No. 15

ROADRUNNERS TO TANGLE WITH TOUGH LA VERNE LEOPARDS

By Elwood Grady

Bringing with him a squad of fifteen fast-moving Leopards, anxious to add more spots to their pelt, Coach Lee Eisan of the La Verne basketball team, will arrive in town Friday night for the tangle with the Roadrunner five at the Flying A studio.

The southern stars are headed by the talkative Weybright at forward, and the accurate tossing Thomason at center. These two boys proved the proper poison in the two-game series last year with the Roadrunners, and are expected to account for most of the points Friday night. The Leopards are not a team of individual players, however. Their first five is playing its fourth consecutive season in college competition and by this time the boys may be expected to know their way around. And they do. Anyone who watched them perform in the series last year knows that they put on some of the best basketball the studio fans ever had the opportunity to watch.

La Verne Lineup

In addition to Weybright and Thomason, the starting line-up will find Stutzman at forward, with Hubbell and Nichols at the guard positions. Eisan doesn't stick to just five men, though. In fact, he just turns those five loose and let's them go. He has a second five, using the system he brought with him from California, which he inserts into the game when he gets ready. These boys are the future Eisan teams and they are reputed to be very nearly as good as the first five.

The Roadrunners have revised their line-up to meet the Leopards, and when the referee toots his whistle, "Pinky" Greeson will be doing the jumping. "Tuffy" Treloar will be at Greeson's old place at forward. The other three positions will be taken care of by the same players who have been filling them all year. Leopard-eating Walt Barnett, who collected twelve points in the La Verne game last year, will be at forward, while Captain Imes and Hopkins will start at guards.

Student Handbook To Be Completed Shortly

The new student handbook published by the Student Activities Committee under the leadership of Wesley Dickinson will be on sale the first of the semester for twenty-five cents a copy.

The handbook, an encyclopedia of campus activities, will be filled with cuts and will be bound in a handsome imitation leather cover if present plans are carried out.

The book is being produced at a loss to the committee of twenty-two cents per copy, according to Dickinson.

Margaret Barnett's Engagement Announced

Mr. and Mrs. Arthur Barnett of 1110 Nopal street announced the engagement of Margaret Barnett to Charles Zipsel of San Francisco, recently.

Margaret is a member of the sophomore class and belongs to Tau Gamma Sigma sorority and Alpha Phi Gamma, national honorary journalism fraternity.

The young couple plan to be married sometime during June, in Santa Barbara.

NEW BUILDINGS TO BE ERECTED

APPROPRIATIONS MADE FOR NEW BUILDINGS

With the appropriation by the state legislature of funds to be used for the development of Santa Barbara State, plans are being formed for the erection of two new buildings on the campus.

For the new science building, a structure to cost approximately \$120,000, plans have already been drawn, and work will begin sometime this spring. Instructions to rush the work have, according to President Phelps, been given to the buildings. Erection of a new training school near the site of the tennis court below the elementary playground will also be started later in the semester.

At present, an appropriation of \$70,000, which will be sufficient to half-complete the building, has been made for the new training school. When finished, the building will have classrooms for work through the sixth grade.

The science building, a three-story structure, will occupy the ground where the old cafeteria stood. Its fine, modern equipment will, it is expected, rank it as one of the finest in the state. This building, as well as the new training school, it is hoped, will be ready for occupancy this fall.

Additional development of the campus is promised in the plans for a new roadway, to be built running from the Home Economics building, past the Administration building to a large parking space farther down the hill. The road will be moved out thirty feet from the building, and cut down two feet, so that the parked cars will not obstruct the view to the city.

Fifty Per Cent State Pupils Live in County

Over half the students attending Santa Barbara State are registered from Santa Barbara county, it is revealed by figures recently compiled by President Clarence L. Phelps.

93.5 per cent of the enrollment consists of students from twenty-four California counties, while sixteen states and three foreign countries are represented in the remaining 6.5 per cent.

Los Angeles county ranks next to Santa Barbara, with 15 per cent of the enrollment. Together, the counties of Santa Barbara, Los Angeles, Ventura, San Bernardino, Kern, Orange, San Luis Obispo, and Riverside, represent 87 per cent of the attendance.

The total enrollment for the fall semester, according to figures in the registrar's office, is approximately 680.

EVENING COURSES TO BE OFFERED SOON

Dr. LeRoy Stockton, former head of the education department and vice-president of the State College, is offering an evening course next semester in "Philosophy of Education." Other courses will be given in English and history.

CAMPUS GOSSIP

Thelma Graham and George Barth were married in Santa Barbara, December 24th.

Mr. and Mrs. Barth left Santa Barbara on January 13th, for San Francisco, where George will take up Forestry at the University of California. Thelma plans to enter the University next semester.

Dr. Elizabeth Bishop, head of the psychology department, held a College Aptitude Test today at the fourth hour in room 42. Students who missed the test in the fall were expected to take it at this time.

Mrs. Jane C. Miller Abraham, registrar, spent the week-end at Mills College, where she attended the meeting of American Alumni Council.

From the Dean of Women's office comes the following notice: All women students who are changing houses this semester must report to Dean Pyle as soon as possible.

Mrs. Jane C. Miller Abraham is scheduled to speak today before the Players Club. Her subject will be: "The Plays I Saw in New York." The membership of the Players Club is composed of Santa Barbarans who have taken part in any community production.

Mrs. Miller, registrar, makes the following statement: "Class enrollment record sheets go to the faculty members for final recording of semester grades today."

The last dance of the semester, the New Year's Hop, was held Saturday evening in Ebbets Hall. Only those with student body tickets were admitted. This regulation was made because of lack of room, and it is also an experiment on the part of the Social committee.

Walt Robinson's orchestra furnished the music.

ACKNOWLEDGMENT

Three errors have been called to our attention in last week's "Roadrunner." We are glad to acknowledge mistakes whenever they are called to our attention.

1. The phone number of the Elite Cleaners, 1932 De la Vina street is 26120, not 26130 as it appeared in their advertisement last week.

2. It was not fortunate that Dr. Daniels' speech was cut short for lack of time when he spoke in assembly recently, and we are sorry that this statement appeared in the paper.

3. Due to the misinformation given us by two practical jokers whose word we were accustomed to taking in good faith, a statement appeared that Walter Schott, ex '31, is the father of a fifteen months' old boy. This is untrue. Mr. Schott has informed us.

We apologize for any unpleasant situations this article may have caused and regret that any of our friends should be so desirous of playing a practical joke that they would willingly prostitute the good name of the "Roadrunner" to that end.

VIOLA PETERSEN TO MANAGE ROADRUNNER NEXT SEMESTER

CO-ED ATHLETES WELL RECEIVED

P. E. DEMONSTRATION PROVES BIG SUCCESS

A demonstration of the work covered in each of the women's physical education courses was given before nearly a hundred visitors Wednesday, January 14, in the gymnasium. The visitors present showed great interest in the work which the women have been doing this semester under the direction of Mrs. Winifred Hodgins and Miss Dozier.

Every girl taking a P. E. course at the college participated in the demonstration. This included nearly 200 girls. Maurine Moore, manager of the demonstration, welcomed the visitors and introduced each activity with bits of rhyme. There followed a truly interesting and instructive program. Girls played football, danced, clogged, did first aid work, directed airplane exercises, and demonstrated corrective gym. First and second grade activities, athletic activities of the third grade through high school, archery, beginning folk dancing, clogging, first aid, and sports were all exhibited. The program was topped off with a fast basketball game between the P. E. majors and the non-P. E. majors, the latter defeating the P. E. majors 8 to 6.

According to Maurine Moore, the organization and presentation of the program was done almost entirely without the help of instructors and each girl cooperated most efficiently. Much credit is due to Miss Moore as manager, and to the following captains: Marjorie Juleff, Meryl Adams, Helen Nauman, Dorothy Kramer, Ethel Davis, Anna Furtado, Louise Dunham, Shirley Mercer, Pearl Rieger, and Dorothy Gibson, who all worked particularly hard to make the program a success.

Outing Club Cabin Is Scene Of Sunday Toil

Enthusiasm ran high on the Outing Club's trip to their cabin a month ago. Every member was anxious to complete the cabin so that it would be of some use. Week-end before last, a work party was organized but efforts to communicate with its ambitious members failed. At any rate, five of them were rounded up, and, with a truck load of material, they journeyed over the San Marcos and up to the "cottage small." All day three of the "Egyptians" carried mortar and stones while "Pharaoh" Jacobs shaped the granite mass that is to be the fireplace. A lighter and more exacting task fell to young Larry Cudney, it was that of setting flagstones in mortar in the kitchen.

According to the president, Tom Keating, the next activity which will interest the club at large will be a trip to the Los Angeles playground on February 8th. A meeting is to be held this week to advise the members as to plans for the trip.

At a meeting of the editorial election board last week last week Miss Viola Petersen was appointed editor of the Roadrunner. She will succeed Charles Van Winkle, who has edited the paper during the semester just closing.

Miss Petersen, a senior in the education department, is well liked on the campus and her past activities and interest in journalism warrants a successful editorship.

Journalistic Experience

Miss Petersen worked on the college paper when she was a freshman. Her High School activities in journalism were numerous. As a member of the "Forge" staff, the Santa Barbara High School paper, she served as reporter, girls' sports editor, and as assistant editor in her senior year. She was also editor of organizations and class editor of the high school annual, the "Olive and Gold." At the present time Miss Petersen is acting as editorial advisor of the Tip Top, an annual magazine published by the primary department of the College Elementary school.

Other Activities

Miss Petersen's activities are not confined only to journalism. She has held numerous offices, both in high school and at Santa Barbara State College. She is a member of Phi Kappa Gamma social sorority. At the present time she is secretary of the Education Club and is chairman of one of the newly created publicity committees, taking charge of decorations, stunts, and programs for athletic events.

The election board which chooses the editors of all publications is made up of the president of the college as chairman, the head of the English department, president of the student body, presidents of the junior and senior classes, and retiring editors of the "Roadrunner" and "La Cumbre."

Publications Planning Permanent Group

The Student Affairs Committee, the Publications Committee, and Alpha Phi Gamma, national journalistic fraternity, are together formally sponsoring a movement for the organization of publications on the State campus. They have secured the services of King Wilkin, director of publications at Berkeley, in mapping out a system to be referred to the credentials committee. This movement is the result of extensive work carried on by Fred Allred, student body controller, and by Katherine Bishop, editor of the La Cumbre.

Dr. Bishop Speaks

Dr. Elizabeth Bishop, head of the psychology department, spoke on Friday to the Parent-Teacher Association of the Hope School. Her subject was "Child Development."

It's Worth Knowing:

By Barham

That Mr. William Lepage Rust, instructor in the Industrial Education department, was master mechanic of the Louged Aircraft Co. during the world war and developed the hydraulic brake for them; that he was born on board ship in India at the time of the great cyclone of 1874 and in the midst of wreckage; that he went to England at the age of five and at the same time the Suez Canal was opened; that he received his early schooling in France and at the age of twelve he was enrolled in the Dunkerque College of that county; that he speaks French as well as he does English; that he is married and has a son and daughter; that he doesn't play cards, smoke, drink, or chew; that his father wanted him to enter the navy or the church, but he was too interested in engineering; that he came to the United States in 1892 and his father started him in the cattle business in California, 30 miles from nowhere; that for three years he was head of a cattle range and then sold it to his brother and went back to engineering; that he's a good cook and likes housework; that he spends all of his spare money buying junk; that he was an apprentice to the engineering trade for 6 years in Birmingham, England; that his particular hobbies are engineering, reading, and motion picture work; that he has a private machine shop of his own and it is regarded as one of the best in California; that he has been interested in engineering for 45 years, whether, oil, sugar, or automobiles; that he just finished reading "Julius Caesar" and the "Life of Napoleon"; and that he has taught in the Santa Barbara State College for eleven years.

1123 State Street

DEPARTMENT NEWS

MUSIC NEWS

Three radio broadcast programs have been scheduled for the College Orchestra during the Spring semester, according to Mr. Clifford Leedy, director. These broadcasts are to be given in collaboration with the Aeolian Quartette, which goes on the air every Wednesday evening from eight to nine o'clock, and will consist of numbers by the orchestra interspersed by vocal numbers from the quartette. Programs have been scheduled for January 28, March 18, and May 16. The Aeolian Quartette Radio Hour is sponsored by private individuals in the community and broadcast over station K D B by remote control from the First Christian Church.

According to Mrs. Helen M. Barnett the combined Glee Clubs will present a concert in Carpinteria on the evening of February 5 under the auspices of the Carpinteria Woman's Club. The program will consist of numbers by each Glee Club, and the combined groups will present several selections. In addition to these, special features are being planned, states Mrs. Barnett. This concert is the first outside appearance of the Men's and Women's Glee Clubs, and marks the opening of their spring season.

Plans for the Glee Club tour in February have not yet been completed, reports Ben Romer, manager of the Men's Glee Club. Mrs. Barnett has announced that fourteen members of each club will be taken on the trip, but the list has not been selected. The tour is an annual spring affair, and repeat engagements are filled in the San Joaquin Valley.

BAND NEWS

"Requests for the appearance of the College Band at non-campus affairs indicate that the townspeople have recognized the band as a permanent musical organization," states Mr. Clifford Leedy, director. "We have been asked to play at a meeting of the Elks Club, and are scheduled to appear at the next Boy Scout Court of Honor." In addition to this, the band will play at every home game during the basketball season. They will provide entertainment before the game and during intermission. From all indications the band will have a full program during the spring semester. Regular practice will continue.

ART DEPARTMENT

Daisy Cromwell, social chairman of the Art Department, is making plans for a New Year's party for some time this month. The party will be a dance held at the Strollers' Club, the date to be announced later.

EDNA BLAKE MANAGES ELEMENTARY PUPPET SHOW

Marionette shows, given recently by the children of the 4B class of the College Elementary school under the direction of Edna Blake, have aroused a great deal of interest due to the fact that the children, all under ten years of age, carved the puppets out of wood, dressed them, and did all the actual performing in the shows.

During the entire first semester the children spent nearly every Saturday morning at the home of Miss Blake, carving and making the puppets. In the little play, called "What Santa Told the Toys," there were thirteen characters. Three of these, Santa Claus, the little girl, and the Jack-in-the-box, were carved entirely of wood, while the ten fairies had clay heads and fluffy chiffon garments. The stage, which was ten feet long, was designed by Miss Blake and built by the children.

Two performances of "What Santa Told the Toys" were given before Christmas, and two immediately following. An audience of about fifty, including the Educational Procedure class, elementary school children, their teachers and friends, and outsiders who were interested, attended each performance.

Next semester this same group, who call themselves the "Jolly Puppeteers" plan to put on another show, for which they will charge a ten cent admission fee. The money derived from this show will be used to pay for the expenses of the first performance.

The children who worked in the group were: Robert Corbett, Donald Petersen, Frances Murte, Doris White, Edna McCarthy, Carlyle Hull, Doris Hartfeld, Elizabeth Jacobs, Kenneth Willits, Jimmy Bullis.

Dramatics Gossip

On the evening of January 20, the Los Angeles Philharmonic orchestra will present the first of a group of three concerts at the Granada theatre.

With the price of tickets for all three concerts at only seventy-five cents, every student should make a special attempt to attend. It is only on rare occasions that in Santa Barbara we have the opportunity to hear such notable talent at a cost within the means of college students.

Kent College of Ohio, which is noted for its talented dramatic work, is constructing an auditorium and stage which, when finished, will be one of the best college playhouses in the United States.

It seems very probable that the dramatics organization will present a one-act play sometime during the early part of next semester. The funds received will be given to the benefit of "La Cumbre."

The one-act comedy, "No More Americans," which Dean Ashworth recently read to the Women's Club, is being considered as a possibility for the presentation.

It is rumored that the fourth hour on Thursdays will again be given over to student body activities. This will be a great aid to dramatics, as the scheduling of the auditorium for the presentation of entertainment at a time so that the student body may attend, has been, in the past, very uncertain.

The choosing of the annual spring three-act production is offering a difficult search. A play is desired that is not too difficult or expensive, and yet is worth while. The lack of proper stage facilities, the shortage of funds, and the lack of experience and training of many students in the dramatics group are some of the problems to be considered before making a choice.

The Community Arts drama for this week at the Lobero is John Drinkwater's popular comedy, "Bird in Hand." The play is being staged for its second time in New York.

As a final bow to Santa Barbara playgoers, Irving Pichel is to direct Tolstoy's "Redemption" before leaving for the Hollywood talkies. Shakespeare's "Hamlet" was first considered as the season's final production, but recently, the choice was changed to "Redemption."

EXCHANGES

And now the co-eds of Occidental are rushing the men of that institution. The reason is, like that of a week ago in Washington, a dance. This is an annual affair at Oxy and usually is a costume dance.

Santa Ana State has a most unique men's organization. It is called the Longfellows Club, and is for men six feet or over. The club members recently presented their second annual fashion show, when the six footers donned women's dresses and displayed the latest styles to the admiring assembly.

"Waffles" was the pass-word at Washington University the first week in January and appetites were allowed to acquire strength because of the annual waffle breakfast given the first Saturday after school started. This affair is sponsored by the various sororities and the Y. W. C. A. Campus orchestras furnished music for dancing before the breakfast and the fair co-eds cooked the meal. In conjunction with this meal a contest is held for the four best answers to the question, "Why do you like waffles?" The students who win receive their breakfast free.

The Dean of Women of Ohio State University in addressing sorority women said that girls come to college with orders not to go with men who drink, smoke, and pet, so they they develop inhibitions and fear of all kinds of men—we wonder!

From the Gonzaga Bulletin come some timely suggestions for the use of worn-out beards:

1. Use as stuffing for cushions.
2. Plugging up holes in water mains.
3. Insuring safe walking on slippery sidewalks.
4. Weaving into ropes.
5. Using as gags.

Intramural Basketball Develops Comeptition

The Intramural Sports plan introduced by Luke Trimble and Fred Allred, has taken Santa Barbara by storm! Such a lot of spirit has come to life on the campus over these brotherly brawls between the frats and departments, that the varsity is actually losing its prestige and gets no attention at all! And no wonder, for those frat uniforms put the varsity's Paris green panties clear out of the picture.

The basketball schedule is already well underway, with four games of the first round of ten already played. Boxing starts this week also.

In the first two games, Beta Sigma Chi was successful in nosing out the Tau Omegas, 18 to 14. Whitey Haberek was high point man for the losers, with 10 markers, while Hickman and Powers each scored three baskets apiece for the winners. The Independents triumphed over the Industrial Ed. Engineer bunch by a 17-5 score.

Last Thursday night, the Sigma Alpha Kappa brothers tromped over their fraternal rivals, the Beta Sigs, 22 to 10, and the Tau Omegas followed by trouncing the Industrial Ed men, 16 to 7.

Tonight the Independents clash with Sigma Alpha Kappa, follow-

ing which the I. E.'s take on the Beta Sigs.

The remaining games in the first round, and the second round events are as follows:

January 22—Independents vs. Beta Sigma Chi; Tau Omega vs. Sigma Alpha Kappa.

January 27—Industrial Ed. vs. Sigma Alpha Kappa; Independents vs. Tau Omega.

January 29—Independents vs. Industrial Ed.; Tau Omega vs. Beta Sigma Chi.

February 3—Industrial Ed. vs. Tau Omega; Beta Sigma Chi. vs. Sigma Alpha Kappa.

February 5—Independents vs. Sigma Alpha Kappa; Industrial Ed. vs. Beta Sigma Chi.

February 10—Tau Omega vs. Sigma Alpha Kappa; Independents vs. Beta Sigma Chi.

The team members are: Beta Sigma Chi—Powers, Ritchie, Stewart, Hickman, Pollard, Mahoney.

Tau Omega—Haberek, Canfield, Tubbs, Reeder, Lewis, Cutler, Davis.

Sigma Alpha Kappa—Porter, Dickinson, O'Reilly, Larsen, Thibaud, Eckhardt, Goodfield, McTavish.

Independents—Cress, Grady, De La Rosa, Lauritzen, Bradbury, Smith, King, Allerdyce.

Industrial Ed.—Polley, Schuyler, Russell, Davis, Smith, Deutchman, Kirkpatrick.

Co-Ed Sports

By "Dot" Hodgins

WOMEN'S BASKETBALL SCHEDULE

All class games have been

played with the exception of the two remaining games to be played Tuesday and Thursday.

Tuesday, 20th—Frosh vs. Seniors; Sophs vs. Juniors.

Thursday, 22nd—Selected lower division team vs. selected upper division team.

Any group of six players may challenge another group of six to play them.

BASKETBALL GAMES

The first women's interclass games of the season were played Tuesday and Thursday. The frosh and sophs opened the series of games with a tie score of 20 to 20. The juniors defeated the seniors 24 to 14.

Thursday a most exciting game was played between the freshmen and the juniors, the frosh scoring 30 against the 19 made by the juniors. In the sophomore and senior game which followed the sophs were beaten 27 to 17.

BASKETBALL TEAMS AND CAPTAINS

Women's class teams and captains in basketball have been chosen. Girls who made teams are the following: Freshman team—Lindsey, Juleff, Stevens, Ek, Larco, Longawa, Brizzolar, Davis, Gains, Bredsteen, Hardison, McCummings, Wood; sophomore team—Adams, Arnold, Wheeler, May, Perry, Donovan, Warring, Elliott, Burch; junior team—Smith, Peacock, Dunham, Chamberlain, Mercer, Moore, Rieger, Cornwall, Cicero, Reeder, Boslos; seniors—Nauman, Stout, Blackie, Furtado, Telford.

The team captains are as follows: Marjorie Juleff, frosh; Elizabeth Thomas, junior; Meryl Adams, soph; Helen Nauman, senior.

W. A. A. TO HAVE PAGE IN ANNUAL

The Women's Athletic Association, at their last regular meeting held Tuesday in the W. A. A. room, voted to have a full page in the 1931 La Cumbre publication. This page will be devoted to W. A. A. news and achievements of special interest.

FIREMEN ENTERTAIN AND

INSTRUCT HYGIENE CLASS

Fire Chief Stronick and three firemen brought first-aid apparatus, including an inhalator, and gave a demonstration for the Hygiene class last Thursday. They showed methods of artificial respiration and bandaged one another up in order to show the students how to put on splints and bandages. They even demonstrated the proper way in which to bandage a broken jaw and support a broken back.

ARCHERY TOURNAMENT

Last week marked the beginning of the women's archery tournament. All girls out for archery are participating in this tournament. Each person shoots a Columbia Round, which consists of 24 arrows at each of 30, 40, and 50 yards. Then the high marksman will shoot until cupid is found. Mary Longawa is manager of archery and has been in charge of arrangements for the tournament.

Theatres

GRANADA

The show now playing at the Granada theatre is "Free Love." with Conrad Nagel and Genevieve Tolin. It is based on the successful stage play, "Half Gods," and throws a new light on the divorce question.

Coming to the Granada on Wednesday are the famous lovers, Charles Farrell and Jeanette Gagnor in "The Man who Came Back." The story centers around a social outcast who fights his way back from the dregs of life to high society.

CALIFORNIA

Playing all week at this theatre is the famous big-mouthed comedian, Joe E. Brown in "Going Wild." The plot deals with mistaken identity, in which Joe is forced into the role of a famous aviator. It's a laugh.

ROSE

"Under Suspicion," with J. Harold Murray and Lois Moran, is a picture of the great Northwest and mounted police.

Beginning in the middle of the week is the much liked Ann Harding in "Her Private Affair." But college students are admitted.

MISSION

Beginning tonight, "Are You There." Thursday night a repeat performance of "The Lash." Saturday, "Lucky In Love," a story of Irish romance.

Books

A gift of over sixty volumes dealing with essays, verse, rhetoric, and technical phases of English composition was recently given to the college library by Dr. William Maxwell. The list follows:

Schweiker, ed., French Short Stories; Royster, ed., American Short Stories; Clark, Great Short Stories of the World; Fulcher, Short Narratives; Green, Closed Garden; Ramsay, ed., Short Stories of America; Sinclair, The Jungle; Brewster, ed., Book of Modern Short Stories; Smith, ed., Short Stories Old and New; Mirrieles, ed., Significant Contemporary Stories; Smith, ed., Selected stories from O. Henry; Swift, Gulliver's Travels; Smith, ed., Short Stories for English Classes; Dawson, ed., Great Short Stories; Tupper, Narrative and Lyric Poetry; Schweikert, ed., Russian Short Stories; Phelps, ed., Selected Stories from Kipling; Bunyan, Pilgrim's Progress; Hendrick, Life and Letters of Walter H. Page.

Neilson, History of English Literature; Van Tiegham, Outline of Literary History of Europe; Law, Modern Plays; Lieder, ed., British Drama; Dryden, Palamon and Arcite; Longfellow, Narrative Poems; Landis, Study of Poetry; Drinkwater, ed., Twentieth-Century Poetry; Mott, Reward of Reading; Goodman, ed., Creating The Short Story; Chevalley, The Modern English Novel; Mirrieles, Writing The Short Story; Barrett, Short Story Writing; Gay, comp., Narrative Structure and Style.

Maclean, Men and Books; Metcalf, Stream of English Biography; Dante, Divine Comedy, Vol. 1; Hell, Vol. 2; Purgatory, Vol. 3; Paradise; Reeves, Argumentation and Debate; Marks, English Grammar; Parker, Essentials of English Composition; Conrad, Descriptive and Narrative Writing; Beck, Prose Models; Scott, College Reading in English Prose.

SOCIETY

Hicks-Greenough Nuptials Performed

Eleanor Hicks and Fred Greenough, former students of Santa Barbara State, were married last Friday evening at eight o'clock.

The wedding was performed at the home of the bride, 720 West Valerio street by Reverend Weld, pastor of All Saints by the Sea Church. Only the immediate families attended.

Mrs. Greenough attended State during 1926 and 1927. She is a member of Alpha Theta Chi sorority. Mr. Greenough will graduate in 1931, and belongs to Beta Sigma Chi fraternity.

TAU OMEGA

At their second meeting of the new year, held last Monday night at the home of Fred Imes, the Tau Omegas elected their officers for the coming semester. George Cutler succeeds Fred Imes as president; Marty Bredsteen replaces J. "Stinky" Davis as vice-president; Cleave Hillman was retained in the position of secretary; "Pinky" Greeson was elected treasurer; Davis is the new social chairman; Al "Fanny" Wade is the new sergeant-at-arms, and Ben "Sax" Romer was chosen historian.

The new officers will be installed at the next meeting.

SIGMA ALPHAS

The Sigma Alphas held an informal house-warming last Saturday night at their new house. Everyone who attended was requested to bring a cup and saucer.

GAMMA ARETAS INITIATE

Formal initiation of the Gamma chapter of Areta, new sorority on the campus, took place at 6:30 o'clock Saturday, January 17, in the home of Pearl Slater. Seven members of Alpha Areta, University of California at Los Angeles, were present, including the officers of the chapter.

Following the installation ceremony a banquet was held at Russell's Cafe. The guests of honor were Miss Karen Andersen, sponsor of Gamma Areta, Miss Katherine Ball, faculty advisor, Miss Winifred Frye and Mrs. L. A. Ferris, patronesses, and Dr. L. A. Ferris, patron, in addition to the visiting members of Alpha Areta.

KAPPA OMICRON PHI

The regular meeting of Kappa Omicron Phi was held in the home of Miss Jenny Lind on Pedregosa street. Election of officers and other important business was taken up.

ARETA, GAMMA CHAPTER

The new sorority Areta has announced their sponsor and patrons. Miss Katherine Ball was selected for sponsor. Dr. and Mrs. Ferris, Miss Edith Leonard, Miss Winifred Frye are the patrons. The sorority also have selected their Pan-Hellenic representatives. They are Miss Alma Shackelford and Miss Corrine Bush.

By Danny Britton

Boy, howdy! About the only thing that gives you a dumber feeling than an aptitude test is being an Egyptian mummy, and, gee, after that display of dumbness, to soak you a dollar for the privilege of taking that old rot, is as bad as waking the poor Egyptian mummy up and telling him his taxes are delinquent.

These profs get a doctor's degree in something or other, then they come around trying to find out what benefit the A. W. S. teas, school dances, and other intellectual movements have done us.

They probably discovered a spider and its family on Edna Rich Morse's picture and took the picture down to see if the select environment had helped the spider's I. Q. any. They probably have it figured out that the bass tuba players in Cliff Leedy's Filharmonica orchestra have a higher I. Q. than the drum players because they have to reach so much higher for their notes.

Well, it's like little May Toad sez: "You may can tomatoes and pop guns, but you can't slaughter houses." No, sir, and little May Toad ought to know; didn't she discover Doc Maxwell climbing through the window when Dean Pyle playfully locked him out? And wasn't she peeking through the keyhole when a cat in the physiology lab caught on fire and Bob Winters grabbed the cat by the tail and swung it round and round until the fire got dim and went out?

The student-faculty cooperation idea is good—it is worth serious consideration, but trying to get cooperation around here is like trying to get that same Egyptian mummy to do the Charleston—and that reminds me of an act I saw once.

In a teachers' institution where the students are preparing themselves for the teaching profession and naturally take their professors as examples of what the good professor should do—the faculty should feel free in accepting the criticisms of themselves or of their methods. After all none of us are infallible—but just try and get one of my bull frogs to turn a back flip.

And Have You Noticed

1. That every time Anna Furtado wears her black coat she is headed toward L. A.?
2. How much weight the steam rollers from the I. E. dept. and locomotives from the independents lost after the basketball game the other night?
3. That Bob Winters is slowly getting over his bashfulness?
4. That Lester Blount has a new car?
5. How many fellows are speaking to the girls from Gamma Areta sorority? Formals n' things, you know!
6. That Doc. Ellison has been wearing one tennis shoe to class?
7. That a certain Prof was peeping through the window while his class was taking an ex?

World News

KILLED BY SNAKE IN SOUP

Forty students in the London Mission School at Erode, India, died a few minutes after they had eaten their midday meal. About 15 others became seriously ill. Later a venomous snake was found in the utensil in which the soup for the meal had been prepared and it was learned that the soup had been poisoned by the snake. Among those who died was the student cook who prepared the meal.

SOVIET MOVIES SUPERIOR

George Bernard Shaw stated in a public address that Soviet Russia produces moving pictures far superior to those produced by Americans and their British imitators. "I don't know whether it's possible to make Hollywood blush," he said, "but I am quite sure it's impossible to make Hollywood's British imitators blush. When we see Russian films and remember that never for a moment have they had to fall back on that last refuge of decaying art, sex appeal, we wish we could make arrangements for the Soviets to come here and take charge of our educational affairs."

"ARTIFICIAL EYE"

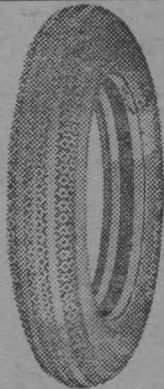

The development of an "artificial eye" capable of penetrating the fog that is the nemesis of present day flyers is predicted by Thomas A. Edison. "Thus far," says the wizard of science, "We have converted sound into light and light into sound. There is no reason for our not being able to solve the artificial eye."

GHOST WORLD IN SPACE

Sir Oliver Lodge, England's noted exponent of spiritualism, likes to make things spooky. His latest is that space (the wide open places all around us) is filled with spirits of all kinds but we just haven't the material means to see them. Listen to Sir Oliver: "I think that space is pulsating with life and mind."

STONE THAT BENDS

The National Academy of Sciences at Philadelphia is exhibiting something different in stones. It has a slab of (believe it or not) flexible stone to interest curious visitors. The exhibitors describe it as honest-to-goodness, genuine, stone, but (strange as it seems) it can be easily bent without breaking. It will even bend of its own weight if one picks it up by the two ends. This queer stone was obtained in Brazil.
