Southern California championship show. Returning to Santa Barbara this week was Stinson, driven by Terry. 18 draft horses. Stinson drives horses at a gallop in the ring and for showmanship has no peer as a driver of these large teams in America.

The W. K. Kellogg ranch will also enter a team of draft horses, to be shown in conjunction with the Siamese entry. Eight trained Percherons PERCHERONS FROM THE WORLD FAMOUS BREDING FARM OWNED BY THE UNIVERSITY OF CALIFORNIA will go through theirpaces at every competition. Duren Pace and his champion sheep dogs are back to vie for the spotlight. Duren will now appear in a field, Borrelle to investigate the A night to remember as the famous Elmore Harb Morris Ranch on the north end of the county. The fire truck stood by until the alarm was put out at the Security Bank yesterday afternoon and reported the fire. The fire siren, the burglar alarm, the alarm clock, the telephone, and the firemen were sending forth sparks which were reaching the scene and eliminating the blaze just as it started to get out of control in the attic. The firemen were able to put the fire out before it spread to the neighboring buildings.

Exempt Property

Property exempt from taxation including churches, school, and public property is assessed at $2,285,196 last week. The Farmers' report shows nearly $15,000,000 in intangible property, including bank notes and bills of exchange on railroads, assessed at rates of $1 and $2 per $1,000. (Continued on page 8)

Figures released from the office of the County Assessor Charles Tomlinson show that the assessed valuation of tangible property within the county for 1938-39 is $1,116,498 over the valuation for 1937-38 and that $898,247 of this increase was recorded in the first supervisory district which includes Carpintería, Summerland and Montecito. In breaking down these figures it is interesting to note that the first district and the fifth district, which includes Santa Barbara and Montecito, were the only two dis­tricts where increases in valuation were reported. The other three districts which include Goleta and the upper Santa Ynez Valley, Santa Bar­bara and vicinity and Lompoc and vicinity showed a decrease in val­uation of $11,000.

In addition to the more than a million dollars in the intangible property, the county's base and district tax rates, the assessor recommends an additional $1,000,000 in intangible property, including bank notes and bills of exchange on railroads, assessed at rates of $1 and $2 per $1,000.

FESTIVAL EVENTS SCHEDULED FOR BALANCE OF JULY

Ranging from symphonies to horse shows and yachting regattas, Southern California communities afford an unusual variety of entertainment to visitors over the coming week-end, July 22-24, according to the Information Committee of the California State Chamber of Commerce.

One of the outstanding events will be the Santa Barbara County Fair at Santa Maria, July 22. The program will include motor cycle and midglet car races, an auto show culminating in the new bank's quarter-mile track, with California's ranking drivers participating in daily side-safe shows; agricultural and livestock exhibits; and a fine corn show.

At Corona del Mar the 11th annual Corona del Mar Hobo Show sponsored by the Corona del Mar Club, will be held July 19-20. This year the program will include 18 state events and 10 classes in the fine performances to be given.

Another outstanding event will be the annual Balboa Regents and White Pirate Day, at Newport Beach, July 24, which also will be celebrating the midsummer Drama Festival with a series of plays by Garden Grove High School, which are community playshops; and at Pasedena Playhouse, an amateur play. Two Purity is being offered. The play will continue until August 5.

Thursday and Friday, July 22-23, Randy will conclude his photoshops Under the Stars at Hollywood Bowl, and on Tuesday, July 26, the circus "Circus Phantastique" will be presented, with the Oakland Symphony Orchestra.

Further afield, the community of Escondido, halfway between San Francisco and Sacramento on Highway 19, will hold its famous annual "World's Largest Outdoor Card Party," on the evening of July 22. Governor Merriam, his staff, and other distinguished guests will attend. At Del Monte, at scenic Monterey Peninsula, the Midsummer Golf Tournament is scheduled for July 22-24, with Del Monte Kennel Club Show to be held Sunday, July 24. Santa Cruz's first annual Midsummer Sports Carnival, July 23-31, will open with the week's singles, at open event, on Saturday and Sunday, July 23-24.

PRO ARTE QUARTET TO APPEAR AT MONTECITO CLUB

The Pro Arte Quartet of Brussels, which is celebrating its 25th anniversary as a string ensemble, will present two concerts at the MonteCito Country Club, in Santa Barbara, on Friday evening, Aug. 5th at 8:30 o'clock and Sunday afternoon, Aug. 7th, at 3:30 o'clock. Under the auspices of the Mills College Club and the Music Committee of the Community Arts Association.

One of the world's greatest musical quartets, it has for its members Alphonse Onou and Lauret Hallock, violinists, Howard Provan, viola, and Robert Max, violist. These musicians are all natives of Belgium and have received their early musical training at the Conservatory in Brussels, studying with Coninm Thompson and other famous masters of that school's incomparable faculty.

All of them have had previous training in symphony and opera before they began quartet playing. To quote Mr. Omen: "It takes at least two years to look at a group before a quartet is really to command the attention of a discriminating audience." The quartet practices every day and "the most experienced the players become, the more they realize the necessity for constant practice." It has been possible to perfect their ensemble only by meticulous attention to details. Careful, short-taking hours of practice, thought and discussion have placed this quartet foremost among the string quartets for the concert-going public today.

Todayney Webster, Los Angeles merchant, is named manager of the Southern campaign for Charles G. Johnson for re-election as State Treasurer. This office is more or less non-partisan and since Johnson has been Treasurer for past 16 years he would seem to have the edge over the other candidates for this position.

William G. Bonelli, member of the State Board of Equalization from Los Angeles, who seeks to be returned to this post at the coming elections pledges himself to the following policies: First, keep liquor away from mines; second, keep favoritism out of tax administration; third, keep down the number of liquor licenses, and fourth, keep liquor away from churches, schools, playgrounds and residential areas. Such a stand should meet with the approval of both "wets" and "drys" since the best the "dry" can hope for at this present time is strict enforcement of liquor regulations and the "wets" realize that if the privilege of dispensing liquor and consuming alcoholic beverages is permitted to be abused it will re-set in favor of prohibition forces.

MARRIED MINORS STILL LIABLE TO LAW

Marriage does not change the status of minors as far as application of the Alcoholic Beverage Control Act is concerned, according to the State Board of Equalization.

Married minors of either sex who purchase or consume alcoholic beverages are guilty of a misdemeanor.

The belief held by some married minors that the law does not apply to them is a dangerous one, according to William G. Bonelli, district attorney from this district points out. Plans of the board show numerous instances in which such cases have resulted in fines for those found guilty of violating the law.

Decisions of high courts uphold the contention that one remains a minor until the age of 21 years is reached.

INSURANCE CO’S SHOW INCREASED BUSINESS

Sacramento—One of the largest tax assessment rolls for insurance companies ever compiled by the State Board of Equalization has been turned over to the State Controller for collection, it was announced today by William G. Bonelli, Los Angeles, member of the four-man board.

The total tax roll, including general insurance, marine and real estate, amounted to $7,492,338, based on the business reported by the insurance companies for the calendar year 1937.

This total represented a gain of $698,009.72, or 10.32 per cent, taken as a fairly constant barometer of the business in the state. Bonelli said.

“If the insurance roll may be taken as a fairly constant barometer of business conditions in California, it would appear that economically the state is pulling itself out of a depression similar to that of 1929.

However, this roll was from the 1937 assessment roll, and $588,000.72, or 10.32 per cent, more than the amount of the assessment roll in 1936.

‘‘There will be sold at unbelievably low prices. The sale opened Wednes­

day and orders have already been taken for sixty-five lugs.

The apricots have been ripened! Housewives are urged to place their orders early as only three-hundred lugs will be available.

For prices of the apricots and other fruits and vegetables, see advertisement to be found elsewhere in this paper.
