

## ZYTOWSKI AND BROWNING TO OFFER FACULTY RECITAL

"Die Schone Mullerin" (The Lovely Maid of the Hill) is the title of the song cycle which will be performed by Carl Zytowski, tenor, accompanied by Lloyd Browning at the piano. The first UCSB faculty recital of the semester will be presented Wednesday, Oct. 11, at 8:30 p.m. in the campus auditorium. Admission is free.

## Homecoming Activities Announced

Several events of special interest will be featured throughout Homecoming Week, an annual affair, slated this year for Oct. 20-29.

An assembly of the students will be held at noon Friday, Oct. 20, to select the Homecoming Queen. At this time, the various candidates sponsored by women's living groups will be presented to selected judges and the students. The judges choose four finalists and the students vote, in turn.

### GGR

Later on in the week, a series of skits and other extraneous campus talent is presented in the Galloping Gaucho Revue, Oct. 26-27. Trophies for the skits judged outstanding will be presented during intermission Friday night, while the identity of the Queen is revealed Thursday.

### Float Building

Homecoming Week is climaxed by the parade and football game Saturday, Oct. 28. Preparations for the parade begin Friday night in Pershing Park where the various floats are built and decorated, while the actual parade begins at 2:15 Saturday afternoon. The football game features the Gauchos and the Occidental Tigers.

## HOLLISTER TO GIVE HIS "LAST LECTURE"

Dr. Hollister will give a lecture in the music building auditorium, room 1145, Monday, Oct. 9, at 4 p.m. This lecture is the first of the Last Lecture Series put on each month by the Associated Women Students.

Each speaker reveals those ideas which he would impart to the public if he knew he were giving his last lecture.

Dr. Hollister is an assistant professor of history specializing in Medieval Europe.

## SENIOR SNAPSHOTS

Senior pictures for La Cumbre are now being taken by the campus photographer. All pictures must be taken by Nov. 6.

The photography office is located next to the barber shop in the student union.

The poetic lyrics to Schubert's song cycle were written by Wilhelm Muller. Composition of the songs probably began late in the summer of 1823 when Schubert was recovering from a serious illness, and it was completed before the end of the year.

Muller published his poems about two years earlier as the first part of a collection entitled "Poems Found in the Posthumous Papers of a Travelling Horn Player."

### Origin

It is said that the poems originated as a kind of charade acted out by members of Muller's family. From these, Schubert selected 20 poems for his song cycle.

Zytowski, associate professor of music here, translated the cycle into English early this summer as part of a continuing research project of translation of operas and song cycles. He had previously translated and performed Schubert's other great cycle, "Die Winterreise."

"A drama is revealed to us in a series of lyrical moments," Richard Capell writes of the song cycles. "The Lovely Maid of the Mill" tells the story of a young miller experiencing love for the first time.

At first, the object of his attention does not respond but eventually his ardor persuades her. But, alas, the maid proves to be fickle, and the young man, in his despair, drowns himself in the brook that has first led him to her.

## FACULTY ART SHOW BEGINS TOMORROW

The annual Faculty Art Show, at which work of members of the department of art at UCSB is displayed, will open today in the gallery in the art building.

The public is invited to the exhibit opening from 2 to 5 p.m.

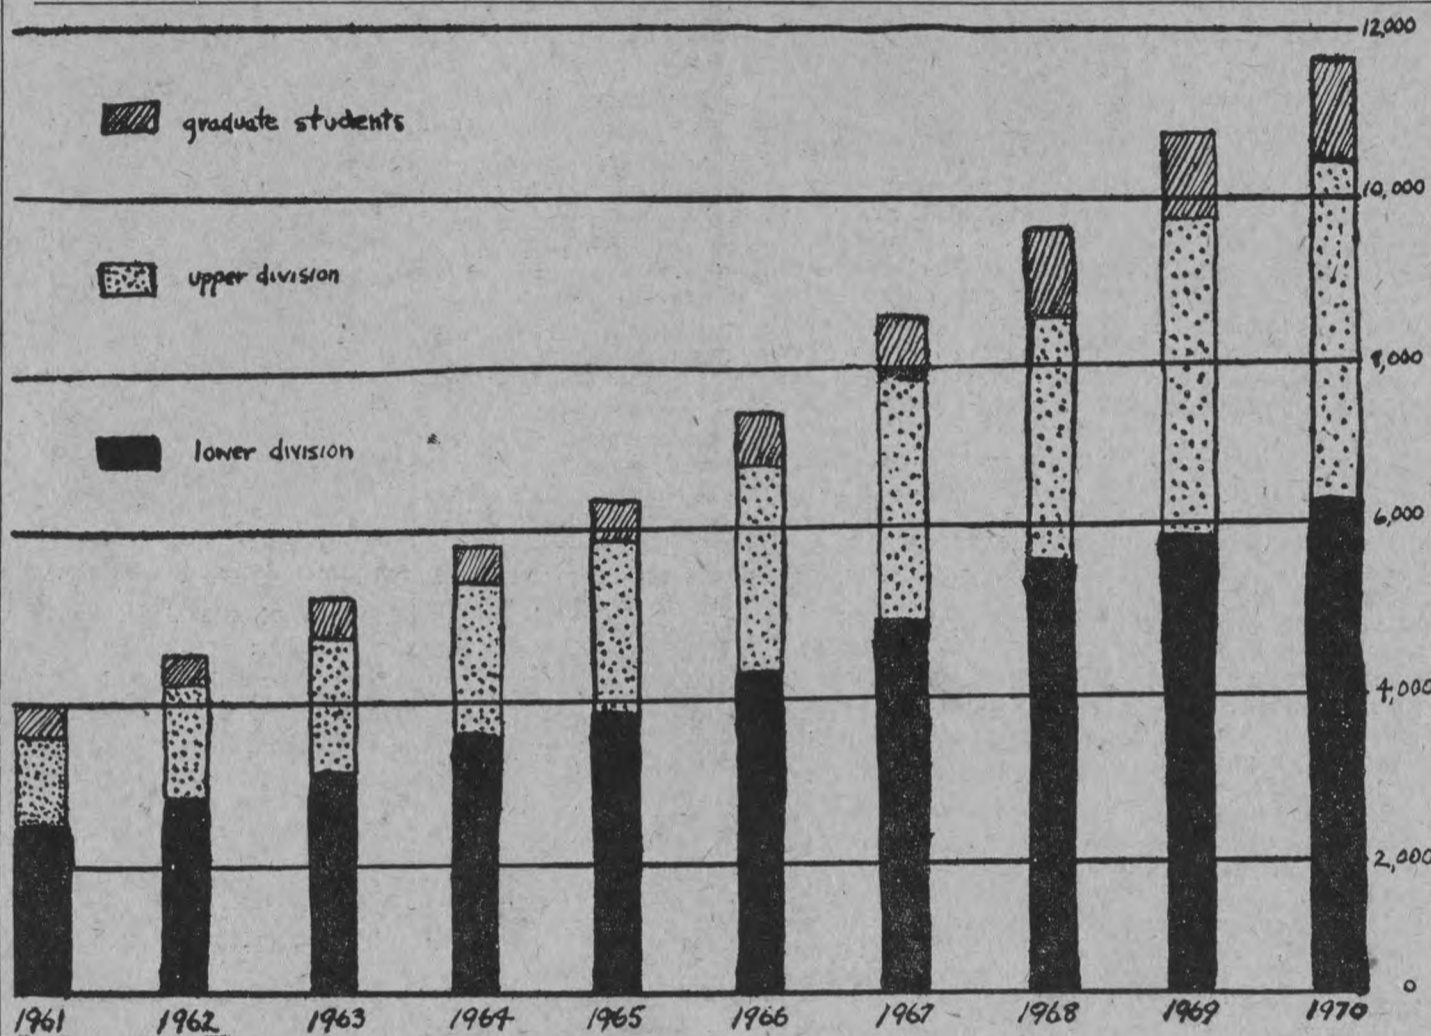

Featured will be examples of the most recent work of the resident artists. Some 40 to 50 examples of sculpture, painting, prints, photography and ceramics are included as well as a display of publications of University art historians.

The Faculty Show, to continue through Nov. 2, may be viewed by the public, Mondays through Fridays, 9 a.m. to 4 p.m., and Sundays, 2 to 5 p.m.

## Coffee Shop Hours

The Student Union Coffee Shop is now open 7:30 a.m. to 3:30 p.m. Monday through Friday, 8:30 p.m. to 10:30 p.m. Monday through Thursday, and Sundays between 4:30 and 8:30 p.m.

# A.S. Candidates Announced; Polls Will Open Next Tuesday

SHOWN above is a chart of the enrollment estimates for the decade 1960 to 1970. The chart, from the "Design for Growth," shows the expected enrollment for regular students by level of instruction. Actual enrollment figures this year are: lower division, 2559; upper division, 1295; graduate, 189, for a total of 4,043 regular students.

## SIX STUDENTS ENTER RACE FOR TOP FRESHMAN POST

The special fall election for vacant Associated Students positions will be held next Tuesday, Oct. 10, and Wednesday, Oct. 11. Voting will take place from 9 a.m. to 3 p.m. in the campus mall between South Hall (classroom building) and the music building.

## Gould Outlines Challenges At Workshop

BY KEITH PORTER

UCSB must not fall a victim to its own expansion. Such was the main challenge posed to Gauchos attending the R.H.A. council's bi-annual workshop held last weekend. It is obvious that UCSB is experiencing immense growth. Unfortunately, the larger and more complex an institution becomes, the more difficult it is for individuals to retain and assert their self-identity. Large institutions lack warmth, and are, to a large extent, impersonal. Consequently, growth in a University can be disastrous to its basic functions.

### UCSB Unique

Never, Chancellor Gould informed the R.H.A. workshop, has any University in the past systematically sought to overcome the problems inherent in rapid growth. UCSB is therefore unique. Long-term plans are now in effect to ensure that the most important unit in the University, the student, will still have every opportunity for self-development despite the eventual size of the student enrollment.

Preventing huge size and cold anonymity from combining in partnership will be difficult, but can be effected by the creation of numerous, small groups on campus. In this respect R.H.A. has a crucial role. It is intended, Dr. Gould told the workshop, that fifty per cent of the student body will live in college housing. In the small and integrated halls, individual students can feel themselves to be real participants in a University.

### Challenge

Living in a Residence Hall affords full opportunity for self-expression and development. Herein lay the challenge to the R.H.A. Workshop. R.H.A. already bears witness to the fact that this challenge is being accepted. As an independent and self-governing body, it is a remarkable organization. This year, under the enthusiastic leadership of President Steve Rathfon, and backed by a budget exceeding \$9,000, the R.H.A. will be a powerful factor at UCSB.

Many plans were formulated at the R.H.A. workshop. Student leaders outlined plans for cultural, educational and social activities. In a lighter vein, plans for G.G.R. and Homecoming promise considerable relief from excess studies. Future joints will also continue in sustaining student spirit. The R.H.A. workshop was adjourned in a mood of confidence and optimism for the coming year.

Students will compete for the legislative council positions of freshman class president, men's representative-at-large, men's RHA representative and men's non-affiliated representative. The position of women's non-affiliated representative is uncontested in this election.

### Other Offices

Other offices to be filled in the election are junior class vice-president, Associated Men Students vice-president, Associated Women Students treasurer, freshman class vice-president and freshman class secretary.

Six students have announced their candidacy for the position of freshman class president. The candidates are James Mark Hamilton, Larry Kingry, Achille Sargent, Ron Cook, Steve Meister and Dave Cross.

### Other Candidates

Vying for the other offices are: Keith Porter, men's representative-at-large; Kathy Harbordt and Pat Samways, A.W.S. treasurer; William Mark Haber, men's non-affiliated representative; Dick Doliver and Jim MacDonald, men's RHA representative; and Jimmy Smith and Daniel Mulvey, A.M.S. vice-president.

Others in the running are: Jerry Kleinberg, junior class vice-president; Roger Pearson and Patsy Parrish, freshman class vice-president; Linda Hall, Jayne Starrs, Penny Baum and Kitty Hill, freshman class secretary-treasurer.

See candidates' platforms on page 2.

## Special GGR Try-outs

Students and groups who wish to participate in the Galloping Gaucho Revue on a purely non-competitive basis should appear at special try-outs for individual acts Monday, Oct. 9, between 7 and 10 p.m. in the campus auditorium.

These acts will be used between the competitive group performances.

## Try-Outs Scheduled

Try-outs for the touring production of "Where's Charley?" will be held during the week of Oct. 16 through 20. All parts are open to all students who are in regular status.

Participants will have to be able to sing, act and dance because all performers must be able to play leading roles.

Occasional rehearsals will be held this semester, and shakedown performances will be scheduled in the spring. "Where's Charley?" will tour Japan, Korea, the Philippines, Okinawa and Hawaii beginning in mid-July for the two-month period.

The production is being directed by Theodore Hatlen of the speech and drama department.

## Spectrum Staff Meets

Spectrum, the UCSB literary magazine, will hold a staff meeting this Friday afternoon at 4:30 in the S. U. patio. Anyone interested in working on the production of the magazine, or in learning how it is put out, is urged to attend.

## Master Plan Projects UCSB Individuality

Granted our good fortune to be a campus young enough to plan our destiny before size and complexity overtake us, how may we achieve true individuality with the full support of the statewide Academic Senate? This is a problem deeply rooted in faculty morale and security.

It is argued by some that significant variance in the kind of curricula established, or the ways of offering them, will not be considered academically "respectable" and could hamper the professional advancement of the junior faculty who participate, whereas others argue that the very maintenance of our integrity in the face of future problems obliges us to experiment.

The significance of the Design for Growth is its portrayal of the dreams of the Santa Barbara Campus, in which both faculty and administration will find challenge to revise and implement its parts.

### Engineering

A School of Engineering has been approved by the Regents very recently, and pre-engineering students will be accepted in the Fall of 1961. Exact determination of the professional program hinges on appointment of a Dean, who, with his faculty, will present curricular proposals to the Santa Barbara Division of the Senate. One estimate is that such a program will include electronics and communications engineering rooted in basic science, responding to the emphasis in local research and development industry.

A proposal for a School of Education is now under review by the Regents. Similarly, details of the program hinge on appointment of a Dean and presentation of curricular legislation. Credentialing and graduate work will be concentrated in the fifth and later years, in order that

undergraduate subject matter emphasis will be intensified.

As a result of a five-year grant from the Ford Foundation the new Experimental Program, Instructors for Colleges (EPIC) is underway at Santa Barbara, concerned with the process of selecting and retaining students particularly suited for future college and university teaching.

The Santa Barbara Campus has authority to launch a Study Abroad Program, with proposed centers in Europe, the Middle East, Latin America and the Orient to make study in other parts of the world a normal experience for qualified undergraduate students. The program will welcome opportunities to enroll students from other campuses, so that they may attend such centers.

More recent developments include a suggested School of Architecture and Environmental Design, strongly supported by the arts and fine arts, the architectural profession, and community planning groups. An advantage is the possible availability of space in the Arts Building, with a minimum of conversion, upon release of such space in 1966.

Some members of the Industrial Arts faculty, who are more closely involved in teacher education in areas of design would welcome such a development.

An eventual School or College of Fine Arts is strongly supported by the faculties in Art, Music, Drama and Dance. Such a proposal could conceivably be geared to the time when the Speech and Drama Department outgrows its building, involving both a physical and curricular separation of the Drama faculty.

Within ten years, it is probable that evolving developments in the Department of Economics, responding to demands already being heard from undergraduates and industry, will lead to the establishment of a School of Business Economics.

A special committee, appointed by the President to study the future development of Home Economics in the University, has recommended the eventual formation of Colleges of Human Ecology at Davis and Santa Barbara, with opportunities for faculty research through agencies of the Statewide College of Agriculture. Local faculty favors a school more precisely named.

## LEGISLATIVE COUNCIL NOTES

For the 1961 Homecoming organizations which, when joining others, exceed the 150-person limit allowed to work on one float, will now have an opportunity to appeal for an exception to the rule, legislative council announced Tuesday.

Appeals may be submitted to the chairman of the special events committee in the A.S. office.

It was also decided that any men's organization, including living groups, may sponsor a

## Model U.N. To Meet

The Model United Nations organization will hold its first meeting in the Santa Cruz lounge today, Oct. 6, at 3 p.m. A general outline of the organization's activities last year will be discussed. Those interested in attending the M.U.N. delegation are welcome.

## PERSELL TO ATTEND YOUTH CONFERENCE

Vernon Persell, manager of the counseling center at UCSB, has been invited by Governor Edmund G. Brown to take part in the Governor's Conference on Youth for Community Service to be held in Long Beach Nov. 13 and 14.

Sixty representatives from all over the state will attend the Long Beach meeting. The conference, being planned by a group of 33 people of high school and college age, is aimed at training teams of four students and one adviser from the various high school areas of the state.

Training will be focused on 37 community service projects now being carried out by the students.

The conference is expected to stimulate local community services by young people in what may well be a local or California version of the Peace Corps idea.

## Speech Test Slated

The following schedule has been set for completing the speech proficiency test: Outlines due Oct. 13, Outlines approved Oct. 27, Oral examinations Oct. 31, Nov. 1 and 2, 2 to 5 p.m.

## Acting Workshop Set

The first meeting of the workshop in acting, under the direction of Frederick Thon, department of speech and drama, will be held Saturday, 11 a.m. to 12:30 p.m., in room 1004 of South Hall (classroom building lecture hall). This informal workshop is open to all students.

## GGR SCHEDULE SET

The schedule announced for the 1961 Galloping Gaucho Revue is as follows:

Monday, Oct. 9 Special act try-outs, 7 p.m., campus auditorium. No sign-ups necessary.

Friday, Oct. 13 Application deadline, 4 p.m., graduate manager's office.

Saturday, Oct. 14 Try-out schedule posted in graduate manager's office, 9 a.m.

Monday, Oct. 16 Try-outs at specified time in auditorium.

Wednesday, Oct. 18 Results of try-outs posted in graduate manager's office, 4 p.m.

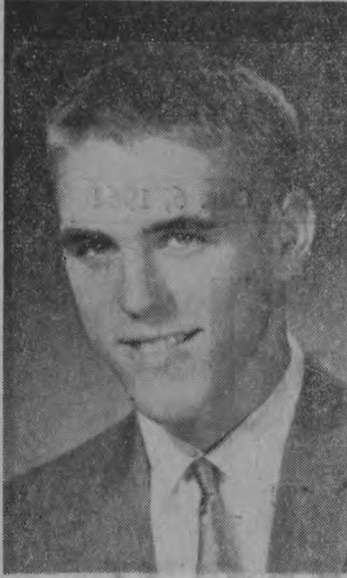

Thursday, Oct. 19 Meeting of representatives from accepted groups, Huddle, 7 p.m. Compulsory.

Monday, Oct. 23

Tuesday, Oct. 24 Rehearsal in auditorium at specified time.

Wednesday, Oct. 25 Dress rehearsal.  
Thursday, Oct. 26  
Friday, Oct. 27 Performances.

# CANDIDATES STATE PLATFORMS

**MARK HAMILTON**  
Freshman President

The best way to insure the greatest advancement of the freshman class this year is for freshmen to participate in freshman and school activities. The activities include both academic and social functions. It is for the purpose of advancement of the freshman class that submit to the freshman class these proposals.

1. That there be seminars in which freshman students would discuss and ask questions about their future in college. These seminars would be with graduate students who would speak on his specific major and what class should be taken.

2. That as many freshmen as possible participate in

freshman and school activities.

3. That as many freshmen as possible help create a social function, such as dances, parties and picnics.

4. That the freshman class be the best in the history of UCSB!

IT IS THE CHOICE OF THE STUDENTS AS TO WHO WILL SERVE YOU.

**RON COOK**  
Freshman President

Another school year has begun, and for you and I, as members of the class of '65, it is going to be an especially difficult one. This is our first year of college—it is a year that finds us in with a group of students who are new and unknown to us. For this reason the election of Freshman Class officers is going to be hard.

It is too soon to know who the most able or best qualified candidates are. All I can do is tell you where I stand and then the choice will be yours. I feel that class president is more important than just organizing activities within our own class. This is important, but even more important, we must be well represented on Legislative Council, the governing body of the school. Freshmen compose nearly one-half of the undergraduate students at UCSB. If elected Fresh Pres, I guarantee you that the freshman class will be heard and represented in proportion to its size.

**PATRONIZE OUR ADVERTISERS**

Page 2 Friday, Oct. 6, 1961 El Gaucho

**LEWIS CYCLE CENTER**  
MOTORSCOOTERS AND BICYCLES  
5879 HOLLISTER WO. 7-5918

**DAVID CROSS**  
Freshman President

As I am relatively secure in the belief that almost no one will read these campaign platforms, I will proceed with a minimum of caution toward a seemingly obscure end.

I would like to begin filling this absurdly small space allotted to me by explaining the major difference between high school and college politics. College government has very definite and important powers, while high school government has no important power whatsoever.

With this new power comes added responsibility, for both the student and the student officer. Your president must act as your voice in student government. As such, he (or, for that very important and applicable matter, she) must be a person in whom you can place your confidence.

My aim, and as such my basic platform, is for a united class within a united school, whose motivating force is pride and whose existence depends upon the common goal of the students.

I would appreciate your vote of confidence.

**LARRY KINGRY**  
Freshman President

As a member of the Freshman class, I wish to kindle in you individually a sense of awe over the vast potential at UCSB. This year the Freshman class is larger than it has ever been. Our class, the class of '65, is going to top every goal

that UCSB students have attained before us, provided we have capable, responsible leadership. I will dedicate myself to these goals and direct my efforts towards this fulfillment. My desire is not only to represent the freshman class in the assembly, but to represent it by word

**KEITH PORTER**  
Men's Rep-at-Large

If I am elected to the position of Men's Representative-at-Large, I will try to do the following:

1. Encourage the development of greater spirit among UCSB students

2. Promote activities that will contribute to the cultural and educational life on campus

3. Work to foster greater unity between student groups at UCSB

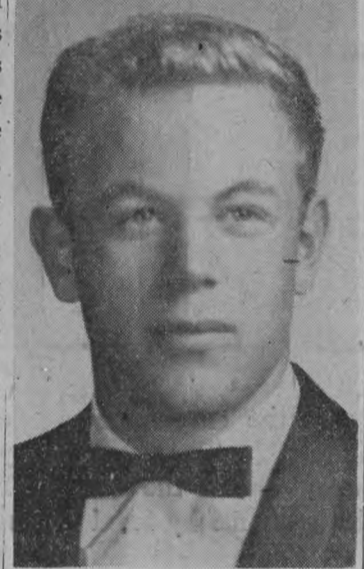

4. Increase communication between the student body and the student government. This will serve a two-fold purpose. It will enable student leaders to determine student desires. Also it can encourage greater interest in participation in student government.

**JIM MACDONALD**  
R.H.A. Men's Rep

Communication is one of the most important jobs of an R.H.A. Representative. He is responsible to convey the ideas of legislative council to the individual halls and to the R.H.A. council, and conversely, he is responsible to convey the ideas of R.H.A. to the legislative council. If I am elected, I will endeavor to inform R.H.A. of the functions and responsibilities of legislative council, and I will do my utmost to insure intelligent and informative communication between them.

The Residence Halls Association is the most powerful single organization on this campus and has the biggest potential of any organization; unfortunately, this potential is not being properly utilized.

I feel that as Secretary of Anacapa Hall last year and as president of my hall, I have learned a great deal about R.H.A. and that I am in a position to help exploit the potential of this organization and to represent it intelligently in student government.

**ROGER PEARSON**  
Freshman Vice-President

Members of the Class of '65: Our class faces a great challenge in its first year at UCSB. We have the largest class in the history of this school and this fact in itself makes the problems we face unique.

The efforts of our Freshman leaders should be directed to two basic goals. The first is to create a feeling of unity among the members of the Freshman class. In accomplishing this first goal we help in accomplishing the second one. This is to promote the standing of the Freshman class on campus through a series of events designed to show the talent and versatility of our class. Through this second goal we also help provide a better student body in general through a challenge to the upper three classes.

To aid in accomplishing these goals I propose a larger Freshman class council and also an extensive number of committees in order to provide more student participation. I would highly appreciate your vote for V. P. on Monday but whatever you do be sure TO vote.

**PATSY PARRISH**  
Freshman Vice-President

If you're dreaming of really good representation Vote Patsy Parrish at the Frosh election. She's peppy, she's friendly, and experienced, too. As Frosh Vice-President, she'll work hard for you. If you want more activities and leadership plus Patsy Parrish is an absolute must.

With a guy as Pres. and a girl on his right The Freshman Class will show spirit and might. So to remind UCSB what follows sixty-four Elect Patsy Frosh Veep and watch our class soar.

**JAYNE STARRS**  
Freshman Secretary-Treasurer

Members of the Associated Student Body:

I have behind me a high school record which consists of not only a high scholastic standing, but also a wide variety of extra-curricular activities. Some of the offices I held include president of Junior Red Cross, editor-in-chief of the yearbook, assistant editor of the newspaper, secretary of Junior Red Cross, treasurer of Junior Teachers' Club, Parliamentarian of the ASB Council and the League Council and junior varsity cheerleader. With this background I consider myself able to fill the office of Frosh secretary-treasurer.

My intentions are not purely to gain further experience, but to work with and help to improve my class. Thank you.

**PENNY BAUM**  
Freshman Secretary-Treasurer

The office of Freshman Class Secretary-Treasurer is a job which offers certain challenges and must be held in complete seriousness; therefore, if elected, I PROMISE: to attend all meetings except those I can't come to; 2. to ride my bicycle

**PRIZES: 1. Two-hundred Marlboro, Parliament, Philip Morris or Alpine Lighters. PLUS FOUR BONUS PRIZES.**

2. One \$79.50 Holbro's & one \$69.50 Waltham Men's Wrist Watch.

3. One \$79.50 Holbro's & one \$69.50 Waltham Women's Wrist Watch.

**WHO WINS: 1. Any student that has in his possession 2 packages of either Marlboro, Parliament, Philip Morris or Alpine cigarettes will receive 2 cigarette lighters when approached by the CAMPUS MYSTERY MAN.**

2. Bonus prize will be awarded to the student receiving the lighters marked bonus.

**RULES: 1. Students must have in his or her possession 2 packages of Marlboro, Parliament, Philip Morris or Alpine when initially approached by CAMPUS MYSTERY MAN.**

2. To win bonus prize student must have lighter marked with the word bonus.

3. **TREASURE BONUS PRIZE** winner will be announced in campus paper each week for four weeks.

4. Contest Ends Nov. 5th, 1961 **MAKE YOUR BRAND A BONUS WINNER**

like an executive officer should; 3. not to chase the President around the desk; 4. to discuss with each Freshman the vital question: "Should Othello and Desdemona move to Little Rock?"

However, if unable to keep these promises, I will nevertheless sincerely try to bring efficiency, organization and enthusiasm to the office of Freshman Class Secretary-Treasurer.

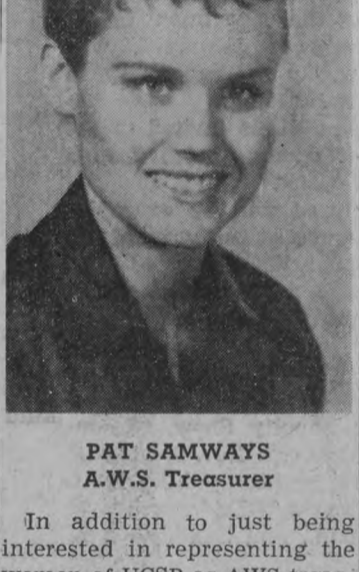

**KITTY HILL**  
Freshman Secretary-Treasurer

No Platform Submitted

**LINDA HALL**  
Freshman Secretary-Treasurer

No Platform Submitted

**PAT SAMWAYS**  
A.W.S. Treasurer

In addition to being interested in representing the women of UCSB as AWS treasurer, I feel that the background I have in this type of work is excellent, as I served my Girls' League in high school as treasurer, representative of the junior class and vice president. The numerous experiences that I have had in executing the duties of these offices would be a great asset to me in dealing with situation.

**PRIZES: 1. Two-hundred Marlboro, Parliament, Philip Morris or Alpine Lighters. PLUS FOUR BONUS PRIZES.**

2. One \$79.50 Holbro's & one \$69.50 Waltham Men's Wrist Watch.

3. One \$79.50 Holbro's & one \$69.50 Waltham Women's Wrist Watch.

**WHO WINS: 1. Any student that has in his possession 2 packages of either Marlboro, Parliament, Philip Morris or Alpine cigarettes will receive 2 cigarette lighters when approached by the CAMPUS MYSTERY MAN.**

2. Bonus prize will be awarded to the student receiving the lighters marked bonus.

**RULES: 1. Students must have in his or her possession 2 packages of Marlboro, Parliament, Philip Morris or Alpine when initially approached by CAMPUS MYSTERY MAN.**

2. To win bonus prize student must have lighter marked with the word bonus.

3. **TREASURE BONUS PRIZE** winner will be announced in campus paper each week for four weeks.

4. Contest Ends Nov. 5th, 1961 **MAKE YOUR BRAND A BONUS WINNER**

ations that would confront me as AWS treasurer. I would be pleased to represent you on the AWS board, so please remember my name, Pat Samways, when you vote next Tuesday and Wednesday. Sam's ways are the best ways!

**KATHY HARBORDT**  
A.W.S. Treasurer

I am Kathy Harbordt and I'm running for the office of A.W.S. Treasurer. I'm interested in student government, especially in A.W.S. This past year I served on the Elections Committee and the Special Events Committee. I have also had experience as secretary and treasurer of various organizations. I would appreciate your support in the coming election.

**BILL HABER**  
Men's Non-Affiliated Rep

A representative of the independents exists only for one basic purpose: if the non-affiliates wish to be heard, they can do so through the representative. To think that any earth shattering, mountain moving legislation will be forwarded, exists only in the dreams of the "soma" vacationer.

However, if the independents suddenly decide, en masse, that they wish to sleep Thursday mornings, rather than attend a compulsory jam session of the United States Army band, the representative can heartily express the universal dislike of the independents for band music at 6:30 in the morning, and if proper channels fail to discontinue the peculiar institution, perhaps the representative, accompanied if so desired, can sneak into the little wooden building and courageously melt the disc into small globules of plastic.

Hence, the non-affiliates have been represented. They speak infrequently, but when they speak, as second largest power of the campus, they will be heard. Greeks for the Greeks, Dorms for the Dorms, and continued independence for the independents.

## Recital Date Changed

The recital, "An Evening of Music," to be given by the Women's Music Interest Group, originally scheduled for Oct. 7, has been changed to Saturday, Oct. 14.

The event will take place in the South Hall lecture room (formerly the classroom building lecture hall) at 8 p.m.

The date of the concert was changed since the Sept. 10 publication of the "Calendar of Public Events" sent out by the University.

## Emergency Phone Number

The emergency phone number for the Police and Fire Departments is 2221. This number should be called in any emergency.

FRATERNITIES

# Upholders Of Discrimination

BY DAN SKLAR

Barry Goldwater feels fraternities build a feeling for and a belief in the American way of life. He has even gone so far as to say that Harvard is breeding communism because it lacks fraternities. Whether one agrees with Barry Goldwater is not important. The point remains that fraternities supposedly stand for and build the American way of life and brotherhood.

American Premises

Of course there are many interpretations of the meanings of the American way of life. The John Birch Society has its definition; so do American Communists. However, the great majority of Americans, including the framers of the Constitution, believe in certain basic premises. Among these is freedom from discrimination on the basis of religion, race or creed.

What, then, are UCSB fraternities doing to uphold this aspect of American life? I contend that they are not doing very much. In fact, in some instances their by-laws, oaths and tradition are diametrically opposed in the ideas of freedom from religious or racial discrimination.

UCSB Fraternity

Last September I discovered that a fraternity on this campus had, as one of its membership requirements, the acceptance of Jesus Christ as "the prospective member's savior. Considering freedom of religion as a basic American ideal, I feel this fraternity violates the American ideals it claims to uphold. The very nature of this requirement (the acceptance of Jesus Christ as the savior) discriminates against all Jews, Moslems, Hindus, Buddhists . . .

I also learned that the national chapter of this same fraternity had abolished that clause from its constitution, and that the UCSB chapter was instructed to do the same; but, as of today, the fraternity has not done so.

Other Campuses

On many other campuses local chapters have been telling their respective nationals that similar discriminatory clauses are not only archaic, but opposed to the principles of brotherhood and the American way of life.

Just last year a fraternity at Stanford lost its national charter because it would not deplete five Jewish boys. Also last year, a fraternity at Amherst College broke with its national on the basis of a discriminatory clause against Negroes. Incidents like this have occurred on many campuses.

Does the fraternity of which I speak, or any other UCSB fraternity that may have discriminatory clauses, claim to be a builder of the American way of life? Perhaps they are too busy with other "activities" to change their discriminatory clauses, or maybe they feel that freedom from discrimination is not part of "fraternity brotherhood" or part of the American way of life. Lambda Chi Alpha—what is your answer?

DEMOCRACY IN DECLINE

## 'UN-AMERICANS' EXPOSES HCUA AS PERIL TO LIBERTY

BY PAUL BARBER

"The Un-Americans" by Frank J. Donner, Ballantine Books.

"The Un-Americans" is a comprehensive attempt to document the history and methods of the House Committee on Un-American Activities. As is evident from the title, the author, a New York lawyer named Frank J. Donner, is not in sympathy with the HCUA.

His arguments in favor of the abolition of the Committee are based on a well-reasoned contention that the Committee is not fulfilling its legislative function, but is actually acting in an executive capacity—its purpose is to punish those with whom it disagrees by exposing them to an unfavorable public opinion.

This purpose is manifested in the annual recommendations made to Congress by the Committee, recommendations which constitute almost the sole admission of legislative responsibility by HCUA. These recommendations are distinguished primarily by their lack of relation to the legislative hearings from which they purport to stem.

Hearings

The 1953 recommendations, for example, ranged from proposals for wire-tapping legislation to barring second-class mailing privileges to publications regarded as subversive. The hearings for that year included "six area" hearings (education and government labor), hearings on a Methodist bishop and minister, and three hearings on foreign affairs involving testimony from iron-curtain defectors.

The area hearings came up with all sorts of fascinating information — such as the statement that "the first enemy of the Communists is a belief that you are created by a divine creator," but it was in no way connected with the recommendations, since the hearings dealt with people, rather than with prob-

lems. Altogether, the recommendations are of no more legislative significance than would be recommendations made by any citizen in a letter to his congressman.

Sources Listed

One of the most welcome and useful features of the book is the list of sources appended to it. These sources direct the reader to many publications supplying information about the Committee; also, the author carefully documents the facts on which each chapter is based.

If a society were to operate according to the principles enunciated in the documents upon which this country was founded, neither an idea nor the advocacy thereof, the antipathy of any segment of the society notwithstanding, would ever be circumscribed or punished in any manner whatever.

Opposes Freedoms

Since the HCUA has vigorously prosecuted a campaign to curtail freedom of thought, speech and association, one can conclude only that the primary function of the Committee is to oppose an open society. Whether the thought police assume the label "inquisition," "storm troopers" or "patriots," they are in the long run the most pervasive and powerful means of suppressing liberty.

Democracy in Decline

In his book, Donner has assembled a vast number of facts, which, taken together, reveal a democracy in decline—our democracy.

## The Uses Of International Law

BY DENNIS LIVINGSTON

PRINCETON, N.J. — Aroundering about self-determination the time of the opening of the United Nations, and indeed through most of the rest of year, we are subjected to various speeches by the leaders of the world that invoke the popular image of the community of man. This wouldn't be too bad if it weren't for the fact that we find many prominent jurists also echoing this line from time to time.

In this column I wish to expound briefly on the thesis—hardly original with me, but worth repeating — that one cannot as yet speak of a single world community. We have international laws and international communities.

Desire For Order

Now this might seem fairly obvious, but there are still several well-intentioned groups and individuals who talk as if what ought to be were what is. That is, because we desire that some of the more irrational manifestations of sovereignty could be controlled by a world legal order, the wish becomes father to the belief that we already have such an order.

Thus we hear talk about universal laws and world peace through world law, as if laws (especially international ones) could be separated from the political context from which they emerge.

Dangerous

This kind of talk ignores the large element of futurity in concepts of international law. As a goal for mankind, world law is perfectly suitable; but it is dangerous to speak as if we had or were near this goal. Dangerous for two reasons:

First, because it engenders an overly cynical view, which, realizing the distance we must travel to the goal, tends to then discharge all international law as a myth and disregards the very real day to day contacts between nations that have become normalized through common international law or treaty. Instead of putting the universal stamp on all international maxims, we should seek to separate those that do evoke a sympathy from men from those that still have the utopian ring about them, so that we know what needs to be worked on.

Smokescreens

Second, marking some general principles as now accepted simply gives the Communist nations, and on occasion the Western ones too, a hypocritical line which they can spout as the event requires. It should be painfully evident to the hardest believer in the universality of international law that the Soviets use terms such as "self-determination," "aggression" or "domestic jurisdiction" as smokescreens to cover moves in the national interest.

They can get away with

The Visitor

## UNFOUNDED 'RED'-LABELING HELPS COMMUNISTS' CAUSE

BY SAM McPHETRES

In defense of the right of free speech, I feel compelled to speak out against what seems to me to be a growing danger of Communist subversion on this campus.

Recently an editorial appeared in this paper pointing out a potential danger to the traditional freedoms of this university. The source and text of the material appeared to be reasonably quoted and the point of view of the editor to be in the spirit of our constitutional liberties.

Perhaps I am too sure of my position and too bold to speak out against "anti-communism," but it appeared to me that the subsequent attacks upon the newspaper were wholly uncalled for and ridiculously unsubstantiated. As a student in an international university in France, I had the opportunity to live and work with Polish and Yugoslav Communist students.

Few, if any, students at UCSB have had this opportunity. But only in this way was I really able to comprehend why I was proud and happy to be an American. I can speak out against communism because I have been exposed to it. I shall also speak out against unsubstantiated allegations against people who are exercising their rights and privileges as Americans, these assets so vividly put into relief by my contacts with real, live and confessed Communists.

Calling a person a Communist because one does not agree with him is now an old trick. I believe that nothing makes real Communists in our society happier than to have the thinking people attacked and discredited while they go their way undisturbed.

I know that communism is a danger among us. I also

# DIABLOS HERE TONIGHT

## Gauchos Set for Second CCAA Contest

BY ROBERT WALTER

The UCSB Gauchos play their first home California Collegiate Athletic Association game of the season tonight after almost upsetting Fresno State in their conference opener last weekend.

Coach Bill Hammer's crew looks like it might be tough to handle this weekend after scaring nationally ranked Fresno for three quarters. The Los Angeles State gridgers proved that they have a lot of offensive power last week, however, as they bested the University of Mexico, 40-0. Game time for tonight's La Playa Stadium battle is 8:15 p.m.

Coach Leonard "Bud" Adams of Los Angeles State has been plagued with injuries this year, but unlike the Gauchos, he has a big squad to work with. The game will see a lot of the Diablos returning to action for the first time since being on the disabled list. This, along with some all-season standouts like quarterback Dean Bond and Aldan Bell, should give the Gauchos another rough opponent.

The main problem that the Gaucho defense will be faced with is "Joltin' Joe" Womack. Last year he was a candidate for All-American honors as a halfback and this year has been proving a real thorn in the side of Diablo foes.

Hammer received some good news from the doctor this week for the first time in quite a while. Jan Greenwald, who at first was thought to have suffered a shoulder separation in the Fresno game which would have kept him out of action for the rest of the season, apparently only suffered a muscular sprain and will probably play this weekend.

Stanley Jewell and Charlie Grogg also were thought to have suffered serious injuries against Fresno, however they both look like they will see action against the Diablos.

Dave Test, senior letterman, will probably be in the lineup for the first time this season since he reported with an ankle fracture. His appearance will be well timed since he has a reputation as a rough defensive linebacker and might aid the Gaucho defense in stopping Womack.

Also coming back to bolster the Gaucho cause is Tom Stoffel, last year's most valuable lineman. He suffered a severe head cut early in practice and now appears ready.

The news from the doctor wasn't all good, however. Charlie Coventon, who played a splendid game against Whittier, will be out for the rest of the season due to a recurrence of a shoulder injury.

CHARLIE COVENTON  
... sidelined

ON YOUR MARK--George Dyer (left) and Dick Swoboda eagerly await starting call for tonight's CCAA football game at La Playa Stadium when Gauchos take on visiting Los Angeles State in 8:15 p.m. contest. Fullback Dyer and guard Swoboda will be out to help UCSB repeat tremendous performance of last weekend at Fresno.

## GORRIE FORMER UCSB GRID, BASEBALL STAR

He's probably better known as the Gaucho baseball coach, but Dave Gorrie is also one of Bill Hammer's right-hand men on the UCSB football staff.

Gorrie, who is starting his third year at Santa Barbara, spends the fall season as an assistant varsity grid coach and also head mentor for the Gaucho freshman football squad.

Considered one of UCSB's all-time great athletes, he turned down a triple-A professional baseball contract with Portland of the Pacific Coast League to accept the Gaucho post.

He spent three years in organized baseball, his last with Rochester, Minn., of the Three-I League, an dnever hit under 290. He played in all-star games two of the three seasons.

Gorrie was both a football and baseball star at Pasadena High School, Pasadena City College and UCSB, and was twice selected to all-CCAA teams in the two sports before he graduated from Santa Barbara in 1953. He was a fullback in football and an outfielder for the Gaucho diamond team.

He also spent two years in the Navy, and earned a spot on the 11th district All-Naval football team, soncidered one of the toughest in the service, and also an honorable mention spot on the all-Navy honor roll.

He and his wife, Linda, make their home in Goleta.

## Harriers Host Two Opponents

Los Angeles State and San Fernando State come to town tomorrow morning for a cross-country meet.

Coach Sam Adams' Gauchos, winners over Westmont College in dual competition earlier and fifth-place finishers in last weekend's Long Beach State Invitational meet, will host the two Southland teams in an 11 a.m. tour of the campus course.

Entries for UCSB will include Jim Carroll, Milt Howe, Will Davis, Dick Ryon, Rollie Cavalletto, Larry Barnum, Dave Koll, Maurice Yellen and Bob Oldham.

## Women's Rifle Team

Coeds interested in forming a women's rifle team should contact Major Zarnowski or Sergeant Wilson at the military science building (419). The team, when formed, plans to have matches with other schools and organizations. Twenty-two caliber rifles will be used. It is not necessary to be an expert to try out.

DAVE GORRIE  
... Gaucho great

### Intramural Grid Schedule

**Monday**  
Pima vs. Yuma.  
Modoc vs. Apache.  
Maricopa vs. Canallino.  
Navajo vs. Ute.

**Tuesday**  
Sycamore vs. Cypress.  
Palm vs. GBAC.  
Pine-Yucca vs. Birch.  
Juniper vs. Sequoia.

**Wednesday**  
Delta Tau Delta vs. Lambda Chi Alpha.  
Delta Sigma Phi vs. Kappa Sigma.  
Sigma Alpha Epsilon vs. Baldino's.  
Sigma Pi vs. Sigma Phi Epsilon.

## BUSSES AVAILABLE FOR FANS TONIGHT

Gaucho football fans are reminded that special rooters' busses will be available to provide transportation from campus to La Playa Stadium for tonight's game between UCSB and Los Angeles State.

The busses are scheduled to leave from in front of Santa Rosa Hall at 7:25 p.m., and anyone desiring to obtain a ride may do so by paying 30c for a one-way ticket and 60c round trip at the time of departure.

## GOLF, BASKETBALL ASPIRANTS CALLED

The call has been issued for all prospective Gaucho golf, varsity basketball and freshman basketball team members.

The linksmen are invited to an organizational meeting Thursday, Oct. 12 at 12:30 p.m. in Robertson Gymnasium, while all basketball players are asked to contact Coach Art Gallon in the men's physical education department as soon as possible.

If any golfers cannot make the scheduled meeting, they are urged to see Director of Athletics "Doc" Kelliher.

## Coach Bill Hammer Says...

We wish to express the appreciation of the varsity and freshman football players and the coaches to the student body and faculty for their tangible support of the teams.

We need and solicit your continued affirmation. You are OUR TWELFTH MAN. Although we are thin in depth, size and speed, we intend to refuse defeat and humiliation whenever we compete. Although it may seem unlikely for us to seek your help on the basis of our record, we are dedicated to represent UCSB with the best that is within us. Courage, loyalty, morale and the fighting heart can be valuable in the educational process.

Representing UCSB in football is a tremendous privilege and honor. We are aware of our responsibility to you and we like this position. It is our hope to please you and set a strong tradition parallel to the excellence of our student body and faculty.

"Fight on, my men," Sir Andrew says.  
"A little I'm hurt, but yett not slain;  
I'll but lye down and bleede awhile,  
And then I'll rise and fight again."

"Sir Andrew Barton" Part 2 St. 16  
(PERCY'S RELIQUES, Series II, Book II)  
Sincerely,  
Bill Hammer  
UCSB Football Coach

## CLOSE SCORES, DEFENSE IN INTRAMURAL SPOTLIGHT

Tight scores featured play in the Anacapa Hall League while fraternity winners displayed their defensive finesse to highlight this week's play in intramural football.

Sigma Alpha Epsilon ran up the top offensive showing in the first day of competition for fraternity teams when they buried Sigma Pi, 40-12, while both Delta Tau Delta and Kappa Sigma unvelled hard-nosed defensive units with shutout victories.

The Delt squad got touchdowns from Bruce Jones and Ron Thommarson for a 12-0 win over Delta Sigma Phi, while the Kappa Sigs, with

Chuck King and Curt Hansen scoring twice each, walloped Sigma Phi Epsilon, 33-0.

Kent Campbell, Jim Mathey and Dan Mulvey all scored two touchdowns apiece to lead the SAE victory, and Baldwin's, scoring the deciding touchdown on a lateral play from Dave Peterson to Steve Strauss, nipped Lambda Chi Alpha, 19-12.

In Anacapa play, Dave Marshburn scored twice to lead Maricopa past Ute, 19-13. Dave Swartz scored all of Downs from Bruce Jones and Modoc's points in a 25-6 win over Canallino, Apache trimmed Pima, 20-14, and Navajo slipped by Yuma, 12-6.

## WATER POLO TODAY

The Gaucho water polo team, halfway successful on their opening road trip of the season, open a four-game home stand this afternoon in the campus pool with a 4 o'clock match against Los Angeles State.

Coach Frank Rohter's tankers, who beat Fresno St. and lost to Cal Poly in their first appearances last week, will feature a handful of veterans from last year's squad which ended up with the best record in the school's history (11-1) and a few new faces.

However, the Gauchos may be without the services of high-scoring center-forward Blair Ballard, leading UCSB scorer for the past two years, because of an injured left thumb.
