

Pathology Prof To Lecture On Shock Adaptation

A physical education coloum featuring a talk by Dr. Benjamin W. Zweifach, professor of pathology at New York University's School of Medicine will be held at noon Friday in room 1125 in Robertson Gym.

Prof. Zweifach will talk on "Mechanisms of Adaptation to Shock." The visiting scholar has been associated with NYU since 1952. Before that, he taught at Cornell.

He holds two degrees, including the Ph.D from the New York university and his undergraduate degree from City College of New York.

The pathologist's professional research has been in the areas of capillary permeability, tissue injury, experimental shock and hypertension.

Tillich's Third Lecture Wed.

Reknowned scholar, Paul Tillich, will discuss "Religion and the Visual Arts" Wednesday at 4 p.m. in Campbell Hall. Admission is free.

This is the third in his four-lecture series devoted to "Religion and Culture". The first two lectures drew capacity crowds to Campbell Hall.

Professor Tillich is UCSB's first Aire and Ida Crown Memorial Lecturer and also is teaching a seminar this semester for honor students.

Dr. Tillich's final lecture will be March 18 on the subject "Religion and Politics."

Grad Sign-Ups Due

All seniors who plan to participate in June graduation exercises must sign up and pay the deposit in the bookstore before March 31.

Graduation announcements may be ordered at the same time.

Election Turnout Gives Bell Rep-At-Large Post

Barbara Bell emerged with a surprisingly decisive victory in last week's special election for the women's representative-at-large post.

An unexpectedly large turnout gave her an 82 vote margin over Connie Poynter. The new rep-at-large had edged Miss Poynter by 11 votes last month, but the election was voided because of voting irregularities.

The constitutional amendment changing the method of selecting yell leaders was approved overwhelmingly. Yes votes numbered 357 and no votes 75. Five votes were ruled void.

Miss Bell, who had served as temporary women's rep until election, received 260 votes and her opponent 178. There was one write-in vote.

A low turnout had been predicted for the short ballot election. However, total vote for the women's rep post was 437, compared with the 547 students who voted for the post in the six-race Associated Students election last month.

Both candidates had predicted a tight race with the result hinging on total vote number. The post was one of four offices left vacant by resignations at the end of the fall semester.

A senior, Miss Bell is an elementary education major and is affiliated with the Chi Omega

Return To Academic Role

Cheadle To Lecture Tues. On Plant Study

Chancellor Vernon I. Cheadle sheds his administrative duties and returns to his academic role tomorrow to deliver a California Conservation Week lecture in Campbell Hall at 4 p.m.

His talk, "Plant Hunting--Australia and South Africa," will be illustrated with color slides.

Dr. Cheadle will discuss his travels as a botanist under a Fulbright Research scholarship in 1959 and 1960.

Journeying 18,500 miles along the Australian coast in 60 days, Dr. Cheadle sometimes put in 18 hours a day collecting specimens of plant life.

While in South Africa, the chancellor delivered 14 lectures at colleges and universities throughout the country and con-

tinued to add to his collection of rare plant specimens.

He also worked with outstanding Australian specialists in the use of the electron microscope and studied food-conducting tissues of plants.

Before becoming chancellor

CHANCELLOR CHEADLE

Peace Corps

Tests Mar. 23

Peace Corps tests will be given in Santa Barbara Saturday March 23 at the post office. Students interested in taking the test may obtain further information from the Education Abroad office.

Tests also will be administered in Santa Barbara April 27, June 8, and August 24.

Model UN Set For April 24-27

The 13th session of the Model United Nations will be held from April 24-27 at San Jose State College.

The delegation from UCSB, representing the Congo, has been selected and is now preparing for the Spring meeting.

Delegates from here include Betty Fletcher, Chet Moore, Marinell Ash, Margorie Gray, Gary Dunlap, Bill Roth, Jon Billegmeier, John Fenske and Richard McHenry. The alternate delegates are Mike Johnson, Robin Birdsall and Karen Jensen. The delegation is headed by Ken McRoberts.

At the meeting, delegates will participate in a mock UN organization and each is expected to become expert in a particular area of interest within his country.

Such current topics as UN emergency forces in the Congo, representation for Red China and the Cuban and Berlin situations will be discussed.

Statistics Released

Overall Fall GPA Hits 2.49

Overall student scholastic average for the fall semester was 2.49, according to statistics recently released by the Dean of Students Office.

Women students had higher averages than men students at every level of comparison, with an overall of 2.52, as compared with the men's 2.46.

The sororities, of which Sigma Kappa was the highest ranking individual group with 2.75, had an average of 2.54, while the fraternities had an average of

2.40. Highest individual fraternity was Kappa Sigma with 2.59, Delta Gamma, 2.35, and Sigma Pi, 2.23 had the lowest grade points of the Greek organizations.

Sigma Kappa actives (2.85) and pledges (2.54) were both highest in their groups, while Delta Gamma actives (2.46) and Alpha Delta Pi pledges (2.25) had the lowest averages.

Of the fraternities, Kappa Sigma actives (2.72) and Sigma Phi Epsilon (2.27) ranked highest and lowest Sigma Chi actives and

here, Cheadle was chairman of the botany department at the University's Davis campus. He also was a botanist with the Agricultural Experiment Station and a professor of botany at the University Rhode Island.

Dr. Cheadle, a native of South Dakota, received his bachelor's degree from Miami University and his master's and doctorate at Harvard University. He is the

co-author of three botany manuals and has contributed numerous articles to scientific publications.

President of the Botanical Society of America in 1961, Dr. Cheadle was associate editor of the journal of the International Society of Plant Morphologists from 1955 to 1959. He also is a fellow of the American Academy of Arts and Sciences.

Cleveland Playhouse Group Presents Ibsen's 'Ghosts'

Campbell Hall will be filled Thursday night when Henrik Ibsen's "Ghosts" is presented by the touring Cleveland Playhouse at 8:30 p.m.

Tickets for the performance were sold out a week ago.

The Norwegian playwright's passion for morality and craftsmanship are evident in this tragic drama which outraged audiences of 80 years ago. His frank treatment of the topic of social disease

caused a scandal when the play was first presented.

Starring Richard Oberlin, JoAnn Fennell and Charles Keating, "Ghosts" depicts the sins of a father visited on his son. It also attacks conventional marriage and Victorian proprieties.

In its 47 years of operation, the Cleveland Play House has presented other Ibsen plays, including "Hedda Gabler," and "The Master Builder."

With a repertory of more than 800 plays, the Play House operates continuously in three permanent theatres from September through mid-May. It annually produces some 30 plays, both classic and modern.

Since its founding in 1915, the Play House has offered a unique opportunity for aspiring actors, designers and technicians through its apprentice system.

It also has promoted unproduced plays, premiering 50 plays by such writers as Ben Hecht, Elmer Rice, Tennessee Williams, Eugene O'Neill and Maxwell Anderson.

This is the company's third year on the road.

Corps Teachers Granted Credits

Peace Corps volunteers who are college graduates and have taught for two years in the Corps can count overseas teaching in lieu of the standard student-teaching requirements.

According to a Peace Corps news release, California school districts want to employ returning Peace Corps teachers in elementary and high schools and junior colleges.

In addition, credit given by universities for Corps training programs will be recognized by the state as credit towards the number of education courses required for professional certification.

Corps teachers not fully qualified for state certification will be expected to fulfill a minimum of course requirements within a reasonable length of time, the release said.

Playboy Ticket Sale

Tickets for the annual Playboy Dance, to be held Saturday from 9 p.m. to 1 a.m. in the El Paseo Restaurant in downtown Santa Barbara, are on sale at the Associated Students cashier's window in the Student Union.

Prices are \$2.25 per couple. Theme of the dance, is "Playboy Goes to New Orleans."

Chime Bids Due

Applications for Chimes, the national Junior Women's service honorary, are out today.

Sophomore women with an overall GPA of 2.75 who did not receive applications may pick them up in the ACB office.

Interviews for applicants will be conducted March 26, 27 and 28 and a dessert will be held for them Wednesday April 3 from 7:30 p.m. to 9:30 p.m. in Santa Cruz formal lounge.

Membership is based on scholarship, past activities and service.

Editorial Column

Students Lack Of Knowledge

(Editors Note: In an attempt to gauge student opinion an El Gaucho reporter set out asking, at random, UCSB students their opinion on the controversy over the State Board of Education. Over 90% responded that they did not know about this controversy).

Last November Californians elected Dr. Max Rafferty, leader of the "three R's" education philosophy, to the post of State Superintendent of Schools. Rafferty entered into his new position with wild fanfare and had massive plans for overhauling the "decrepit" educational system in California. This system, according to Rafferty, produced all of us "spineless individuals."

Those of us who believed that Rafferty was a political opportunist and an unenlightened reactionary were concerned over this election, yet knew that the State Superintendent has little tangible power. We realized that the State Board of Education with its appointed members had real control in the education policies of California.

Well, it seems Rafferty and his followers are not satisfied with just the position of Superintendent, they now want the whole Board of Education. They have instigated a campaign to drive from office one of the most competent members of the State Board.

The campaign against Thomas Braden, Southern California newspaper publisher, was started by a group called "Responsibility in Education Ind." and aided by State Senator Jack Schrade of Del Mar.

This group of distinguished citizens were the main core of Rafferty's campaign. They are wonderful people. Mrs. Edward Gilbert head of REI quite proudly admits to organizing the telephone demonstration to spur opposition to Braden. A demonstration that has been apexed by insults to Braden's family and shouts labeling Braden's character as ultra-liberal.

Senator Schrade says he objects to Braden as a member of the State Board for two reasons. He says Braden is personally obnoxious to him and that Braden backed Rafferty's opponent, Ralph Richardson in the race for Superintendent. Both of these statements are typical of Schrade's grasp of educational problems.

This controversy is a small section of an even greater structural problem in California's educational system. The State Superintendent of Education is elected while the State Board of Education is appointed and their responsibilities are divided.

This enigma is of vital importance to all students and especially those directly concerned with education.

At UCSB there are over 1600 students who have definite plans to enter the teaching profession. This is about one-third of the entire student body. Yet judging from student knowledge about this problem these and other supposedly enlightened members of our student community care much more for building castles in the sand or rolling push-carts than for consideration of this controversy in California's educational system.

The President's Desk

... by Joe Sorrentino

In a recent editorial Keith Porter charged that there is too much effort to foster "togetherness" at UCSB and points to the unwieldy structure of Legislative Council as evidence of this.

While one might get this impression from listening to candidates during election time, I think the issue was exaggerated. Keith contends that in all "its major policies the Associated Students do not recognize and encourage the division between living groups." There are A.S. sponsored events, such as the basketball and football games which

do attend as members of the same community, but in most A.S. activities, such as Spring Sing, Homecoming, GGR, and Intramurals, we do recognize and encourage this division.

I agree with Keith, as do all members of the Council, we should not infringe on the variety of student life at UCSB, but I would like to see more goodwill on our campus. We can all be different, compete with each other, yet I believe we all would like a friendly community.

From my own observation there is no serious threat to the diversity of student life at UCSB. The number of Greeks continue

OPEN FORUM

Sino-Indian Prognosis Written

by Nancy Snider

Ed. Note: Miss Snider has spent seven years in the U.S. Foreign Service before entering UCSB in September 1961. While an officer in the Foreign Service, she was stationed in Japan, Singapore, and Tunis. She is now working toward a B. A., and M. A. degrees in Poly Sci.

Last week's State Department announcement that the U.S. had given a \$240,000,000 loan to India did not come as a surprise in light of the events on the Sino-Indian border last fall. At the same time Castro and Khrushchev were denying that Russian missiles had been sent to Cuba, the Communist Chinese decided that their "cartographic aggression" on India's northern frontier had gone as far as it could go without forceful action.

For more than ten years, China had been slicing off little bits of Indian border territories, and then showing them on her maps as part of Communist Chinese territory. In 1957 the Chinese built the key Aksai Chin highway across the northeast corner of the Indian province of Ladakh.

The fact that this area belonged to an Asian neighbor toward whom the Communist Chinese had been making fervent protestations of eternal friendship did not deter them in building their road.

India, which did not have patrols in this area in the winter, was unaware until spring of 1959 of the construction activities under taken by its friendly neighbor. Its attention was drawn to the new road by a map in an obscure Chinese newspaper, and in the summer of 1958 an Indian border patrol was sent to investigate the Chinese road.

The Indian people were kept ignorant of the Chinese encroachment on their territory until late in 1959 when the Indian Government revealed the bitter story in a series of white papers. From then on relations between Peking and New Delhi were on a down hill grade in spite of diligent efforts by Indian Premier Nehru to bring about a compromise solution to the dispute.

The exact reason for the timing of the October 20 invasion last fall is not known, but the complete route of poorly equipped Indian troops obviously came as a surprise even to the Chinese. In their drive between October 20 and November 20, the Red Chinese Army charged down into the Himalayan foothills to the edge of the Brahmaputra River Valley.

Although the way to Delhi lay open before them, they did not advance but retreated. The probability is that their over extended supply lines and the oncoming heavy snows which would close Himalayan passes for the

winter dictated this retreat.

The key question of WHY, that is, why the Chinese would take such an aggressive action against India in order to keep control, kept reporters and commentators guessing for some time. Perhaps the best conclusion is that the Chinese action was motivated in the main by an almost desperate anxiety to preserve control of the Aksai Chin Highway, which is generally agreed to be the most feasible route between Tibet and the Chinese far west province of Singkiang.

Singkiang, most experts agreed, is, or will be, the site of Chinese nuclear testing.

The U.S. position toward the Sino-Indian border dispute has been to offer India CARTE BLANCHE aid to build up her inadequately supplied defense forces without losing any of the slowly growing momentum of her economic development. Thus we find the rationale behind the huge loan referred to earlier.

The problem currently puzzling Indian and U.S. policymakers alike is what may happen this spring when the Himalayan snows melt. Will the Chinese Army re-invade India? And if they do re-invade, what will India's reaction be? One man who holds a partial answer to these questions in India's charismatic Premier, Jawaharlal Nehru. -- However, Nehru has consistently refused to recognize Communism (minus Chinese imperialism) as an aggressive force in Asia.

A recent report from New Delhi by American correspondent, Saville Davis of The Christian Science Monitor, indicates that in spite of the Chinese invasion of India, Nehru has not changed his mind on this point. But the Indian nation has apparently changed its mind. Thus Nehru has been forced to take actions, such as the acceptance of large quantities of American military aid, which he personally considers an anathema.

With the physical threat of invasion abated but a possible future menace, Nehru seems unable to provide the leadership necessary to re-direct the course of his beleaguered nation. And yet an India without Nehru presents an impossible picture to those who say that there is no one, in India who can replace him. *see below

*UCSB armchair strategists may note that if the Chinese do plan a full-scale invasion, it will undoubtedly come via the Chumbi Valley between Sikkim and Bhutan sometime in late March or early April.

Opinions!

A Different View Of Unity

to grow; in Isla Vista landlords are hurriedly building to accommodate more independents; soon to be completed San Miguel will house more students on campus; the number of graduate students, married students, new majors, foreign students, out-of-state students, Brooklyn students, beatniks, and angry young men is fast expanding at UCSB.

The Associated Students at Berkeley and UCLA are organized, much like ourselves and have preserved their diversity unimpaired for many years. They have events in which students identify with the school, but these are few and isolated realms of

experience. The same is true for UCSB.

The many other roles we have, the many other interests and values we have, are in no way imperiled by our attending a basketball game as a member of the Associated Students. Despite the structure of Legislative Council if anyone has ever attended a meeting this year, they would never charge it with trying to foster "togetherness." Let's try to foster goodwill, but to attempt anything beyond that is not only undesirable, but as Rep. John Larkin says, "let's be realistic."

Listening Post

Conestoga Reply

Editor:

Regarding the recent editorial in which it was suggested that ASUCSB's commitment to Camp Conestoga be re-evaluated and perhaps abolished, I should like to clarify our position.

Last fall our relationship with Camp Conestoga WAS re-evaluated. After much research and discussion, the Associated Students established a responsible position in relation to Camp Conestoga. There is no need to bring this up again at this time. We have made a commitment and in the interests of campus-community relations as well as a our own self-respect, we must live up to it.

As for the contention that Charities Committee should expand its field of endeavor to other areas--it does, and will do so more in the future. This year Charities Committee conducted a canned-goods drive at Christmas time, handled an AS contribution to a college in South Africa, and is now handling the request of a Brazilian student for aid.

Conestoga is a relatively new project. Before its introduction last year, Charities Committee handled some small projects but was contributing little if anything substantial to the campus or community. Camp Conestoga is not only a source of campus unity, but a most effective and favorable aspect of campus-community relations.

UCSB students do give time and energy as well as money to Conestoga! Four students serve on the board of directors of Camp Conestoga, Inc. and three of them serve as officers. The sponsoring of fund-raising events is a donation. Events which are being held for Conestoga are events which benefit the student body.

For 17 years Camp Conestoga has been a community project involving many Santa Barbara groups. Its directors are citizens of the governmental and professional aspect of the community. Our position with Camp Conestoga is now clear-cut and responsible, and thus an invaluable community relations asset. At the same time it is an opportunity for us as students to give of our time and effort to a worthwhile project outside our own campus world. It is and can continue to be a source of pride for UCSB.

Gail Grigsby
A.S. Charities Comm. Chrmn.

Potshots

The New York newspaper strike has gone on for so long that even Cardinal Spellman has started reading the Christian Science Monitor.

Mr. Nixon, has bounced back into newsprint - much to the chargin of the Republican party. It seems that he wants to use U.S. troops to wipe out all the Russians in Cuba - preferably down to the last Kennedy.

Should cigarette companies be allowed to promote their products on the UCSB campus or should they not? If they do stop, we will all have to start buying our cigarettes.

Vasser Book Sale

The sixth annual Vasser Book Sale has opened for business at 21 W. Anapamu St. in Santa Barbara and will continue through Mar. 27. Hours are from 9 am to 10 p.m. and 10 am to 2 p.m. Saturdays.

Proceeds will benefit the Vassar College Scholarship Fund to help outstanding students from the tri-counties attend the school.

British Art Exhibit On Display In SB Throughout March

One of the major art exhibits of the year, "British Art Today", is on display until April 1 in the Santa Barbara Museum of Art.

The exhibition includes 100 works of painting and sculpture by leading British artists. The show was organized by the San Francisco Museum of Art and was shown there last November and December.

The San Francisco Museum has published an illustrated catalogue of the exhibition with an introduction by Lawrence Alloway and a foreword by Stefan P. Munsing, Cultural Affairs Officer of the Embassy of the United States in London.

Mr. Munsing states in the catalogue, "I have tried to select the most representative and interesting British works available." The exhibition reflects what is in the forefront today... primarily nonfigurative art which is one of the dominant post-war tendencies of the British art scene."

Thirty-six painters are represented in the show. Among them are Francis Bacon, Peter Blake, Ivon Hitchens, Peter Lanyon, Louis LeBrocqy, Ben Nicholson, Ceri Richards, William Scott and Graham Sutherland.

In addition the thirteen sculptors include Kenneth Armitage, Reg Butler, Lynn Chadwick, Barbara Hepworth and Henry Moore.

Museum hours are 11 a.m. to 5 p.m. Tuesday through Saturday; noon to 5 p.m. Sunday; closed Monday.

has spent nearly half of his last 12 years in Greece, speaks on "Mycenaean, the Capitol City of Agamemnon" on April 1 at the Lobero theatre in Santa Barbara at 8:30.

The professor is a world renowned archaeologist and Chairman of the Department of Art and Archaeology at Washington University in St. Louis. The illustrated lecture is co-sponsored by the Santa Barbara Museum.

Library Holds Smallest Book

The smallest book in the world, a volume containing the Lord's Prayer in seven versions, is one of the items on display this month in the Library's Department of Special Exhibits.

Copies of the book were presented to donors to the fund for the rebuilding of the Gutenberg Museum in Mainz, Germany. UCSB's donation was \$5.

Other items on display include a small volume of selected Lincoln addresses, a new edition of Moore's account of a visit from St. Nicholas and works by Dante, Coolidge, Perez Galdos, Aguilar and Lawrence Clark Powell.

News In Brief

SYRIA was the scene of the second military coup d'Etat in the middle east in the last month as army rebels under the leadership of Col. Louai Atassi overthrew the existing government of Premier Khaled el Azm and took control of the country "without a drop of bloodshed." The leaders of the revolution appear to lean toward Arab nationalism and the socialism of President Gamal Abdel Nasser of the United Arab Republic. The revolution seems closely allied to the principles of the coup that successfully established a new government in Iraq last February 8.

PRESIDENT GAMAL ABDEL NASSER of the United Arab Republic has assured the U.S. that Egypt will cease its military operations against Saudi Arabia after this country warned Nasser that the air and sea attacks were jeopardizing the U.A.R.'s relations with the U.S. The Egyptian attacks came as a result of Saudi Arabia giving military aid to Royalist forces fighting a civil war in Yemen. The U.S. has sent former Ambassador Ellsworth Bunker to Saudi Arabia to try a negotiate a cessation of this aid.

THE CHINESE COMMUNISTS have warned Premier Khrushchev that his taunts of Chinese softness in allowing "imperialists" to remain in Hong Kong and Macao are "reopening" many serious territorial disputes between China and Russia. The warning concerns some nine treaties that the Chinese consider "unequal" and subject to change which they say will be settled in due time by negotiation.

WEST GERMANY has agreed to supply up to forty percent of the seamen necessary to man the 25 Polaris-equipped surface ships proposed as part of Multinational NATO nuclear fleet. They together with the U.S., are also scheduled to put up at least 75 percent of the money with the remainder supplied by other NATO countries.

PRIME MINISTER MACMILLIAN pledged his government's continued cooperation with the United States and foresaw what he called a unity in "proud and honorable" partnership with the U.S. In a statement aimed primarily at Charles DeGaulle of France, MacMillan said, France "must not be a peevish critic of American strength nor a third force to rival America or challenge its power." He also restated his government's position on the necessity of Britain remaining an independent nuclear power.

THE NATIONAL UNEMPLOYMENT RATE rose to a new high of 6.1 percent in February, the highest since November, 1961 when it reached a similar high. In figures released by the Labor Department, the number of jobless was set at 4,918,000 which is 385,000 more than February 1962. This was the first month since October that the level of unemployment failed to fall below that of the same month in the previous year. It is expected that this unemployment situation will aid the President's program to cut taxes and stimulate the economy.

JUSTICE DEPARTMENT joined with leaders of Congress in opposition to a proposal of the civilian space agency to hand over ownership of Government-financed inventions to private industry. The Department feels that the Government should retain all ownership since the public "is entitled to all the fruits" of taxpayer-financed research.

Law Test Bids Now Available

Applications for the Law School Admission Test, required for admission to most American law schools, are available in North Hall 3042, office of Dr. Stanley Anderson, assistant professor of political science.

Admission tests will be given at more than 100 centers throughout the United States April 20

and August 3.

Applications must reach Educational Testing Service, which prepares and administers the test, two weeks before the testing date.

Candidates must make separate application for admission to each law school and should ask if it requires the test.

On Campus with Max Shulman

(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)

MARKING ON THE CURVE—AND WHAT TO DO ABOUT IT

Twonkey Crimscott was a professor. Choate Sigafoos was a sophomore. Twonkey Crimscott was keen, cold, brilliant. Choate Sigafoos was loose, vague, adenoidal. Twonkey Crimscott believed in diligence, discipline, and marking on the curve. Choate Sigafoos believed in elves, Julie London, and thirteen hours of sleep each night.

Yet there came a time when Twonkey Crimscott—mentor, sage, and savant—was thoroughly outthought, outfoxed, outmaneuvered, outplayed, and out-witted by Choate Sigafoos, sophomore.

"You and your ideas!"

It happened one day when Choate was at the library studying for one of Mr. Crimscott's exams in sociology. Mr. Crimscott's exams were murder—plain, flat murder. They consisted of one hundred questions, each question having four possible answers—A, B, C, and D. You had to check the correct answer, but the trouble was that the four choices were so subtly shaded, so intricately worded, that students more clever by far than Choate Sigafoos were often set to gibbering.

So on this day Choate sat in the library poring over his sociology text, his tiny brow furrowed with concentration, while all around him sat the other members of the sociology class, every one studying like crazy, every one scared and pasty. Choate looked sadly at their stricken faces. "What a waste!" he thought. "All this youth, this verve, this bounce, chained to dusty books in a musty library! We should be out singing and dancing and cutting didoes on the greensward! Instead we are here."

Then, suddenly, an absolute gasser of an idea hit Choate. "Listen!" he shouted to his classmates. "Tomorrow when we take the exam, let's all—every one of us—check Choice 'A' on every question—every one of them."

"Huh?" said his classmates.
"Oh, I know that Choice 'A' can't be the right answer to every question," said Choate. "But what's the difference? Mr. Crimscott marks on the curve. If we all check the same answers, then we all get the same score, and everybody in the class gets a 'C'."

"Hmm," said his classmates.
"So why should we knock ourselves out studying?" said Choate. "Let's get out of here and have a ball!"

So they all ran out and lit Marlboro Cigarettes and had a ball, as indeed, you will too when you light a Marlboro, for if there ever was a cigarette to lift the spirit and gladden the heart, to dispel the shades of night, to knot up the ravelled sleeve of care, to put spring in your gait and roses in your cheeks, it is filtered Marlboros—firm and pure and fragrant and filled with rich, natural, golden tobacco. And, what's more, this darlin' smoke comes in soft packs that are actually soft and flip-top boxes that actually flip.

Well sir, the next morning the whole class did what Choate said, and, sure enough, they all got 'C's, and they picked Choate up and carried him on their shoulders and sang "For He's a Jolly Good Fellow" and plied him with sweetmeats and Marlboros and girls and put on buttons which said "I DOTE ON CHOATE."

But they were celebrating too soon. Because the next time shrewd old Mr. Crimscott gave them a test, he did not give them one hundred multiple choice questions. He only gave them one question—to wit: write a 30,000 word essay on "Crime Does Not Pay."

"You and your ideas," they said to Choate and tore off his epaulets and broke his sword and drummed him out of the school. Today, a broken man, he earns a living as a camshaft in Toledo.

Hardin Speaks Tonight, 7 P.M.

Dr. Garrett Hardin, professor of Biology, speaks on the question "Should Abortion be Legalized?" tonight at 7 in the formal lounge of Anacapa Hall. This is the third in the Anacapa Lecture Series which brings members of the UCSB faculty to speak on the topics of most interest to them. The talks last from 20 minutes to an hour and are followed by a question and answer period.

Thailand Elementary School Seeks Woman Eng. Teacher

A new elementary school in Bangkok Thailand is looking for a "Peace Corp-type" person to teach conversational English to

beginning Siamese boys and girls next school year.

According to H. S. Baer, director of English instruction at the school the school needs a young woman teacher with clear pronunciation and a good practical command of the English language.

Baer describes Bangkok as a fascinating lively city with friendly and hospitable people, fine year-around weather, tasty fruits and beautiful scenery.

Salary is room and board plus 1500 Bahts a month (\$75) which is about three times the usual primary salary. The teacher must furnish her own transportation to Bangkok.

Sample Thailand prices include bus fare, 21/2 cents; haircut, 25 cents; and 15 small bananas, 5 cents.

St. Peters is a Catholic school but in practice it will be non-denominational. The teacher may follow any religion or none.

All interested students should send their application and several different snapshots to Baer at Sompong Vitya, 121 Soi Mitakam, Sam Sen Road, Bangkok, Thailand.

Panel Discussion Tomorrow Night

"Faith and Intellectual Integrity" will be discussed by a panel of six tomorrow night in the Santa Cruz Formal Lounge from 7 to 8:30.

Presented by the Inter-faith Council at UCSB, the discussion will include speakers, The Reverend B. Noel Phelan, The Reverend John Keester, Seena Nico aisen, Mike Leff, Dr. Stanely V. Anderson and Dr. John King-Farlow.

Show Aids Students

Tickets for the "Dollars for Scholars" spring fashion and variety show, to be presented Wednesday and Thursday at 8 p.m. in Santa Barbara's Granada Theatre, are on sale at the Associated Students ticket window in the Student Union.

Student prices are \$1. Proceeds go to scholarship funds at institutions of higher education in the Santa Barbara area.

The program is sponsored by the American Association of University Women and the Retail Merchants Association of Santa Barbara.

Ed Lange Constructs Campus Telescope On Point

by Susan Cumins

On the next clear day, people on La Cumbre Lookout had better be on guard---they might be under surveillance by UCSB students. Yes, with the aid of his professionally complete, personally assembled telescope, Ed Lange can see the ranger in the lookout, some ten miles distant, adjusting his binoculars.

The junior physics major constructed the 'scope last summer for "something to do in my spare time." The project was financed by a grant from the EPIC program, (Experimental Program, Instructors for College), which provides qualified students with subsidy and facilities for advanced research work that will aid them as future college teachers.

His work was supervised by the physics faculty with the cooperation of Gordon Steele of a local research firm. The outcome was so successful that the physics department assumed full responsibility for the completion of the project, including the construction of the dome to house the telescope.

The total cost of the project was only \$1200, although the assembled telescope alone is worth much more than this amount. This low budget was possible because most of the parts were made in the Physics Department shop from sheet metal and similar basic materials.

Standing 9 to 12 feet high when mounted, the equipment consists of four telescopes anchored to one base. The largest is a Newtonian telescope with a 10-inch aluminized mirror and a tube 7 feet long. The set-up also includes a guiding telescope with a 4-inch refractor. The apparatus has provisions for automatic guiding, so that the telescope, dome, and slit can be operated by remote control.

Lange has a collection of eyepieces ranging in power from 30 to 1200 magnifications. Under proper conditions it is possible to read through this telescope the writing on a dime a mile away.

However, he built it with much more serious plans in mind. He will use it for astronomical research, for example, measuring the periodic brightness of some variable stars, and taking time-lapse photographs of the planets.

The telescope will be available

for use by astronomy students next fall and will eventually occupy a permanent place in the proposed new physics building.

The observatory is temporarily located above the marine biology lab, and will be open for inspection by all interested students on March 17, between 3 p.m. and 10 p.m.

Lange's interest in astronomy is a fairly recent development, though he "had a few small telescopes at home." His ingenuity in matters scientific is far from new, however.

In eighth grade he won the sweepstakes in the Santa Barbara City Schools science fair (Lange was the youngest entrant), with a project on energy transfer mechanism in air core transformers.

As a student at Santa Barbara High School, he won the sweepstakes in the Southern California Science Fair for his project in plasma physics and walked off with a total of \$2,000 in other prizes and scholarships.

During his freshman and sophomore years at UCSB he continued to work on his plasma physics project, until it was found that he was working with classified data.

Barely having completed his telescope project, Lange already has plans for research in a slightly different field of science. He hopes to apply for a National Science Foundation Grant that would give him a new project for next summer --- "measuring the plasticity of movements in the earth's crust."

ED LANGE (l.) points out aspects of his telescope with co-worker from the Physics department.

UCSB Takes Third In NCAA Tourney, Fresno Wins

A win, 58-56 over SF State, and a loss, 68-60 to Fresno, gave UCSB third place in the NCAA tournament in Fresno over the weekend.

Against San Francisco, the Gauchos returned to the court after taking a 27-24 half-time lead and rolled to a 16 point buldge before the Gators could put together an effective offense. But when they did, it came in the form of 10 straight tallies by guards Mike Carson and Brad Duggan.

With their lead cut to six at 48-42, the Gauchos could not rim a bucket and the Gators cut the margin to four points. Then came one of the oddest shots in basketball, which wasn't intended to be a shot at all.

Tom Lee brought the ball down court for the Gauchos, and in attempting to pass to Howie Sundberg the ball was batted away by Gator Terry Stogner. But the

loose ball caromed into the net for two points for Santa Barbara, giving the locals a lead they never allowed to be headed.

With a minute and a half remaining the Staters went into a stall with the score 58-56 in favor of Santa Barbara. Attempting to get the last shot before the whistle and send the game into overtime, the Gators lost the ball under their basket with 5 seconds remaining, ending their scoring threat and virtually assuring the Gauchos of the win.

Leading the Gauchos was Hal Murdock with 14 tallies, followed by All-tourney choice Tom Lee with 11. Interestingly enough, nine of Lee's points came from 14 attempts at the foul line.

Three other Gauchos also turned in fine floor games. Bob Yahne, who led the Gauchos in rebounds with 6, contributed 8 points, John Conroy tallied 8, and Gary Erickson also scored 8. Howie Sund-

berg had 6 and Steve Fruchey had 3 to round out the Gaucho scoring.

Santa Barbara hit for an even 50% of their field goal attempts, making 22 of 44. They also held a slight edge in rebounding, taking down 40 missed shots to San Francisco's 34.

In the tourney championship game Fresno State won the right to represent the district in Evansville on the strength of their 71-59 win over Chapman.

Leading the Bulldogs were All-Tourney picks Ron Neff and Maurice Talbot, each scoring over twenty points. Jeff Cottwright, Chapman's high scoring center, also won All-Tourney honors for his 28 point production in defeat.

Whistled into submission by the men in stripped shirts, the Gauchos dropped their opener in the NCAA regionals in Fresno to the host Bulldogs, and in doing so eliminated themselves from further NCAA contention.

The final tally showed 68-60, with the visitors on the short end, but that was only half of the story. Santa Barbara outlit the Fresnoans from the floor, 24-23, but gave the Bulldogs 40 trips to the foul line, where they connected on 22 of their charity tosses.

Those free throws made the difference, as the Gauchos could only manage to convert 12 of their 18 chances from the line, far from enough to overcome the Bulldog advantage.

Fresno, which held a 5 point lead at halftime, 29-24, came alive in the second half on the hot shooting hands of 6-5 Maurice Talbot and 6-9 Ron Neff. Talbot and Neff together tanked 28 points in the second stanza, while they had only managed to mesh 16

in the first half.

But even that does not tell the whole story, as Talbot and Neff picked up 14 of those 28 points from the charity line as the Gauchos were whistled for foul after foul. Tony Burr, the other Bulldog front-liner, got only 11 tallies for the night, but it added up to produce 55 total points for the Fresno threesome.

In contrast to this total, the Gaucho starting frontliners of Howie Sundburg, Gary Erickson, and John Conroy could only contribute 14 counters.

However, the big guns which kept Santa Barbara in the game were guards Tom Lee and Hal Murdock. These two combined gave the Gauchos more half of their total points, 32, with Lee leading the way with an 18 point effort, high for the locals.

All-CCAA candidate Hal Murdock added 14 to the Gaucho attack, while Bob Yahne, reserve forward, led the frontliners with a 7 point total, despite getting into the game for only 8 minutes.

Fouls told the story, with two Gauchos having fouled out of the contest and three others drawing four personals. John Conroy, 6-8 and Steve Fruchey 6-9, contributed only 11 tallies between them, but the two pivot men drew 5 fouls apiece to leave the game prematurely.

Sundberg, Erickson, and Orval Elkins each had 4 personals, and Murdock drew three. The Gauchos had 26 infractions called on them while Fresno was whistled down only 16 times.

Other departments were just about even, with Santa Barbara hitting 43% of their shots from the floor and Fresno 44%. The Bulldogs held a slight edge in the rebounding, 45-39.

In the other game of the first round of the tournament, Chapman held a narrow lead all the way to down stubborn San Francisco State, 53-50.

Brad Duggan, 6-4 forward, led the San Francisco cause with 24 points, most of them coming on a patented set shot that just never missed.

Players who were accorded All-Tourney honors were Jeff Cottwright (f) of second place Chapman, Maurice Talbot (f) and Ron Neff (c) of champion Fresno, Brad Duggan (g) of San Francisco, and Tom Lee (g) of Santa Barbara.

The 6-9 Neff was awarded the tourney's most valuable player title for his outstanding work under the boards and for contributing 46 points to the Bulldog effort in the two nights of competition.

Tom Lee, 6-3 guard from Chula Vista, won All-NCAA Tourney honors in Fresno for his play in the Gauchos overall third place finish in the Western Regionals Finals.

Lee, a 19-year-old sophomore, finished his first year of Varsity ball under head coach Art Galong, and his steady play gained him a starting back court spot in the last games of the season.

Cindermen Lose To Long Beach

Taking only four first places, the Gaucho tracksters dropped a dual meet Saturday against CCAA for Long Beach State by an 88-52 count.

Leading the way for the 49'ers was Dee Andrews who won four events, both hurdles, the broad jump, and the triple jump. Three of this wins, the intermediate hurdles, broad jump and triple jump, were meet records.

Mike Beresford gained one of the Gaucho's firsts, tossing the javelin 199 ft. 1 in., bettering his old season mark by 15 feet. Gene Seamons took the high jump for the locals at 5 ft. 8 1/2 in.

Fred Hokanson surprised by edging teammate Larry Rocker for shot put honors with a heave of 48 ft. 7 in. The only other Gaucho win was the 440 yard relay, which UCSB won in a time of 43.3.

The Gaucho Frosh spikers made their meet a different story, and rolled to a 107-23 win over the 49'er Frosh, again led by Dave Caswell and Mike Smith.

Varsity Wallops Frosh Nine, 16-1

Inept ball handling by the Frosh allowed the Varsity to collect three unearned runs in the first two innings Friday, before the Senior nine went on the score ten in the fifth and three more in the sixth to wallop the Frosh 16-1 on the campus diamond.

The lone Frosh tally came in the sixth on a sacrifice fly by Steve Murray, as Joe Hendrickson pitched a three hitter for the Varsity through six innings with Ray Ford finishing and allowing no safties.

A balk, a wild pitch, and an error gave the Varsity their first three runs. In the big fifth the Varsity collected six hits, two of them home runs. John Cole hit his first four master, followed by Leroy Pifer's blast just three batters later. Both came with two runners on the bags.

Pickens again led the way offensively for the Varsity, getting four singles in five trips to the plate. Altogether the Varsity collected their 16 runs on 10 hits and two errors, while the Frosh got only the one score on three hits and committed six errors.

The next Frosh game will be at home against the Santa Barbara City College nine on Friday, March 15. The Varsity travel to LA State next weekend to open CCAA play against the Diablos.

Golfers Rout Valley, 42-12

Led by Bob Clancy, the UCSB linksters romped to a 42-12 win over visiting San Fernando State Friday at the La Cumbre Country Club.

Clancy shot a hot 38-33-71 and took a clean sweep of 6 points over his Valley opponent. Clancy shot the first nine in two over par, then took the back nine in two under to tour the course at an even par.

Dick Fisher and Al Bills also swept 6-0 wins from their opponents, with Fisher carding a 76 and Bills a 78. Lew Garbutt also had a 78 for the Gauchos.

The victory gives the Gauchos a 3-1 mark for the season, and sets up a match which could well predict the CCAA champions when the locals meet Fresno, pre-season picks, at La Cumbre next Friday, March 15.

Curtice On Radio

Jack Curtice, newly appointed Gaucho gridiron mentor, will be interviewed on radio station KTMS Monday evening beginning at 6:05.

The interview is about a half hour long, in which Curtice will air his views on the athletic picture at UCSB and the football program in particular.

On the following night, the broadcast will be continued with a combined interview with Stan Williamson, Director of Athletics, and Vice-Chancellor Stephen Goodspeed, Chairman of the Intercollegiate Athletic Commission. The interviews are aimed at making public some of the intentions and accomplishments of the athletic program at UCSB.

Gymnasts Meet

A group of experienced competitive gymnasts on the UCSB campus have announced their interest in forming a gymnastics team for next semester.

All experienced or inexperienced athletes are urged to contact Hilary Silver, 967-3154 or Rich St. Clair, 967-9114, so that a nucleus for the team may be obtained.

UCSB has never entered competition in gymnastics, the second most popular sport in the world—second only to soccer.

Gauchos Sweep Twin Bill From Cal Poly, 4-3, 11-10

Resorting to last minute sensationalism and heroics, UCSB's baseballers swept a doubleheader from visiting Cal Poly on the local diamond Saturday.

In the first game a pitching duel developed between the Gaucho's Carl Merz and the Mustang's Don Smallwood. Merz allowed only four base hits in his nine inning stint, while Smallwood almost matched his effort by giving up only 6 safties to the hosts.

But three of those six hits which the Gauchos collected came in the bottom of the ninth inning with the score tied at 3-2 in favor of the Mustangs. Jerry Crawford, pinch hitting for Merz, lined a single to right which put two men on the base paths (Joe Morbeto having been hit by a pitch).

Then right fielder John Cole produced the second hit of the inning for the Gauchos, loading the bases. Second sacker Gary Pickens then stepped to the plate and lofted a two run double to the right field corner, giving the Gauchos the win by a narrow 4-3 margin.

The Gauchos committed six misques in the field, which at several instances put Merz in trouble. But two fine double plays kept the locals in the game, as well as some fine clutch pitching on Merz's part.

The nightcap produced a wholly different contest, with a total of 21 runs being tallied, of which Santa Barbara managed to score 11 to take the win.

But they did this one the same way as the first, waiting until they were down by a 10-9 count in the bottom of the seventh. Then, after Pickens had singled and Leroy Pifer had walked, first baseman Mike Fisher lined a triple to the centerfield fence which scored two runs and gave the Gauchos another cliff-hanger.

To further complicate things, the Gauchos spotted the Mustangs seven runs in the first two innings, as the visitors found the range on starter Jim Grant for six hits, including a double and a home run.

But in the Gaucho half of the third the contest changed direction, and the Gauchos shelled two Mustang hurlers for nine big runs, five safties, and sent fifteen men to the plate.

The visitors came right back in their half of the fourth with three runs to take the 10-9 lead they held until the big Gaucho "last chance" half of the seventh.

Leading the Gauchos in the second game was Fisher, who was 2 for 4 at the plate, and the consistent Pickens, who had a 4 for 5 game. Dennis Lynch got the win for the locals, the fourth hurler which coach Dave Gor-

rie used in the contest.

The two victories give the Gaucho nine a 4-1 collegiate record, with additional wins over the UCSB Alumni and the Frosh. Their next game is against long time rival Westmont on the campus diamond on Tuesday, beginning at 3 p.m. The Gauchos hold a 4-1 win over the Warriors from their previous meeting this season.

Line scores and batteries:

North Hall Landscaping To Be Completed In Time For Calif. Conservation Week

North Hall landscaping should be completed this week.

The \$88,442 project was started in November and with the exception of a week out for rain, work has progressed steadily since then.

Over 85 trees and some 1800 shrubs are being planted in the area, reports Richard R. Brimer, senior landscape architect.

Contractor for the project is Roy C. Barnett of Riverside who landscaped Campbell Hall and has done considerable work at the university campuses at UCLA and Riverside.

The landscape design was completed by Victor Pinckney of Pasadena with the Office of Architects and Engineers here overseeing the actual installation.

Of the trees being planted at North Hall, six are Cocoa plumbos or plume palms donated by the Bishop Company of Goleta.

These trees will eventually grow to 40 feet in height. A large Olive tree which is placed in the court area of the classroom building was purchased from the Santa Barbara Botanic Garden.

Also in this area are two specimens of giant bird of paradise (*Strelitzia nicolai*) which were gifts to the university.

Other trees of interest include a row of Coral trees which are being planted along the walk on the north side of the building; a *Pittosporum undulatum*; *Ficus retusa*--sometimes called an Indian laurel; Kafir plum; Camphor trees, and two types of Pine--Canary Island and Monterey.

A large portion of the shrubs are a prostrate-growing Natal plum which is used as a ground covering in areas between the building wings and the court. Among the more prominent shrub-type plantings are tree ferns, Guavas, *Aralia sieboldi* and New Zealand flax.

In addition to lawn and shrub ground covering areas, to the east and south of the building will be spaces abundantly covered with large leaf ivy. Adding color will be flowering plants in the brick planter in the court.

Landscape architect Brimer calls attention to the use of tile for paving the court areas. This is an innovation in landscaping for the Santa Barbara campus. Lights will be installed to emphasize the plantings at night.

The completion of the North Hall landscaping project coincides with the advent of California Conservation Week, March 7-14.

IT'S EASY--Mike Diffenderfer and Phil Edwards, called "the world's greatest surfers," show how it's done at Yokohama Bay, Hawaii. The two will be featured in the Sophomore Class movie tomorrow at 7:30 p.m. in Campbell Hall.

THE BELL TELEPHONE COMPANIES SALUTE: DON ESTES

Don Estes (B.S.M.E., B.S.B.A., 1958) is Manager of Mountain States' Leadville, Colorado, Telephone Exchange area. As Manager, he is responsible for all business office operations and also all equipment installation and upkeep.

Don earned this important promotion after being back from the service less than two years. But in those two years his management touch showed in everything he did, par-

ticularly on an assignment in the Commercial Department, where he demonstrated a knack for forecasting business trends that helped bring about his latest step up.

Don Estes and other young men like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.
