

# Registration Procedure Hailed As First Sign of Civilization

Dear colleagues:

"I regretfully inform you that the hitherto unadulterated barbarism of the natives is now beginning to betray signs of exposure to civilization. While this will ruin our project of recording a completely aboriginal tribe, we are the recipients of a blessing in disguise. We now have an unparalleled opportunity to record the impact of a master culture on what I may call a complete cultural vacuum. The brief study that follows will demonstrate to you the possibilities of this seeming disaster to our plans.

"One of the first signs of the intrusion of alien culture that I noticed was the establishment by the natives of what I shall hereafter refer to as a 'university.' The natives call it thus, in their new frenzy of imitation, and I must do the same, for none of the seven-

teen languages at my command contains a word that even approximates the institution they have established. It is, in the fullest sense, unique. While I could amuse you through endless pages with the results of their child-like efforts to imitate our institutions of higher learning, I choose rather to follow an entirely serious study of an ingenious improvement they have made on one of our academic customs, that of registering students.

"While the natives seem to have produced a more or less abortive imitation of all our other academic procedures, they somehow never discovered that our universities all use batteries of tests to determine the eligibility of prospective students. Their first session was thus inevitably jammed with young savages incapable of absorbing even the primitive

learning offered. And here the ingenuity manifested by even the most backward races of men came to their rescue.

"A meeting of the college heads, lately recruited from the witch doctors of the surrounding villages, was called to solve the problem of selecting students. It must be remembered that none of these venerable primitives had ever heard of our selective tests. Nevertheless, within only a few days they produced a solution of which our greatest scholars might well have been proud. They devised a registration procedure so challenging to the mental and physical prowess of the candidate for entrance that only the strongest and wildest win through.

The whole invention is based on the good, rock-solid foundation of 'survival of the fittest.' Each step of the procedure is a perfect

application of that law. The most ingenious part of it all is that the candidates are never informed that they are under test. Each prospective student goes through the tortuous process in the whole-hearted belief that it is necessary. Needless to say, only primitives of their abysmal level could be so duped. Anyone even slightly civilized would quickly perceive that no amount of simple registration could entail all that misery. Let me give you some details of this barbarian obstacle course.

"The basic obstacle, encountered in every phase of the procedure, is The Line. It is much the same as The Line we know so well from the late war with the barbarians tribes to the east and west, yet far surpassing in ardor anything the wild Fascist tribes ever imposed on us. These lines are infinitely longer and slower, and each possesses some brilliant variation that we of the East, burdened as we are by the humanitarian outlook, could never invent independently.

"There is the Stationary Line. I saw a Witch Doctor of Physics

(of a different variety than we teach) spend an hour and a half registering twenty students. Engaging each in a brilliant conversation, he left every one with the impression that he was deeply interested in his welfare. Not a one suspected it was part of a test. The faith of the young savages is truly touching.

"There is the Closed Door Line, in which the student waits hours, only to have the door close in his face as he attains his goal. There is the Incompleted Form Line, at the end of which the student is informed that something is not in order with his papers, and must be corrected, following which he must again go to the end of the line. The chef d'oeuvre, however, is the Line to get in a line, encountered in front of the bookstore. As the bookstore is something of a chef d'oeuvre in itself, many drop by the way here. This bookstore was, by a stroke of pure genius, placed in one of the smallest rooms on the campus, thus permitting only a minimum of people to work therein. This preserves the illusion of the students

that the best is being done, no matter how many hours they wait for their books.

"The next device is the Section Closed. When a Witch Doctor spies a candidate that appears to be weakening, he applies a treatment of Section closed to test him. This also accounts for a large percentage of the failures.

"The final test is that of the Small Blue Book, or the Magnifying Glass and Fine Point Pen Test. This consists of filling endless cards with useless information in spaces not nearly large enough, some cards requesting the identical information one side as on the other, rather clumsily disguised by the use of slightly different form.

"While this is only a small percentage of all the tests, I must close, as I am pressed for time. My slight talents as a psychiatrist and physician have been unbearably drawn upon since last week."

Your Respectful Colleague

F. Saltbottom Elder

## SANTA BARBARA COLLEGE EL GAUCHO THE PICTURESQUE CAMPUS WITH A VIEW

Vol. XXVII

SANTA BARBARA, CALIFORNIA, SEPTEMBER 26, 1947

No. 3

### BETA SIGS TURN NATIONAL FRATERNITY EPSILON THETA CHAPTER OF KAPPA SIG

Beta Sigma Chi, oldest local fraternity on campus, will officially become the Epsilon Theta chapter of Kappa Sigma tomorrow night when impressive ceremonies will be held at the fraternity's house at 2103 Alameda Padre Serra. Kappa Sig teams from UCLA and USC will conduct the rites.

Many Beta Sigma alumni members from all over the state will be initiated along with active members of the fraternity at the ceremonies, which will begin tonight and continue Saturday evening. Among the notable Kappa Sig alumni who plan to be here for the occasion are Hoagy Carmichael; Fred Houser, Attorney General;

and Knox Manning, news commentator. Other high officials, from as far away as New York, will also be present.

#### FETE AT MONTECITO

In celebration of the big occasion there will be a dinner-dance held at the Montecito Country Club tomorrow night following the initiation ceremonies. Many Beta Sigs, actives and alums, with their wives or dates expect to attend the affair.

Officers of the new Epsilon Theta chapter at Santa Barbara College are George Graves, president; Art Mason, vice president; Art Wells, treasurer; Bill Hobbs, secretary; and Dr. Stanley A. Rauch, faculty sponsor.

### COLLEGE MEN PAID BY NAVY RESERVE; ATTEND ONE NIGHT

FRESHMEN AND NON-VETS!  
This is for you!

Yes, the War's over. But so was one in 1918. This is your chance to get in on a good thing.

Uncle Sam is a cautious gentleman. There is no war expected in the immediate future, but he is taking no chances. And by taking no chances, he is offering you an excellent one . . . a chance to make some money, meet some friends, learn things, and it doesn't cost you anything but two hours of one evening a week.

Here's the scoop. The new Civilian Naval Reserve is active here in Santa Barbara. It offers you training in the regular navy branches: electricity, radio, machine shop, and numerous other ratings. You receive pay while training, to the tune of \$2.50 per night as an Apprentice Seaman, and as your rank increases, so does your pay.

#### STRICTLY VOLUNTARY

The best thing of all is this: it is strictly voluntary! You don't have to come unless you want to. Pay is received only for evenings spent at the base. Two hours, from 7:30 to 9:30 p.m. is all that is required. Uniforms, equipment, and facilities are yours, free.

The Eighth Battalion, comprising the 27th and 45th Surface Divisions, is located at the Naval Armory on the breakwater, and is under the command of SBC's own Dean Jones, who holds a Lt. Commander's rank in the Reserve. The 27th meets on Wednesdays, the 45th on Thursdays. One is bound to work into your schedule nicely.

### Part-Time Tasks Under Men's Dean Listed in Office

Part-time jobs for men students attending Santa Barbara College are available, announces Mrs. Raupach, college director of men's employment.

As soon as a job opening is received by the employment office, located in the Dean of Men's office in the Administration Building, a white file card containing all the details is typed out and posted on the bulletin board within the office lobby. Job hunters should watch the board from day to day for the latest in job opportunities.

#### APPOINTMENTS

Prospective employees are cautioned by Mrs. Raupach to keep appointments with their employers once they have made them, as reports of students failing to meet obligations will cause the employment office to give future job opportunities to other applicants.

Jobs for men have been mostly of the unskilled manual labor type, such as gardening, carpentry, child care, cleaning, and other similar tasks. On frequent occasions there are calls for typists and similar office workers.

### New Gaucho Rec Club Formed for Noon Fun

A new organization, the College Recreation Association, has been formed on this campus to provide a varied recreational program for both men and women students. Clubs such as this have become prominent on many campuses in the United States.

It is an organization which is composed of various clubs such as the Badminton Club, Women's Sports, and Women's Internurals. Those interested in forming a club and who wish support from the association should contact the president, B. J. Winslow.

#### DEPENDS ON INTEREST

The growth of the organization will be determined by the interest shown in it. Activities which will be taken over are noon recreation including volleyball and table tennis, and co-recreational nights which can include films, bridge, and dancing.

The CRA will be sponsored by the Women's Physical Education Department, with help from the Men's Physical Education Department.

These are the plans—with your help they will put into effect soon.

THE BOOKSTORE LINE turned out to be the worst of all for many. Frantic to beat the inevitable shortage of textbooks, people stood in line for hours on end—waiting.

### DRILL FIELD BLOSSOMS WITH UNIFORMED FROSH

Compulsory military training on the Santa Barbara College campus for all Gauchos has commenced with the fall semester. In compliance with a new University of California ruling the training has been established to produce reserve officers for the nation's forces.

The new UC ruling makes two years of college ROTC training mandatory for entering UC students who have not served in the United States Armed Forces for at least a year. ROTC officers are now busy checking to see that all students meet this requirement. All students with less than 30 units must serve unless they can show an approved exemption or discharge papers.

The military program will consist of two hours per week of study, and one hour of drill for the elementary group; and five hours a week for men in advance standing. Both groups will be

furnished uniforms by the government.

The advanced group, which is to be strictly voluntary, will be on a semi-active duty basis and will sign up for a period of two years. These men will receive 79 cents per day for 750 days plus 105 dollars for a six weeks practical training period during the summer between their junior and senior years.

Cadet officers for the unit will be selected from the advanced group by a committee consisting of Colonel McKee and Provost Williams. These cadets will be issued officer-type uniforms.

Upon graduation, men completing four years of ROTC training will have a reserve commission of second lieutenant of the infantry.

The ROTC staff includes Colonel Richard G. McKee, Lt. Col. Charles F. Mudgett, M/Sgt. Anthony G. Stevenish, M/Sgt. William E. Wheeler, 1st Sgt. David E. Jewell, 1st Sgt. Eugene H. Mathis, M/Sgt. Richard Starling and Betty Coulson, stenographer.

### First Fall Fling to Honor Gaucho Pigskin Squad and Williamson

FFF . . . Yes, the First Fall Fling, this Saturday night, sponsored by the Gamma Sigma Pi Fraternity will honor Coach Stan Williamson's 1947 football aggregation, it was announced this Wednesday by Jerry Terres, GSP publicity director. The 33 members of the squad and their dates will be admitted to the dance, free of charge.

The players will be introduced individually, and the Yell Leaders will lead the assembled throng through the old Rah-Rah. The GSP's should be commended highly for their effort to honor the squad wearing the moleskins on the field.

Tickets for the fling can be obtained from any Gamma Sig for one dollar per couple. Danny Oliver and his band will furnish the music for the affair which will be held in the beautiful Rockwood Women's Club.

### USED BOOKS NEEDED BY SBC BOOKSTORE

Used copies of five textbooks for which there is a great demand are needed at the College Bookstore immediately.

Wanted are "American National Government," "Social Institutions," "Psychology and Life," "Making of the Modern Mind," and "College Survey of English Literature, Vols. I & II. Used copies of these text books should be taken at once to the Book Department of the store which will sell them for the students at a commission of ten percent of the price received.

It is important that students realize that these are the only used books for which the bookstore has any need at the present time. The shortage of storage space makes it impossible for the store to accept books which cannot be sold at once.

#### Discipline Chairman

Applications for the position of Student Discipline Chairman should be turned into ASB Prexy George Graves by any interested persons for consideration during the coming week. Further information on the duties entailed by the new position may be obtained from Graves in the Student Body Office, West Hall.

### LETTERS TODAY

Student mail boxes stand in the southwest corner of the Quad expressly for communicating with Gauchos on matters of social meetings and events, grades, administrative business, and personal matters. In the large cabinet are cubbyholes arranged in alphabetical order for convenience in filing.

Fall session students have not obtained the habit of checking these cubbyholes daily for notes, and backlogs of important notices have formed in some without the knowledge of the addressee.

If you like to play post-office, here is your chance.

### Activity Cards Go To Faculty, Wives

New rulings permitting Santa Barbara College professors, their wives, student wives, and administrative personnel and their wives to obtain student body cards were passed at a recent student council meeting.

Student body cards afford the holders the opportunity to participate in all student activities for only the initial price of two dollars for the card. The student council decided that these groups should be able to purchase activity cards as well as the registered students.

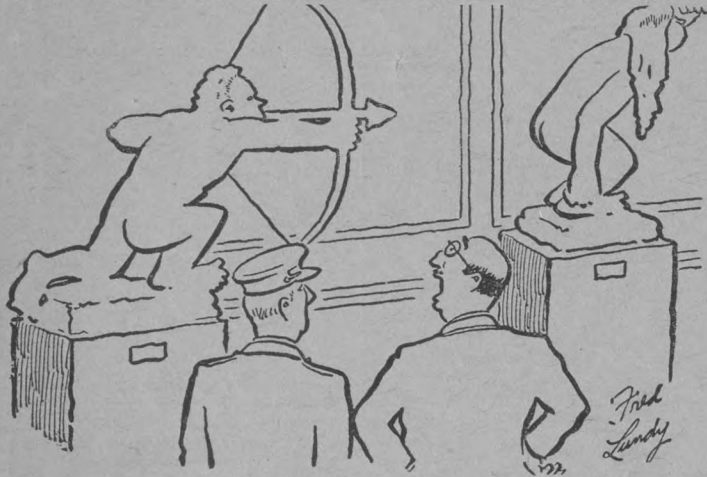

Heretofore, any followers of these activities had to pay the regular admission price but they will now, with their cards, be welcomed at student rates to all social events.

**REVISED PROBATION-DISMISSAL SYSTEM INAUGURATED FOR LOW-GRADE STUDENTS**

In case any of you Gauchos are on tenderhooks wondering how long it will be before the college checks up on your grades and decides to show you the door, here is what the catalogue says about probation and dismissal.

Any student with a C average, or higher has, no cause for worry. Here is how the average is calculated: an A grade gets three grade points; B gets two; C, one; and D, E, F, none. The units and grade points received must be equal for a C average, and for graduation.

**PROBATION SCALE**

The following are the deficiencies for which a student is placed on probation:

1. Six to nine grade points at the end of the first semester.
2. Four to seven at the end of the second semester.
3. Three to five at the end of the third semester.
4. Two to three at the end of the fourth semester.
5. One grade point at the end of the fifth semester.

A student on probation may not carry more than 13 1/2 units (including P. E.) per semester.

**DISMISSAL SCALE**

Students are subject to dismissal from the college after being on probation for three successive semesters, or if their records at any time show the following deficiencies:

1. Ten or more grade points at the end of the first semester.
2. Eight or more at the end of the second semester.
3. Six or more at the end of the third semester.
4. Four or more at the end of the fourth semester.
5. Two or more at the end of the fifth semester.
6. One or more at the end of the sixth semester.

**Cal Club Gathers To Discuss Plans**

To formulate plans for the coming California Club convention, the Santa Barbara chapter of the council will meet this Sunday, September 28, at the Delta Zeta Delta sorority house, at 3:30 p.m. according to Ed Morris, newly appointed chairman.

**Gaucha KIST Program**

Have you heard the Lyle's Lullaby Hour? The "Corn-KIST" show? Gaucha-KIST is expanding and improving—mellowing with age perhaps.

For the grand bands, and their new grooves, tune in radio station KIST every Monday night at 9:30. The program now features Tom Lyle, Nancy Derrer, Louise Lear, and George Outland.

Ed Morris also wanders in now and then. All in all, it's something!

**Registration Figures Show 2649 Enrolled**

Fall semester registration at Santa Barbara College had by Monday reached 2649, setting a new high in enrollment, according to Miss Wilhelmina Menken, assistant Registrar.

The enrollment, which consisted of 1331 veterans and 1318 non-veterans, was above the previous high mark of slightly over 2300 set last semester. The booming registration is expected to go even higher with late registrations.

The grand total includes 72 limited students, taking five units or less, and 133 PL 16 veterans. There has been only a very small dropping off in the registration of veterans this semester.

**Athletic Drivers Urged by Danning**

"Young people should be encouraged to take part in athletic activities to develop their sense of co-ordination as well as their sense of sportsmanship toward the day when they begin to drive automobiles," declares Harry Danning, former New York Giant catcher who now operates a Southern California automobile agency. He asserted that co-ordination and sportsmanship are vital factors on the highway as well as on the athletic field.

Danning contends that California with the highest per centage of cars per family in the country naturally has traffic problems in proportion and courtesy and competence in driving is a big factor in the prevention of accidents.

**Veterans Corner**

Important information for veterans attending Santa Barbara College will appear in this column, and in this portion of the "El Gaucha" each week. Vet's should watch this space for announcements.

**PURCHASE** of duplicate items with vet's white book cards during any one semester will cause a bill of recompensation from the college to be instigated, or the possible suspension of the vet's subsistence, as a penalty.

**FAILURE** to take at least 12 units of study during each regular session will deprive the vets of a portion of their subsistence, warns C. Douglas Woodhouse, coordinator of college Vets' affairs. Some vets have not been observing this requirement.

**VETERANS** who have registered without their certificates of eligibility are requested to report to the Vets' Office at the earliest possible moment.

**BLUE** Program cards should be filed with the Vets' Office by September 30, as the office cannot authorize the release of subsistence checks until these cards are in.

**ALL** Public Law 346 students must file an Estimate of Earnings form in order to be eligible for subsistence remuneration. Lists of the names of those who have failed to conform with this requirement will be posted in the Administration Building on the Mesa Campus, and on the Vets' Bulletin Board in the Quad over the weekend.

**GI** Life Insurance can be reinstated at any time until January 1, 1948, at which time physical examinations will be required for insurance policies. The procedure for reinstatement is simple:

- a. Go to your nearest Veterans Administration Office.
- b. Pay two monthly premiums at your old premium rate.
- c. Continue monthly payments regularly thereafter.

**For Red Feather Fund**

Based upon the theme of "Everybody benefits when everybody gives," the nationwide Community Chest Red Feather campaign opens this evening at 7:30 o'clock with a coast-to-coast broadcast featuring Bob Hope, Edgar Bergen, Harry Truman, and other well-known personalities.

It will be of interest to Gauchos that Dr. Lynn Monroe, of the Department, will head the local education division of the drive.

**Vet Guidance Center Sponsored by College**

A Guidance Center for all Santa Barbara County veterans has been established by the Veterans' Administration through a contract with the University of California.

At the center, veterans are tested for interest, general ability, personality, and general aptitude. Using these tests as a basis for their findings, members of the staff give vocational guidance and help in planning college programs.

The staff, headed by Dr. Altus of the SBC Psychology Department, includes a chief psychiatrist and two assistants.

**WELL EQUIPPED**

The center is equipped with one of the best libraries in the country for reference in all fields, and with complete government surveys on all vocations and professions.

Since it opened in January of this year, the center, located in Room 519, Balboa Bldg., has served approximately 700 vets. Although no appointment is needed, persons wishing to take advantage of this service should realize that the process requires about six hours.

Further information may be obtained by telephoning 24957.

**Letter of Thanks To Patty Maeirs**

Dear Patty:  
"On behalf of the AWS Executive Board, I wish to thank you and the members of your committee for the work you did so efficiently on the Phrateres International Convention this last June. You deserved a publicized 'Thank you,' because I doubt whether many of the Gauchos knew about the big affair during the closing days of the Spring semester.

"It was a pleasure to enjoy the Welcome Banquet at Eaton's and to meet the fine girls who represented Phrateres chapters at distant universities, as well as the sponsoring deans, and particularly, Dean Helen Matthewson Laughlin, founder of Phrateres. From your Convention report and from the comments of your guests, I know your busy day of planning and making arrangements were rewarded with the gratitude of all who attended. You and the local

Phrateres girls rendered a service to the national organization and to Santa Barbara College. The Convention brought a fine conclusion to your year as President. I hope it was a preface as well as a conclusion—a preface to bigger and better Phrateres activities this year, under their new President, Alice Thomas."

Sincerely yours,  
Willie Wigger,  
AWS President

**THE CAMPUS CORNER**

Dear Gerry—  
It's my turn to convey the latest news from the inner sanctum—the Campus Corner! And am I having trouble! There are so many things I'd love to tell the girls about—like the fitted corderoy jackets that just came in—they're beautiful and so darned collegiate!! the color is called "sand" and they're only \$17.95. Wait 'til you see them, Gerry, and you'll rave about them too.

And you remember the Helena Rubenstein lipstick set? "Color Four-Cast"—Four tubes of various colored lipsticks that is, in each set. And what a bargain darlink! Only \$3.50—and even, if you, have a henna rinse, blondie, you're still in—cuz there's an individual set for blondes, brunettes, and red-heads! They would be good to mention in the column.

And another thing—those cute grey skirts with the huge pockets—they're adorable!! They flare at the hem and make your waist look sooo small. (Don't say anything dear—I know it takes a wide hem to make my waist look small.) The skirts at \$9.95.

Well, dearie, I've gotta get to work and write the column. See ya' at the dance, Patti.

P. S. Did you see all the gals wearing Gibson Girl blouses on campus this week? They're sure cute! We're getting some at the store too.

### All Gaucho Women Invited to Tea Howdy-All Social Precedes Rush

First event on the social calendar for Phrateres, women's social organization is a tea which will be held September 28, from 3 until 5 p.m. in the Quad. All women on campus are invited.

Entertainment will be provided during the afternoon by Doris Prudence, who will present selections on her accordion.

The tea is to serve a double purpose, according to president Alice Thomas, in that it not only affords UCSB women with a chance to get acquainted with each other, but will allow them to meet members of the various sub-chapters of Phrateres organization so they may decide on the group they would like to join.

#### GET ACQUAINTED

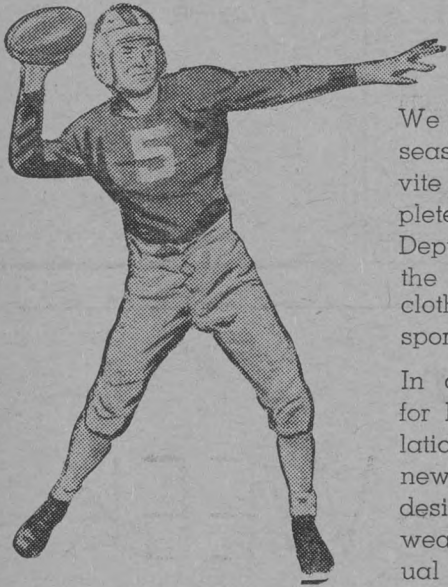

Following the tea will be a two-

week period of "Get Acquainted" parties before the formal initiation

Those committees serving are as follows: invitations; Las Meninas, headed by Joan Yulo; serving; Nani Leilani, headed by Elaine Wells, refreshment; Tous les Temps, with Dorothy Eichelberger in charge; and the Gnome group with Merlie Robertson assisting. Name tags will be handled by Pu Ko How with Dorothy Adameck in the chief position; clean up detail will be taken care of by SFS, Gwen Chard in charge.

Phrateres sponsor Miss Ellen Bowers and Dean of Women, Helen E. Sweet will pour for the event.

**WELCOME!**  
to the students of the  
**University of California**  
**Santa Barbara College**

We wish you a successful season, and cordially invite you to visit our complete Sporting Goods Dept. where you will find the finest equipment and clothes for all types of sports activities.

In our California corner for ladies, we have regulation gym suits, beautiful new sweaters and suits designed for active sportswear and styled for casual beauty.

## Casing The Campus

by June & Betty

### New Length Taboo; Old Skirts Stay as Vogue

Members of the Associated Women Students board met recently at the home of Dean Helen E. Sweet to lay plans for the coming school year.

An outcome of this meeting was an official statement by President Willie Wigger that long skirts on campus are not being sanctioned by the AWS.

"In spite of the fact designers over the country are making every effort to popularize the new length, we feel that this fashion is undesirable for college women for a number of reasons. They are uncomfortable, unbecoming, and really a thing of the past which we do not feel it is necessary to revive," stated Miss Wigger.

"In addition to this, it is wasteful to discard still-useful clothes for the sake of fashion change instituted by designers alone, and not approved by the women themselves. The average college student will find the strain on her budget sufficient without the added expense of a whole new wardrobe which must be purchased to meet the demands of fashion, but not good taste," Miss Wigger concluded.

Those board members present were Willie Wigger, Dean Helen E. Sweet, Mary Moseley, June Rice, May Nakanishi, Donna Hill, Barbara Abbott, and Donna Thomas.

How do, everyone, how do . . . You can chalk off one week on the official score board as having passed into oblivion—sure was a long week though, what with such tons of homework and this lovely sultry beach weather!

A bunch of statistics:  
*Matched*—Sigma Delt LOIS ROHE and BOYD DYE . . . SHIRLEY WOLFE said "yes" to JACK BERGSTEDT. Congratulations!

*Attached*—MARY FISHER and FRED GILLARD were married this summer at a very quiet ceremony. And last Monday's surprise package was the wedding ceremony of JOHN STACK and MARGIE CARPENTER. Tau Gam TERRY BEMMER is now MRS. LES JONES as a result of walking down the aisle this summer also.

*Hatched*—All congrats to Graduate Manager BILL RUSSEL and his wife, DOROTHY—the day after registration (busy time to arrive) eight pounds, three ounces, DIANA DORATHY RUSSEL joined the household. BEN and LORRAINE COLLINS had an addition to the family during the summer-time too.

#### SHIP AHOY!

When the boys from HMS Kenya arrived in town last weekend, our Gaucho co-eds joined the forces to entertain them at numerous teas and dances. Among the gals attending events were MARY MOSELY, GERRY GRAY, BARBARA RUSH, and PATSY HEWLETT. At a garden party Thursday afternoon, CLAYLAIN WILSON and BARBARA CROCKETT

were both presented with gardenias from MALDO the Magician for assisting him with his tricks. Apparently everyone enjoyed taking part in the British version of the Hokey-Pokey, which they called the Hokey-Kokey.

Seen around here and there in this fair city have been BETSY BROWN and JACK PROFANT, also BETTIE MOORE and LARRY HOWELL.

#### DATES AT DANCE

Blue and gold streamers decorated Rockwood Saturday night for the Social Committee's first dance of the season. A nice crowd was there, including BOB and PATTY WORKS and GEORGE GEIB with DOLORES DAHL. JANE BATTLE and LYLE PURDUM stood in the corner during one fast number while BOB BROTHERTON and BETTY WOODS decided to keep up the tempo and dance it out.

Several new freshmen were there with their dates, including LOIS LUCKING and CHUCK McNALL. EVELYN HILL was with JACK CABOT that night, and cooling themselves out in the patio while talking with CARL HENTSCHKE and RUTHIE BREHME were BARBARA BUDD and ART WELLS.

BUD WEIR brought date JOAN BROADWELL a coke and BERNICE JELLY and JAY PAXTON decided to have a "pause that refreshes" too. Bidding patrons MR. and MRS. RALPH NAIR goodnight, along with HARVEY HUBLER and JEAN WRIGHT, we bid dear old Rockwood goodbye.

#### DECEASED—ALMOST

The Beta Sigs almost lost their beloved mascot, UGLY, the other day. He was sunning himself on that fine new Gaucho Sun Deck in Ebbet's Hall, and suddenly he became ambitious and jumped up on the high wall surrounding the place. Everyone gasped but finally UGLY regained his senses and jumped down. He must have seen a cute little feminine pup waltzing along the way two stories below . . .

### Register Gauchos For Dance Class; Hark, Hoof Hound!

Registration of UCSBC terpsichoreans, and aspiring beginners in the art of hoof-shaking, will take place in the Women's Gym, Room 101, Tuesday, September 30, at 3 p.m., according to Mary Lou Lewis, Modern Dance Club president.

In making the announcement, Miss Lewis emphasized the fact that previous dance experience is not necessary. The primary activity of the club his work on group dance compositions.

A second organizational section, designed to accommodate those who cannot make the three o'clock session, will be held at four o'clock. Gauchos interested in participating in the Modern Dance Club activities are requested to attend one of the two section meetings Tuesday.

#### Badminton Club

The first fall session of the UCSBC Badminton Club will meet Tuesday, September 30, seven o'clock, at the Community Center, Anapama and Carrillo. New members welcome.

WHAT A RECORD! ★

BERYL DAVIS'S NEW DISC FOR RCA VICTOR

★ It's a groovy group of notes—done to a turn by one of the top of the new crop of singers.

Yes, Beryl Davis knows how to pick a tune . . . knows how to pick a cigarette too. "I tried many different brands and compared," says Beryl Davis—"I found Camels suit me best."

That's how millions learned from experience that there are big differences in cigarette quality. Try Camels in your "T-Zone" (Taste and Throat). Let your own experience tell you why more people are smoking Camels than ever before!

# Preview of Hoopmen Shows Bright Season

Although it is a little premature yet for the leather sphere, basketball is already in the wind. Practice won't begin until the middle of October, but Coach Willie Wilton is lining up his material already. And very interesting it is, too.

Sporting a well-rounded team, Coach Wilton has a tough schedule. Among the cagesters this year there are at center, Harvey Hubler and Frank Shimandle. Hubler racked up several records for the Gauchos last year, including the honor of being the highest scorer in the 2C2A conference. Shimandle, his stand in, is no piker either.

### OTHER TRYOUTS

Also fighting for the center spot are two boys up from Pasadena Junior College, Ron Johnson and Robert McCutcheon. Although they haven't even seen a practice this season, they are supposed to be very good.

At forward are old friends, Coke Morrison, Charlie Jones, Cec Neal and Joe De La Torre. The latter two will, if they perform as last year, more than likely be referred to as the "sophomore sensations." One prewar lad is Lloyd Thomas, a power to be reckoned with. Up from Santa Monica is Cecil Snyder, while Pepperdine has contributed a gentleman who answers to the name of Petty.

### GUARD SPOTS

The guard spots find veterans Quintin Sims, Bob Braly and Tom Dailey, the latter of baseball fame. Pasadena has again contributed to the squad with T. Eckerman and Hudson Scott. These men too are said to be potential "greats", a la Wilton.

All in all, the Gaucho hoopsters have the makings of a team that won't be satisfied with second place honors.

## Sports Roundup

Well, Gauchos, we've ignored the gridiron long enough. We shall lay aside the branding irons of the other various and sundry minor sports and concentrate on Football.

The Sagehens of Pomona, as you undoubtedly know, invade our local pigskin paladium one week from this evening, having one game already under their belt. They tangle with Mount San Antonio Junior College tomorrow. For you who delight in predicting the outcome of these clashes, you might study up on score trends. Last year, they lost to the same MSAJC.

Due to the fact that they will have had a genuine test of strength, compared only with our scrimmage of last week, Pomona will more than likely be the favorite in this contest. I enjoy limbs, so here goes. Ol' crystal ball says Gauchos—20; Sagehens—6.

Tom Lyle of Gaucho-KIST will award a prize to the person who guesses the score correctly, and mails his guess in to Gaucho-KIST, Balboa Building, before midnight Thursday. Good guessing, Gang!

### Gaucho Battle Yells Wanted For Rallymen

Are you ingenious? Are you intelligent?

There is a serious need for geniuses on this campus, and pronto! Needed—yells. Lots of yells. One short week before the Pomona meet, still short of rah-rah material.

Anyone who has any ideas for yells, new or old, worn or wonderful, is requested to contact Bob Lorden, head cheerleader, through Box "L."

## Eyeing The Sports

with **JERRY ROSE**

A WEEK FROM TONIGHT the cat will be out of the bag. The University of California Santa Barbara College will unveil the 1947 hope for the CCAA football crown. There has been much written about the chances of the Gauchos this year, both good and bad. The squad is almost the same which made a pitiful showing last year with a 0-4 record in conference play. The main difference, it seems, is the fine spirit which the men have been showing in the preparation for this opening tussle.

**COACH STAN WILLIAMSON** sent his charges through an intersquad tilt last Saturday in order to weed out the material and form a training table of 33 regulars. The tilt was an interesting sight to behold. With only one week of organized practice, the team looked surprisingly good, although they were quite ragged in timing. The outstanding play of the tilt was a forty yard TD run by Mel Patton. Patton, a terrific sprinter, broke through a nice hole in the center of the line and outsped the secondary to score easily.

**CO-CAPTAINS** Jack Miller and Max Pickerts both played excellent games. Jack intercepted two passes in five minutes of play, and backed up the line brilliantly. Max Pickerts was the stalwart of the line at his tackle berth, playing an aggressive, hard ball game. Other linemen showing up well in the scrim were: Joe Rossi, George Crilley, Cy Williams and Bob Boudy at guards; Max Pickerts, Bob Woolridge, and Bob Brant at tackles; John Kirkland, John Daniels, and Bob Mount, at center; and Vic Paulson, Bob Winslow, George Anderson, Bernie Paulson, and Al Katich at ends.

## Meet Your Season's Captains! Take a Bow, Miller-Pickerts

Jack Miller and Max Pickerts the co-captains of the 1947 Gaucho football squad are well suited for the highly regarded position. Together they add up to 415 pounds of muscular football player, and have collectively played 12 years of the game.

Max Pickerts, terrific tackle, was born in Los Angeles about 23 years ago and got his high school education at Riverside, where he garnered four football letters. He later matriculated to Riverside J. C. where he also lettered and was chosen on the Helms all-

league squad. Max is married, an I. E. major, and a veteran. He spent 27 months in the Pacific with the Marine Corps. Look for Big Max to be a terror in that Gaucho line this coming year. He moves his six-foot frame with agility and packs a lot of power with 215 pounds. One of the squad's outstanding players, and a definite threat for all-league honors, is Max Picarts.

Sharing the team captaincy is Jack Miller, sensational plunging fullback. Jack packs 200 pounds on a five-foot, eleven-inch frame. He attended Hamilton High and won his football letter three times. He was both all-league and all-city while in high school. Jack also played for Santa Monica and Santa Clara, then served with the Coast Guard for thirty months in both theaters of war. He is married and has two children. A virtual locomotive of power, Jack is a terrific runner and is almost always good for a big gain when he carries the ball.

Miller-Pickerts . . . co-captains.

### Cross Country Track Practice Begins Mon.

Preceding track season, this Monday, September 29, at 3 p.m., practice begins for Cross Country. Not only is this a sport in itself, but it is the best of training for Spring track.

Coach Nick Carter urges all track aspirants to drop by La Playa stadium and try on a pair of spiked shoes.
