State Drops 'Teachers' From Name

Merriam Signs Legislative Bill Number 174 Changing College Name

LIBERAL ARTS COLLEGES

Bill Provides for Courses "as Deemed Useful to the Teachers"

As the result of the signing of a legislative bill by Governor Frank F. Merriam, the word "teachers," this fall has been dropped from the name of the Santa Barbara State college and all others through out California.

Whereas each of the institutions formerly were correctly called a "state teachers' college," Assembly Bill 174, as approved by the governor, permits the legal use of the term, "state college," thus climaxing what has been a long battle for recognition of these colleges as liberal arts schools.

In this connection, the bill provides that such liberal arts courses "as may be deemed useful to teachers" can be added to the curriculum of any of the colleges. Actually, however, the colleges in general have offered a wide variety of liberal arts courses in the past.

While the passage of the bill was considered a victory for the state colleges, it was not anticipated that the long-standing movement to have all or part of them constituted as regional state colleges, offering an even greater variety of courses, outside the field of teacher training, would not be suspended, although the campaign has been vigorously opposed by many members of the legislature.

Questionnaire Creates Stir

Enthusiasm and a marked interest was shown in a questionnaire on world problems which was put to State College students selected at random last Friday, September 20, by Dolly Hlal, Gaucho staff member, in a symposium which appeared in the Saturday edition of the Morning Press.

Exceptional knowledge of past and present controversies was shown by the students interviewed. The following questions, asked in the interview, were given to Dolly Hlal by Jack Olds, veteran newspaperman and graduate of the journalism school of the University of Southern California:

1. What is your opinion of a commonwealth governed by a dictator?
2. What is your opinion on the Italo-Ethiopian question?
3. Do you believe that abrogation of the Treaty of Versailles by Hitler?
4. Are the Phillippine Islands ready for independence and if, in so granting, is Uncle Sam making a mistake?
5. What and where is the Gran Chaco and over what is the present controversy?
6. Do you believe in the proclaying of athletes by colleges and universities?
7. What is the outstanding news story of the year?
8. Is there a depression?
9. What is your opinion of the Nazi attitude of race discrimination in the Olympic Games?
10. What country is making the greatest strides toward alleviation of the depression?

A variety of answers were received in the interviews, some of which were quite humorous. Taken as a whole, however, the majority of queries were intelligently answered.

El Gaucho Snaps a Welcome

Duplications of the above Gaucho snapping his long back whip in the form of a window sticker are being furnished again this year by two local merchants for the advertisement of the Santa Barbara State college football season. Any student may stop in at the Campus Coffee Cup or at Tommy's and Willy's and receive one of these stickers free.

Seniors Meet at Breakfast

Early Program Features Senior Musical Entertainment

The first breakfast of the year will be held at 7:00 a. m. tomorrow morning in the cafeteria, Ebbets Hall. Tickets may be secured from Bernard O'Reilly and all class officers. The charge will be twenty five cents.

"Goldy" Goldsmith, president of the class, urges all seniors to attend this preliminary gathering as a full program is anticipated. Musical entertainment, introduction of the faculty, discussion of plans and committees for the year, and the choosing of a faculty advisor will be the highpoints included.

Many Graduates Get Positions

A number of June graduates of the industrial education department have recently received teaching positions, according to Mr. E. E. Ericson, head of the department.

Those receiving the positions are: Everett Tranberg, who will teach in Arroyo Grande; Arthur Nise-wanger, Santa Ana Junior High School; Thomas Orr, Wasco elementary school; Lloyd Drennen, Bakersfield Junior High School; George Harper, Bakersfield elementary schools; Harold de Jonge, Placentia High School and Don Watson is in a private school in Pasadena.

Graduates of previous years have been placed as follows; in junior high schools, Rollo Elliott, Ontario; Roy Davis, Ventura; Eugene Nelson, Santa Barbara; Karl Houtz, Compton high schools; Zola du Bois, Imperial; Robert Hughes, Albany; and Herbert Kling, Chino.

ASHWORTH ATTENDS COUNCIL

On Friday, September 27, Dean Ashworth attended a council meeting at Fresno.

The council is held for the purpose of speech education and convenes each year at Fresno, where a representative from each state college attends.

Gauchos Have New Rooters

"Rolly" McDonald Will Head Section at Cal-Tech Game

"Leather Lungers," an organized men's rooting section, will be started for the Cal-Tech game, according to "Rolly" McDonald, head yell leader, who urges all male students to turn out enmass next Friday night September 27.

McDonald requests that all men sign up with him or Harry Sloan, assistant yell leader, or sign on the register in the Student Body Office before Wednesday, at which time special tickets will be given out for the Cal-Tech game and all other football games for this season. These tickets will seat the "Leather Lungers" in a reserved section on the 50 yard line. Another rooting section along side will be reserved for the balance of the student body.

McDonald and Sloan also report that a pep rally will be held Friday afternoon at 3:30 o'clock on the tiered lawn at the entrance to the school facing Alameda Padre Sierra street. Following the rally, a car parade will mobilize to trek downtown for the purpose of stirring up the townspeople.

Teachers Will Meet to Plan Institute

Representatives of the county superintendent of schools, city superintendent of schools, the college faculty and visiting professors from Stanford university will attend a dinner in Ebbet's hall Friday night as part of a preliminary meeting for Teacher's Institute, which is held annually. The following day they will meet again in the auditorium at the Santa Barbara junior high school.

Earhart Becomes Member of Faculty

Amelia Earhart, famous aviatrix, this week officially became a member of the teaching staff of Purdue University, where she has accepted a position as consultant in the department for the study of careers for women.

Frosh Repent, Fix Wreckage of Last Week

Repainting of Rocks Takes Place Under D'Alphonso Leadership

Repenting for their misdeeds of last week the class of '39 under the leadership of their newly elected president, Danny D'Alphonso, last night returned to restore the campus to its former appearance.

Last Tuesday and Thursday evenings the frosh began to do things and they did them right, but with a spirit that speaks well for the freshmen the rennovating was completed last night. The so-called misdeeds included the ruination of the paint job on the student body car, painting of rocks around the campus, and generally making it known that the '39 class had enrolled on the hill.

The student body car was returned to its place on Phelps Field, the rocks were repainted. In fact the Gauchitos worked as hard restoring as they did tearing down. It was also reported that D'Alphonso and his men considered repainting the car at considerable cost to themselves.

The whole thing was started in fun, no serious harm was done, and the initiative of the freshmen class in straightening things up last night exemplifies the true Gaucho spirit.

Quad Smoking Is Attacked

The students welfare committee, under the advisorship of Miss Helen Sweet is launching the annual campaign against students smoking in the quad, walking across the grass and garden plots in the quad, and leaving papers over the entire campus. All presence a general untidiness of appearance which can easily be avoided. In addition to the present number of trash cans on the campus, more have been ordered as an added incentive to the maintenance of neat grounds.

Realizing that only student opinion can act as enforcement to this move, the committee composed of James Shaug, Bill Poole and Thomas Merrill, will appeal at various times through organizations and publications for needed cooperation.

McDonald Calls Rally Meeting

To formulate plans for the forthcoming year, the rally committee will meet for the first time this semester at the home of Miss Helen Sweet, who acted as faculty adviser last year, tomorrow evening, at 7:30 p.m.

"Plans for activities at football games this season to make them more interesting during halves and throughout the game as a whole will be discussed at our meeting," states "Rolly" McDonald, chairman of the committee.

The rally representatives are as follows: "Rolly" McDonald, yell leader, Harry Sloan, assistant yell leader, "Petie" McKinney, song leader, Dorothy Darrow, assistant song leader, Bill Crow, senior class, Wilma Kiesner, junior class, Fred Lambourne, sophomore class, and Dan DeReign, freshman class.

AUTOMOBILE CLUB SUGGESTS

Proper parking and direction signs will be suggested by a Southern California Automobile club official who will visit the college the latter part of this week.

Discussion On Affairs By Council

Thelma Davis Appointed to Fill Position Vacated by Betty Roome

PROPOSE AMMENDMENT

Poole, Shaug, Follett and Krause Get Appointments to Committees

Appointment of two committees and discussion of a proposed amendment to the constitution marked the first meeting of the legislative council in the mens' club room Thursday night. To fill the position of secretary of the student body, recently resigned by Betty Roome, the legislative body appointed Thelma Davis. Special election will soon determine the permanent holder of the job.

There was much wrangling for and against the new constitution provision which proposes a five dollar associate membership dues required of the faculty for participation in student activities.

Welfare Appointments

Bill Poole and James Shaug were appointed to the welfare committee which is chairmanned by Tommy Merrill. This group functions primarily to act on the observance of traditions. Named for the athletic board of control were Don Follett and Bob Krause. The duty of these men, headed by Joe Robinson, chairman, will be to supervise the expenditure of the physical education department's share of student body funds. Appointments were made by Garlyn Basham, president of the student body, with approval of the legislative body.

The meeting also furnished the eight class representatives an opportunity to discuss plans, thus placing the legislative council in a position to function immediately. This measure will also facilitate the operation of the constitution which goes into effect for the first time this year.

New Constitution Functions

"Feeling that the new constitution, with its new clauses and new set-up, would cause friction has disappeared. It is functioning efficiently," Basham announced.

For the express purpose of acting upon a proposed amendment, a special meeting of the legislative council has been called for tomorrow night, it is said.

Voting members of the legislative council are Garlyn Basham, president of the student body; Bettie Walker, vice-president; Thelma Davis, secretary; Denning McArthur, (Turn to Page Four).

Auto Problem To Be Solved

The increasing problem of lack of parking places for cars on the campus is now definitely in the process of solution under action taken by President Clarence L. Phelps. Arrangements have been made for surveying and installation of signs under direction of the Southern California Automobile Club.

Thomas Merrill, chairman of the student welfare committee, has asked that all students avoid parking near classrooms immediately. "No Parking" signs have been posted as warnings in prohibited areas, and are expected to be obeyed, under threat of action by the Dean's office. "Though temporary plans may cause small inconveniences, students must realize that they can only be eradicated by their full cooperation," said Mr. Merrill.

Student Government

In an effort to acquaint the Associated Students, new and old, with the present situation in the student body government, we thought that a short discussion of the constitution would not be rejected or out of order.

At the close of State college last June, the student body accepted by secret ballot a new constitution which had been composed by a student body committee appointed by Bud Lambourne, president of the Associated Students during '34-35. The main objective of the committee was to institute a more representative form of student government. It was to this end that the committee inquired and studied the old constitution so that the same mistakes might not be repeated.

Finally when the new document was completed it was presented to the student body in a regular meeting and discussed. All the criticism and corrections were collected and studied by the committee and weighed for its true value and was ultimately incorporated into the second version of the document which was printed in the columns of El Gaucho. It was not until the proposed constitution had again been gone over by the committee, rough spots smoothed and errors corrected, that the final edition was presented to the students for a vote.

Thus it came about when the required majority had passed on the new set-up in student politics that Santa Barbara Associated Students had a constitution that all agreed would be the ideal student government.

This is all being pointed out so that the students will realize that the constitution which the present student body officers are enforcing is one that has been worked out—by students and for the students.

It is the duty that each student that comes in contact with the constitution will do their utmost to make it an efficient organ of the student government, and not suggest any changes or amendments without serious thought and research into what, why and wherefore of the proposal, always keeping in mind the welfare of the students and how they may best benefit from any changes.

The background in the previous paragraphs has been given in preparation for the discussion of the point brought up in the last council meeting, namely: whether or not the students should extend the courtesy of free season tickets to the faculty or whether the faculty should pay the Associate membership fees which are provided for in the new constitution.

The framers of the constitution had in mind the fact that the faculty gave freely of their time to the students and have accordingly made special concessions and privileges to the faculty in their five dollar membership fee. They also had in mind the dwindling coffers of the Associated Students. The students themselves are the ones to settle this fact, since an amendment to the constitution would be necessary to do any thing about it.

Do Students Need Work?

"Nothing ventured, nothing gained."

And some of the students on our campus are evidently afraid to venture forth in search of W-O-R-K, no matter how badly they need it and no matter how much assistance they receive from our employment office.

One case which has come to our attention and which seems to be a typical example of the interest some students take in securing employment is listed here. It seems that a local merchant called up the employment office and asked that a college man be sent down to work for him. Arrangements were made with the student and he was told when to come to work.

At the appointed hour no one showed up and the merchant who had planned to go away for a short time was forced to stay and work himself. During this time he had not received a telephone call or a message in any form from the student.

As a result this student's action reflected unfavorably upon the entire college, the employment office and the students attending the institution, by leaving the impression that the students here did not need work and even if it was offered to them they were too busy to bother with it.

Faculty Honors Freshmen With Informal Dance

Freshmen students were honored at an informal reception given by the faculty of Santa Barbara State College on Saturday evening in Ebbet's hall.

After a short program, the evening was given over to dancing to the music of Fred Lambourne's orchestra. Mr. John Warren, baritone, who recently opened a studio in Santa Barbara, sang three numbers, an aria by Handel; the Sea, by Grant-Schaefer; and Gwin to Heab'n, by Wolf. A flute solo, Hungarian Pastoral Rhapsodie, by Reppel, was played by Miss Mary Washburn. Mrs. Helen Barnett, soprano, sang, A Birthday, by Woodin, and, song of the Soul by Breil. All musicians were accompanied by Miss Anita Cochran.

Faculty chairmen for the various committees are Mrs. Helen Barnett, program; Dean Lois Bennink, dance and orchestra; Mary E. T. Crosswell, decoration; Katherine Ball, budget; and Della Haverland, publicity.

Las Esquelas, sophomore service organization served the refreshments, which were in charge of several members of the home economics department.

Philo & Sophy

Philo everyone, all you charming peeples. Are you listening closely? We are at it again—saucering out the greasy grease. Signals—7, 24, 46, 9—Shift.

Several little affairs went off to a flying start at the Faculty Reception Saturday night. Happy landings to all of you! And we can give names, too—do you dare us?

Heard the other day—"Isn't Harry Sloan the cutest fellow?" And that remark from one girl to another.

"Double Tough" Morelli seems to be doing all right on other fields than football fields.

The Yeager—Davis combination is "completing passes."

Danny "Upstart" D'Alfonso had better watch out. No varsity football team is going to let a freshman make the remarks he made Friday night—and get away with it.

Just goes to show you—You never can tell what the summer will do to a person. Sandy Sanderson is at it again with the girl friend in Porterville.

Our idea of infectious giggle No. 1—the luscious, super gurgle that John Twaddell dishes out.

Bobby Dunham can take it. What with carting around a bus full of women around downtown, and only letting out one groan.

Extra! Extra! Chuck Leister can blush. But would you blame him, when Frances Ann Warnekros is on the "punching" end of the "pub."

"Goldy" Goldsmith claims he has no entangling alliances. He's been "footloose and fancy free" since the first of the summer.

Jack Knight and "Buppy" Moore are "guardians" of a certain cute little femme.

Our Weekly Philosophy—A teacher is a person who has a bunch of monkeys to teach, and who isn't in a shut eye mood unless she assigns 60 pages of outside reading for them to do, in their idle moments.

Stuffed chin wagging for this session. Don't forget—we have eyes that never sleep, and tongues which are worn smooth. By the way did you notice how nice the stars were last night?

The College World... In Pictures

"One Picture Tells as Much as Ten Thousand Words"

Shutters click—flashlights flare—cameraman are "Johnnie on the spot," wherever and whenever anything happens of interest to the college student. The regular pictorial review of the college world will be brought to the students of the Santa Barbara State college semi-weekly through the College Digest section of El Gaucho.

A new and outstanding feature of the issues this year will be the unusual Speed Graph photos taken with the "Magic Eye" camera and depicting the continuous motions of athletes in action. The remarkable photos have been made possible recently by the invention of a camera which "stops" the various movements of people in action.

Corbett Pulls 'Audrey' Gags

Speaking of "Little Audrey" and her mirthless jokes: She had nothing on Scott Corbett, the writer of these pointless riddles which were ran in the Saturday Evening Post recently. For instance:

What kind of animal is it that is white on top, brown underneath, and gets very hot in warm weather? **A wolf in sheep's clothing.**

What kind of animal is it that has a long, stout tail, a pocket to carry its young in, and travels by hobbling? **A lame.**

What kind of bird is it that caws, eats corn, and is blue? **A sad crow.**

What kind of bird is it that flies in a zigzag course, will attack an eagle on sight, and emits a cry that sounds something like "Whoopee." **A stewed hummingbird.**

What kind of fish is it that does not eat, does not swim, and stays very close to its fellow fishes? **A canned sardine.**

What kind of fish is it that resembles a large sturgeon, can swim as fast as a large turgeon, but is only half a long as a large sturgeon? **A small sturgeon.**

What kind of insect is it that is flat, has wings, but does not use them? **A swatted fly.**

What kind of insect is it that buzzes, flies in a small circle, and is found around nuts? **A bee in a bonnet.**

What animal is it that has two legs, is sometimes black and white, and sometimes brightly colored? **Mickey Mouse.**

Walker Visits Convention in San Francisco

Mr. Earl Walker, chemistry professor of the Santa Barbara State college, attended the American Chemical Society convention, held in San Francisco, August 18 to 23.

Trips to many industrial concerns in and about the region, visiting sugar and glass factories, the Stanford laboratories, and the Swiss Colony wineries, were of valuable interest to those attending the convention.

Laboratory production of artificial food, long a dream of scientists, was predicted for the near future by Dr. James Frank, formerly of the University of Gottingen, now at Cornell university, who won the Nobel prize in physics.

The convention received many reports on scientific advances of the last year. Among these reports was one on the value of iron in the prevention of sunburn and freckles and in the treatment of non-pernicious aemia. These reports were delivered by means of speakers, moving pictures and stereopticians.

FRIENDS EXPRESS REGRET

Students of Santa Barbara State wish to extend their deepest sympathy to Dorothy Darrow, sophomore, upon the passing of her father, who died Saturday morning, September 21.

- Sept. 30—Fraternity Meetings.

Gaucha Gab

By BARNEY JAMESON

Now, after the Sunday morning quarter-backs have told the team and the coach just what they should have done to win the game Friday night, there is little left to say. A funny thing about most of these fellows who tell you what play WOULD have worked, etc., is that most of them have never worn a football suit. It's too easy to sit in the bleachers and tell the other fellow how to play the game.

It was the usual thing for the Athletic club to pull the game out of the fire and tie the score in the last few minutes. This is an old way of theirs; they have been doing it for years. No matter how much better the team the club is playing, it generally pulls something unorthodox to save the day. Let that be a lesson to all you betters. Yeah, we heard all about the plowed field and the clubs' two weeks of early practice.

Looks like another extra super-special frosh outfit if the first game means anything. Bud Cummings' boys showed a lot of fire and spirit which they will need this week if they expect to beat Bakersfield.

One good thing about the first game is that old Mr. Injury did not take any victims. I guess no one could get up enough steam on the farming land. Or is that where the corn field is going to be? "Howie" Yeager who was taken from the game late in the fourth quarter because of a bad case of cramps reported for practice last night well and ready to go.

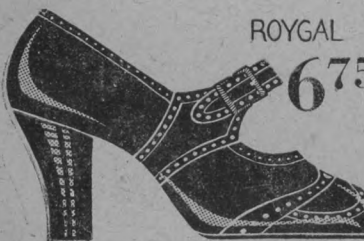

Snapshots:
"Little Gibby" using the old bean by passing for the extra point in the Frosh game — Oxy showing plenty of early season class by beating Dixie Howells U. of Mexico outfit. The small number of fumbles made by the Gaucha backfield Friday nite, "Babe" Sanderson keeping the club on the defensive with a pretty exhibition of punting.

SIG ALPHS MEET

Meeting at 1536 Loma street, members of Sigma Alpha Kappa fraternity last night decided on a definite meeting place, and discussed plans for the coming year. Intramural activities with other fraternities were discussed.

SCORES

Gauchos Win Opening Game From C. C. C.

With a powerful offensive attack, the Gaucha yearlings humbled the Los Prietos eleven last Friday evening and won the season opener 26 to 0. The Frosh-C.C.C. battle was waged on Pershing field as a preliminary to the Varsity-Athletic club tilt.

At the outset of the game the offensive spark hit the Gauchitos and with the exception of a few defensive spurts on the part of the Trimble coached squad, they maneuvered up and down the field with considerable ease. Luke Trimble, former freshmen coach at State, and present headman of the C.C.C. forces, presented a smooth passing attack which had Coach Cummings and his men baffled occasionally during the fray.

Teams Trade Punts

Gardenire kicked-off to the C.C. C.'s and being held for no gain the mountain lads booted to the Frosh. On the Gauchito's first series of plays, Mickey fumbled, but the first year men came into possession of the pigskin shortly afterward when Gilkerson intercepted a pass on the midstripe, returning the ball to the C.C.C. 44 yard stripe.

At this point the first touchdown drive got under way with "Gibby" Martin and Gardenire carrying the brunt of the attack. On fourth down Martin went over for the initial score. Martin converted for the extra. After a series of running plays, Captain Monson went over for another six points late in the second quarter. Martin missed the conversion and the half ended a few minutes later with the score 13 to 0 in favor of Los Gauchitos.

Third Quarter Scoreless

The third quarter went scoreless. In this period the Los Prietos eleven opened up with their passing attack that caught the Frosh flatfooted.

Campus Coffee Cup Capers

Danny DeReign, who is making his debut at State this year as a freshman, again, is doing his handsprings over the fair but fickle Dolly Hall. Helen Long-awa and Cy Ross are getting thick as State Street traffic on a Saturday night. Bill Ogle bet three dollars against the use of Julio Bortolazzo's car that he could get a date with Bort's new girl friend in Ventura.

Have you tried one of our super-luscious giant milkshakes? Frankie Gilmore, who recently was the victim of a female complaint, is now casting his wandering eyes over the new 1939 models. Our prexy, Garlyn Basham, isn't doing so bad himself—we think Alice is cute. "Donk" Hart is still leading one of our prominent blondes a merry goose chase.

One of our hamburgers supreme after a hard day of study! This Elder gal (the unmistakable blonde who aspires to the stage) seems to be doing her best to rope herself a big football man. "Skinny" Freeland is in the market for a blonde about so high and with curves like a 1924 highway. Jack Knight is making regular contributions to the Post Office. (Stella will be back soon Jackie!)
By all means try chili and beans!

Hare and Hound Chase Planned Both Confident

The Hare and Hound chase, which is one of the most important events of the year for girls, will be held Thursday, September 26. Girls are asked to meet in front of the gym at 5:30 in the afternoon.

The chase is based on the hobo idea which was cleverly brought out in the invitations. The three hares, which have been appointed, will leave the gym a half hour earlier than the hounds in order to lay jungle where a free "hand-out" and the trail. The trail leads to the entertainment will be held.

Eleanor Rees, hiking manager, asks that all girls interested sign up in the gym before Wednesday noon.

State Spike Artists Run at Occidental

Competing in the All-Conference cross country run at Occidental college the Gaucha spike artists are expected to be listed among the favorites, according to Coach Nick Carter. The first run will be staged December 8.

With preliminary training well under way, the cross country squad is fast rounding into shape. Virgil Hooper, Roland McDonald, Bruce LeClaire, Ed Loudenclos and Dudley Shean have all showed up well and will form the nucleus of the '35 team.

Cross country running necessitates serious training on the part of every contestant, according to Coach Carter, for the varsity course is four miles and the freshmen run three miles. Last year the Gauchitos captured second place in the All-conference race.

Ralph Wood, Carpinteria, who won the 880 yard run in the C.I.F. meet last spring, is working out with the freshmen candidates. Wood garnered second in the Southern California trackfest, but came back a week later to annex the state title with a 1:57.4 half-mile.

Prominent Student Studies at Oxy

Betty Roome, resigned secretary of the student body, left two weeks ago for Occidental college in Los Angeles where she will continue her studies as a major in psychology.

While at State, Betty was prominent in student activities. She was a member of Las Esquelas, service organization, and was also president of her sorority, Tau Gamma Sigma. According to Mr. Roome, her father, Betty is at present living at Erdman hall on the Occidental campus.

Hardermen in 6-6 Deadlock With Clubmen

Pushing the clubmen all over the field during the whole first half, the Santa Barbara State Gauchos were held to a 6-6 tie, last Friday night on Pershing Field.

The Hardermen took the opening kickoff and marched straight down the field to the clubs 4 yard line only to be held. After several exchanges of punts, the first quarter ended with the Gauchos in possession of the ball on the clubs 30 yard line. Two smashes into the line by Sanderson and then a beautiful executed pass from "Little Box" Morelli, to Skeeter Voorhies, netted the Stater's a touchdown. The pass was good for about 20 yards.

Hold Scant Lead

Holding their scant lead, the Hardermen played safe football until the end of the half. The Clubmen did not push the ball outside their own 40 yard line until about the middle of the third quarter. Starting a pass attack with Riedel on the throwing end, the Clubmen threatened the Gaucha pay-dirt. After 3 first downs in succession, the attack was stopped by a beautiful pass defense consisting mostly of Harold Sanderson and Douglas Oldershaw.

Exchanging punts a couple of times, the Gauchos at the beginning of the 4th quarter had the ball on their own 30 yard marker. Here, a fumble by McQuiddy, State halfback, was picked up by a Clubman and the Black and Orange squad threatened again. Two more bullet like passes and the ball ended up on the State 11 yard line.

Athletic Club Scores

Failing at three attempts into the line, Riedel tossed a wobbly, high pass clear over in the coffin corner to Lane. Sanderson reached up and hit the ball right into the eager hands of the club wingman. Lane as you all remember is the fellow who last year caught a Gaucha fumble in the air and raced about 60 yards to a touchdown. The club's attempt for the extra point failed.

The Gaucha line showed up exceptionally well on defense. Time after time they broke through and hit the club charges before they got under way. Mulock and Voorhies, Gaucha ends, displayed probably the best brand of football than any other players on the field.

Morelli Backfield Star

In the backfield "Little Box" Morelli stole the show. His broken field running in the plowed field, brought the stands to their feet every time he carried the mail. Harold Sanderson, fullback, deserves a lot of credit for playing a great game on both offense and defense.

For the Club, "Tiny" McCullough, former State center, drove through time after time and stopped Gaucha plays before they could get going. The starting line-up for the Hardermen was Mulock and Voorhies, ends; Nightingale and Oldershaw, tackles; Hayman and Lee, guards and acting Captain Mert Miller, center. In the backfield Morelli and Yeager, halves; Pollock, quarterback; and Sanderson, fullback.

Cooperation Needed With Men's Increase

With the enrollments running on high, more cooperation is needed to handle student welfare.

In the year 1919, when W. Ashworth, dean of men, came to our fair college, there were exactly 11 men students enrolled. Last year 40 percent of the students were men, this year 44 percent or 360 men students trod our campus.

With the steady increase in enrollment, difficulties arise in handling student affairs. Dean Ashworth extends his hope and wish that the classes and different organizations on the campus do their utmost to help in the student welfare.

Riedel Offers Instruction in Garden Classes

Offering the only course of its kind in California, the industrial education department of the State college has instituted a class in garden planning and landscape architecture open to both men and women students.

This course is designed to give the students artistic, scientific training and practice needed as a background for effective employment in planning, developing and maintaining landscaping projects and gardens in connection with private estates, homes public parks and their plantings in California, according to E. E. Ericson, head of the department.

"In itself the actual work of the course is divided between laboratory work and scientific experimentation in the garden and technical and cultural studies on the college campus," said Mr. Ericson.

Interesting Program

A mornings program begins at eight o'clock with a course in English or social science at the college after which the students go to the Franceschi estate, located on Mission Ridge, and spend four periods in work and study on the estate grounds. The entire estate has been turned over to the high school and college classes and is being kept up by student work.

In the afternoon, courses in drawing, metal work, cement, design and other types of instruction are offered which are intended to give

Pan-Hellenic Council Awards Sorority Cup

Beginning this semester, a Pan-Hellenic Cup will be awarded annually to the sorority with the highest scholastic standing for the year.

The cup is for the purpose of encouraging sororities to maintain a high scholastic standard, and will be awarded at the first A.W.S. meeting to Delta Sigma Epsilon by the Pan-Hellenic organization of this school. Delta Sigma Epsilon is a Pi chapter and the only national sorority represented here. The name of the winning sorority will be engraved upon the cup and held by that club for one year.

the students an insight into the different phases of both planning and planting.

Riedel Instructs

Mr. Peter Riedel will instruct the students in the horticultural laboratory and horticultural science classes. Mr. Riedel in addition to a scientific background which he obtained through four years of college work has also had many years of experience as a garden designer, foreman and manager of several of the large Montecito estates.

"Opportunities for people entering this work are very promising," said Mr. Ericson. A survey made last year by Mr. Roy Soules, coordinator of the new project, showed that there is a demand for high-grade workers in many estates in and around Santa Barbara. Reports from Pasadena, Hollywood, Beverly Hills, Santa Monica and other cities where great interest is taken in gardens indicate the same need.

Former Profs. of State Staff Rejoin Faculty

This semester two former members of the faculty, Mr. Raymond Goss McKelvey and Dr. H. Edward Nettles, have returned to the campus after a two year leave, which they had procured to further research work in their studies.

Mr. McKelvey spent most of his leave at the University of Columbia where he worked on his Ph.D. in Political Science. During this time, he taught American and City government at the City College in New York. Later he went to Washington where he did some special government work in price studies.

McKelvey in England

For the last four and a half months, Mr. McKelvey has been in England collecting material for the completion of his doctor's thesis, the title of which is "Propaganda Methods of British Political Parties." He hopes to complete it this year, after which it will be published.

"Obtaining my material was a source of great interest," said Mr. McKelvey, "and brought me in contact with many people prominent in English politics."

He is a graduate from Cornell where he received his B.A., later he obtained his M.A. from Pomona college.

Dr. Nettles has been teaching European history for the last two years at State college in Springfield, Missouri. He has also been compiling a source book for Missourian history.

Besides teaching, Nettles has

Equiestriennes in First Meet Soon

The riding class will meet for the first time on Wednesday, September 25. Those interested should plan to leave town early enough to get to the Vandever stables on Hope Ranch before 7:00 p. m.

Anyone interested is welcome to join the classes for the ride.

In order to know how many horses to order and to adjust the transportation problem, Miss G. Van Vossen, head of the P. E. department, has asked that each rider sign up each week on the pad on the desk in her office. Come in on Tuesdays or before noon on Wednesdays. This is an important item, and it is necessary to know whether you are taking the course for credit or not.

Council Discusses New Amendment

(Continued From Page One) president of the mens' club; Lois Jo McPheeters, president of the Associated Women Students; an un-elected alumni representative and all class representatives.

Numbers Without Vote

Those without vote on the council, but with the power of discussion and debate are Fred Allred, comptroller of Associated Students; "Buppy" Moore, manager of speech arts; Miss Severy, faculty member appointed by President Phelps; Dean Bennink, Dean Ashworth, and managers of musical organizations, Charles Liester of the male chorus, Ed Cole, band.

The leaves of Turkish tobacco are strung one by one like beads (see how it is done in the picture). After the leaves are strung they are packed in bales (see picture) —sometimes as many as 80,000 leaves to the bale.

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco...

The pleasing aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette.

Turkish tobacco is more costly when you take into account that you have to pay 35c a pound duty, but we have to have it to blend with our mild ripe home-grown tobaccos.

It helps make Chesterfields milder, it helps give them better taste. *Just try them.*

Outstanding

.. for mildness
.. for better taste
