FACULTY LIST FOR 1923 SHOWS MANY CHANGES

FIVE NEW TEACHERS TAKE POSITIONS HERE

Many changes have taken place on the faculty this year. Five new instructors have assumed positions here and several who were here last year are either studying or teaching in other schools.

Mrs. Laura Specht Price comes to the College from Stanford University, where she has just received a master's degree in Education. Mrs. Price is taking the place of Miss Catherine Long, who has accepted a position in Oklahoma.

Miss Eda Ramelli succeeds her sister, Miss Mattie Ramelli, in the language department. Miss Ramelli has recently returned from an extended stay in Spain. Her sister is entering Stanford.

Miss Florence Clarke, who was graduated from this school in 1913, is now teaching in the Home Economics department, and Miss Clara (Continued on Page 4)

RIGID CIVICS RULING IS NOW ENFORCED

An assembly bill, recently approved by the state legislature requires that instruction in the Constitution of the United States in public and private schools within the state of California be compulsory. This bill, which went into effect August 17, last, demands that there shall be given regular courses of instruction in the United States Constitution which will include the study of American institutions and ideals.

There is provision that this instruction shall begin not later than the opening of the eighth grade and shall continue in the high school, state college, and university courses to an extent to be determined by the superintendent of public instruction. No student will be given a certificate of graduation from any of the mentioned institutions unless he has satisfactorily passed an examination on the provisions and principles of the United States Constitution.

Teachers as well as students are effected by this bill. There is a clause stating that persons granted regular teaching certificates shall, in addition to the regular existing requirements, be required to pass a satisfactory examination on the tenets of the Constitution.

GREETINGS TO THE STUDENT BODY

The new college year has opened with interesting prospects. Many new faces are to be seen on the campus. New people are mingling with the old in working out programs and attending first classes. In a few days the novelty will disappear and the serious business of student life will be in full sway. We greet the returning students with handshake and smile, and we welcome the new ones with keen expectations that acquaintance may develop firm and lasting friendships.

In welcoming new students we should like to have them feel the whole-heartedness of our reception to them. We should like also to have them feel that they are entering what we fondly think of as a family circle in which we have the keenest pride. Our people work hard, play hard, and cultivate a cheerful attitude toward life. They succeed after they leave the campus, thus giving the best evidence that time spent here was well spent.

We bespeak the active participation of both old and new students in all the common undertakings for growth and development.

CLARENCE L. PHELPS.

FROSH-SOPHOMORE SCRAP SHORT AND SWEET

The Sophomore-Freshman scrap came off last Tuesday and was well attended—especially by the Frosh.

Early in the day a few Frosh were whisked away by scheming Sophs and deposited in different sections a few miles out of town, to prevent their participation in the fight.

The Freshment out-numbered their opponents almost three to one, but though out-numbered, the Sophs fought fiercely until their class numbers were entirely covered by the sand bags which the Freshies carried.

Following the fight, the vanquished Sophs were obliged to empty sand bags, which, prior to the fight, they had forced the Freshies to fill.

The affair was ably covered by down town newspaper men, and a photo of the scrap was carried in one paper, accompanied by a more or less accurate account of the fight—written by a presuming Frosh.

Following the fracas a few bags were found to be filled with sawdust and on this technicality, the Sophs claim the victory on a foul.

There were no casualties beyond a few scratches and torn clothes and as the society ed would put it, "A lovely time was had by all."

FIRST STUDENT BODY MEETING HELD TUESDAY

The first student body meeting of the year was held during the fourth period Tuesday with President Keeler in the chair. Various reports and important announcements formed most of the business of the day. Dean Wescott reported that she had investigated the matter of purchasing (Continued on Page 3)

A. W. S. PLANS MANY ACTIVITIES FOR YEAR

Dean Wescott, Dean of Women and Faculty Advisor for the Association of Women Students, is giving a tea at her home, 628 East Sola street, on Tuesday, October 2, from three until five o'clock, for the women students of the State College. This will be the first social event of the year for the A. W. S.

The activities of the A. W. S. began this year with the assigning of Big and Little Sisters. At the beginning of the term each upper-class girl signed up for one or two Little Sisters, among the Freshmen and other new incoming girls. The Big Sister initiated the Little Sister into the ways of the college, helped her with her program, helped her to become acquainted, etc.

As yet there is no President of the organization, as Dorothy Hitchcock, who was elected President for this year, has gone to Southern Branch of U. C. In her place, Isabel Lyons, Vice-President, has been carrying on the affairs of the organization. A meeting of the A. W. S. was held at assembly hour on Thursday to elect a new President and transact other business of the organization. Other officers for the present year are: Vice-President, Isabel Lyons; Secretary, Eda Proper; Treasurer, Marvella Miller; Social Committee Chairman, Marian Ogden; Student Councilor, Ruth Tisdale; Clubroom Committee Chairman, Marjorie Gates.

Plans are also being made for other social affairs during the year, especially for a Big and Little Sister party to come soon.

FOOTBALL MEN MEET LOMPOC HERE TOMORROW

PIGSKIN PUSHERS WILL MIX AT PERSHING PARK

Coach Gilliland's fast eleven from the State College will tangle with the Lompoc Bean thrashers in a swift game to take place at the Pershing Park at 2:30 tomorrow afternoon.

The college team has already demonstrated their ability on the gridiron as was proved in the game with Oxnard high and the one with Ventura. With a good turnout to view the game the boys expect to do their worst.

An interesting sidelight on the game is the fact that Coach Gilliland trained the Lompoc men for three years before he came here to take up his duties as a professor. The coach says they are a speedy bunch and have been working together for so long that they are going to make a pretty stiff outfit for the hilltoppers to combat.

The local team has only been working together for a short time but already a lot of good material has shown up. Clarence Cooper, a star of former days is back and there are several new additions from the high school, such as Al Baranov, Bill Everitt, Phil Martin, Louis Sherril and several others.

Season's Football Schedule Announced

Paste this in your hat. Here is the schedule for the football season. Lamp it, and then express wonder that such a stiff schedule could be lined up.

Tomorrow—Lompoc at Pershing Park.

Oct. 6—California Poly at San Luis Obispo.

Oct. 13—Loyola College at Santa Barbara.

Oct. 20—La Verne at La Verne.

Oct. 27—Taft at Taft.

Nov. 3—San Diego S. T. C. at Pershing Park.

Nov. 17—Bakersfield at Bakersfield.

In addition to these games, Coach O. J. Gilliland is planning on practice games Wednesday afternoon with nearby high school teams.

Grin and bear it. And wish the team luck.

THE EAGLE

Entering upon the third year of its existence The Eagle takes this opportunity, for the benefit of the many newcomers to the student body, to sketch briefly its past history.

The paper was founded in the year 1921-22 by Everett Gamage, at that time publicity manager of the college, in response to a demand for a weekly paper to represent student interests. The first publications were not ideal in many senses. The paper was issued on a mimeograph, Gamage acting as editor, business manager, reporter, printer's devil and circulation department. However, the paper issued regularly, and was a foundation upon which such a paper as you have in your hands, could start.

In its second year the management of the paper was given over to Linn Unkefer. Difficulty of finance and lack of co-operation on the part of the student body made the road a rocky one for Unkefer. The paper for several months was forced to suspend publication. However, the paper was printed instead of being mimeographed, which made it more suitable for exchanging with other colleges.

The success or failure of the paper this year depends upon the support and co-operation of the student body. The one policy, and only policy is the same which started at the time of the founding of the paper, to represent student interests, tell the news of interest to the students, and serve as a means of keeping the college spirit at its best. The Eagle belongs to the student body, and with a thoroughly capable staff of willing workers to perform the actual work of publication, and the support and loyalty of the students to back it, it should be a paper which they will not only be glad to read but proud to show to the world as the voice of Santa Barbara College.

THE CREDIT PROBLEM

Utmost confusion greets the new student who, on arriving at the State College, attempts to get a program straightened out in order that he may pursue his chosen line of studies.

The student arrives, he is duly registered and is given a bulletin and a program card and told to make out his program and get it signed by the head of his department. He looks over the bulletin, decides on his courses, confers with his department head about the conflicts, and finally hands his card in with a mind at peace and continues his studies during the semester.

We will suppose that at the end of the semester he plans to transfer to another college. His grades are good and he goes to the authorities to get his credits made transferable. Now we come to the object of our discussion; he finds upon examination that half of his credits are teachers' college and are therefore not transferable. Without knowing it he has unintentionally taken subjects which though worth while and of great advantage to teachers' college or community mechanics students have been for him a total loss. This, of course, applies to a J. C. student; but on the other hand a teachers' college student might bump into the same difficulties in transferring to another normal school, though we believe the chances of such are not so frequent.

This state of affairs existed all last year as many students found to their sorrow, and the condition has not been remedied this year. The College bulletin does not state in its pages any distinction between its departments. It is time the committee or board who arrange the bulletin change it so that a Junior College or Teachers' College student may take what is required of him without this serious confusion and endless red tape about getting the proper credits for transfer. The truth should be printed in black and white on the regular year book, a very simple plan we are sure, yet one which would solve many problems and save a great deal of time both for faculty students and officials.

PERSONALS

Reid Hollingsworth, a former student in the Junior College, is back again and is going out for football.

* * *

The marriage of Mr. Kenneth Bolton, one time athletic manager of the college, to Miss Jewel Hummel took place during the summer. Mr. and Mrs. Bolton are living in Mission canyon.

* * *

Mr. Guenther, it is noticed, has become the proud possessor of a new Willys-Knight roadster. No more walking for one professor.

* * *

Among the many new students entering the college this year are several of the graduating class from the Santa Barbara high school. Evidently Santa Barbara's still too good to leave for a while.

* * *

"Wonder what the eats are today?" is a never ending topic of conversation among ye college cake eaters and ye frivolous dumb ducks. The cafeteria presenting this favorite question continues in popularity as most of the college troops are there every noon to feed their faces.

* * *

An event of interest to the college in general was the marriage of Miss Helen Covey, member of the class of '23, to Mr. Francis Noel, editor of last year's annual. The wedding took place two weeks ago.

* * *

A social affair this summer which came as a surprise to their friends, was the announcement of the engagement of Miss Grace Cooper, a former student, to Mr. Louis Miratti of Santa Barbara. The wedding, it is said will take place during the fall.

* * *

Terence Ellsworth, who was in the Junior College some time ago, has returned to take up studying again. He has become business manager for The Eagle.

* * *

Marriages and engagements seem to be very popular among the college people. We always thought that it was spring which caused all such romantic thoughts but it would seem all the marriages are not in June. Some disengagements also occurred.

* * *

Dicky Hales, graduate of the class of '23, is now attending business school. She visited school last Monday.

* * *

President Phelps is now the proud father of another boy. This addition to the family arrived during the summer.

* * *

Dean Westcott spent the first part of the summer at her father's ranch at Claremont, and the latter part at Laguna Beach.

* * *

Lydia Miratti has returned to school to take up work as a special student.

* * *

Kenneth Conkey, a former student here, is now continuing his studies at Harvard University.

OFFICE ANNOUNCEMENTS

Cars may not be parked on any part of the entrance drive as the postal authorities have been promised unobstructed access in their deliveries to the school post box. All students needing parking space for their cars must leave a definite place on Ridge Road allotted to them.

* * *

Students are requested to look in their office boxes for mail and on the student telephone board for phone calls. The office cannot be responsible for uncaled-for mail or for unanswered telephone calls. It is only in very urgent cases that students are immediately notified of phone calls.

* * *

There is as yet, no student telephone, nor is the office phone a public one, so all wishing to use it must first get permission from the person in charge of the office.

* * *

All students who were unable to give their local addresses and telephone numbers on the day of registration and who have not since turned them in to the office must see Mrs. Clow to have them recorded.

ALUMNI NOTES

"The Eagle" plans to conduct a live and informing Alumni Department, and to this end welcomes any suggestions from Alumni, and also any news of Alumni doings, or of interesting or important achievements of any particular Alumnus of this college. It is hoped that the Alumni will show as much interest in the college paper as the active students of the college do. Communications should be sent to "The Eagle," Alumni Editor, Santa Barbara State Teacher's College and Junior College.

* * *

Miss Margaret Chase, Home Economics graduate of '17, who had been teaching in Bakersfield, was married to Albert S. Good of Bakersfield.

* * *

Neils Martin, Junior College '23, is now attending the U. C. Dental School in San Francisco.

* * *

An important position is being held by Miss Roxana Elliott, '13. Miss Elliott is teaching in Cleveland High School in Elizabeth, New Jersey, and at the same time is doing advanced work at Columbia in foods and nutrition.

* * *

Mrs. Isabel Harvielle, a former student of the college, and formerly of Salt Lake City, is now Business Manager for Miss Harker's school in Palo Alto.

Buck: "Can you give me the definition of an orator?"

Private: "Sure! He's the fellow that's always ready to lay down his life for his country."—American Legion Weekly.

Mr. Peters ascending a ladder in the corridor was the astounding sight which met the eyes of all who were lucky enough to be around the third period Monday morning. Mr. Peters explains this childish act by saying that he was fixing the bells.

GLEE CLUBS ORGANIZED UNDER MRS. BARNETT

Prospects for the Glee Clubs are exceedingly bright according to Mrs. Barnett, musical instructor. Initial meetings of both clubs were held last Monday. About twenty women turned out for the meeting held at 4:15 Monday in the cottage. In commenting on the prospects for the women, Mrs. Barnett says "I was very much pleased with the results."

The regular women's Glee Club practice will be held from 4:15 to 5:00 every Monday. A manager and a librarian will be elected at the next regular meeting of the women.

Although few boys turned out for the initial meeting held at the Y. M. C. A. Monday night at eight o'clock, Mrs. Barnett hopes that more men will join in order that some very splendid professional plans for the Men's Glee Club may be carried out. Plans are also being made for a Glee Club tour if there is, as Mr. Phelps suggested, "A Glee Club we can send out and be proud of."

The Men's Glee Club practice will be held between eight and nine at the Y. M. C. A. on Monday evenings. Mrs. Barnett urges more men to join for it is hoped that two good Glee Clubs may be created in order that the two can combine to do something big.

FACULTY RECEPTION HELD NEXT WEEK

The faculty will give a reception next Friday evening in the gymnasium, in honor of the new students of the school. This reception is an annual event and formally opens the social calendar of the year. Dean Wescott urges that all students attend the affair in order that faculty and students may get together for a good time. There will be dancing as well as an opportunity to get acquainted.

FIRST STUDENT BODY MEETING HELD TUESDAY

(Continued from Page 1)

a punch bowl as requested by the student body, but had decided to postpone action because of shortage during summer. The desired articles will be procured immediately.

Many important announcements were made by both teachers and students. Mr. Ashworth requested, that married men leave their addresses with him. More boys for the Glee Club were solicited by Mrs. Barnett. Students interested in joining either the Methodist or Presbyterian choirs were cordially invited to do so. Sophomore women whose gymnasium caused a conflict were asked to leave their names with Dean Ashworth.

President Phelps announced the following arrangement of faculty sponsors: The Eagle, Mr. Guenther; La Cumbre, Mr. Ashworth; Men's Athletics, Mr. Gilliland; Woman's Athletics, Miss Weage; General Activities, Miss Severy.

Students were told that semester program cards must be turned in by Friday this week to the head of the department or a fine of one dollar will be imposed upon anyone failing to comply with this regulation.

The yell leader will be elected at the next student body meeting and any member of the council will be glad to have names recommended for this office.

As the resignation of Merton Harlowe as secretary of the student body was accepted, a secretary must be elected at the next meeting.

The meeting closed with a display of pep and enthusiasm for the football team. Several yells were given before the motion to adjourn was made. While on the point of adjourning, Seegert rushed into the room with the command to "wait." Santa Barbara was to meet Ventura Wednesday in football. Students shouted with glee, and forgetting to adjourn, filed merrily out, discussing the coming football game.

SOCIAL EVENTS START WITH PICNIC AT BEACH

The get-acquainted beach tea held last Friday evening was well attended and, if noise is any indication, was enjoyed immensely. A cafeteria lunch was served, consisting of potato salad, hot dogs, pie, and coffee.

Following the feed a circle was formed about the huge bonfire and the remainder of the evening was spent in telling stories, and singing, and playing games.

Several "discoveries" in the musical line were made, among them: Vic Dunne's masterful way of strangling a uke.

Mr. Guenther's proficiency in the manly art of yodeling.

Hawkins' surprisingly (!) sweet voice.

And an entirely new brand of syncopation invented by Irma Steward, and which gives many new effects to dance rhythm. It is produced by an apparatus consisting of two paper plates, a two-pronged fork, an empty cup, and a slice of apple pie.

The party broke up about thirty, and the bunch voted the whole affair "pretty slick."

A MESSAGE FROM S. B. PRESIDENT

A new year is before us—nine months in which to do something that will make 1923-24 a year to be remembered. Many paths are open—drama and debating, social life—each of which may be made better than ever before. The student body is our organization. Under its name our activities reach the public and its standard and accomplishments are, to them, the measure of our success.

The past year saw a fine development in all branches, each showing a big improvement over the preceding year. This year must show a corresponding advance. Football has already started and shows itself capable of meeting any opposition. "The Eagle" makes its debut today, a paper we may be proud of and should support to the best of our ability. Social functions will soon start and drama and debating promise us a whirlwind program.

These activities gain the support of all through their very nature. One other that few student bodies ever consider is scholarship, and also actual service to society after graduation. Our Alumni have established a reputation for us in this line and it is for us to uphold and further this standard, realizing that by so doing we are helping to make S. B. T. C. the biggest single thing in Santa Barbara.

CLOGGING IS NEW DANCE COURSE OFFERED GIRLS

A class in clogging has been started by Miss Weage, the Physical Education instructor, the eighth period on Monday. Several girls have already taken advantage of the opportunity to learn something about this ever-popular type of terpsichorean art, which is a new line of gym offered the women of the college.

DAILY AND SEMESTER PROGRAM CARDS DUE

All semester cards must be turned over to the various department heads some time today. Three daily program cards for office filing must also be given to Mrs. Miller. Students failing to hand their cards in today will be fined one dollar.

SCHEDULE ARRANGED FOR GIRLS' ATHLETICS

Extensive plans for girls' athletics are being formulated according to the manager, Madeline Connel, who hopes to create a Women's Athletic Association.

The tentative schedule includes swimming, volley ball, tennis, baseball and basketball. Although definite practice days have not been arranged the time is expected to be between 4:15 and 5 in the afternoon.

In order that tennis may be a regular sport, the court back of the gymnasium will be repaired. The lot below the cafeteria will be prepared for a baseball field. Volley ball and basketball will be played in the gymnasium while swimming will be done in the plunge.

With the helpful coaching of Miss Weage, instructor of physical education, and the enthusiasm evinced by the girls, some live work in girls' athletics is expected this year.

The manager urges that as soon as definite plans are announced, girls interested should investigate and come out. According to the manager, "The responsibility rests on you, girls, so come out and support us; show what you're made of."

FACULTY LIST FOR 1923 SHOWS MANY CHANGES

(Continued from Page 1)

Youngs is studying at Columbia University and acting as a part-time instructor in the Columbia Teachers' College.

The cafeteria has also changed hands this year. Miss Bess Sexton, a graduate of the 1922 class, has assumed the managership and is also working for her final degree. Mrs. Mabel C. Sampson, who had charge of the cafeteria last year, is now manager of the El Paseo De la Guerra Tea Room.

Miss Winifred Weage has returned from a year's study at Columbia University, where she went on a leave of absence. She is taking over Miss Rogers' work in the Physical Education department. Miss Rogers is now studying at the University of Southern California.

Mr. J. Parks Blodgett comes from Tucson, Arizona, to assist in the Community Mechanics department.

Another instructor who did not return this year, is Miss Lollie Anderson, who taught in the music department. Miss Anderson plans to locate in Cleveland, Ohio, for the winter. Mrs. Barnett has taken over her classes.

According to word recently heard from Mr. Raymond Mosher, former head of the Music department, and Mr. J. Morley Fletcher, who taught wood-blocking here, the former is studying at Columbia, and the latter is returning to Santa Barbara from Edinburgh, Scotland, in January.

CHURCHES WELCOME STUDENTS TO CITY

The churches of Santa Barbara extended a welcome to the college students the first week of school. An invitation was extended from all the churches to participate in the weekly services.

The Santa Barbara Christian Endeavor societies gave a reception to the students last Friday evening. About 60 students attended the affair. Miss Isabel Lyons, Vice-President of the Student Body, is president of the County Christian Endeavor Union.

The Methodist, Epworth League also gave a party the same evening.

COLLEGIANS HANG IT ON VENTURA; SCORE, 51 TO 6

Captain Jack Vince's State College eleven decisively trimmed the Ventura High School team Wednesday afternoon at Pershing Park by the overwhelming score of 51 to 6. It was not until the second string team was turned loose on the field at the start of the second quarter that Ventura came into the possession of the ball.

Quarter Clarence Coper called signals in a masterly fashion after a bad start, and the teamwork of Cooper, Anderson, Vince and Hollingsworth were responsible for 38 points, the scrubs scoring the remaining 13 points.

"Red" Hollingsworth had the small crowd on its feet more than once when he ran back the kickoff. His educated toe converted three of the goals, and he scored a touchdown.

The entire team showed excellent teamwork during all periods of the game, but another tough scrimmage will polish off the rough edges that still jut around the ends of the team.

Vince was responsible for two of the College's touchdowns, while Anderson scored two and Cooper, Baranov and O'Reilly one each.

The lineups:

Ventura	Pos.	State College
Kay	LE	Linder
Reed	LT	Noel
Mallinger	LG	Hawkins
Malloy	C	Young
Hossack	RG	Henning
Percy	RT	Sherrill
Mahoney	RE	Talmage
Gordon	QB	Cooper
McCullom	LH	Anderson
Ormsby	RH	Vince
Roff	FB	Hollingsworth

Points scored: For Ventura, Kay, 6. For Santa Barbara: Cooper, 6; Anderson, 12; Vince, 12; Hollingsworth, 9; Baranov, 6.

Substitutes: DeBolt for Young; Ellsworth for Henning; Smith for Hawkins; Adler for Sherrill; C. Smith for Noel; Everitt for Linder; Hodson for Talmage; DeLand for Cooper; Martin for Hollingsworth; Howe for Vince; Moorehead for Anderson; Baranov for DeLand; O'Reilly for Howe; DeLand for Baranov; Howe for O'Reilly.

LOCAL HIGH SCHOOL STARTS MEMORIAL FUND

Alumni members of the local high school will be interested to know that a campaign is being made under the sponsorship of The Forge to raise funds for a suitable memorial to the high school boys who gave their lives in the World war. Those in charge have requested that all contributions be small in order that the memorial may be representative of the entire Student Body and Alumni organizations. For this reason contributors are asked to keep their contributions under one dollar. Any Alumni members of the high school who are interested may take or send their contributions to Virgil Durlin, editor of The Forge.

HISTORY OF COMMUNITY MECHANICS OUTLINED

The history of our state college began with a so called Sloyd School of which the Community Mechanics and Vocational Department is a direct descendent. From the day the Sloyd School became a normal training school and moved to its present hill-side quarters, to the day when the "Normal" was elevated to the status of a college, and even up to the present time the department with which this article is concerned—variously called, manual arts department, industrial arts department, vocational training department, and now by the name given in the title, has had an enviable state-wide and even somewhat nation-wide reputation. It is because of the outstandingly good work that has been done in this department from the day of its inception that the State Board of Education last January authorized our college to grant the Bachelor of Arts degrees to students completing the four years community mechanics course. This is the first, and thus far the only college, so honored.

The department trains teachers for the elementary schools, the junior high schools and the senior high schools. However, by choice, the majority of the graduates of this department secure positions in the senior high schools. Most of the seniors secure teaching positions weeks before they are graduated and invariably all are located to their satisfaction before the new school term begins. Graduates from this department can be found in practically every part of the state from the northernmost county to the southernmost. And everywhere reports show, they are making good. It is in fact because of this good showing made by our graduates of the past that the students graduating nowadays so rapidly find positions.

COLLEGE STEAM-ROLLER CRUSHES OXNARD 26 TO 3

Despite the opposing team's beef, Coach O. J. ("Fat") Gilliland's horde of football players soundly trounced the Oxnard High eleven at Oxnard last Saturday by the score of 26 to 3. The game was a scrimmage affair, every player getting a chance to get into the game.

Coach Gilliland expressed pleasure at the material on hand for the team, and its showing against the beet-growers. Enough letter-men have returned to make the team a winner, in his belief, in spite of the heavy schedule now lined up.

Anderson, Cooper, Vince and Hollingsworth were the big guns of the College's scoring machine, dashing to all corners of the lot for substantial gains.

Oxnard showed exceptional strength on several occasions, when they held the locals on their two- or three-yard line.

Both teams fumbled frequently, but for the first practice game of the season, the showing was nothing short of remarkable.

The following players took part in the game:

Oxnard—Honway, Mahan, Mercer, Murray, Jeffries, Bailey, Talland, Muldoon, Williams, Boaz, Batchelor and Rader.

State College—Martin, Young, Linder, Kein, Noel, Ellsworth, DeLand, Sherrel, Vince, Cooper, Talmage, DeBolt, Smith, Anderson, Hall, Moorehead, Baranov, Adler, Everitt, Hodson, Hollingsworth, Henning and Hawkins.

Dean Asworth spent part of his vacation east, visiting a friend in Boston.
