CARPINTERIA, CALIFORNIA, FRIDAY, NOVEMBER 4, 1938

NUMBER 36

## Many Issues at Stake at Election Next Tuesday

All registered voters in the Carpinteria valley are urged to turn out one-hundred per cent for the General Election next Tuesday at which time state officers for the next four years will be named and many issues vital to California will be settled. In order that no voter may be prevented from voting because of lack of transportation to the polls the Chamber of Commerce has arranged for a committee to furnish cars for the day and anyone who needs transportation will be taken care of if they will call the Chamber of Commerce office, 4354.

Voters will be called upon to decide whether Governor Merriam, and his running mate, Dr. Walter Scott Franklin, shall continue in office for the next four years to carry on his program of good government which has proven its worth during the past four years, or whether the state administration shall be turned over to Culbert Olson and E. E. Patterson. They must also decide whether Philip Bancroft or Sheridan Downey shall represent the State as U. S. Senator in Washington for the next six years. Also of importance is the selection of a Congressional representative from the 10th district, and the choice lies between Alfred E. Elliott, incumbent, Democrat, and F. Fred Hoelscher, Republican nominee.

Voters will also be confronted by 25 amendments, many of which would have far reaching effects on the welfare of California should they be adopted.

## AMENDMENTS ARE DISCUSSED AT LIONS CLUB

At the Lion's Club dinner on Thursday, Oct. 27, members were privileged to hear two speakers, Louis Lancaster of Santa Barbara who discussed the "ham and egg" amendment No. 25 and Capt. W. H. Rutherford of the California

## C. OF C. ELECTION TO BE HELD NEXT WEDNESDAY

The annual chamber of commerce election of three directors will be held next Wednesday in the Chamber of Commerce office. The nominating committee has been named as follows: Frank L. Smith, chairman; Mr. F. Lewis, Lewis aGnn, D. I. Jamerson and G. G. McLean.

The committee met Wednesday afternoon and submitted the following names to be voted on by members of the organization: Ray Doell, E. D. Solari, Dr. J. B. Lape, Lloyd Tennyson, Jack Wullbrandt and Robert Orrill. The three directors whose terms are expiring are E. D. Solari, C. B. Hamilton and Ford Kline.

Ballots have been mailed to members of the organization and may be returned by mail or brought to the Chamber of Commerce office on or before next Wednesday.

Mr. and Mrs. Arthur Bishop and son Maurice of Fruitland, Idaho, have been visiting their cousins, Mr. and Mrs. Joseph H. Hendy.

Mr. and Mrs. G. C. Johnson returned Monday to their home in Los Angeles after spending the week-end with Mr. and Mrs. Chas. Ogan and family.

highway patrol who discussed highway safety. Visitors at the meeting included J. D. Wood, A. A. Sperry, E. C. Howard, Mac Reynolds and P. F. Colanchick of Ventura, F. G. Daniel of Santa Barbara and two members of the Carpinteria High School football team, Philip Olds and Monte Ramie.

At last night's meeting the Club heard Harvey J. Holt, principal of Santa Barbara High School speak on the 25 amendments appearing on the ballot.

## AMENDMENTS DISCUSSED BY ASSEMBLYMAN

The Woman's club was the setting for the discussion of propositions on next Tuesday's ballot sponsored last Tuesday evening by the club Assemblyman A. W. Robertson discussing both sides of the measures. Captain L. L. McClarey of Public Affairs, Inc., of Los Angeles, explained the negative side of proposition No. 4, and Ed A. Lampton, representing the Auto Club of Southern California, spoke for the measure which the club is backing.

## RED CROSS TO HOLD DRIVE NEXT WEEK

The dates for the annual Red Cross roll call for Carpinteria have been set for November 8, 9, and 10, Tuesday, Wednesday and Thursday of next week. As has been the practice for the past several years the drive will take the form of a house-to-house campaign. Miss Arianna Moore, chairman of the Roll Call, has announced that the following persons will assist in the drive; Mrs. Joseph Hendy, Mrs. Harold Cadwell, Mrs. Reginald Thomas, Mrs. Geo. Humphreys, Miss Rosemary Cartton, Mrs. David Safwenberg, Mrs. John Rock, Miss Betty Franklin, Mrs. Robert Bailard, Mr. H. C. Motley, Miss Phoebe Bowen, Mrs. J. V. Van Metre, Mrs. Nelson Smith, Mrs. Thomas Church, and Miss Elizabeth Furby.

## BOY SCOUTS MAKE INTERESTING TRIP TO LOS ANGELES

The boys of Troop No. 1, Carpinteria have completed what they believe to have been one of the outstanding trips of their Scouting lives. Under the direction of their Scoutmaster, James L. Kent, they left Carpinteria Saturday for Los Angeles in search of adventure and knowledge.

Through the efforts of Mr. Kent the group was received by the Los Angeles police and given all the courtesies fit for kings. The boys were housed at the Police Department Training School located in Elysian Park and while there, they were given the keys to all departments and hence enjoyed swimming in the large tile pool, sleeping in the men's lounge and cooking in the small kitchen.

According to Mr. Kent, the most beneficial part of the trip was the fact that the boys naturally received a much different idea of policemen after this type of treatment.

Many places of interest were visited. Among these being, Wee Kirk of the Heather Church, Little Church of the Flowers, airplane factories, Olivera Street, Mexican section, all downtown Los Angeles and the beaches.

## Federal Aid for Completion Of Sewer Project Assured

## LITTLE DAMAGE REPORTED HERE ON HALLOWE'EN

Outside of the usual soaping of windows and barrage of overly-ripe "love-apples" with an occasional underripe melon thrown in for good measure, Carpinteria passed a fairly quiet Halloween with practically no property damage reported. Quantities of bean straw, corn stalks and serpentine caused extra work for J. A. Lewis, who is in charge of street cleaning operations, on Tuesday morning and residents were somewhat startled to find the Carpinteria Justice court bearing a "For Sale, apply Carpinteria Realty Co." sign.

About the only real excitement of the evening occurred when two Santa Barbara County deputy sheriffs failed to find an entrance to the steeple of the Community Church where they believed pranksters who were ringing the church bell were hidden and called out the Carpinteria fire department to assist them. A crowd of Halloween celebrants gathered to watch the activity and during the course of confusion which followed, a number of would-be pranksters had their ardor dampened by a liberal application of water from the fire hose and promptly retaliated with a barrage of tomatoes, several of which were thrown with unerring aim much to the chagrin of several firemen, according to spectators.

After the excitement had subsided it was discovered that the church steeple was unoccupied and that the bell ringing was being accomplished by a cleverly arranged wire which was being operated from a nearby vacant lot.

## ARMISTICE DAY PROGRAM SET FOR NEXT THURSDAY

An Armistice Day program sponsored by the Carpinteria Legion and Legion Auxiliary to which the public is invited will be held next Thursday afternoon in the High school auditorium at 2:00

Completion of the sewer system in Old Town, delayed for the past three years because of failure to underwrite a bond issue to lay mains to the disposal plant, has been assured and the cooperation of WPA secured in a contract signed Wednesday morning between Dr. T. M. Shorkley, chairman of the sanitary board, and Stanley Banks, director of WPA. Work will be begun in a short time, Shorkley said, the expense of material and labor being met by WPA funds and the district paying the salary of a superintendent to be chosen within a few days. The district defrayed the expense of surveying the project when the pumping plant was completed several years ago.

Banks stated that this was a perfect WPA project since it affords the type of work which fits best into the WPA program and has a health problem for an objective. It will clear up a situation which has been declared a menace to the health of the entire valley by county and state health officials. Under terms of the contract the sewer mains will be brought to the property line of each house in Old Town, the owners being required only to extend the line into the house.

Miss Emeline Bingham of San Diego is a guest at the home of Mr. and Mrs. Frank A. Hebel.

Mrs. Gordon Bailard and Mrs. Robert Sawyer were among the hostesses at the Halloween dance given Saturday night at the Carpinteria Woman's club by the alumni of Alpha Theta Chi sorority of Santa Barbara State college.

p. m. The program will consist of patriotic selections played by the High School band under the direction of Fred Greenough and a short talk by Geo. MacLellan of Santa Barbara.

There will be no formal program here on Armistice day since the football game is to be played in Lompoc and many Carpinteria residents are planning to attend the game and the Lompoc celebration.

## S. B. County Citrus Exchange Organization is Completed

Formation of the Santa Barbara County Citrus Exchange has been completed and began operation this week with headquarters at 206 E. Carilla. Exchange is composed of four Santa Barbara County Citrus Associations, the Johnston Fruit company of Montecito, the Goleta Lemon association, the Crocker Sperry company of Montecito and the Carpinteria Mutual Citrus Association. The Carpinteria association is represented on the board of directors of the new exchange by E. W. Hoffman.

The new exchange is the result of the rapid growth of the citrus industry in the County during the past few years. The houses forming the new exchange were formerly affiliated with the Ventura County Exchange with headquar-

ters at Santa Paula but Santa Barbara county now has passed the requirement of the California Fruit Growers for the shipment of 2,000 cars annually before the district can organize an exchange and be recognized by that organization.

That the growth of the citrus industry in the County is largely due to the increased acreage coming into bearing in the Carpinteria district is evidenced by the fact that the Carpinteria Mutual Association recently completed a large warehouse to care for the increased pick and the fact that the Carpinteria Citrus Association started work on an addition to their plant which will be the second to be added within the past several years.

## Recreation Center for Local Boys to Open Soon

Carpinteria boys from the age of 10 years on through high school age will soon have a recreation center equipped with a variety of games which will be open every afternoon after school from 4:00 to 5:30 p. m. under the supervision of James Kent, Scoutmaster.

Although the center is being made possible by a small expenditure of Scout funds and a great deal of hard work on the part of Kent, assisted by local Boy Scouts it is to be open to all boys in the community and will provide a place where boys may gather after school for recreation purposes and

will serve a long felt need in the community.

The center is to be located in the building on Seventh street formerly occupied by the Carpinteria Plumbing Co. and the use of the building is being donated by the Hicky Brothers.

It is expected that the center will be ready to open within the next two weeks. Cleaning of the building and refinishing part of the floors is being completed and a variety of games, including badminton, shuffle board, checkers, etc., have been ordered.

### SUPPORT GOOD GOVERNMENT

On Tuesday of next week the voters of California go to the polls to select the men who will guide the affairs of this great state for the next four years and to name the man who will serve California in the U. S. Senate for the next six years.

For governor, the choice lies between the present Governor of California, Frank F. Merriam, and Culbert Olson, A state Senator; for lieutenant-governor, Dr. Walter S. Franklin and Ellis E. Patterson; for United States Senator, Philip Bancroft and Sheridan Downey.

That these men are, respectively, the Republican and the nominally Democratic nominees for the State's highest executive posts and the highest office of national scope within the gift of California voters, is the least important aspect of the contest. The question to be settled is not political. It is the same question which was answered four years ago by the election of Governor Merriam over Upton Sinclair; the question of whether California shall continue sane, conservative and successful or shall abandon its proven ways to well being for an excursion into the wilderness of experimentation.

That California voters made no mistake when they placed Frank F. Merriam in the governor's office four years ago and that they will make no mistake in returning him to this office is amply substantiated by the record of the past four years. Governor Merriam inherited a deficit of \$30,000,000 which, in four years of sound financing, he has halved. In the same period the State's Budget has been balanced, its credit raised to a place among the country's highest and a rigid system of pay-as-you-go established and enforced for every State activity. This has not been accomplished by excessive taxation or by curtailment of any essential or humanitarian service. On the contrary, our per capita State taxes are among the lowest and the most equitably spread in the United States; our old age benefits are actually the highest paid by any Commonwealth, regardless of size or resources. In the face of an indigent problem such as no other State has had to contend with, relief and unemployment have been adequately and nonpolitically cared for, an unprecedented demand for emergency flood-aid met, State services to the public and to our widely diversified business, agricultural, mining and manufacturing interests extended and an exceptionally high standard of public education maintained. All this has been accomplished in the face of the terrific handicaps which depression and unemployment have thrust on every government and particularly California.

There is never any doubt where Governor Merriam stands on any question; his platform is one which meets every issue squarely and without equivocation, regardless of political consequences. He is not merely able and experienced; he is thoroly dependable. He has not made promises on which he could not make good and he is making none such now.

Is there anything in Olson's record that indicates that he could in any way better this record or that he is better fitted for this high office than Governor Merriam? As an administrator and executive of public affairs, the best that can be said of Senator Olson is that he is a completely unknown quantity. He is an advocate, strictly for vote-getting purposes, of whatever unsound political or economic fad happens to be popular at the moment. In 1934 he was in forefront of Upton Sinclair's Epic campaign—for the sake of its aid to his candidacy for the State Senate. This year he won his gubernatorial nomination by pre-primary advocacy of the \$30 every Thursday pension plan. Since the primary, he has demonstrated his complete lack of sincerity and conviction by consistently dodging any reference to the issue, either in his State platform or his public utterance. In one instance he was offered free advertising space in a leading Southern California newspaper to explain his present stand on this issue but chose to ignore the offer. He is straddling the fence in an effort to keep the vote of those who favor the plan and is attempting to secure the vote of the opposition to the plan, and like the man in an old fable who blew hot and cold with the same breath and lost the aid of his benefactor, he deserves to lose the votes of both sides on this issue. In retaliation for his silence, the Ham and Eggs pension weekly makes no recommendation for governor, but endorses Downey for Senator and Kegley pension weekly makes no recommendation for governor, but endorses Downey for Senator and Kegley for Attorney General.

He claims to be an advocate of the working man and underdog, but how can you reconcile this with over \$100,000 contributed to his primary campaign and probably more than that in the present campaign? Certainly this money was not contributed by the working people, but by monied interests of the state who expect to be repaid by political favors if he should be elected. While pleading for the vote of the working man, he has already mortgaged his future actions if he should be elected.

Who are his supporters? A man is known by the company he keeps. He is backed by the Communists, the C. I. O., by Tom Mooney and by those who seek socialistic control of the state through such schemes as the Single Tax plan.

What legislation did he favor as State Senator? His outstanding contribution to date has been an effort to abolish his own office through elimination of the Senate in favor of a unicameral Legislature. The unpopularity of this plan in rural districts, which would thereby be deprived of adequate representation, has caused a temporary silence on his part of the subject during his campaign for the Governorship.

A study of these records should be sufficient to show every citizen that the prosperity and welfare of this state for the next four years depends upon the reelection for Governor Frank F. Merriam.

Before casting their votes for Lieutenant-Governor the electors of the State should pause to consider the importance of this office. Aside from the fact that the Lieutenant-Governor acts as president of the state senate and handles other important duties, is the all important fact that in event of the death or resignation of the Governor the Lieutenant-Governor becomes the Governor of the State and we do not believe the people of this State will choose to gamble on the possibility of E. E. Patterson stepping into this position. Particularly in view of his past record in the legislature where he favored such radical measures as repeal of the Criminal Syndaclysm law and advocated the use of public schools as a meeting place for communists and the statement of Tom Moony, that should Patterson ever fill the Governor's office he is assured of a pardon. And there is no need to gamble when voters have the choice of a man of the caliber of Dr. Walter Scott Franklin, whose years of dealing with the ills of mankind as a practicing physician, his familiarity with agricultural interests of the state, and his service on civic committees have amply fitted him for this important office.

For United States Senator there seems but little question that Phillip Bancroft is far better equipped to represent the vast interests of his native state in Washington than is his opponent Sheridan Downey. Although without previous political experience he has demonstrated his familiarity with the varied problems of the state during his campaign and has shown those qualities of leadership and fearlessness

(Continued on page 8)

## The Churches

Carpinteria has a number of Churches, whose pastors and members will be glad to welcome you to their services.

### CHRISTIAN SCIENCE SOCIETY

Christian Science Society, Carpinteria, a branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., holds service every Sunday at 11 o'clock a. m., Sunday School at 9:45 o'clock. Mid-week meetings every Wednesday evening at 8 o'clock.

A reading room is maintained in the church building, open Tuesday afternoons (except holidays) from 2:30 to 4:30 o'clock.

These words of John: "He that is of the earth is earthly, and speaketh of the earth: he that cometh from heaven is above all," are the Golden Text in the Lesson-Sermon on "Adam and Fallen Man" on Sunday in all Churches of Christ, Scientist.

One of the Bible selections in the Lesson-Sermon includes these verses from the book of Genesis: "In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters . . . And God said, Let us make man in our image, after our likeness: . . . So God created man in his own image, in the image of God created he him; male and female created he them. . . And God saw everything that he had made, and, behold, it was very good. . . But there went up a mist from the earth, and watered the whole face of the ground."

The Lesson-Sermon presents also this verse from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The creations of matter arise from a mist or false claim, or from mystification, and not from the firmament, or understanding, which God erects between the true and the false."

### THE CARPINTERIA COMMUNITY CHURCH

Rev. Deane F. Babbitt, Pastor. Responsibilities of parents and children are mutual. The Sunday school teaches children to be more thoughtful of their parents, cooperating with them in a loyal manner.

Faith is the fervid evidence of loveliness unseen. It is one of the most powerful influences in the world for good or for evil. But primarily it is a practical power to be used or misused. Contributing to the spirit of prayer and praise, Rev. Deane F. Babbitt will preach upon "The Practical Use of Faith" at the Sunday Morning Worship Service.

"—and this is the victory which hath overcome the world, even our faith." 1 John 5. 4-b

In the evening John Calhoun and the Youth Fellowship of Christian Endeavor will discuss the "Practical Value of the Christian Life at School. Special observance of California "C-E" Day will be a feature of the meeting.

### S. B. FIREMEN'S DANCE SET FOR NOVEMBER 23RD

Plans have been completed for the 10th annual dance of the Santa Barbara Firemen's Relief Association which will be held on Wednesday, November 23rd in the Santa Barbara Armory. Music will be furnished by Doug Hoag's 12-piece band between the hours of 9:00 p. m. and 1:00 a. m. and 12 turkeys will be given away during the evening.

CHARLES "BUCK" BAILEY

Buck Bailey, Gaucho Fullback, who will see action against San Jose State's much vaunted eleven, in Ledbetter Stadium Saturday night.

HOELSCHER TELLS OF PROGRESS OF CAMPAIGN

Fred Hoelscher, Republican candidate for Congress in the Tenth District, who has just returned from a swing around the District, was deeply impressed with the strength of the non-partisan movement in his behalf.

"In addition to making seven radio talks, I visited every county," said Mr. Hoelscher, "and came into contact with the people in most of the cities and towns as well as hundreds in the rural areas. In nearly all sections I found the same encouraging expressions.

"Farming is the major industry in most of the counties and I found that the farmers are thoroughly aware that they carry the load. They are not deceived as to the conditions—with foreign grown products lowering the market for their products."

Mr. Hoelscher is on "home grounds" when he speaks either to farmers or business men. He has had years of experience in both lines of activity. A San Joaquin valley farmer summed up the matter this way: "With the government spending vast sums on the Central Valley Project which will bring water to thousands of acres of water starved land, we need someone in the House of Representatives who will assist us to get proper recognition under this great plan."

Kern, San Luis Obispo, Santa Barbara, Tulare and Ventura Counties

General ELECTION Nov. 8, 1938

Experience

From laborer to inspector in Steel Works. Educated at University of Michigan and Northwestern University Law School.

13 years farming, both dry and irrigated ranch. Appointed to Legislative Committee of Oregon Irrigation Congress, which formulated and had passed the Oregon Irrigation District Law.

Director during financing and construction and operation of \$1,110,000.00 Irrigation Project Superintendent of construction on several large Irrigation projects in Northwest. Consultant on irrigation problems.

Successful business manager in 10th District for over 11 years.

Enlisted for service in World War.

Home owner with four children.

Interested worker and active executive in many civic projects, American Legion, service and fraternal organizations.

I Believe That

The Wagner Act must be amended to make it fair and workable.

Relief control must be returned to residents to eliminate Tammany tactics.

Extension of Markets instead of curtailing production will bring prosperity through jobs and farm income.

Social Security funds must be used for security and not for government expenses.

Success of reforms depends upon the orderly accomplishment of recovery.

Reciprocal trade agreements have hurt the farmer and small business.

Our District must have its fair share of the Central Valley Project appropriations and work instead of all efforts going to the North.

We need intelligent, continuous action on all Conservation projects instead of promises.

I MAKE ONLY ONE PROMISE—

That I will work faithfully and sincerely to give thoughtful representation to ALL citizens of the 10th District, by careful consideration to all measures, with an open mind, controlled only by conscience and knowledge gained by experience and education.

# HERE ARE THE 1939 FORD V-8 CARS

HERE are the new 1939 Ford V-8 cars. Above, the deluxe Fordor sedan, below the Ford V-8 Tudor sedan. The two cars are individually styled. The deluxe car has wholly new streamlines, a deep hood un-

broken by louvres, a low radiator grille in bright metal and wide spaced headlamps. The Ford V-8 has a full grille and unobtrusive louvres at the rear of the hoodsides. The deluxe cars are powered with the 85 horsepower engine, the Ford V-8 with the 85 or 60 horsepower engine. Both cars have hydraulic brakes. Bodies are all-steel. The deluxe cars are available in five body types, the Ford V-8 in three, with color option.

## FARM BUREAU LEADERS TO MEET SATURDAY

The Farm Bureau leaders and members from Los Angeles, Ventura, and Santa Barbara Counties will convene as California Farm Bureau Region No. 2 in a meeting at the Barbara Hotel on Saturday, November 5, 1938 at 10 a. m. This announcement was made by Santa Barbara County Farm Bureau's State Director Frank G. Doty today. Regional Director J. P. Butler of Chatsworth will preside at the meeting as Farm Bureau problems of the Region will be discussed.

Mr. E. C. Kimball, of Ventura county, Vice-president of the California Farm Bureau Federation will be the main speaker of the day. Kimball will discuss the amendments on the November ballot, particularly those issues which are most important to agriculture.

Chairman Butler will lead a round table discussion of the leading agricultural problems affecting this tri-county area.

Recent developments in 4-H Club, agricultural and home economics matters will be discussed by the Santa Barbara County Farm Advisors staff.

### S. B. Directors Will Meet Early

In order to avoid conflict with the tri-county meeting to be held at the Barbara Hotel in Santa Barbara on Saturday, November 5, the directors of the Santa Barbara County Farm Bureau will hold their meeting at the Barbara Hotel at 9:00 a. m. on the same day. Approval of the Organization Committee's action and attention to necessary current business matters will be all that will be included in the local directors meeting.

## DR. J. B. LAPE DENTIST

1004 Linden Ave.  
Phone 274  
Carpinteria

In order to consider some issues of importance to the Live Stock Industry, the directors of the Live Stock Department of the Santa Barbara County Farm Bureau will hold a short meeting on November 5, 1938, at 9 a. m. A luncheon will be held by those in attendance at the Regional Farm Bureau meeting on Saturday. This luncheon will be served at the Barbara Hotel Coffee Shop.

PROPOSITION NO. 24 is another measure to destroy our Beaches. **Vote NO on 24**

## NEW CUESTA ROAD TO BE OPENED THIS WEEK-END

SAN LUIS OBISPO—With all counties in the state, from San Francisco to Los Angeles, participating, San Luis Obispo will celebrate the official opening to traffic of the new La Cuesta highway over the Santa Lucia mountains on Friday and Saturday, Nov. 4 and 5.

The program includes a dinner given by the State Chamber of Commerce, Friday evening, at which Governor Frank Merriam will be principal speaker. The new section of highway 101 will be officially declared open at 9:30 a. m. Saturday when the Governor cuts a silk ribbon across the roadway

near the summit of the Santa Lucias.

At 11 a. m. a pageant-parade thru the streets of San Luis Obispo will tell a story of progress in central California and transportation over La Cuesta since the earliest Indians. Two football games, a free motion picture showing the Cuesta roadways since the first trail of the padres to the present, will be features of Saturday afternoon.

A dance at Atascadero Lake and dinner and grand ball at historic Paso Robles hotel in the evening will conclude the fete.

Trail of the Indians, Padres, and early settlers, and scene of holdups in the early days staged by Jesse and Frank James, the Dalton boys, Black Bart and Joaquin Murietta, the opening of the new four lane

highway marks a long step in modern history.

The completion of La Cuesta and the new Solidad bridge, dedicated Oct. 23, has shortened travel between the states two metropolitan centers by more than half an hour and removed the last serious traffic impediments along the Mission Trails.

In straightening La Cuesta the engineers eliminated 59 dangerous curves.

Official inspection of the million dollar section of the highway which, under the supervision of Lester Gibson, district engineer, will be made by members of the State Highway Commission, including Ray H. Judah, of Santa Cruz, chairman; Philip A. Stanton, of Anaheim; Paul G. Jasper of Fortuna; Robert S. Redington, of

Los Angeles and William T. Hart of Carlsbad.

The celebration following the dinner of the State Chamber of Commerce is under the direction of Claude Arnold, president of the California Mission Trails Association and chairman of the San Luis Obispo Board of Supervisors.

Supervisors of other counties, mayors and councilmen of other cities, Chamber of Commerce officials from other centers, engineers and newspapermen will be guests of like groups of San Luis Obispo.

Color bearers from all veterans' posts from Los Angeles to San Francisco will head the parade in a massed color section. Commanders of this unit are E. K. Springer, of Salinas, American Legion commander of the Thirteenth District

including Monterey, San Benito, Santa Cruz, Santa Clara and San Mateo counties and Claude S. Young, commander of the Sixteenth District, which includes San Luis Obispo, Ventura and Santa Barbara counties.

# The Fords Tell Their Plans for 1939

**I**F WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

### EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

### THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements . . . a new tool and die plant that will help us cut the cost of dies . . . and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs.

We simply will not build anything inferior.

### NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

### THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

FORD MOTOR COMPANY, Dearborn, Michigan

## SAN JOSE BOASTS OF MANY STARS

## WARRIORS TO MEET OJAI ELEVEN TODAY

The Carpinteria Warriors will journey to Ojai this afternoon for what may be the next to the last game of the season for the Warriors and the boys are expected to chalk up a victory after dropping the last three games to stronger teams. The starting line-up for this afternoon has been announced as follows: R. E., Gordy Milne; R. T., Beckstead; R. G., Art Milne; C. Ramey; L. G., Miller; L. T., Ballard; L. E., Neil Clark; Q., Kendrick; L. H., Babcock; R. H., Reid; F., Olds.

Although the Ventura Pirates proved too strong for the Warriors in the game here last Friday, hanging up a score of 40 to 13, the local boys put up a game battle from start to finish, chalking up their two tallies in the last half of the game. A run from spread formation in the third quarter by Olds placed the Warriors in scoring position, from where the ball was carried over the goal line. In the last quarter Olds completed a pass from Babcock for another 6 points and scored the extra point on a pass to Milne.

sixth meeting.

Freshman teams from the two institutions will stage their annual preliminary game at 6 o'clock.

Chronicle Want Ads bring results.

## Gauchos Meet Strong San Jose Eleven Saturday Night

SANTA BARBARA—Back home from a jaunt to Tempe, Arizona, last weekend, Santa Barbara State College's much beaten but fighting eleven went into training for a Saturday night clash with San Jose State in the new beach stadium in the home town.

The Gauchos dropped the Tempe game by a score of 10-0, when Arizona heat and a squad riddled by injuries proved too much of a handicap. The Tempe Bulldogs were fired up for a Homecoming victory and turned in their best game to date to swamp the coast boys with a field goal and a touchdown.

Coach "Spud" Harder expressed the opinion his boys may have been concentrating too much on the game this week to keep their minds on beating the Bulldogs. The Barbara coaches feel that San Jose—highest scoring team in the country—can be "had," and that the win-hungry Green Wave is about due to start clicking this week.

Some flashy ball packing by Santa Barbara's big Negro end, Larry Pickens, last week impressed the coaching staff with the idea that Pickens should get a chance at a backfield post. As a result, Pickens will get into the Spartan

game at right half, where he has been working this week in practice. Al Sprague, 6 foot, 3 inch center from Bakersfield, will be tried out at end. Sprague played the wing post before coming to the coast school, and is counted too valuable a man to sub for State's regular center, Blynn Wilson.

The Saturday night clash in Santa Barbara will be the Homecoming game for the Gauchos, and the first official test of the new lighting system installed in the recently completed beach stadium.

### SAN JOSE TEAM BEATS GAUCHO FOE

SAN JOSE—Still the highest scoring football team in the nation, San Jose State's unbeaten and untied Spartans roll into their eighth game of the season Saturday at Santa Barbara against Santa Barbara State's Gauchos.

In whipping San Diego State 14 to 0 last week, Coach Dud De Groot's fast-stepping crew ran their season total up to 229 points.

The Spartans, who have five games to go in a mammoth 12-game schedule, go back under the lights Saturday night to meet the Gauchos.

The San Diego contest was the Spartan's first day game—a factor which apparently mitigated their famed passing attack and contributed to numerous fumbles.

The Spartan lineup will be: Lloyd Thomas, the sensational Negro, at right end; Mitchell Uovich at right tackle; Herb Hudson at right guard; Bob Tichenal at center; Don Presley at left guard; Bob Bronzan at left tackle; Keith Birlem at quarterback; Gene Rocchi at left half; Herm Zetterquist at right half and Capt. Walt McPherson at fullback.

Birlem, unsung "brains" of the high scoring squad, is being mentioned for "little All-America" honors. The chunky hard-blocking hard-tackling senior played 58 minutes against San Diego and scored the first touchdown of his college career.

## NEW YORK CAST TO PRESENT "THE TORCHBEARERS"

The origin of "The Torch-Bearers" which will star Constance Collier at the Lobero Theatre for two performances on November 11 and 12, was simple enough.

Kelly had a perfectly good Philadelphia family behind him. He had written, directed and played in about a dozen one-act comedies and dramas on Keith and Orpheum time. He had begun by quitting his family's tutor to try acting in a playlet by the late Paul Armstrong. Then, with no more preparation, apparently, he had begun to write his own vehicles. He was always being invited to lunch every now and then by the Pampin-

lis of the cities in which he played. To hear them was enough. They had to live a wider life.

Kelly's deft appreciation of comedy and his high satire have contributed greatly toward affording many amusing evenings in the theatre for audiences who have viewed "The Torch-Bearers."

Under his able direction a splendid cast of New York favorites headed by Constance Collier as Mrs. J. Luro Pampinelli, will enact the hilarious farce on the Curran footlights. Mail orders are now being filed in the order in which they are received, it is announced.

## Your Hollywood Correspondent Reports . . .

Ray Milland, on a vacation in Canada, before starting to work with Isa Miranda in Paramount's "Hotel Imperial," writes that he used all of the spending money his manager allowed him to buy some antique table silver. Producer-Director William A. Wellman cut his vacation in Bermuda short to be in New York for the opening of his latest picture, "Men With Wings." Claudette Colbert is back from a desert vacation to start story conferences on "Midnight," the picture she will make after "Zaza." Gracie Allen insists that her husband, George Burns, be present at studio conferences on the "Gracie Allen Murder Case." Jack Benny is having a hat made for Mary Livingstone which he hopes will show her just how funny a hat can look. It's one of his old felts draped in a veil and trimmed with vegetables, fruits, flowers and two stuffed love birds.

Gail Patrick writes from New York that she's having the time of her life taking in all the sight-seeing tours she can find. She's been there since completing "Dis-barred." Bing Crosby came back to Hollywood from a vacation at Del Mar to attend the preview of Jack Benny's latest picture, "Art-ists and Models Abroad." Shirley Ross is getting her personal wardrobe ready for a Bermuda trip she will make following her latest picture, "Cafe Society." When Fred MacMurray, who plays with Shirley in the picture, finishes, he will go duck hunting in Arkansas. The carpet slipper Bill Frawley is wearing on the "Ambush" set is not needed for scenes in the picture. He's wearing it to protect a toe injured on the set when a camera dolly ran over it.

Frank Capra's brother, who runs an exclusive grocery on Hollywood Boulevard rents the building from Cecil B. De Mille, producer-director of Paramount's "Union Pacific." When Joel McCrea starts to work in that picture with Barbara Stanwyck he will move into Hollywood from his ranch. Madeleine Carroll will have to learn surf board riding for her role in "Cafe Society." Bing Crosby is having a fire

Wendy (Jewel More) and Peter Pan (Leslie Gorall), as they appear in the Clare Tree Major Children's theatre production of Sir James M. Barrie's "Peter Pan," which will be presented next Monday afternoon at the Lobero Theatre.

## "PETER PAN" TO BE AT LOBERO NEXT MONDAY

The never failing charm of Never-Never Land is created in the performance of "Peter Pan," Sir James Barrie's immortal classic which comes to Lobero Theatre Monday, Nov. 7th, a presentation of the Clare Tree Major Children's Theatre.

The fantasy, beloved by generations of children, is exquisitely handled by Clare Tree Major's cast of players. Leslie Coral, who has won fame in Broadway successes, delights his youthful audi-

ence and grown-ups with his characterization of the beloved Peter Pan. Jewel Morse plays a charming "Wendy," who is persuaded by Peter to visit the Never-Never Land and be a "mother" to the "lost boys."

The play maintains a fast moving tempo, and the stage settings form an effective background for the excellent acting.

"Peter Pan" is one of a series of three plays for children coming to Lobero in the near future.

Your printing orders will be well done and appreciated at The Chronicle office.

Continued from page 2

which are essential to the office he seeks. At the outset of his campaign he stated clearly where he stood on such questions as the C.I.O., the pension plan and agricultural problems and has never retracted one word of his original platform.

Sheridan Downey, at best, appears to be a political opportunist. Four years ago he was the running mate of Upton Sinclair for Lieutenant Governor on the EPIC platform. Two years later he sought office as a Townsendite and was defeated. He received the Democratic nomination for U. S. Senator through his support of the \$30.00 Thursday Pension Plan. Certainly California cannot afford to place a man in such a high position as United States Senator as Downey has shown himself to be, a political weathervane, following the lines of least resistance and embracing every Utopian scheme in an effort to make it serve his purposes.

## AMENDMENTS

**REVENUE BOND ACT OF 1937.** Referendum of act of Legislature (Chapter 51, Statutes 1937). Act authorizes creation and establishment of a public utilities commission within any city, city and county, county, local governmental agency, society, association, authority, or entity rendering service to the public; authorizes sale of revenue bonds to defray costs of construction or acquisition of public utilities, extensions and improvements thereto, and provides for the acquisition, production, distribution and sale of products, commodities, energy or services of such public utilities and for payment of such bonds and interest thereon.

This measure passed the last session of the legislature but has been returned to the people for their vote on a referendum. Its passage would permit any city, county, local government agency, society, association, etc. to enter into the business of rendering services commonly classed as public utility services and would permit passage of revenue bonds to finance such projects by a bare majority rather than a two-thirds majority as is now required for passage of such bonds. Proponents of this measure state that it specifically prohibits direct taxation to raise funds to repay these obligations and that they must be paid out of earned revenue from the projects. However, it should be remembered that should such projects run into financial difficulty that it is possible to amend this measure so that moneys from tax funds may be used and that such an attempt has been made already in the case of the San Francisco Bay bridges to secure funds from gas tax monies.

Another joker in this amendment is the fact that it permits the setting of rates by the political unit engaged in dispensing service which might lead to much higher rates than are now being paid for services rendered by private utility concerns whose charges are regulated by the California Railroad commission, especially in view of the fact that bonds and interest, according to the proponents, must be paid out of revenues received from the project.

All in all this amendment does not appear to be to the best interests of the state since it permits an increase in bonded indebtedness by a mere majority vote and this indebtedness will have to be met sooner or later, in many cases by increased rates for services or by special appropriations of tax monies. If any revenue bond project is of sufficient merit it will pass the present required two-thirds vote so it would appear wisest to keep up the bars against unsound projects by voting "No" on this amendment.

**REMOVAL OF JUDGES UPON CONVICTION OF CRIME.** Assembly Constitutional Amendment 1. Adds section 10a to Article VI of Constitution. Provides that upon conviction of crime involving moral turpitude a justice or judge of any court of this State shall be suspended from office by Supreme Court and his salary shall also be suspended until conviction becomes final. Upon final conviction Supreme Court shall permanently disbar said justice or judge, remove him from office and salary shall cease from suspension. If conviction is reversed Supreme Court shall terminate suspension and justice or judge shall receive salary for period of suspension.

This is a constitutional amendment which must be approved by the voters in order to become part of the constitution and provides for removal of justice or judge upon conviction of a crime involving moral turpitude and would prevent such incidents as recently occurred when a judge of a district court was convicted of attempting to obstruct Justice in the Federal courts and continued to hold office and draw salary for almost a year while he was serving his sentence. Although this measure could be stronger and include other types of criminal conviction it is a step in the right direction and should be approved.

**JUDICIAL COUNCIL.** Assembly Constitutional Amendment 8. Amends section 1a of Article VI of Constitution providing for a judicial Council, and changes number and composition thereof. Requires concurrence of eight members. Provides that Judicial Council shall adopt or amend rules of judicial conduct governing all judges of the State.

This constitutional amendment which is submitted to the people for approval would provide for an increase of membership of Judicial Council from eleven to fifteen. At present all members of this council are judges but this amendment would liberalize membership to reduce number of judges to eight and include three members of the State Bar, two laymen and the chairmen of the Judiciary Committees of the senate and assembly. This measure has the approval of the State Bar Association and present members of the Judicial council and the addition of three attorneys and two laymen to this council would probably be of assistance in correcting practices which tend to delay hearings of cases and crowding the calendars. There is no strong argument against the passage of this bill and since it seeks to improve existing conditions it should be approved by the voters.

**RETIREMENT OF JUDGES.** Assembly Constitutional Amendment 1. Adds section 27 to Article VI of Constitution. Declares every retired justice or judge shall continue to be judicial officer but

**16** shall exercise judicial functions only under assignment by chairman of judicial council and shall receive therefore only such compensation as Legislature may provide. Ratifies chapters seven hundred seventy and seven hundred seventy-one of Statutes 1937, but declares Legislature may amend, repeal and supplement same.

This constitutional Amendment which must be passed on by the people before it can be included in the constitution of the state is apparently intended to define the status of a retired judge so that section 6 of Chapter 770 of the Statutes of 1937 which purports to permit a retired judge to sit in any court as an active judge may be cleared of any question of unconstitutionality. This amendment would also ratify Chapters 770 and 771 of the Statutes of 1937 which provide for a retirement and pensioning of judicial officers which was authorized by the people in 1934 by the passage of an amendment which added section 26 to Article VI of the constitution. There appears to be no reason why this amendment should not be adopted into the constitution.

**INITIATIVE.** Senate Constitutional Amendment 25. Amends second paragraph of Section 1 of Article IV of Constitution by providing that after presentation to Secretary of State of properly certified petition proposing a law or constitutional amendment to the electors at next succeeding general election occurring subsequent to 130 days (instead of 90 days as at present) after said presentation, or at any special election called by the Governor in his discretion prior to such general election.

**17** This amendment would provide that properly certified petitions proposing a law or amendment to the constitution must be filed with the Secretary of State 130 days prior to a general election instead of 90 days as now permitted. Passage of this amendment would provide an additional 40 days for checking of petitions and for printing of pamphlets setting forth text of amendments, etc. Although opponents of this measure state that this amendment would shorten the period for obtaining signatures on petitions for proposed measures following the

(Continued on Page 10)

## LETTERS TO THE EDITOR

Editor:

I wonder if you will print this letter from a mother of three children in a humble home. We have heard arguments about the measure 20, which is referred to as the Repeal of Sales Tax or Single Tax, and it seems that many people in my circumstances think that the repeal of the sales tax would be a good thing. I wish it was possible for me to talk with each of these people, so that I could try to show them how little they would gain and how much they would lose.

What I pay in sales taxes each month doesn't amount to fifty cents, but it returns to my children, through their schooling, many times that in making them better children and able to enjoy better things when they grow up. It terrifies me to think that for the sake of saving fifty cents a month, my children run the risk of having their school work stopped or cut down and their future put in danger.

I don't understand what the single tax means, except that it probably will make rents higher, but I can understand that the sales tax supports our schools and also pays for the relief that some of my neighbors get.

It seems terrible to me that so many people can be misled on this measure, when it isn't hard to see what the results will be if it passes. If by printing this letter, you can help to show some people that they should vote No on Measure 20, I will feel that I have done something for my children that they deserve to have, because they are good children and want to go to school.

Mrs. Mary Peters.

## FARMERS

You CAN'T AFFORD TO FIGHT YOUR WAY TO MARKETS

## PUBLIC

You CAN'T AFFORD TO FIGHT YOUR WAY TO STORES

Save your job, protect your constitutional rights and insure your own and your family's welfare from violence in labor disputes. Vote YES on #1 and end labor leaders' warfare. Stop the killing of pay checks by mass picketing, racketeering, brute force.

Employees have their rights. Employers have their rights. The public has its rights. All are specifically protected by Proposition #1. It does not destroy any union or the right to join any union. It does not interfere with the right to strike or with peaceful picketing if disagreements are over wages, hours, or physical conditions of employment. Proposition #1 guarantees a fair and peaceful deal for everybody. Individual rights, freedom of speech and action are upheld.

With Proposition #1, there will be no mass control of sidewalks; no intimidation; no use of force to spoil crops in harvesting or on their way to market. It makes for just labor-peace, steady jobs, regular pay checks, better times for all.

Don't wait until election day to work for Proposition #1. Explain its value to your friends. WORK, TALK and be sure to vote "YES" on #1 November 8th.

**VOTE "YES"**

### ALTAR SOCIETY DINNER WELL ATTENDED

The dinner given Wednesday evening by the Altar society of St. Joseph's church at the Memorial building was largely attended. Music during dinner was by the evening high school orchestra directed by Prof. Otto Kluge.

### GIRL SCOUTS OBSERVE HOSTESS DAY WITH TEA FOR MOTHERS

Girl Scouts of the high school and eighth grade troops and their leaders, Mrs. Merle Staub, Miss Elizabeth Platt, Miss Vivian Rodriguez and Mrs. Emory Peterson, observed hostess day of Girl Scout week with a tea for their mothers and members of the Scout committee at the high school Wednesday afternoon. The guests met in the high school little theatre where they were entertained by piano numbers by Jane Franklin, Jean O'Banion and Bonnie Shepard, and accordion solos by Jane Franklin. Tea was served in the home economics rooms with Mrs. John F. Rock and Mrs. Maurice Beckstead at the tables.

Mothers present included Mrs. Rock, Mrs. Beckstead, Mrs. Joseph H. Schweizer, Mrs. C. R. Vaughan, Mrs. G. A. Bridges, Mrs. A. C. O'Banion, Mrs. A. E. Southworth, Mrs. H. B. Franklin, Mrs. J. Fraser Dewar and Mrs. Stanley Shepard. Scouts who were hostesses were Jean O'Banion, Kow Dyo, Margaret Senteney, Goldie Bridges, Daphne Dewar, Hanaye Ota, Barbara Bates, Loretta Mayrhoffen, Virginia Vaughan, Jane Franklin, Joan Rock, Marie Schweizer, Bonnie Shepard, Carol Beckstead, Joyce Richardson, Carla Bradbury, Joyce Miller, Phyllis Southworth, Virginia Carpenter, Gloria Curtis, Eleanor Vaughan, Dorothy Rosebro, Evelyn Russell, and Erlyn Seglie.

### HOME DEPARTMENT MEETS WITH MRS. R. J. OGAN

Members of the farm-home center and the county advisor, Miss Irene Fagin met with Mrs. R. J. Ogan Tuesday afternoon to study furniture arrangement. Attending

were Mrs. Glover of Santa Barbara, Mrs. W. L. Dowling, Mrs. Marc Latham, Mrs. Charles Ogan, Mrs. S. C. Maddox, Mrs. H. B. Fish, Mrs. H. L. Beckstead, Mrs. Phil Dane, Miss Minnie Merrihew and Miss Julia Fish.

### LOUISE SENTENEY BECOMES BRIDE OF CEDRIC LADD

In a simple ceremony performed at the bride's home by the Rev. James A. Lewis, Miss Louise Senteney was united in marriage with Cedric Ladd last Thursday evening. The bride wore a dark blue crepe with white accessories. The ceremony was witnessed by members of the bride's family. After a short honeymoon the couple went on to San Francisco where they will make their home.

The bride is the second daughter of Mr. and Mrs. George A. Senteney and is a graduate of the Carpinteria schools. Mr. Ladd is a son of Mr. and Mrs. Joe Ladd of Upland, Indiana.

### TRI-Y INITIATES NEW MEMBERS

Seven new members were inducted into the high school Tri-Y Tuesday evening in ceremonies

when parents of the members and a group from the Ventura organization were present. Merle Waterman of the Hi-Y staff led singing and spoke to the girls. The new members are Josephine Stewart, June Osterman, Beth Mathews, Margaret Anderson, Patty Orrill, Fleurette Bates and Patty Demaree. Miss Allene Padelford is faculty advisor for the group.

Other members are Beverly Humphreys, Helen Young, Martha Thurmond, Marilyn Shepard, Mary Alice Hebel, Nancy Franklin, Patsy Hales, Helen Nalty, Lila Stone, Masaye Ota, Madelon Southworth, Barbara Lyman, Nina Anne Miller, Ethel Babcock, Anna Lee Drake, Elsa Lee Grell and Benita Baker.

### ALISO MOTHERS' CLUB HOLDS FIRST MEETING OF YEAR

The first meeting of the Aliso Mothers' club held last Thursday afternoon at the school featured a program by pupils from all the grades which included discussions from their classrooms, a playlet, music and dances. Mrs. Lucie Treloar is sponsor for the club.

Mrs. Nellie Jimenez was re-elected president of the club, Mrs. Martin Moreno, secretary-treasurer, and Mrs. Mary Morelli, social chairman. The Aliso teachers were hostesses at tea served at the close of the program.

Besides the officers, mothers present included Mrs. Marina Jimenez, Mrs. Saragosa, Mrs. Consuela Rosales, Mrs. Mary Ramirez, Mrs. Polyfox, Mrs. Connie Cadello, Mrs.

Martinez, Mrs. Christina Naranjo, Mrs. Flores, Mrs. Ascencion Goena, Mrs. Anna Cruz, Mrs. Velasquez, Mrs. Lorenza Vega, Mrs. Sanchez and Mrs. Antonio Chevrer.

### ETHEL BABCOCK CELEBRATES BIRTHDAY WITH PARTY AT EL CORTIJO

Mr. and Mrs. William A. Babcock entertained a group of young people at a dinner dance at El Cortijo during the past week celebrating the 16th birthday of their daughter, Ethel. The guests included Mr. and Mrs. William Babcock Jr., Mr. and Mrs. J. L. Barker, Mrs. Edythe L. Sparks, Mrs. Ila N. Barker, the Misses Benita Baker, Nadine Cook, Marilyn Shepard, Elsa Lee Grell, Beth Mathews, Beverly Humphreys, Josephine Stewart, and Anna Lee Drake, also Gordon Milne, Richard Houts,

Richard Kistler, Rolland Wullbrandt, Robert Corbett, Warren Jones, Robert Koehler and Charles Babcock.

### FELLOWSHIP CLUB TO MEET MONDAY NIGHT

The Good Fellowship Men's Club will hold its regular monthly dinner meeting Monday night at 6:30 at the Community church. Fred H. Schauer, Santa Barbara Attorney, will speak on the subject of "The Federal Constitution and Its Influence."

John Furby, president of the organization, will preside and the dinner committee is composed of Cary Demaree, chairman; Del Kent, Albert Coles, Walter Dowling and M. F. Lewis.

(Continued from page 8)

close of the legislative session, it would seem more important that the Secretary of State and State printer be given additional time to perform their duties since the population of the state has greatly increased since the passage of the original law. Apparently the length of time for securing signatures is no great factor since Amendment No. 25 received a record-breaking number of signatures in a very short time while other measures failed to receive sufficient signatures after months of work, so in the interest of efficiency of state offices it would appear best to vote "Yes" on this amendment.

**18 STATE MONEY.** Senate Constitutional Amendment 31. Adds Section 29 to Article IV of Constitution. Authorizes Legislature to provide that State money in control of any State agency or department or collected by State authority, except money in control of or collected by Regents of University of California, shall be held in trust by State Treasurer prior to deposit in State Treasury by State agency or department. Permits State Treasurer to disburse such trust money upon order of State agency or department as permitted by law, and deposit same in banks to same extent as money in State Treasury.

This Constitution amendment would provide that state money in control of any State Agency or Department be held in trust by the State Treasurer prior to deposit in the State Treasury and if passed will result in a considerable saving in interest. Under a Federal Reserve act banks in the Federal Reserve system are prohibited from paying interest on public funds deposited in active bank accounts and passage of this amendment would permit the State Treasury to deposit monies of various state agencies in inactive accounts which would draw interest whereas state agencies now have large sums deposited in active accounts which bear no interest. Since passage of this amendment would mean a savings to the State it would appear that it should be adopted.

**19 LENDING OF GIFT OR PUBLIC MONEY.** Senate Constitutional Amendment 32. Amends section 31 of Article IV of Constitution. Provides that Nothing in Constitution shall prohibit distribution of any surplus in the veterans' farm and home building fund arising out of the operation of the Veterans' Farm and Home Purchase Act of 1921, by refunds, or credits on account, or otherwise, to veterans who served in United States military or naval service during time of war and who are or have been purchasers under act, and whose payments thereunder have contributed to such surplus. Prescribes ratio for said distribution.

The passage of this act would make possible the distribution of surplus funds which accumulated in the Veterans farm and home building fund on an equitable basis to veterans who have purchased farms or homes under the Veterans' Farm and Home Purchase act of 1921. This surplus has accumulated as the result of administration costs being much less than estimated when the law was put into effect and since all administration charges have been covered by an administration charge paid by veterans' who have availed themselves of the opportunity to purchase property under this act, it would seem that this surplus rightfully belongs to them and therefore this amendment should be passed.

**20 TAXATION.** Initiative Constitutional Amendment. Repeals limitation on ad valorem property taxes for State appropriations. Prohibits increasing present assessed valuation of improvements and tangible personal property; annually reduces tax rate thereon and exempts same from taxation in nine years, except for regulation; existing tax rate limitations becoming inoperative proportionately as necessary to offset such reductions. Exempts from taxation \$1,000.00 of assessed improvements on land occupied by owner as home. Limits tax moratoriums to improved property in one parcel and ownership having assessed valuation not exceeding \$5000.00. Repeals specified Sales, Use and Private Car Taxes.

To understand the confiscatory nature of this amendment and the disastrous effect it would have on the tax structure of the state the voter should read the text of this amendment thoroughly. First it would remove the existing law which provides that not more than 25% of the total appropriations from all funds of the State shall be raised by means of taxes on real and personal property thus clearing the way

(Political Advertisement)

## FOR *Safety's* SAKE

Propositions 3 and 4 will work amazing improvements, give you better highways, and safeguard lives and property, with positively **no increase in taxes!**

Number 3 (Anti-Gas-Tax Diversion Amendment) protects the adequate present revenues for highway safety and betterment. Number 4 (State Highway and Traffic Safety Commission Initiative) provides an economical and effective full time administration of State Highway affairs and traffic safety.

AND  
**4**

for the levy of confiscatory taxes which would be necessary if the act is adopted. It would repeal the Sales Tax, the use tax and the private Car Tax Act, thus placing the burden of providing hundreds of thousands of dollars now raised by these acts on land.

It holds out as "bait" immediate exemption of \$1,000 on improvements on land occupied by the owner as a home. It should be thoroughly understood that this does not exempt land on which the property stands and that the increased taxation on land made necessary by this amendment would undoubtedly offset any such exemption on the improvements. It should also be remembered that a good share of your present tax rate is devoted to payment of interest and principal on various bond issues, some of which have many years to run, and that this bill does not relieve personal property or improvements on real property from assessments to care for these outstanding obligations.

It further provides for complete exemption of improvements and tangible personal property at the end of nine years by a yearly reduction of 10% of the rate levied on land for the same year. This would include hotels, apartment houses, office buildings and about 90 percent of the property of public utility companies.

With these valuable assets removed from the tax roles, the sales tax, use tax and car tax abolished, anyone with even an elemental knowledge of arithmetic can readily figure that the burden placed on land would be so heavy that the land would eventually revert to the state through the inability of owners to meet the taxes. Obviously the State can not pay taxes on its property so schools, state relief and all other agencies of the State, government now supported from tax funds would have to be abolished or some other form of taxation established in which event the \$15.00 a year which proponents claim the average person pays in sales tax at present would be a mere drop in the bucket compared to the amount that would have to be levied should this amendment be put into effect.

If you want to pay rent, eventually, to the State for land on which your improvements now stand, if you want to see schools and other public services discontinued, the credit of the State ruined and Calif.

## G.O.P. CANDIDATES SPEAK AT RALLY IN SANTA BARBARA

Philip Bancroft, candidate for the U. S. Senate, Dr. Walter Scott Franklin, candidate for Lieutenant governor, and Joseph Scott, Los Angeles attorney who was speaking on behalf of the re-election of Governor Frank F. Merriam, stated last week in a Republican rally held at the Veterans' Memorial hall in Santa Barbara, that their respective victories would be due to the "swing" of Democratic voters to the Republican candidates.

The candidates' personal appeal for sane government has broken down the two to one Democratic registration in the State, and this factor alone will bring the desired results, according to their prediction. The three above mentioned candidates are not running a party race, but are making a fight to maintain American principles in California's government. The fourth speaker, F. Fred Hoelscher, candidate for Congress from the Tenth district is the only one of the quartet who is running a more or less party race, but despite this, he emphasized the needs and ser-

## Telescopes 'see' better in natural gas regions

~ and this is important to you!

Southern California's astronomers can study thousands of stars that are invisible in regions where chimneys smoke. And not only astronomers but *everybody* gets the benefit of clean air in communities that depend on natural gas. For gas alone gives — without smoke — the intense, economical heat that homes and factories need.

When your home is equipped with well-conditioned modern gas appliances, a year's service will not cause enough

soot to cover the bottom of a thimble. That's a truth worth remembering when you think of cleanliness in cookery and other household services.

Look over the newest gas appliances, today! They're not only the last word in cleanliness—they are actually *ahead* of the times in labor-saving operation! See a dealer or the gas company. Ask about the easy payment plans.

(Continued from page 10)

ornia deserted by hundreds of industries, investors, etc., you will vote "Yes" on this bill. But if you believe that every person who enjoys the services rendered by the state should pay a share of the bill whether they own property or not, that the present limitation on ad valorem property taxes should continue and that the prosperity of the State should not be jeopardized you will vote "No" on this amendment.

**CHURCH, ORPHANAGE, AND COLLEGE TAX EXEMPTIONS.**

Senate Constitutional Amendment 34. Amends Constitution, Article XIII, sections 1a, 1½ and 1 1/2a. Extends exemption from taxation of buildings used solely and exclusively for religious worship to include all furnishings and other personal property therein; and of buildings occupied by institutions sheltering more than twenty orphans or half orphans, receiving State aid, to include all personal property used in connection with such institutions. Denies exemptions to church property, to such orphan institutions, and to educational institutions of collegiate grade, unless those claiming exemption comply with prescribed statutory procedure.

The constitutional amendment does not provide for new tax exemptions for buildings used for religious worship, orphanages, etc., but is intended to clarify the law permitting these exemptions by requiring all institutions claiming exemption to comply with the statutory procedure prescribed with respect to obtaining exemptions. The district court of appeal recently held that because of the fact that this procedure is not prescribed by the constitution itself, it need not be followed and since this ruling has caused a great deal of confusion the people are asked to pass this constitutional amendment so that laws already passed on this subject may be ratified. The amendment also provides for exemption of personal property used in connection with these institutions but this does not provide additional exemption but merely confirms the practice of various taxing units in considering this property to be exempt along with the real estate. There is apparently no reason why this amendment should not be adopted.

**CITY CHARTERS. Assembly Constitutional Amendment 59.**

Amends section 8 of Article XI of Constitution. Permits filing petitions for charter amendments at any time. Provides that amendments to charter shall be submitted by the legislative body of the city and county to the electors at the time of the holding of the next regular municipal election held not less than 60 days from the date of filing of the petition, or at any special election called for that purpose prior to the next regular municipal election. Provides qualified electors are those whose names appear on current registration records.

This is a constitutional amendment intended to clarify the provisions of the Constitution relating to Charters of cities and counties and deals with filing of petitions for charter amendments, calling of elections thereon and defining qualified electors to conform with present system of permanent registration. At present elections on charter amendments must be held at the same time as the State General election in November and this amendment would permit voting on such matters at any regular municipal election or at any special election called for that purpose. Since there are always a number of state amendments on general election ballots it would be wise to vote on local charter amendments at regular municipal elections rather than confuse the voter's mind with both state and local issues at one time. However, the fact that this law would permit calling of special elections on charter amendments makes it doubtful as to whether this amendment should be passed, since it is an established fact that special elections draw but a small percentage of the voters and it would be an easy matter for well organized groups to secure changes at special elections that might not prove to the best interests of the area affected by the charter.

Other changes which would be effected by this amendment would provide for filing of petitions with clerk of city, or city and county, or county governing body, rather than with the body while in session and would provide that qualified electors are those whose names appear upon current registration records. These two changes are in the interest of increased efficiency in government, but it might be well to vote "no" on this amendment and ask your assemblyman to seek an amendment to this measure which would strike out the clause referring to special elections, before again submitting this measure to the people for their approval.

**LEGISLATIVE HELP. Assembly Constitutional Amendment 51.**

Amends section 23a of Article IV of Constitution, providing for legislative help; provides that total expense for officers, employees and attaches, for both houses, at any regular or extraordinary session, shall not exceed a total sum equivalent to ten dollars per day per member, to be apportioned between the two houses as Legislature shall provide.

This amendment would provide for additional funds for employing help and attaches for both houses of the legislature during legislative sessions. No increase in funds for these services have been provided since 1924 and there is no doubt but what additional help has been made necessary by the increase in population of the state and the great increase in the number of bills introduced at each session. At present this problem is being met by borrowing employees of various state agencies which are permitted to employ temporary help from civil service lists to perform duties of employees loaned to the legislature.

In spite of the admitted need of additional help, it would appear wise, in the interests of efficiency and economy to hold this amendment in abeyance until such time as provisions are made for hiring legislative help from lists of eligible employees who have been placed on civil service rolls through their ability to pass rigid examinations to determine their ability and fitness for such work, rather than the present practice of appointing such help for political reasons without regard for qualifications for such positions.

**LEASING STATE-OWNED TIDELANDS FOR OIL DRILLING.**

Referendum of act of Legislature (Chapter 832, Statutes 1937). Act provides competitive bidding for leases to eleven parcels of state-owned tide and overflowed lands at Huntington Beach for oil drilling; prohibiting acceptance of any bid unless same provides for royalty to State over 30% of production when average daily production for thirty consecutive days exceeds 200 barrels, over 40% when same exceeds 1,000, and 50% when same exceeds 2,000 barrels, and for drilling minimum of five wells per parcel.

**HEMET TURKEY SHOW SET FOR NOVEMBER 10-13**

HEMET—Cash prizes totaling \$10,173 will be distributed to exhibitors at the third annual Hemet Utility Turkey show to be held here November 10-11-12-13, it was announced today by J. C. Loomis, president of the 46th District Agricultural Association, and Sydney C. Moonfi representing the Hemet Valley Chamber of Commerce, joint sponsors of the event.

More than 2000 of the finest turkeys produced in the United States will be on display. Live and dressed bird entries have already

been received from states as far distant as New Hampshire.

Feature exhibit space has already been reserved by more than 30 Southern California communities and organizations, Mr. Moon said, and it is now evident that every inch of floor space in the exposition building will be required to accommodate the displays.

Several hundred live turkeys will be awarded prizes to persons attending the show and there will be spectacular entertainment programs each afternoon and evening.

An added attraction this year will be a horse show in an arena adjoining the exposition building and entries already received are a guarantee that many of the finest

There are no arguments for the passage of this amendment and several against it. According to John H. O'Donnell who introduced this bill which was passed by the 1937 legislature and returned to the people on a referendum, Chapter 303 of the Statutes of 1921, which this bill amended, was repealed by the Robertson Oil Bill during the special session of 1938, hence a "yes" vote on this amendment would serve no purpose since the courts have held that you can not amend a statute which has been repealed. Furthermore, this amendment is practically the same as Amendment No. 10 which appears on the ballot and would serve as opening wedge for tideland drilling with its disastrous effects on California beaches and which should be defeated by voting "No."

**RETIREMENT LIFE PAYMENTS. Initiative Constitutional Amendment.**

Provides for State Retirement Life Payments Administrator, appointed by Governor from three named persons, appointee serving until successor elected in 1940 for four year. Requires State issue retirement compensation warrants, and redemption stamps to be affixed thereon weekly to redeem warrants annually. Requires weekly issuance of at least thirty \$1.00 warrants during his life to each qualified California elector fifty years of age not employer or employed, redeemable in cash by Administrator and receivable in payment of taxes and certain other obligations due to or from State or political subdivisions.

Outside the "Single Tax" amendment No. 20, the passage of this initiative measure would have the most far reaching effect on the affairs of California of any measure on the ballot. Proponents of this measure are seeking means of increasing old age pensions and the lowering of age limits for eligibility to such pensions through the issuance of 30 \$1.00 warrants every Thursday to every registered voter of the state 50 years of age or older providing they are not employed or an employer. The bill provides that the holders of these warrants on every Thursday must affix a 2 cent stamp, issued for the purpose, before they can be used again in transactions until each warrant shall have affixed 52 stamps of the value of \$1.04 at which time they would be redeemable in cash by the Administrator elected at the same time this amendment was passed. The bill further provides that all political units of the state must accept warrants at the \$1.00 value in payment of taxes and certain other obligations, and that employees of these units and those selling materials, supplies, services, etc., to these units must accept 50% of their wages or pay in these warrants.

Businessmen, bankers, economic experts and state officials point out that should this amendment be passed it could not operate and that to experiment with this proposition would mean financial ruin to the state. Merchants would not be able to accept these warrants for their wares for the simple reason that the wholesalers and distributors with which they deal could not accept them in payment of the merchants' accounts because a large portion of their materials and merchandise must be purchased outside the state where those warrants would have no value and could not be accepted. Your banks could not accept them because of existing State laws and Federal regulations established for the protection of their depositors. They could not be applied to F.H.A. loans or repayments of loans of any kind, including installment payments for the reason that cash has been advanced and the obligations must be paid in cash.

Proponents of this measure state that it involves no tax or cost to taxpayers later and probably make the statement in all sincerity. However, under closer study this statement is not borne out by the facts. While the people of California would be asked to accept these warrants at the value of \$1.00 they could not possibly be worth more than the amount of stamps affixed thereto because the only cash back of them would be that obtained by the sale of stamps. Therefore these warrants would have a maximum value equal to stamps affixed in ordinary transactions but tax units would be forced to accept them at \$1.00 value, regardless of number of stamps affixed at the time they were used for payment of taxes, or whether they bore any stamps at all. Obviously state and local tax agencies would soon find themselves with a bunch of warrants of questionable value on their hands and no cash to meet obligations. Therefore, if the amendment should carry, it would be necessary for some sort of tax law to be enacted providing for a prohibitive tax payable in cash only to make up the deficit between the \$1.00 value at which the law provides the warrants must be accepted in payment of taxes and the actual value of these warrants if schools and other public services rendered by the state were to continue to function.

Admitting that present old age pensions and unemployment relief leaves much to be desired, it would appear wisest to insure continuance of the payment in legal tender of present pensions and unemployment relief by voting "No" on this measure rather than gamble on possible improvement of conditions by voting "Yes" on this measure in view of the fact that arguments against the plan are backed by known facts which indicate that attempted operation of the plan would bring about the collapse of the credit of the state and would only work hardship on those already receiving pensions or other state aid. It should be remembered that "30" has a historical significance. Judas betrayed Christ for 30 pieces of silver and in newspaper term "30" means "finish" or "end." Passage of this bill may mean that California's future has been betrayed for "30 pieces of paper" and "30" has been written to prosperity in the State.

**G. O. P. CANDIDATES**

(Continued from page 10)

vice of California rather than a battle between Republicans and Democrats.

All of the candidates stated that they were in the race to be of service to California. Bancroft, Hoelscher and Dr. Franklin are running for public office for the first time and each acted as a matter of duty to California in these times when "Good Government" is being threatened in this state.

The rally was sponsored by the Santa Barbara County Republican committee which in the last week of the campaign, has redoubled its efforts on behalf of the four Republican candidates. Clarence A. Rogers, chairman of the Republican County Central committee in a general statement today urged all voters no matter what party affiliations they might have, to get out and vote next Tuesday in a united effort to keep "good government" in California.

show horses in Southern California will be brought here.

## \* \* \* \* \*

### \* Behind The Scenes In \*

### \* American Business \*

## \* \* \* \* \*

By John Craddock

**BUSINESS**—While the current recovery movement has featured prosperity headlines for big industries such as steel, factory machinery, public utilities, and engineering construction, some of the less spectacular industries have also been chalking up rosy records of their own. Retail furniture sales are booming again, and manufacturers shipped \$40,000,000 worth of merchandise in September, the highest this year. September was also notable for the fact that it was the first 1938 month in which shipments to local dealers by sash and door manufacturers exceeded the similar month last year. Rug sales, which started the year off poorly, will probably come within 10 per cent of the 1937 volume, as mills speed up production to meet rapidly rising demand.

**WASHINGTON**—The 20th anniversary of Armistice Day is a reminder that the world was not "made safe for democracy" by the world war. Officials here, though, aren't wasting time crying over spilt milk. Believing they read correctly the country's sentiment, they are pushing a broad program of national defense preparedness.

Behind all preparedness mechanisms, military experts say, lies the problem of raw materials. America lacks, in whole or in part, 21 strategic raw materials, according to the War Department. Many we now import have to cross thousands of miles of ocean. Rubber comes from Malaya and the Dutch East Indies. Bauxite, to make aluminum, from South America. Manganese from Russia, Africa, India and Brazil. Tungsten from China. Plenty of Manganese, indispensable in steel making, exists in the U. S., with deposits in at least 20 states. But it requires costly equipment to concentrate the ores. Holding back development of a going domestic manganese industry which would serve as wartime "insurance," strategists point out, is the fact that tariff was cut in half in 1935, thereby giving the market almost exclusively to far-off nations where the ore is mined by cheap labor. Recent developments have crystallized sentiment here in favor of legislation such as was introduced in the last congress designed to solve the raw materials problem by building emergency reserves exclusively from domestic sources. This would include Cuba, in the case of manganese, it is felt, since the Army is recommending continued development of Cuban mines to keep available this accessible source in case of emergencies.

JOYCE RICHARDSON  
ENTERTAINS WITH  
HALLOWE'EN PARTY

Joyce Richardson entertained with a Halloween party for a group of school friends Saturday evening at the home of her parents on Walnut Avenue. The evening was spent in playing Halloween games and refreshments were served during the evening.

Among those invited were: Jack Babcock, Dorothy Rosebro, John Rosebro, Roma Jamerson, Darlene Bettes, Check Bachelor, Katherine Koehler, Gloria Ford, Theodore Marenhofer, Wilma Truhitt, Virginia Carpenter, Eleanor Vaughan, Dickey Anderson, Donald Butler, Jr., Denny Taylor, Teddy Taylor, Lila Ann Hebel, Carol Beckstead, Carla Bradbury, Joyce Miller, Jean Wullbrandt, Barbara Bates, Kenneth Dowling, Barbara Bauhaus, Louise Davis, Mary Davis, Phyllis Southworth, Richard White, Jack Woods, Eilyn Seglie, Marika Mizukami, Leslie Johnson, Earnest Johnson, Shirley McDonald, Kenneth Britian and Jessie May Barick.

and towns. . . A two pound wool blanket to compete with the regular 2 1/4 to 3 pound numbers. . . Three-way men's overcoat to sell around \$40; lining zips out to give warm-day topcoat; turn that inside out and you have a raincoat. . . "Jam" bracelets inscribed with the jargon dear to the heart of every swing devotee. . . Furniture polish, shoe polish, carbon paper and certain cosmetics made from rice bran oil rather than vegetable waxes.

## STATE COLLEGE POLL FAVORS MERRIAM, FRANKLIN

A further indication that the Democratic registration which is considerably higher than the Republican registration in the state may prove of little benefit to Culbert Olson, Ellis E. Patterson and Sheridan Downey, candidates on the Democratic ticket for Governor, Lieutenant Governor and United States Senator, is seen in the results of a straw vote taken at the Santa Barbara State College among students, many of whom will cast their first vote at Tuesday's election.

Although the students voted approval of the policies of President Roosevelt 323 to 145, it is highly interesting to note that on State offices they favored Merriam 295 to 229 over Olson; Franklin 320 to 195 over Patterson and Bancroft 277 to 232 over Downey. Such a vote further confirms the feeling that much of the Democratic registration is due to pro-Roosevelt feeling rather than to any dissatisfaction with the Republican administration of state affairs and that many of these pro-Roosevelt Democrats are not in sympathy with the candidates

## BOY SCOUTS MAKE TRIP

(Continued from page 1)

Fourteen boys accompanied Mr. Kent on the trip, Alvin Anderson, Donovan Capes, James Amos, Benjie Alvarado, Teddy Storr, Howard Mays of Oxnard, Dick Yutes of Troop No. 19, Santa Barbara, Bob Jones, Lescher Dowling, Carroll and Clair Cummings, Sei Dyo, Junior Stemper.

And Scores of Others.

## Vote "NO" on No. 13

IT'S UNLUCKY FOR CALIFORNIA

STATE ASSOCIATION AGAINST GARRISON BOND ACT  
111 Sutter Street - San Francisco

who received the Democratic nomination for state offices.

And that even youth, which is wont to dream of cure-alls for the ills of the world, is not deluded by the rosy pictures of a greater prosperity for California as painted by the backers of \$30.00 Thursday Pension Plan," was shown by the fact that 433 votes were polled against the plan as against 68 for the plan.

Mr. and Mrs. Sherman Davis and daughter Evelyn and Mr. and Mrs. Pat Stremming and daughters, Helen and Betty Mae, of Los Angeles were visitors at the home of Mr. and Mrs. W. H. James last Sunday.
