HOW ARE WE DOING?

This is the question being asked by the UCen Customer Service Focus Group Project. The UCen is looking for suggestions in order to serve customers better. Separate forums with Faculty/Staff and Students provided us with many helpful suggestions and we'll continue to conduct these sessions each quarter. We'll update you on future customer service activities; in the meantime, please continue to bring any comments you might have to the UCen Information Desk.

It took Galileo 16 years to master the universe. You have one night.

It seems unfair. The genius had all that time. While you have a few short hours to learn your sun spots from your satellites before the dreaded astronomy exam.

On the other hand, Vivarin gives you the definite advantage. It helps keep you awake and mentally alert for hours. Safely and conveniently. So even when the subject matter's dull, your mind will stay razor sharp.

If Galileo had used Vivarin, maybe he could have mastered the solar system faster, too.
