## University Day Needs Guides as Over 2000 Expected Tomorrow

University Day and events related to it top the schedule of happenings this weekend. More than 2,000 prospective students, parents, and counselors are expected to arrive for the annual event, which is designed to give visitors a view of campus life.

Four hundred guides are still desperately need-

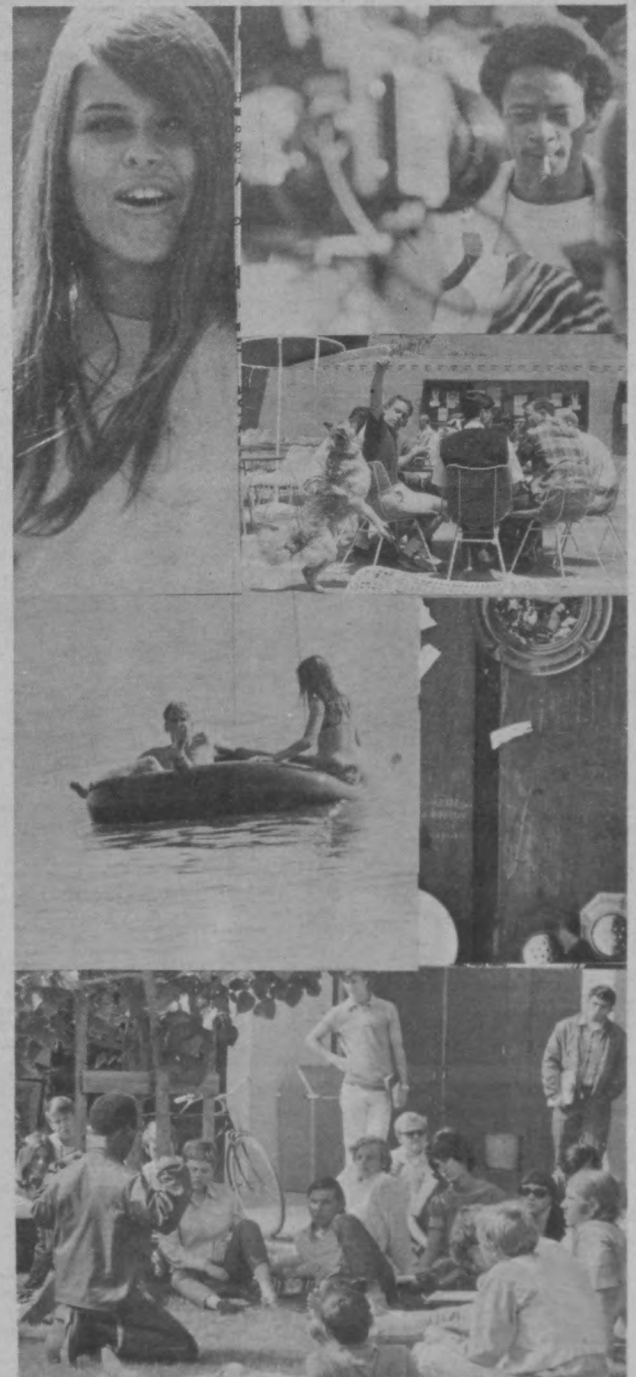

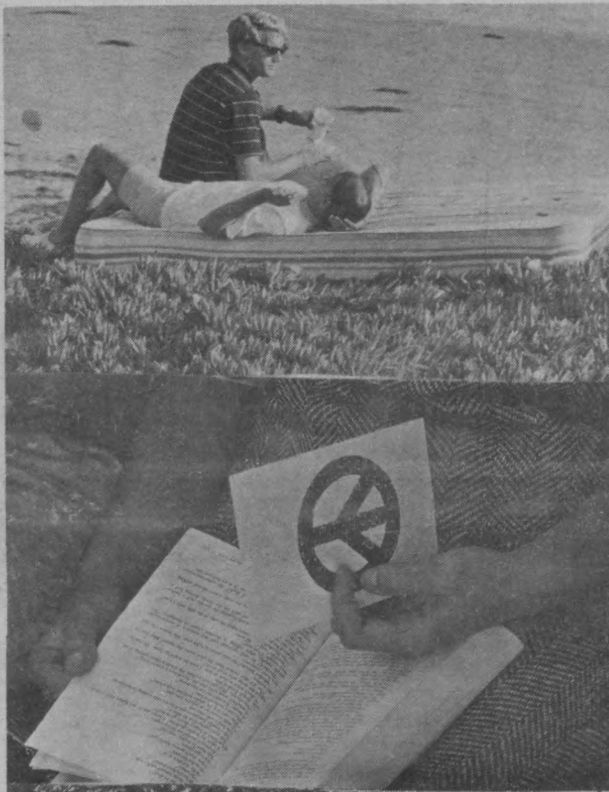

ed for the day. Those who were unable to attend the orientation meeting yesterday should see Linda Korber at the guide table in Storke Plaza. The guides are needed for both the 9 a.m. to 11:30 a.m. shift and the 12 noon to 2:30 p.m. shift.

Beginning at 9 a.m. in the Plaza, the visitors will be entertained by faculty, staff, administration and student representatives.

At tables lining the plaza, counselors will provide information on such matters as housing, scholarships, admission requirements, extracurricular activities, student placement and opportunities for study at UC centers in other countries.

The Four Tops, a soul group, will do their thing with the thirteen-piece West Coast Motown Orchestra tomorrow night at 8 p.m. in Robertson Gym. Carey Williams, Associated Students Concert Chairman, said yesterday that there are still some advance tickets left, "but they are going fast." The advance tickets go for \$3 to students, while the general public and door sales are \$4 per person. The doors to Robertson Gym will open at 7:30 p.m. for this pillow concert.

To find out what else is happening this weekend and next week, check CALENDAR (pages 7-10 of today's EL GAUCHO).

## Regents To Discuss Student Discipline

SANTA CRUZ -- The Committee on Educational Policy yesterday put the question of academic credit for course 139X on the agenda for the open session today as approximately 500 Santa Cruz students demonstrated outside.

Regent Max Rafferty also declared he wants "a showdown on student discipline" and indicated he would bring the matter up today.

Course 139X, better known as "Dehumanization and Regeneration in the American Social Order," was denied credit by Berkeley Chancellor Roger Heyns, after the Regents declared that only one lecture per course would be allowed a non-academically qualified instructor. Eldridge Cleaver, the lecturer in question, has said that he will deliver 10 lectures as originally planned.

U.C. President Charles Hitch stated he had some amendments to the Regent's resolution to propose, but that he would wait until next month, after he had con-

## Leg Council Sends Regents Resolutions on North Hall

By PEGGY BURNSIDE  
EG Staff Writer

During a calm, well-ordered session Wednesday evening, Leg Council adopted a four-point resolution to be presented at the Regents' meeting yesterday, concerning the take-over of North Hall by black students on Monday.

The controversial article which condemned "the actions of white agitators" during the North Hall siege, was not included in this resolution.

Leg Council, though not retracting an earlier statement concerning the role of whites in Monday's incident, was not willing to push the matter any further. It was the general feeling of Council that its attitude should be one of looking forward.

The resolution presented to the Regents said, in effect, that "we sympathize with grievances posed by the black students at UCSB. We firmly believe that

the actions of Monday can have positive benefits for the entire University community."

Leg Council included the articles from Wednesday's statement which praised Dr. Goodspeed and Dean Reynolds, supported the A.S. Judicial Board and Chancellor's decision of suspended suspension, and recognized the importance of the "understanding reached between the blacks and the Chancellor."

Leg Council also passed a resolution aimed at opening up new lines of communication which they felt had been throttled by the Faculty Club. The resolution, jointly offered by Jim Gregory and Mike Nagler, urged "the opening of the Faculty Club during the daytime hours for students, faculty, and administration alike."

The resolution also urged that faculty members "alter their appearance in so far as not to wear suits and ties."

# UCSB Chamber Singers Tour Nine Nations

A message set to music is an international language.

This is the estimate of UCSB's 16 Chamber Singers and their conductor, Miss Dorothy Westra, after their tour of nine Far Eastern nations last spring, under the auspices of the Cultural Presentations division of the State Department.

The Chamber Singers, whose repertoire embraces rarely heard works of all periods and styles, visited New Zealand,

Australia, Indonesia, Singapore, Thailand, Hong Kong, Taiwan, and Japan on the tour, singing mostly to university audiences and government officials.

Though the ensemble tried to include folk songs of the nations they were visiting in their programs, most of their repertoire was in English, with some in French and German. But their singing transcended any language barriers.

After many concerts, student audiences surged around the visitors, laughing, shouting and singing in their eagerness to meet the Americans.

Following a concert in Indonesia, Miss Westra reports, "Our music was a means to begin the process which was

completed on a person-to-person basis--the best and only way to achieve some understanding of each other," she said.

The visitors also exchanged music with their hosts, and plan to present a program of music from the tour nations in a con-

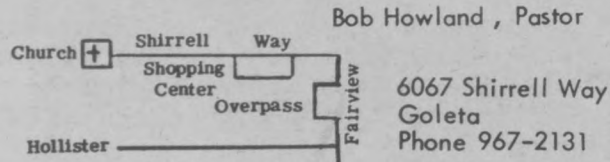

cert during the coming year.

Anyone, especially tenors, interested in joining the Chamber Singers is invited to attend rehearsals Monday, Wednesday, or Friday from 2-2:50 p.m. in Music 2230, or check with Miss Westra in the Music Bldg.

SENIOR ECON MAJOR  
AT UCSB SAYS:

For my Econ 107 class I was given a reading assignment on income inequality and poverty. Most of the reading consisted of articles from the AMERICAN ECONOMICS REVIEW. Normally the assignment of approximately 100 pages would have taken at least 10 hours. After the first lesson at Reading Systems, I completed the assignment in one hour. I saved nine hours and understand and know everything I read.

## New I.V. Coffee House Project Sponsored by Inter Faith Forum

Inter Faith Forum, sponsored by the University Religious Conference, is currently providing Isla Vista with a free,

non-commercial coffee house. The group has named the endeavor "The Living Room," and the emphasis is on com-

munity spirit. Every Saturday night between 9 p.m. and 1 a.m. the URC building on 6518 El Greco will be open to students, faculty and their friends.

The intention of the organizers is to keep the project free and open to new ideas, and they encourage you to come and do your thing--read a poem, play a tuba solo, sing, discuss things or just meet people. Last Saturday's opening was a success, and the entertainment was exceptional with UCSB students leading the way. If you drop in, you'll want to stay, so bring a friend.

By request, Pastor Otto will repeat his sermon on:

# Welcome to the World

**ISSUE:** The University in an age of questioning: who shall the students be, and who shall they become?

"It was the best of times, and the worst of times. . . ." These words begin Charles Dickens' great novel, "A Tale of Two Cities."

These times, too, are the best and the worst. In the midst of technological advances that could make real the dream of a leisure world without hunger, poverty, or war, there is dissension, famine, and polarization.

Each aspect finds its roots in the University. It is the research carried on in institutions of higher learning that makes possible the technological advances we have learned to expect. It is also the University which has taught us how to look at ourselves as a society, and in so doing led to much of the recrimination in society.

Both of these aspects are needed. Just as the scientists must probe the mysteries of matter to bring forth the conquest of the elements, so must the philosophers, the theologians, and the social scientists delve into the complexity of human behavior and the quality of societal life.

The University must also question itself. It must begin to ask itself what are the best methods of educating and serving. It must do this, not for academic discussions as to what is the "ideal" way of proceeding, but in order to make a

University which fits the needs of modern society and a University which can be the advance guard for society.

With this in mind, we offer two parcels of advice. First, to students: Do not come here expecting four years of fun and frolic at the playful campus-by-the-sea. These next years will be the most important of your life, for it is at this time that you move from the position of the child of someone to a human being in your own right. The decisions you will make--whom you will marry, what you will do with your life, what you believe about life itself--should be approached with the utmost intensity and commitment. There are many life styles at UCSB, and you must pick from among them (or one of your own) what you believe to be valid.

And to parents: These next four years are going to be hard ones for you as well. It is an interesting and, at times, excruciating fact that from birth onward, everything has pointed toward this moment, when your son or daughter makes his break from you and starts off on his own. From among the potpourri of University life, you may think he has chosen wrong, yet it will be to your credit if you realize that everyone is looking for a better and richer life, and your son or daughter is no different than the rest.

More than any other one factor, the University is the students, and it is the students who hold the key to the University as it shall be in the future.

LETTERS

## Ominous Precedent

The illegal seizure of UCSB's North Hall by the radical minority of a minority group is an ominous precedent for the future progress of our University, and ultimately, of our entire society as well. If the policy of taking the law into our own hands and thereby irresponsibly denying the civil rights of 12,000 students is now accepted by us as a means of gaining our objectives, no matter how just, we have truly reached the beginning of the end. The first step towards a nihilism which will inevitably lead to either a dictatorship of the Right or Left has now been taken. Unless you're concerned, let the mad tragedy now unfold.

## Crime of Ignorance

Are the students and faculty at UCSB racists? No, in the opinion of myself, a black student at UCSB for the past three weeks, the students and faculty at this university are not racists. How can they be? To be a racist one must have a knowledge of those they hate; how they act, how they think, what they eat.

A large majority of the people here, students and faculty, never had any contact with black people before they came here, or "They bussed 30 into my school from the ghetto and I got to know one pretty well." "There were a few in my school but they stayed to themselves." "I watched you guys on television during the riots."

The crime of such people is not one of being a racist, of throwing rocks at blacks or burning crosses, no, their crime is one of ignorance. They are ignorant of the fact that there exist people in this world who are substantially different from anyone in their all-white bag. Ignorant of the fact that there is a communication and understanding gap between black and white, and ignorant of the fact that black people will play a more important part in the futures of both black and white people.

The very ignorance of which I speak is exemplified in statements such as "We never had any trouble before they (the blacks) came." Articles such as "Damaging Charge" are another example. The most graphic example is found in the action of one student who sought singlehandedly to deliver Malcom Hall back into the hands of the just and the honest.

But, dear students, faculty and administration, ignorance is not an excuse for anything. A university is a place in which to be made aware. Many people forget that. But the insight you get here into anyone but pure white Anglo-Saxons, Catholics, or Jews is minimal.

Also quite minimal here is a willingness of the aforementioned student body, faculty, and administration to be made aware. But, as the Chambers Brothers say "there are things to realize," and, dear friends, I think it is in your best interest to find out what these things are and stop being ignorant.

## BSU B.S.

Did the BSU B.S. you? Here is UCSB, with a quiet student body of 13,000, not including dogs and policemen (too often equated), overlooking the blue Pacific and most major issues. About one per cent of the student body are blacks and of these, ten per cent take over a building, choosing one that symbolizes all that is evil, the Computer Center, (do not fold, bend, staple, or mutilate--break a couple of windows, yes) and which is also worth \$30 million or so. Then a rock band volunteered their services, (and you thought we were apathetic?), records instead were played, Argo was both sold and/or given away, news sheets and explanations were distributed, and only programs and hotdogs were lacking to detract further from the issues.

Yes, something is wrong but it's not only the system. Too often it seemed as only some ego-trip, everyone climbing on, wanting their own concern to be the real issue: "More Student Power, Some Student Power, End ROTC, Viva La Raza, Boycott Grapes, Buy U.S. Savings Bonds and Save Blue Chip Stamps." Granted some of these are of legitimate concern but they were not the issue, and the black brothers had to remind Mr. Gregory and others that they were missing this point. But for that matter, were the original demands of the BSU, the ones supposedly for which they had taken over the building in the first place, the real reasons, or were they too on this trip?

Was the BSU just looking for attention from the news media for themselves and not for their problems? Or did they feel that by getting the attention first, that later other blacks could articulate the inequities, but for the time being use similar demands and charges that black athletes had used at UCLA, Berkeley, and even Iowa, feeling that since "institu-

tional racism" is everywhere, that what applies to one institution probably applies to all?

Granted there may be grievances against the Athletic department here, although that hasn't been adequately shown; yet even if it had, firing of Coaches Curtice and Barkey doesn't solve the problem of racism, nor for that matter will the points agreed upon by the BSU and the Administration, although this agreement is at least an attempt.

Obviously not all of the people who attended the rally Monday were sympathetic toward the BSU; many were hostile, many had come to be entertained, many couldn't believe it all, and many were concerned. And maybe at times Monday, black, white, and Chicano were one.

It is unfortunate that the BSU had to use their athletic grievances as their rationale, that they felt that they had to resort to illegal means to achieve their demands, and that they felt that justice could be extorted. Amnesty is not the same as justice.

Let us hope that other doors will not be closed in the future, and that blacks and whites, students and administrators can bring about the necessary changes by working together honestly, to learn from and respect each other, to be useful to, rather than used by, one another.

## LETTERS POLICY

EL GAUCHO welcomes letters expressing all points of view on any subject. They must be typed and will have a better chance of being printed if reasonably brief. Letters must be signed, but names will be withheld on request. The editors reserve the right to edit all letters for space purposes. Turn them in to the EG office, 3rd floor UCen.

# Issue of Student Power

By GREG BARR

The issue lies not with the presence of a purely military training establishment on campus, but in the fact that even if the entire student body were united behind a move for its elimination, the final decision lies in the hands of the mysterious personnel on the fifth floor of the Administration Building.

The first question put to the students in a leaflet distributed on Tuesday, October 8, 1968 is "Are you concerned by the lack of student power in determining academic policy?" This is the most pertinent issue and the one which contains all of the more specific issues which have aroused the active parts of the student body.

There is no more use, or even purpose, in another call to end apathy on the Santa Barbara campus. The time for action has been long overdue and delayed by the spectre of this same apathy. The power of the students in determining academic policy should be determined only by the willingness of the students to do so.

First of all, the students must be able to accept the responsibility of establishing their own government. They should realize that any government that alienates certain traditions of "the world outside" will naturally raise hostility, be labeled radical, and consequently incite the wrath of our Big Brother in Sacramento, Ronald Reagan.

If we are to escape the hopelessness of an extreme, conservative government, to inject new blood into a system lost in its traditions (traditions which can be beneficial when used as a background, but which become extremely detrimental when adhered to word for word), then student power becomes a necessity.

The point is not to overthrow the administration but to challenge it, to raise the issues and confront the present policy-makers with their errors. The administration has the duty of responsibility towards its students and not towards the governing agencies which seem to want to control it completely. The students are the only ones who can catalyze the breaking of this yoke; it is their obligation to do so.

The students have little or no

say in their own affairs since "Governor" Cheadle has complete vetoing power over any decision made by the Associated Students Legislative Council, or any other group of students or faculty which in theory represents the will of the entire student body.

To make things a little clearer for those who have but vague political notions, the above situation can be made analogous to one in which President Johnson would have the final word on all decisions reached by Congress or the Supreme Court. In other words, the form of democracy practiced and taught on the Santa Barbara campus is actually dictatorship.

A few soothing words to those delicate souls who recoil at vicious words such as "dicta-

torship" and "tyranny". It is necessary to be familiar enough with certain terms of political science to realize that there are dictators and dictators. The dictatorship which is considered to exist here is certainly presented in a mild form, but it must be recognized as such, and in this light, criticized as such.

There is a special need for as real and pure a democracy as is possible on this campus, for the simple reason that this is where democracy is taught to the politicians of the new generation, the politicians of the future.

The corruption of democracy on campus leads directly to the corruption and eventual disintegration of democracy throughout the nation.

# CALENDAR

## University Day on Tap; School to Host Parents

More than 2,000 prospective UCSB students, their parents and counselors are expected to visit UCSB & Isla Vista tomorrow for traditional University Day festivities.

Beginning at 9 a.m. with registration and refreshments in Storke Plaza, the day's program will feature a variety of events designed to give visitors a view of campus life.

The plaza will be lined with information tables representing academic and administrative offices. They will be staffed by faculty members and other personnel to provide counseling and data on such matters as housing, scholarships, admission requirements, extracurricular activities, student placement and opportunities for study at UC centers abroad.

Tours of the campus, the residence halls, classrooms and office buildings, laboratories and other points of interest will be conducted by student members of Spurs, Honeybears, ROTC, Chimes, and other organizations. A number of departments will offer special displays for the visitors.

Included in these is a library exhibit commemorating the 25th anniversary of the campus affiliation with the University of California. The display case on the first floor of the building's north wing features copies of the first yearbook and catalog, as well as a selection of representative gifts from donors through the years.

An afternoon program in Campbell Hall will feature greetings from Dr. Russell Buchanan, UCSB Vice Chancellor for academic affairs; Associated Students President Paul Sweet, and Mayor MacGillivray. A musical program also will be presented.

About 1800 packets of information about University Day and the Santa Barbara campus were sent to public and private high schools, junior colleges and CSF chapters throughout the state.

UCSB's office of relations with schools sponsors the annual open house.

## Motown Hits S.B. Saturday: Four Tops to Shake it Up

The Four Tops, smash recording stars for Motown Records, will perform tomorrow night in Robertson Gym at 8 p.m. Accompanying the popular singing group will be the 13 piece West Coast Motown Orchestra and The Incredibles. The personable group is in its 13th year of entertaining, having earned their stardom the hard way. Levi Stubbs, Jr., Renaldo Benson, Lawrence Payton, and Abdul Fakir are the four who have gone from rags to riches.

They teamed up as kids, roaming Detroit's streets together, playing basketball or stickball. For the first seven years of their work as professional singers they worked a lot, and recorded a little as not much attention was paid them. That is, until the people of Motown Records heard their recording of "Pennies From Heaven."

Once on that Detroit label, they discovered a national audience. First it was "Baby, I Need Your Loving," which was followed by a succession of hits such as "It's the Same Old Song," "Reach Out, I'll Be There" and "Standing in the Shadows of Love."

Other artists recording on Motown are such I.V. favorites as Smoky Robinson and the Miracles, Sam and Dave, the Supremes, and Stevie Wonder.

Tickets are still available at the UCen Information Booth, three dollars in advance and four dollars at the door.

## Homecoming Promises To See Several Changes This Year

Homecoming will be different this year. The innovations in honor of UCSB's 25th anniversary will limit the festivities to the campus and Isla Vista.

The first big change will be the holding of the traditional parade in Isla Vista instead of in Santa Barbara. Participants in the JIVE parade will include the Gaucho Marching Band, the cheerleaders and the Deans -- riding bicycles. It will wind up with a Pre-game show.

This year will see House Decs (decorations) in place of floats and instead of entering floats in a parade down State St., living groups can enter the House Dec competition. Awards in the three categories, 1-50, 51-250 or 251 people and over, will be given during the Pre-

game show through their living groups.

Students can also compete in the Galloping Gaucho Revue through their living groups. The deadline for entering skits in the GGR is Oct. 17 and 18. Awards in the two categories, Affiliated and Non-Affiliated, will be given on the last night of GGR. These categories are new as is the idea of having a cast to entertain between acts.

To top off an exciting Homecoming week the A.S. Concerts Committee will present Glenn Yarbrough in Robertson Gym. After the concert there will be a dance and buffet in the UCen Program Lounge put on by the A.S. Social Committee.

Questions about Homecoming can be answered by an information booklet, available at the A.S. office.

## Drama Workshop

The Playwrights' Workshop met for the first time Sunday, October 6, in the Rehearsal Room of the Speech and Dramatic Art Building, for the purposes of initiating this year's program.

The Workshop meets once a week (usually on Sundays) to allow student-writers the opportunity to have their works read by actors, then considered and discussed by the group as a whole. The writers are encouraged to rework problems in their scripts, then return with revised work for further experimentation.

Last year the Workshop either spawned or produced several promising short plays (some produced locally); one full-length work, "Last of the Order," evolved from improvisations and readings conducted in the Workshop. The play was produced in the UCSB Studio Theatre and counted a remarkable success by local audiences and critics.

# if you think Collins

# Radio Company makes radios...

you're right. But not home radios for music, news, weather and sports. Collins does...

- Supply communication/navigation equipment for more than 75% of the world's commercial airliners.
- Provide voice communication systems for all U. S. space flights.
- Rank as the largest independent producer of microwave systems.
- Design and manufacture computer systems for airlines, railroads and many other military and industrial organizations around the world.
- Serve as prime contractor on NASA's worldwide Apollo tracking network.
- Design and install complete earth stations for satellite communications.
- Rank as one of the world's leading manufacturers of commercial broadcast equipment.

What does this mean to you? It means that college graduates are finding assignments that challenge their ingenuity in activities ranging from microminiaturization to airborne computers.

At each of Collins' four major facilities, opportunities exist in electrical, mechanical, and industrial engineering, and in computer science.

**CAREER OPPORTUNITIES:** • Product Design and Development • Field Support Engineering • Electronics Research • Data Operations • Programming and Systems Analysis • Purchasing • Accounting • Systems Design Engineering • Manufacturing • Technical Writing • Process Engineering • Integrated Circuitry Design • Microelectronic Thin Film Design • Reliability Engineering • Quality Engineering

**MARKETS AND PRODUCT AREAS:** • Aviation Systems • Broadcast • Specialized Military Systems • Telecommunication • Microwave • Space Communication • Computer Systems • Amateur Radio

Collins representatives will visit more than 100 campuses this year. Contact your College Placement Bureau for details. # 'Politics '68' Series

## Peace Corps Examination

Although most students become tired of the constant grind of exams, there is one exam coming up that you can not possibly fail. It is the Peace Corps Placement Test to be held this Saturday at 1:30 p.m.

This will be the first time this year that the test will be offered. The site of the exam is the Main Post Office in Santa Barbara, located on the corner of Anacapa and Canon Perdido Streets. All that is needed is an application blank which can be obtained at all post offices.

Francisco Torres is presenting a speaker's series on the 1968 presidential candidates. Individual speakers in support of any of the three candidates may air their views in the dining commons of the Towers, 6850 El Colegio Rd. Students, faculty, and residents of the area are invited.

Tuesday, Oct. 22 -- 8 p.m. Hubert Humphrey night.

Thursday, Oct. 24 -- 8 p.m. George Wallace night.

Tuesday, Oct. 29 -- 8 p.m. Richard Nixon night.

Professor Roger Davidson of the Political Science Department gave the first talk of the series last Tuesday. He spoke on the general context of the electoral situation as it applies to the various candidates.

# Fifty Join 'Free Campus,' Dedicated to 'Due Process'

By BECCA WILSON  
EG Staff Writer

An attempt to organize UCSB's "majority manifesto" attracted about 100 students yesterday, as Bruce Harger, self-appointed president of Free Campus, opened the group's first meeting.

Beginning tensely because of the presence of about 15 unfriendly students, the meeting centered mainly around discussion of the group's purposes and policies.

Those who finally committed themselves to Free Campus, numbering about half of the original group, seemed to agree that the organization's purpose was to express the "majority opinion of students." This majority opinion was conceived as dedication to "due process" and the "democratic process" for achieving change.

## CAN'T TRAMPLE

In Harger's words, "we don't think that change in a democracy can be made by trampling on the rights of others."

Students present apparently felt that BSU's occupation of North Hall was an infringement on their rights. One student said he felt "a sense of injustice" when he found he could not attend his classes in North Hall Monday.

Despite obvious dissatisfaction with BSU's action, and those of past anti-ROTC demonstrations, the group claims to be "apolitical, and non-partisan." Harger feels that as such, Free Campus "includes everyone except extremists, and revolutionaries," which he defines as "anyone who goes out of his way to disrupt and break rules."

## LAW AND ORDER

Other aims expressed included "preserving order on campus," acting as a pressure group "at least equivalent to BSU's power," trying to alter the "preeminence of radical" actions by showing the mass media that the majority of students believe in "law and order," and being an "anticipatory" organization which foresees disturbances and tries to prevent or decrease their effect.

"The majority is what composes this group," Gary Langstaff, Vice President, declared, and Free Campus will "express majority opinion."

## Council...

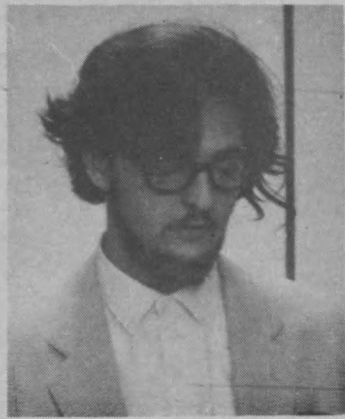

(Continued from p. 1) sulted with all Divisions of the University Academic Senate.

Earlier, the Student Body President at UCSC had presented the Regents with two resolutions and demanded "immediate action."

The first stated that it would become University policy to support the United Farm Workers Organizing Committee (UFWOC), including the boycott of California table grapes. It also called for complete amnesty for the 11 students arrested Monday in a sit-in of Sproul Hall on the Berkeley campus. The second resolution asked that the seventh college at UCSC be named "Malcolm X College." The Regents did not take up either resolution.

The demonstrators used "guerilla tactics" in the small courtyard outside the dining commons where the Regents met. At times the noise became so great that it was impossible to hear inside the room.

At one point about 200 of the demonstrators surged into the building where the Regents met. No violence was reported.

NEW OFFICERS of Free Campus are Bruce Harger, President (left) and Gary Langstaff, Vice President.

## Regents' Meeting...

(Continued from p. 1)

Nagler, who attended the National Students' Association Conference last weekend at the Davis Campus, reported his findings to Council. The NSA's major areas of concern are educational reform and educational politics. It has recently been given a \$350,000 grant from the Ford Foundation for aiding in the development of experimental colleges around the nation.

NSA's left wing political philosophy which caused previous skepticism on the part of some Council members, was not an issue at the Conference. Leg Council will invite an NSA Representative to Santa Barbara within the next week or two to

inquire further into the possibility of membership.

With disappointment, Paul Sweet, A.S. President, read a letter of resignation from Leslie Wheatley, Sorority Representative on Council. With the opening of this position, interested Greek women are urged to sign-up at the A.S. office in the UCen before next Wednesday.

During the latter part of Wednesday's Council meeting, Jim Gregory asked that "North Hall be named Malcolm X Hall." Though only the Regents can take formal action on such matters, in spirit the student body may choose to refer to the building by this name, and may in the future, present a recommendation to the Regents.

# Black Panther Cleaver Speaks Here Monday

Eldridge Cleaver is scheduled to arrive on campus next Monday morning, October 21, and remain all day, touring the campus, meeting students and professors, and addressing the general public.

Cleaver's lecture, sponsored by the Biafran Rescue Organization To Hasten Emergency Relief (BROTHER), will be delivered at 3 p.m. at Campus Field.

There has been little comment from this campus concerning the lecture, but the administration has received numerous calls from the general public asking that the lecture be stopped. Nevertheless, it has been reported that over a thousand tickets have been sold.

BROTHER has explained to EL GAUCHO that all proceeds from the lecture above Cleaver's expenses, will go to assist the children of Biafra, the revolutionary region of Nigeria. Almost six million people there have already died of starvation and much help is needed.

Tickets may be purchased in the UCen. Information booth for 50 cents. BROTHER advises those students expecting to attend to purchase their tickets beforehand. This will eliminate the chance of missing the beginning of the lecture due to the expected long lines.

# Footballers Face Long Beach; Fight Five Year Jinx

## Gauchos Go For Third Win; Seek to End 49er Dynasty

By BILL GRAHAM  
EG Sports Staff

If comparative scores mean anything, the UCSB football team should beat Cal State Long Beach tomorrow night by 52 points. This somewhat startling figure is obtained through the following process: UCSB beat Whittier, 59-14 (plus 45); Whittier beat Valley State, 13-7 (plus 6); Valley State beat Long Beach, 21-20 (plus 1). Impressive, isn't it?

But there's another way we can work comparative scores on this game: UCSB tied El Paso, 14-14 (plus 0); El Paso lost to Long Beach, 22-21 (minus 1). Therefore, we can fearlessly predict that the Gauchos will either win by 52 or lose by one.

Of course, no one puts too much stock in comparative scores any more. Not since three years ago when someone was able to prove that the Gauchos were 94 points better than national champions USC.

So now that we've exhausted comparative scores as an indication to the outcome of tomorrow night's 7:30 clash in Long Beach's Veterans Stadium, let's have a look at past records.

The last time the Gauchos beat Long Beach was in 1963. The last time they won in Long Beach was 1956. In 1965, the Gauchos Camellia Bowl year, and an 8-1 season, take one guess as to whom the "one"

was. If you guessed Cal Western, you're wrong.

Two years ago in Long Beach, Cal State's Jack Reilly threw seven touchdown passes, as the 49ers blew the Gauchos out of the stadium, 48-14. Last year UCSB once again tried to find Long Beach's elusive number, but came out on the short end again, 34-24. So much for past records.

### THIS SEASON

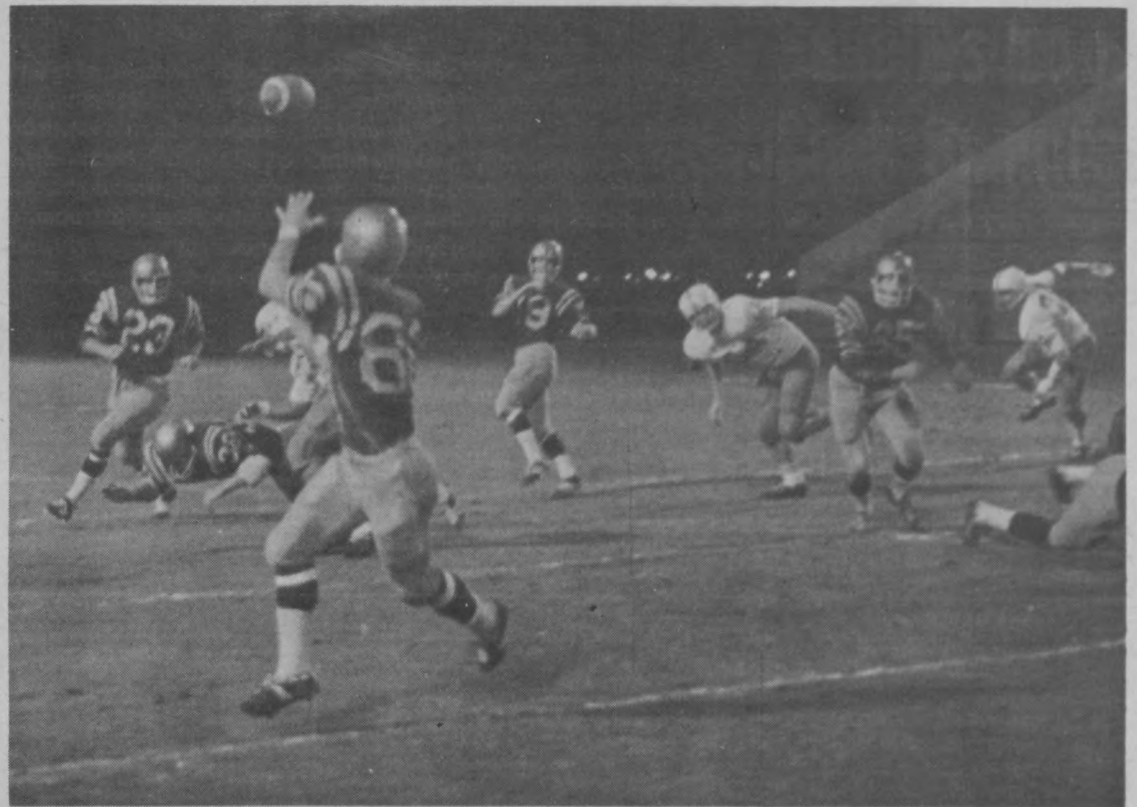

Now let's have a look at this season. Long Beach dropped its first three games, and the Gauchos gridders began to look forward to the 49ers with hungry eyes. Then the 49ers pulled a surprise by beating El Paso last week. UTEP has had a very poor season, but they are still a fine football team, and a win over them is still quite impressive.

And Long Beach's loss to Valley State is no worse than UCSB's loss to Nevada. In fact, even Chico State has beaten Nevada this year.

Now that we've looked at comparative scores, past records, and this year's performances, there remains only one factor: the personnel. Here the Gauchos have a clear-cut advantage.

### PARKS AND MILLER

Long Beach features an offensive attack of Billy Parks at split end, and Jerry Miller at

JIMMYING THE DEFENSE—GaUCHO flanker Jim Priest hauls in a Jim Curtice aerial in last Saturday's game against Hawaii. Priest is UCSB's all-time leading receiver with 65 career grabs.

—photo by Steve Riede

quarterback. Period. Parks is once again everybody's All-American, and Miller has been an effective, though not spectacular passer. Their defense also has been adequate, but not spectacular.

The Gauchos, on the other hand, feature their most varied attack in years. Quarterback Jim Curtice is having a great season both as a passer and a runner. Tom Broadhead has

been rushing better than ever. And the receivers, Steve Moore, Jim Priest, and Doug Barker have been maneuvering in opposing defensive backfields as if they owned them.

UCSB also has their best depth ever. Larry Brandenburg backs Broadhead, Kurt Speier and Jim Rodgers are an effective fullback tandem, and Carey Williams and Frank Mi-

chaelson are better than average receivers.

Defensively, the Gauchos have not been violated for more than 18 points in any game, and have on several occasions been quite spectacular.

But it doesn't mean a thing if the Gauchos can't do it on the field. Five years is a long time to wait. It's even longer if you've waited for nothing.

# Harriers to Go Bear, Bruin Hunting in Berkeley Saturday

By GERALD NEECE  
EG Sports Staff

From the fat to the fire. That's the way Coach Sam Adams and his Gaucho harriers must feel as they travel north to Berkeley this weekend to take on UCLA and California in a triangular meet.

Last week, the Gauchos lost a 19-36 decision to small college power Westmont but this week they meet the big boys. And their current 1-2 dual meet record is more likely to end up 1-4 than 3-2 when they return Saturday night.

UCLA, you will remember, easily won the Santa Barbara AAU meet here two weeks ago. The Bruins scored 16 to 40 for the southern California Striders. UCSB was a distant third with 74. In that meet, UCLA took the first four places plus

sixth, eighth, and ninth.

According to Adams, the Bruins' top runner is Bob Waldron, who didn't even run in the AAU meet. He's backed up by Dan Preston, Ron Fister, Hartzell Alpizar, Randy Hartman, and Chisam Scott. "UCLA is a very strong, tightly-knit team," said Adams. "They've got good depth." It's not hard to see the reasoning behind that statement.

### CAL UNKNOWN

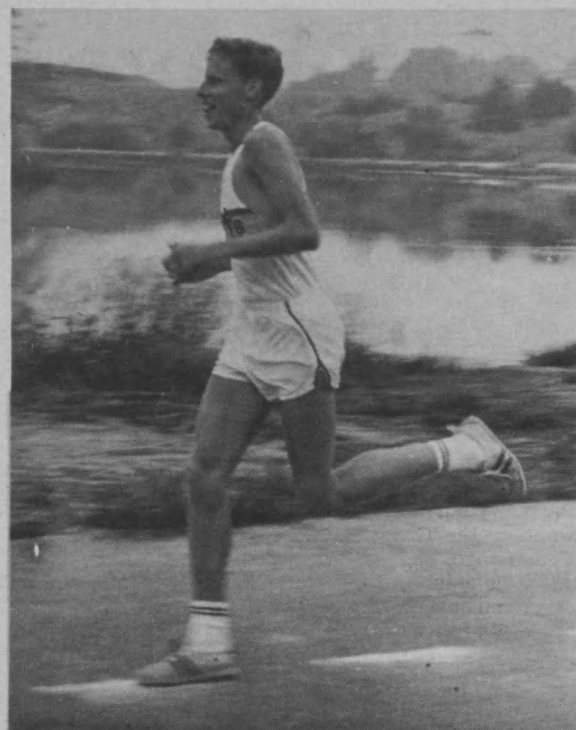

Cal, on the other hand, is the Hawaii of cross country. No one knows very much about them. More, of course, will be known Saturday afternoon. They do have one very outstanding runner, however, and he should give the leaders something to think about.

To make matters worse, injuries have hit the Gauchos.

Freshman Dave Young is definitely out of the meet and senior Dave Blemker and freshman Jerry Edelbrock are listed as doubtful starters, both suffering from strains. As it looks now, Adams will be going with two juniors, number one man Keith Jeffers and letterman Bill Word, and three freshmen, Greg Ratliff, Ervin Brown, and Steve Denney. The final two have yet to be decided, depending on the condition of Blemker and Edelbrock.

### FOUR MILE WONDER

Berkeley's course is a four-mile wonder: one mile up, one mile out, one mile back, and one mile down, located in beautiful Strawberry Canyon. Two years ago, UCSB upset Cal on the course by one point. Last year, however, they finished third in the meet.

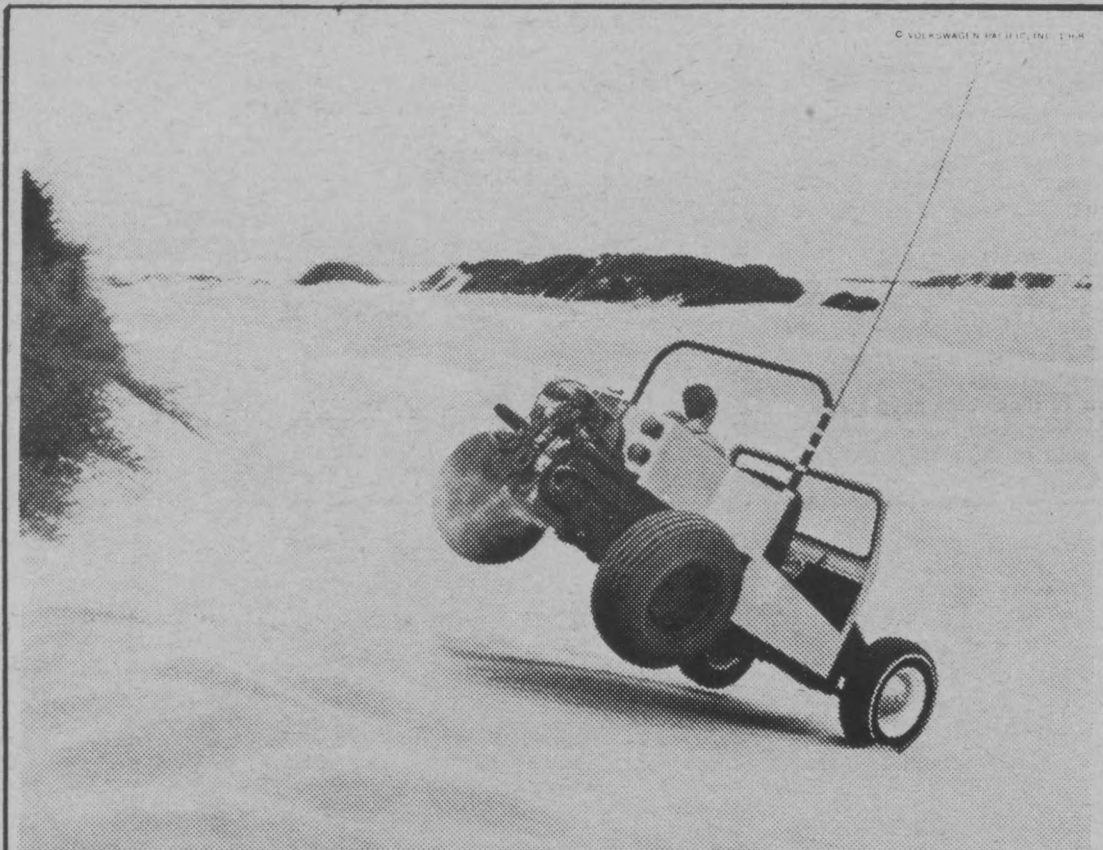

I LOVE THIS--At least it sure appears so as junior Bill Word romps around the Campus Lagoon course. Harrier coach Sam Adams will be relying heavily upon Word tomorrow as the squad takes on Cal and UCLA at Berkeley. —photo by Chuck Markham

## Old Volkswagens never die.

Some of them turn into dune buggies. And go racing, and bounding, and bouncing around on the desert.

Now, if you do all your driving around town, don't feel left out. Because the main point we want to make is this: The things that make a bug a good buggy are the same things that make it a good family car.

The air-cooled engine, for instance, can run all day in the desert sun without overheating. Your more conventional VW has the same advantage on a clogged freeway. When water and tempers start to boil.

The engine is also rear-mounted for better traction. Perfect for dune buggy drivers in all that sand. And not bad for you regular people just trying to get moving on a slippery street.

SANTA BARBARA  
**VAN WYK'S INC.**  
630 Chapala Street

The Volkswagen has independent suspension on all four wheels. This is a very stable arrangement for racing — often flying — over the dunes. And very comfortable on a country road. Or an almost-paved street.

When an overly large dune is encountered, the VW's quick, precise steering can turn as fast as the driver can change his mind. Which can be a definite advantage in these days of defensive driving too.

Then there's the way the bug is built. Any car that could take ten years of normal driving, and then go banging around on the desert is obviously built to last.

So, if you need a good, practical, family car that won't give out in a few years, drive a Volkswagen.

And if you ever do hear the call of the wild, you'll be ready.

## Soccer Team Ventures Toward Upset at All-Cal

By ANDY LIBERMAN  
EG Sports Writer

BERKELEY--Zoltan von Somogyi's UCSB soccer force eagerly awaits advancement into the semi-finals of the All-Cal championships today, after defeating UC Santa Cruz Thursday in the opening round of tournament play.

The Gauchos' second opponent this afternoon will not be determined until the completion of all first round games. Every UC campus is being represented in the annual affair with UCLA, Cal and UCSB seeded as the top three.

"I was pleased with the way our team got past Santa Cruz," said von Somogyi, "but the toughest test is still to come. We have worked out hard for this weekend and I'm confident that we'll turn in representative performances."

The Gauchos, who got off to a slow start this season, have seemed to jell quite well, and according to assistant coach Jack Fox, "our change of game strategy has made a great difference. We have converted from our standard 4-3-3 offensive method of play to a 4-2-4, thus dropping a potential scorer from the front line back to bolster the defense. Other teams are just scoring too many goals against us in our regular offensively-oriented attack," commented Fox.

In other developments, Fox announced that scoring leader John Merrill has been switched from halfback to the inside or wing position. "We did this," explained Fox, "to compensate for our offensive void."

After the All-Cal championships this weekend, von Somogyi's Gauchos return to Santa Barbara where they will work out for next weekend's major clash against the University of Southern California.

The Trojans have been hampered by lack of interest in their soccer program this season and have been unsuccessful in developing a first-ranked program.

# All-Cal Tourney Next For UCSB Water Poloists

By BRUCE DIXON  
EG Sports Writer

This weekend the water polo team takes to the road as it heads up to Berkeley for the All-Cal water polo tournament featuring not only the top water polo teams in the University system but the finest in the nation. The Frosh will also be in action this weekend as they have a cross town rivalry match against Santa Barbara Junior College at 11 a.m. Saturday in the Gaucho pool.

Before the actual tournament begins on Saturday morning the varsity will take on Humboldt State at Berkeley in a regular season game. At 9 a.m. Saturday morning the tourney will get underway as the Gauchos take on UC San Diego. The Gauchos are rated the number four team in this tournament and will go into the San Diego match favored to win.

Providing they defeat San Diego, the test will come as UCSB will face off against the number one rated team in the nation, the Anteaters of UC Irvine. If the Gauchos can pull this caper off they could well look forward to a National Championship later this fall.

"It will take our best effort of the year to beat Irvine and we are working on strategy to that end. Irvine is by no means invincible and we would definitely like to be the giant slayers," commented coach Rick Rowland.

Currently the Gauchos hold a 6-5 won-lost record and have suffered three straight losses to the number two, four and five teams in the nation. If the Gauchos can get back into their winning ways against Humboldt and UC San Diego it might give them the necessary impetus to knock off the Anteaters who, being undefeated so far, will probably be looking past the Gauchos to the finals.

In looking over the statistics for the season so far, Larry Guy leads the team with 23 field goals and Jim Simpson is right behind him with 20. In penalty throws, Ben Gage leads the team with 7 out of 9 attempts. The overall team percentage for field goals made out of attempts is 33.6 per cent and for shots on penalty throws the team sports a 80.8 per cent mark.

In the goalie department John Steckel holds a 59.5 per cent mark in blocking goals while Bruce Montgomery, who relieves Steckel, has a 60.3 per cent mark.

## Reactions from Both Extremes To Black Protest at Olympics

MEXICO CITY (AP) -- The reaction around Olympic Village ranged from "good show" to "send 'em home" yesterday to the black-fist demonstration by U.S. sprinters Tommie Smith and John Carlos at the normally sacrosanct medal ceremonies Wednesday.

"My feelings are that the Olympics are strictly for competition," said Bill Toomey, America's decathlon champion from Laguna, Calif. "I firmly believe we are here for two important things. One is to compete and the other is understanding."

"We all thought it was a bloody good show," commented John Wetton, Great Britain's 1500 meter hope, with a nod of agreement from teammates Andrew Todd and John Davis. "It's bully that these blokes had nerve enough to express their feelings." All three are white.

While the buzzing Village debated the propriety of the U.S. Negroes' deportment on the Olympic victory stand Wednesday people wondered what the black athletes might have--if anything--for an encore.

Also there was speculation among some connected with the U.S. delegation that there might be disciplinary action. The best bet is there will be none. Such a move would wreck the American team.

Smith, world record holder in the 200 meters, won the race in 19.8 seconds setting a new mark. His teammate Carlos from San Jose, Calif., a militant spokesman in the Negro athletes' civil rights movement finished third behind Peter Norman of Australia.

At the medal presentation ceremonies Wednesday, Smith wore a black glove on his right

hand and Carlos a black glove on his left.

Smith had a black scarf around his neck. Carlos wore beads.

As the band played the Star Spangled Banner, Smith thrust his gloved right hand and Carlos his black-sheathed left toward the sky in a Nazi-like salute.

Both glued their eyes on the ground and refused to look at the American flag as it was being hoisted to the top of the mast at one end of the huge saucer holding some 60,000 fans.

The stadium rocked with boos and cat-calls and some of the spectators made thumbs-down gestures as they would to a Mexican matador preparing for the kill.

A white American coach of another team who asked that his name not be used commented:

"I'd send them home. That's what I'd do. I'd send those guys packing. It's a disgrace."

Assistant track coach Edward Haydon, a professor at the University of Chicago said:

"We are fortunate it was as restrained as it was. Remember some of these kids have a message they want to get across and this is their way of doing it."
