

THE EAGLE

VOL. 5

SANTA BARBARA, CALIFORNIA, FRIDAY, SEPT. 18, 1925

NO. 1

Frosh-Soph Tie-Up Will Be Held on New Field At 3:30 P. M. Today

The first annual Frosh-Soph tie-up to be sponsored by the Block S Society and approved by President Phelps, will be held on the new athletic field this afternoon at 3:30 o'clock. It is hoped that this fray will become a precedented annual event as it is in other colleges. The students of the college and townspeople are welcome to attend and enjoy a grandstand view with the emphasis on the "stand."

There will be a Sophomore morgue at one end of the field and a Freshman morgue at the other. The morgues will consist of space behind planks on boxes which will set off the space, and there will be but one entrance to each. The Freshmen and Sophomores will line up on each side of the center of the field and at a given signal will engage in the tie-up, which will last half an hour. The students will be supplied with bandages of soft cloth three feet long and one to two inches in width. When an opponent is tied up, he will be taken to a morgue where guards, appointed from upper-classmen by the Block S Society, will paint the brows of the Freshmen green and of the Sophomores red. Those students who have been painted cannot return to the scrap.

The opponents will tie up each other separately and must be tied up, hands and feet, before they can be carried into the morgues. The winners will be decided by the final count of Freshmen and Sophomores left on the field when the gun goes off at 4 p. m.

The tie-up will be run on the same plans that governed the tie-up of Freshmen and Sophomores at the University of California this fall. Everybody should be on hand to see the fight because the teams are quite equally matched. What the Freshmen lack in strength they can make up in numbers.

Last Monday evening about 14 Sophomores bathed about 18 Freshmen in the court pond. The squabble lasted about half an hour and was declared the first real Frosh-Soph scrap the college has ever had. This afternoon there will be many more Freshmen and a few more Sophomores. Hence the tie-up should be very entertaining from a spectator's standpoint.

Come on out, Frosh! This will be the final struggle for lower class supremacy.

President Phelps attended a meeting of the research committee of elementary curriculum study which was held in Berkeley last Saturday morning. President Phelps was the only representative of California State Teacher's Colleges.

GREETINGS FROM PRESIDENT O'REILLY

Greetings, students, both new and old. Santa Barbara State College extends to you a hearty welcome and invites you to join in all of the social gatherings and athletic activities of the school year. May you enjoy them as the students of the past have ever done. May your sojourn among us be happy and pleasant as well as beneficial to you and the college.

With a feeling of fellowship and good will, once more we greet you. Welcome!

Faculty Reception For Students to Be Held in Court Tonight

A faculty reception for the students of the college will be held in the court tonight at 8:15. All students of the college are welcome.

The program for the evening will be a reception of the students by the faculty, a special feature to be held in the court, and dancing. It is planned to have the dancing in the corridors of the court. The orchestra had not been decided upon at the earlier part of the week. It is expected that the special feature will come from the outside.

According to Dean Pyle, get-together dances will be scheduled later. The purpose of these dances will be to acquaint the students with each other; the reception tonight will be mainly to establish a closer relationship between the students and the faculty.

The permanent faculty social committee has recently been announced. Dr. Ellison, dean of men, is replacing Dean Ashworth as chairman, and is supported by Mrs. Price, Mrs. Miller, and Dean Pyle. This committee has charge of the reception tonight.

Popular Freshman Meets Death in Fall; Brother Is Badly Injured

The death of Henry Peel and the serious injury of his brother, James Peel, two weeks ago, when an aerial trolley basket in which they were riding near Bakersfield fell several hundred feet, resulted in a profound shock for the many friends the boys had made during their brief stay at the college. They were in the employ of a lumber company and were crossing a valley in the mountains near their home at Bishop by means of a basket suspended from an aerial cable, which suddenly broke, dropping the basket to the bottom of the valley with its occupants.

Henry Peel was killed instantly. James suffered a broken knee cap, several broken ribs, and cuts sufficiently serious to warrant a prolonged period in the hospital. At present he is in the Golden State Hospital in Los Angeles.

Both Henry and James had finished their Freshman year last

Enrollment Will Be 450; Students Entered From All Parts of State

The total enrollment Wednesday evening was 350 and the number is steadily increasing. It is believed that there will be 450 students enrolled before the year starts in earnest, including special students and part-time students, who will take courses to be given down town at a location not yet definitely decided. Last year classes were held evenings in the library, but this year the library is down.

The enrollment records show an increase of about twenty-five per cent over that of last year at this time. Contrary to predictions made by state officials immediately after the earthquake of June 29, the records show that more than the usual percentage of students are not local people. The new students represent locations everywhere in the state, and many of them have come from the East, some as far as Boston. About seventy-five students have entered the Freshman class from the local High School. Eighty entered from the High School last year.

Front Arcade Will Be Rebuilt Immediately

The front arcade of the main building, that was destroyed by the earthquake, will be restored to the same condition in which it was before the quake. According to J. W. Dutton, inspector for the State Department of Public Works, the contracts will soon be let and the work will start immediately. If work progresses as planned, the arcade should be finished by November. The destruction of the arcade was practically the only damage done to the college by the earthquake.

ished their Freshman year last spring and were planning to return in the fall. They were well-known as active members of their class and were recognized participants in the major sports; Henry was promising in football and track, and James did not miss one inning as first string catcher during the last baseball season.

Many Faculty Changes Mark Opening of Year; Three Dept. Heads Changed

The college year started with many faculty changed.

Dr. Ellison, head of the Social Science department, has taken Mr. Ashworth's place as dean of men and head of the Junior College. Dr. William C. Maxwell, who obtained his degree from the University of Washington, has taken Mr. Ashworth's place as head of the English department.

Mr. Jacobs has taken Dr. Stockton's place as head of the Education department and Dr. Lewis C. Carson, who obtained his degree in Harvard University, is now instructor of psychology. Mr. Manuel E. Ericson, who received his degree at Stout University and who has had several years of practical experience in Community Mechanics work, will take the place of Mr. Jacobs as head of the Community Mechanics department.

Miss Elizabeth Bishop will take the place of Dr. Lamb as instructor of physiology. Miss Bishop has taught science in several Normal Schools in the East and is a candidate for a doctor's degree at the University of California.

Miss Susanne Rogers has returned from a leave of absence of two years to help Miss Weage in the Physical Education department.

Mrs. Wieler has taken the place of Mrs. Barnett as instructor of music and director of the glee clubs.

Miss Edith Churchill, who was graduated from this college some time ago, has returned to take the place of Miss Florence Gaylord, who had charge of the cafeteria. Miss Churchill will also work for her degree.

Miss Edith Leonard, who was supervisor of the Kindergarten and Primary department of San Bernardino, has taken Miss Crumby's place in the Elementary School.

Miss Mattie Ramelli, who obtained her degree from Stanford University, has taken the place of her sister, Eda Ramelli, as instructor of foreign languages.

Next Week

Monday, September 21—A. W. S. Executive Board meeting at Dean Pyle's home at 7:15.
Tuesday, September 22—A. W. S. and Men's Club meetings at 11:00 a. m. Faculty meeting at 4:15.
Thursday, September 24—Student Body meeting at 11 a. m.
Friday, September 25—Christian Endeavor Union party.
Saturday, September 26—A. W. S. garden party in College court.

The New Term

We are glad to observe that although the earthquake of June 29 shook up the college buildings a bit, it did not shake up the faith of the students in their alma mater. This fact is shown by the increase in enrollment of 25% over that of last year. Contrary to state predictions, this enrollment represents a great many students from other places than Santa Barbara.

We are starting off on another college year; a year which promises to be the most successful the college has ever had, chiefly because there will not be a marked division of interests which comes from a separation of major departments. When all students are working on a common basis without so much immediate regard for their separate ultimate goals, there will be inevitably a spirit of harmony in the college that will promote a beneficial interest among the students in all student activities. Hence we can look forward to a year of success in every activity that requires the co-operation of the students.

Freshmen and Sophomores

With the opening of college, the traditional grudge between Sophomores and Freshmen ensues. The causes are almost as elusive of explanation as are the causes of race hatred (in general); but the results are tangible enough.

The Sophomores organize to enforce their commandments; hence they become unified by their own will. The Freshmen soon learn that they cannot exist divided; so they organize for common defense. Hence they become welded together very early in their career. The Frosh-Soph conflict holds a human interest appeal for everyone else connected with the college, the result being that the institution soon becomes unified and the morale of the students maintains a high pitch. That's enough for a successful start in any endeavor. Sic 'em, Frosh!

Our Advertisers

Let's read the advertisements in The Eagle. They are news. The advertisers have made The Eagle possible; and, in view of the strain of the earthquake reconstruction expense which touches most of them intimately, we don't like to conceive their contributions for the upkeep of this paper as being charitable donations. Let's make the advertisements pay.

Salmonus was an optimist. As he sat in Tartarus under the threatening rock, he thanked Jupiter that it wasn't a Subject A entrance exam.

Little lessons in thrift: Pass Subject A the first time you're exposed. Four-bit pieces aren't candy premiums.

The Curious Cub

Question:

"What is the most curious thing about the frosh?"

Answers:

(1) Junior: "That requires thought. Well, their irresponsible nature, their lack of co-ordination,—oh, their everything!"

(2) Senior: "The way they seem not to mind the sophomores."

(3) Sophomore: "Why did they come to school the first day in their old clothes?"

(4) "I don't want to hurt their feelings," remarked one faculty member, "so I won't tell."

(5) The upper-classman being questioned, stopped, laughed surprisedly, glared at the Cub; laughed again—then: "Their EARS!"

(6) Faculty Member: "Their inability to figure out their age. That is, when they try to find out the year when they were born by subtracting."

New College Road to Form "S" on Hillside

The site for the new road to be in front of the new Administration Building was surveyed last week by the state surveyors, preparatory to filling in and excavating for the new building to be situated just south of the gymnasium. The road will be a continuation of the present road that now runs in front of the college. It will only be an exit road, the entrance being where the present entrance is situated.

The road will curve down the hill in the shape of a huge letter "S" and will come out below on the Mission Ridge road. The "S" is merely coincidental, because the surveyors declare that that is the only shape the lay of the land on the hillside will permit. The upper loop of the road will be included in the angle of the new building formed by the auditorium and the classroom wing.

Training School Shop Now in Gym Basement

The children of the College Elementary School are to have a manual training shop of their own. Last year they used the college wood-working shop, but a "Laboratory Shop" is now being equipped for them in the basement of the gymnasium. Here all the Industrial Arts work of the school will be carried on under the direction of Mrs. Florence W. Lyans. Benches will be built to accommodate twenty-eight children. A large box of tools, shipped from San Francisco, awaits completion of the shop, which will probably be ready for occupancy next week.

Eagle Now Located in Music Bungalow

The office of The Eagle is now situated in the anteroom of the Music Bungalow. Due to the noise and confusion in the main office caused by the Eagle staff, that location was made practically impossible for an administrative center last year, and the only other location available was the room in the Music Bungalow. The isolation should afford incentive for greater industry.

Mr. Peters took a course on the quantum theory of physics this summer at Berkeley.

Roscoe McGuire took a dramatic course at Stanford during the summer.

President Phelps Greets Students in Assembly

At the first assembly held at the college this year, President Phelps greeted the students, reminding them of the work which lies ahead.

"A college is not a place to have a good time," the President mentioned, "but is for a deeper purpose. This real purpose is seldom brought before the public, as in present days a school is judged by its athletic ability." He also reminded the students that the real test of college life comes in the first semester, when most of the failures occur. In order to succeed in college life, a student must spend at least eight hours in the work.

The assembly was called for the purpose of getting the students together. "Our College Grand" was introduced to the new students and freshmen, who showed unusual enthusiasm in grasping it.

Personnel of Council

In order that the new students may conveniently familiarize themselves with their Student Body officers, the personnel of the Council is being published here:

Student Body President.....
.....Edmund O'Reilly
Vice President.....Helen Culp
Secretary.....Ruth Garner
Treasurer.....Francis O'Reilly
Publicity Manager..Warren Atwood
Manager of Debating, Oratory
and Dramatics..Roscoe McGuire

Course in Scouting Will Be Offered by S. B. Scout Executive

Mr. Calvin McCray, Santa Barbara Scout Executive, will give a one-unit course in the Theory and Practice of Scouting, which will be listed as Education 160. This will be followed next semester by a course in Organization and Administration of Scouting (Education 161).

The first meeting of the class in Theory and Practice of Scouting will meet Thursday, September 24, at 7 P. M. The place of meeting will probably be the Y. M. C. A., but this has not been decided. Definite information will be posted later.

This course is especially beneficial to C. M. men, because it is in their line of work, and will serve as a two-unit educational elective. About ten men have signified their intention of taking the course.

Sophomores vs. Frosh! Frosh vs. Sophomores!

The annual initiation of the Frosh by the Sophomore class this year has been a close fight. It will finish this afternoon when a tie-up contest will be held on the athletic field to determine the winning class.

Initiation activities started the first morning of college, when Arthur Evans, leader of the Frosh, was deported to Veronica Springs! There he secured a phone, and a fellow-Frosh brought him back to town.

The first big clash came Monday night when the opposing classes attempted to plant their flags. The Sophomores gathered on the college campus, stationing members of the class around the corridors of the court. A fire hose was attached, ready to douse the Freshmen. Meanwhile the Frosh were gathering at the corner of Anacapa and Victoria streets. After securing clues as to the activities of their opponents, they left for the campus. They entered the court and planted their flag; afterwards spotting a carload of Sophomores and giving them chase. But the Sophs led the Frosh back to the court, where a tussle started immediately. The Freshmen took the worst of it, being kicked off of the campus after having been thrown in the pond several times.

Sophomores Reign.

With the first night a victory for the Sophomores, the next morning came with them in power. At the Tuesday morning assembly, the Frosh were forced to sit in the front rows and to stand up while the Ten Commandments were being read to them. At the end of that assembly, the Freshmen held a meeting to plan for Tuesday night's activities. The Sophomores also met.

The Freshman flag, which was taken down by the Sophomores Monday night, was burned with extensive ceremony in the court Tuesday noon. Soon after, several Frosh were collected and the Sophomores forced them to sweep and mop the court.

Frosh Reign.

Tuesday night the odds were in favor of the Frosh. About twice the number of Frosh which collected Monday got together Tues-

Frosh Elect Officers Tuesday for New Term

Arthur Evans was elected president of the Freshmen at a special meeting of the class held in the gymnasium Tuesday noon. The vote was unanimous over the other candidate, Leland Gammill. Miss Marian Hauan was chosen to the vice-presidency without opposition, and Mrs. Rolla Elliott was chosen as secretary with a two-to-one vote over Miss Gwendolyn Douglass. Without any opponent, Leland Gammill was selected to take care of the class finances.

Mr. Evans has figured largely in the activities of the local high school, from which he was graduated last spring. In his senior year he was manager of the co-op store, as well as being an active leader in many student activities. Miss Hauan was vice-president of the associated students at the high school last year. Mrs. Elliott edited the Santa Barbara High School paper last year. Mr. Gammill was also an active student body member, being the Council representative of the senior class.

day night in front of the Recreation Center and left for the campus at 8:30 P. M. When they arrived the Frosh in the first car spotted a Soph man, Jack Vince, bound and deported him. The Sophs meanwhile were gathering together their forces, and they left to attack the Frosh.

Outnumbering the Sophomores about two to one, the Freshmen soon had most of the Sophomores taken away, most of the cars going north.

As soon as the battle was over, the Freshmen took down the '28 flag and posted their own, which remained up all of Wednesday. The Frosh reigned Wednesday evening, because Sophs were at home in bed.

Early to bed and late to rise, And your gal steps out with the other guys.—*Ex.*

Officers Elected at Forum Meeting Tuesday

At a meeting of the Forum held last Tuesday evening at the home of Edwina Kenney the following officers were elected: Margaret McTavish, vice-president; Edwina Kenney, secretary; and Sidney Doner, treasurer. Roscoe McGuire, being elected Student Body Manager of Oratory, Debating, and Dramatics, automatically succeeded to the office of president. Dr. William Maxwell will succeed Dean Ashworth as faculty sponsor.

Sophomores Elect Officers For Fall Semester

In the first Sophomore meeting of the year the following officers were elected for the fall semester: Francis Williams, president; Edith Comstock, vice-president; Elma Altringer, secretary; and Norvell Dice, treasurer. The former Sophomore officers were Francis Williams, president; Mildred Sample, vice-president; and Jane Ames, secretary-treasurer.

Athletic Field Added to Phys. Ed. Facilities; May Get New Gymnasium

Athletic facilities have been improved greatly during the summer. The basement of the gymnasium, previously unused, has been partitioned into three compartments: a men's locker room, a women's locker room, and a shop for the Elementary School children.

In addition to these improvements, the athletic field has been completed and is ready for the fall football practice. The next thing on the athletic program now is either a swimming pool behind the gymnasium or a men's gymnasium to be built on the opposite side of the athletic field from the present gymnasium. In case the latter project is carried out, the women will use the old gymnasium for theirs and the men will take the new one, which will be larger and better adapted for men's sports.

Women's Basketball To Start Next Week

Basketball practice will begin next week. This was one of the most popular sports last year among women students. All girls are urged to co-operate with the athletic manager and sign up for basketball, in order to create keen rivalry among the various classes.

If the swimming pool is built, swimming will occupy a place in the curriculum of the Physical Education Department with the other minor sports, as it now does in most of the larger colleges of the state. The State Board of Control is at present more in favor of the gymnasium than the swimming pool. The men are more in immediate need of larger quarters than in a swimming pool, and it is feared that the latter will have to wait for several years, if prospects at present develop as expected.

Football Prospects Loom For Bumper Season; New Candidates Introduced

By "BUD" GARBER

Through the co-operation of the administration, the department of Physical Education, and the Student Body, the practice field has become a reality and some very fine equipment has been obtained.

Though the field is still too small, it partly fills the need of a field near the gymnasium. The men who have gone to Pershing Park for practice can well appreciate this season's facilities, and the new men can be glad they miss the experience.

The new field when completed will be fully equipped with all machinery of football warfare. Coach Gilliland has designed and built a charging machine that is especially suited for a soft, sawdust-covered field. Standard goals will be put up for the kickers to aim at and a pit for a tackling dummy is under construction.

No football field, however equipped, is of much value unless there are men to put on the field and use the equipment that has been added. Santa Barbara has been fortunate this year to have so many letter men back and many more new men making bids for berths on the first squad. About thirty-five have answered the call for football issued September 15 by the Coach. Among the returning men we find the names of Anderson, Morehead, Vince, Furman, Garber, Heggie, Annin, O'Reilly, and Linder. Along with these there are many new men who have donned the green and white and have started training for the season.

Will You Meet:

Ernie Carter, star distance man, holder of Pacific Coast record in the mile; transferred from Occidental College.

Bert Clemore, a fighting Frosh who will be making a bid for full-back. Rather inexperienced in football, but he played baseball

with one of the best teams in this section.

Otto Larsen, with a good record from Fresno State.

"Heck" Curtis, from Bakersfield High. He has plenty of experience and is a willing worker.

"Batch" Batchelder, Chaffee J. C., can talk as well as play football. He is good at both.

Keith Gunn, Bakersfield J. C., is not too big and has plenty of fight.

Fred Cooper, from Lompoc High, will make someone work to hold his position on the varsity.

"Ren" Treloar is a curly-haired blond who knows how to hit the line.

"Bob" Lawrence seems right at home in pig-skins.

Allen Mobley is one of our own trackmen and basketball players.

"Frenchy" Williams, athletic manager and basketball man, is trying out football for the first time.

"Van" Vandam is the Soph leader and distance hiker.

Trevor Steele, a new husky who will make his history.

Ewing Carter is a track star from Lompoc High.

Carroll Dawley is another one of us.

Others are out and practicing hard, but their history is not known. They are Hendry, Horner, Sheesley, Hahn, Kiney, Mead, Lane, Alberts, and Nicklin.
