

SPRING SING TO BE HELD AT SB BOWL

UCSB's 15th annual Spring Sing will be held in the Santa Barbara County Bowl on Saturday, April 28, at 8 p.m. An estimated crowd of 5,000 persons is expected to attend the free event, which will be emceed by professor of music, Carl Zytowski.

Spring Sing features musical competition by various Greek and residence hall groups. Sixteen ensembles of UCSB students will present songs of various types, including folk songs, Broadway show tunes, songs of the South Pacific, and popular favorites.

ENTRIES

The groups in each division are:

Residence Hall Mixed: Maricopa, Primavera; Yuma, Navajo, Corriente, Enramada; Apache, Consuelo, Arbolado; Marisco, Pima, Tesoro, Ute. Open Men's: Toyon Hall.

Open Women's: Sirena, Bahia, Coralina, Ribera; Chi Omega; Sigma Kappa; Alpha Delta Pi.

Mixed Greek: Pi Beta Phi, Sigma Alpha Epsilon; Sigma Phi Epsilon, Delta Gamma; Lambda Chi Alpha, Alpha Phi.

Ensemble: Pi Beta Phi, Sigma Alpha Epsilon; Sigma Pi.

Novelty: Lambda Chi Alpha; Riusena.

These groups will compete for a Sweepstakes trophy and the several divisional trophies. The judges for the song fest include well-known band-leader Ray Conniff.

CAMP DONATION

Spring Sing director Steve Gray has announced that a collection for Camp Conestogo will be taken while the judges are making their final tabulations. At that time, young participants in the camping program will do some spring singing of their own.

The UCSB Gaucho dance band, under the direction of Hal Brendle, will provide entertainment between song numbers and during intermission.

Spring Sing will conclude with the singing of the UCSB Alma Mater by the combined group of 650 singers. A record album of Spring

PROFICIENCY EXAMS

Proficiency tests will be given Thursday, May 10 in Bldg. 431/101 - 7:00 - 10:30 p.m. for those teacher credential candidates who have failed in any part of these examinations. No new examinees will be admitted at this time.

The following schedule and rules of procedure will be observed. Doors will be opened at the beginning of the administering of each of the Divisions only.

Reading Comprehension, 7 p.m.; Reading Vocabulary, 7:30 p.m.; Arithmetic Fundamentals, 7:45 p.m.; Arithmetic Problems, 8:30 p.m.; English, 9:15 p.m.; Spelling and Handwriting, 10:00 p.m.

Students deficient in any section of any division of the test must retake the entire division, and will be held responsible for any part taken whether passed formerly or not.

No appointment is necessary in advance. Students appear at the time schedule above for a particular makeup division. However, a Statement of Study is required of each student. This Statement of Study may be obtained at the office of the student's major department or the department of Education. Before signing it a student should spend at least ten hours in study—preferably with a tutor. This Statement of Study must also be signed by a faculty member.

RISUENA HALL brings the Roaring Twenties to life as they rehearse their novelty number in preparation for tomorrow night's Spring Sing.

Petition Needed For 'E' Removal

Students enrolled in school MUST petition for REMOVAL OF E GRADES. If the course is offered this semester, all work MUST be completed and grade submitted by the instructor before the end of the current semester in order to receive a grade in the course.

RENOWNED HARPSICHORDIST TO PERFORM HERE MONDAY

Rafael Puyana, celebrated Columbian harpsichordist, will give a concert as a part of the All-University concert series on Monday, April 30, at Campbell Hall. Tickets are on sale at the U.C. Extension office in the Art Building are \$1.50 and 75c for students while adults are \$2.50 and \$1.75.

BEGAN EARLY

Puyana began his musical training at the age of six. Possessing a love for the music of the early composers he soon became interested in the harpsichord for which these composers had written. Although he didn't have a harpsichord (none existed in his native Bogota), he was able to form a mental image of the sound of the instrument.

It was not until Puyana entered the New England Conservatory of Music that he played a harpsichord. He became acquainted with the famous harpsichordist, Mme. Wanda Landowska, in 1951, and she accepted him as a student. Shortly after his studies with Landowska began, he had a fine harpsichord built to his specifications by the famous Pleyel in Paris.

In April, 1957, Puyana gave a concert in New York's Town Hall receiving plaudits as a "harpsichordist genius." He made another appearance at Town Hall in 1959, and this concert confirmed the fact in many critics' minds that he was one of the most brilliant artists of his generation.

Since his debut, Puyana has toured widely throughout the U.S. and Europe. He gave a performance before former President and Mrs. Eisenhower in the spring of 1960. Puyana will feature a program of the 16th and 17th century, opening with two works by Louis Couperin — "Chaconne in F Major" and "Tombeau de M. de Blancorcher." "Brandie Gay," a joyful setting of an old, popular French tune, will also be featured. Other works included in the concert are two compositions by Peter Phillips, "Pa-

vana Dolorosa" and "Gallarda Dolorosa." John Bull's "The King's Hunt," and Bach's "Concerto in D minor, after Alessandro Marcello."

He is a member of the Society for the Psychological Study of Social Issues and is a consultant to the Technical Military Planning Operation of the General Electric Company. TEMPO is a team of social and physical scientists who forecast economic, technological, social, and political changes. Dr. McClintock's consulting services are in the areas of human factors in complex technological systems and demography.

CANDIDATES MAKE FINAL ARGUMENTS IN ASB CAMPAIGNS

Speech Contest This Weekend

The California State Championship High School Speech Tournament will be held on the UCSB campus this weekend. Approximately 450 students, top speakers from all parts of the state, will be competing for the right to represent their schools in the National High School Tournament. These students have qualified for the State Tournament by winning either a first or second place at speech tournaments in their districts.

EVENTS ARE VARIED

Events will include debate, original oratory, extemporaneous speaking, impromptu speaking, and dramatic, humorous and oratorical interpretation. Each division of an event will include 38 students. Thirty-six debate teams are expected. All preliminary rounds of debate will be today, individual events and finals of debate will be held tomorrow.

Judges for the State Tournament have been selected from the city of Santa Barbara, the faculty of the University and advanced speech students. Largely because of the excellent quality of the judging provided here, the tournament has been held at Santa Barbara 10 times in the past 11 years.

OPEN TO PUBLIC

Headquarters for the tournament will be in the campus auditorium. All rounds will be open to the public. Interested listeners are welcome.

URC SPONSORS TOUR OF LOCAL CHURCHES

On Sunday May 6, the University Religious Conference is sponsoring a tour of the Old Mission, Trinity Episcopal Church, and the Jewish Temple. At each church, the priest or rabbi will explain the order of service, symbols, structure of their faith, etc. Following the tour, the group will have a light dinner at the Congregational Church with accompanying discussion. Open to all students, the cost of the meal is 50c. Make reservations before Thursday, call Jerry Drino—7-9132. We will leave the Science Bldg. Parking Lot at 1:30.

De Conde Lecture Monday Evening

Dr. De Conde will lead a discussion on "The Conduct of American Diplomacy," on April 30, in Santa Cruz formal lounge at 7:30 p.m.

Dr. De Conde is new to our campus this year and is currently preparing a book on a similar topic. This will be the last in a series of discussions sponsored by Crown and Scepter. All students are invited to attend and questions will be answered after the talk.

Two Concerts Feature Pianist

The world famous Paganini Quartet will conclude their season in Santa Barbara with two May concerts.

On Tuesday, May 1, the UCSB quartet will give an 8:30 p.m. concert at the Lobero Theatre. Included in the program will be Haydn's "Quartet in C Major, Opus 76 No. 3" (The Emperor) and "Quartet No. 14 in C-Sharp minor, Opus 31" by Beethoven.

GUEST PIANIST

Joining the Paganinis for the Lobero event will be guest pianist, Johanna Harris. Mrs. Harris will perform "Quintet for Piano and Strings," with the Quartet. Composer Roy Harris presented this quintet to his wife in 1936 as a wedding gift.

The following Tuesday, May 3, in Campbell Hall, the Paganini Quartet will offer a program of works by Mozart, Mildred Couper, and Roy Harris.

Peter S. Odegard, assistant professor of music at UCSB, will be guest violinist with the quartet for Mozart's "Quintet for Strings in C Major, K 515."

Mrs. Harris will join the instrumentalists at the piano for the performance of her husband's quintet.

YOUTHFUL PRODIGY

Johanna Harris graduated from the Canadian Conservatory at the age of ten and was admitted to Jillard Graduate School two years later. At fifteen she was the youngest teacher in Jillard history.

Tickets for the May 1 concert are now available at the Lobero box office. Tickets for the Campbell Hall event are in the Extension Office in the Arts Building.

Free open rehearsals will be held at noon in the campus auditorium before each performance, May 2 and May 8.

IMPORTANT NOTICE

A meeting will be held Thursday, May 3 at 4:00 p.m. in the Huddle for all those planning to tryout for varsity yell leaders or song girls. This will be the only meeting held before the actual tryouts. For more information contact Steve Grey in the ASB office.

Tryouts will be held in two stages, the semi-finals on Monday, May 7, and finals on Thursday, May 10. Girls trying out for songleader positions should begin practicing as soon as possible. Songleading routines should be done to 64 bars of music. Songs played for tryouts will be "When the Saints Go Marching In," "Sturdy Golden Bear," and "On To Victory." Yell leader hopefuls should make up original routines to UCSB yells.

RAFAEL PUYANA, noted harpsichordist, is pictured at the keys of his specially made instrument. Puyana is scheduled to perform in concert Monday evening, April 30, at 8:30 p.m. in Campbell Hall.

Tickets Available For Limelighters

The Limelighters, a nationally known trio from San Francisco, will perform in Santa Barbara's County Bowl May 24 at 8:30 p.m. Five hundred tickets regularly sold for \$3.75 are available to UCSB students for \$1.75 at the Graduate Manager's office on a first come, first serve basis.

The net proceeds from the performance will go to athletic grants in aid.

THE LIMELIGHTERS

able to UCSB students for \$1.75 at the Graduate Manager's office on a first come, first serve basis.

The net proceeds from the performance will go to athletic grants in aid.

Initiation, Tapping At AWS Banquet

Tickets are now on sale at the Graduate Manager's Office for the annual Associated Women's Students spring banquet, to be held Sunday, May 6 in the Ortega Dining Commons. Tickets are \$2.25 with AWS cards and \$2.50 without.

The evening's program, beginning at 5:30 p.m., will feature a guest speaker from campus as well as the tapping of the new members of the three women's honoraries, Spurs, Chimes, and Crown and Scepter.

The recently elected members of the new AWS board will be installed by the outgoing board members. Those taking office are: Nancy Dean, President; Penny Baum, 1st Vice-President; Nancy Holley, 2nd Vice-President; Linda MacKenzie, secretary; and Vicki Armstrong, Treasurer. All women students are cordially invited to attend and enjoy a delicious dinner as well as this most interesting program.

'HIGH SOCIETY SET' FOR NEXT TUESDAY

"High Society," starring Bing Crosby, Frank Sinatra, Louis Armstrong, and Grace Kelly will be shown Tuesday, May 1 in Campbell Hall at 6:15 and 8:30.

The film is the fifth and last in a series presented by the Junior Class during the fall and spring semesters of this year. It is the hilarious satire of the problems of a newspaperman in the midst of Philadelphia society.

Tickets are now on sale at the Graduate Manager's Office and will be sold at the door. Admission will be \$5.00.

ATTENTION VETS

Veterans and Veterans dependents under federal or state aid programs must sign vouchers between the first and the fifth of the month in order to receive subsistence checks on time.

NEWS IN BRIEF

THE U.S. MOONCRAFT RANGER 4, launched from Cape Canaveral earlier this week, is expected to crash into the hidden side of the moon. The craft's purpose was to gather information, including close-up television pictures of the hidden side of the moon.

A spokesman for the National Aeronautics and Space Administration blamed the malfunction on the failure of a clock-like electronic device which was activated shortly before launching. "The mechanism was supposed to provide a timetable for a central computer and sequencer which were to issue commands to Ranger 4."

A SECRET PLAN to supply Katanga with \$18,000,000 worth of arms has been uncovered by United Nations security officials. The discovery of the plan was touched off with the detention of an unidentified foreigner carrying a box containing an assortment of so-called "sample weapons."

RADIOACTIVE DEBRIS from Russia's atomic tests of last fall is expected to be about twice as plentiful during this spring and summer as was the fallout after the Soviet 1958 test series.

The prediction was made by Dr. Willard F. Libby, a member of the Advisory Committee of the Atomic Energy Commission, who said, "Even though Russia's 1961 series was a 'cleaner' series, relatively speaking, in comparison with the fall 1958 series, the fallout will still be twice as big as it was in that year."

THE SOVIET UNION HAS THREATENED to test "new types" of nuclear weapons if the United States continues its planned Pacific nuclear tests. Meanwhile in the United States, President Kennedy has authorized the Defense Department and the Atomic Energy Commission to continue with plans to shoot off atomic devices, the first of which is scheduled for sometime this week. The Kennedy announcement has been interpreted to mean that all hope of Russia signing a foolproof nuclear test ban has been given up for the time being.

COSMOS IIL another scientific satellite, was put into orbit earlier this week by the Soviet Union. The Russian launching followed closely the launching of the American moon vehicle Ranger 4. According to latest indications from the official Soviet news agency the craft carried scientific instruments including a multi-channel radio telemetric system to relay information back to earth. There were no indications that the craft was manned.

# CANDIDATES PRESENT PLATFORMS

## A. S. PRESIDENT

STEVE CAMPBELL

Student government at UCSB serves a dual function. First, it offers the interested student the opportunity to receive valuable experience in practical matters outside the classroom. These experiences range from working closely with university personnel on future plans for the university to practical experience as members of such committees as Finance Committee, Standards Committee, and Personnel Board. Secondly, it is the organ of the university system which originates, carries out and controls the activities of the Associated Students.

Many students never realize the differences between high school student government and student government as it operates at the university level. Frosh Camp provides the facility by which new students may be enlightened; at this level the proper demarcation may be made. Incoming students should be made aware of the functionings of student government and their responsibilities for keeping it effective. We can reach these students and by stimulating and maintaining their interest in student government we can heighten enthusiasm and certainly permeate the remainder of the campus with this new attitude.

Some students are completely unaware of the fact that a student government is in operation. Some know a legislative body exists but have no idea what its purpose is. Others feel student government is ineffective in its undertakings and still others have become discouraged by their brief encounters with student government. The reasons for these opinions are varied, but they arise mainly out of confusion. When these attitudes are synthesized we realize there is one attitude most characteristic of a UCSB student. To summarize, the characteristic attitude is an apathetic one.

I think we should have ideals for the students and their government, but first I feel we must realize what the students desire and expect from their government. We must enter into their campus life with tangible programs that stimulate interest. These programs should entertain the student when he so desires, should enlighten him and most of all should appeal to him as a maturing individual in pursuit of a meaningful way of life.

Many such programs are already in existence. Spring Sing, Homecoming, the All-Cal Orchestra, entertainers, lecturers and artists in various fields are examples of some of the programs now in existence. These valuable events should be continued and expanded.

In this area and many other areas of student government a fundamental problem exists. This is the problem of communication. Students are many times simply unaware. Communications must be improved. The students need to realize why student government exists and what it can do for them. This realization may be effected through a concentrated effort. The students must assume part of the responsibility by electing representatives that are interested in them as students. In this respect all elected officers should be required to reach the students. They should reach them personally through their living groups if this is possible; if students are not in organized living groups appropriate alternate modes of communication should be used. The newspaper is progressing rapidly and will continue to do so. There will be a new radio station next semester. It must be programmed for good listening and simultaneously to create interest in student activities. Publicity Committee needs to be re-vitalized to realize its potential.

These approaches that our goal will be reached. If the students are made aware of their influence as it relates to student government there is no real reason for "apathy." If students are disinterested it will not be because they are unaware. I think that my experiences in student government as Freshman Class President, Frosh Camp Counselor, Student Union Policy Committee Chairman and member of the University Center Planning Committee have prepared me. It will be through a combination of for the position of A.S. President, I have observed the problems that face student government. I realize that there is no single panacea for these, but through hard work and a realistic attitude the solutions can be found. I think the school year 1962 must realize a more effective student government aimed at promoting the interests of you the student.

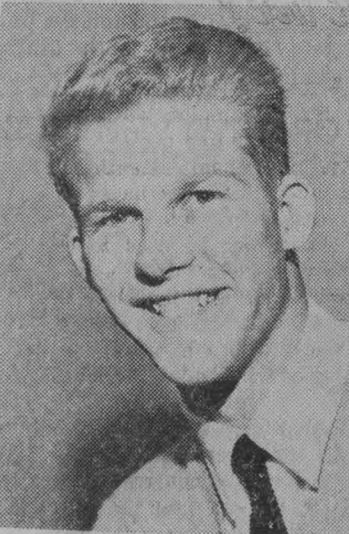

Steve Campbell

## A.S. VICE PRESIDENT

Through the resources of UCSB student government the students on this campus have available to them a variety of opportunities to express and develop their individual interests and capabilities. I wish to assist in promoting the development of these capabilities and their responsible application to the betterment of our student community.

The Vice President can contribute to facilitating one of this campus' basic problems - that of communication between governing body (Leg Council) and constituents. To this end I would support projects such as a campus radio station, a more frequently published student newspaper, semi-annual leadership banquets for representatives from all campus living groups, and organized "gripe" sessions. I would make greater efforts to have Leg Council members available for discussing common problems with their fellow students.

If UCSB student government is to continue striving for a meaningful identity in keeping with the dynamic, maturing campus of which it is an integral part then the leaders

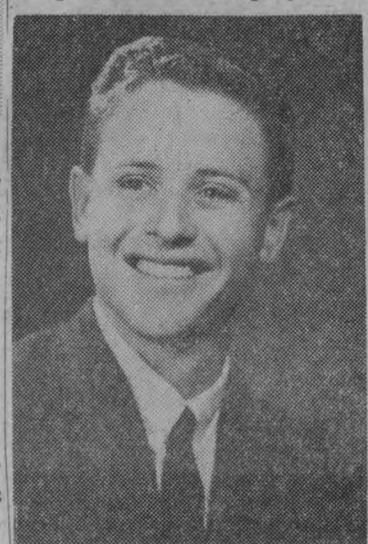

VIC COX

in Leg Council must also be vigorous, imaginative, and purposeful. I would hope that you, the voting electorate, would see fit to entrust me with your mandate. However, no matter whom you decide to honor with the vice presidency, be certain he fulfills the obligations and responsibilities he shares with your other elected representatives in leading a student community of approximately 4,000.

Vic Cox

Santa Barbara is entering a period between a small and large school. Her organizations must of course keep pace with the growth, however, this is not the case. The existing organizations will not be adequate unless they are re-evaluated. I don't propose anything revolutionary, rather an expansion of what exists to provide a sound basis for the future. In performing their function the present cannot help but reap the benefits.

I propose (1) the projection

BOB MCCORD

of the future of ASUCSB in conjunction with (2) the revitalization and evaluation of existing committees and boards.

The background which qualifies me for the position is my chairmanship of Finance Committee. Also, I am a member of the Intercollegiate Athletic Commission, Fees, Student Union Policy, Ad Hoc Committee of Student Union Building, and personnel. These positions have given me a firm grip of the problems and advantages of every area with the Associated Students has been involved in the last year. I sincerely urge every student to weigh his decision before selecting a candidate, and when you have done this, vote.

Bob McCord

## STUDENTS TO CAST BALLOTS IN ASB ELECTION NEXT WEEK

### WOMEN'S REP AT LARGE

BARBARA BELL

While UCSB is in a transitional period of growing and expanding, I see a need for a more direct representation of the women in Legislative Council.

I feel I am qualified to be a representative having had an active part of student government in Santa Cruz Hall, serving as Vice President of my hall, being WRA representative for two years, and working on the election committee.

A women's rep - at - large should have had experience from all types of living groups—the Casitas, the residence halls, and Isla Vista—to be aware of the problems and needs of all. I have had the living experience, and if elected will do my best to insure all women of a direct communication between the living groups and student government.

Barbara Bell

The office which I am seeking involves representation of the entire UCSB student body. I feel that representation is more than occupying a seat on Legislative Council. My goal as Women's Representative at Large would be a strong and active communication system in order that the attitudes and ideas of the associated students could be voiced by their delegates.

I am a great advocate of regular visitation periods during which the students would have an opportunity to express their opinions to their respective representatives. Since I have served as Sophomore Class Secretary-Treasurer, and I have lived in the dorms for a year, and am presently a sorority member, I feel that I have had the varied experience necessary to represent each aspect of student life.

Gretchen Cox

In presenting my platform as a candidate for Women Rep-at-Large, there are several points I would like to express. The first is that Women Reps-at-Large represent not just the women, or any other segment of the student body; they represent the entire student population. Because of this responsibility, the reps must give fair and equal representation of all students. This last year I have been RHA treasurer, RHA Appropriations Committee Chairman, and also a member of a sorority. I sincerely feel, therefore, that I am closely

acquainted with several sides of student life and opinion, and could fairly represent you, the student.

This office is frequently regarded as a liaison between the students and Leg Council. In the past, office hours have been set up so that students may come in at any time to convey their opinions, complaints, and questions. If elected, I would continue this practice, but would also strive to keep in constant touch with current student opinion by seeking out the views of the various groups of our campus.

If you should elect me as Women's Rep-at-Large, I promise to provide, to the best of my ability, active leadership as a representative of the associated students

Ginny MacDonald

GINNY MACDONALD

### REP AT LARGE MEN'S

LARRY DESPAIN

The knowledge I have gained by working with Legislative Council this semester in the position of Men's Rep-at-Large would aid me in fulfilling the duties of this office in the Fall. Much progress has been made in student government this semester but more work needs to be done to make student government on this campus a recognized and vital force.

While serving on Leg. Council this past semester I have seen plans brought forth and carried out concerning the development of an Honor System, a campus radio station, holding Leg. Council meetings in various living groups, and other programs to increase communication and "grass roots" participation in student government. These ideas will continue to be of importance next fall and I would very much like to carry through on these matters next semester as Men's Representative-at-Large.

Larry C. DeSpain

DICK DOLLIVER

A Representative at Large represents the entire student body—Greeks, RHA, and Non-affiliates. However, in addition

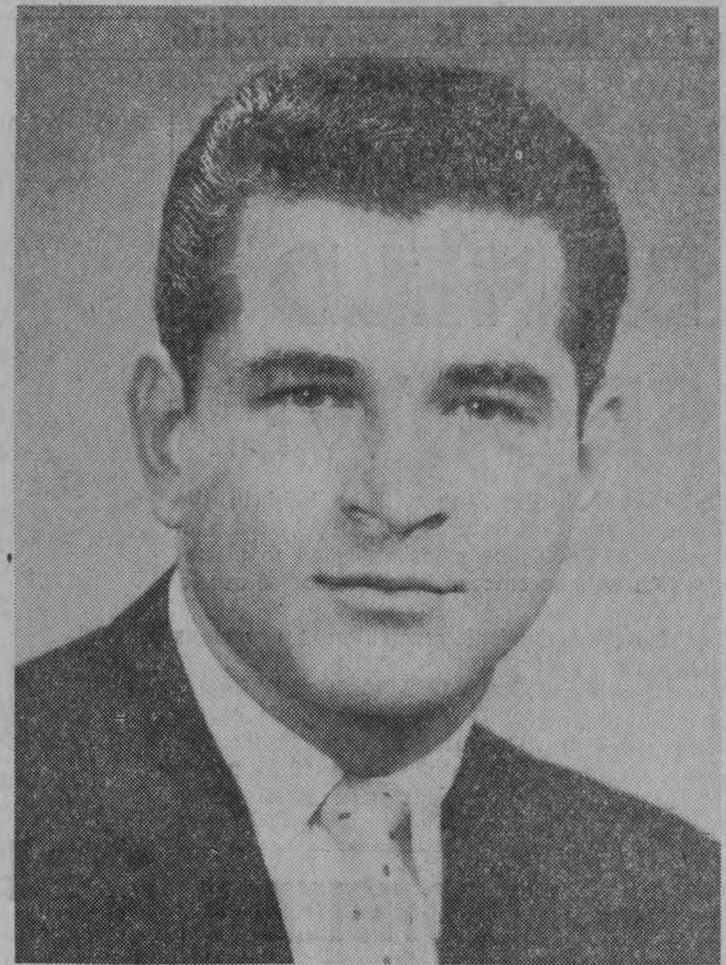

to assisting the other Representatives, he must work on projects and committees important to the campus as a whole. e.g. the campus newspaper and the upcoming radio station.

During the past year as RHA Representative on AS Legislative Council, I have become familiar with both of these increasingly important lines of communication. Also at present I am working as a member of a committee promoting the renaissance of AMS.

With these qualifications, I present myself as a candidate for Men's Representative at Large.

Dick Dolliver

## A. S. PRESIDENT

JOE SORRENTINO

Student government has often been the butt of ridicule because of the nature of its presumed functions. In each election we hear of how student government should be enlarged or the positions rendered more glorious to change this attitude. It has even been suggested that the freshmen should be indoctrinated to take student government more seriously assuming that this attitude would somehow persist after frosh camp despite the general attitude of the rest of the school.

If student government is to be taken more seriously it is my belief that student government will have to go beyond the borders of the role it now plays. Student government will achieve importance only if what it does is vital to the needs of the school and the students in their growth.

One of the vital needs of our school concerns the public image of UCSB. In the past few weeks I have sent over a thousand questionnaires to high school seniors and their parents throughout California and the bordering states. The purpose of this questionnaire was to get a sample of the knowledge and opinion this class of people has of our school. Forty-two percent of those who responded said that we were a party school. Almost fifteen percent heard that we were a teachers college. Another fifteen percent thought we still had a disproportionate enrollment. Five percent said that we were surfing oriented.

Though we know these views do not square with the truth, that they exist, nevertheless, should be of concern to us. As long as these false and distorted images continue our school will not get the recognition it is due. Ninety percent of the respondents, although they could give some image of our school, really knew nothing about Santa Barbara.

One of the consequences of our obscurity is that some of the graduate schools and parts of the business world do not regard our degree with the same value as a degree from Berkeley or UCLA. Recently Dean Diddle of Loyola Law School, giving a talk here, was explicit in distinguishing the campuses of the university. Being a branch of the university, he remarked, does not in itself give us parity with the big name campuses.

Like Dean Diddle, there are others who regard the campuses as separate colleges to be judged on their own reputation. Not a few students aware of this transfer to Berkeley or UCLA in their junior or senior year. These transfers hurt our school because the main criterion used by educators in evaluating a college is the number of students it sends on to graduate school.

How can student government step forward to help remedy this need? I would make the following proposals:

1) We could establish the AS Speakers Bureau. These student speakers would go around to the high schools giving the real and exciting picture of UCSB. They would tell about the new Education

Abroad Program being supervised by our campus, and EPIC which is unique to Santa Barbara. They would describe the brilliant lecture series and wealth of cultural programs presented by our art, music, and drama departments.

2) We could have a film made highlighting the beauty of our UCSB, showing scenes of the mall complex, the campus beach, Roberts Gymnasium, Campbell Hall, the elegant sorority houses, the impressive residence halls and off campus housing units, the library, and the panorama of the campus setting; this film could also highlight some of the colorful activities like Spring Sing, Homecoming, the pushcart races, and the Easter Relays. Someone from the Speakers Bureau would show and narrate the film.

3) We could hold an annual Invitation Day. This would be comparable to UCLA's Open House. Residents of the community and parents would be invited to spend a day at the campus. All academic departments and university services would be open for inspection. Guided tours would be conducted in certain areas; demonstrations, exhibits, and special lectures would be presented. Prominent faculty members would be on hand to greet and speak with visitors.

4) We could have an inclusive AS brochure made that would send to high school counselors. This brochure would be broad enough in scope to depict such events as Spring Sing as well as those which underscore our academic emphasis such as the instatement of prominent political scientists, William Ebenstein to the UCSB faculty and the installment of a new graduate school in engineering.

If we actualize these measures it is my conviction that our school will become the first choice of most high school students in California.

A second important need of our school is for a greater spirit of unity. We have many activities where we compete against each other but none where we identify with the school. Competing for and supporting one's own group should be encouraged above everything else because it has more meaning for the individual, but this does not mean it is without value to on some occasion do something as a school. Rivalries not balanced by some traditions which promote unity inevitably result in hostility. Let there be rivalries but in a climate of friendship and unity. Activities we might consider to innovate traditions are: 1) a student-faculty luau, which seems appropriate in view of our beach location. 2) a tug-of-war with Cal Poly 3) have IFC meet with Anacapa Council once a month.

Let student government begin to build a better image of our school; let student government begin to build a spirit of unity on campus; then student government will begin to gain respect.

Joe Sorrentino

During the past two semesters I have been a non-voting member of Legislative Council as president of the Junior Class and I have watched with interest the machinations of this organization. I am running for Men's Representative-at-Large not just to represent the men students on this campus but to shake up the apathy and the phlegmatic attitude of the members of the council. Student government at UCSB is stagnant and lifeless and I would like to add my efforts to make it what it should be.

JOHN C. LARKIN

John C. Larkin

JANICE HUTTON

At the present time, RHA Council seems to have a good communication system with the A.S. Legislative Council, through the efforts of the RHA Representatives.

However, I believe it is also the responsibility to the RHA Representatives to become aware of the needs and desires of all members of RHA. If elected as Women's RHA Representative, I would try to accomplish this total communication by attending at least two meetings and discussion periods of each women's Resident Hall unit.

I feel that communication between the students and legislative council is the major facet of student government. It would be my primary goal to keep the RHA women personally well informed and to represent their point of view on the A.S. Legislative Council.

Janice Hutton

MEN'S RHA REP

HENRY LINN

The office of Men's RHA Rep has one of the influential permanent votes on the legislative body of the Associated Students. The job entails extensive committee work and the maintaining of communications between the A.S. legislative and RHA councils.

If elected I will strive to be energetic in my duties and sensitive to the needs of the Residence Halls Association.

Henry Linn

SENIOR PRESIDENT

HAL JONES

The duties of the Senior Class Council can be divided into at least three areas. These are services to seniors, social activities, and academic or intellectual functions.

The council has certain obligations as far as service to seniors. These include providing job information, handling graduation procedures, and setting up the class alumni organization. Along this line I feel that the council should certainly continue the work begun in the past and can probably do more especially in the line of job opportunities and information.

It is in the second and third areas that I believe that a change of emphasis should be made. As far as activities such as sponsoring dances and movies, the other classes, and other school organizations do enough work in this field

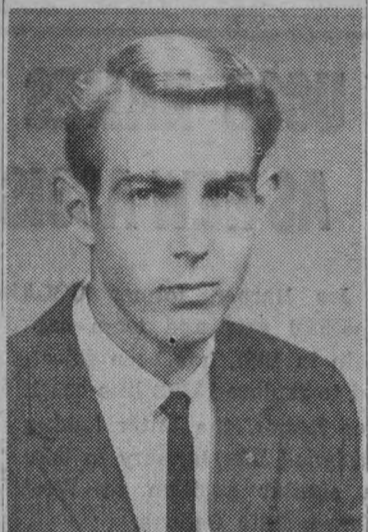

to provide adequate sore feet for all. I think that it would be natural for the senior class to take the lead in providing more intellectual functions which could be of service to class members and to the whole school.

Controversial speakers such as candidates for public office, philosophers, and speakers from special groups could add much to campus life and the Senior Class can take the lead in promoting these and similar events.

This briefly is the policy I would like to follow next year as the President of the Senior Class.

Hal Jones

JUNIOR VP

DEMPSTER BOYD

As a candidate for the Junior Class Vice President, it is difficult to present a concrete platform, for it is the obligation of the vice-president to assist and support the policies of the president. This I am prepared to do.

It is my feeling that presently the office of vice president is practically a non-functional one. I hope to alter this by more evenly distributing the responsibility between all the class officers. I sincerely wish to work for the junior class to make it a success, and I respectfully ask for your support.

Dempster Boyd

SOPHOMORE PREXY

BRIAN BURKE

The student body at the University of California, Santa Barbara is presently faced with a serious responsibility. With a growth rate of approximately twelve per cent more students per year we stand the chance of losing many of the things which make this school outstanding. Because

of the location and the great effort which has been made by the administration and students, Santa Barbara has become known as the most evenly developed of the University's campuses. Its academic rating is excellent, athletics are improving, and socially it is unexcelled.

It seems that the present enrollment size of 4,000 enables one to meet many people, and the existence of self-centered, self-sustaining groups is impossible. It is a common occurrence for a Greek to live in a residence hall or for a non-affiliate to live in a fraternity house. In a few years it will be virtually impossible for the average Freshman to meet as many people as he does now; with this change the school will lose its warmth and friendliness and gain the cold, impersonal qualities of the huge "education mills."

I feel that now is the time that the character of this school is being molded. A class must now become more than a specific hole in the IBM registration cards. The class must become a real and functioning group if in five years the campus atmosphere is to resemble at all what it is today. In order for this to happen, the class must be brought together by means of established traditions such as Frosh Camp and Frosh Indoctrination and by the initiation of new ideas such as the present Sophomore Class's "Slave Sale."

In essence my platform is that we, the Class of '65, not only can but must take the leadership in acquiring for our school all the many advantages which will come from being a large college and work to minimize the disadvantages.

Brian Burke

RON COOK

As election time draws near, we, as members of the class of '65 must once again choose the officers that will lead us through the coming year. The perennial cries of student apathy and lack of interest are bound to be heard. I am confident that student "apathy," in general, does not exist. The experiences of the past year have shown me that when activities are presented in an appealing manner students are willing and anxious to play a part in them.

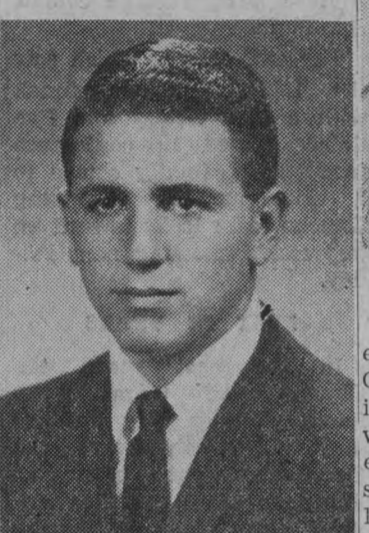

Class government has a tremendous potential — a potential that should be used

to promote these types of activities. The only question is — how can this potential be developed?

Let's take an example of what should be done. One of the first problems confronting the Sophomore Class will be Freshmen Indoctrination. As it stands now, this traditional class activity will be taken over by the Frosh Camp Staff, simply because the Sophomore Class has not used its potential to handle the indoctrination program effectively. We must start working now to show our interest and ability in sponsoring this program and by a united effort keep from losing one of our most important activities.

In conclusion, four of the basic points of my platform are—(1) retaining Frosh Indoctrination as a Sophomore Class activity. (2) Initiating a monthly Sophomore Newsletter. (3) Promoting both more inter-class rivalry and inter-class cooperation. (4) Sponsoring not necessarily more activities, but better organized and more appealing ones. I hope you will give me the opportunity to try to put these into effect.

Ron Cook

STAN ORROCK

As a candidate for Sophomore Class President, I pledge to support and fulfill the following platform.

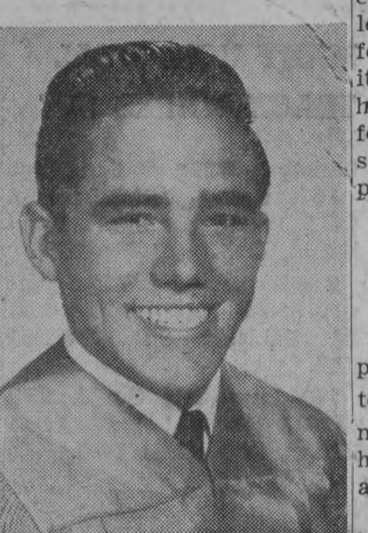

I shall try to promote activities within the class and school that will raise revenue for the class of 1965. I feel

that we must have more activities in order to unite the class and to promote class spirit.

I shall work to promote intra-class communications so that each member of the class will feel a part of the class and thus take an active interest in our events. I shall try to make my administration, if elected, a dynamic one. One that is active in planning events for the class and one that is active in school government and school events.

With our school growing larger, the role of class presidents will become more and more important. Looking forward then, I pledge all my abilities and energies to make our class a class that will be remembered. I ask for support and votes.

Stan Orrock

RON VAN WERT

Many of our early experiences affect our entire lives. One of the most exciting and instrumental experiences that we encounter is our college education. The goals that we seek are many times formulated and started during our college career. College itself is a great goal that many are unable to reach.

To some, the sophomore year will be the last, to others it will be the beginning of further education. Whether the last or the beginning it is important to us as individuals. It will be a force in forming our background in later

life. It must present to us incentive and challenge so that we will be able to meet opposition and disappointments as we enter our life's work. We will have passed the year of being dazzled freshmen and will feel more a part of our school. Because of the better understanding of ourselves and our school, we will be able to make decisions that will be pertinent both to ourselves and to our school. We will actually be a part of our student government, to listen and to give ideas that will increase the importance of our education.

Working together is essential in order to derive the full benefit of our college education. Better planning, better functions, and better government are a result of active participation. There will always be leaders and followers who will present ideas and leaders who will accept differences of opinion. If elected, it will be my obligation and honor to work with you and for you so that we can truly say that each of us was a part of our school.

Ron Van Wert

SOPHOMORE VP

Our class of '65 has a great potential, but before our potential can be realized, we must first become united by having more and better class activities.

Whether we're selling green beans or sponsoring an all school dance, activities unite class by giving us the opportunity to know one another, to serve our university, to have fun, and to take pride in our class.

Our class vice-president could be instrumental in developing a worthwhile and enjoyable activities program

MARTHA DAVIS

for our class. As Frosh publicity chairman and Frosh Council member, I've had the opportunity to serve our class, and if I'm elected sophomore class vice president, I will do my best to bring about more and better activities for the Class of '65.

Martha Davis

CHERRY JAMES

They say it is only possible to please all of the people some of the time and some of the people all of the time. If elected Sophomore Class Vice President I will try to please all of the sophomores the majority of the time. In other words, I will be your tool in producing a more unified, spirited, and active sophomore class. I will develop better communications between our class and its council and work enthusiastically toward spirited activities distinguishing our class "in the zenith."

Cherry James

CANDIDATES FOR ELECTION

More on Page Six

Dear Susie,

Welcome back to S. B. after that well deserved Easter vacation. I hope you had a nice time and brought back a good sun tan from all those resort areas that you visited. Now it's time to prepare for those finals which are coming up in a few short weeks. Aside from exams, this time of year brings up many things for us to think about.

Susie, for the AWS Banquet Lou Rose has an appropriate two-piece outfit by Miss Pat for only \$13.95. The blouse can be worn in or out, the skirt is full, and it comes in three lovely shades - lemon, blue, and watermelon. The dress has a matching orlon sweater - detailed with lace edging for \$11.95.

With Spring Sing being Saturday, Lou Rose has an appropriate outfit of dacron and cotton which would be perfect to wear. It comes in a faded denim color — which is the big craze this spring—trimmed with red buttons and a red belt. You have a choice of a slim skirt which is \$8.95 or a circular stitched-down pleated skirt for \$11.95 to combine with the blouse.

Susie, with all the fraternity and sorority formals coming up within the next few weeks you should be thinking about what to wear. Simplicity in your dress is the smartest look this year. L.R. has a silk linen sheath dress which "fills that bill." It is a sleeveless dress with a jewel neckline and matching double-tie belt. It is so rich looking and when completed with accessories would make you the hit of the dance. This dress comes in aqua, black, beige, and white — the price is only \$25.95.

Well, have a nice time this weekend. Come in and see me this Saturday afternoon.

CRAM COURSE NO. 4: BATHYMETRY

Continuing our series of pre-final exam cram courses, today we take up bathymetry—the study of ocean depths.

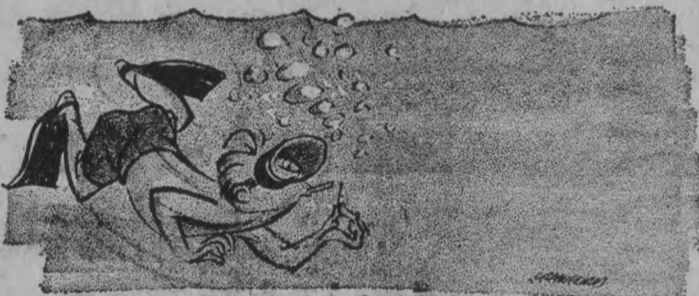

Admittedly, this is not a terribly popular course on most campuses. And small wonder. In the whole world there is only one bathyscape, and only two people can get into it.

Nevertheless, the study of ocean depths is of great importance. Why, do you realize that the ocean is by far the world's largest biological environment? The ocean has more than three hundred times as much living room as all the continents and islands combined! Unfortunately, only fishes live in it.

And small wonder. Who'd want to live some place where he couldn't smoke? Surely not I! I wouldn't give up my good Marlboro Cigarettes for the Atlantic and the Pacific put together. Nothing could induce me to forego Marlboro's fine mellow flavor, Marlboro's clean white filter, Marlboro's flip-top box that really flips, Marlboro's soft pack that's really soft. Let others repair to the spacious deeps. Me, I will stick with my Marlboros and the tiny garret I share with a tympanist.

But I digress. Back to the oceans. The largest, as we know, is the Pacific, which was discovered by Balboa, a Spaniard of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

Even more astounding, when Balboa reached San Francisco, he clearly saw the Hawaiian Islands! Being, as we know, a friendly cuss, Balboa waved merrily to the Hawaiians and shouted, "Great little ocean you got here, kids!" The Hawaiians, also, as we know, friendly cusses, waved back, declared a half holiday, organized a luau, built a cheery fire over which they prepared several gallons of poi, a suckling pig, and Captain Cook. This, of course, was the origin of Cooking.

Who'd want to live there?

But I digress. The Pacific, I say, is the largest ocean and also the deepest. The Mindanao Trench, off the Philippines, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a noted British sea measurer of the seventeenth century who, upon his twenty-first birthday, was given a string six feet long with which he used to go scampering all over England measuring sea water until he was arrested for loitering. A passion for measuring seems to have run in the family; Fathom's cousin, Sir Sol Furlong, spent all his waking hours measuring race tracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Masefield said, go down to the seas again. (The seas, incidentally, have ever been a favorite subject for poets and composers.) Who does not remember Tennyson's "Break, break, break"? Or Byron's "Roll on, thou dark and deep blue ocean, roll"? Or the many hearty sea chanteys that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka." My own favorite sea chanty goes like this:

A girl loved a sailor and he did jilt her, And she did weep and roar-ho! Until she found a perfect filter, And a perfect smoke—Marlboro! Sing hey, sing ho, sing ring-a-ding-ding, Sing tars and spars and patches, Sing pack and box and lots to like, And don't forget the matches!

© 1962 Max Shulman

The landlocked makers of Marlboro wish you smooth sailing through your final exams and smooth smoking—with Marlboro, of course. Have YOU settled back with a Marlboro lately?

# GAUCHO BASEBALLERS FLOUNDER, MEET FRESNO ST. IN UPSET TRY

**By ROBERT WALTER**  
The UCSB baseball team continues its travels as it invades league-leading Fresno State for a three game set this weekend. The Dave Gorri-led Fauchos have been resting the past week after splitting a doubleheader with Vandenberg AFB and dropping a single game to the new Santa Barbara Rancheros during the spring break.

**TEAM SPLITS**  
The Launchers from Vandenberg won their first game of the season as they bested the Gauchos in the first game of the doubleheader, 5-4. It was a cold, windy day and the Santa Barbara bats were just as cold. They came up with only five hits in the seven inning skirmish and three of those came in the first inning. The Launchers scored the winning runs with a bases loaded triple in the fifth to tag Frank Serena with the loss.

The second game was a bit livelier, at least for the Gauchos as they went ahead in the seventh, eighth, and ninth innings of the scheduled seven inning game, only to have Vandenberg tie the score except in the ninth. George Maguire pitched hittless ball at the Launchers for six innings even though they came up with two runs in that period. Joe Hendrickson, however, picked up the win as he came in to relieve in the seventh.

**FIRST RUN**  
Santa Barbara picked up its first run in the fourth on a walk, a single by Mike Fisher, and an infield out. They then scored two more in the seventh on another walk, a sacrifice turned into a fielder's

choice, a hit by Barney Eames and an error. They then went out ahead again in the eighth without a hit and finally wound it up with a two run rally in the ninth. John Prodahl led off with a walk, was sacrificed to second, and went to third as Gary Shoup got on on an error. Fisher got his second hit to drive in one run and the second scored on a sacrifice fly to deep center allowing Shoop to score all the way from second.

**RANCHEROS WIN**  
The weather was nicer in Santa Maria where the Gauchos were entertained by the Rancheros, but they couldn't take advantage of it as they went down 5-4. An inside the park homerun to deepest center by right fielder Hank McGraw allowed three runs to cross the plate in the fifth to spell doom for the UCSBers.

## Netters Meet Long Beach St.

UCSB's fighting net crew, under the tutelage of Coach Ed Doty, swings into action tomorrow with a meet against Long Beach State, seeking to better its league record of 3 wins and two losses.

The Gauchos all but did in co-league leader San Diego State but finally had to settle for a 4-3 setback, though superlative tennis by Lee Reid, Mike Hall, and Mike Garrigan was almost tantamount to victory.

**OJAI TOURNEY**  
Reid and Don Gaynor, the two big guns of the local aggregation, are in Ojai today taking part in the Ojai Invitational, attempting to bring back a winner to UCSB.

## MANY UCSB DUAL TRACK MARKS SET

**Varsity — UCSB vs. San Diego**  
Mile run — Mike Dragila, 4:23.5 (SDS), old mark, Hugo Nutini, 4:25.3 (UCSB) 1952.

**2 mile run—Jim Montgomery**, 9:42.5 (SDS), old mark, Ed Fabisak, 9:51.6 (SDS) 1959.

**220 lows—Bill Gould**, 23.9 (SDS), ties old mark, Bob Mahon, 23.9 (SDS) 1952.

**Frosh — UCSB vs. San Diego**  
440—Fred Velez, 50.2 (UCSB) old mark, Jack Burdullis, 51.1 (UCSB) 1961.

**Mile Relay—UCSB** (Barnum, Marshburn, Clayton, Velez) 3:28.6, old mark, San Diego, 3:31.2, 1960.

**Frosh—UCSB vs. Cal Poly SLO**  
220—Jim Clark (UCSB) ties record with 22.5.

**880 — Fred Velez** (UCSB) sets record with 1:59.8.

**Mile—Bob Jordano** (UCSB) sets record at 4:31.9.

**120 HH—Gary Walker** (CP) sets record with 15.0.

**Discus—Inge Saemundsson** (CP) sets record at 128.6.

**Mile Relay—UCSB** (Marshburn, Clayton, Barnum, Velez) set record at 3:26.8.

## TODAY, TOMORROW - MT. SAC RELAYS

# GAUCHO SPIKERS CRUSH POLYTECHNIC MUSTANGS

Displaying their strongest showing of the season in their last dual meet, a much improved vanguard of UCSB trackers under Coach Nick Carter dumped the Cal Poly crew from San Luis Obispo by an 82-49 count in the northern city.

Carter's couriers parlayed superior depth and a number of come through performances to turn the trick. Steve Strauss and Bill O'Neill traded victories in the 100 and 220 respectively, while posting identical times of 10 flat and 22 flat.

## Tough Golfers IN CCAA Final

**By STEVE SWATT**

It's every man for himself come next Friday's CCAA Golf Championships which will be held at 8 a.m. on Los Angeles State's home course, Annadale.

The golf season, which saw the UCSB linksmen finish with a four victory and five defeat record in conference competition, finally comes to a close as the surprising Gaucho team looks toward an impressive showing next Friday.

## BEST IN YEARS

In the past years, the Gaucho golf teams have found victories very difficult to obtain, but this season the Gauchos whipped both San Fernando State and Los Angeles State twice, while also defeating the non-conference Marine Corps.

The San Diego Staters, who smothered the Santa Barbarans by the count of 48-6, are the pre-tournament favorites; however, the men from Cal Poly have an outside chance of becoming the CCAA champs. San Fernando State looms as the occupant of the cellar, with the remaining teams bunched in the middle of the pack fighting for third place.

Yesterday the Gauchos played host to the men of Arizona, and Monday the local golfers challenge the Bruins of UCLA in a tune-up for Friday's championships.

## UCSB NAMES JOE HARPER AS NEW ASSISTANT COACH

Joe Harper, former UCLA football star and team captain in 1957, has been selected to replace UCSB line coach Joe Rector, the latter having resigned last January to take a similar position at West Texas State College.

While at UCLA, Harper won three letters in football and in rugby, and received his MS degree from the same school in 1960 in physical education. His thesis concerned the "Effects of Circuit Training on Speed, Endurance, and Striking Ability of Football Players."

Harper brings an outstanding record to the local campus having served as assistant frosh football coach at UCLA during 1959 and 1960. From February to June, 1960, he served as assistant football coach at Riverside City College, and was promoted to head coach in his first year.

During his tenure as head coach, Harper brought home an 8-1 record and captured the Eastern Conference championship plus participating in the National Orange Show Bowl Game.

Harper was also selected by his colleagues in the conference as "Coach of the Year" of that loop.

# SWIMMERS SHOW GREAT PROMISE FOR NEXT YEAR

The UCSB swim team finished its 1962 season by taking 6th place in the CCAA swimming championships held at Los Angeles State College April 12, 13, and 14. The meet was won by Long Beach State which had one of the finest teams ever to enter CCAA competition. Long Beach defeated last year's champion Cal Poly (SLO) 152½ points to 85. The only other school to come near the top two teams was Fresno State with 67½ points. Conference records were broken in every event save the 100 and 200 yard backstroke.

While UCSB swimmers did not figure high in the scoring columns every member of the team turned in his best time of the season. Every school record was broken save the marks set by Rick Petterson in the 50 and 100 yard freestyle last year, and the mark held by Blair Ballard in the 220 yard freestyle. Coach Frank Rohrer feels that the 1962 Gaucho swim club is the best team that has coached here at UCSB. Mr. Rohrer attributes the top performance of his swimmers to the two day workouts that were held for three weeks previous to the CCAA meet. The swimmers hit the water every morning at 6:45 for a distance workout, and in the afternoon at 4:00 for interval sprints. Coach Rohrer feels that this team has set the pattern for future UCSB swim teams by showing not only improvement but also a will to do hard work.

Dave Linden, Mike Schiesel, and Jim Gibbs each broke two UCSB swimming records while swimming in the conference meet. Linden set his first mark while qualifying sixth in the 1500 meter freestyle. His record of 20:24.4 is new to the UCSB record books, for Linden is the first UCSB swimmer to ever qualify in that event. Linden also broke Blair Ballards old record of 5:10.8 in the 440 yard freestyle by going 5:05.0. Schiesel broke Don Smith's old record of 1:06.5 in the 100 yard backstroke with a time of 1:06.0. The old 200 yard backstroke mark of 2:30.5 also held by Smith was smashed by Schiesel in a time of 2:25.5 seconds.

Freshman Jim Gibbs, who can be considered one of the most improved swimmers on the team, qualified third in the heats of the 100 yard breaststroke to set a new school record of 1:08.1. The old school record of 1:15.7 was held by Steve Francis. Gibbs took fifth place in the finals. In the 200 yard breaststroke Gibbs really came down breaking his own school record of 2:36.9 by going 2:31.0. Gibbs performance was not enough to qualify in this year's highly competitive meet.

John Crow, another freshman, turned in an outstanding performance in his heat of the 100 yard butterfly by qualifying first with a time of 57.6. This broke the old school record held by Nelson Nakaji of 1:11.0. Crow took third in the finals of the event with a time of :57.5. The winner of the 100 fly, Chuck Babcock of Long Beach State, turned in perhaps the best time of the meet by going :54.6 for the distance.

Freshman Chris Smale who just missed qualifying in the 200 yard fly broke the old school record in that event by going 2:29.0. The old record of 2:33.3 was set by Rick Petterson last year.

The 400 yard medley relay team of Schiesel, Gibbs, Crow and Nelson, broke the old school record in the event of 4:16.8 by going a 4:05.5 to take fourth place in the competition. The only UCSB swimmer to qualify in the meet was Frans Nelson who took fourth place in the 50 and 100 yard freestyle events. Other UCSB swimmers to turn in their best times were freestylers

## SUPPORT YOUR TEAM

### SHOOTIN' THE BREEZE

By Geoff Smith

Identification with a symbol of youth is important to the young man in any culture, and as David Reisman points out in his tome, *The Lonely Crowd*, group identification is paramount in the realization of this facet of life.

I am sadly sentimental today, as the HAC, the Hillsborough Athletic Club, has passed off the scene after holding court as the diadem of youthful attraction for the past ten years.

Located at the crossroads of the world, Hillsborough, California, the club simply consisted of a basketball court, two tennis courts, and a two acre grass field. Now "progress," in the guise of unnecessary school buildings, threatens extinction for the HAC. Though the HAC, within a stone's throw of many a local swimming pool, did not present an imposing physical facade, nonetheless, it has shaped the lives of many of the Young Lions of the surrounding areas, from San Francisco to San Jose.

The HAC was always there as a sanctuary of escape from the troubles of the world, and a growing kid had many of these.

The HAC existed, per se, for the past seven years, initially getting its start under the guidance of the Imperial Wizard of San Mateo, X. Morgan "Terry" McGrath, known to many sports fans as the individual who, while dressed as Santa Claus, calmly toppled a ticket booth at a San Francisco 49er football game five years back. Mr. McGrath, now serving as a Los Angeles consultant for the Wall Street Journal, also served some time for offering candy to the wrong people. However, the "Baron of Borough," as he was affectionately known to his cronies, set us up at the corner of El Cerrito and Stonehedge, and the HAC was born.

The HAC flourished, nurtured by the constant thud of ball against backboard, of tennis racket bouncing off the screen, of men training their dogs to be retrievers, of the old "bull sessions." So it went that the site came to be the gathering place for literally hundreds of young, aspiring jocks, and old, washed-out ones.

Soon, many were coming from miles around to take part in the festivities. The place was filled from 9 in the morning to late in the afternoon, action was constant.

Once McGrath even had the idea that the HAC should have a gigantic score-clock hung from the sky in the midst of the casaba court. And he commissioned the younger members to pass among the neighborhood collecting bills for "a worthy cause." It almost worked. Until the HPD (police) found out about it. Then it was constant surveillance for our group. However, nothing stopped us. Fun was rampant during this time—malicious mischief: borrowing bikes and riding them through big San Mateo Dept. stores, throwing the water balloons from the apartment, chug-a-lug baseball, football, basketball, softball, tennis, volleyball, track and field—yes everything.

Now, you probably think that many of the graduates of HAC are behind bars. Not so. One individual went into the seminary, quit, went to USF, quit, went in the seminary again, and now is in the Central Intelligence Agency for Uncle Sam. Another pair both graduated from Stanford cum laude. We have an alumni who is a successful lawyer. One is a garbage man who makes more than the lawyer. Most of them are now students scattered at Oregon, Nevada, Stanford, Cal, and at all points of the compass.

So it is . . . a shaping force that is ceasing to exist at the hands of the big bureaucracy. The HAC—the institution that today celebrates its thirteenth birthday, and tomorrow sinks into oblivion . . . Thank you.

Chuck Lieberman, Don Wright, Dave Filer, John Thurston, Dennis Frisbee, and Pete Mullen. Breaststroker Pete Sternloff and Backstroker Doug Reiman also showed improvement. Sternloff, the teams only senior was also chosen team captain for the year.

## FINAL RESULTS

- 1) Long Beach St.—152½
- 2) Cal Poly (SLO)—85
- 3) Fresno State—67
- 4) San Diego St.—30
- 5) Los Angeles State—23½
- 6) UCSB—19

## INTRAMURAL SWIMMING SET RECORD TURNOUT EXPECTED

Ray Thornton and Jack Wilmore of the Intramural office announce that the water will boil today as the third annual Intramural swim meet will hold forth at the campus pool. Thornton relates that an exceptionally large turnout is in store as the race for the All-sports trophy goes down to the wire.

The rules that have been assigned for the swim competition, getting underway at 3, include the following:

1. All swimmers will be assigned to lanes by a blind draw. Lane assignments for all entries will be conveniently posted on the pool walls. It is the individual's responsibility to know which lane he is swimming in.

2. Swimmers must be at the starting blocks at the first call for the event in order to receive instructions from the starter. Swimmers not reporting promptly will be scratched from the event.

3. The fastest six places in each event will be decided according to the six fastest times in the heats. Because of the time required for the meet, no finals will be swum.

4. All swimmers, when not participating in an event, must remain in the areas designated for spectators and contestants.

## DIVING RULES

The pool will be open at 2:00 p.m. for the divers to take warmups with no warmups being allowed after 2:45. Divers must correctly list the name of the dive, class of dive, and degree of difficulty, to be handed in to the judges before 3:00 p.m.

Each diver will be permitted two dives in the preliminary judging and those divers with the six highest scores on the two dives will enter the finals, at which time they will complete their third dive.

Each team, reports Thornton, is responsible for providing one official, non-participating, for the swim meet, while all officials must report to the lifeguard room on the pool deck no later than 2:30 p.m. to receive instructions. NO TEAM WILL BE CONSIDERED IN THE SWIM MEET THAT DOES NOT HAVE AN OFFICIAL AT THIS MEETING.

## Emergency Phone Number

## Frosh Spikes Trample Tangs

The Gaucho frosh track team, displaying consistency and another superlative performance by Jim Clark, rolled to a 79-50 win over the Cal Poly crew at San Luis Obispo last week, and today, enter a mile relay team in the Mt. San Antonio College relays.

Clark, one of the most enduring performers seen hereabouts of late, was all over the track not for the first time this year as he piled up 26 points while pacing Coach Adams' Blue and Gold spikers.

The fabulous freshman copped the javelin with a toss of 170-11, the 100 yard dash in 10.5, the 220 in 22.5, and the broad jump at 20-3½, while placing second in the discus.

No small part of the victory was the frosh victory in the mile relay in the new school record time of 3:25.8, as Taylor Clayton, Fred Velez, Larry Barnum, and Dave Marshburn toured the course in a victorious effort.

In other results, Bob Jordano of the locals took the mile in a good 4:31.9, Barnum copped the 440 in 51.8, John Siamas won the high jump at 5-8, Velez sped to a 1:59.8 880 meet record, and Gary Griggs won the lows in 25.7 while tying for the top spot in the pole vault with a 12 even mark.

## WATER POLO COMMENCES

Coach Frank Rohrer has announced that formal spring water polo practice will begin Monday, April 30. Rohrer, noting that depth will serve as the key to the Gaucho's 1962 tank chances, is looking forward to seeing as many new faces as possible at the pool at 4:00 p.m. on Monday.

Last season, the natators finished with a six and two record, attaining the highest won-lost percentage of all UCSB sports, while being led by high point men Mike Schiesel, Blair Ballard, and John Crow.

The addition of several transfer students, led by All-American Julian Marx, and the improvement of such frosh and sophomore standouts as Franz Nelson, Mike Goodwin, Will Wynn, Bruce Jones, and goalie John Barkard, gives this fall's team a fine chance to finish with an improved mark over the fine record of last year.

## Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

First field trip

## LESSON 7 - Keep moving

One of the most important rules of girl watching is this: keep moving. In fact, it is always a good idea not only to move, but to appear to be going somewhere. (This is especially important on group field trips.) Beautiful girls, although they enjoy being watched, are instinctively suspicious of strollers and downright fearful of loiterers.

The man who is walking briskly, who looks like he's "going places," makes a better girl watcher. For one thing, he sees more total girls and in the end he enjoys his hobby more. (If you are planning an extended field trip—to Paris and Rome, for example—be sure to pack a couple of cartons of Pall Mall.)

## EDITORIAL COLUMN

### El Gaucho or University Post

Last semester, action taken by the Associated Students Legislative Council resulted in the involuntary demise of the El Gaucho, and the creation of the University Post. The intention behind this drastic move was to improve the UCSB newspaper.

Consistent with this intention, it was felt that changing the name of the newspaper was an essential part of the new regime.

However, most of the subsequent controversy over the change of name ignored the motive underlying it. Instead, the debate revolved around considerations of esthetic or tradition. Perhaps these are the only considerations of any importance.

### On Student Elections

April is the cruellest month, breeding student politicians out of the dead land, mixing posters and promises. Into the wasteland of student politics, the candidates creep on stealthy feet. Will the campaigns be based on issues, or on personalities? On ideas, or on social and residential affiliation? Are the people presently running for office motivated by ability and the desire to serve, or by social, fraternal, and residential obligations, or by the need for personal glory? These are some of the questions the student voters should be considering now.

Ideally speaking, the primary obligation of the candidate is to the student body as a whole—to the majority of the voters.

Realistically, some of the people will be put in office largely through the efforts of the organization they represent—RHA or Greek. As far as voting power is concerned, however, the outcome of any student election is still within the influence of the individual student. There are certain demands that the voters, in order to protect their interests, can place before the candidates.

If the candidates for offices in student government possess past political records or experience, they should be prepared to discuss and defend every aspect of that experience. If issues that are relevant to student government arise before or during the election campaigns, the candidates should be prepared to take an official stand on the issues—a stand which could be checked against their behavior in office, should they be elected. Controls should be placed upon the financial outlays of each candidate's campaign. No candidate should be granted special campaign privileges because of extra-curricular affiliations or the lack of them. And finally, each candidate should be expected to demonstrate a genuine ability and interest in student government, as well as the desire to be elected.

In the affairs of men, nothing excels time as a furnisher of perspective. It now seems obvious that the reputation and value of a newspaper can neither be produced or diminished by a mere label. The merit of the UCSB newspaper is in no way connected with its name.

Consequently, the present newspaper staff is not committed to either the name El Gaucho or the University Post. We are only committed to serving the Associated Students of the University of California at Santa Barbara. Next week, voters in the A.S. Elections will decide the future name of our newspaper. We will continue to serve proudly, whether under the banner of the El Gaucho or the University Post.

Keith Porter

There are many shortcomings within the present structure of student government that should be corrected as part of the "Design For Growth" of the UCSB campus. A sufficient system of checks and balances is lacking; the complete change-over in student offices each spring too often creates a student government made up of inexperienced people; and the various powers are often delegated arbitrarily.

Until such corrections are made, every possible safe-guard should be taken during the election campaigns to assure the voters that only the most qualified and responsible students are allowed to seek office.

These ideas are not offered as absolute campaign rules, but as a possible basis for constructively organized campaigns. As a student newspaper, the University Post (alias El Gaucho, alias Write-in), welcomes and encourages additional suggestions or opposing views concerning student government, or any issue pertinent to the UCSB campus.

Dennis Green

### SOPH SEC-TREAS.

DONNA DUNCAN

Fellow members of the Sophomore Class to be:

To begin with, I am a candidate for the office of Secretary - Treasurer of our class. I am very interested in our student government here at UCSB. But, I am even more interested in what the sophomore class as a whole might do to provide for a better campus. I would like to take part in the time and effort that must be put forth to achieve the things that seem to be lacking on this campus.

First of all, the main thing we need in order to achieve any progress is strength and unity. It is my belief that more class fund raising projects and recreation activities would give us a little more of that needed unity. I also feel that more publicity should be efficiently and effectively put out by the leaders of the class. Here again, more unity will become easier and other members will know what is in the future for their sophomore class.

Although my main duty as class secretary - treasurer would be to keep an efficient and accurate record of all activities and funds, my second duty would be to help plan these projects. The reason I am running for this office is that my interests lie in both areas. Our freshman class is much larger than any of the others and has much potential. But, it is lacking in strength. I would like to see

it gain this strength and unity in the coming year. Wouldn't you?

Donna Duncan

### SORORITY REP

CHRIS GILL

The office of Sorority Rep requires one to detach herself from her own sorority and to equally represent each of the eight houses. I feel there is a compelling need for the interests, ideas, and feelings of all the houses on campus to be made known and for the Greek system to be represented effectively before the student body. The needs of the sororities can be met and dealt with if they are known, presented effectively, and sensibly felt on campus. I feel that because I am aware of these areas I can help to provide avenues of approach for all the houses and not only have equal representation but also to advance and grow along with this fast-growing university.

On this campus I have served on the Special Events Committee as homecoming parade chairman, Jr. Class Council, and on Frosh Camp staff. Because of this experience I feel I have the background in the workings of our student government. I also serve as Panhellenic delegate, and this puts me directly in contact with the needs and interests of all the houses.

If you choose to elect me I will devote my time to insuring all the houses of active and direct communication

with Legislative Council, and earnestly endeavoring to show the effectiveness of the Greek system.

Chris Gill

The sorority rep must work for the good of all sororities. She cannot be swayed by the sorority with which she is affiliated. A sorority rep must have experience working with the Greek system. This experience gives her insight to problems that may arise from rash decisions.

For the past year I have worked with Panhellenic, the core of the sorority system. This experience has been invaluable to me. I would like to combine an unbiased opinion and experience together with my enthusiasm to serve as your sorority rep.

Nikki Huber

NIKKI HUBER

Legislative Council need a strong liaison. The sorority rep serves as this liaison between Panhellenic and Leg Council to negotiate business for the best interest of all concerned.

In the past many policies have been made concerning Greeks. At times the Greeks were not fully aware of these policies, let alone the obligations. It is the duty of an efficient sorority rep to keep the Greeks informed of legislative action. If the Greeks are aware of policies formed by the students themselves, they will be ready to support and strengthen them.

Published semi-weekly every Tuesday and Friday during the school year, except during vacations and exam periods, by the Associated Students, University of California, Santa Barbara. Printed in Goleta by the Goleta Gazette.

Entered as second-class matter on November 10, 1954, at the post office at Goleta, California, under the Act of March 3, 1879.

Since World War II, California's population has increased from 9.3 million to 15.5 million.

## 'Operation Abolition', Response Slated For Wednesday Showing

"Operation Abolition" and "Operation Correction," two examples of the use of films as propaganda, will be shown next Wednesday in Campbell Hall from 3:30 to 5 p.m.

"Operation Correction" is the American Civil Liberties Union response to the House on Un-American Activities Committee's film, "Operation Abolition."

Ernest Besig, Executive Director of ACLU of Northern California and narrator of "Operation Correction," has argued that the committee's film and narration were skillfully designed "to create the impression that all who oppose the committee are either Communists or Communist dupes."

Besig contends that events occurring on Thursday and Saturday were spaced in "Operation Abolition" to create the impression that they immediately preceded the riotous climax on Friday, and to imply a direct relation between the student demonstrators and identified Communists subpoenaed as witnesses.

"Operation Correction" uses the original film, "Operation Abolition" with the same sequences and positions. The ACLU has cut out only the old narration and the comments of the Congressmen, and has substituted completely new narration.

According to the Associated Press, "The effect of the contradicting narration in "Operation Correction" is to make the same pictures tell completely reversed stories."

The ACLU News explained that sub-titles have been furnished to show how scenes have been rearranged to falsify the facts and to indicate the day on which scenes were actually photographed.

This special showing is free to students, faculty, and staff of UCSB.

### STUDENTS INVITED TO RADIO MEETING

Any students interested in the Campus Radio Station please meet with Bill Harrison in the A.S. Conference Room Monday, 7:30 p.m. April 30.
