CLASS OF ’38

Much Fruit Being Sent to Europe

Sales manager T. H. Powell reported that in the past five years, there have been about 500 boxes of California oranges shipped to Europe. The future for these products is bright, he said, with the demand for California oranges being greater than ever.

Change in Ownership

On Monday, June 11, Ann Wayn-er of Carpinteria, has issued a formal notice to all her neighbors, advising them of her intention to sell her property, located on the corner of Second and Main Streets. The property will be sold to the highest bidder. The sale will take place on Tuesday, June 12. Ann Wayner is a long-time resident of Carpinteria and has lived in the property for over 50 years. She is happy to pass on the property to someone who will continue to cherish it and enjoy all that it has to offer.

Life Saving Class to Be Held Twice Every Week at Beach

Starting Monday morning, June 11, at 8:00 a.m., a life-saving class will be held in the high school auditorium. The class will be taught by the instructor, Mr. T. H. Powell. The class will be held twice every week, on Mondays and Fridays, from 8:00 a.m. to 10:00 a.m. The class is open to all interested individuals.

Curriculum Survey Is Made By Local High School Committee

The committee meeting was held on Tuesday, June 12, at the high school auditorium. The meeting was attended by the chairman, Mr. A. A. Chaffin, and a number of other members of the committee.

More Players Needed for Soft Ball Teams

The carpinteria High School baseball team is looking for more players to join their ranks. The team is preparing for the upcoming season and is in need of additional players. If you are interested in joining the team, please contact the coach, Mr. T. H. Powell.

Installation of Officers and Athletic Awards to be Made in Closing Assembly at C.U.H.S.

Fifty-Five Awards to be Given Local Athletes for Excellent Work

The closing assembly of the school year will be held on Thursday, June 14, at the high school auditorium. The assembly will be followed by the presentation of athletic awards to the outstanding athletes of the school year.

Santa Barbara College, 1934-35: Marcus Cravens, secretary; John A. Young, registrar; William F. Johnson, superintendent.

Things to Remember

When parties of young people had been in the cinema the previous evening and the weather was pleasant, they would meet to play cards or to go for a walk.
The Carpentaria Chronicle has been adjudged a legal publication by the Courts of Santa Barbara County

WE THANK YOU

O'behalf of the various Davis families, I wish to publish this article in the Carpentaria Chronicle for their loyalty and support during the past two years. We are sorry it is impossible for us to live here because of ill health of two of our families. "Thank you" will remain.

This is a beautiful country and its people are tolerant, loyal and friendly. The new management is well known in California newspaper circles and operates a most successful publication in the San Joaquin valley. I know they will continue its broad, progressive policies and will make it "bigger and better all around." The Chronicle offices without a doubt the unambiguous active support of the community it is so generously serving. Again I thank you.

W. L. DAVIS, JR.

APPRECIATION

I DESIRE to express my appreciation for the kindness and consideration of the citizens of Carpinteria, for I have been privileged to live in this community during the last few years. I feel that I have been fortunate in my choice of location for a home.

The first week of managing a newspaper in a new town will be difficult, as names and sources are strange and I do not know the history and background of our community life. If errors of commission or omission should creep into the papers during these first weeks, I must ask your indulgence.

It is my wish to serve the best interests of the community and to see that every project that will benefit the people of Carpinteria Valley and outlying districts is handled properly. This paper, will receive our wholehearted support.

You are cordially invited to drop in at the office at any time and get acquainted.

ANN WAYNFLEET

BEWARE THE WAKES OF SEARING FLAME

California is a dry state in respect of vast hazards and the responsibility of preserving it unscared and beautiful devolves upon the motorist. This because the motorist very often practises practically everything that our matchless vacation-land cars everywhere. Beware leaving waxes of flame and smoke behind.

Dearth of snows in the high places and of spring rains in the lower, with a mountain season advanced beyond normal may make this a struggle for supplies, per for a long period, and the situation demands the utmost prudence. It is hardly to be assumed that any season could deliberately set a forest or countryside conflagration, but a blaze started through carelessness will be just as destructive. The loss in extent. An unextinguished cigarette or cigar or a lighted matchless vacation-land cars go everywhere. Beware leaving waxes of flame and smoke behind.

The first week of managing a newspaper in a new town will be difficult, as names and sources are strange and I do not know the history and background of our community life. If errors of commission or omission should slip into the papers during these first weeks, I must ask your indulgence.

Timely Educational Bites by HARRY A. LINTZ

NEVER criminal objections ofoped in a public school system and no objections of any sort are presented to the public school standards. The whole school program exists in the nature of a system, and the whole program essentially exists in the nature of one or more of them. Through these continuous services the service is to provide the school to provide the school to provide the school to provide the school.

Our schools help to improve not only by setting an example of honesty and social good, but by setting the standards, and by instilling the ideals and practices of our nation. IT IS NOT ENOUGH TO ACCEPT THE RESPONSIBILITY OF THE PUBLIC SCHOOL. It is not enough to accept the responsibility of the public school. It is the responsibility of the individual. It is the responsibility of the individual. It is the responsibility of the individual. It is the responsibility of the individual. It is the responsibility of the individual.

BREVITIES

Mrs. Frank Brandow spent the weekend at home with Mr. and Mrs. William Miller.

Miss Eliza Mayo will remain in Carpinteria for the summer and will hold classes for students wishing to take up work.

Mrs. Louis Teobald entertained the members of the chapter of the H.E.P. K. in a bathful supper Monday evening.

R. D. Sahaik, A. E. Wethercut and Arthur Knell left today on a tour in Europe.

Wykoff Gives Address at Grammar School Commencement

Several hundred graduates who attended the Carpinteria Union Grammar school have received, six months ahead of Santa Claus time, their rings and gowns which mark their achievement. These rings are not only the symbol of the achievement but of the character that has been marked in the student by their school life. A few years ago, it was thought that the only way to make this announcement was to have a public ceremony such as that which was held on the stage of the high school. Last year, the students were given an opportunity to attend a private ceremony, but this year they have been given the opportunity to attend a public ceremony, where they can see and hear their friends, as well as the dignitaries who have come to present the rings and gowns.

The ceremony was a grand one, with the whole school in attendance. The president of the school, Mr. Wykoff, was the guest speaker, and he delivered a speech which was both inspiring and encouraging. He spoke of the importance of education, and the need for each student to work hard and make the most of their opportunities. He also spoke of the importance of character, and the need for each student to be a good citizen.

Wykoff also presented the rings and gowns to the graduates, and each student was given a ring of their own. These rings are a symbol of the student's achievement, and are a sign of their success in life. The gowns are a symbol of the student's character, and are a sign of their moral strength. Each student was given a gown to wear, and these gowns are a sign of the student's pride in their school and their country.

The ceremony was a great success, and the students were all very happy with the rings and gowns. They were all very proud of their achievement, and they were all very grateful to Mr. Wykoff for his speech and for the rings and gowns.

Job Printing

Curriculum Survey Made by Committee

(Continued from Page One)

The following steps have compli­
cated the procedure of the commis­
sion in carrying out the activity: (1) A Meets have been con­
ducted which contain approximately
400 titles; (2) a careful study of cur­rent professional literature has
been made in order to ascertain pre­
cedent practices in the Carpent­
eria high school that are being made on
the basis of the trends indicated by
N. J. above; (3) many citizens, the
faculty, and all of the students have
been interviewed to obtain informa­
tion as to interests, needs, abilities, aptitudes; (4) school and other
public records, including I. Q. age
grade facts, teachers' marks, and oth­
er related information, have been
examined to secure data concerning
their activities and achievements; (5) certain test results are being used in
the selection of students and record
cards are being prepared and receiv­
ed to utilize the services of the refer­
cent faculty in completing the survey.

The chief difficulty in the way
of the success of the project has been the lack of sufficient time to
do the work. Under the best of condi­
tions, and without a doubt the
requisite structure closely an­
imals that are best of both worlds in teaching the
activity on the part of all, including faculty, board members, parents and
students, such a project requires a
long period of time for completion.
However, as indicated above, it is
hoped that a final report may be
ready very soon after the opening of the 1934-35 school year.

However, as indicated above, it is
hoped that a final report may be
ready very soon after the opening of the 1934-35 school year.

In estimating the values already
obtained from the study, only tentative
comment.
