F. J. MAGUIRE

BEGS TO ANNOUNCE that he has just received his new purchases of
GROCERIES,
PROVISIONS,
LIQUORS,
\$c., \$c., \$c.
All carefully selected and of the best quality, which he will sell at a moderate profit.
Besides the above, there will be found in his store a good assortment of articles required by Housekeepers, and also for Agricultural and Rancheros.
F. J. M. hopes to merit the continued confidence of the public by not only selling goods of the best quality at a moderate rate, but by persevering in the same fair and honorable manner which he flatters himself has heretofore characterized his dealings with the public. Any article guaranteed by him, which should not be as represented, will be taken back and the money refunded.
Or hides bought as usual as cheap as possible.
N. B.—No adulterated liquors sold by F. J. M. Santa Barbara, State street, No. 1, Nov. 27, 1856.

Hurrah for Vance's
NEW DAGUERREAN GALLERY!
LARGEST LIGHT IN THE WORLD!
(OVER 500 FEET OF GLASS.)
New Building, corner of Sacramento and Montgomery Streets, San Francisco.

WHY SHOULD EVERY ONE GO TO VANCE'S who wishes perfect Likenesses? Because he has now the best arranged gallery on the Pacific Coast, and not to be surpassed by any in the world; instruments containing lenses more perfect, and with greater power than any ever before used in the country.
2d. Because he has the largest Light in the world, from which he can form three distinct lights—top, side, and half side lights—that now enables him to overcome the great difficulty which every artist in this city has to contend with, namely: In order to obtain perfect Likenesses, different formed features require differently arranged lights.
3d. Having the largest light, he is enabled to make pictures in half the time of any other establishment in the city; therefore they must be more perfect, for it is well known the shorter the time the more perfect the expression.
4th. Because every plate is carefully prepared with a coating of pure silver, which produces that clear, bold, and lasting picture that is so much admired, and which cannot be produced on the common plates, as they are now used by other artists.
5th. Because he has, of late, after much experimenting, brought his chemical preparations to much perfection, using compounds entirely different from anything ever before used in the art, which enables him to produce perfect Likenesses at every sitting, with that clear, soft and beautiful tone, so much admired in all his pictures.
All those wishing perfect Likenesses will do well to call before sitting elsewhere, and place for themselves.

DON'T FORGET THE PLACE!

New Building, corner of Sacramento and Montgomery streets.
Entrance on Montgomery street, next door to Austin's. 1-11 tf

GRAND MEDICAL AND SURGICAL INSTITUTE,
ARMORY HALL BUILDING,
Corner of Montgomery and Sacramento streets,
SAN FRANCISCO.
Established for the Permanent Cure of all Private and Chronic Diseases, and the Suppression of Quackery.

DR. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late lecturer on Diseases of the Urinary Organs, and Diseases of Women and Children, would respectfully inform the public of California that he has opened an Institute for the cure of Chronic Diseases of the Lungs, Liver, Kidneys, Digestive and Genital Organs, and all Private Diseases, viz: Syphilitic Ulcers, Gonorrhoea, Gleet, Strictures, Venereal Weakness, and all the horrid consequences of self-abuse, and he hopes that his long experience and successful practice of many years will ensure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patients in a liberal and humane way—has references of unquestionable veracity from men of known respectability, and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit success.
Spermatorrhoea, or Local Weakness, Nervous Debility, Low Spirits, Lassitude, Weakness of the Limbs and Back, Indisposition and Incapability for Labor and Study, Dullness of Apprehension, Loss of Memory, Aversion to Society, Love of Solitude, Timidity, Self-Distrust, Dizziness, Headache, Involuntary Discharges, Pains in the Side, Affections of the Eyes, Pimples on the Face, Sexual and other infirmities in man, are cured without fail by the justly celebrated Physician and Surgeon, **L. J. CZAPKAY**. His method of curing diseases is new, unknown to others, and hence the great success. All consultations, by letter or otherwise, free. Address, **L. J. CZAPKAY**, M. D. San Francisco, California. 1-15 tf

THE GREATEST DISCOVERY OF THE AGE!

Great Blessing to Mankind! Innocent but Powerful! **DR. L. J. CZAPKAY'S PROPHELIACUM**, (Self-disinfecting Agent), a sure preventive against Gonorrhoea and Syphilitic Diseases, and an unsurpassed remedy for all Venereal, Scrofulous, Gangrenous, and Cancerous Ulcers, Fists, Discharges from Vagina, Uterus, and Urethra, and all Cutaneous Eruptions and Diseases. For sale at **DR. L. J. CZAPKAY'S** Office, Armory Hall, corner of Sacramento and Montgomery streets, San Francisco. As inoculation is a preventive against small pox, so is **DR. L. J. CZAPKAY'S Propheiliacum** a preventive against syphilitic and gonorrhoeal diseases. Harmless in its use, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without **DR. CZAPKAY'S Propheiliacum**. It is in very convenient packages, and will be found convenient to use, being used as a soap. That the disease can be prevented by the use of proper agents is as well an established fact as that they can be cured after their establishment. This principle, which is now universally recognized, was received even before the day of Jenner, the discoverer of vaccination, in 1766, and its multiplied benefits ever since have received, as they deserved, the attention of the medical faculty. It was in pursuit of this branch of the medical science that **DR. CZAPKAY** fortunately made the discovery of his "Propheiliacum," which, for the prevention of syphilitic, gonorrhoeal, cancerous, and cutaneous disorders, stands unrivalled by any agent in the Pharmacopoeia.
The effect of this agent after coition is immediate, and removes the possibility of a contraction of disease. If, however, the disease has been contracted, it is useful in neutralizing the poisonous secretions, which, by absorption, produce the horrid consequences known as secondary syphilis. It has been administered by the Doctor in many thousand cases, and he has yet to find the first in which it has failed to subserve the purpose for which it was administered. Price \$5. Full directions are attached to each package. In cases where the Propheiliacum is used as a curative, **DR. L. J. CZAPKAY** will furnish (GRATIS) a prescription for his Blood Purifier.
All communications from the country, addressed only to **DR. L. J. CZAPKAY**, San Francisco, will be strictly and confidentially attended to, and the remedies, with the greatest care and security, immediately despatched by Express or other conveyance to their destination. 1-15 tf

SANTA BARBARA:

THURSDAY, JANUARY 8, 1857.

Emigration to California.

Some Californians sojourning in the city of New York have held a meeting (meetings are very grand, solemn affairs in these days,) lately, for the purpose of devising a scheme to encourage emigration to this State. A San Francisco paper, in speaking of this subject, utters a truth with grave caution, fearful lest it should be disputed. "It is admitted we believe on all sides, that an increase of our population is much needed for the proper development of the great resources of our young state, &c."

The means recommended by the meeting to be employed to effect this desired object are these:

1. To diffuse among the emigrating class of this country and Europe through the press, by circulars, pamphlet publications and special correspondence, a thorough and practical knowledge of California and Oregon, present the inducements held out to actual settlement, and guide the Pacific emigration on its way.

2. To open negotiations with the steamship companies, Panama Railroad Company and other agencies of transportation, for additional accommodations and reduced rates of passage to the Pacific emigration.

3. To communicate to our fellow-citizens in California and to the people of Oregon our action to-day; to publish these proceedings in the newspapers throughout the State and Territory; to invite their support, and under a corresponding organization, or by means of special agents, collect statistical facts for publication here, and elicit, by advertisement and otherwise, proposals from corporations, landlords, mining companies, and other capital associations, contractors, manufacturers, and all in any way concerned, stating on what terms they will sell lands for farms, vineyards, gardens, town lots, to actual settlers—at what rates and in what numbers employ steady mechanics, artisans, laborers and servants, male and female; and if they will countersign condition, etc.

4. To procure the passage of the Pacific Railroad and Wagon-road Bills, if resolute action and co-operation with our friends can properly effect it. To insure which a committee shall be appointed and empowered to concert and execute measures, through conference with the California and Oregon delegations, and other members of Congress, editors and persons of influence friendly to the claims of our Pacific possessions, in this important question.

The first article assumes the world to be in the dark about California. As if this land of gold and vigilance committees, and land commissions, had not attracted any attention heretofore. Wonderful, very! California, with its fifty or sixty daily and weekly newspapers continually collecting information on local affairs, chronicling the discovery of minerals and almost every particle of gold, and the harvest of every bushel of grain, with three hundred thousand of her people sending hundreds of thousands of letters monthly to kindred and friends in every city, town and hamlet throughout the Union, and to many of the principal cities on the continent of Europe, the means of disseminating truest information, and nothing known yet?

Well, it is proper to keep the world informed about us, but let exaggeration and over estimates of advantages and gains be avoided. It has been too common heretofore, and it has injured us. People were first made to believe too much; they do not now believe enough.

But the state will be populated. The mines continue to reward labor, the soil is fertile and the climate mild. The real obstacle opposing emigration is the great distance and the necessary expense by the routes now travelled. The class of population we are most in need of are unable to get here. Ten years of industrious labor and careful saving in any of the Atlantic states would scarcely enable a family to emigrate to this state. Our people should never cease to urge upon Congress the necessity of a railroad from the Mississippi Valley to the Pacific till the measure shall be adopted, for until the road is opened permanent emigration to this state will not increase in a great ratio.

Shall we not be permitted to see the answers of some of our generous land-holders to the inquiries of the committee asking "on what terms they will sell lands for farms to actual settlers?"

THE PRESIDENT'S MESSAGE. The message of the President was transmitted to the thirty-fourth Congress on Monday, the 1st December. It is a carefully written state paper, showing the state of the nation. The examination of the slavery question is a prominent feature of the document. Referring to the progress of the agitation of this subject the President says:

"Thus, here, also, aggression was followed by re-action; and the attacks upon the Constitution at this point did but serve to raise up new barriers for its defence and security."

The foreign relations of the country are in an amicable state, although Mexico is reproached for injuries inflicted upon our citizens.

The schooner Laura Bevan, Capt. Morton, arrived last evening, three days from San Francisco. There has been severe south-easterly and south-westerly gales at San Francisco, which continued for eight or ten days prior to her leaving that port. We (one of Eds. Gazette) came down in the Laura, under the polite care of Capt. M. Had a very pleasant passage, and are gratified to be once more with our friends in this agreeable city. The personal accident which has caused our long absence is favorably improving toward a change for the better. Having brought down a friend to assist us in our newspaper labors, we trust that the Gazette will have that additional readable interest which the united labors of three will enable us to bestow.

Mr. Wilder, of the Pacific Express, has again placed us under obligations for files of Atlantic and California papers.

We return our thanks to Hon. John B. Weller for valuable public documents.

NEW STEAMERS. The Nicaragua Steamship Company are rapidly completing their arrangements to have a line of semi-monthly steamers on this route which will fully meet the expectation and demands of the public who may travel that way. They have three splendid new steamships under way, which will be completed and in service on their respective routes on or before the 1st of April next. The first of these is a large one, being 340 feet in length, intended for this coast, which will arrive in this port before the 1st of April. The second one is of smaller size, intended for the route between New Orleans and San Juan. The third one is to be a fine steamer of 250 feet in length, 40 feet beam and 22 feet hold, which is intended to run between New York and San Juan, and will connect with the one above spoken of for this coast. These two steamers, it is confidently expected, will make the trip between this and New York in seventeen days, with the greatest regularity. The line will then consist of the new one, which will probably be named the C. K. Garrison, the Orizaba, and the Sierra Nevada, on this coast, and on the Atlantic side will be the Texas, Calhoun, Tennessee, and the other two new ones above spoken of, making four to New York and one to New Orleans.—*Town Talk.*

The Sacramento Union is of the opinion that we are to have a very short session of the Legislature, for the following reasons: "The late decision of the Supreme Court, declaring the whole of our State indebtedness unconstitutional, will probably force a very short session of the Legislature. There is but little money in the treasury, and that little is locked up in the Treasurer's hand by a suit at law, which is yet to be adjudicated by the Supreme Court. If the Court decides that the famous State Prison Warrants were legally and constitutionally issued and registered, the quantity out will absorb all the money in the treasury. This will drive members to a reliance upon scrip to pay board, which we don't think will avail them for any great length of time. The result, therefore, we hope, will be a very short session. If the members desire to do the State a real service, they will meet, and adjourn at the end of the first month. The essential measures of the session may be perfected and passed within that time."

The Pacific Sentinel says: Since the first of December, the counties of Monterey and Santa Cruz have experienced unusually heavy frosts at night, which has much impeded the growth of the young grass. These cold nights have also caused considerable mortality among the cattle, which were previously affected by the scarcity of pasture caused by the year's drouth.

The San Joaquin Republican is informed that snow to the depth of eighteen inches fell on the foot-hills of the Coast Range, on last Monday night. For the last seven years, such a depth of snow has not fallen in that vicinity. Some twenty-five or thirty miles southwest of Columbia, snow has fallen to the depth of ten feet.

By a table in the Evening Bulletin it appears that there have been 146 applications in insolvency during the past year. The aggregate of liabilities was \$3,401,042, and the assets were \$2,743,134. In the previous year there were 197 applications, the liabilities amounting to \$8,376,627, and the assets to \$1,519,175.

Later from the East.

The steamer John L. Stephens arrived at San Francisco on the evening of the 30th ult., bringing the New York and New Orleans mails of the 5th.

We make up the following summary of the news from the San Francisco Globe:

Congress met on Monday, the 1st inst. The President's Message was communicated to both Houses on that day, but had not been read in the House, owing to the protracted contest over the motion to admit Whitfield as Delegate from Kansas. Two hundred and twelve members of the House were present at the opening of the session. Most of the Standing Committees had been re-appointed.

Resolutions have been introduced in the South Carolina Legislature deprecating the continued agitation of abstract theories relative to the slave trade, and other matters, as dividing and destroying the State and alienating from her the support and sympathy of other States.

Some excitement has been occasioned in Charleston county, Maryland, by two negroes, charged with plotting an insurrection among the slaves. Two white men supposed to have been concerned in the plot, have fled the State.

A sale of \$28,000 California Sevens was made in New York recently, closing at 74; an advance of 4½ per cent. The improvement was caused by the certainty of the payment of the January interest.

The steamship Marion returned on the 25th of November, from her cruise in search of the passengers of the Lyonnais, sunk by collision. The search was fruitless though continued for ten days.

A correspondent of the Albany Argus states that Colonel Fremont has sent a challenge to Senator Toombs, of Georgia, for having made reflections upon his birth and questioned his legitimacy.

Affairs in Kansas have taken a new turn. Marshal Donaldson has been succeeded by William Spencer, of Ohio. Governor Geary and Federal Judge Lecompte are at loggerheads, and it is said that the former has demanded the dismissal of the latter. The Grand Jury at Lecompton had found indictments against several pro-slavery men, in consequence of which a meeting was held. Surveyor-General Calhoun presiding, at which the "Governor and his inquisitorial Courts" were roundly denounced. Colonel Titus was about leaving the Territory with a body of emigrants for Nicaragua, to which country he offers a free passage to all who wish to go.

The Postmaster General's report shows a deficiency in the present year of upwards of \$2,750,000.

The Postmaster General recommends the abolition of the franking privilege, and making present "free matter" pay half rates.

He also recommends that the compensation of the Panama railroad be reduced to an amount not exceeding \$50,000 per annum.

He further advises the establishment of a weekly mail to San Francisco, to be alternately divided between the present route, via Panama, and either the Nicaragua or Tehuantepec route, the cost of the new service not to exceed \$200,000 per annum. The report shows that the number of offices have increased during the year 1,155—the whole number being on the 30th of June last 25,565. On the 30th of June, 1852, the number was 20,901.

On the 30th of June last the number of mail routes was 7,972, and contractors 6,372. The length of line 239,642 miles—20,323 miles of railroad, 15,951 miles of steamboat, 50,453 miles of coach, 153,915 miles of inferior grades.

The expenditures of the Department for the past fiscal year amounted to \$10,405,286 36.

The expenditures for the year 1857 are estimated at \$10,658,678, and the estimated deficiency \$666,883.

The gross revenue of the Department from all sources in the past fiscal year was \$6,920,821 66.

From Europe.

The dates from Europe are to the 22d of November.

The ships James Baines and Lightning had arrived at Liverpool with a million and five hundred thousand pounds in specie. In connection therewith and with the absence of further withdrawal from the bank the Times anticipates an early return to the rate of six per cent; but says much will depend on the next advices from China and India. The bulk returns for the week show considerable increase in bullion and unemployed notes. The bullion amounted to £9,684,167 and the notes to £3,606,815.

The British government has, at the request of Cyrus W. Field, Esq., of New York, ordered a steamer to be fitted out under efficient officers to examine thoroughly the coast of Ireland and Newfoundland, and to sound across the Atlantic between these parts, to ascertain the best place for laying and landing the submarine telegraph cable. The government has further agreed to guarantee four per cent. interest per annum, on the whole capital required to manufacture and lay down the cable between Newfoundland and Ireland. Contracts for the whole extent of the Atlantic cable were signed in London on the 19th ult.

The Neapolitan question was in a stagnant condition. The Government of Palermo had ordered

a strict surveillance to be exercised upon all the French and English commercial vessels.

The reported arrangement between the Spanish Bourbons has failed. The Queen of Spain was kept in the dark as to the real project of the clerical party, which was her own eventual abduction, and the marriage of her daughter to the eldest son of the infant, Don Juan.

An emute occurred at Malaga on the 18th of November, between the garrison and the citizens, in which a dozen men in all were killed or wounded. It is said, however, that it had no political significance, but originated with a band of smugglers.

A treaty of commerce has been concluded between France and the Sandwich Islands.

It is stated on the authority of a Berlin paper, that Prussia and Austria had fixed the 10th of December as the period when they would bring the question of the Sound Dues before the German Diet. In the event of either representations being unattended by the Danish Government, it is announced that England agreed to pay to Denmark, as the price of redeeming the Sound Due, a capital sum calculated on an annual revenue of £45,000. The British at present pay £70,000 yearly as passing tolls.

The English fleet was still stationed in the Bosphorus.

The attempt of Terouk Kahn had failed to effect, with Lord Redcliffe, a settlement of the disputes between England and Persia.

An English frigate had arrived at Constantinople and other ships were expected.

Nicaragua Affairs.

The expose of Walker's designs by Gen. Goicouria, was still exciting attention, and had occasioned considerable coolness towards Walker's cause. Gen. G. justifies his exposure with genuine documents, under Walker's own signature, by which it appears that Walker designs to establish a powerful and compact southern confederation, based upon military principles; also the conquest and annexation of Cuba.

A Washington correspondent of the N. Y. Herald furnishes the following important information:

Advices have been received at the State Department to the effect that Chile and Peru had agreed to contribute men and money to aid the Central American States against Walker. Ecuador and New Granada have both been solicited to enter into the same arrangement, but New Granada has declined. It is thought Ecuador will furnish its share. It is said that Chile will contribute one thousand men, and Peru one million of dollars. It is understood that the old Nicaragua Transit Co., headed by Commodore Vanderbilt and Jos. L. White, have had some thing to do with this plan.

The Ups and Downs of California.

There is probably no country in the world, says the S. F. Herald, in which the vicissitudes of life have been more fully exemplified than in California. The rich man of yesterday is a beggar to-day, and he who a few years ago was tumbling at the foot of the ladder, in his vain efforts even to gain the lowest round, is now at the head—rides around in his coach, and fares sumptuously every day. But there is nothing in California which should warrant such violent reverses, and they are to be attributed rather to wild speculations and the slovenly manner of doing business which has so long prevailed, than any radical error in our local system. Even cities and towns are not exempt from the changes observable in human life. A rich mining locality is discovered. The people flock there. The tents and rude cabins of the miners give place to flashy stores and handsome residences. Real estate goes up. Small building lots are purchased with avidity, and the man of small capital who has invested his all in speculations of this kind, sits down in his case, with the confidence that he is identified with the rising little town, and as it progresses he will progress, and finally leave his heirs millionaires; but a change often comes over the spirit of his dreams. The mining localities in the vicinity do not continue to be as profitable as at first. One by one the population leave, attracted by the report of richer diggings; but still he hopes on, and never gives up till silence reigns where once were life and bustle, and the green grass grows over the deserted streets. Here is a case in point, copied from the Mariposa Gazette:

"Pleasant Valley, on the Merced river, which grew up mushroom-like, a little more than a year ago, is now comparatively deserted. In passing through it recently we were much astonished to see the change within a few months. Most of the buildings, including the hotel, which was one of the largest structures in the county, have been taken down and moved to more favored locations, or sold as lumber, the builders and owners of which have suffered large losses through their inconsiderate enterprise. We saw but two persons in the place. Crows and ravens were the tenants at pleasure of the butcher's shop, and numbers of lean dogs and half-starved cats swarmed about the place, seeking something to devour. We judged from what we saw that the place had 'gone in.'"

It is not wisdom, but ignorance which teaches men presumption. Genius may be sometimes arrogant, but nothing is so difficult as knowledge.

Married.
On the 1st inst., Mr. WARREN J. TARR, formerly of Gloucester, Mass., to Doña MAGDALENA CABALLER, of this place.

New Advertisements.

Strayed or Stolen.

ON the 6th inst., a roan HORSE and a cream-colored MARE. The horse is branded with the letters A Z and the San Fernando Mission brand. The mare is branded Z L. Any person returning the same, or leaving information of them at this office, will be liberally rewarded. 34 4

Santa Barbara, Dec. 20th, 1856.
GUILLERMO ABADIE,
DOMINIQUE ABADIE.

Election Proclamation.

STATE OF CALIFORNIA,
Santa Barbara County.
IT being made to appear to me that a vacancy occurs in the Board of Supervisors in said county from failure to qualify according to law, the member of said Board elected at the General Election of Nov. 4th, 1856, from the third township of said county: Now, therefore, I, George D. Fisher, County Clerk in and for said county, do hereby call a Special Election for said county, viz: one Supervisor from the third township of the county of Santa Barbara; to be held at the residence of Augustus Janssen, in said township, on Friday, the 9th day of January, A. D., 1857, which said election will be conducted in all respects according to law.
The officers of the last General Election will, and are hereby authorized to act at this special election.
Santa Barbara, Dec. 23d, 1856.
32 3 GEORGE D. FISHER, County Clerk.

Rancho for Sale.

FOR SALE—The fine farm on the San Buenaventura road, known as the Twelve Mile Rancho, together with the fine House situated thereon, all houses, kitchen, and two large hen houses. Also, ploughs, farming utensils of all kinds, and a new wagon, with a span of good horses, harness, &c., &c. Also, two hundred hens.
The above farm is situated in the Carpinteria, and consists of 160 acres, fenced in, of good farming land, well wooded and watered. The house, well known as the "Twelve Mile House," is well adapted for a tavern or hotel, for which purpose it is now used. The house is well stocked with liquors and provisions, together with the necessary fixtures for carrying on the business of a roadside inn. The kitchen has a fine stove, cooking utensils, plates, knives, forks, &c., &c.
To any person desiring a home, this is a most desirable residence, and offers an opportunity for a good investment.
The above property will be sold cheap, as the proprietor is about going into other business.
For terms of sale apply to
HENRY J. DALLY,
or to VALENTINE W. HEARNE,
Orcutt's Building, State street.

Fruit Trees! Fruit Trees!

SMITH & WINCHELL'S
COMMERCIAL NURSERY,
SAN JOSE,
Received from the State Fair of 1856
THE FIRST PREMIUM.

HAVING become the Agent for the above Nursery, and having made arrangements for a constant supply of Trees from the same, I now invite all persons who contemplate planting an Orchard, Garden, or a Single Tree to call and examine my stock before purchasing. If it is not convenient for all to come personally, then delegate some friend or business agent to examine for you, or order directly from me a sample lot of such trees as are wanted.
I have arrangements with other Nurserymen and Gardeners for a supply of such minor Fruits and Trees as may be necessary to keep a complete assortment of everything in this line.
The list below comprises a portion of what I now offer at very low rates.

100,000 FRUIT TREES,
Of all the various kinds, consisting in part of the following:
APPLE—From one to three years old, from four to ten feet high, of fine, symmetrical form, well branched, and of all the choice varieties.
PEAR—Dwarf and Standard of nearly all of the best varieties.
CHERRY—From four to twelve feet high, very fine and thrifty, including many of the leading varieties.
PLUM—Of the usual varieties; also some of the choicest.
PRACH—One and two years old, of fine growth and of the leading varieties; also in dormant bud, very low.
NECTARINE—One and two years old, of choice varieties.
APRICOT—One and two years old, of choice varieties.
FIG—White Smyrna.
CURRENT BUSHES—Red and White Dutch.
GOOSEBERRY BUSHES—Houghton's Seedling and English.
RASPBERRY BUSHES—Antwerp, Franconia and Fastoff.
STRAWBERRY PLANTS—Longworth's, Prolific, British Queen, Hovey's Seedling, Black Prince, Large Early Scarlet and Boston Pine.
ORNAMENTAL TREES, SHRUBS, PLANTS, &c.,
Furnished at Nurserymen's prices.
Orders sent through Post Office or Express promptly attended to. Trees packed for any distance. TERMS CASH.
C. W. LEOGANT,
32 3m 99 Davis street, San Francisco.
