## Record Crowd at Beach Over Holiday; Opening of School Ends 1934 Season

### SIXTEEN LOCAL PERSONS PASS LIFE SAVING TEST

#### Carpinteria Now Has Over 100 Persons Trained in Life Saving; New Equipment Installed at Beach

With the outbound stream of cars on Labor Day and the opening of school on Tuesday, the summer season at the Carpinteria Beach was practically brought to a close. Excellent weather for the past two months, absence of accidents at the beach, Red Cross classes in swimming and life-saving under instruction of Ray G. Bassett, and record-breaking crowds over the Fourth of July and Labor Day all contributed to one of the most successful summer seasons, both from the standpoint of the tourist and Carpinteria business people, enjoyed here for several years.

It is estimated that there were about 2,000 people on the beach Sunday and about 3,000 on Monday. Every available accommodation in this vicinity was taken over the Labor Day holiday and many persons were sent into Santa Barbara to seek accommodations.

As a result of the summer course in life saving, 16 more Carpinteria young people, ranging in age from 12 to 24 passed Junior and Senior Red Cross life-saving requirements. This brings the total of persons in this community trained in this work to 104. It would be hard to equal this number of trained persons in any other community of this size.

The class in life-saving had two lessons per week starting June 18th and ending August 15th, making a total of 18 hours in the water under the instruction of R. G. Bassett and James Wood. Those passing the senior life-saving examinations were Arlene Thurmond, George Senteney, Harold McCurkey, Ralph Wood, Dorothy Bassett, Philip Bates, Marshall Waldon, "Billie" Winters, Saralie Winters, James Peterson and George Coffman. Passing the junior life-saving test were: Mary Waldon, Beverly Humphrey, Mary Bates and Barbara Hudson.

In addition to life-saving classes, swimming was also taught to children from 5 years of age up. Those passing the swimmers test at the close of the course were: Billie Hare, Bobbie Doell and Richard Doell. Passing the beginner's test were: Eleanor Vaughn, Carol Dane, Jean Wullbrant, Margaret Anderson, Dorothy Merrifield, Lola Matthews, Merle Matthews, Mary Davis, Jackie Wood, Leslie Johnson, Virginia Vaughn, Barbara Bates, Wanda Swain, Betty Tompson, Betty Casper and Imogene Williams.

New Equipment Installed  
Arriving in time to be installed at the County Park for the use of the holiday crowds over Labor Day, were new swings, new rings and a new slide. This equipment had been badly needed for some time to replace the old which was so badly worn that

## Coming Events

**Friday—**  
Meeting Sinclair-for-Governor-Club in Santa Barbara, 8 p.m.  
♦ ♦ ♦  
**Sunday afternoon—**  
Carpinteria nine plays S. B. Chevrolet nine at Carpinteria.  
♦ ♦ ♦  
**Monday night—**  
Stated meeting F. A. & M. at Masonic Hall.

## HIGH SCHOOL FOOTBALL SEASON OPENS WITH LARGE TURNOUT

### Five Games Already Lined Up; Sept. 25 First Local Game

Almost forty boys have been issued suits by Coach Mather during the past week as the initial grind of the local pigskin season got under way. Carpinteria will play teams in this vicinity and already has five games scheduled. These games are with Ventura Senior High, St. Clair of Oxnard, Moorpark, Lompoc and the Santa Barbara Sophomores. Oxnard High as well as Santa Paula will undoubtedly be added to the schedule soon. The first local game is with Ventura on September 25. The Pirates always have a heavy fast team and although the local school is not yet ready for class A competition, they will undoubtedly give a good account of themselves.

Lettermen of last year who have reported so far are: Captain Dale Schuyler, Walt Kendrick and Ralph Woods, backfield; Robert Bowen, Bill Lambert, Fred Lopez, James Peterson, Robert Maxfield, Bill Reid and Crandal Mackey, linemen. Up from the "B" team of last year are: James White, James Hendy, Leslie Rameriz, Jack Schweizer, Peter Boydston, Lawrence Smith, Joe Rodriguez, Philip Bates, Peter Franco, Ben Ezaki, Jack Lambert, Lloyd McLean, George Coffman and Richard Rodriguez. Others who are reporting to Carpinteria High for the first time are: T. Sudduth, George Senteney, T. Reid, L. Avant, R. Wullbrandt, T. Expinosa, S. Hirashima, C. Rodriguez, R. Barrens, R. Dyer, K. Coffman and Clyde Smith.

Late registrations are expected to increase the total squad to over forty. The football equipment has all been renovated and put into excellent shape. There is some doubt concerning the extent to which Bill Lambert, premier punter and linesman, will be able to participate this year. Bill took a hunting trip before school opened and a mule very carelessly took a free kick at Lambert's knee—fortunately not the side of his educated toe. The injury is slowly healing but time alone will tell whether he will again boot out those 60 yard kicks for the Warriors.

The past week has been devoted to training in fundamentals and conditioning. Tackling and blocking practice will start next week.

## GIRL SCOUT WILL RECEIVE HIGH AWARD

Carpinteria Girl Scouts will hold their first meeting of the year in the form of a rally at the beach Wednesday, September 12 from 4 to 7 o'clock. Swimming, picnic supper and a campfire ceremony in front of Mrs. John F. Rock's beach cottage. The greatest honor a Girl Scout can win, the Golden Eagle award will be presented to Jorine Floyd. Only two other Carpinteria Girl Scouts have achieved this coveted award, the longed for goal of every Girl Scout, they are Mary Jane Campbell and Ellen Hogle.

The Golden Eagle award is the highest award in the Girl Scout organization and is conferred by the national headquarters in New York City. It is an honor given to the Girl Scout whose character, physical and mental fitness, preparedness for service and spirit of good will mark her as a First Class Girl Scout in achievement and personal development, both in the judgment of her own community and the national organization.

## CHILDREN FROM "KIDDIES HOME" AT CERCA DEL MAR

Thirty-two children, boys and girls, ranging in age from 6 to 12 from the "Kiddies Home" in Los Angeles are staying at Cerca del Mar. The children sleep on the balcony upstairs and meals are prepared in the kitchen of the club house. They will leave here Monday for Los Angeles.

Mr. and Mrs. Milton Gann and daughter Erlene of Fellows spent last week in Carpinteria on their vacation.

Mr. and Mrs. William Breese of Gebo, Wyoming, are visiting their daughter Mrs. Thelma Mestre.

Miss Doris Braley visited friends in Los Angeles during the holiday.

## SERIES OF QUESTIONS, ANSWERS STARTED BY SO. CALIF. AUTO CLUB

### Ivan Kelso, General Counsel, Authority for Answers

(The Chronicle today presents the first group of an instructive series of questions and answers related to various phases of motor vehicle ownership and operation in California. Authority for the answers is Ivan Kelso, General Counsel, Automobile Club of Southern California.)

Question—Is it unlawful to pass another car upon a bridge?

Answer—The California Vehicle Act does not prohibit passing on a bridge where there is sufficient width and traffic conditions do not make the passing dangerous. However, it is unlawful for one machine to pass another approaching within one hundred feet of any bridge.

Question—What is the rule governing proper driving on a highway marked for three lanes of traffic?

Answer—On a highway so marked there is no center line, but there are two lines dividing the highway in three lanes. The law requires that a vehicle shall normally be driven in the right hand lane except when overtaking and passing or preparing for a left turn and that it shall not be moved from one lane to another unless the driver first ascertains that such movement can be made in safety. The center lane is reserved for overtaking and passing or preparing to make a left turn.

Question—May a motorist pass through a marked pedestrian crossing when a pedestrian using the crossing signals or invites the motorist to pass?

Answer—The California Vehicle Act declares the right of way rule governing the use of pedestrian crossings. Passing in front of a pedestrian who is in a crosswalk is made a misdemeanor. Therefore the infraction is one against the People of the State of California rather than the individual and the pedestrian is not authorized in law to consent to a violation.

Question—Is it permissible to stand a vehicle adjacent to a fire hydrant when the curbing is not painted red?

Answer—This is governed by the California Vehicle Act which makes it unlawful to stop, stand or park a vehicle within 15 feet of a fire hydrant and does not require the presence of colored paint or signs. It is no longer permissible to park in this manner when a licensed operator is in control of the car, this permission having been dispensed with some time ago.

## INITIATION PARTY IS HELD FOR OLD SALTS

The Old Salts are giving a dinner party at the home of Mrs. Fred Greenough tonight. The occasion is the initiation of eight new members into the club.

The new members are: Mary Margaret Winters, "Billy" Winters Dorothy Lape, Miriam Hendy, Francis Morris, Barbara Butler, Vivian Rodriguez and Francis Senteney. Others expected to be present are the sponsors of the group: Mrs. Mark Latham, Mrs. Frank Wymond and Mrs. Neil Ballard and the following members: Martha Hoffman, Ellen Hogle, Margaret Rodriguez, Leona McCubrey, Reva Walsh, Rosemary Carton and June Coles.

## MEETING TO BE HELD

A cheerful get-together meeting of the Sinclair-for-Governor-Club will be held at 523 State St. in Santa Barbara this Friday at 8 p.m. Light refreshments will be served and everyone is invited to come and join in a friendly discussion. This invitation is extended to all political party adherents.

Miss Catherine Jones, local grammar school teacher, will make her home with Mrs. H. Lot Beckstead and daughter, Evelyn this year.

Mr. and Mrs. John S. Catlin motored to Manhattan Beach Saturday to be the guests of Mr. and Mrs. Linford Lull.

## County Again Sets Basic Tax Rate at 1.50; Local Rate Shows Slight Raise

### SPECIAL TAX COMPARES WITH REST OF COUNTY

#### Increase in Rate Due Largely to New Fire District and New Aliso School

The board of Supervisors in a recent session again set the basic tax rate for Santa Barbara County at \$1.50 which is the same as the rate for 1933-34. Figures available in the office of Albert Eaves, County Auditor, show that tax rates in Carpinteria will range from 3.13 to 5.73, a minimum increase in some parts of the Valley of 27 cents and a maximum increase in other sections of 47 cents.

Figures for the Carpinteria districts are as follows:

|  | 1933-34 | 1934-35 |
|--|---------|---------|
| Carpinteria Union Light                  | 2.66    | 3.13    |
| Carpinteria Union Light                  | 2.98    | 3.43    |
| Carpinteria Union R.I.D. No. 1 and Light | 5.28    | 5.73    |
| Carpinteria Union R.I.D. No. 5 and Light | 3.52    | 3.97    |
| Carpinteria Union Water and R.I.D. No. 5 | 4.80    | 5.07    |
| Carpinteria Union R.I.D. No. 5           | 3.20    | 3.67    |

In segregating the figures for R.I.D. No. 1 and Light Special tax for 1934-35 we find the following facts in regard to the increased rate are shown:

|  | 1933-34 | 1934-35 | Increase |
|--|---------|---------|----------|
| Carpinteria Union R. I. D. No. 1 and Light | .....   | .....   | .....    |
| Elementary School Bonds                    | none    | .06     | .06      |
| High School Bonds                          | .26     | .27     | .01      |
| Elementary School Maintenance Tax          | .41     | .45     | .04      |
| Building Tax                               | none    | .10     | .10      |
| High School Maintenance Tax                | .46     | .60     | .14      |
| Fire District Tax                          | none    | .13     | .13      |
| Cemetery Tax                               | .03     | .02     | -.01     |
| Light Tax                                  | .32     | .30     | -.02     |
| Road Improvement Dist. Tax                 | 2.30    | 2.30    | .....    |

Total Special Taxes and Increase .. 3.78 5.73 .45  
The building of the New Aliso School is responsible for the addition of the .10 building tax and .06 bond tax on the Elementary School budget.

The increase of .14 on the high school budget is due largely to certain changes in distribution of state funds made because of the Stewart-Riley Tax plan and to the necessity of including the high school plant in the Sanitary District and installing sewer connections, the total of which is estimated to be about \$1,000; \$500 of this amount going to the Sanitary District and the other \$500 to be spent for materials to be used in connection with S.E.R.A. labor to connect up the school with the sewer.

## CARPINTERIANS IN WEEK-END ACCIDENTS

William H. Hohmann and Helen C. Hohmann were slightly injured in an accident which occurred Saturday afternoon on the Roosevelt Highway at Old road south of Oxnard. Hohmann struck a truck driven by Clark Jenkins of Los Angeles which was attempting to make a left turn off the highway. Jenkins and Gertrude Jenkins, were taken to a hospital at Oxnard for emergency treatment and later released.

Johnny Johnson and L. F. Ramey, were injured Sunday night when a truck driven by Johnson went off the road on Moses Mesa an overturned. Johnson is in a Santa Barbara hospital with a fractured shoulder and Ramey suffered a crushed finger when it was found necessary to amputate and several fractured ribs.

In an unusual accident occurring in Santa Barbara Sunday, Grace Ennis, five-year-old daughter of Mr. and Mrs. Joseph Ennis, received a slight cut over her right eye from flying glass caused by a baseball striking the wind-wing of her father's car. The machine, driven by Ennis, was driving north on Mipasa, next to Cabrillo baseball diamond, when the ball struck the wind-wing according to a report made to police.

Moses Saragosa, 18, was held in the Santa Barbara jail on charges of suspicion of hit-and-run driving, following an accident in which the machine of George Baity was struck by a machine which did not stop to render aid.

## LOCAL MAN TO BE GUEST OF HONOR AT L. A. DINNER

W. H. James, local rural carrier who is president of the state association of rural carriers, will be the guest of honor at a dinner to be given at the Rosalyn Hotel by the L. A. County Rural Carriers on Saturday night.

Last Sunday at a picnic of the carriers of Santa Barbara, Ventura and San Luis Obispo Counties held at Oak Park, James was pleasantly surprised by the appearance on the table of a large birthday cake which was followed by informal congratulations of James on his 62nd birthday.

Mr. and Mrs. Donald Looby had as their dinner guests Friday evening, Mr. and Mrs. David Cummins and twin sons, Claire and Carroll.

## The Village Observer Saw:

Several Carpinterians lost in the fog after the Circus in Santa Barbara Wednesday night.

"Tud" Treloar making tracks for a certain house in Sandyland. Wonder what the attraction is. We hear there are two of them.

A very sea-sick lady making an emergency landing at the local beach Sunday.

A certain young lady by the name of Mary with a bad case of hic-coughs Thursday night.

## WHO SAID "FIGURES DON'T LIE?"

It is unfortunate when a newspaper lets its editorial policy creep into its news columns and distort facts and figures to suit its fancy by omitting an essential part of the information. It is through such actions on the part of a few that the general public loses faith in newspapers and the oft repeated statement "You can't believe what you see in the papers" results.

Carpinteria has been the victim of such a policy this week. Santa Barbara dailies carried stories in regard to the increased tax rate which leads the reader to believe that the entire Carpinteria Valley must pay a 5.73 tax and that the increase of 45 cents is due entirely to increased school administration costs.

Had all the facts and figures been set forth in the story it would have at once become apparent that this was a gross misstatement of the facts. The article failed to mention that the 5.73 rate applied to only one district out of the six Carpinteria Valley districts and that 2.30 of this rate applied to a bonded road indebtedness incurred some years ago. It did not state that four out of the six districts had rates less than 4.00, one district as low as 3.13, which compare with other Santa Barbara communities.

The fact that a new fire district had been created by a vote of the people, with power to purchase proper fire-fighting equipment for the protection of valley property, this accounting for 13 cents of the 45 was not mentioned. Also the fact that 16 cents of the increased school cost is chargeable to the New Aliso School bonds for which were voted by the district, was omitted.

The remaining 19 cents of the increase which can be charged to increased school costs is fully justified by increased attendance and the cost of necessary improvements required to be made at the school plants.

In regard to schools, it might also be pointed out that the Carpinteria Schools enjoy an enviable reputation throughout the state for their high standards. The relations between trustees, teachers and tax-payers have been entirely harmonious. We have had no dirty linen in connection with our schools to be aired in court. We have built no buildings that have been condemned before they were even occupied.

The statement made in the article that "doubtless many Carpinterians would wish themselves residents of the Channel Islands when tax bills arrive," we, personally, do not take seriously. However, many citizens of the community feel that this statement is a direct slap in the face in view of the fact that Carpinteria has co-operated with Santa Barbara in the staging of their various festivals and enterprises whenever called upon to do so.

Such statements on the part of the Santa Barbara press are anything but conducive to good feeling between Carpinteria and Santa Barbara. However, we trust that the citizens of our valley are broad-minded enough to take into consideration the fact that this article is somewhat colored by certain editorial policies of the paper and does not express the sentiment of the people of Santa Barbara, or Santa Barbara civic organizations.

## ADVERTISING PAYS DIVIDENDS

If one is to judge by the crowds that flocked to Carpinteria over the Labor Day holiday, the advertising allowance of some 400 dollars which the "Carpinterians" spent for newspaper advertising in Southern California and the lower San Joaquin Valley was not spent in vain. The crowd was the largest here since the beginning of the depression. The effects of advertising are cumulative. One ad may not bring miraculous results, neither does one swallow make a summer, but consistent advertising over a period of time always brings results.

## SCHOOL DAYS

By DWIG

## BREVITIES

Max Young and Joseph Hendy made a week-end trip to the islands in their boats, returning Monday afternoon. Among those accompanying them were Mr. and Mrs. J. C. Goldberg and son of Los Angeles, Mildred and John Young, Arleen Thurmond, Joe Moore, James Lowesley, John and Robert Bowen, Ben Moore, Frank C. Wymond and son Frank and James Hendy.

Mr. and Mrs. L. K. Hebel and daughters Mary Alice and Lila returned the latter part of last week from an extended motor trip in the east.

Rev. and Mrs. James A. Lewis and daughters Margaret and Claribel spent the week-end in LaVerne where Mr. Lewis officiated at the marriage of their niece, Miss Alice Durward. They also visited Mr. and Mrs. Harold Lewis in Whittier.

Mrs. Eva G. Mering of Hollywood is visiting her cousins, Mr. and Mrs. John W. Young.

Mr. and Mrs. Frank Wykoff are making their home in the Allan Rogers beach cottage in Sandyland.

Mrs. J. B. Lape and Miss Dorothy Lape have returned from Los Angeles where they visited friends.

Mr. and Mrs. William C. Hohmann and son Billy and Mrs. S. B. Hohmann spent the holiday with friends in Redondo.

Miss Eloise Mays and her mother have taken one of the cottages in the Bliss court for the winter.

Mr. and Mrs. Bertrand VanBuren of Arlington were week-end guests of Mr. and Mrs. David Safwenberg.

Mr. and Mrs. R. E. Moore and daughter Rosalind and Miss Ariana Moore have returned from Idylwild where they visited relatives.

Mr. and Mrs. Robert Sawyer returned Friday from San Francisco where they spent their honeymoon.

Miss Catherine Jones is making her home with Mrs. H. L. Beckstead and daughter Evelyn for the winter.

Mr. and Mrs. Terry T. Wall and twin daughters, Shirley Ann and Terry Lee and Walter Van De Mark were dinner guests Friday evening of Mr. and Mrs. Mix Van De Mark.

Mr. and Mrs. Otis Unkefer of Santa

## EXCHANGES

FROM HERE AND THERE

### FINGERPRINTING

The American Legion is to be commended for its fight for universal fingerprinting and the determination to force legislation that will require every citizen to carry a card bearing his photograph and his fingerprints.

There may be some objections to the plan on the theory that it is regimentation to which American instinct always balks but it has enough good qualities that will off-set this complaint.

Save for the fact that few finger prints, other than those of criminals, are taken now, there would be and could be no real feeling against the plan; and once finger printing was made universal, this feeling would swiftly disappear, since no stigma could attach to the process.

This, it is hardly necessary to point out, would be a great aid to authorities not only in identifying criminals but in the search for missing persons, lost children, amnesia victims, victims of accident or crime and the like, whose identification now requires much trouble and time.

—LOMPOC RECORD.

### A VERY BEGUILING COMMUNICATION

The editor of the Madera Tribune received a letter last week from a subscriber in regard to the curtailment of hog production. Perhaps you aren't interested in hogs, but the letter, in view of its unique turn, we reprint regardless:

"Editor Tribune: 'I have a friend who has been raising hogs for many years but, has never made any money at it until this year when he sold 400 hogs which he didn't raise for \$800. Isn't it a shame that he has wasted his time all these years raising hogs and losing money when he could have been making such a handsome profit by not raising them.

"Now what I am interested in is how can I get into this profitable business of not raising hogs. I should like to know the kind of land most adapted to the business of not raising hogs. Also what kind of hogs are the most profitable not to raise. Of course I will have to employ a competent bookkeeper to keep an accurate record of the hogs I am not going to raise.

Barbara are on a month's motor through Oregon, Washington and Canada visiting relatives and friends.

Mrs. C. A. Hogle and daughter, Ellen spent Friday with Mrs. Clark Catlin at her home on Casitas Road.

"I anticipate that I should make enough profit in the first year to pay me back the purchase price of the land upon which the hogs will not be raised, after which I should be in a position not to raise about twice as many hogs as I didn't raise during the first year.

"The profit derived from not raising twice as many hogs as were raised during the first year will give me a real break. With it I will pay for the installation of a good irrigation system and for the leveling of the land preparatory to planting cotton. Just another overproduction of cotton and again I will make a big income by not raising cotton.

"I'm just a wage slave, however, and my only hope of actually accomplishing the above purpose is to have some federal agency step in and offer to pay me for not working in order to relieve the overproduction of unemployment. This I will gladly do if the opportunity affords.

"A SUBSCRIBER."  
—MOORPARK ENTERPRISE.

### GRACE NOTES BY H. O. WISE IN SANTA BARBARA

A friend of ours, a walnut grower, tells us (the editorial "we") that his harvest time began a month earlier this year, pickers being at work as early as August 20. He declared that he had to be on the job all the time to prevent walnuts with a blight from going into the common sack, so spreading the disease, and, secondly, to see that the pole work to bring down the nuts didn't crush the buds of next year's crop. Very forehanded the walnut, it begins to think of next year's crop before this year's is off the bough. Nothing to our mind is finer than a grove of mature walnut trees: noble in aspect, wide-spreading, fruitful, their branches meet and interlace, and spread a canopy through which only here and there the dim gold of sunshine penetrates. Such a grove makes pictures, like the kodak, as it goes. And, then, its harvest brings in such romantic associations, particularly to one who has lived in the East and gone nutting in the fall, scuffling the dead leaves underfoot and savoring the tang of autumnal air. Gathering the walnut on a large scale. Nothing squashy or perishable about the crop; it lasts. Some day perhaps the writer will own a patriarchal grove, and then he will be perfectly happy—provided—hum—he has enough income to live off of without yoking these romantic trees to the financial plough.

For sad it is that these walnuts

## YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND  
Director, Physical and Health Education  
New Jersey State Department of Public Instruction

### Health Protection

The opening of schools means the congregation of large armies of children into groups. This means that the chances of disease contagion are greatly increased, especially for children entering school for the first time.

To offset the danger, there are the following procedures which every parent and teacher should support. (1) Abolish competitive attendance devices and rewards. (2) Let every parent promise himself to keep his child at home upon the first appearance of any ailment, complaint, sign or symptom. This measure alone would prevent much misery and illness. (3) Endorse immunization as a routine procedure. This includes vaccination against smallpox and toxoid injections to prevent diphtheria. Undoubtedly we shall soon accept similar measures against other communicable diseases. (4) The morning health inspection by the teacher during the first five minutes of the session. (5) Immediate exclusion from school of every child showing any departure from normal. (6) Support the health authorities in asking that all children be given a test to determine the possible presence of tuberculosis. (7) Have a qualified interested physician employed by the board of education.

School athletics will be the subject of Dr. Ireland's next article.

## CHURCHES

COMMUNITY CHURCH  
Rev. Leon Kirkes, Pastor

The Sunday School will meet at 9:45 a.m. The plan for the new contest will be inaugurated. Be present and ready to go.

The Public Worship will be at 11 a.m. Rev. Wade Hamilton will preach the sermon. Mr. Hamilton always brings a fresh, enthusiastic message, and his many friends will be glad to hear him.

Special music will be rendered by the Tuxis Choir and Men's Chorus.

You are cordially invited to these services.

METHODIST CHURCH  
Dr. C. P. Moore, Preacher

The usual Sunday school and worship services. The pastor will preach at the morning service. Theme: "Neighbors" from the parable of the Good Samaritan.

A cordial welcome to all. The theme for the combined night service will be a continuation of the "Study of the Nations."

Good congregational singing of old familiar gospel songs.

CHRISTIAN SCIENCE SOCIETY  
814 Walnut Street

Services Sunday, 11 a. m.; Sunday school at 9:45 a. m. Wednesday meeting 8 p. m. Reading room open Tuesdays, Fridays, 2:30 to 4:30 p. m. You are invited.

ST. ANDREWS EPISCOPAL  
Coast Highway

Members of the Carpinteria congregation are asked to attend the Church of All Saints By the Sea, in Montecito, temporarily.

ST. JOSEPH'S CATHOLIC  
Msgr. Jose Gutierrez  
Mass at 6:30 and 9 a.m.

do not seem to make much money for their owners nowadays. My walnut friend told me that his family spent sixteen cents per pound raising his walnuts last year and got paid eight. So they had their trouble for their pains; or worse. This was sad, but something even sadder was to see whole walnut groves being rooted up with tractors, and this writer has seen done more than once, in Carpinteria and elsewhere. Organic growth is slow, deracination is easy. Down came the arboreal patriarchs in a jiffy, laid low after years of happy and prosperous vegetable life, because the couldn't make enough money for their owners in their latter years. Oh, woodman, spare that tree!

### WOMAN'S CLUB HOLDS FIRST MEETING

Carpinteria Woman's club opened its year this afternoon with a musicale given by the El Encanto trio of Santa Barbara. Hostesses for the tea following the program are members of the entertainment committee: Mrs. Marc Latham, Mrs. G. Horace Cassow, Mrs. E. D. Solari, Mrs. Percy Houts and Miss Grace Shorkley. Programs for the year were distributed during the meeting, the committee being Mrs. Irving A. Mather, Mrs. Joseph Hendy, Mrs. Neil Bailard, Mrs. Henry Baylor and Mrs. Frank L. Smith. Club officers include Dr. Genevieve Shorkley, president; Mrs. W. Guy Stockton, Mrs. Irving A. Mather, Mrs. Joseph Hendy, Mrs. Gordon Bailard, Mrs. J. E. Jones, Mrs. E. D. Solari, Mrs. Percy Houts. Chairmen of standing committees are: Mrs. Frank Thurmond, Mrs. Marc Latham, Mrs. Donald Bailard. The three departments will continue under the same leadership, American Homes, Mrs. Henry D. Baylor, drama, Mrs. Arthur Hebel and literature, Mrs. L. C. Kirkes.

### MANY BEAUTIFUL DISPLAYS AT FLOWER SHOW

The fall flower show staged at the Woman's club last Thursday by the Garden club brought out many lovely specimens and varieties. The main exhibit was of zinnias grown from seed furnished the club by a southern seed house who offered prizes. Awards for all three classes of single zinnia blossoms was given Mrs. C. B. Franklin, who also won first in basket bouquet, Mrs. A. V. Buell taking second. Prizes offered by the club for zinnias went to Mrs. William Norlin and Mrs. Nelson Smith, and to Mrs. Orin Hales for liliplum varieties. Mrs. John Henry Shepard displayed many different dahlias, some of which she has developed from seed and named. Her specialty is pompoms and decorative types. Four ladies from Summerland, Mrs. Ray Lambert, Mrs. Carl Allen, Mrs. W. F. Smith and Mrs. Cecil Lambert sent exhibits of dahlias. A large section was devoted to geraniums and pelargoniums, and an exhibit of tuberous-rooted begonias by Mrs. C. B. Franklin, Mrs. David Safwenberg and others attracted much attention.

### MISS LAPE ENTERTAINS AT POLO BRIDGE

Miss Dorothy Lape entertained at three tables of polo bridge Tuesday evening. Miss Billie Winter and Miss Ellen Hogle won score prizes. Other guests were the Misses Flora Bliss, Grace Shorkley, Elizabeth Furby, Ruth Bliss, Rosemary Carton, Sadie Hales, Jean Shorkley, Ruth Clarke and Izola Smith.

Mr. and Mrs. W. L. Gann of McKittrick were week-end guests of her parents, Mr. and Mrs. John C. Furby.

Mr. and Mrs. Wayne Logue and son Robert of South Pasadena visited in Carpinteria over the holidays.

## BABBLINGS

By A. BROOK

Well we're going to have a holiday and are we tickled. Some folks merely look upon a holiday as just another one of those things that occur in the course of human existence. With us it's an event long looked forward to and, truthfully, rarely panning out as we anticipated.

To make a long story short the Editor is going away for the day and has left us with the understanding that we can write any darn thing we want to. As a rule, when the aforementioned Editor is among those present, our copy looks like an aqua-maine painting from the blue pencil she scatters over it, but today we can write just what we please.

Now that we all know that the sky's the limit what'll we say? Or rather would you like it better if we just left the rest of the page a blank? It's up to you, what do you say? Hey, hey, what do you say? (Notice the rhyme?) Sure, we can write some of the swellest poetry you ever read. Gosh we feel just like a kid the first day that school's out in the spring, here's hoping the Editor stays away a year.

Dum-deedle dum, we're as happy as a bird,  
The boss has gone away  
And we can't write a word.  
Not so bad, eh what? We've read worse.

Dum-deedle dum, the people all say  
He's as crazy as a loon,  
How'd he get that way?

It's getting better, don't you think so?

Dum-deedle dum and we'll keep mum  
That he didn't write a thing.  
Ain't he dumb, deedle-de-dum?

Gosh, we're getting a big kick out of this. It's lots of fun, try it sometime.

Dum-deedle dum, deedle-dum-dum-dum,  
Deedle-dum, deedle-dum, deedle-dum,  
Dum-deedle, deedle-de-dum.

Oh, hum . . . guess that's about enough of that.

What'll we do now? Did you ever see that trick with a coin, a watch and a hammer? Upon second thought better not do it as someone might try it and make a mistake.

Let's see, what was it the Mrs. wanted us to bring home tonight? White thread No. 50. Yep, we got that. A pound of butter. OK. Get some wire-for the screen she threw the flatiron through. Yep, we got that too. (It's a good thing that we dodged at the right time.) See if junior's shoes are done. (The way that kid wears out his kicks is a crime.) And there was one more item; now what was it?

Oh! shucks, we're not going to think anymore about it and maybe it'll come to us and besides we're not going to let a little thing like that spoil the entire day.

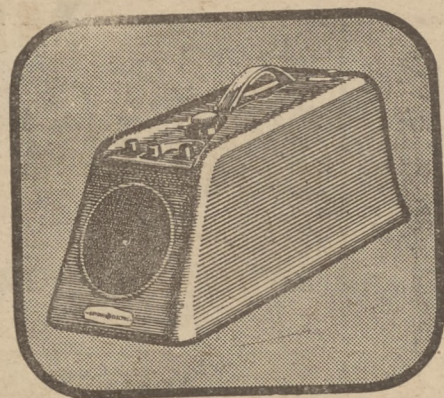

Dum-deedle-de-dum . . .  
Gosh, wonder what that other item was she wanted!

Mrs. Henry Grell, son Ronald and daughters Lois and Elsa Lee, returned Monday from Rapid City S. D., where they visited her mother. They were met at Barstow by Mr. Grell and Mr. and Mrs. Walter Dowling.

Mrs. Anna McGreal, who has been visiting her son and daughter-in-law, Mr. and Mrs. Mix Van De Mark for the summer months, left today for Ojai to resume her work.

Rev. and Mrs. L. C. Kirkes left this week for a trip to Boulder Dam and Grand Canyon.

## The Most Amazing AUTO RADIO IS HERE!

for  
THE CAR  
for  
THE HOME

The new General Electric Auto Radio rides on the front seat, back seat, anywhere—you can operate it, or your passengers can operate it.

Easily portable—carry it into the house. Plug it into any convenience outlet and it becomes an A-c. operated set! Use it in the car or in the home, in the club, hotel, or summer camp. The best-looking—the best-performing—the most versatile and useful auto radio you ever saw or heard!

THE BEST IN INSURANCE

Now, if ever, you NEED Insurance!

## CONSULT U. S. FOREST SERVICE BEFORE GOING INTO BACK COUNTRY

Many Camps are "Waterless" According to Officials

Hunters or hikers intending to trek into the Santa Barbara National Forest may save themselves considerable time and trouble by consulting with the bulletin board at U. S. Forest Service headquarters here, to ascertain which camps are "waterless" from the summer drought.

Forest officials yesterday revealed that these camps no longer have sufficient water for persons desiring to make them their headquarters:

In the Ojai: Dobie Cabin (Sespe river low); Tin Can Cabin, Ant, Kincaid and Camp Borracho camps, totally without water.

In the Santa Ynez: The Pines, Glade camp (low), Rose Gulch, P-Bar Flat and Santa Ynez.

In the Santa Maria: No water is to be found at any camps on Figueroa Mountain, nor in the NIRA camp.

# Citrus Returns Have Been Increased

Every grower should appreciate the reasons behind the fact

## Citrus Returns Must Be Increased

THREE POSSIBLE METHODS

and when the California Fruit Growers Exchange is doing about them

1. The present method of selling citrus fruit is through the market. This method is the most common and is the one which the grower must understand. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower.

2. The second method is through the market. This method is the most common and is the one which the grower must understand. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower.

3. The third method is through the market. This method is the most common and is the one which the grower must understand. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower. The grower must know the market and the market must know the grower.

California Fruit Growers Exchange  
Sunkist

This advertisement appeared during May

ments in an effort to gain some advantage.

Adequate control of the supply has brought a much better market. But gains thus made can only be held by the continued, unanimous support of the program from which they result.

The Exchange reaffirms its intention of giving wholehearted support to the Citrus Marketing Agreement, so that growers may continue to receive increased returns. Further, Exchange growers continue to participate in the two other sources of increased returns: (1) the building of demand through Sunkist advertising and (2) the lowering of costs through large-scale operations.

## CALIFORNIA FRUIT GROWERS EXCHANGE

A non-profit, cooperative organization of over 13,000 California and Arizona citrus growers, marketers of the world's most famous brand of fresh fruits: **Sunkist** ORANGES • LEMONS • GRAPEFRUIT •

## MONTHLY SUMMARY OF BUSINESS CONDITIONS IN PACIFIC SOUTHWEST

Compiled and Published by  
Security-First National  
Bank of Los Angeles

Comparatively little variation in the level of business activity was evidenced in Los Angeles and Southern California in August, 1934, from that which obtained in the preceding month, according to the Monthly Summary of Business Conditions compiled and published by the Security-First National Bank of Los Angeles.

"While retail trade improved by slightly more than the normal seasonal amount, industrial concerns experienced a recession from their July showings. In the rural areas, general conditions continued to display improving tendencies, many lines of California agriculture benefiting from the severe drought in the Middle Western states," the review reports, continuing in part as follows:

"Despite the absence during August of the expanding trend which has characterized recent months, reports from observers in Los Angeles and various other Southern California cities reveal that a majority of business men believe that the course of activity will continue upward during the remainder of 1934. It is notable that optimism is greatest in the agricultural areas where increased returns from crop production are being realized.

"Deposits of Los Angeles banks were larger at the end of August than at any time since 1931. An abundance of credit is now available to business and industry at near the lowest interest rates recorded in this area. As in preceding months, banks are finding it difficult to obtain satisfactory borrowers for their funds due to the reluctance or inability of business men to increase their activities at this time.

"On the industrial side, manufacturers of consumers' goods failed to expand operations by the amount usual at this season, with the exception of the food trades which were featured by considerable buying in anticipation of rising prices. The heavy industries made poor showings, steel, cement, building material and similar firms experiencing declining volume.

"Local department stores made a favorable record during August, expanding their sales by more than the usual seasonal amount over July and exceeding the active month of August, 1933, by about 2 per cent. Prices of merchandise have shown little change during recent months, the number of decreases exceeding the increases, according to trade observers. July reports showed inventories of local department stores to be 8.5 per cent larger than in July, 1933. In view of the advance in prices during the year and other factors it appears that stocks are relatively low.

"In a majority of instances, suburban and rural communities in Southern California reported increased sales during August as compared with both the preceding month and the corresponding period a year ago. Sales of farm machinery, mechanical refrigerators, automobiles and the like were particularly large. Of the 25 cities from which information was obtained only five registered recessions relative to August, 1933. Improved agricultural income is advanced as the explanation of most of the gains.

"Reports from representative firms in the field of wholesale trade indicate that most lines made better showings in August than in July. Automobile tires were an exception, with business remaining relatively inactive due to the price wars in preceding months. Grocery firms, on the other hand, experienced an abnormal increase in sales occasioned by the accumulation of inventories on the part of retailers anticipating rising food prices."

### TAKE KEY NUMBERS FIRST

Many persons are acquiring new cars at this season and, in their enthusiasm over their purchases, they are inclined to put off one very important task that devolves upon the new car owner, states L. G. Evans, Director of Roadside Service of the National Automobile Club. That is the matter of taking the number of the key or keys accompanying the latest model. The task of duplicating a lost key is rendered doubly difficult unless a record of its number is kept by the owner. Many motorists discover this too late.

## SUMMERLAND NOTES

By  
NETTIE "NIEVE"

Mrs. Mary Eden is entertaining Mrs. Mary Anderson of Long Beach at her home on Hollister Street.

Miss Glenara Edwards of Santa Barbara has been visiting her sister, Mrs. Kamba Lambert for the past few days. While conducting business in Santa Barbara after taking her sister home, Mrs. Lambert had the misfortune to fall while in one of the banks. She suffered a turned ankle and broken ligament. She is resting easily at home under a doctor's care.

The Salvation Army Sunday School, under the guidance of Mr. and Mrs. Guy Libby, is growing in interest and numbers. Twenty-three took part last Sunday in the adult Bible class conducted by Dr. Oliver Hart Bronson. The Libby band is an interesting feature, the youngest Libby in the group being but six years old. He handles the big drum very competently and puts the emphasis where it belongs.

Mrs. May Lambert returned from an extended stay at Bass Lake in time to perform her duty at the polls at the recent primaries.

Mr. and Mrs. Don Searles have purchased the residence and restaurant and eight lots on the Coast Highway from Charles Miller. They are making additions and improvements on the house, which was recently vacated by Mr. and Mrs. Francis Brevard who have moved to Long Beach.

Mrs. Jessie Morales has established residence in Reno and is suing her husband, Manuel Morales, for a divorce.

Mrs. Hazel Beresford who sustained a crushed hand and other injuries recently in an automobile accident has left the hospital and is able to

## RECORD CROWD AT BEACH OVER HOLIDAY

(Continued From Page One)

some of it had been discarded before the replacements arrived. The apparatus was purchased by County Forester Frank Dunne out of County Park funds. It was also possible to have the newly widened Linden avenue crossing over the S. P. tracks open temporarily over the holiday so that it was not necessary to detour crowds enroute to the beach over Palm avenue.

be up and around. She is still undergoing treatment for the injured hand and it may be necessary to resort to skin-grafting in order to heal the injured member.

Mrs. Bertha Ople is enjoying a visit from a cousin of her late mother, Mrs. J. S. Young of Vermont. She plans on spending some time touring various points of interest in this part of the state.

Mr. and Mrs. Marshall Dunham and son, Gordon, have just returned from a week's visit with relatives at Huntington Park.

Mr. and Mrs. George Cooper will leave next week for Kern County where Mr. Cooper will be employed. Mrs. Cooper plans a short visit with her daughter, Mrs. Thelma Allenani, in San Jose before joining her husband in their new home.

### THANKS VOTERS

I wish to thank the voters of First Township for their support in the recent primary election and hope they will again accord me their votes in the final election in November.

G. A. SENTENEY,  
Candidate for Constable, First Township.

Mr. and Mrs. R. G. Bassett have as their guests this week, Mr. and Mrs. Gus Hegeman of Livermore.

## THRESHING OF BEANS WITH LEAST INJURY TOLD IN U. C. BULLETIN

Available at Farm Advisor's  
Office Reports Assistant  
Farm Advisor

Bean growers who wish to thresh their beans with the least possible injury for seed purposes should obtain a new University of California, College of Agriculture Bulletin—No. 580—from the Farm Advisor's office, says E. F. Smyth, Assistant Farm Advisor. Many types of beans have been damaged for seed purposes either during threshing or later during milling and handling operations. The lima varieties are the most difficult to thresh without injury. Damage may be either visible or internal. The latter is most serious because it cannot be detected until the seed has germinated. Injured seed produces mutilated seedlings which do not produce satisfactorily.

Cylinder speed is a most important factor in threshing damage. Where speed varied from 770 feet per minute to 1560, the total damage varied from 15% to 52%.

Where beans are being threshed

SO. CALIF. ORGANIZATIONS  
ENJOY CARPINTERIA BEACH  
Groups from two Southern California organizations were encamped at the local beach camp over the weekend. One group was from the Kiwanis Club from North Hollywood and the others were members of the Southern California Branch of the Sierra Club.

for seed purposes, it is desirable to have a 2 or 3 cylinder machine. The first cylinder, run at low speed, will thresh a big percentage of the crop. The moisture content is an important factor in the speed with which threshing machines must be operated.

High steep slides, high drops or fast moving machinery in warehouses, often contribute a large percentage of injury.
