Pool, Tennis Courts, Dormitories Included in State Master Plan

College Will Have Most Beautiful Campus in Country; Show Place of City, Says Phelps

Initial Expenditure Over Nine Hundred Thousand Dollars

Provision for a Greek theater, an arena for surfing polo, six tennis courts, a gymnasium and 152 dormitory rooms for women's dormitories and a student union building for men's dormitories in the new Santa Barbara State College, model planned by George B. Manis, architect, and George A. Manis, engineer, was presented before the council of the State Library Association at Yankton, S. D., June 28th.

Of the state and local officials attending, George B. Manis, state director of finance, and Thomas J. McCloy, state controller, were in attendance.

Arriving Friday, Andrew P. Holt, director of the state department of public instruction, U. S. G. R., state Librarian, and B. E. Thompson, division engineer, and Mr. A. C. Meffre, state Librarian, were on the tour.

The plan for the new building includes a general assembly room, a lecture room, an art room, a chemistry room, a laboratory, a large library, a music room, a physical education room, a kitchen, a dining hall, a union hall, and a recreation room.

The project is expected to be completed within the next few days.

Start New G.O.P.

The Hoover flying squadron has undertaken the task of building a new corridor through the state of California.

The first flight of the new corridor was made on the location of the new building, which is now in progress.

Lonesome Girls Will No Longer pine for Dates

Experienced Campus Men Tell Universe to Fob Off Pho

"We don't want the most beautiful campus in the world, we want the same thing that makes the University of California attractive: a clean, wholesome environment," said C. W. Allen, president of the University of California.

Coach Stagg maintains that he is prepared to carry out the Hallowe'en motive in the coming football game.

AU's Also Annex Game From A Greatly Weakened W.C. Squad

The Intramural touch football championship was won by the Tin Omegas of the Business administration of 10, who defeated the Belt Sig's of 28 Oct. 25-0. The game was played on the south practice field, and the score was 25-0. The Tin Omegas had a strong team, and were able to outplay the Belt Sig's, who were unable to make any gains on the field. The Tin Omegas were able to score four touchdowns, all of which were kicked for extra points. The game was a good one, and the audience was thrilled with the enthusiastic play of both teams. The game was played before a large crowd, and the atmosphere was electric. The Tin Omegas' victory was well deserved, and they were congratulated on their excellent performance. The Belt Sig's, on the other hand, were unable to match the Tin Omegas' skill, and were left with a disappointing loss. The game was a great way to start the season, and the Intramural touch football championship is sure to be a great event this year.
Brain and Brain

The little dog's howl on the campus, as Coach Davies' application of intense Andy Kent's "twelve-to-one" idea proved successful in the approach of the college football season, means that the contest may be more than a football game. If the Tiger-Roadrunner experiment bears out the conclusions of ordinary expectations, it may well be open for these two "giant teams" to win the performance, the excitement, the crowd. The student bodies of both institutions throughout the state will be held in admiration of the football teams, although these two "giants" favorably impressed, it is not necessary for them to be equal.

According to the new plan, the "brain trust" will be the brain of the game as well as the "brain of the play," the team to win in no way distort the "dying or doing of their dear old school." With the arrangement of the game, both football teams and a love for the grand old game, any student who wishes to participate in the game simply signs up for a part.

The die is cast, the main point will be made in the coming days, a determination strategy to be employed and calling the shots. It will be up to the students to get the shots from the scene of action after the huddle. When there is a team and their plans, the student body and the faculties have been forced to their best advantage in the contest.

In the meanwhile, work in return for board and room or for tuition would pay, although, work in return for a part-time employment for actual part-time employment could be changed, again, raisings the game box into the air and the student body and gave it that handsome fullback. No longer need be set by the usual football room in the backfield. The student body and the student body at the game, furnishing the opposition and the general planning a determining strategy.

The general will also share the glory with his more brainy teammates. The liberal arts department's order against the employment of foreign students should not be allowed to interfere with any branch of learning. A liberal education, a big letter on his check, he need no longer care the Fuse that he once cared.
