High School Hours Changed; Many Improvements Made

While students, new and old, are beginning to look back rather wistfully over their summer holiday activities, and shuddering with horror at the mere mention of Monday, the twelfth, Carpinteria's Union High School, the particular villain in the case, is lying in wait for them with new courses, a new teacher, a new bus schedule, an improved plant and a new time table.

Classes, which heretofore commenced at 8:10, will begin at 8:00. Successive classes will start on the hour to give students a longer noon hour—from 12 to 1. Although 10 more minutes has thus been knocked off the students' summer vacation, they will doubtless be pleased to learn that Monday's classes will cease at 12:07, noon.

School buses will follow the same route and schedule as last year with the important exception that buses leave all points ten minutes earlier.

A continuation of the freshman and sophomore basic social science courses, the two new courses, Human Relations 11 and 12, comprise a fusing of current literature, psychology, and American and World problems. Compulsory for junior and senior students, they will be taught by Miss Allene Willard Padelford, newly-appointed member of the staff. Miss Padelford was graduated from Fillmore Union High School and UCLA, and has completed post-graduate work at Columbia and USC.

Included in reconstruction work of the school during the summer, is the construction of a "browsing nook," in the library, where students may rest and read. Eighteen

GRAMMAR SCHOOL TEACHERS GIVEN CLASS ASSIGNMENTS

All arrangements have been completed for the opening of the Carpinteria Grammar schools on Monday and it is expected that over 400 children will register at the grammar school and the Aliso school. Monday will be devoted to registration and assigning children to classes and school will be held for a minimum day.

It is expected that the new grammar school bus ordered by the school board will be delivered before Monday. The buses this year will be operated in conjunction with the high school, the buses making two trips each morning (Continued on page 8)

lockers for individual use have been installed in the sewing room, while in the girls' gym, a lounge has been built, replete with radio and furniture.

New linoleum, lockers and tables have been installed in the art room and in the music room, new celotex-lined walls will improve acoustics.

Enrollment for the 1938-39 school year, according to A. E. Southworth, principal, will approximate 165, equal of last year's registration. A slightly larger freshman class is anticipated.

In commemoration of anniversary of the signing of the constitution, a special assembly will be held Friday, September 16, at which a guest speaker, as yet unnamed, will speak.

GRAMMAR SCHOOL CORNER STONE TO BE LAID SEPT. 24.

Plans are being completed for the laying of the corner stone of the new grammar school building which will be held on Saturday, September 24th, at 1:30 p. m. under the auspices of the Grand Lodge of Masons of California. The lodge will convene at the Masonic temple and proceed to the school from there. Complete program for the ceremonies will be announced later.

FIREMEN AND AUXILIARY TO AID CONVENTION

The Auxiliary to the Fire Department met last Friday evening at the home of Mrs. Ted Reed in Summerland. Plans for the State Convention of Firemen and auxiliary members which opens in Santa Barbara on Sept. 27th were discussed and the date of the luncheon to be given delegates set for Tuesday. The affair will be given in the Veteran's Memorial Building in Carpinteria and souvenirs consisting of miniature crates of lemons will be presented to the visitors. Following the luncheon a program of entertainment is being planned and will include dances, musical selections and readings.

The Fire department held its regular monthly meeting on Tuesday evening in Summerland and made plans for its share in entertaining convention delegates and will present a program in Santa Barbara on Wednesday night of the convention.

GOOD FELLOWSHIP CLUB TO RESUME MEETINGS MONDAY

The Goodfellowship Men's Club will resume its regular monthly meetings Monday evening with a dinner at 6:30 at the Community Church following a two months recess during July and August. Dr. Arthur S. Coggeshall, director of the Santa Barbara Museum of Natural History, will be the speaker and has chosen for his topic, "The Educational Value to the Pacific Coast of the Santa Barbara Museum of Natural History."

The committee in charge of preparation of the dinner is composed of Rev. Deane F. Babbitt, chairman; Harry Betts, W. W. Humphrey, George Boverson and W. H. James.

Miss Helen Kellogg of Chicago is the guest of Mr. and Mrs. Arthur H. Young.

Mrs. Edward F. Pendergast was hostess at luncheon Friday afternoon for the members of the Pot Luck club. Her guests were Mrs. Rose Johnston of Seattle, Mrs. Emma G. Marquis, Mrs. J. F. Tubbs, Mrs. S. B. Hohmann, Mrs. J. W. Young, Mrs. O. L. Lyman, Mrs. W. C. Hohmann and Mrs. J. W. Bailard.

Throngs Flock to Beach on Labor Day as Season Closes

PROGRAM TONIGHT ENDS VACATION BIBLE SCHOOL

With the close of Vacation Church school for the year 1938 at the Community Church, paints and brushes, hammers and nails, and the embroidery needles give way to an evening of worship in play and prayer and song. Many have been the activities of the school which reached a new high for attendance of 93 the past weeks. With baseball games between the various groups and interclass competition on the athletic field, the recreational features of the summer school were well attended. Worship and study groups centered their work about the "Active Christian Life," ever "broadcasting" to the world the ethics of Christianity.

Friday evening at 7:00 o'clock the VCS Processional and drill will begin the Exhibition. Parents and friends of the young folks will witness the activity of the various age-groups. As a feature of the handwork this year, constructive work about the church building was emphasized. Each Junior boy and girl sanded and prepared for painting one of the Primary Department chairs. Then he painted the chair red, blue, yellow, or green. Others did work with the lathe, or prepared paper craft for furniture. Miss Rosemary Carton one morning taught "sketching" to Intermediate girls and boys.

Mrs. Thomas Mayfield, assisted by Misses Carol Dane, Margaret Senteney, and Bonnie Shepard directed the work of the Primary Department.

The Junior Study group was led by Miss Marion Bates, a student at Occidental College. Rev. Deane F. Babbitt presented "Foundation Stones," the fundamental principles of the Christian faith to the Intermediate Junior High School boys and girls. Junior workers assisted with the craft and playground work and included Barbara Bates, Donovan Capes, Glenn Capes, Bernard Snow, Kenneth Britain, Junior Stemper, Carol Cummins, Robert Whitcomb, and Nadine Cook. Jean O'Banion was

The crowds which flocked to the Carpinteria beach over the Labor Day holiday brought to a close one of the most successful seasons in the history of Carpinteria and left no doubt but what the local beach will retain its record established last year as the most popular beach in the County. All accommodations at motor courts, camps and hotels were taken over the holiday by out-of-town visitors and crowds from neighboring communities flocked to the beach for the day.

Although no check has been made, judging from the amount of General Delivery mail handled during the past two months by the local post office it is believed that a new high in summer tourists was reached this season.

Carpinteria's right to proclaim the local beach as "The World's Safest Beach," was again demonstrated this summer according to Gates Foss, life guard who stated that no serious accidents occurred during the season and that, although assistance was given several times to swimmers in minor difficulties, no bathers were ever in danger of drowning. Classes in swimming were conducted throughout the season for beginners and advanced swimmers and recreation supervisors for younger children were provided.

Although the peak of the season has passed the beach will prove popular for several months to come and is expected to draw good crowds over the week-ends.

COUNTY PUBLICITY DIRECTOR TO BE AT C. OF C. MEET

The Carpinteria Valley Chamber of Commerce will hold its regular monthly meeting next Wednesday evening at 7:30 p. m. in the chambers of the Justice Court in the Veteran's Memorial Building. Herbert L. Voight, recently appointed County Director of Publicity will be present at the meeting to discuss plans for publicity for the entire County, including Carpinteria.

History of State Beach Park Traced Back for 103 Years

It is a peculiar, but well known, fact that people are often unfamiliar with the history of landmarks, parks, etc. situated in their own community and this fact was again proven when an inquiry was received several weeks ago by the Carpinteria Chamber of Commerce and Carpinteria papers concerning the history of the State Beach Park. The information was requested by Mrs. W. K. Hicks of Berkeley, California, who is engaged in research work at the University of California on the history of state parks. After several weeks work this data has been secured through the co-operation of Yris Covarrubias, County Recorder, the local Chamber of Commerce and several local residents and is being published in this issue in the belief that many Carpinterians will be interested in the history of the park.

The State Beach park is located on a portion of an original Mexican grant made to Teodoro Arellanes by Jose Castro, then Governor ad interim of Upper California, 103 years ago in the year 1835, which was described as containing

"one square league, a little more or less, known by the name 'El Rincon'. On April 6, 1852, Arellanes, as claimant, filed a petition for title with the Land Commissioners appointed to ascertain and settle the Private Land Claims in the State of California, sitting as a Board in San Francisco. On November 22, 1853, the claim was rejected and the decision appealed to the District Court of the United States for the Southern District of California. The court reversed the commissioners' decision and confirmed Arellanes claim to the extent of one square league containing 4445.63 acres known as 'El Rincon' and bounded by the 'Arroyo de los Sauces,' the Arroyo de la Brea,' the Arroyo de las Casitas' and the sea shore. The Patent was signed by U. S. Grant, President of the United States on the 26th day of November, 1872.

However, before the Patent was granted Teodoro Arellanes granted all his interest in the property to his son-in-law, Matthew H. Biggs, under date of April 10, 1855, stating that his title was not clear (Continued on page 8)

ADMISSION DAY

California celebrates her birthday with eighty-eight shining candles today. Far from being like a toddling octogenarian on September 9, the Golden State is still a youngster rich in resources, strong in her determination to fulfill scarcely tapped potentialities, proud of her position of leadership among the great states of the West.

If present evidence yields any clues, California has chapters of high significance yet to write into the annals of American history. As the 1940's rapidly approach us, her importance as a strategic outpost of the American continent fronting the oceanic empire of the Pacific, steadily multiplies.

But California has always been an important history-maker from the time the first Spanish caravels skirted its thousand-mile shoreline in the sixteenth century. The jealously sought prize of world powers, the flags of four nations—Spain, Russia, England, and Mexico—set their seals of sovereignty upon this land before the Flag of the Republic, and later the Stars and Stripes, claimed California for America's own.

In that year of 1850, the state could boast a population of scarcely 90,000, but its history since then shows a prodigious growth in population, and in the multiplication of its wealth as traders, merchants, and enterprisers with vision, erected upon this frontier a thriving empire.

The task of empire-building is far from done. In honoring her eighty-eighth birthday, California celebrates the fact that she is only eighty-eight years young with many ambitious tasks yet to be undertaken. And to the state of their choice, six million Californians extend on this occasion a hearty "Many Happy Returns of the Day!"

YOU CAN REGISTER!

Next to the last barrier in California's political steeplechase has been hurdled to the accompaniment of some startling upsets.

With less than ten weeks left before the remaining contenders thunder across the finish line, the citizen who failed to participate in last week's primary should take a timely reminder from this fact:

It is NOT too late to register for the November 8 election! You have until September 29 to make that brief but highly important visit to the office of your county or city clerk.

Good citizenship dictates that course. Self-interest demands that minimum concern for the proper choice of the men and measures that will affect the welfare of the state and the livelihood of us all. Seldom has that concern been more imperative than this year. Efforts to break the dykes against unwarranted public spending are appearing in all manner of guises. There is even a proposal to lower the present required two-thirds vote on local bond issues to a bare majority

The Churches

Carpinteria has a number of Churches, whose pastors and members will be glad to welcome you to their services.

CHRISTIAN SCIENCE SOCIETY

Christian Science Society, Carpinteria, a branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., holds service every Sunday at 11 o'clock a. m., Sunday School at 9:45 o'clock. Mid-week meetings every Wednesday evening at 8 o'clock.

A reading room is maintained in the church building, open Tuesday afternoons (except holidays) from 2:30 to 4:30 o'clock.

Jesus' words, "Blessed are they which do hunger and thirst after righteousness: for they shall be filled," are the Golden Text in the Lesson-Sermon on "Substance" on Sunday in all Churches of Christ, Scientist.

One of the Bible selections in the Lesson-Sermon presents these verses from the Proverbs: "Doth not wisdom cry? and understanding put forth her voice? Unto you, O men, I call; and my voice is to the sons of man. Hear; for I will speak of the excellent things; and the opening of my lips shall be right things. I lead in the way of righteousness, in the midst of the paths of judgment; That I may cause those that love me to inherit substance; and I will fill their treasures."

Passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, state "Man Walks in the Direction Toward which he looks, and where his treasure is, there will his heart be also. If our hopes and affections are spiritual, they come from above, not from beneath, and they bear as of old the fruits of the spirit." "Things spiritual and eternal are substantial."

THE CARPINTERIA COMMUNITY CHURCH

Rev. Deane F. Babbitt, Pastor.

September 11, 1938.

Beginning promptly at eleven o'clock the Morning worship on Sunday morning will terminate at eleven-forty-five. A special Congregational meeting is called immediately following the close of the worship. Specifications and plans for the new Community church of Carpinteria Valley will be presented at that time. All members of the church are urged to be present. The devotional address by the pastor will concern "The Marvel of Man," based on the 8th Psalm. Mrs. H. M. Kent will sing a contralto solo. Music by the choir will consist of "The King of Love" by Shelley and "God Will Hold You Fast" by Harkness.

Youth Fellowship will meet at the home of Misses Ethel and Margaret Senteney on Olive Avenue at 6:30 o'clock with Miss Martha Thurmond presenting "Shall I

ELLIOTT EXTENDS THANKS TO VOTERS

TULARE—Congressman Alfred J. Elliott of the Tenth California district today issued a public statement expressing appreciation to voters for the large margin accorded him in winning the Democratic nomination at the primary election.

Final tabulations indicate that Congressman Elliott's vote will exceed 25,000 when absentee ballots are counted, more than two-to-one over the nearest contender and practically as many ballots as all other candidates combined.

The formal statement released today from Elliott headquarters here said:

"I wish to take this means of extending my thanks and appreciation to the voters of the Tenth Congressional district for the very fine and uniformly strong support given me in all areas in winning the Democratic nomination for Representative in Congress at the primary election. The loyal and effective work in my behalf by friends and supporters throughout all communities in the Tenth District is particularly appreciated.

"While the final election does not take place until November, the splendid support accorded to me at the primary is proof that the people of this district approve of the service I have endeavored to render to them at all times and will continue to perform for them if returned as their representative at the forthcoming general election."

vote, so that cities and counties may be more easily launched into extravagant programs at the behest of those least able to carry the tremendous debts incurred.

Of California's 3,400,000 registered voters, only 900,000 are common property taxpayers. But this minority will pay the share of the bills run up by such a measures as the Garrison Bond Act. There is need for them and all others who want a policy of moderation and thrift to prevail, to go forth and help balance the budget with ballots.

One of the first steps in that direction is for unregistered citizens to register today, and assure themselves a voice in choosing the men and measures they want to be governed by.

WOMEN IN THE NEWS

By LEONE BAXTER

Between matrimony and bankruptcy, it has long been contended by some, there exists an unmistakable relationship. This week substantial backing for the contention is unearthed. The rise and fall of the marriage index, analysts report, is closely related to the rise and fall in business failures!

But before any dour-faced gentlemen or ladies of the anti-marriage school shout, "I told you so!" the experts hasten on with their story. As marriages increase, it is learned, bankruptcies become less common. An increase in the number of brides and grooms is a sure sign of a shortage in receiverships.

Good times and good intentions are birds of a feather. When dollars are available for rings, honeymoons, homes and furniture, young men and women more eagerly accept the burdens and blessings of matrimony according to the survey.

Cupid, on the other hand, finds it difficult to make his way into a house where the wolf sits growling on the front steps.

Most women find little to interest them in the usual business barometers—car loadings, industrial production and steel quotas. But marriage, it seems, is one business index worth considering, and when prosperity is measured in terms of brides and wedding bands, women will watch the ticker tape with real interest.

Across the seas the marriage barometer is geared to propaganda rather than prosperity. In good times or bad, the war lords of fascism make no secret of their strong regard for matrimony—in wholesale lots. Since their interest is primarily in birth rates and their relation to future military strength, they have adopted regular schedules of marriage subsidies.

Already more than a million German women have taken advantage of the cash and credit of Nazi nuptials. To dramatize his success as Cupid, Der Fuehrer this week ordered a bell rung at twelve minute intervals in a central Berlin tower, each tinkling symbol proclaiming the birth of another little "Aryan"—a new recruit for Hitler's legions.

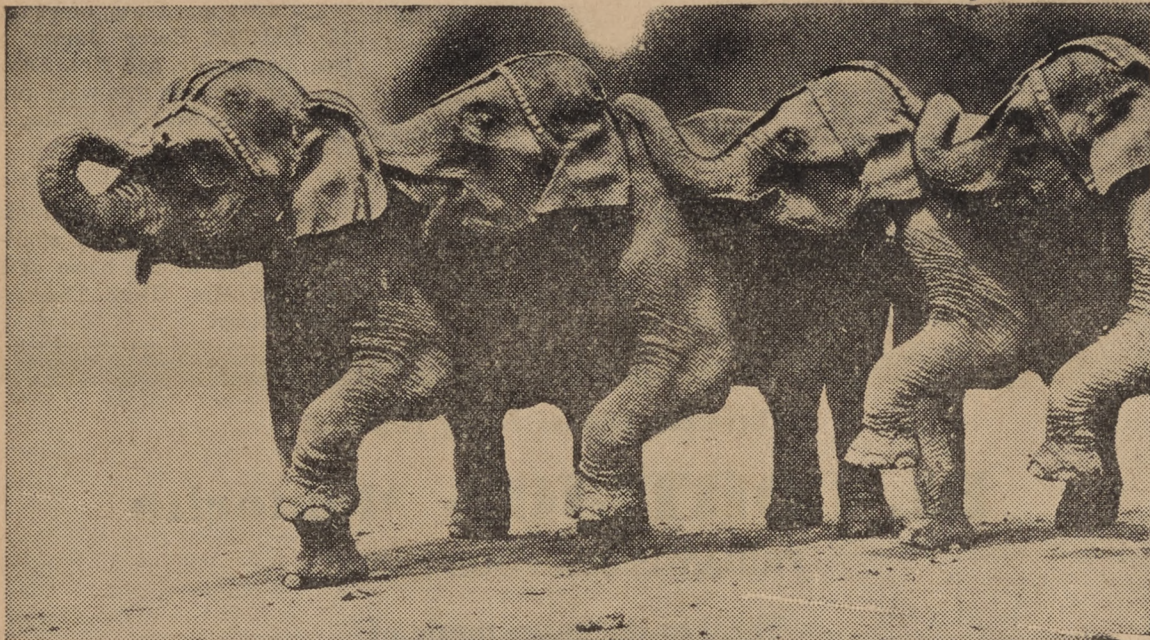

Italy, in the past ten months, has advanced more than two and a half million dollars to thirty thousand couples who wanted children and couldn't afford them. So far, Italian reports naively disclose, "the full effect of the loans has not been determined."

Meanwhile, democracies watch their birth rates slow down. French marriages decreased 22 per cent in the past eight years, and 133,000 fewer children were born last year than in 1930. That's a loss of several regiments, according to the European system of recording births.

The system does not suit America, unwilling to accept militarism as a national philosophy. Old fashioned, we still prefer to consider marriage as a somewhat romantic culmination, leading to happier people, new homes and children—children who'll be prideful, law-abiding citizens—not raw material for future wars.

Mrs. Rose Johnston, who has been spending the summer with her sister-in-law, Mrs. John W. Young left this week for her home in Seattle.

Mr. and Mrs. Hugh Latham and son, Hugh, of El Centro, were holiday guests of his brother, Marc Latham and family.

LEGION CARAVAN
DUE SEPT. 15TH**

Walter Lee, grand chef de gare passe of the 40 et 8, who will head the Mississippi Legion caravan on its 5,750 mile journey from Jackson to the national parade in Los Angeles visiting Carpinteria on Sept. 15, has announced that in addition to the expensive array of floats which make up the state flotilla, a caravan of 40 & 8 locomotives, manned by a crew of uniformed Legionnaires, will make the trip to the West Coast, leaving about a week prior to the Los Angeles parade of September 22.

Annie Laurie Bishop, the scintillating Tupelo drum major, who at the New York parade last year attracted such widespread attention, has been selected for the second consecutive year to be lead drum major of the Mississippi marching units and will thus head the first band of the parade.

Bobbie Vaughn, beautiful blonde drum major of Magnolia, winner of the national high school championship in drum-majoring at the Louisville, Ky., contests last spring, has been selected to lead the second band in the national parade, Mr. Lee announced.

The Legion caravan, comprising five immense floats and two maintenance vehicles, left Jackson August 21.

The caravan is accompanied by Miss Elaine Russell of Vicksburg, whose brunette beauty brought her the national title of "Miss American Legion." She will act as personal representative of Governor Hugh White, extending his greetings to high Legion dignitaries and governors of states included on the itinerary.

Miss Jean Shorkley, who has been spending the past month at the home of her uncle, Dr. George Shorkley, in Mt. Vernon, Wash., has enrolled as a student in the home economics department in the University of Washington in Seattle.

Miss Cora Upp of Van Nuys was the guest of Mrs. L. B. Cadwell during the past week.

THE CARPINTERIA CHRONICLE

FRIDAY, SEPTEMBER 9, 1938

Your Hollywood Correspondent Reports . . .

Jack Benny and Don Ameche back in town from a Northern fishing trip with lots of tan but no fish. Mary Boland home from a European vacation to start working with Charlie Ruggles in a Paramount assignment, as yet untitled. Olympe (O-lamp) Bradna is getting instructions from her maid on just how to act the maid role with Ray Milland in "Say It in French." Louise Campbell getting ready for a vacation at Lake Louise and Banff, just as soon as she sees the preview of her latest picture, "Men With Wings."

George Burns and Gracie Allen tried to prolong their Honolulu trip, but radio work necessitates their return to Hollywood September 7th. Mary Carlisle is having an elaborate cage built to house the peacocks she's getting for her garden. John Howard is asking advice from the carpenters on "Scotland Yard Against Bulldog Drummond," on the furniture he's building for the new home recently bought his mother and father. Lloyd Nolan has two riding horses but never uses them. They're for his wife, who is an expert horse-woman. Claudette Colbert is already conferring with studio executives on her next assignment, "Midnight." She will start in it just three weeks after completion of her role opposite Herbert Marshall in "Zaza."

Gail Patrick brushing up on her legal jargon for her role in "Disbarred." The new garage at Fred MacMurray's home is for his chauffeur's new car. Claudette Colbert all excited about her coin cards which she's collecting. Frances Farmer and Leif Erickson leave Hollywood the first part of September, following completion of their roles in "Escape From Yesterday," to fill stage engagements for the winter season.

Gail Patrick's glass collection includes some goblets that are not only guaranteed against breakage but have a composition in them that makes them bounce if they

Ray Milland and Dorothy Lamour who will be seen in the screen at the California Theatre starting Saturday in "Tropic Holiday," which stars Bob Burns and Martha Raye. Warner Baxter and Marjorie Weaver are seen on the same program in "I'll Give a Million."

ANN HARDING TO APPEAR IN TITLE ROLE OF "CANDIDA"

Paying her first visit to Santa Barbara, of a professional nature, Ann Harding celebrated stage and motion picture star, will be welcomed by her host of friends September 23 and 24, in the greatest of all Bernard Shaw's plays, "Candida."

are dropped! "Two Sleepy People" the song Bob Hope and Shirley Ross will sing in "Thanks for the Memory," promises to be another hit, according to all the people on the set who have heard the recording. Betty Grable and Jackie Coogan are looking for a new house, so that they'll have more enclosed ground for their Great Dane dogs.

The two evening performances of this splendid play at the Lobero Theatre will truly mark one of the fine productions of the year and one which no follower of the legitimate drama will want to miss.

Harold Purdy, manager of the Lobero Theatre, announces that already large advance mail reservations indicate that a sell-out will await the distinguished star. It is therefore urged that patrons of the theatre make their reservations now and avoid a possible disappointment in not being able to obtain choice seats.

Miss Harding appeared in "Candida" in England and the provinces, with great success, playing for six months. At that time motion picture commitments forced her to leave the cast, but the play continued on for another three months. George Bernard Shaw, himself, came into London to witness the performance, opening night, and is said to have been extremely pleased with Miss Harding's interpretation of what has been declared to be, the author's greatest heroine.

A splendid supporting company appears with Miss Harding, includ-

George Raft, Henry Fonda and Dorothy Lamour in "Spawn of the North" now playing at the Fox Arlington Theatre. Also on the same program, the Jones Family in "Safety in Numbers."

ing Paul Cavanaugh, Virginia Sale, Ernest Cossart and Clay Mercer. The play is being staged by Phyllis Loughton. Homer Curran and Luther Greene are presenting the production.

A recreational playground for children will occupy a large area on Treasure Island next year when the Golden Gate International Exposition opens on February 18.

KNOWS HIS STUFF

Wen Wright, youthful and handsome cowboy, who has won many rodeo championships in the United States and Europe, is appearing in Harry Sherman's Hopalong Cassidy production, "Frontiersman," a Paramount release, starring William Boyd. Wright is a protege of Robert Cobb, Hollywood restaurateur.

HUNTER TRIALS TO BE HELD AT HOPE RANCH ON 17TH, 18TH

Santa Barbara's annual hunter trials will be held this year September 17 and 18 over a course in fashionable Hope ranch it was announced yesterday from headquarters of the Riding and Hunt club, under whose auspices the event will take place.

The two-day equestrian exhibition will include a free program Saturday afternoon, which will see all horses entered competing in sensational jumping events on the Hope ranch polo field.

Sunday morning dressage competition is scheduled with points in this event to be counted in ultimate choice of winners of the entire trials. The afternoon will see big-boned thoroughbred hunters from the tri-county area and Southern California running and jumping over a hazardous four-mile course.

Many Obstacles

Nineteen obstacles will be in plain view of spectators at all times and include a water jump, pig pen, drop jump, closed gate, Aiken fence and other difficult hazards. The course will include two miles over roads and trails now used as bridle paths daily and two miles of open country.

A large entry of horses is expected for the annual event which will draw many of the competitors at Santa Barbara's recent horse show which featured one of the finest class of hunters and jumpers ever brought together in one ring.

The Hunter Trials committee consists of Charles E. Perkins, chairman; Harold S. Chase and Silsby M. Spalding. Major Count George de Roaldes is Hunter Trials director and George E. Jones treasurer.

BRING A CHICKEN, SEE CIRCUS FREE

Hagenbeck-Wallace Circus Presents **BLACAMAN**, Hindu Animal Hypnotist, for First Time in America. Blacaman hypnotizes Crocodiles and Lions. He Will Hypnotize Your Chicken and Give You a Cash Prize.

The lowly barnyard fowl comes into its own at last.

Not since the days when the mythical Chanticleer thought he made the sun rise with his nocturnal crowing has the domestic chicken achieved so much importance as it receives with the announcement by the Hagenbeck-Wallace Circus that it will admit to either afternoon or evening performance two adults or two children in exchange for one large chicken when the big show comes to Santa Barbara on Wednesday, Sept. 14.

Yes, there's a method in this madness.

The biggest single feature of the circus' 1938 program is Blacaman, Hindu hypnotist of jungle-bred lions and River Nile crocodiles. Blacaman occasionally varies his routine by exercising his strange mental powers over domestic animals. Each chicken brought to the main entrance of the circus will be tagged for identification and honored as a ticket for two persons. At conclusion of the Blacaman demonstration, in which he risks death in an arena with his thirty-two lions and hissing crocodiles, he will select several chickens which he will put into a hypnotic state.

Now don't laugh. Blacaman scoffs at the suggestion that he would resort to any such childish tactics as the familiar tucking of a chicken's head under its wing and thereafter rocking it to sleep. Hypnotizing a chicken according to Queensbury rules is no cinch

WARNING ISSUED ON USE OF SOCIAL SECURITY CARDS

SACRAMENTO—California business men today were cautioned by the State Department of Employment to insist on proper usage of social security cards.

The social security account number, the department announced, has no significance whatever beyond its use for identification purposes under old age pensions and unemployment compensation.

A recent announcement by the Social Security Board states:

"The Social Security Account number card should not be accepted by merchants as identification when exhibited by persons who want to open accounts or have checks cashed, nor should it be regarded by employers as evidence that young persons may be hired in accordance with child labor requirements."

The California department also added the statement that every person cashing an unemployment compensation check should show his social security card at the time, and pointed out that the social security number on the card and check should correspond.

YOU'VE SEEN

The new "high-pile" coiffure being adopted by girls from coast to coast is called "Zaza" hairdress because Claudette Colbert wears it in the Paramount picture of that name. The period is 1904.

and when accomplished, the owner of the fowl will be awarded a cash prize by the circus management.

It all adds up to a lot of fun, but it has its practical side, too, for the circus dining department will get the entries after the contest is over.

FIRST ATTEMPT FATAL

The first airplane picture ever made in Hollywood — date 1915 — resulted in a fatal crash to a pilot, research for Paramount's Technicolor cavalcade of the air, "Men With Wings," revealed today.

FOREST FIRE HEROES TO BE GIVEN MEDALS

The establishment of an American Forest Fire Medal in recognition of heroism in forest fire battles has been proposed by the United States Forest Service. Announcement of the award movement came as an outgrowth of the Blackwater fire tragedy in Wyoming last year when 15 national forest officers and CCC fire fighters lost their lives in the flames.

Under the sponsorship of the American Forestry Association of Washington, D. C., funds are already being raised to endow the national fire medal. It is the first award of its kind to be established.

The basic purpose of the award, states the Forest Service, is to show public appreciation to individuals for outstanding acts exhibiting the highest degree of personal courage, judgment and initiative in fighting forest fires anywhere in the United States. Any individual or public officer may be eligible for the award after "unquestionable evidence is presented that he has performed an act worthy of consideration for such an award." The medal may be awarded posthumously.

The award committee will selected by the American Forestry Association, National Lumber Manufacturers Association, Society of American Foresters, Pack Forestry Foundation and the Association of State Foresters. The American Forestry Association will sponsor and handle all matters pertaining to the award.

"Forest fire fighting in this country is the most arduous and hazardous task which a forester, or a forestry or protective employee is ever called on to perform," commented Regional Forester S. B. Shaw. "Not only may one individual's life and limbs be endangered but oftentimes this individual may be responsible for hundreds of thousands of dollars' worth of public resources or property as well as for the safety and lives of other fire fighters."

"Because of this, an individual is often called on to display in the highest degree qualities of courage, judgment, quick thinking, and coolness and under extreme emergency conditions, real heroism. These qualities heretofore have been formally recognized in some specific cases merely by letters of appreciation and commendation from those higher in authority." —From Ranger Ray McCormick.

NEW ORCHESTRA AT EL CORTIJO PROVES POPULAR

Although Jimmy McPherson's Alamoria orchestra only started its engagement at the El Cortijo, the popular Monteito cafe on Tuesday evening of this week there is no question but what the band is already one of the most popular ever to play at El Cortijo.

The band is composed of Jimmy McPherson, Woody Hefner, Kenny Miller, Fred Gettle, Dale Heric and Harry Bloch and is exceedingly versatile. All the boys are ex-

BUSINESS SPEAKS—There are 2,009,935 business concerns in America employing 30,644,000 persons, according to the latest statistical Abstract of the U. S. These two million companies—large and small—are the creators of America's standard of living, highest in the world. That they are being subjected to attack, observers agree, is due in large part to their failure to tell the public about their objectives. There are always two sides to a story, but to date the American public largely has heard only the version of business' opponents. Therefore, announcement in New York by the Great Atlantic & Pacific Tea Company that it is cooperating with consumer or other public study groups caused quite a ripple on industrial waters as marking a new area in corporate public relations.

The A & P, in announcing a \$2,000 contribution to an Emergency Consumers Tax Council representing women in some 100 New Jersey communities, told the public frankly that it is cooperating with "this and similar organizations dedicated to the protection of the consumer from further rise in the cost of living as a result of punitive or confiscatory taxes levied on independent merchants, chain stores, producers or distributors of any kind. We feel the great need is to help provide ways and means of bringing out the facts. The people will form their own opinions. To this end, we are planning to augment cooperation with consumer groups with a program of paid advertising in the near future."

cellent vocalists and double on several instruments including drums, accordion and xylophone, all of which have not been previously a feature of El Cortijo orchestras.

On Tuesday evening, the opening night, the orchestra received a flood of telegrams of congratulations from fans and previous employers throughout the southern part of the State. Prior to coming to El Cortijo the band completed its role in the current picture, "Alexander's Rag Time Band" and is well known to visitors to Catalina having played for four seasons at the Marine Room at the White Cap on the island.

GRAMMAR SCHOOL TEACHERS (Continued from page 1)

over the same territory picking high school students on the first trip and grammar school students on the second. It is believed that this system will effect a considerable saving for both school districts. Bernard Church will drive the new bus and Dave Cummings will drive the smaller bus. Chas. Treloar will drive the high school bus making the Summerland run and Cy Treloar on the other high school bus.

Grammar school teachers have been assigned to the following classes: Main School, Kindergarten, Ellyne Mallory; 1st grade, Leona Smith; 2nd grade, Maralyn Cravens; 3rd grade, Dorothy Smith; 4th grade, Alice Langdon; 5th grade, Ruth Stombs; 6th grade, Mary Rystrom; 7th grade, Vivian Rodriguez; 8th grade, James Kent.

Aliso school: Beginning first, Mrs. Lucie Treloar; 1st and 2nd grades, Lella Robbins; 2nd and 3rd grades, Catherine Jones; 4th and 5th grades, Georgia Nelson; 5th and 6th grades, Charlotte Morrison; 7th and 8th grades, Ray Denno.

Mr. and Mrs. Ferlys W. Thomas and children have returned from a vacation trip to Mammoth lake.

HISTORY OF BEACH PARK (Continued from page 1)

due to patent still pending.

Under date of August 12th, 1882, ten acres of the land now included in the park, were deeded to Henry C. Ford by Biggs in consideration of \$1300. Ford, in turn, deeded the property to Helen W. S. Ford under date of Jan. 1, 1888.

A number of parties who have held title to some part of the property which was later deeded to the State of California for park purposes are: Mary A. Ashley, acquiring from Helen W. S. Ford and her husband; California Petroleum & Asphaltum Co.; Alcatraz Asphalt Company; Alcatraz Company; William H. Crocker and wife, Ethel W. Crocker; Daniel Andrew Sattler and wife Edna Julia Sattler; Andrew Sattler; Clarence R. Sawyers, Harbron W. Morris, Richard W. Morris and J. C. Cummings; Edward B. Coyle; Cerca Del Mar Hotel acquired the property from Jesse Carl Cummings and wife Vera Estelle Cummings, and from Edward B. Coyle. Cerca Del Mar Hotel then deeded the property to the First National Bank of Santa Barbara, who then deeded it to the County of Santa Barbara, leading up to the last deed which was from the County of Santa Barbara to the State of California, as an addition to the State Parks, which deed was recorded February 18, 1932.

The park contains the Cerca Del Mar Club House which was built in the latter part of the 1920's by Edward B. Coyle and the Carpinteria Beach Club, a corporation

which included many local residents as stockholders. Also included is a portion of a pier which was under construction at the time Coyle passed away suddenly. The affairs of the corporation were found to be in bad shape and the property was finally acquired by the First National Bank of Santa Barbara.

Through the efforts of local citizens, including E. D. Solari, C. R. Sawyer, and Dwight Murphy of Santa Barbara, the County entered into an agreement with the state to purchase the site and adjoining property for a state park.

Title to the entire plot of the State Park was finally passed to the State on February 18, 1932 and the property opened to the public. The entire cost of the park was \$106,010 of which \$53,000 was paid by the State and \$53,010 by the County. The park contains 16.88 acres including 821 feet of ocean front which was acquired as follows: from the First National Bank of Santa Barbara, 7.50 acres; from D. A. Sattler, 1.79 acres; from Hester S. Fish, 2.53 acres and from Helen H. Fish, 9.38 acres.

Today the Park is used by organizations from all over the state and is visited by approximately 75,000 persons annually. Picnic tables and barbecue pits have been provided and the club house, which contains a large ball room, and several other large rooms as well as quarters for the custodian, R. G. Bassett, is used for dances, badminton, ping-pong, etc. No charge

is made for the use of the beach, dressing rooms, etc. but a small fee is charged for the use of other facilities to cover cost of maintenance.

Extensive plans which call for a trailer camp, tennis courts, baseball diamond and conversion of the slough into a lagoon are on file in the State Park Department but no action has been taken because of the financial condition of the State during recent years. When it becomes possible to carry out these plans, the Carpinteria State Beach Park, with its ideal climate, its beach which is rated by experts as the finest in California, will undoubtedly become one of the show places of the State.
