Fotech One Hour Color Labs and Fotech Studios are divisions of Fotech Color Labs.

"FASTER THAN A SPEEDING BULLET..."

We may not be faster than a speeding bullet or more powerful than a locomotive (but some of our customers think we do leap tall buildings in trying to serve them).

We don't talk a great deal about our speed at Fotech. That's because we don't process pictures any faster than the other photo finishers. The fact of the matter is, the film and the paper have to be in the developing chemistry for rather precise time limits. Faster or slower produces poor quality or ruined pictures. The only reason we can develop your pictures in one hour is that we have all our state-of-the-art equipment right in our one-hour lab.

So whether you ring in your film to one of Fotech's One-Hour Labs or use one of Fotech's convenient 5-Hour pick-up locations, you can be assured that your pictures are getting the quality work Fotech Color Labs are noted for. And, you'll get them back fast, too!
