R. H. VANCE, corner of Montgomery and Sacra-

riority of his DAGUERREOTYPES AND AMBROTYPES,

I hereby denounce all pictures taken on glass, in this City or State, and called Ambrotypes, as "bogus," and a fraud upon the public, being a miserable imitation of the genuine article.

I would say to all who have been deceived and swindled with bogus pictures, not to condemn this new and beautiful invention until they have seen the genuine Ambrotypes. They are said to be the most durable pictures known, as neither acids, water, or dampness of any kind can effect they

dampness of any kind can affect them.

EXPLANATION The term Ambrotype, by which these pictures are designated, is derived, from the Greek word Ambrotos, signifying durability, everlasting, &c. The picture is taken upon plate glass, over which is placed a corresponding glass, the two being united by an indestructible gum, enabling the picture to retain its brilliancy for area; it will not corresponding the picture to retain its brilliancy for area; it will not corre picture to retain its brilliancy for ages; it will not corrode at sea or change in any climate, is beautiful in tone, bold and clear in its effect, and may be seen in any light. Taken in miniature and life size. The Ambrotype is patented in the United States, Great Britain, and France.
