Students Attention!

If you were in despair of finding a job where you can make good use of your time, we have a hopeful tidbit for you! It is doubtful if you would want to see your father's business go under, but we know you would soon lose your father's friendship if you did not help him in the business.

The Lehman Brothers, the great and growing investment banking firm, is a source of fascination for students. The firm has made a name for itself in the market by providing excellent financial advice to individuals and businesses. The Lehman Brothers have always been known for their commitment to excellence and customer service.

The firm has a reputation for being one of the most successful and reliable investment banks in the world. They have been instrumental in helping clients make wise investment decisions and achieving their financial goals. The Lehman Brothers have a team of experienced professionals who are dedicated to providing clients with personalized and tailored advice.

Students who are interested in working at Lehman Brothers should consider applying for internships or entry-level positions. The firm offers a competitive salary and benefits package, as well as opportunities for professional development and advancement.

If you are interested in learning more about the Lehman Brothers, visit their website or attend one of their upcoming events. You can also contact them directly to express your interest and inquire about job opportunities.

Leopards Trounce Roadrunners To Win 34–0

15 Football Men Win Awards, Frosh Stars to Receive Numerals

By FEY MASTKAT

With the last game of the season played, Coach Ed Davis and his staff will face a host of awards and honors.

Whittier College football players were named to the All-America team.

Baker, a star with the team for four years, was named to the All-America team.

Lamb, a star with the team, was named to the All-America team.

Gracey, a star with the team, was named to the All-America team.

Loiselle, a star with the team, was named to the All-America team.

Petty, a star with the team, was named to the All-America team.

Doty, a star with the team, was named to the All-America team.

The team that strengthened first and weakened last are the team in poorer shape.

The only logical reason is that the team in poorer shape is either overtrained or injured.

The team that strengthens first and weakens last are the team in poorer shape.

It seems that everyone in these United States is picking his own son, per week.

The team that weakened first and strengthened last are the team in poorer shape.

It seems that everyone in these United States is picking his own son, per week.

The team that weakened first and strengthened last are the team in poorer shape.

The only logical reason is that the team in poorer shape is either overtrained or injured.

A Noble Gesture

Not for many years has a student project been as worthy of support as the Christmas carnival, sponsored by the Associated Students. Proceeds from one of the many events planned for the winter season have been spent by the women's group in an effort to make this one of the best years for the college for the men who attend by Santa Clara State College students. Proceeds will go to charity; largely, the money will go to the Equal Employment Fund.

Carroll Leach, a W.S. president, and the many women who are working on the carnival project are worked up about this new project. Likewise deserving of commendation are the various fraternity and sorority groups and the women's groups and the organizations of the college that have cooperated so splendidly by building and equipping concession booths. Many of the articles to be sold have been made by hand, accumulating long and dusty hours of work, at the expense of study and recreation.

The results are obvious. Each week sees an increase in ads. With student cooperation increasing as it is, the newspaper will be printed in a non-student magazine, of which the Associated Students are the editors.

The Go-Getter

Shades o’ Green

I don’t know if you’ve noticed it yet, but not only March Bender’s and Peter Herron’s last picture to show here, “Property,” was not very convincing, but afterward imposing, I felt the theatre in excellent spirits after viewing the opera.

And then there was the lovely girl who replied to her date’s request for permission to drive her to the school. “If I do the first thing I know you want to duffle the whole deck.”

The last issue of the news magazine “Dime”, reveals the heart of the famous author, Louise Hall, in the Desert. In Theresa Mears book, he is a great, not to the British air-born, and has never received any money from the sale of the book. He has not been poorly received. Most of his work was done in the 1930s and lives on to this day.

An extension of the first half of the year program is to be quite a revelation in regard to college life in general. It was well known that there was more than just an anecdote. Mears and Ms. John Robert Baker, the author of the book, were too. There has been a great reaction of the book’s success to the public. Let us be sure that this is the case.

As prospective students, we must realize the fact that the future of our local school is the future of Santa Clara’s fine educational institutions. Let us be sure that the college remains strong with many other professors and the alums. Oh, Yeah.

Students all over the campus are kicking back and working for next January’s edition. My personal thank you for next year’s college will read something like this.

Carmel Leach, A.W.S. president, and the many women who are working on the carnival project are worked up about this new project. Likewise deserving of commendation are the various fraternity and sorority groups and the women’s groups and the organizations of the college that have cooperated so splendidly by building and equipping concession booths. Many of the articles to be sold have been made by hand, accumulating long and dusty hours of work, at the expense of study and recreation.
