OBSCENITY LAW PROPOSED

The ownership and distribution of obscene material is prohibited in an ordinance to be approved by the Santa Barbara City Council on Wednesday, Nov. 9.

The ordinance was introduced on Oct. 27 by members of the mayor’s Decency Standards Committee as a replacement for a May, 1955 ordinance which had been declared unconstitutional.

The earlier ordinance reads as follows: “It shall be unlawful to sell, display, offer for sale, give or furnish to any person or persons, under the age of 18 years, any lewd, lascivious, indecent or pornographic book, magazine, paper, written or printed and any publication whatever which tends to deprave and corrupt the morals of such person or persons under 18 years.”

According to Mr. Kins Kemp, member of the Decency Standards Committee, the present ordinance has been ineffective, since it does not get conformance because there’s money involved: “We’ve got to find a way to make them conform.”

Proposed Change

In order to correct this “basing of the privilege of rights” Mr. Kemp submitted the following proposed change, drawn up by Assistant City Attorney, Arne Barbauskas.

Section 1: Whoever shall knowingly publish, disseminate, offer for sale, give or furnish to any person or persons, under the age of 18 years, any lewd, lascivious, indecent or pornographic book, magazine, paper, written or printed and any publication whatever which tends to deprave and corrupt the morals of such person or persons under 18 years, shall be punished by a fine not exceeding $500 or by a term of imprisonment not exceeding 6 months, or both.

Supporters

While the mayor’s committee or an unit has not, yet approved or officially discussed the proposed ordinance, the proposed definition of obscenity is more than enough to support and commend the far-reaching goals of the obscenity ordinance, Mr. Barbauskas pointed out.

Mr. Barto, who is acting as legal advisor to the mayor’s committee, explained that the definition of obscenity is “one of the basic problems of the Supreme Court.”

Supreme Court

The foundation for such decisions will be the Supreme Court’s recent decision in the Ullman vs. Virginia case, which revives the attempt to suppress non-pornographic literature by the Ullman precedent. Whether the attempts to define obscenity and prohibit obscenity are the same can be questioned, and the question of whether the definition of obscenity is “one of the basic problems of the Supreme Court.”

So the problem is up to the judgment of the judges over there, and the decision, as Mr. Kemp supports the stricter definition of obscenity, that obscene material has always been too lenient in their enforcement. “One cannot push in until one person may not be another’s.”

Roy Barron, another committee member and friend of Mr. Kemp, explained that the definition of obscenity is “one of the basic problems of the Supreme Court.”

Mayors Support

Mayor Edward A. Brock supported the city’s Santa Barbara News-Press, feels that “it’s a good Ordinance.” The city is taking this step, he said, because it will do “just what needs to be done and will stimulate a national effort against obscenity.”

It is expected that this ordinance, with the mayor’s blessing, will be adopted at the city council meeting. Mr. Kemp feels that “there’s no question about it.”

This has been, and will be, “one of those questions that will have the effect of deciding the future of the largest business in the world.”

NIXON VICTORY

As of 3 P.M. Thursday afternoon, by unauthenticated official trials of the 1960 election by the new Los Angeles County polls, Mr. Nixon was ahead by 482,088 votes.

Nixon was not only victorious in California, but he has also won a special majority of the nation’s popular vote.

OBScenity Law Proposed . . .

In separate (from Page One) proposed extension of the present law, which applies to persons under 18, attempts to regulate the reading and viewing matter of the public, and the creation of a community law enforcement board to decide what is obscene. We believe that both are necessary to bring about a higher moral level in our communities. We are in favor of a law that will protect the youth of our community from the harmful influence of indecent literature and motion pictures. We believe that the proposed law is fair and just, and should be adopted without delay.

The proposed ordinance, which will be considered by the City Council at its next meeting, includes the following provisions:

1. No person under the age of 18 shall be permitted to purchase or possess any material which is obscene.
2. No person under the age of 18 shall be permitted to purchase or possess any material which is harmful to the moral welfare of the community.
3. No person under the age of 18 shall be permitted to purchase or possess any material which is designed to appeal to the prurient interest.

We urge all citizens of the community to support the proposed ordinance and to work for its adoption. We believe that the proposed law is a necessary step in the continuing effort to improve the moral and social climate of our community.

The proposed ordinance is based on the principles of community standards, and we believe that it will be effective in protecting the youth of our community from the harmful influence of indecent literature and motion pictures.

SIDELINE COMMENT

by Warren Wulster

I am a native San Francisco man, and therefore, it is no wonder that I have a deep interest in the
city. So when the media began trumpeting the
arrival of the new San Francisco 49ers, I was
not at all surprised. The team had been
longed for by the fans, and it was only a matter
time before the city was inundated with fans
and media alike.

The 49ers, in their first season, have
already surpassed all expectations. They have
won several games, and their record is now
impressive. The team is composed of
talented players, and they are all working hard
to bring home a championship.

The city of San Francisco is buzzing with
the excitement of having a new professional
football team. Fans are flocking to the games,
and the city is abuzz with the spirit of sports
enthusiasm.

The Recreation Control Board (RCB) is
holding an intramural tournament this week
in Robertson. The tournament will feature
various sports, including football, basketball,
and volleyball.

The tournament is open to all students
at UCSB, and the RCB is encouraging
everyone to participate. The games will
be held in Robertson, and the schedule can
be found on the RCB website.

Intramural programs like this are
important because they allow students to
compete against each other in a friendly
environment. They also provide an
opportunity for students to stay active
and healthy.

The RCB is also hosting a folk dance
series this fall. The series will feature
different styles of folk dance, and
participants can join in without prior
experience.

Folk dance is a traditional form of
dance that has been passed down
through generations. It is an
important part of many cultures
and is enjoyed by people of all
ages. The RCB is proud to offer
this opportunity to the students at
UCSB.

The folk dance series will be held on
various dates throughout the fall
semester. Check the RCB website
for more information.

In summary, the new San Francisco
49ers have brought a lot of excitement
to the city of San Francisco. The
Recreation Control Board is
hosting an intramural tournament
this week, and a folk dance series
will be held throughout the fall
semester. Both events are open to
all students at UCSB, and they are
encouraged to participate.
