles an hour were terrific."

After arriving in Seattle, the two slept less luxuriously than in Portland. Still in sleeping bags, they spent three nights under the shrubbery of the Seattle Public Library. So fascinated were they by the Fair that they each payed a total of \$6 just to get in three times.

"At first," said Spike, "we were really worried by the possibility of having to pay a fortune for

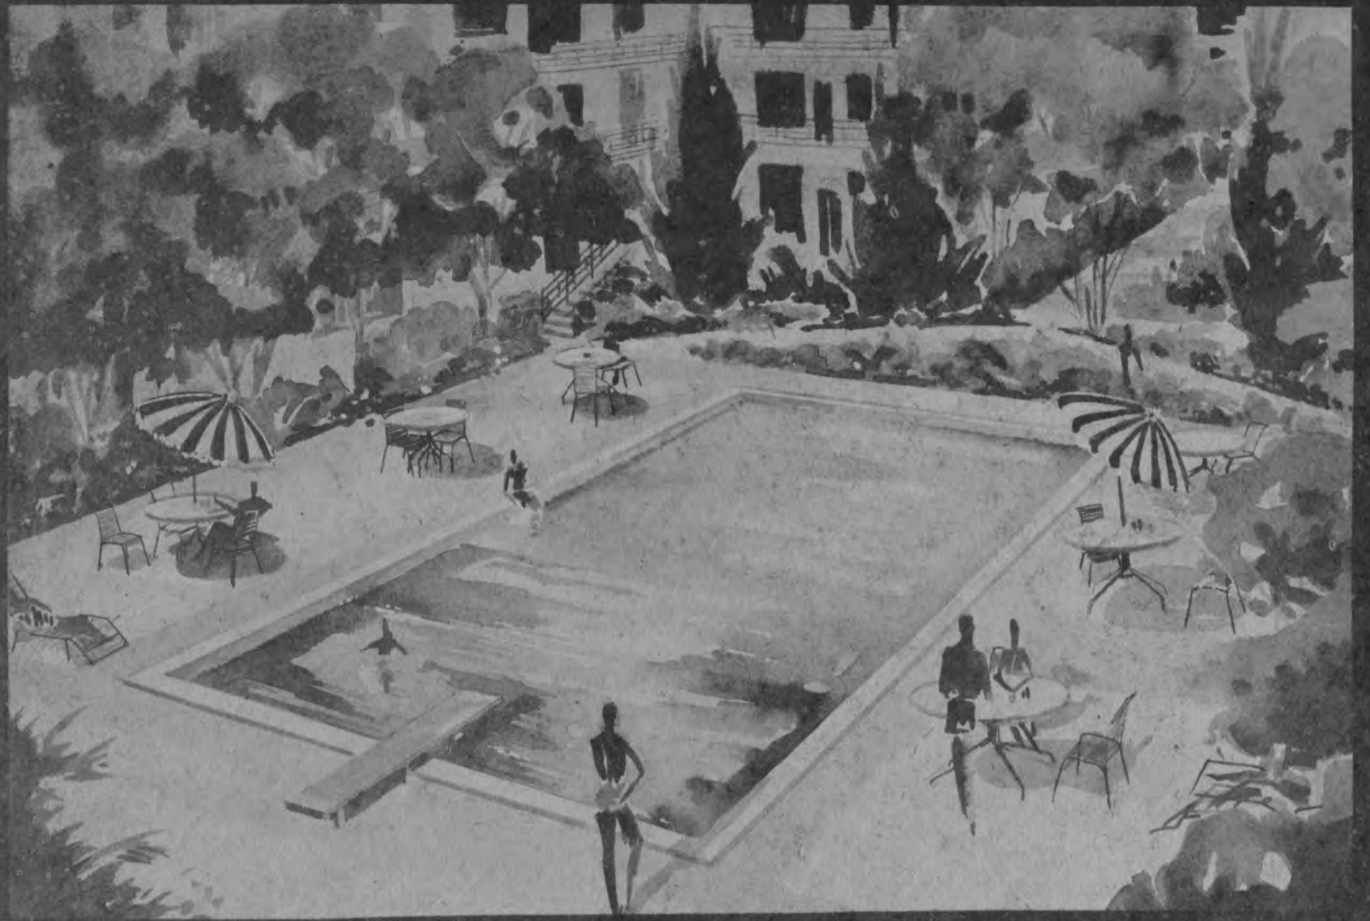

food inside the fairgrounds. But as it turned out, food cost less inside the Fair than in the rest of Seattle." Because of their initial fears, however, they carried large cans of food the first day in the Fair.

Although the trip from Glendale to Seattle took less than 3 days, including a stopover in Portland, the return trip took over 4 days and ended in Santa Barbara. Mishaps, including nearly receiving a 90-day jail term in Portland, and many misconnections cost the travelers much time.

The day before Bo and Spike arrived in Portland on their return home, a fire swept one of the freight repair barns. Since it was the second such fire in less than a month, FBI, city and state police, and railroad detectives were combing the yards for a suspected freight-hopping arsonist. Both Bo and Spike were apprehended and stiffly questioned, then kicked out of Portland. They hitched rides to Salem and there hopped another freight.

Both came home in one piece and with many souvenirs: a World's Fair
