NO. 10

WOLF SAILS FOR TAIHITI FEB. 22

STUDIES NATIVE LIFE AND ART

Mr. Hamilton A. Wolf, head of the Art department, left Wednesday for San Francisco, where he will sail for Tahiti February 22, on the "Maunganui." Upon reaching Tahiti, Mr. Wolf expects to spend but a short time there, as he will depart almost immediately for the small island of Raitea, about one hundred miles from the capital. It is on this sparsely inhabited island that Mr. Wolf plans to study extensively and reproduce in drawings and wood-blocks, landscapes and life, native to Tahiti.

According to Mr. Wolf very few distractions to his work will be offered there, as but one white man, a French gendarme, lives on the island. The departing professor has prepared himself well for this situation by studying the Tahitian language, which he says is quite simple. To prove his statement Mr. Wolf washed off an amazing combination of sounds, but the reporter, unfortunate in not having linguistic talents, was unable to record even one Tahitian word.

As if to reassure those who have been dubious about his safety on this remote island, Mr. Wolf explained that the natives are naturally a peaceful people, but because of the ill-treatment accorded them by most white men they are slow in manifesting any friendly feelings towards strangers. "However," Mr. Wolf laughed, "I expect to receive a straw hat, which is their finest token of friendship, shortly after my arrival there."

After an estimated stay of from six to eight months in Raitea Mr. Wolf will leave for Australia and Java. From there he will visit various Chinese and Japanese ports. During his stay in Japan he will live in the home of a Japanese friend, thus facilitating his study of Oriental home-life as a background for his work.

"The Eagle" and "La Cumbre" are anticipating some interesting descriptive news items from Mr. Wolf. Letters from students will always be welcomed by him. Mr. Wolf may be reached, Care of the American Consul, Papeete, Tahiti.

DR. McLAREN TO ADDRESS ASSEMBLY

Instead of the regular assembly Tuesday, the fourth period Monday will be given over to Dr. James McLaren, the orator of California, who will give impersonations of Lincoln and Roosevelt.

The admission to the lecture will be 20 cents.

DON'T LET THEM WAIT
TOO LONG

HIKERS: ATTENTION!

Tonight the Outing Club leaves on one of the finest hikes planned for this year. An all night hike to La Cumbre. A large group of hikers is expected to be ready to start about 11 o'clock, and a less number is expected to reach the summit in time for the sunrise. The party will be chaperoned by Mr. and Mrs. C. L. Jacobs, Miss Bess Exton and Miss Weage.

The hikers will congregate in the Mechanical drawing room, and will leave from the College. If all goes as planned, the party should arrive in time for the sunrise, which should prove to be one of the biggest treats that the College can offer. After the sun comes up Saturday morning, the hikers (all of them we hope) will go to Flores Flat where a hearty breakfast will be enjoyed (absolutely) by all. Everyone should be at home and in bed by noon Saturday.

The entire school is invited to participate in this event, an especial invitation being extended to the students. Those who intend to go should sign up on the list posted in the corridors before three o'clock this afternoon, and should also pay particular attention to the equipment necessary for the trip. Everybody—Let's Go!

COLLEGE RATES HONOR SOCIETY

A movement is on foot to form a Scholarship Society and affiliate with one of the nationally known Greek Fraternities.

The suggestion which was given about a year ago in the Student Body by President Phelps, has been taken up by Messrs. Jess Hawley and Rene P. Le Fevre.

They, in conjunction with Dr. Stockton, have been working on this for the past two weeks, and have been getting general student opinion on the matter.

The admission requirements of this society would tend to elevate the scholarship standard and character of the students.

Further development will be announced later.

OLD FASHIONED DANCE IS GREAT SUCCESS

An Old-fashioned party was given Friday, February 8, at the College gymnasium under the auspices of the Freshman class. The gymnasium was decorated in keeping with the party. During the evening special features were given, a solo by Adelaide Abbott and an old-fashioned dance by Betsy Dunbar and Adelaide Abbott, which was enjoyed by all. Boyle's orchestra furnished the music for the evening. The party was a success, due to the social chairman, Frances Drew, and committees of Daphne Lathim, Christine Hamilton, Jean Matteson and Edmund O'Rielly.

Literary Contributions To Annual Due Soon

Contributions for literary department of the annual are being turned in, according to the literary editor, but some departments of the school are not yet represented. Stories, poems and skits must be in by next Friday. They should be submitted to Eleanor Zerby or Margaret Burke. The staff is desirous of having at least one literary contribution from every department of the school in this year's magazine, so students are urged to try their hand at writing a short story, a clever skit, or a poem before next Friday.

GLEE CLUBS ARE PRACTICING HARD

The Men's Glee Club is practicing hard for their tour which is to be made the week of April 28 to May 3, and which will include a good portion of the state in its itinerary.

According to present plans, the Glee Club will go north along the coast by way of Santa Maria, crossing over to Bakersfield and from there through the southern part of the valley, back by way of Lancaster and home through the towns of Ventura county. Concerts will be given in practically all towns along the route. Exact notice of the itinerary will be given in The Eagle at a later date.

The dress suits ordered by the Men's Glee Club are expected to arrive soon.

The Woman's Glee Club is starting to practice the songs which will be given College Night.

President of Southern College Speaks to Students

President Bird of Occidental College addressed the students on Lincoln's Birthday. He extended greetings from Occidental College and paid a brief tribute to Abraham Lincoln.

"H. G. Wells," he stated, when asked who the six greatest men of the world were, gave the following list: Jesus of Nazareth, Buddha, Asoka, Aristotle, Bacon, and Abraham Lincoln."

President Bird quoted Arthur Brisbane as having said in an editorial that if Abraham Lincoln had gone to college he would have been ruined, for he would have lost the passion and enthusiasm which made him such a big man. President Bird stated that he did not believe that a man of Abraham Lincoln's character would have lost any of his passion for right or power had he received a college education.

In concluding his talk, President Bird mentioned the three objectives of college. The first object, he said, is to develop a willingness to learn. The second is to produce a greater capacity for thinking, and the third is to create greater courage to think.

COLLEGE CAMPUS TO BE IMPROVED

NEW SHOP BUILDING IS PLANNED

Extensive improvements, to include the building of a new machine shop building, repairs of the old building and further improvements of grounds are being planned for the Santa Barbara State College. According to President Phelps, work will proceed as soon as the plans for the new building have been finally approved by the state.

According to present plans, a new machine shop building will be built to the west of and below the present machine shop building, between the building and the tennis courts. It will conform in design to the general architectural scheme of the college buildings, and will have an exceptionally pleasing exterior. The building will be probably forty-five by ninety feet, and will be two stories in height.

Plans are now being made whereby the building will be constructed by students of the summer session under Mr. Altucker, who had charge of a building class here last summer.

Other improvements include repainting and refinishing of concrete surfaces of the present buildings, and also landscaping on the north side of the building. Foundation planting in this section has already been carried out, and the lighter planting will now be made. Work on these projects will start within a few weeks.

SNAPPY STUDENT BODY MEETING HELD TUES.

The Student Body meeting held last Tuesday was the peppiest of the year, according to student members, who seemed both pleased and astonished at the spirit shown. The feature of the meeting was the awarding of basketball letters by President Keeler and Manager Seegert. Through the combined efforts of Aaron Knapp and Harold Sanford, as yell leaders, the Student Body yelled with enthusiasm and lots of life. Letters were awarded to Captain Minetti, Allan Kime, Jimmy Anderson, Harold Sanford, Rolla Elliott and Perry Linder.

Miss Euna Proper was elected vice-president of the Student Body to fill the vacancy due to the graduation of Miss Isabel Lyons.

In closing, the assembly students joined in singing a snappy school song composed by Knapp and Sanford.

In order that students may learn the song for future singing the words are printed below:

Rah, for our dear Alma Mater,
Rah, for the green and white,
Rah, for the school that loves us,
Rah, for the school that's right,
Rah, for our old college spirit,
Ready to do or die,
Then, give a rah-rah, rah-rah,
and a ray-ray, ray-ray,
For S. B. C. WOW!

GET-TO-GETHER

There is in the curriculum of the college one course the name of which appears nowhere in the course of study, yet a course which educators of the world acknowledge to be one of the most beneficial of any college course; it is the education which may be obtained through contact with others who are pursuing a like course.

No student who goes through college contenting himself with association with a group or clique can truly say that he has had this benefit. Rather, his activities have narrowed him rather than broadened, as they have given him only the views of a small group of self-centered and self-satisfied companions, rather than the broad views of a large group of those who seek to not alone better themselves, but the world in which they live.

There are many branches to any college, therefore many purposes for which the students come, and many points of view in regard to their own relation to the whole. Some enter heartily into everything that is undertaken, while others hold themselves apart either as not caring, or feeling a superiority to the "gang."

The ideal spirit for this college or any college is for each person to realize that he is a cog in the machine, that the machine cannot function properly without him, and that if he stays out he is just so much unattached machinery doing nothing to benefit himself or those with whom he should be working.

MR. WOLF LEAVES

The Santa Barbara State College is glad that Mr. Wolf is to have the opportunity for such a trip as he is taking to the South Sea Islands, but is extremely sorry to lose him from its activities. It is unnecessary to say that Mr. Wolf has made a host of personal friends among students and faculty while he has been here, both through his classes, and through his interest in student body affairs and activities.

All those who have been in Mr. Wolf's classes and have come in contact with him as head of the Art Department, are glad of the opportunity they have had to associate with him. And the college itself has benefited in many ways; among others, THE EAGLE and LA CUMBRE have profited by his advice and artistic contributions, and the beauties of College Night were largely due to him.

THE EAGLE wishes Mr. Wolf "Bon Voyage" and a sure return to S. B. S. C.

CAN'T THIS BE REMEDIED?

The lack of chairs for seating facilities for the Secondary Educational Objectives class is causing much discomfort for many of the members.

The Eagle recommends that members of the class obtain a chair and bring it to class with them as well as their note books.

KEEP IT UP

The Student Body meeting held last Tuesday showed a splendid spirit of united enthusiasm and school "pep." The Eagle wishes to commend the Student Body officials and the two students, Aaron Knapp and Harold Sanford, who conducted the meeting. Many favorable comments were passed concerning the meeting. A continuance of such meetings will do a great deal toward creating a real spirit of school loyalty. Let's keep it up.

COMMUNITY MECHANICS DEPT.

The auto electric class is making great progress. Already a battery charging plant has been constructed under Mr. Rust's supervision and a conduit line has been run to get power into the shop. Batteries have been taken apart, and in a short time complete batteries will be constructed and charged in our own plant. Woodworkers are learning the rudiments of woodcraft under Mr. Blodgett, while Mr. Hull is instructing the young hopefuls in sheet metal work and pumps and irrigation.

The auto shop class is reconstructing a French "Simplicia" automobile, making the necessary gears and other parts, in the machine shop. All parts are measured in the European metric system. The copper class has made a number of interesting things, such as paper knives, ash trays and nut bowls. De Long is constructing a copper lantern. They hope to make, before the term is over, a number of lighting fixtures of hammered copper.

The machine shop is constructing two universal engine stands for the auto shop. These would cost the school about \$160 each if purchased in the open market. They will be made for about one-eighth the cost, in our own shop. The shortage of galvanized sheet iron is a drawback in the tin shop, as the class is unable to proceed with the heavier and more important work without the necessary material.

HOME ECONOMICS DEPARTMENT

Miss Baxter, an artist of note in Santa Barbara, is teaching Landscape Gardening this semester. She is giving this course in its relationship to art. The faculty is very fortunate to have Miss Baxter as a member, and the Home Economics Department welcomes her to S. B. S. C.

The annual election of officers took place at the last Home Economics meeting. The department as a group welcomes the new officers and feels deeply indebted to those who have faithfully stood by their department.

Especially to Ruth Blanchard does the department feel indebted. She has splendidly fulfilled her office as president of the department. She has shown hearty co-operation with her fellow officers and enthusiasm for her work. The new officers are:

President, Bernice Gange.
Vice-President, Mrs. Ema Lasley.
Secretary, Isabel Bolton.
Treasurer, Carrie Smith.

Eda Proper has secured a position in the Orcutt grammar school, where she will commence teaching March 3. Miss Proper plans to spend her week-ends in Santa Barbara with her sister.

How about some clever snaps for the Annual?

ALUMNI NEWS

Miss Roxana Elliott has been accepted by the Woman's Educational and Industrial Union for a course in tea room management. S. B. S. C. claims her as a graduate of the class of 1913. Miss Elliott will take charge of the cafeteria this summer, and she will teach a class in Lunchroom Administration.

Miss Florence Hill Gaylord graduated from S. B. S. C. in 1911. She will return to her Alma Mater in the fall of 1924. Miss Gaylord has done remarkable work at Burlingham, California. She has been at the head of the Home Economics department at the High School there. Also this alumna has been very successful with her in the cafeteria at Burlingham. In the fall of 1924 Miss Gaylord will have charge of the cafeteria at S. B. S. C. and work for her degree in Home Economics.

Miss Edith Hawley, an alumna of S. B. S. C., is applying for at position in Santa Barbara for summer school. Two years ago Miss Hawley worked with Dr. Sherman at Columbia University, New York, on calcium content of child diet. For the past two years she has been working with Dr. A. E. Taylor upon the Food Research Institute at Stanford University. She is also working on mass nutrition for peoples in the United States and European countries.

Miss Opal Miller, member of the graduating class of '23, who has been teaching at Huntington Beach, was married to Mr. George E. Gothard on February 10. They are now spending their honeymoon in the Big Bear Lake region.

Fraid Mr. Guenther will have to step on it if he contemplates competing with "Sonny" Schoen as an Ec. teacher.

**PHOTOGRAPHER
MAKES SPECIAL OFFER**

Greene, the Photographer, has made a special offer to the students of this institution, a "get acquainted" offer. He will make one picture free of each student who presents the coupon, properly filled out, to be found in this issue of The Eagle. The picture will be made without cost or obligation on the part of the student, and in the event that any extra copies should be desired, Mr. Greene will give the students an attractive reduction.

Common sense is the genius of humanity.

NOTES OF INTEREST

William Everitt, who attended the school for the last semester, is now taking courses with the Community Arts.

* * *

Jean Matteson, Marian Lincoln and William Young, accompanied by Mrs. Matteson, are going to Los Angeles to see the "Ten Commandments."

* * *

What can be said about the "modern educational system" when the "brains" of the college go in for "light lit?"

* * *

No, it is not customary for young women to visit the University Club. However, Mr. Guenther may often be found basking in the sun on the spacious grounds of his home—Alameda Park.

* * *

The General Professionals held a department meeting at which the following officers were elected: Frances Drew, president, and Alice Bartlett, vice-president.

* * *

The friends of Miss Mina Ellis are very sorry to learn that she is ill. The latest reports say she is doing nicely. Visitors may see her at the Cottage Hospital.

**MR. JACOBS ADDRESSES
PASADENA MEETING**

That we have a prominent leader in vocational work here at college has perhaps escaped the attention of some of us.

At a meeting of people interested in Vocational Guidance and Educational Measurements under the auspices of the Vocational Guidance Association of Southern California and the Southern California Association for Educational Research, at Pasadena, there were some interesting discussions.

Mr. C. L. Jacobs, head of our Community Mechanics Department, spoke on "The Shifting Emphasis." He argued strongly against the reduction of support for the vocational departments, and emphasized the necessity for greater efficiency in those departments. He said, "Great room for improvement lies in the failure of school officials to properly assign pupils for vocational work," claiming also that the vocational department was generally used as a dumping ground for pupils who could not make the grade elsewhere in school.

The emphasis, he pointed out, should be placed on proper selection, leading to greater efficiency rather than to economize in all vocational departments of our schools.

At a special meeting Mr. Jacobs met all the members of the Manual Arts department of Pasadena school for the purpose of aiding them in promulgating a set of aims and objectives for the work of the Junior High schools. The members are desirous of meeting with Mr. Jacobs again at a later date, expressing themselves as most pleased with his co-operation and aid.

The Fullerton Junior College, Jaysee Torch, came out with a few editorials that were straight from the shoulder, and should certainly wake up some of the members of its Student Body.

Long Beach Poly opened up the new term with 400 new students.

Four-wheel brakes on a car are not going to help the driver who hasn't any brakes on the wheels in his head.

Calendar of Events

Tuesday, Feb. 26—General Assembly.

Thursday, Feb. 28—Faculty Meeting.

Tuesday, March 4—Women's Assembly. Men's Assembly.

Thursday, March 6—Department Conferences.

The Easter or Spring Vacation starts April 12 and continues to April 21.

This semester closes June 13.

The summer session opens June 23.

The six weeks' course closes August 1.

The eight weeks' course closes August 15.

Paris has an auto pawn shop. That's what the U. S. needs.

**MR. WOLF GIVEN
SEND OFF BY CLASS**

Mr. Hamilton Wolf, art director and faculty sponsor of the Junior class, was very much surprised last Wednesday evening when 15 members of the Junior class appeared to bid him farewell at the S. P. depot. They thanked him for his interest and services to the class. One of its members presented him with a "bon voyage" basket, and bid him farewell and an early return.

A. W. S. HOLDS CHARMING TEA

On Saturday, the sixteenth, the Associated Women Students of the State Teachers' College gave a high tea to the women members of the faculty and wives of the men members.

The hours of the tea were from 2 to 7, and the house was filled with guests all of the time. Members of the executive committee under the head of Marian Ogden greeted the guests and entertainment of all kinds was offered under the direction of Miss Marjorie Low. Other members of the A. W. S. served a delicious supper in the dining room.

The decorations were in white and green, the college colors, and the whole house was lighted by candles, giving a particularly soft and mellow effect.

About 200 guests attended the affair.

The Bulletin of the Hunting Park High School is favoring a movement for a \$750,000 bond issue for a new high school.

The teachers at the Nebraska State Teachers' College paid their tribute to former President Woodrow Wilson with an appropriate memorial service.

MEN'S CLUB ENJOYS FEED, PROGRAM

The Men's Club feed and entertainment was a huge success on Wednesday, February 13th. About sixty members attended and coughed up four bits apiece for the hamburg and wienie sandwiches plus beans, coffee, and home-made pie. After the feed President Phelps gave us a few words of cheer, and following his opening talk Deane Smith gave a short reading. Merton Harlow tuned up and rendered "Sylvia" and "Juvictus" in most excellent style, reading the high notes without a quiver. Next came Dean Ashworth with some of his imitable stuff, "Guido the Lion Hearted" or something like that. 'Twas very touching, to say the least. Heckleman came across with three fine readings. The "piece de resisatnce" of the program came last. Mr. Peters entertained the bunch with some nifty tricks with cards, coins, and brass rings. He told us how some of the fakirs and mediums did their stuff, and entertained the crowd for almost an hour. Even after the program came to a close the men crowded around him plying him with questions and getting him to demonstrate a few more stunts with the cards.

On the whole a very pleasant evening was spent, and we hope to repeat very soon.

The Kern County Union Hi students at Bakersfield enjoyed a Colonial ball given by the Student Body. Many appropriate prizes were given for the various contests.

San Pedro Hi is rejoicing at the prospect of a new \$50,000 gym which is to be started in the near future.

TRACK MEN START DAILY PRACTICE

With basket ball season ended, Coach Gilliland is training and working his men for the coming track meet to be held soon in Pershing Park. There has been a fair "turn out" of men, chief among them being the regular stand-by, Kiem, Linder, Andy (Anderson), Seegert, Morehead, Vince, Tracy and Ellsworth and a few new men.

With present plans Santa Barbara is scheduled for one of the finest meets held here for some time. The meet will be held in Pershing Park. The following colleges have definitely agreed to participate: San Diego State College, Bakersfield Junior College, Santa Maria Junior College, Calif. Poly, and Santa Barbara. Oxy Fros, Pomona Frosh and Lyola are yet doubtful as no definite word has been received from their managers.

The merit system of government has been put in force at the S. B. Hi, and is being closely watched by other high schools of the state.

GIRLS' VOLLEY-BALL SEASON STARTS SOON

Girls interested in volley ball are asked to sign the list posted on the bulletin board. The season will be in full swing within a week according to Madeline Connell, who is manager of this sport. Practices will be held during the eighth period on the days which prove to be the most convenient for the girls. About fifteen have signed up, and more enthusiasts are being recruited.
