'88-'89 A.S. Legislative Council Candidates

EXECUTIVES

PRESIDENT (Vote for 1)

Jaime Acton

Student Union. The one issue that candidates are refusing to address. Why are these candidates afraid of direct democracy? Why are they not interested in opening up the decision-making process to all students who pay fees here? Why is the Executive Director of A.S. (who supposedly works for the students) against having a direct, democratic system of student government? Why do all the people in positions of power or potential positions of power say that the average student is unqualified to determine their own future here at UCSB? Why do all the anti-democratic, top-down, bureaucrats in A.S. believe that a democratic student union would evolve into mob rule?

Why? Because they think that were are incompetent to determine our own future here at UCSB. Because we don't know how to play their paper-pushing game, they think that we are not experienced and knowledgeable enough to make our own decisions. And mostly, because they fear the simple equation, "more power for everyone 3/4 less power and control for them."

Students generally don't know how A.S. operates and most don't care. Some don't even know what it is. But whose fault is that? Most certainly, not ours. The culprit is the present form of representative student government. Electing 22 representatives once a year to speak for us the rest of the year, completely alienates the other 16,978 students from what is going on in our student government.

I'm not running to be president. I just wanted to tell the students that the present form of student government is inherently unequal, anti-democratic and inevitably corrupt, no matter who is running it. STUDENT UNION NOW!!

Dell Kronewitter

I realize that I am not the most experienced candidate, but present leg council members I know and myself feel that this does not keep me from being the most qualified candidate. I have not had my head in politics for my entire college education and this is precisely what makes me representative of the student's concerns. My solutions will be new and creative instead of tired and bureaucratic.

As your A.S. president you can expect graduation at the lagoon, more help for the slum-like state of Isla Vista, and more power for the students, including control of the UCEN. We bought it, we use it, and we should decide what goes on it. I will fight for this long overdue student power. We also desperately need more influence concerning the retention of professors at this campus. The faculty needs to pay more attention to our evaluations of teachers.

I support the ethnic and gender studies G.E. requirements because I feel that the sexism and racism at this school is disgusting. We cannot stop with the students though, cohesive integration can only be achieved jointly with the faculty. Affirmative action quotas are being met with visiting professors, who are not here long enough to develop relationships with other staff members. We need programs to retain more women and minority tenure track faculty. I realize the need for a tenth UC campus and am determined to hold the enrollment limit at 18,000. We have no more room on this already overcrowded campus. I am very concerned about environmental issues and I know we can give Hyatt the same opposition we gave ARCO last year.

Greg Brubaker

The Difference between next year's Associated Students and this year's Association will be the difference between what this year's council has sent and what next year's council will bring to the student body. This year's Association has SENT students to a fruitless conference in New Jersey, an expensive newspaper ad to Central America, and sent numerous A.S. Board and Committee members out of Associated Students by arbitrarily overturning their decisions or passing bills without consulting them. Next year's Associated Students will concentrate on BRINGING the following to the UCSB Student Body:

1. A COMPREHENSIVE GROWTH PLAN FOR UCSB — a plan that will limit enrollment and thus keep our rents from spiralling and give us some elbow room in our classes.
2. Work for legislative action to KEEP OUR REGISTRATION FEES LOW. The current law which prevents the U.C. Regents from drastically increasing our registration fees is due to expire — it must be renewed!
3. Increase the opportunity for education to minorities and students with children — the need for increased Financial Aid is obvious and that is why I proposed the UCSB Student Foundation, and that is why this proposal will be back next year. The need for childcare is obvious also, and that is why I urge students to vote YES ON CHILDCARE.

4. MORE ACCESS TO STUDENT SERVICES — such as the Kerr Hall video equipment and the campus gymnasiums which are either not available to students or not open for our use often enough.

Most importantly Associated Students must work for what is important to the student body and what will directly benefit you the students. One way to benefit students right now is to bring A.S. Board of Committee applications plus voter registration forms to everyone I talk to during this campaign — I URGE YOU TO GET INVOLVED. For an Associated Students that holds the students quality of life as the issue to work on BRING GREG BRUBAKER INTO OFFICE ON APRIL 19 & 20.

Jevon Hadley

Ah yes, springtime; when a young man's fancy turns to thoughts of being elected president. You know, as I look around me a couple of weeks before the election, the first thought that pops into my head is "What a boring election." All the candidates seem to be supporting the same causes: gender requirements, Ucen control, the removal of the chancellor's veto, etc. And as with any person capable of reasonable intellect, I support these issues too. They are the changes which most need to be made in order for students to have a complete voice in their community. But I feel the largest issue facing the A.S. is that most students really have very little idea of what the A.S. is doing, and thus see the A.S. as a sort of faraway great aunt who sends them unwanted ties every Christmas.

So where does all this lead? I believe that the A.S. president, and indeed the entire Leg. Council, has been altogether too distant from the students they represent. And I think that the best way to change this is to get some fresh blood in the A.S.; maybe a little bit of unorthodox behavior will work.

So what can you expect of me? You can expect me to be taking an interest not just in the internal affairs of A.S., but in the problems students encounter throughout the university.

I guess what it all comes down to is what you want. All the candidates have similar platforms; it just depends what you want in terms of results. If you want another boring year, go ahead and vote in the typical candidate. There's lots of those. But if you really want to wreak some havoc in the administration next year, vote for me. Go ahead; it'll be fun.

Javier LaFianza

EFFECTIVE LEADERSHIP RELIES ON THE QUALITY OF A CANDIDATE'S EXPERIENCE AND IDEAS. AN EFFECTIVE, INEXPERIENCED CANDIDATE COULD HALT OR EVEN DESTROY THE PROGRESS OF STUDENT GOVERNMENT.

MY ACTIVITIES IN STUDENT AND COMM. AFFAIRS — CHAIR, UCEN GOV. BOARD; STUDENT FEE COMM.; CHAIR, IV COMM. COUNCIL; AND, THE PUBLIC SAFETY COMM — HAVE TAUGHT ME HOW TO APPROACH AND SOLVE DIFFICULT PROBLEMS WITH SKILL. I HAVE IDENTIFIED MANY CRITICAL ISSUES FACING STUDENTS TODAY, I OFFER FEASIBLE AND CONSTRUCTIVE SOLUTIONS.

STUDENTS CAN TAKE CONTROL OF THE UCEN GOVERNANCE STRUCTURE, WHICH WOULD RESULT IN LOWER BOOKSTORE AND FOOD SERVICES PRICES, AND A MORE CULTURAL UCEN AND CAMPUS.

QUALITY, MORE AFFORDABLE HOUSING IS POSSIBLE IF STUDENTS PRESSURE THE UNIVERSITY, COUNTY AND THEIR LANDLORDS INTO CONDUCTING ROUTINE HEALTH AND SAFETY INSPECTIONS. ALSO, STUDENTS MUST PARTICIPATE IN ALL UNIVERSITY HOUSING AND GROWTH DECISIONS.

THE IMPLEMENTATION OF ETHNIC AND GENDER STUDIES, RACIAL HARRASSMENT POLICY ARE STEPS IN CONFRONTING RACISM ON THIS CAMPUS; BUT STILL MORE NEEDS TO BE DONE. WE MUST DEVELOP MORE EFFECTIVE PROGRAMS TO INCREASE MINORITY RETENTION AND DEMAND MINORITY AND WOMEN TENURED FACULTY.

THESE ISSUES ALONG WITH MANY OTHERS HAVE BEEN IGNORED TOO LONG BY THE POWERS THAT BE. THE STUDENTS HAVE THE ABILITY TO SEIZE CONTROL OF THE DIRECTION OF THIS CAMPUS. THE UNIVERSITY IS HERE FOR US, AND WITH PROPER LEADERSHIP THEY WILL BE FORCED TO LISTEN TO OUR CONCERNS.

EXAMINE EACH CANDIDATE AND QUESTION THEIR COMMITMENT, EXPERIENCE, AND ABILITY TO DEAL EFFECTIVELY WITH THE ISSUES. I AM CONFIDENT YOU WILL FIND THAT I AM THE BEST CANDIDATE. PLEASE VOTE JAVIER LAFIANZE AS PRESIDENT!

INTERNAL VICE PRESIDENT

(Vote for 1)

David Lehr

The office of Internal Vice President is very important in the A.S. Structure. It requires that the person be experienced in the A.S. Legal Code, and also requires that the person be able to effectively run the weekly Legislative Council meetings. Working on Leg. Council this past year, as On-Campus Rep., I have worked a great deal on changing the A.S. By-Laws and Policies to make them more efficient, and also making sure that the Leg. Council follow them as best as possible. I was going to tell you about all of my past experience, but I think that it is more important to let you all know what I intend to do if I should be elected to the office that I am seeking. First of all, I will work to make sure that the money the A.S. spends, is allocated through correct procedures, so that all affected boards and committees have time to give Leg. Council their input. This means that if Leg. Council does approve money for a conference, or an ad in an El Salvadoran news paper, everyone will know about it long before the money is spent, instead of a few hours beforehand. I will also work in educating and bringing about more fair policies in the areas of Women's issues (and Men's issues), like date rape, and child care, minority issues, including the often mistreated homosexual members of our community. These are all areas which I feel the general student population needs to be more informed about, because informed people are much more tolerant. I would also like to leave some room on my agenda for things that you the student bring to Leg. Council seeking help. So don't forget to vote yes on Child care, and Dave Lehr for Internal V.P.!

EXTERNAL VICE PRESIDENT

(Vote for 1)

Ellen Thornton

My name is Ellen Thornton and I am running for the office of External Vice President. I became a candidate in this election for several reasons. The first being to increase representation and encourage participation in A.S. through greater student input and involvement. The second is to get things done. I plan to concentrate my efforts in addressing the following current and critical student concerns: minority and women's issues, enrollment, housing, student fees and child care. By effectively solving these problems with the help of other A.S. officers, community and county officials and the students of UCSB, this University will then be better able to serve the needs of the students. The third reason I am running for this office is that I am very interested in working with the UCSA (University of California Student Association) on legislative issues such as the Educational Equity Assessment act and on other legislation that would improve educational conditions and opportunities for minorities and women at UCSB. Working with these issues on a systemwide level by pooling the ideas and resources of each of the nine UC campuses we can make institutional changes affecting UCSB today. Finally, the fourth reason is that I am qualified and committed to improving student life at UCSB. Being an executive board member of the largest student organization on campus I have amassed numerous communication and leadership skills. Additionally, serving on A.S. boards and committees has increased by awareness of student needs and the opportunities available to UCSB students. I plan to get as many students as possible involved in improving UCSB by gathering input from students through the use of A.S. boards and committees. On April 19th and 20th, show your support and express yourself by voting Ellen Thornton for External Vice President.

Richard Marshall

Why should one vote, what does it matter, what difference is it really going to make? After all, the students wanted Christon off campus and yet, he remains. The students bought, paid for, and funded the UCEN, and look who now controls it — the administration. This is our campus, we pay for it, our taxes fund it, and yet we have no say.

Now is the time that students must gain power at this university. The emphasis must be shifted more towards the undergraduate program and increased financial aid and away from such UC Regent priorities as weapons development.

- 1) More money is needed for the training and recruitment of teaching assistants at this school. The external vice president is a member of UCSA, which can lobby the state legislature for these desperately needed funds.
- 2) The living situation in Isla Vista is ridiculous. It is the largest upper-middle class ghetto in the United States because the landlords face no serious opposition from a young, transient clientele.
- 3) Despite what people think, there is racism at this school. We need an ethnic and gender studies requirement, a racial harassment policy, and a real multicultural center, if there is to be any change in this crucial area.
- 4) Once we resolve the conflict with the administration over student control of the UCEN, we must proceed with a first rate recreation center to meet all the students needs.

Thank you for taking the time to read my concerns. These are the issues I will work for, and with the help of the people, these are the changes that will be made.

Bradley Silcox

No statement submitted.

Dan Birdsall

So many of my friends keep asking me, Dan why are you running for a 2nd term of Leg. Council? Simply, to me it seems like an absolute waste of knowledge and experience if I didn't run again. Having spent a year on Leg Council, kept involved in the progressive student movement, attended numerous community meetings, and being the sole student rep. in the long-range Academic and Physical planning of UCSB, I intimately know where UCSB is going and how to get things accomplished.

External VP is responsible for issues in the local community, state, nation and world. To be effective externally one needs to know where the university is going and what it needs. To be effective internally one needs to know what the external world is doing. I have a firm grip on both aspects.

Many students complain that AS thinks too globally and not enough locally. I feel groups with global interests should continue getting the resources to act and educate, but I'll personally be focusing on such local issues as pressuring the County to enforce quality of housing, while pressuring the Univ. to provide not only enough quality housing, but apartments we can afford. The same goes for parking which needs to be "fixed" in more real ways than just building a parking structure on campus. Safety at night, racism, minority enrollment-retention-education-faculty, are all campus and external issues that I'll continue to fight for and force the Univ. to address in real terms.

During the past year many laws have been passed in the State Leg. that need to be enforced, such as hiring and advancing faculty on equal capabilities of teaching and research. The list goes on. Vote Dan Birdsall EXT VP

'88-'89 A.S. Legislative Council Candidates

REPRESENTATIVES OFF CAMPUS (Vote for 10)

Andrew Selesnick

Are you tired of trying to maneuver your bike through the pot holes and traffic on the campus paths? Are you fed up with looking for a place to study at the library, especially during finals and mid terms? Are you tired of contributing your money to worthy causes while the quality of life at UCSB gets worse and worse? Do you think that the UCSB legislative council should be more responsive to the day to day problems of students at school? If these frustrations have affected you as they have me, I am your candidate for off campus representative for the legislative council. I have a board background in both national and campus political and legislative affairs. As an intern in Washington D.C. I was able to watch and participate in many kinds of federal programs, getting valuable experience in how our political process works. I also served as a lobbyist for the Associated Students of U.C. Davis presenting student views and concerns to City and County leaders.

I have no grandiose plans to change the campus philosophy of this University. I am fully aware of the importance of nationwide student activism and their involvement in human rights issues. At the same time I think that we should tackle the problems here on campus. The legislative council should have some fresh blood and be a truer representation of the various student points of view. If what I say makes sense, make a difference, vote for Andrew Selesnick!

Amy Supinger

Students on this campus, are you aware that there is a student government that exists solely to serve your best interests? The Associated Students Legislative Council which is composed of 22 people, has the potential to represent you, the undergraduate students at U.C.S.B. In this past year, I have become aware that these council members are not doing their job sufficiently. They are not adequately representing the students or their concerns. It is this lack of representation that I'd like to change. My dissatisfaction with the job that is currently being done, is what has led me to run for the position of OFF-CAMPUS REPRESENTATIVE. Serving on the A.S. Finance Board, Committee on Travel and Entertainment and the U.C. Student Association has provided me with extensive knowledge of A.S. this, as well as my skill communication will enable me to work with others to accomplish change. A.S. has constantly been plagued by an endless cycle of conflicts which have resulted in protests and outrage among students, but have only proved to be counterproductive. Instead of enhancing awareness on many issues, this years A.S. has excluded and offended both students and administration. I feel that by working with the student body and various student groups, and by working with the administration instead of against them, the demands and concerns of the students can be met. VOTE: SUPINGER, LAUTERBACH, GILLISPIE, DONALDSON & BARBAROSH!

Marc Villa

Hello, my name is Marc Villa and I would like to be elected to an Off-Campus representative position. Why on God's earth I wish this job I do not know, but I want it. Do not take the last statement as being naive about the job. I realize that this position will take a lot of hard work and effort, and I am willing to give all the work and time necessary to do the best possible job I can.

Why would you vote for me? I do not know, that is up to you to decide, but here are some of my qualifications that might enable me to receive your vote. First I will be a fifth year student so I have seen a lot that has gone on this campus both good and bad. Second as a member of the Community Service Organization (CSO) I have come into contact with a wide range of students and administrators in a wide variety of situations. Finally my involvement with Special Olympics over the years has brought me into contact with other students and community members who want to try and improve the community we live in.

That is one of the strongest things I believe in, improving the community that we students live in. We can start to accomplish this by getting more students involved in community volunteer organizations, such as CAB. In addition, obtaining more money for these organizations from students through some sort of voluntary collection. Also by voting for the Child Care measure. Vote and let your voice be heard.

Robert Duquette

There are many crucial issues facing the A.S. council which demand immediate action and attention. All of these subjects will affect the students of UCSB in many ways. We must deal directly with the UC Regents to address their hiring procedures which discriminate against minorities and women. An equally represented and tenured faculty is an essential component to all universities. This retention rates and better ensure their chances to graduate. I also support the idea of adding an Ethnic and Gender Studies requirement to UCSB's general education format and adopting a standard racial harassment policy. This would create a better campus atmosphere and lower the incidences of racial problems. The university has dealt with the problem of date rape, but I believe we must pursue this issue further. Lectures and literature to educate the public on the extent of this problem must be increased. Students need to learn what date rape is and how it affects our society as a whole. UCSB must also work to increase safety at night. Students should not be afraid to walk around campus or I.V. after dark. The continual increments in the cost of an education are also a major burden facing students. The national and state legislature along with the Regents must be pressured to increase funding for public education, financial aid, grants, loans, and work study programs. I also support the child care initiative, student control of the UCen, an increase in AIDS weapons laboratories. If you support these issues, please vote for Robert Duquette, George Ramos, and Doug Haubert.

Andrew Hurley

As a second year student at U.C.S.B. and a member of the local community, I have witnessed a number of problems that have affected our community. Although some progress has been made towards resolving these issues, much remains to be done. It seems that in the past, there was a tendency to focus on several key issues that were of national and/or global importance. In addition to such weighty global issues that face our campus, there lies a wealth of inequality, injustice and suffering that exist alot closer to home. These problems affect each and every individual as well as society as a whole. I feel that it is our duty as a campus and an active member of the academic community to seek, in addition to a higher education, viable solutions for the problems that afflict us both at home and abroad. The A.S. Council should serve as a leader in this endeavor and I'm looking forward to becoming an active part. I emphatically implore your support.

George Ramos

Hi, my names is George Ramos and I'm running for the office of A.S. Off-Campus Rep. I have had past experience in A.S. serving as an intern for our current Associated Students President, Curtis Robinson. If elected, I would like to work on the following issues. First of all, there is the issue of minority status on campus. There is a problem that exists with the students as well as with the faculty. I feel that there should be a wider representation of minority students on this campus and increased retention and minority tenured faculty.

Also, I feel that a racial harassment policy and an ethnic gender studies requirement should be implemented on this campus. The policy would take action against any person or group of people for racially harassing anybody. The ethnic gender studies requirement would further educate students with the problems that exist with minority groups.

The Women's Movement is another issue that I feel is of great importance. The issues that I would like to deal with that would secure their status are increased night protection, date rape education, and equal treatment in the classroom.

Finally, if you endorse any of these issues and would like to see action, vote for me, George Ramos and my partners, Robert Duquette and Doug Haubert.

Craig Barbarosh

I desire the position of Off Campus Representative because I believe that I possess the experience and knowledge that is necessary to represent the associated students of U.C.S.B. in the most responsible manner.

Through my experience this academic year as a voting member of A.S. Finance Board and A.S. Committee on Travel and Entertainment, I have gained an understanding of virtually all operating policies and procedures of our student government. In addition, the decisions that I made while on these boards have consistently represented unbiased and fiscally responsible views that I believe have always been in the best interests of the students as a whole.

If elected, my goals for the upcoming year include providing as much money as possible to all eligible student groups without increasing registration fees. In addition, I will work together with the administration on all pertinent student issues, in hope of attaining a positive result for all students involved.

If you agree that experience, reliability, and fiscal responsibility are the most important attributes in the maintenance of quality student representation, then I urge you to vote for me, CRAIG BARBAROSH, as well as DAVE DONALDSON, LISA GILLISPIE, ERIC LAUTERBACH, and AMY SUPINGER. We appreciate your support.

Lisa Gillispie

I WANT TO REPRESENT THE ISLA VISTA RESIDENTS TO A.S. LEG COUNCIL. I AM A JUNIOR AND HAVE PARTICIPATED IN INTERCOLLEGIATE AS WELL AS INTRAMURAL SPORTS. I AM AN INTERNATIONAL RELATIONS MAJOR AND CURRENTLY AN INTERN FOR THE U.N. MY GOAL FOR A.S. INCLUDE FOCUSING ON HOW LEG COUNCIL CAN BETTER HELP STUDENTS BY PROVIDING MORE A.S. FUNDS FOR STUDENTS GROUPS AND SPORTS. I FEEL IT IS LEG COUNCIL'S OBLIGATION TO MAKE THE STUDENTS MORE AWARE OF WHAT THEIR FEES ARE GOING TO; I WANT TO IMPROVE THIS. I WOULD LIKE TO SEE A.S. FOCUS ON MORE SPECIFIC CAMPUS ORIENTED ISSUES AND STAY AWAY FROM BROADENING EFFORTS BEYOND OUR LIMITED RESOURCES. MOST IMPORTANTLY, I WANT TO DIRECT LEG COUNCIL'S DECISIONS TO BENEFIT BOTH OFF-CAMPUS AND ON-CAMPUS RESIDENTS. MY EXPERIENCE IN COMMUNITY AND CAMPUS AFFAIRS WILL ENABLE ME TO BE AN ACTIVE, BENEFICIAL MEMBER OF LEG COUNCIL AND TO COMMIT THE TIME AND ENERGY NEEDED TO MAKE LEG COUNCIL THE BEST IT CAN BE. FOR REPRESENTATION, EXPERIENCE, AND RESPONSIBLE STUDENT GOVERNMENT, VOTE DONALDSON - LAUTERBACH - BARBAROSH - GILLISPIE - SUPINGER

No picture

Doug Haubert

My name is Doug Haubert and I would like to be elected to the Off-Campus position for several reasons. Foremost is my desire to initiate more favorable school relations with the community. It is the duty of UCSB to take a firm stance on such important Isla Vista issues as rent control and parking. As a representative of UCSB, I am confident that I can secure more privileges for students ranging from anything as small as an automatic 10% student discount on goods from local merchants to perhaps a one-night lift of Isla Vista's open container law for Halloween. Another benefit of community involvement will be better off campus jobs being available to students.

On campus, there are many issues which need to be dealt with. Among the most important are racial and gender awareness. Here I believe that the university should involve students more in active policy making so that these controversial decisions have more student support. Other improvements which I advocate include regaining A.S. control of the University Center, which would lower the food prices, a benefit to off-campus residents, and greatly expanding the weightroom, making it more accessible to every student.

I strongly urge you to BE HEARD - NOT HERDED and vote for me, Doug Haubert, as well as George Ramos and Robert Duquette.

Marc McKennon

No statement submitted.

Jim Scott

I am running for office because as a student I have a vested interest in what goes on at UCSB. I am concerned and informed about a number of issues important to students. I support greater student control of the UCen which would result in lower book and food prices through key decision-making by the very people affected by the high prices, the students. I support an ethnic and gender studies requirement, and an increasing awareness of minority and women's issues. I support rent control and believe the Administration should take a hand in helping to provide better and more affordable housing. I will strive for more dialogue between A.S. and students and between A.S. and the campus Administration. As Off Campus Rep, I will, to the best of my abilities, represent the views and concerns of the UCSB students living off campus in Isla Vista, Goleta, Santa Barbara, and neighboring areas to the Associated Students, the Administration, and to whatever governing body arises out of IV. I have served on the UCen Governance Board for the past year, so I am familiar with the issues concerning the UCen. I have worked with members of A.S. on the issues of student control of the UCen and expansion, I have been involved with Program Board for two years in all aspects of planning, production, and presentation of diverse events to the student body. I am also involved at KCSB. I believe myself to be informed about most issues important to students. I'm always available on campus or in the UCen to discuss issues and share ideas with other students. I would appreciate your vote in the A.S. elections on April 19 and 20.

Mike Stowers

I know how hard it is to capture and keep attention so BULA BULA. Bear with me, please.

Time and again, A.S. candidates have stressed representation of the entire student body and promised effectiveness hoping to appeal to the students as an electorate, and with good reason. But, the emphasis always seems to fade as the student population seats itself and become the untapped resource. The ability to channel student opinion into action needs to be improved and made more than just an election time character. Low student minority population, women's rights, over enrollment, the environment and child care costs are all issues tugging our attention, along with many others. We need to create an atmosphere of effectiveness for the students perspective.

Because of my experience I think I can help. I presently am working an internship with Assemblyman Jack O'Connell. I have worked as Project Coordinator for CalPIRG's Local Interest Politics group in addition to being voted to a State Board member position. I am also working as Community Service Chairman as a pledge class member of Pi Kappa Alpha's new SB chapter. I truly want to help. Be vocal on election day and beyond. It is the student body and student government working together that will force recognition and accommodation. Personally, I am making the commitment to help however I can. Please vote... Please vote Mike Stowers.

Erin Olofson

Students of UCSB, I am running for A.S. Off-Campus Representative. I am a junior majoring in English.

I want to work towards UCSB expanding its mind, but not expanding its population. Let's maintain our thin body, but grow a fat head. Our University needs to gain knowledge about ethnic, gender and minority diversity and thus achieve an educated mind. However, U.C.S.B. does not need to grow in its population. Our educational institution can grow within itself by broadening its awareness and expanding the knowledge it provides us with.

U.C.S.B. is made up of 16,000 undergraduate students. When will this population be enough? I attended UCLA Fall and Winter Quarters in 1985-86. I have experienced a campus of the University of California which is too large and too impersonal. I want to work to get the regents of the University of California to review the California Master Plan for Higher Education one again. I don't want to see U.C.S.B. become an enormous, obese, over-populated university and lose its college-town personality.

Over-population is an issue which concerns all students. Over-population at U.C.S.B. will result in an increasing demand for housing and continually inflate rents. Other effects of over-population are the student/teacher ratio; availability of classes; and parking.

Let's maintain our thin student body, but grow a fat head. VOTE ERIN OLOFSON FOR OFF-CAMPUS REP.

Michael Barlow

This is certainly an important time to be running for A.S. office and I'm incredibly excited to be part of it. Those of us who are elected are going to be involved in a number of serious issues. The ball is really beginning to roll on the issue of minority equality on this campus. I vehemently support an ethnic and gender studies requirement but even that is far from enough. On April 4th, Chancellor Uehling stated in the Nexus that, "We have to create a climate in which people can change their views." Well I strongly agree. For that to happen we need a much stronger minority presence on campus. I would like to see mandatory minority hiring practices for faculty and administration as well as increased minority enrollment. Some would call this affirmative action policy "reverse discrimination," but until there is equal representation on this campus the discrimination goes only one way.

The minority issue is by far the most important but I would also like to get the UCen back the student's hands and ban Coors beer from being sold on campus in the pub. Even so, this is a representative system and I would like to make it my crusade to represent student concerns rather than merely my own. I do not feel that the student who is not concerned about University policy is apathetic. In fact I don't believe in apathy. Everyone has their concerns; I'd like to be open to them all.

Enough of that rhetoric. Talk is cheap. I prefer action and that's why I'm here. I'm anxious to get my hands dirty. I'm unbelievably excited about representing you next year and I hope you make it possible. In closing I'd like to encourage you all to please vote and I'd also like to ask you to vote "yes" on Child Care. Thank You.

Jason Spievak

MANY U.C.S.B. STUDENTS SEEM TO CARE VERY LITTLE ABOUT THE ISSUES WHICH STAND TO AFFECT THEM, SUCH AS THE CHANCELLOR'S POWER TO VETO A.S. DECISIONS. I'M SPEAKING TO THOSE OF YOU WHO CARE AND WOULD LIKE TO SEE CHANGE ENACTED. JUST TAKE THE TWO MINUTES TO VOTE FOR THOSE INDIVIDUALS WHO ARE WILLING TO WORK FOR YOUR BENEFIT AND OTHERS LIKE YOU. YOUR VOTE IS AS POWERFUL AS ANYONE ELSE'S. USE IT, AND USE IT WISELY. VOTE JASON SPIEVAK FOR OFF-CAMPUS REPRESENTATIVE.

Jill Frandsen

As a representative of students living off-campus, I will work on proposals with the county government to increase tenant's rights and help provide a ceiling for rent. As a student living in Isla Vista I am aware of the issues unique to students here, as well as issues concerning students of the larger Santa Barbara community. Financial aid and child care needs to be improved to insure equal opportunity education. The problems of racism, sexism, and discrimination exist and need to be addressed by the administration. As a female, I would represent the concerns unique to our gender, such as rape prevention, women's conferences, and discussion of a Women's studies dept. However, I am not entirely comfortable running for a representative office. As an individual I am well informed on the issues that concern students and I will do an excellent job of seeking out and expressing student concerns. However, every student has an opinion of their own and should be given the opportunity to voice their personal beliefs and concerns. It's important to address the issues raised in a discussion of a student union. Students play little or no role in the decision making process of this university. They were not consulted about the appt. of an active CIA agent to this campus, or asked how they felt about graduation being moved to Harder Stadium. If elected off-campus representative I will continue the goal of providing a forum for student opinions and work towards a goal of greater student participation.

'88-'89 A.S. Legislative Council Candidates

REPRESENTATIVES AT-LARGE (Vote for 5)

Michael D. Chester

No statement submitted.

John Y. Chen

My name is Chen and that's a fact, I'm Chinese and I'm sick of this crap
Of discrimination, racism, and other such ills, All you bad people had better
chill
Something not right, can't you see, For every 50 of you there's only one of me
Then you all think that I'm a computer nerd, And can only talk in 20 syllable
words
Well listen up students, I've got a different scene, I wanna be nice not cold and
mean
Equality, equality, I just want a fair shot, And a fair opportunity to show you
what's hot
I want the Status of Women to be O.K. so they can walk night and day
I want the UCen back to the rightful owners, That's you and me not Cheadle, the
throne
I want ethnic hiring to be true and fair, Not some kissing of the derriere
I want positive things of this institution, not lame excuses and procrastination
But first you have to get off your butt, And jam on over to a voting hut
The first step is always the hardest part, But the first step will tear APATHY.
apart
Get up! And Vote! And speak your piece of mind, And do a favor for all of our
kind
I'm positive, I'm Ethnic, And I want to help you, Joined together we'll make it
through
I'm compassionate with sensitivity, Besides I'm cuter than Mike D.
So don't forget to vote on Election Day, If you don't vote for me that's O.K.
But if you don't vote I'll be mad as hell, And then I'll become a Negative Ethnic
Role Model
So talk to me, I want to know what you think, Do you really think this school
sticks
Or is it what you make it? Is that the point, Will you please stop toking on that
joint
And get off your butt and make the change, Cause this campus needs a
rearrange
So, come and see me and just say "HI", I won't blindly pass you by
And when you see me call me PERM not SIR, because the Positive Ethnic Role
Model
Believes you're more than a number.

Valerie Yoshimura

Without autonomy, there is not power. Representation at UCSB is a facade, a
mirage, an illusion. My present role as "on-campus rep" has given me one
"privilege" which *should* belong to every student: a vote. But it *does not* belong to
every student! We must see the inherent wrong in hierarchies, privileges, and
representation, and the inherent right in true democracy and direct vote. We
must have decisions made by ALL STUDENTS, not by nineteen. We must end the
Administration's exclusive and ultimate authority over students. We must stop
filtering campus life exclusively through the Daily Nexus. We can no longer
succumb to the poisonous belief that "it doesn't matter!" If WE do not ACT, the
entire system, inequity and all, will be "sneaking around" to come behind you
again....
Would YOU like to vote on the CIA presence, the MTD fare, the site of
graduation? How about UC Weapons Labs, or the quality of undergraduate
education? Are you concerned about the rights of minorities, women, fellow
students in Central America, or gays, lesbians, and bisexuals? Would you like to
collectively own and control facilities that students pay for? Would you like a
vote?
I want every student to have a voice, a vote in the decisions which affect them. I
cannot force you to break the chains of apathy and alienation created; I cannot
force you to vote, but I WANT YOU TO HAVE ONE!

Robert Shilling

UCSB needs a student government made up of *representatives* — not self-
serving ideologues or pre-yuppie resume builders. As your representative-at-
large, I would be committed to serving the entire University community.
You may be asking yourself what Rob Schilling would do as your representa-
tive. I am dedicated to improving the quality of student life at UCSB. In addition
to protecting our beautiful campus from the dangers of over-enrollment and the
greed of oil companies, I will strive to ensure the well-being of our greatest asset
— our student body. We must increase minority enrollment at UCSB, as well as
implement the mandatory ethnic and gender studies requirement — I believe that
ignorance and insensitivity can be overcome at the student level. In addition, the
student body can be a tremendous force for social change in our community and
there is no better place to start than with the homeless that live in squalor in our
own backyard. As your representative, I would implement a program that
employs the massive untapped energy of our students in helping the homeless of Isla
Vista. Finally, I feel the need to create an easier process to enable students to
petition for the removal of feeble teaching assistants.
In order to accomplish these things, I need your support. Therefore, I am
asking you to vote for me, Rob Schilling on April 19th and 20th. In order to be
effective, however, the Associated Students needs the support of everyone. It is
imperative that you exercise your right to vote! So quit complaining and start
acting — and while you're at it make sure to vote ROB SCHILLING for REP-AT-
LARGE.

Susie Besse

I have been involved in student government in the past and have been very
interested in all that I have encountered, and therefore will be dedicated to do the
best job possible. I am ready and willing to put forth 200. in order to benefit the
entire UCSB student body! If elected, I am hoping you, the student body, will give
me input on issues that you feel need to be addressed and on any concerns you
have and your voice will not be overlooked.
Vote on April 19 and 20 and vote SUSIE BESSE for Representative at Large.

Dave Donaldson

Each year you pay \$54 to A.S. It isn't entirely unreasonable to expect
something in return. You get the Daily Nexus, the A.S. Bike Shop, A.S. Notes, and
other services. However, you should get MORE. You should get more financial
support for your student groups. You should get a student government concerned
with campus and local issues rather than one blinded by global issues and
preoccupied with being guardian of your thoughts and morals. Most of all, you
should get representatives who are concerned about the quality of your student
government. By voting DAVE DONALDSON for REP-AT-LARGE, you get all of
these and more. My experience on the A.S. Finance Board and other extensive
extracurricular activities have more than prepared me to fight for your interests.
I don't intend to save the world — I just want UCSB to be a better place to go to
school. I feel that a less antagonistic, yet cautious, relationship with the ad-
ministration is in order. I would also like to see a lot of support for the newly
formed Commission on Minority Affairs, as well as for the many pre-professional
groups. I would push for cuts in the excessive administrative costs of A.S. So, vote
BARBAROSH — DONALDSON — GILLISPIE — LAUTERBACH — SUPINGER
for A.S. Leg Council for RESPONSIBILITY!

Stephan Lehan

The 1988-89 year is going to be a period when Associated Students must decide
what its role will be in the long term future of U.C.S.B. The university has adopted
a no-growth policy which restrains enrollment at a figure near 18,000. The
stabilization of enrollment marks the start of a new era in which A.S. will be able
to govern and allocate funds with a vision of the needs of the future. Subsequently,
A.S. must keep sight of its purpose of promoting the general student welfare, and
must exercise its prerogatives with this purpose in mind. The present quagmire of
proposed student fee referendums must sort through and crucial decisions will
have to be made as to which fee increases provide the greatest amount of im-
provement of the state of students as a whole, compared to the respective burdens
that accompany them. Knowing what student population we will be serving, we
must now improve the facilities and programs of the university to a level ap-
propriate to that population. There is no question that A.S. must decide what its
role will be in the foreseeable future of U.C.S.B., and as Representative-at-Large
my choices in this role decision will be those which most benefit my entire con-
stituency, rather than any narrow, low-benefit desires therein.

Eric Lauterbach

I FEEL THAT THE BIGGEST CHANGE NEEDED IN A.S. IS THE
REFOCUSING OF STUDENT ENERGY. LEG COUNCIL MEMBERS POSSESS
ONLY A FINITE AMOUNT OF ENERGY AND OUR EFFORTS CAN BEST BE
UTILIZED BY FOCUSING ON STUDENT ISSUES THAT WE CAN DO
SOMETHING ABOUT RATHER THAN WASTING OUR VALUABLE TIME ON
ISSUES WHICH WE CANNOT CHANGE. MY AREAS OF INTEREST ARE
THOSE OF STUDENT GROUP ACTIVITY AND THE DISTRIBUTION OF
STUDENT FUNDS — HOW MANY OF YOU KNOW WHERE YOUR REG. FEES
ARE GOING? THESE FUNDS CAN BEST BE USED TO SUPPORT AS MANY
STUDENTS AND STUDENT GROUPS AS POSSIBLE. I BELIEVE THAT IT IS
THE OBLIGATION OF LEG COUNCIL TO DO SO. LEG COUNCIL NEEDS TO
REALIZE ITS CAPABILITIES AND WORK ACCORDINGLY — WHAT IS
NEEDED IS THE SEPARATION OF NOBLE WORLD GOALS FROM CAMPUS
ISSUES. WITH EXPERIENCE IN BOTH COMMUNITY AND UNIVERSITY
AFFAIRS, I FEEL THAT I CAN BRING VALUABLE AND MUCH NEEDED
EXPERIENCE TO A.S. LEG COUNCIL. FOR RESPONSIBLE, COMPETENT
AND PRACTICAL STUDENT GOVERNMENT, VOTE LAUTERBACH —
DONALDSON — BARBAROSH — GILLISPIE — SUPINGER.

SANTA YNEZ AND FAMILY STUDENT HOUSING

(Vote for 1)

ON CAMPUS (Vote for 3)

James Siojo

"Doesn't Leg Council ever complain about anything else besides Central
America and the CIA? Don't they ever do anything for the immediate needs of
students?" — Mike Beeman. These words not only express the dissatisfaction
with UCSB Government according to my roommate Mike; but they are also
similar to the words of other dissatisfied students I have spoken to. In all reality,
a good amount of students don't think that Legislative Council does anything that
affects them directly. I found that a majority of students I questioned are less
concerned with the politics of Central America and more concerned with the
"local" politics of whether or not their Registration Fees are going to be raised
again. Don't take me wrong, I realize that U.S. Foreign Policy is a concern of
students; However, it is not the PRIMARY concern of a MAJORITY of students.
As a member of Legislative Council, I plan on proposing and considering bills
that affect students in relation to UCSB. I believe if there's time left over in a
meeting to discuss U.S. Foreign Policy then it can be discussed. Other than that,
I leave it to the U.S. Congress to debate. Moreover, I plan on taking a strong
stance against raising Reg Fees to the point where a variety of students have to
struggle even harder just to attend college. Generally, the student population can
be assured that I will take a moderate view towards issues of campus concern. I
am far from a radical, either to the left or the right.

Craig Fok

Hey, what's going on? Did you get all of your classes? I know someone who only
got three units! Peoples' schedules are always screwed up. Some people live at
Schedule Adjustment. What a pain; something needs to be done.
Well, like many students, I am aggravated by the inefficiencies of the school
system. But there's still hope; there's a lot of room and potential for
improvements. From these inefficiencies, I am more anxious and motivated to do
something about them.
Some of my future goals are aimed towards working on plans to provide more
courses for all UCSB students. Therefore we will have a greater variety of choices
and also prevent some of the confusion for us when feeling limitedly forced to take
classes of no interest. I want to keep our options more open and I strongly want
to prevent all the headaches during schedule adjustment.
Another issue I will take action on is student control over the Ucen. I feel that
the Ucen belongs to the students. Sure, let's reduce the Country Store prices, use
books prices, and also extend the Ucen hours — meaning special events, such as
band performances, could stay longer in the Pub. Further issues I will take action
on is to improve the Dining Commons meals.
Well, there are of course a lot more issues I will take on but briefly I wanted to
let you know some of my plans toward current issues. I'm also interested in
educating and informing everyone more about the A.S. government and in return
hoping to hear suggestions from you. We have all rights to voice our opinions. I
mean, this is our college and it is in our hands to make changes. I'll give your
voices choices and your choices voices! Vote CRAIG FOK for "On Campus Rep".
Thank you for your support.

Lorraine Nebo

Education serves a vital role in furthering the status of Women and minorities.
Sixty five percent of our student population consist of these people. On the subject
of Child-Care, it can become a burden to a parent that is in need of an education
and decent employment opportunities. It also can be a burden to the child, who is
in need of adequate child care, food and clothing in order for survival. As a
member of the National Coalition for Campus Child Care, I strongly support the
measure of the \$1.00 per student per quarter ballot. As former President and
Coordinator of the Antelope Valley Community College child care club and
committee, I hope to be able to start a Child Club here at UCSB, so that funding
can become more available to students, and facilities in need of moneys. In areas
of Family Student Housing, facilities should be provided for children in need of
care, as the parents purposes of living in these units are to attend school.
Many students living at Santa Ynez, are inconvenienced by situations of
roommates constant moving in and out of apartments. It is important that the idea
of a screening process takes place so roommates can be housed with common
lifestyles, such as smoking, nonsmoking etc.
There are many needs that have to be met, and many priorities to be changed,
within our educational system. As A.S. Rep for housing I can commit myself to
insuring that the administration would see to the needs of all people on this
campus.

Derek Butts

Fellow students: I would like to take this opportunity to inform Santa Ynez/
Family Student Housing residents and non-residents alike of the issues I am
addressing and the reasons why I should be elected as Santa Ynez Representa-
tive.
Politically, I would consider myself a moderate. On the college level, I believe a
strong political bias would only serve to inhibit the effectiveness of a representa-
tive. Therefore, I would assess each issue by considering the views of my
constituents, determining the merits and negative aspects of each issue and then
deciding upon the best course of action. With this method of action, as well as my
ability to work well with people will enable me to be a committed and effective
representative.
I would like to urge all voters to seriously consider voting for a one dollar per
quarter reg. fee increase to benefit the University Children's Center. The center
currently operates in a deficit, receiving only one fifth of the reg. fees that the
other UC Centers average... This minimal fee increase enable the Center to
continue providing child care for UCSB students with children without drastically
raising rates which many students could not afford.
I also urge all students to vote, no matter what their preference is. I interpret
previous poor turnout rates as student apathy. Without student input and concern,
some current representatives have failed to actually represent. If elected, I would
use student input and commit myself to being an effective Santa Ynez
Representative.

You Don't Have to Get Elected To Make a Difference!!

Fill out an application to serve on a Board or Committee and make a difference on your campus, gain valuable leadership experience, develop political savvy, work on your problem-solving skills, and understand the BIG picture of UCSB!!

Official A.S. Boards and Committees

The Associated Students' Boards and Committees serve many functions necessary for the success of A.S. Legislative Council. All Boards and Committees are made up of interested students working to empower their peers through programming, research, and action. Honorariums are available for most of the committee chair positions. For additional information visit the A.S. Main Office — 3rd floor UCen — or CALL 961-2566.

Academic Affairs Board (AAB)
Advertising & Publicity Board (APB)
A.S. Information Agency (ASIA)
A.S. Commission on the Status of Women (Status)

Sample Ballot

Ballot Measure A.S. Spring General Election '88

I. Reaffirmation of A.S. Constitutional Lock-In: YES NO
 Continue funding for FOOTBALL at \$1.50 per student per quarter

II. A.S. Fee Increase Proposals:

Increase the A.S. Communications Personnel Constitutional Lock-In \$.49 per student per quarter in order to finance the present budget deficit.

Increase the A.S. Constitutional Lock-In Fee for the University of California Student Association (UCSA, the systemwide student government organization) by \$.25 per student per quarter.

Initiate a Child Care Fee of \$1.00 per student per quarter as an A.S. Constitutional Lock-In to support the University Children's Center in the continuation of affordable, quality childcare.

Initiate a Club Sports/Intramurals Fee of \$5.00 per student per quarter as an A.S. Constitutional Lock-In to fund an expansion of these programs at a reduced fee for participants.

III. A.S. Constitutional Amendment:

Do you want newly elected A.S. officials to have an extra orientation period of approximately 4 weeks before they are sworn into office?

If yes, do you want it to affect this year's candidates?

IV. CalPirg Reaffirmation Independent Voluntary Fee Measure:

Do you support the continuation of the University of California Public Interest Group (CALPIRG) for the period of Fall 1988 through Spring 1990 through the assessment of the current \$3.00 voluntary fee per quarter via the negative checkoff method? (Any student may waive the fee with a waiver card prior to the following quarter's assessment and/or seek a refund from CALPIRG.) YES NO

You are going to be voting on these issues April 19 and 20. It would take 2/3 of 20% of undergraduates voting affirmatively to increase the Communications Personnel and UCSA lock-in fees, as well as to establish a Child Care or Club Sports/Intramurals lock-in fee. It would take 2/3 of 20% of undergraduates voting against the Football lock-in fee to discontinue it. The following bills regarding the ballot measures were passed by A.S. Legislative Council and are reprinted here in their entirety. The statements of support were written by interested individuals or groups. Study them carefully and vote!!!

I. Reaffirmation of A.S. Constitutional Lock-In:
 Continue funding for FOOTBALL at \$1.50 per student per quarter

Pro Statement: Football
 Last Fall your UCSB Gaucho Football team had its best season since football's return to campus in 1983! The Gauchos had 8 wins and 2 losses and were ranked 8th in the nation for total defense in Division III. It is your support of Gaucho Football which has enabled the team to achieve this level of success in such a short time.
 On Saturday afternoons everyone has an exciting time celebrating at the tailgate parties and cheering on the Gauchos! The students have loyally rallied around UCSB Football every Fall and the team enjoys playing for you. The season finale is always a blast as Homecoming brings over 10,000 students, alumni and friends together on Storke Field and in Harder Stadium.
 Thanks to your support of Gaucho Football you, the students, have provided yourselves, the alumni, and the University with great Saturday afternoon fun and something to be proud of! With your combined support it will only get better! Vote yes to continue funding for UCSB Football!

— Gaucho Football Fans

II. A.S. Fee Increase Proposals
Communications Personnel Budget Increase
 Whereas: The Communications Personnel Budget faces an annual Deficit balance of \$19,500 as adjusted for fiscal year beginning July 1, 1988; and
 Therefore Let It Be Resolved: That the A.S. Legislative Council of 1987-88 direct the A.S. Elections Committee to place the following Ballot measure in the upcoming spring elections.

Pro Statement: Communications Personnel Budget Increase
 Passage of the Communications Personnel (Student Media) Ballot Measure will go far in aiding KCSB Radio, La Cumbre Yearbook, and the Student Directory and Map. KCSB's quality around-the-clock broadcasting would be insured through the additional funds keeping Chief Engineer paid full-time. This is critical in KCSB's goal of providing a wide diversity of alternative programming for the community, and for offering an excellent facility for students to gain broadcasting experience. Currently, over 200 UCSB students are involved with KCSB, which has thousands of listeners. Without the lock-in increase, KCSB's status as a leader in college radio is jeopardized. Furthermore, La Cumbre yearbook would face loss of technical advisory assistance and hence quality, and costs may increase due to potential failure to meet deadlines. Also, the Student Directory and Map may suffer loss of production, and thus loss of advertising revenue. Help yourself, help UCSB, and help Student Media for just an additional \$.49 per quarter. Vote YES on the Communications Personnel (Student Media) Ballot Measure on April 19 and 20.

— Submitted by Students for KCSB

USCA Fee Increase Proposal
 Whereas: The University of California Student Association (UCSA) is an association of student governments representing over 155,000 students on nine UC campuses; and
 Whereas: The history of UCSA has been extremely successful in Student Advocacy programs and protecting students' rights; and
 Whereas: UCSA is a permanent voice in the State Capitol, recognized as one of the most influential lobbying organizations in Sacramento and has won several significant budget and legislative battles on behalf of students; and
 Whereas: The last time the UCSA fee was increased was 1978; and
 Whereas: UCSA is only supported by campus contributions; and
 Whereas: With the fee increase the presence of UCSA on each campus will also increase (with the help of the Grapevine system) and consolidate efforts made by all nine UC Campuses.
 Therefore Let It Be Resolved: The UCSA fee increase will appear in the upcoming spring ballot.

Pro Statement: UCSA Fee Increase
 UCSA is the association of student governments representing over 150,000 students at the nine UC campuses. Governed by a Student Board of Directors, UCSA is the official voice of students before the Board of Regents, Office of the President, University Academic Senate, and State Legislature. With a statewide office in Sacramento just two blocks from the State Capitol, UCSA continues to rank among the most effective student lobbying organizations in the nation.
 Over the years, UCSA has effectively lobbied on critical student issues such as affordable housing, adequate financial aid, low student fees, privacy rights for resident hall students, affirmative action, and many others.
 For example, UCSA sponsored legislation which automatically increases student financial aid by several millions of dollars to offset any fee increases. In addition, UCSA sponsored legislation that protects students from unwarranted fee increases as well as puts a limit on any fee increases.
 Earlier this year, UCSA defeated a proposed subminimum wage for full-time student employees, saving UC students money every payday.
 Currently, UCSA's Advocacy Program focuses upon Equity in Education and features two UCSA-sponsored bills which aim at reducing racial and sexual discrimination at the University.
 UCSA is also exploring ways to improve student housing by examining the various problems voiced by students such as high costs and overcrowdedness.
 UCSA is funded through contributions from each campus. Presently, UCSB undergraduates contribute only \$.35 per quarter. Among the 18 student governments, this funding level ranks 16th and is well below the average. In fact, the current level has not been raised in over ten years.
 The proposed increase of \$.25 per quarter is a good investment. UCSA, through its fight for low fees, more financial aid and better student wages, saves students hundreds of dollars each year. Additional money will help fund student internships in Sacramento, statewide student conferences, and increased lobbying at the state Capitol. A "YES" vote for the UCSA funding will enable UCSA to continue its lobbying on behalf of UCSB students.

Carla Jimenez
 A.S. Vice President — External
 Curtis Robinson
 A.S. President

Initiate an A.S. Fee

Subject: University Children's Center Ballot Proposal

Associated Students undergraduates and Graduate Student Association (GSA) will vote on this issue.

Whereas: The lack of funding for quality childcare is a predominant problem in our society;

Whereas: Student parents are particularly affected by the lack of funds available for their childcare needs on this campus due to the lack of State Department of Education grants for childcare to low income student families;

Whereas: The Associated Students acknowledged the importance of providing quality childcare with the passage of Bill #020987-82 (University Child Care Center, February 1987)

Whereas: The University Administration is currently providing the building, utilities, administrative support, and some maintenance towards the operating costs of the University Children's Center;

Whereas: The University Children's Center currently serves 60% student families with a 54% minority enrollment for the total population;

Whereas: The University Children's Center is currently charging student families \$250 per child for full time care and is operating at a deficit;

Whereas: Students at the other 8 UC Campuses' contribute substantially more for the support of childcare both from Reg Fees and/or Ballot Measures in support of childcare;

Therefore Let It Be Resolved: That the 1987-88 A.S. Legislative Council endorses a ballot measure that would appear on the A.S. Spring 88 Election Ballots requesting \$1.00/student/quarter to be designated as an Associated Students Constitutional lock-in to provide for quality childcare at the University Children's Center. This measure if approved will support the continuation of affordable quality childcare on the UCSB Campus.

Pro Statement: Child Care

Associated Students and Graduate Students Association are sponsoring a referendum that would designate \$1.00 per quarter per student to subsidize student parent's child care fees. Every other U.C. campus has taken responsibility to provide quality care for the children of students. All other campuses support child care with student controlled money. Berkeley for example, provides over \$780,000 per year to support their child care services. Currently Santa Barbara receives \$32,000 for administration costs only. The program has been operating at a \$39,000 deficit.

The students on other campuses do not have to pay for child care. For those who do, the cost is minimal. In June, student parents will be paying \$325.00 to \$450.00 per month (as much as rent for most people) for full time care depending on the age of the child. **IF THIS MEASURE IS SUPPORTED BY STUDENTS, A.S. AND G.S.A. WILL SUBSIDIZE THESE CHILD CARE COSTS.** Students will pay a flat rate of \$250.00 per month. Students are NOT asking for FREE child care, only subsidized care.

Student parents do not get 'extra' free money from financial aid for child care. In fact, most are given work study, which of course means they need to pay for child care while working. Paying for infant care at \$450.00 a month would mean working for under minimum wage for most students, while trying to support a family.

Many students without children do not make the distinction between 'baby sitting' and child care. There is no such thing as 'low cost' child care. Meeting children's needs in a quality environment is costly. This is a social issue that everyone in this generation will face. This generation has already been asked to take responsibility for many world issues among them, hunger, environment, racism, and arms control. How can we face these larger issues if we can't take responsibility for our own children and future generations?

Subject: Club Sports/Intramurals Fee Ballot Proposal

Initiate a Club Sports/Intramurals Fee of \$5.00 per student per quarter as an A.S. Constitutional Lock-In to fund an expansion of these programs at a reduced fee for participants.

Pro Statement: Recreational Sports Fee Subsidy

Recreational Sports (intramurals, club sports, and open recreation) should be available to all UCSB students. But are they??? By right yes, but in reality only those students who can pay can play. The Recreational Sports Fee Subsidy Committee (composed entirely of students) is asking for \$5.00 per student per quarter to make recreational sports open to everyone. Here is what your \$5.00 will provide:

INTRAMURALS

1. Free intramurals. No entry fees for the more than 5,000 students who participate in intramurals each quarter. (Right now fees are from \$5 to \$75 per team per quarter.) If this measure fails to pass, it will be necessary to raise entry fees.

2. More student jobs — More jobs will be created and all students will be eligible to apply, not just those who qualify for work-study.

CLUB SPORTS

1. Transportation costs and entry fees would be paid for club sport teams.
2. Club sport teams would have increased opportunity to represent UCSB in national competition. (They have won four national championships in the last four years and have qualified for many more, but could not afford the travel.)
3. Club sports would become more affordable to students — right now many talented students are excluded due to the personal costs involved.

OPEN RECREATION — Possible improvements:

1. Expanded weight room
2. Lights on Rob Gym field
3. Lights on more tennis courts
4. More open recreation hours

WHO WILL ADMINISTER THESE MONIES

A student committee will determine how the funds are allocated. All students will have the opportunity for input.

Five dollars per student per quarter is not a great individual sacrifice for each student. (It's half a pizza or a movie.) However, the benefits to the quality of life on this campus are great. Recreational sports are fun, promote fitness, provide a healthy break from the books, are a great social activity, and bring recognition to UCSB. They also provide hundreds of student jobs. It's worth \$5.00 to get all this and to make recreational sports truly open to all students. **Vote YES for the Recreational Sports Fee Subsidy.**

III. A.S. Constitutional Amendment:

Subject: Term of Office Reorganization

Whereas: The present "term of office" structure for elected officials inhibits ASUCSB to produce the continuity needed for effective governance.

Whereas: The present "term of office" throws newly officials into office without giving them the experience, knowledge, and understanding to be effective student leaders.

Whereas: Continuity is needed within ASUCSB!!

Therefore Let It Be Resolved: That the Term of Office reorganization proposal be placed on the Spring Ballot for a vote of Constitutional Change within our ASUCSB Constitution.

Pro Statement: Term of Office Reorganization

Could you imagine what it would be like to be elected to an Associated Students office and then have no formal orientation and training period before you were sworn in. Well, presently one of the biggest problems within the structure of our student government is that we do not have a formal period where newly elected officials have time to learn the issues and understand the procedures before they begin making the decisions that affect all of us.

But now we have a chance to change the ill-fated problem of no Associated Students continuity and newly elected officials making decisions without knowing all the facts. The "Term of Office" reorganization measure on the upcoming ballot, once approved by the student body, would give newly elected officials one month period to learn the issues, formulate strategies, and seek the procedural knowledge needed to be true student representatives. Vote Yes on the "Term of Office" reorganization and solve one of the worst problems of AS, the problem of representatives who aren't given time to learn the facts before decisions are demanded by persuasive administrators.

— Curtis Robinson
A.S. President 87/88

Plebiscite: A vote by which the people of an entire country or district express an opinion for or against a proposal especially on a choice of government or ruler. (Webster's Ninth New Collegiate Dictionary)

Two plebiscites have been approved by A.S. Legislative Council to appear on the ballot:

Subject: Plebiscite, '88 Spring Election

Whereas: A.S. has only one chance a year to poll the student body by means of a regular election; and

Whereas: It is more than worth the \$200.00 to poll the students on important campus issues; and

Therefore Let It Be Resolved That: The attached plebiscite questions be put on the Spring 1988 election as an A.S. plebiscite.

- Do you feel the present Chancellor, Barbara S. Uehling, is doing a satisfactory job on student issues?
 Yes No Too early to tell Don't care
 Comments: _____

- Do you feel that the Associated Student Legislative Council does a satisfactory job on issues you consider important?
 Yes No Don't know Don't care
 Comments: _____

- Do you think the UC Regents should be elected by the California voters?
 Yes No Don't know Don't care
 Comments: _____

What are the most important issues for you at UCSB?
 (CHECK TOP THREE CHOICES)

<input type="checkbox"/> Bookstore prices	<input type="checkbox"/> CIA on campus
<input type="checkbox"/> Class size	<input type="checkbox"/> Cost of UC education
<input type="checkbox"/> Environmental protection	<input type="checkbox"/> Growth of L.V. and Goleta
<input type="checkbox"/> Gay rights	<input type="checkbox"/> Health center treatment
<input type="checkbox"/> Housing	<input type="checkbox"/> Lack of campus minority representation
<input type="checkbox"/> Military funded research	<input type="checkbox"/> Money distribution within athletics
<input type="checkbox"/> Quality of UCSB education	<input type="checkbox"/> Racial and ethnic studies requirement
<input type="checkbox"/> Study space	<input type="checkbox"/> Safety after dark on campus
<input type="checkbox"/> UC weapons lies	<input type="checkbox"/> Women's rights
<input type="checkbox"/> Other _____	

Subject: Spring 88 plebiscite #2 (UCen)

Whereas: The students paid for the UCen and should be in total control of it, and

Therefore Let It Be Resolved That: A Plebiscite be put on the Spring '88 ballot reading "Should the student majority UCen governance board control management, operations and personnel for the UCen — which includes the Bookstore and Food Services"

Yes
 No
 Comments: _____

Pro Statement: UCen Control Plebiscite

The students of UCSB once played a major role in the operation of the UCen, including the Bookstore and Food Services, on this campus. Over time the students lost this control to the Administration by an usurpation of power from the student majority UCen Governance Board. Because of an increase in Administrative control over our students' UCen certain administrative priorities have led to increases in Food prices to subsidize Faculty Club deficits, ridiculously high salary increases for high level UCen personnel employees, Associated students paying amounts up to \$80,000 a year for rent, high book and food prices, and the list goes on and on.

But now the students have a chance to take back some of the power within the UCen that is rightfully ours. Voting YES on the Plebiscite for UCen control would show our Chancellor that we are tired of the financial exploitation that we are always submitted to when we enter our UCen. Voting Yes would end the many problems that we are all aware by stating that we, the students, want back control of our UCen we once had. **Vote Yes on UCen control!!!**

I.V. CalPirg Reaffirmation

Independent Voluntary Fee Measure

Do you support the continuation of the University of California Public Interest Group (CalPIRG) for the period of Fall 1988 through Spring 1990 through the assessment of the current \$3.00 voluntary fee per quarter via the negative checkoff method? (Any student may waive the fee with a waiver card prior to the following quarter's assessment and/or seek a refund from CalPIRG)

- Yes
- No

Associated students undergraduates and Graduate Student Association (GSA) will vote on this issue.

Pro Statement: CalPIRG Referendum

When you go to the polls this spring, we are urging you to vote YES on the CalPIRG referendum. Consider these reasons why we support the measure:

1) Success:

CalPIRG's track record on issues has been noteworthy; in the areas of environmental protection, corporate accountability or social justice, students have been involved in a number of successful campaigns:

In 1986, CalPIRG and PIRGs across the country successfully lobbied to strengthen the Federal Superfund Act to clean up California's worst toxic waste sites. The Santa Barbara chapter brought the issue home by delivering hundreds of letters and postcards to US Senators Wilson and Cranston and several local congressmen to show support for mental reforms such as the Toxic Use Reduction Act, which is aimed at reducing the use of hazardous chemicals in California. On the local level, CalPIRG has been instrumental in registering thousands of students to vote, and heading a coalition to stop Arco's off-shore oil project, Platform Heron. Few groups can show such effectiveness on national, state and local levels.

2) Student Run and Funded:

CalPIRG is the state's largest environmental and consumer organization, and it is student run and funded. It is the student Board of Directors that makes the decisions on the issues that CalPIRG works on and the budget that CalPIRG maintains. Students from Santa Barbara pool their resources with campus chapters at UCLA, UC Berkeley, UC Santa Cruz and Occidental College to hire a set of professional staff that represent the organization before the state legislature and Congress.

3) Educational Program:

CalPIRG fills a unique niche on campus by providing an important educational opportunity not often found on college campuses today. Students receive course credit to conduct research and advocacy on critical issues with which they are concerned. Beyond that, students learn valuable leadership skills that enable them to take on and win on critical issues.

4) Fair Funding:

The waivable CalPIRG fee has provided the organization with the resources necessary to conduct the state-wide and campus program for the past five years. The waivable fee is a perfect compromise between the democratic majority decision to fund the program and the minority who do not support it being able to opt out.

SO WHEN YOU CAST YOUR BALLOT, KEEP THESE FOUR REASONS IN MIND AND VOTE YES FOR CALPIRG.

"User-Friendly" Election

Participate in the Computerization of This Year's Associated Students Election:

After a great deal of planning, you will have the opportunity to vote by computer this A.S. Election. The computer-voting system, an alternative to the existing archaic and expensive paper balloting system, will be introduced this Spring Election at two polling places: 1) in front of the UCen and 2) in front of the Library. MacIntosh, the computer chosen for election use, has a simple to use format that will require no training; however, students with computer savvy will be standing

by to help anyone requesting assistance. If the system works as well as expected, this will be the last time you will see paper ballots at UCSB. In addition to the fact that the computerized balloting procedure is cheaper and faster than using paper ballots, it will also make a more democratic system feasible in the future because the student voice could be measured quickly and inexpensively, thereby making it possible to include every student in the decision-making process. The capabilities are unlimited.

Support the computerized balloting system this April 19th and 20th.

Professor of the Year Award

Nominate your favorite Professor to be recognized as UCSB's Professor of the Year! Vote at the election booths April 19 and 20

Sponsored by Mortar Board
