

Moves to Give Prexy More Power Pondered by Council

Two constitutional amendments to increase the power of UCSB's AS president were offered Council Tuesday night. Final approval of the amendments, part of a two-page list of recommended constitution changes from the special Constitution Committee, will come April 15.

The first of the two gives the president authority to appoint a replacement for any elected officer who vacates his post. Council would then approve the appointment. Replacements are at present made by the Council alone.

Appoint and Dismiss

The second gives the president power to appoint and dismiss committee and board chairmen. Appointments would require Council approval, while dismissals would not.

This proposal met immediate opposition from the floor and is scheduled for debate at the next meeting Tuesday.

Reverses Position

Another amendment which Council tentatively approved would prevent anyone from holding more than one office on Council, with the exception of the vice-president who is required by the constitution to head the Elections Committee.

An attempt to change the by-laws of the constitution to prevent anyone from holding more than one Council post was defeated last week, receiving majority approval but failing to win the required 3/4 vote.

The constitution at present prescribes that no one shall hold more than one voting office, but does not limit the number of non-voting positions. (See editorial page 6).

Final Vote April 15

Since the constitution requires that amendments adopted by Council must be voted on by the student body within 15 days of Council's adoption, the final vote on the amendments was postponed until April 15.

General elections are scheduled for April 30 and any constitutional amendments ratified then would take effect next year.

McGinley's plan to reinstate a previously followed program wherein unit reps and reps-at-large visit living groups to discuss campus affairs was modified by Council.

A Special Committee on Athletics was appointed by McGinley to work with the administration on changes in the financing of school teams now under consideration. Ray Ward heads the group, which includes McGinley, Bill Harris, Mike Rappaport and Bruce Loeb.

Council Names Morgan New 'El Gaucho' Sports Editor

Tom Morgan was named by the Legislative Council Tuesday night to succeed Jerry Robbins as Sports Editor of *El Gaucho*. Morgan worked as staff reporter for the first semester.

The Council acted on the recommendation of the Press Control Board.

Morgan is a freshman majoring in economics. He is a member of the Delta Tau Delta fraternity. He is also vice-president of Toyon Hall.

Morgan went to high school in Covina where he served as sports editor for three years. He also worked in this capacity for the Covina Argus citizen.

Other professional experience includes three years on the sports staff of the San Gabriel Valley Daily Tribune and four years as SSA reporter for the Los Angeles Examiner. Currently Morgan is working part time for the Santa Barbara News-Press.

This was the only position on the *El Gaucho* staff that has been filled. There have been no applicants for the position of Editorial Director, vacated by Kerry Gough. Arlen Collier will remain as News Editor.

Huxley Discusses 'Man and Planet'

Aldous Huxley in his second lecture on *The Human Situation* last Monday afternoon spoke on man in relation to his planet. In his last lecture he spoke of the necessity of bridge building in learning. (See *El Gaucho*, Feb. 13).

"This time I am going to deal with one end of the bridge, the factual end, and I am going to deal with a very fundamental subject, the planet on which we live, what we are doing with the world on which we live, how it is likely to treat us if we go on treating it as we do now," stated Huxley.

Cedars of Lebanon

Huxley started his lecture with an example of how man has treated the great cedars of Lebanon which once grew in great abundance in that country. "I believe there are in all 1,000 or 2,000 cedars left. This is all that remains of the gigantic forest which provided King Solomon with timbers for his temple. Now nothing is being cut in this area and such trees as remain are being preserved."

"This illustrates what man has been doing to his planet," Huxley went on to say. "This is really painful but only too illustrative an example of what man has been doing over the course of the centuries. He has in all too many cases completely devastated what he has found."

Profound Force

"We have to remember that since man has been on earth he has been an increasingly profound geological force, changing the face of the planet in all too many cases for the worse."

"There is a two-way movement between the environment and human culture. Man has done almost as much to change the environment as the environment has to change the course of human history."

Man's Contributions

"The most important contributions (man has made) are those he has made in bringing valuable plants or animals from one part of the world to another . . . There has been a very important work performed by man in covering the whole earth, wherever it would bear the plants, with continued on page 6, column 3

REPS, AMS JOBS FILLED TODAY

A.S. VOTING CONTINUES, POLLS CLOSE AT 3 P.M.

Special AS elections continue today as six candidates compete for the offices of AMS President, Men's Rep-at-large and Non-affiliated Men's Rep. Polls located at the Library, Dining Commons and Student Union will be open today until 3 p.m.

The two rep posts that are now vacant are both voting positions on the Legislative Council. Running for the office of AS Men's Rep-at-large are John Fiscalini, Inter-Fraternity Council president and Gay Wert, who has been active on the Special Events Committee this year.

Co-Ed Vote

"Both men and woman may vote for their choice of candidate for this office," stated Carolyn Jones, AS Vice President and chairman of the elections committee.

Candidates for the position of Non-affiliated Men's Rep are Melville Sahyun and Chuck Warren. Sahyun, a native Santa Barbaran, is a senior majoring in Chemistry. He has served as President of the Chemistry Club, Vice President of Alpha Tau Gamma and is a member of Scabbard and Blade.

Be Aggressive

"Due to the importance and values of student government, I think the non-affiliated male students should be more aggressively represented in student affairs. I would like to see social and service functions shared with the other UCSB organizations and that the non-affiliated male have a chance to be as active and organized as the non-affiliated women groups," he stated.

Charles Warren, also a native of Santa Barbara, is a Sophomore majoring in Sociology. He has been a member of the Charities Committee, is a two-year delegate for La Vista for the Blind to the state council and has won two scholarships in order to attend UCSB. He is being sponsored by the Santa Barbara Foundation which helps pay for readers, books and tuition.

Discuss Desires

"My main goal, if elected as the non-affiliated men's representative, would be to organize this group as the non-affiliated women's TONG group has done. I feel this is necessary if I represent them, for I would be able to contact the men and discuss with them what in the field of activities are desired and how they feel on problems arising in the council," he stated.

The AMS Presidential candidates are Ned Wilson and David Hall. Harvey Haber was automatically disqualified since he did not take the required constitutional test. This position on the Council does not have a regular vote.

Counting of ballots will take place this afternoon at 3 p.m. in the AS conference room, according to Miss Jones.

No Paper Tuesday

El Gaucho will not be published next Tuesday because of the Academic holiday Monday. *El Gaucho* will resume publications next Friday.

Project India Open To Four Students

Project India 1959 will include students from the three southern campuses: Riverside, UCLA and UCSB. Four students from this campus will participate in the summer long program in universities and colleges throughout India.

Students are selected on the basis of intelligence, ability to communicate, representativeness, concern for and belief in the way we as Americans live.

The University Religious Conference sponsored project will have an orientation on the afternoon of Saturday, Feb. 28, in the New Classroom Building.

At that time students from last year's term will present their experience and answer all questions that may be asked.

According to Sam Thomsen, Director of the URC, all students are cordially invited to apply. The team must be representative of such a religious background, field of interest, major and activity.

Applications are now available at the URC Building and should be filled out before the orientation meeting.

NOBEL WINNER . . .

DR. HAROLD UREY

Dr. Harold Urey, Nuclear Chemist, Speaks Thursday

by Jerry Bradley

Eminent nuclear chemist Dr. Harold Urey speaks at UCSB next Thursday at 8 p.m. in the auditorium. Topic: "The Problem of the Origin of the Solar System."

The distinguished La Jolla professor will discuss his research concerning the original chemical elements and the way they united to give birth to the solar system. His studies in this field led to the discovery of deuterium and won him the Nobel Prize in 1934.

Atomic Bomb

Urey's contributions to the development of the atomic bomb brought him the Willard Gibbs Medal, America's highest scientific honor.

At the University of Chicago's Institute for Nuclear Studies he originated methods of determining changes in the earth's climate through the geological ages and theories to explain in terms of chemistry the origin of the universe.

Nobel Prize

At Columbia University, Dr. Urey began developing the techniques that led to the discovery of new isotopes of hydrogen, oxygen, nitrogen, carbon and sulfur.

This resulted in the discovery of the heavy isotope of hydrogen called deuterium and the Nobel Prize in chemistry.

During the war Urey headed a group of scientists struggling with a key problem in the Manhattan Project—separating the unstable, explosive uranium isotope U-235 from ordinary U-238.

Medal From Truman

Their success led to the development of the atomic bomb and the end of the war. For this, Urey was awarded a medal of merit by President Truman.

Other honors include honorary doctorates from eight universities and awards from the Royal Society of the Franklin Institute, the Chicago Institute of Chemists and the Cardoza Memorial.

COUNCIL POSITIONS CLOSE MONDAY

Monday is the deadline for chairman applications for Standards Committee, Recreation Control Board and Finance Committee.

Applications must be turned into the Associated Students office.

AS President Stan McGinley pointed out that all three are important, especially the finance job with the 1959-60 budget coming up this Spring.

Alpha School Drive Closes Friday, Goal Of \$2,000 Sought

The drive for the Alpha School for mentally retarded children closes next Friday. Canisters for contributions are located in all living groups, the AS Office, all departmental offices and the Student Union.

As of Tuesday at 5 p.m. a total of \$846 had been collected for the school. This figure includes ticket sales for the benefit show which was held Monday in the Auditorium.

The show was termed a success by Peggy McGinley chairman of the Charities Committee.

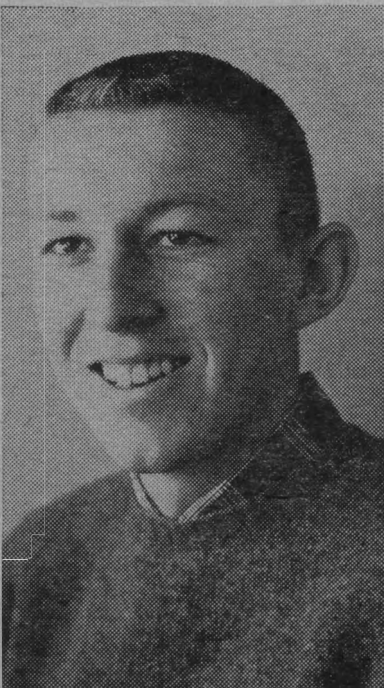

The Sigma Alpha Epsilon fraternity was awarded a rubber tree for selling 80 tickets to only 68 members.

Trophies were awarded to the Pi Beta Phi sorority and Phi Psi Zeta fraternity for having 100% ticket sales.

The Sigma Phi Epsilon and Sigma Pi fraternities also sold tickets to all members. The trophy winners were selected by drawing names from a hat.

The goal set by the Charities Committee for the drive was \$2,000. Mrs. McGinley urges students to contribute so that this goal may be approached.

The funds collected from the campaign will be used for a new building for the mentally retarded children of the Alpha School.

TOM MORGAN

UCSB Refused Phi Beta Kappa Chapter, Not 'Liberal,' Need Languages, Classics

by Phyllis Fisher

UCSB has been refused membership in Phi Beta Kappa scholastic organization, stated George Hand, chairman of the Phi Beta Kappa applications committee.

Last semester Dr. Hand and 28 other UCSB faculty members who hold Phi Beta Kappa keys asked the national committee for recognition.

The request was denied for three major reasons, according to Hand.

1) UCSB is not considered "liberal" enough, since to become a member of Phi Beta Kappa the liberal arts and sciences must be stressed.

Weak in Languages

2) UCSB does not have sufficient strength in the languages and classics, especially since Greek and Latin are not offered.

3) There are too many applied arts students on the campus.

Bright Future

"The picture is becoming brighter, though," Hand remarked, "for the secretary of the national chapter of Phi Beta Kappa has written in a positive note that they are watching our progress with hopeful interest." Hand commented that there is a good chance of acceptance for UCSB in three years.

To become a member of the Phi Beta Kappa faculty members of the college who hold membership apply to the national office in Washington, D.C. Currently there are 29 full time UCSB instructors who are key holders.

Deadline to Apply Nears For Hundred Cash Scholarships

Postmark deadline is March 1 for applying for one of the 100 cash scholarships at UCSB totaling approximately \$40,000, announces Dr. Stephen S. Goodspeed, associate professor of political science and chairman of the committee on honors and scholarships. The awards will be made for the academic year beginning September, 1959.

Application forms will be sent by return mail to those requesting them by mail or by a phone call at 7-1221, extension 2260. The application and all necessary documents must be returned by the March 1 deadline.

The competitive scholarships, ranging between \$200 and \$800 each, are awarded on the basis of past academic record, financial need, character and indications of future accomplishment. They will be awarded to continuing students as well as new students.

"Generally, in order to qualify for an award a student enrolling on the Santa Barbara campus for the first time must have earned a grade average of B-plus or higher and a currently enrolled student B or higher," Dr. Goodspeed stated.

Camp Positions

Counselor positions are available for next fall's Frosh Camp, it was announced by chairman Sally Richards. Application forms are found in the AS Office. The deadline is Wednesday at noon.

ADPi's Set Up Monarchy; King Rules February 28

A king is soon to be crowned on the Santa Barbara campus! And what better place for a monarch to ascend the throne and accept the crown than at the King of Diamonds Ball coming Saturday, Feb. 28 at the Rockwood Women's Club.

The annual all-school dance is sponsored by Alpha Delta Pi sorority and is one of the few events of the year that allows the girls to ask the boys. Dick Prato and his combo provide the music from 8 to 12. Dress is cocktail dresses for the women and dark suits for the men.

Eight Seek Crown

There will be eight men vying for the crown, one selected by

each sorority. Voting to choose a king and two princes will take place at the door the night of the dance. Pictures of candidates are now on display around campus.

The sorority whose candidate wins will receive the perpetual King of Diamonds trophy which, for the past year, has occupied the trophy case at the Delta Gamma house. Their candidate last year was John Pleasant.

Bids On Sale

Sharon Cody, ADPi president, urges all women to pick up their bids early, because, due to the smallness of Rockwood, only a limited number of bids may be made available. The bids are \$2.00 and are on sale in the Student Union area this week.

Improvisation Key To Foss Concert Arriving Monday

by Bruce Batchelder

Composer-director Lukas Foss conducts an Improvisational Ensemble in UCSB's classroom auditorium Monday at 8:30 p.m. Tickets are on sale at the AS cashier's window—\$1 for adults and 50c for students.

Foss acts as leader/spokesman for the six-piece ensemble. Among his associates are flutist Robert Drasnin, who has played with Red Norvo and Les Brown and Richard Dufallo on clarinet, composer and associate conductor of the UCLA Symphony.

The theory behind improvisation, says Foss, is a group of musicians following a loosely-prescribed score and inserting auxiliary notes at different intervals decided upon by the individual player.

A certain amount of musical "togetherness" is required for success in such a venture and for this Foss and his congregation make use of the concept of "chance" in their compositions.

Trouble in Chorale

The UCSB Modern Chorale needs basses and tenors to replace those not returning from last semester, announced Dr. Van Christy, director.

Rehearsals are scheduled at noon Tuesday and Thursday in M-2236. Members may take the course for one unit of credit or may audit. Anyone interested can see Dr. Christy during the rehearsal time.

LAW EXAM SET FOR TOMORROW

The Law School Administration Test, required by over sixty American law schools, is to be given only once on this campus this year. It will be held in room C-1131 tomorrow. Students having their admission ticket will be admitted no later than 8:30 a.m.

To be eligible to take the three and one half hour exam, students had to submit their application and \$10 fee by Feb. 7.

The test was designed primarily to predict success in law schools. It is often used as a basis for making scholarship awards.

As preparation for the test, courses developing clear and systematic thinking are advised.

dear susie,
 how is every little thing? i have a **surprise** for you **today**, take a **peek down the page**, a real **knockout** isn't it? the **dress** is featured in the **february issue** of **mademoiselle**, page 127 and naturally, **available** at the **lou rose annex**. the fabric is **pure silk print**, color combinations of **toast and coral** on white and **blue, green accented**

with purple on white ground. and now for the real blow, **only 17.95**, that's pretty **hard to beat**.

i'm sure your dying to know who the **model** is, it's **penny bell** and to think she's **joining** the ranks of **educators** rather than **fashion models**.

Playwright Saroyan Like Play Character

by Janice Asper

William Saroyan is one of the most interesting playwrights and authors of this century. He is as unusual as the characters in his own plays. It has been said of him that "he is a man who doesn't know how to write and doesn't know what to write, but who, by a virtue of a great and compassionate feeling for the frailties of human aspirations combined with somewhat artless skill in the weaving of words, manages, now and then, to produce a masterpiece."

Saroyan does not precisely agree with this, as he maintains his genius is no accident. He says, "I am so innately great that by comparison others who believe they are great or act as if they believe they are great seem to me to be only pathetic, although occasionally charming."

Daring Young Man

His first success was a story published in "Best Short Stories of 1934." The following year his book, *Daring Young Man on a Flying Trapeze* was an instant success and Saroyan's career was launched.

In 1940 he received considerably more publicity than anyone else connected with giving or receiving a Pulitzer Prize by refusing the award for drama for his play, *The Time of Your Life*. The monetary award is a thousand dollars. Saroyan replied that he had a thousand dollars and that "Commerce" (wealth) had no grounds for patronizing "Art" (Saroyan).

Beautiful People

In 1941 he wrote *The Beautiful People* and announced the fact with the startling statement, "I have written the most original new American play of the season." Saroyan further startled Broadwayites by producing and directing his own play.

His leading lady was Betsy Blair, who at 18 had had no acting experience other than appearing in the chorus of a musical review. The leading man, who portrayed a 15-year-old boy, was Eugene Loring, whose experience was confined to the ballet. Opening night was also unorthodox as there was no out-of-town tryout and the audience, which was not charged admission, was composed of a thousand people who swore they had never seen a play before.

The UCSB production dates are March 5, 6, 7, 12, 13 and 14 in the Little Theater.

The Copy Cat . . .

by Pat Gower

A man who rated a two column cut and a long story in the L.A. Times recently was former Gauchero and SAE *Jim Daeshner*. A man of many skills—everything from arranging winning Spring Sing scores to acting—Jim has added to his list of limelight endeavors, the art of bull-fighting!

Not only is he presently learning to wave a cape before a bull, he's taken to writing about his experiences in the bull-fighting business. Shades of Barnaby Conrad! Watch for this boy's debut in the T.J. ring and, as the saying goes, make it to the scene.

The Lambda Chis came up with a new idea recently in the realm of joints. With the Chi Os, the boys rented the skating rink in town Sunday night for several hours of fun and laughs learning to skate again. The preceding Friday they observed St. Valentine's Day with a party at the house, replete with decorations, skits et al . . . *Shary Baymiller* announced to Delta Zeta sorority sisters Monday night her engagement and coming marriage to Tim Aguilar . . . Two pinnings in the news: ADPi *Marilyn Bailiff* to Hilary Jones from Occidental and Chi O *Sally Moore* to SAE *Russ Symons*. Con-gratulations!

STANDING ROOM ONLY—Huxley's popular lectures . . . **HOUSEWARMING WISHES**—to *Johnny, Benny* and *Mike* in their new case on Embarcadero del Norte. Looks like the SAEs are moving in on the "row" . . . For **PERSONS 21 AND OVER**—the new Golden Cock on the San Roque Strip . . . **ANY COMMENTS**—on the new murals in the SU? . . . **TAKE CARE** on the ski slopes this weekend . . .

Calif. to Top U.S. Population By 1970--Dr. McClintock

"California should be the most populous state in the union by 1970 . . . There is little doubt that California will increasingly compete with metropolitan New York as the economic and social 'brain-center' of the nation."

This from a report on "United States Population 1970" by Charles G. McClintock, assistant professor of psychology at UCSB and consultant to "TEMPO," the Technical Military Planning Operation of General Electric in Santa Barbara.

U.S. Up 30%

Findings of this report indicate that the population of the United States will increase from its current level of 173 million persons to a figure somewhere between 200 and 225 million by 1970.

This represents a 15 to 30 per cent growth.

Insofar as economic prosperity depends upon an expanding number of consumers, the economic picture for the next 10 to 15 years is a bright one, forecasts Dr. McClintock.

Population Problems

Unfortunately, points out the population expert, rapid population growth results in shortages in certain types of facilities necessary to normal living—housing, schools, hospitals and even in professional personnel so essential to maintaining community health and welfare. Transportation facilities will be all too

1970. College enrollments will be up around 120% from the 1955 figure of 2.7 million.

Concerning manpower, the study notes that manpower in the military age-range, 18-34, will show an approximate 29% increase by 1970 over the 1955 figure of 19.5 million.

limited.

The "TEMPO" report goes on to indicate that the number of married couples will increase by 9 to 11 million between 1955 and 1970 and a corresponding increase in household units will undoubtedly markedly affect the demand for housing.

Another dramatic effect of the increase in the number of married couples will be a substantial increase in the number of new-borns.

School Figures

Regarding education, McClintock reports that grammar school enrollments should increase from a 1955 figure of around 28 million to 37.5 million in 1970, an increase of approximately 33%.

High school enrollments will increase by about 70% from 9.2 million in 1955 to 15.8 million in

POLY, GAUCHO CAGERS COLLIDE

Mustangs Here For Next to Last Game Tomorrow

by Tom Morgan
Sports Editor

Coach Art Gallon and his University of California at Santa Barbara basketballers round the far turn in the CCAA derby tomorrow night.

The Gauchos, hoping to cross the finish line next weekend out of the conference cellar, play host to Cal Poly's stampeding Mustangs in their next-to-last contest of the 1959 season at the National Guard Armory.

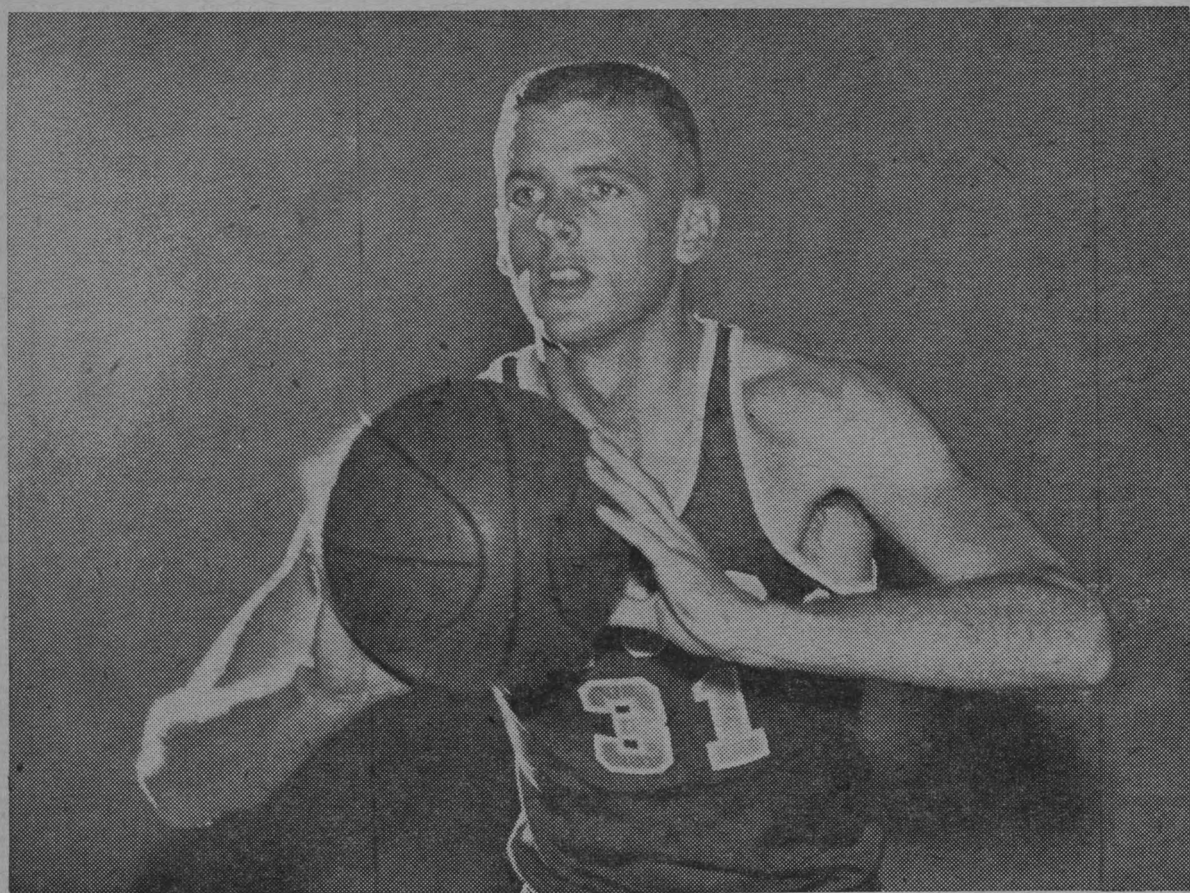

The opening tipoff is set for 8:15 p.m., with a preliminary scrapple between the freshman cage teams from the two schools holding the spotlight at 6:15 p.m.

The fourth-place San Luis Obispo cagers will bring a three-game CCAA win streak into town, while Santa Barbara will throw its 2-6 mark on the line in hopes of breaking a last-place deadlock with Long Beach State.

UCSB's Gallonmen will be looking for revenge in the 'rival' clash, for the Mustang win skein all started with a victory over the Gauchos two weeks ago, Cal Poly's first conference triumph.

The winning ways of the Mustangs are not to be taken lightly however, for included among their victims was San Diego St., a team that is definitely in the thick of things in the nip-and-tuck title chase, and a team that handled Santa Barbara on the eve of its upset loss, 76-63.

Patronize Our
Gauchos Advertisers

'LONG JOHN'—Sophomore center John McMillan and his Gauchos basketball mates will make their final home appearance at the National Guard Armory tomorrow night when Cal Poly invades for an important CCAA contest. Tipoff time is 8:15 p.m.

FROSH SEEK EIGHTH CAGE WIN

Boosting their season record back up to the .500 mark with an impressive win over Westmont, the Gauchos freshman basketballers will be gunning for their eighth victory tomorrow night in a 6:15 preliminary game against the Cal Poly Frosh at the Armory.

Coach Frank Rohter and his yearlings will be out for their second straight conquest of the Mustangs, for they own a 65-59

triumph from two weeks ago.

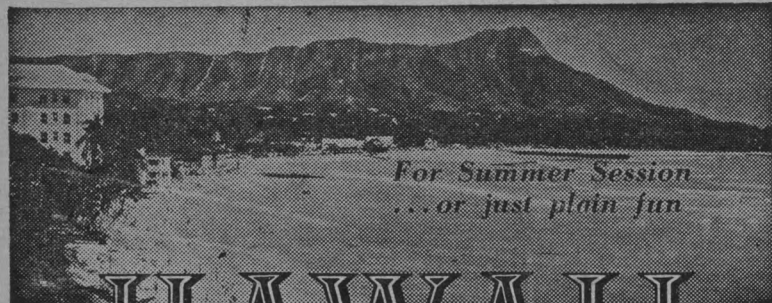

This will be the next to last game for the Santa Barbara cagers, as they close out their schedule Tuesday afternoon against highly-touted Hancock Junior College in the campus gym at 4 p.m.

Top-scorer Pete Sachse was sidelined with a back injury for the Westmont game and remains a doubtful starter for tomorrow's tilt.

With Dick Clark pouring through 20 points and Gary Erickson following close on his heels with 19, the UCSB Freshmen rang up their second win of the season over rival Westmont, thumping the Warriors 81-53 Tuesday night.

The Gauchos jumped into an early lead and were never in trouble after the first few minutes as they rolled to a 32-22 halftime margin and coasted home free.

The winners erupted for 49 points in the final 20 minutes, including ten digits from both Erickson and Dick Palmer, eight apiece from Clark and Joel Verner and six by Bruce Jones.

HAWAII

Here's an unforgettable 6 week summer program that costs you less than a vacation at home!

Enjoy a summer of travel fun... or earn college credits at the University of Hawaii's famous Summer School. Meet young men and women from all over the world... make friends you'll never forget... go on fascinating island trips... enjoy dinner dances, luaus, beach parties... all the special events of an exciting Hawaiian program that anyone can afford. And, your parents will approve.

The cost is low. Six weeks of grand living plus round trip transportation plus planned social and leisure events... all for as little as \$495! Imagine! That's less than you might spend for an ordinary summer at home.

Leave for Honolulu June 12 by ship or June 21 by air. Return August 3. But we urge you to act now! Mail coupon for 1959 Bulletin and Application or write Dr. R. E. Cralle, University Study Tour to Hawaii, 3305 Wilshire Blvd., Los Angeles 5, California.

Gauche Five Stumbles for 79-72 Defeat

Westmont evened things up in Santa Barbara's cross-town college basketball rivalry Tuesday night.

The Warriors, still smarting from an earlier 77-70 loss at the hands of the University of California at Santa Barbara's Gauchos, squared the two-game series at a victory apiece when they repeated the identical seven-point spread with a spine-tingling 79-72 win before an enthusiastic National Guard Armory crowd.

However, Coach Art Gallon maintained a 13-5 lead over his opposing colleague, Jack Siemans, in the overall series totals.

Paul Heinrichs did the damage for the winners. The Warrior pivot man, bringing a 20.2 average into the contest, pumped through 33 points, including 17 of 21 free tosses.

Frank Bennett and Gene Freeman carried the scoring load for the Gauchos with 19 and 18 points respectively, while Dennis Nielson added 15 counters to the losing cause. UCSB hit only 28% of its floor shots.

Santa Barbara sat in the driver's seat for most of the first eleven minutes, until the Warriors began to make their move. Gene Freeman dropped in a lay-up with nine and a half minutes to go in the first half to put UCSB on top, 18-16, but that was the final lead the Gauchos enjoyed as Westmont overtook them a half minute later and went on to a 40-36 halftime advantage.

The independent Warriors remained in front through the remainder of the second half, although the Gauchos did close the gap to 49-48 midway through the final half and 70-66 late in the contest.

GENE FREEMAN

Tracksters Stage Inter-Class Meet Tuesday Afternoon

The University of California at Santa Barbara track and field forces lift the lid on their season schedule Tuesday afternoon with the annual inter-class meet at 3:30 p.m.

Last year's Freshmen will reign as the defending champions and will put the AMS Trophy, awarded annually to the winning team, up for grabs against this year's Frosh spikers and teams from the junior and senior classes.

Coach Nick Carter will use this meet as a stepping stone for the Gauche intercollegiate opener Feb. 28 against Westmont and Pepperdine.

"The inter-class competition is very colorful," commented Carter, "and we use this both as a warm-up and as a guide for making selections for our first meet against college competition."

Coach "Doc" Kelliher faces the task of whipping the 1959 Gauche golf team into shape during the next three weeks.

Only one returnee from last year's squad, Pat Mackinga, will be on hand for the first match against Fresno St. College on March 6. The Gauche golfers will participate in ten dual matches, meeting all conference teams at least once. The linksmen will also take on the San Diego Marines, Occidental and Santa Barbara Junior College before competing in the CCAA championship tournament at Long Beach May 8.

Practice commences next week at the Santa Barbara Community Course. Aspirants for this year's team include Don Wise, Jim Ross, Rick LaBarge, Jerry Patch, Brian Booth and Zach Kaplan. Students with any golfing experience are invited to try out and may do so by contacting Kelliher this week.

Fresno State Leading CCAA Cage Standings

The tense California Collegiate Athletic Association title race comes down to the wire next weekend, with Fresno St. still clinging to the inside position.

The Bulldogs, currently the 12th-ranked small college cage power, have lost but a single game in six conference outings, while second place San Diego St. and Los Angeles St. have been stopped twice in seven tries.

Cal Poly, riding high on the crest of a three game win streak and invading Santa Barbara tomorrow night, has spurred into fourth place with a 3-5 mark, leaving the University of California at Santa Barbara and Long Beach St. alone in the cellar with 2-6 records.

Fresno also holds the best seasonal record among the CCAA clubs, winning 17 of 20 games, while San Diego is 15-7 and Los Angeles 13-7 on the year.

DONATIONS OF LIFE...

While all of us like to contribute to a good cause, not many of us have more time or money than we need. There is one thing, however, which almost all of us have more of than we need—blood.

The coming Larry Adams Blood Drive gives UCSB students a rare chance to give to a good cause, quickly and at no cost. It's a medical fact that most of us have more blood than we need and can give up a little of it without the slightest ill effects.

Giving Life Itself

Most important, those of us who intend to give blood March 12 when the Bloodmobile comes to UCSB will be making the most direct charitable gift possible. We will be giving life itself to those few who do not have the blood they need.

We will, for instance, be making a gift of life to Larry Adams, the UCSB honor grad who is afflicted with hemophilia and for whom the annual blood drive is named. Adams can draw on the fund whenever he needs to—as can the entire student body and faculty.

Hereditary Disease

Hemophilia is a hereditary disease which prevents normal clotting. The victim's slightest movements can result in the rupture of a vein. If the hemophiliac does not receive regular transfusions of blood, he will, without a visible cut or mark, slowly bleed to death internally.

Adams, who depends primarily on USCB donations, needed about 400 pints of blood last year. Tri-counties blood bank director Mrs. Helen Drew says, "He has to depend on donations. The bank has barely enough and runs a little short each year. We need to keep the drive going, we can't afford to relax."

Last Year's drive produced 150 pints. There is no reason why 400 pints cannot be collected this year.

The form in this paper (see page 2) is your ticket to be able to give to this cause. If you are over 21 the form is not required; all you need to do is roll up your sleeve.

Not many of us have more time than we need and few have more money. But when the Bloodmobile arrives on March 12 we will have a chance to give our surplus of something very valuable to someone who needs it. We shouldn't pass it up.

COUNCIL RIGHTS A WRONG...

Legislative Council's batting average is improving. Last week El Gaucho pointed out that the legislators erred in defeating an amendment to the by-laws which would have restricted an individual to no more than one position on Council. As it stands now a member may hold only one voting office, but countless non-voting jobs.

Tuesday night, in studying proposed changes to the AS constitution, the voting members of Council tentatively approved by silent assent a possible change which would limit members to a single position.

When it was pointed out by Kitty Joyce that the Council was reversing the decision of last week, Dennis Naiman explained that the reason the Council voted as it did last Tuesday was because it didn't want to embarrass "those running at the time." This referred to John Fiscalini, IFC president and candidate for men's rep at large.

The point is, if it is poor policy for a person to hold two jobs on Council this week, then it was also poor policy a week ago. If it's wrong, it's wrong—and Council should say so, no matter who it embarrasses.

At any rate, Council made a wise decision on the matter Tuesday. The proposed change will be placed before the student body in time for final approval.

Regardless of the time, last week, this week or this Spring, the fact remains that no individual is entitled to or qualified for two Council positions at once.

HUXLEY...

continued from page 1

valuable food plants from all parts of the world... The same is true with animals...

"Now we have to consider the reverse. Man has done great constructive things for the world, but unfortunately, he has also committed enormous destruction. He has lived almost as a parasite, living on the host it infests."

Man a Parasite

"Man is not one of the sensible parasites and has often ruined the creature on which he is living." Huxley then cited many examples of complete extinction of species of animals. He described it as a "sad and melancholy picture."

Huxley then went on to the forests of the world. Again citing the cedars of Lebanon, he said there were many places where they have completely disappeared, "leaving the mountains to be eroded. In many places the erosion has washed away the topsoil and nothing remains but the naked rock."

"The destruction of the soil is even more important," he said.

In speaking of his next lecture which will be given March 2, he said, "I hope to make a bridge from these facts to the philosophical view of Nature, what we should think of these grouped facts in a metaphysical way. It is terribly important that we should be able to think of these things with our whole nature, as total human beings. I have given the factual end of this planetary bridge. I shall talk about the other end, the purely human, moral, aesthetic end."

WORLD AFFAIRS ARE YOUR AFFAIRS

by Sam McPheeters

This is the last in a series of articles supplied by the International Relations Club designed to awaken an interest in active participation in International affairs. Our thanks to the staff of El Gaucho for granting us the space.

During the next semester the IRC will be working to raise enough money to send a delegation to USC for the Model United Nations session to be held in April. This will be the highlight of the IRC's activities, but competent and well-informed speakers will be here as announced to bring first-hand reports on International events and affairs.

The IRC has just received several publications from the UN, including the annual financial report, which is extremely interesting and including such bits of information as the 6 nations that contribute more money per capita to the UN than the U.S.

This information is available

to any interested person. Due to its limited supply it must be kept in the possession of the historian.

After elections of Feb. 12, contact any officer for information or feel free to attend any meeting which will be announced including the evening of Feb. 12.

Pass on Left

Campus police officer Capt. Bernard reports that many drivers have been passing illegally on the right-hand shoulders of campus roads.

"This is not only in violation of the vehicle code law but very dangerous," states Capt. Bernard.

Lucky Strike presents

THINKKLISH

—the funniest, easiest way yet to make money!

PUT IN A GOOD WORD AND MAKE \$25!

Speak English all your life and what does it get you? Nothing! But start speaking Thinklish and you may make \$25! Just put two words together to form a new (and much funnier) one. Example: precision flight of bumblebees: *Swarmation*. (Note: the two original words form the new one: swarm + formation.) We'll pay \$25 each for the hundreds and hundreds of

new Thinklish words judged best—and we'll feature many of them in our college ads. Send your Thinklish words (with English translations) to Lucky Strike, Box 67A, Mt. Vernon, N. Y. Enclose name, address, college or university, and class. And while you're at it, light up a Lucky. Get the full, rich taste of fine tobacco—the honest taste of a Lucky Strike.
