Suspects in Videotaped Sexual Assault, Kidnapping Enter Pleas

Police Arrest, Charge Eight Males With Four Felony Counts in Local Case

By REBECCA TUREK
Staff Writer

Eight suspects have been arrested in connection with the videotaped kidnapping and assault of a male 19-year-old UCSC freshman during a party on September 15, 2000 at an apartment on the 6600 block of Trigo Road.

The Santa Barbara Sheriff’s Dept. began the investigation after an anonymous source gave a copy of the videotape to an officer at the Isla Vista Foot Patrol station on June 4, and the IVFP turned the video over to the Sheriff’s Major Crimes Unit.

On June 8, suspects Matthew Blessing, Patrick Mueller, Charles Anderson and David Rhodes were arrested in I.V. Sheriff’s Dept. Lieutenant Jim Peterson said Blessing, Mueller and Anderson lived in the Trigo Road apartment, and Rhodes is a San Diego resident who was visiting at the time of the incident.

On Tuesday, June 12 ... the suspect Scott James Carter, 19 years old, was arrested during a vehicle stop after he left his residence in Lompoc, California,” Peterson said. “During the time of the assault, Carter was a resident of Isla Vista, however not at the Trigo Road address – he was not a student.”

Powy resident Adam DelaPaz, was arrested in San Diego on June 20. Gregg Singer, a San Diego resident, was re-arrested at the San Diego Police Locate Bank Robbery Suspect Hours After Crime

Forty-year-old Terry Ray Hornbeck was arrested on Monday, June 25, three hours after stealing over $18,000 from a Carpinteria Bank.

Hornbeck entered the bank on Carpinteria Avenue at approximately 9:30 a.m. with what appeared to be a handgun and demanded money from two tellers. Santa Barbara Sheriff’s Lt. Jim Peterson said. Hornbeck was fleeing northbound on Highway 101 in a blue Cadillac when an officer spotted him near Hope Avenue and took up pursuit. Hornbeck exited on Patterson Avenue and fled into a nearby residential area, Peterson said.

Repairs the vehicle crashed into a private driveway on the 1100 block of Vista del Rey. Hornbeck fled into an adjoining orchard. A Sheriff’s Dept. helicopter lost sight of him when he hid in a creek bed. A bloodhound transported to the scene located the suspect in a tree. Hornbeck was detained “without incident,” Peterson said.

Deputies recovered the cash and a BB gun from the suspect’s vehicle, which police believe was the gun used in the robbery. Hornbeck was transported to the Santa Barbara County Jail, where he is being held on $250,000 bail for two counts of armed robbery. His arraignment has not yet been scheduled.

County Funding To Fix I.V. Roads, Beaches, Sidewalks

By MARIS LA GOS
AND REBECCA TUREK
Staff Writers

They say that the road to hell is paved with good intentions, but good intentions — will pave the roads of Isla Vista.

Beginning this summer, Santa Barbara County will spend close to $2 million on Isla Vista improvements: to repair streets, build sidewalks and refurbish beach access ways. In April 2000, the County Board of Supervisors approved approximately $1.1 million from their 2000-2001 budget for the resurfacing of 18 I.V. thoroughfares including the majority of the 6600-6800 blocks, the Embarcadero loop and El Colegio Road. The improvements are slated for completion before July 2002.

On June 19, 2001, the board approved another $785,000 to repair the remaining seven roads, repair and add side-walks, rebuild beach access ways and fix plumbing problems on Sueno Road.

Mark Chaconas, Third District Supervisor Gail Marshall’s executive assistant, said the board also approved $21 million to be divided up among UC officials. That is, until now.

UCSB, UCLA and UC Berkeley — the three campuses targeted by the UC Office of the President to increase summer school attendance — are at record enrollment figures this summer. This year, the state allocated $13.8 million to the UC budget, with an additional $21 million to be divided up between UCSB, UCLA and Berkeley.

“Those three campuses are taking the lead in expanding summer instruction because they face the most significant physical growth constraints,”
congratulations class of 2001!!!
New Vice Chancellor Will Begin Tasks

The UCSB Search Advisory Committee has appointed Sandra Drabik to the position of vice chancellor of administrative services after conducting a national search. Drabik has been the vice president of administrative services at the University of Toledo in Ohio since 1999. She also served on former Ohio Governor George Voinovich’s cabinet for several years.

Drabik will take office in the middle of July. “I am very excited to have been selected for this position at UC Santa Barbara and I look forward to the opportunities and challenges that a dynamic institution offers,” she said. “I’m eager to meet my new colleagues and begin working with the entire campus community.”

Members from the Search Advisory Committee chose Drabik because of her experience working with budgets. She also served on former Governor George Voinovich’s cabinet for several years. Drabik will replace former Vice Chancellor of Administrative Services David Sheldon.

Librarian Honored for Dedication

The Association of College and Research Libraries (ACRL) awarded UCSB Librarian Sarah Pritchard with the Career Achievement in Women’s Studies Librarianship Award on June 18. Pritchard was chosen because of her advocacy for feminist issues and women’s studies. “We are very proud of Sarah and pleased that her important work in this field has been recognized in such a major way,” Chancellor Henry Yang said.

Pritchard has worked at UCSB since 1999. Prior to that, Pritchard worked at the Library of Congress from 1977 to 1990. She has authored approximately 40 articles and reviews. At the American Library Association Convention in June, Chair of the ACRL Marlene Mandell described Pritchard as a valuable contributor to the field of women’s studies librarianship. “Sarah Pritchard has been and continues to be a voice for women’s studies librarianship,” she said. “She is a forceful advocate for women’s studies librarianship, and a articulate supporter of feminist concerns both within the ALA and beyond.”

UCSB Library To House Latino Art

The California Ethnic and Multicultural Archives (CEMA) will receive archives of Latino Art from the last 30 years from the El Centro Cultural de la Raza, which preserves Latino art and provides a space for cultural theater performances and dances.

The center started off as an abandoned building in Balboa Park but has since filled beyond capacity with arts and crafts and literature. The new collection will include slides of murals and other art as well as videos.

Is There Something Wrong With the News-Press?

The Local Paper Has Distorted, Ignored Facts During Its Moralizing Crusade To Give Isla Vista a Bad Name

Wednesday, June 27, 2001

The most visible problem with Isla Vista is the Santa Barbara News-Press' coverage of it. In a series of biased and erroneous stories, the paper has portrayed our town as a swill bucket brimming over with danger, drunken degenerates.

A lot was missing from these stories about I.V. Facts, fair comment and other basic tenets of journalism were checked at the News-Press' door this June.

The worst article, "Isla Vista: Has Someone Seriously Wrong in This College Town?" (Dawn Hobbs, News-Press, June 16), blames I.V. and its "raunchy party scene" for every tragedy and brawl in the last six months. Every person with a beer cup is responsible for David Attias allegedly killing four people with his car, two people falling off the cliffs and dying, fistfights, and the torture and sexual abuse of UCSB students.

Accordingly, statements were never supported, contradictory facts were ignored and sources were not cited.

Another News-Press story was about Jane Akre and her "spate of recent assaults," it should have been mentioned that most of the suspects were from out of town, not Isla Vista. That means, out of town perpetrators committed most assaults in I.V., former Foot Patrol Lieutenant Barth Arnold frequently drilled this into all of us.

The News-Press did not report for almost nine months and many people forgot if it's all true. The News-Press could have pointed out the police. The News-Press could have looked for similar instances. The News-Press did not report these things and the point went unproved.

The article quotes him saying, "The university needs to make a major effort in keeping their commitment with law enforcement."

"Huh? It would have been far more appropriate to quote Arnold or Bichram. But then, they might have supported the News-Press pre-ordained truth.

Serious crime in I.V. declined last year. It's been declining due to better enforcement. Also, 18-to-23-year-olds are allowed to drive, vote and serve in the military. The law even considers them adults.

If adults, even young ones, need supervision, the News-Press should have shown why.

That would have been journalism.

The Low Down

BioBoring 2001: Hippies Mount a Lousy PR Campaign

"It's a shite state of affairs. Burbah - a shite state of affairs.

Burbah, my wingman, scanned the thousands of empty seats in Balboa Stadium. "I knew," he said.

After reading the pathetic article portraying Young as a weak, vacillating and ineffective bureaucrat. Why?

"Because, according to the News-Press, UCSB should punish students for actions outside the school."

The News-Press did quote Fire Captain Michael Young, "it's not our fault."

Unfortunately, it quoted him talking about an experiment involving rats and "unsupervised, you're not accountable to anyone."

Beyond the redundancy - if you're unsupervised, you're unsupervised, you're accountable to no one - there's the fact that people are unsupervised because they're accountable to the law.

As a university, UCSB is responsible for students, and I.V. is a part of the law. Young's column never said students can do anything they want.

I went to San Diego last weekend for a little cargo, a little vengeance and some gross abuse of civil rights.

Every 2 minutes a mass jumbo jet screamed its way up to the sunny Starlight Bowl and agreed. Two TV journalists fired for publicly proving GHQ-imposed media presence - paused for the jumbo jet screaming and then continued with their story.

The patrols crowd applauded when Jane told them they are going slowly broke.

Lack of sun makes Fox News appeal the verdict. Alex and his legion of idealistic journalists who tried to do real news on TV, were the highlight of an otherwise desperately boring day.

Sunday's police-planned march along the permitted route during the permitted times had all the spontaneity of a decaying turd.

And yet, the News-Press did no supporting of this, nor was it mentioned that UCSB. Yet the News-Press had no sources for this.

"It's a shite state of affairs. It's a shite world."

It seemed like an ideal time to enter an area and zone the permitted times had all the spontaneity of a decaying turd.

There was a long list of problems.

Sunday's police-planned march along the permitted route during the permitted times had all the spontaneity of a decaying turd.

Burbah and I didn't stick around until Sunday. We exercised our journalistic judgement at around 5 p.m. and got the hell out of town. The whole thing was a gas, film, energy and time.

After reading the pathetic news coverage, I went to San Diego last weekend for a little cargo, a little vengeance and some gross abuse of civil rights.

Every 2 minutes a mass jumbo jet screamed its way up to the sunny Starlight Bowl and agreed.

Court To Sentence UCSB Senior for Felony, Misdemeanor Convictions

BY LADAN MORENZAI
Staff Writer

Senior biopsychology and art studio major Slade Giles — convicted on April 30 of felony possession of less than one ounce of psilocybin, commonly known as hallucinogenic mushrooms, and a misdemeanor charge of possession of fireworks without a permit — will be sentenced June 27 in Santa Barbara Municipal Court.

On December 6, 2000, Santa Barbara County Sheriff officers served a search warrant to Giles’ apartment on the 6700 block of Del Playa Drive to investigate the rape allegation of a 19-year-old UCSB student. Officers originally searched the premises for gamma-hydroxybutyrate (GHB), known as a date rape drug, but instead found the mushrooms, fireworks and a plastic pipe the Sheriff’s Dept. Major Crimes Unit believed to be a pipe bomb. The bomb squad was called in to detonate the pipe, which was filed to be empty.

Though the original allegation was withdrawn after the search, a number of other women filed sexual assault reports with the Ida Vista Foot Patrol. Sheriff’s Dept. Lt. Mike Burridge said Giles was not charged with rape (Psilocybin is frequently charged as a felony. In this case, it was charged as a felony because there were some allegations of possible sale or furnishing involved.)

— Gordon Auchincloss, Deputy District Attorney

because none of the alleged victims wanted to participate in the prosecution.

“None of the victims have followed through with charges or have taken part of the investigation,” he said.

Giles pleaded “no contest” to the felony charge of possession of a controlled substance and misdemeanor charge of possession of fireworks without a permit, but was not charged for the alleged sexual assaults because the Sheriff’s Dept. did not forward information about them, said Deputy District Attorney Gordon Auchincloss.

“[Psilocybin] is frequently charged as a felony. In this case, it was charged as a felony because there were some allegations of possible sale or furnishing involved,” he said.

County Jail, where he is in custody for unrelated charges. Peterson said the eighth suspect, Joshua Burns, turned himself in to the Santa Barbara Sheriff’s Dept. on June 19 upon the advice of his father.

The suspects were all charged with kidnapping, administering alcohol, or drugs to commit a felony, battery with serious injury, administering alcohol or drugs to commit a felony, and theft.

On June 13, Mueller, Blessing, Anderson, Mueller, Carter, and Rhodes are currently free on bail. The Daily Nexus could not obtain the pleas and statuses of DeLaFuente and Singer at press time.

Anderson pleaded not guilty on June 14, and Burns pleaded not guilty to his charges on June 22. Blessing, Anderson, Mueller, Carter, and Rhodes are currently free on bail. The Daily Nexus could not obtain the pleas and statuses of DeLaFuente and Singer at press time.

PG&E found that full spectrum lights have “important non-visual effects on students who are exposed to them on a regular basis,” including increased academic performance.

The suspects posed with and apparently took still photographs of the unconscious victim,” Peterson said. “The couch containing the victim was moved to the middle of the street. Then food, beer and trash items were poured and thrown onto the victim while he was unconscious on the couch.”

On September 16, 2000 at 4 a.m., Isla Vista Foot Patrol deputies found the victim passed out on the couch, Peterson said. He was transported to Goleta Valley Cottage Hospital and treated for an alcohol overdose. The Sheriff’s Dept. attempted an investigation, but due to his high level of intoxication, the suspect had no recollection of the events that occurred.

Mark Chaconas, assistant to Third District Supervisor Gail Marshall, said that this incident was not indicative of Isla Vista as a town.

“Unconscious victim was [then] dragged to an exterior enclosed laundry room and left in a sitting position, flat on his stomach with his face flat down in a pillow,” he said. “While in the laundry room, the victim was disrobed of all of his clothing [and] urinated on.”

Peterson said the video then shows a hose and a cloth “placed against the victim’s buttocks” while the victim was displayed to people attending the party. The suspects carried the victim outside and laid him on a couch located in the parking lot of the apartment complex.

“You need to look at [previous years’ IVFP crime] figures — the arrest statistics have been flat or going down for serious part one crimes, and assault have been static,” Peterson said. “I’m not going to say it’s at all symptomatic of a greater problem.”

ENROLLMENT

Continued from p.3

UC spokesman Brad Hayward said, "There are a couple of pieces to this: First is we receive funding from the state to reduce student fees to the level of the rest of the year for all campuses beginning this summer. The second piece is the state is now beginning to provide support for the actual instructional program during the summer, starting at these three campuses, and we would expect the other campuses will follow in subsequent years, beginning next year."

UCSB enrolled over 7,300 students this year, its largest summer session ever, Summer Sessions Director Loy Lytle said. Lytle attributed the boldest numbers, up 1,600 from last summer, to lowered average unit fees, an eight-unit fee cap, increased courses, more courses offered with latter faculty, and one million new dollars of financial aid.

"There are a record number of courses; we have 625 courses, which is double of almost double the number of faculty that taught last summer." Lytle said lowering the cost of summer school was the primary reason for the large draw.

"In previous summers, student fees supported the summer. The reason we can reduce the fees is the state is willing to pay the increased numbers of students," he said. "So the reason why the state is starting to fund the summer is they believe for many students who choose to go year-round, they can earn their degrees quicker, and if they can earn their degrees quicker, then you can accommodate more students that way."

UCLA reflects similar numbers. Summer Sessions Director David Unrath said this is the largest summer enrollment the school has seen, with 35 percent more students taking and 60 percent higher productivity (units taken) compared to last year.

"The total for us today is about 12,500. Last year when we finished at the end of summer it was just at 10,000 even," Unrath said. "We will continue to grow; we have a second main session that starts in August. We will probably get another 1,000 to 2,000 students between now and then."

In terms of total head count, it's not much larger than it was eight or 10 years ago, but in terms of UCLA and UC student involvement and participation, it is significantly ahead of previous years. UCLA and Berkeley each have more visiting students than Santa Barbara tends to have, and so the number of visiting students has declined slightly while the number of UCLA and visiting UC students has increased and each of these is taking more units, so that contributes to the expansion."

UC Berkeley, which has five different sessions over the summer and typically enrolls 60 percent of the undergraduate class in the summer program each year, also shows heightened head counts, Berkeley Summer Sessions Director Gary Penders said. As of June 23, there were 16,084 enrolled students, compared to 12,808 last year, according to Penders.

"I think there is sort of a safe psychology this year, at least at Berkeley. It’s almost like summer session is the flavor of the month. It’s like this is the year everyone decided to take a break and party with Woodstock’s Pizza!!"

Continued from p.3
"go to summer school," he
said.

Though Riverside
didn't boost the number of
available summer courses
or latter faculty teaching
them, enrollment has sig-
ificantly increased— from
2,409 last year to over
3,500 this summer— due
to lower unit costs, accord-
ing to Kathy Sathornkich,
Summer Sessions admin-
istrative assistant at UC
Riverside.

Lytle said the success of
next year’s summer pro-
gram is contingent on
money allotted in the state
budget, which will likely
be signed by Gov. Gray
Davis in July.

REPAIRS
Continued from p.1
$16,000 from the 2001-2002 budget for
the resurfacing of Storke Road from
Phelps Road to El Colegio.

"Storke is an area we didn’t finish
before," he said. "Between the roads we’re
doing this year and the other seven,
we’ll be completing the rest of the I.V.
streets within this funding cycle. ... Gail
wanted to make sure there was a signifi-
cant amount of money going into side-
walks as well."

Of the $787,000 approved this year,
$100,000 will be appropriated to beach
accesses.

"The problem is that the old ones are
made with wood," Chaconas said. "We’re
going to do the new one’s with stainless
steel, which doesn’t corrode, and will have
holes to allow the water to pass through."

The streets funded in 2000— including
Del Playa Drive, Camino Pescadero and
Camino Corto— which have not yet been
worked on, will be resurfaced as the
Public Works Dept. schedule allows.

"The $1.1 million from last year—
those contracts are just now on the streets.
Sábado Tarde Road is done, and the
Embarcaderos are done. The crews are
coming down the South Coast and pick-
ing up streets [to resurface]," Chaconas
said.

Scott McGolpin, Deputy Director of
Transportation, said the majority of the
I.V. street repairs will consist of "overlays"
of about two inches of asphalt on the cur-
cent surfaces, an easy repair.

"The board of supervisors decides
which roads get resurfaced. They don’t do
a ‘worst first’ philosophy; they choose the
roads they think they can save doing min-
imal repairs," he said.

According to McGolpin, the roads
that are re-paved will be closed off for one
day.

"We’ll post ‘No Parking’ signs days in
advance," he said. "When we paved
Sábado [Tarde] there were about 90 cars
towed. Unfortunately, in I.V., people park
their cars and don’t come back for a cou-
ples days. Hopefully, people will keep an
eye on their cars and what streets are
going to be paved."

Chaconas said this year’s funding was
appropriated entirely out of county
money, while last year the board used
both state and local allocations.

"The bottom line is we’re getting a lot
of roads done because we haven’t had nat-
ural disasters... We’re finally out of that
storm system of the early nineties and
able to use funds on resurfacing roads
instead of for emergency projects," he
said. "Gail has consistently focused on
doing good things in Isla Vista, and this is
one of the ways she’s able to make a posi-
tive influence.

"The materials were outstanding.
The teachers were both
knowledgeable and entertaining.
I will recommend this course
to my friends."

-Scott F.

$1400 a year. That's about what you spend if you smoke a pack a day. Two packs a day, you could go backpacking in Europe. Spend it in good health.
A public service announcement from the Drill Nexus.
You may have noticed a lovely story about street re-paving on the front page of this fine publication. In the spirit of that story, we at the Daily Nexus respectfully ask that you not light discarded furniture aflame. It melts asphalt, smells bad, releases deadly toxins into the atmosphere and may, in a horrible over-populated disaster, spark a Chicago-like fire. (Since, to our knowledge, there are no cows in I.V., Mrs. O’Leary will not be to blame for this inferno.) If you burn a couch you will further scorch the reputation of a much maligned community. Let that sit on your conscience. Asshole.

Today’s Birthday: June 27. There’s something about your home that’s not quite right, something that’s been nattering at you in your mind. This year you can fix it, or get a lot further in that direction. You can force the place you’ve always dreamed about to do as you wish, and then make it a home. Start by clearing the decks and dumping out a pile. Once you’ve made a decision, the universe will help you achieve it.

To get the advantage, check the day’s rating. It’s the essence of the most challenging.

Aries (March 21-April 19) - Today is a 5 - In a way, things are getting better. Somebody’s coming to your rescue this time.

Can you lean back in the passenger seat and let somebody do the driving? Even together, you won’t get far. On your own, you’re going nowhere. Gradually acquire all the skills of a whiz driver, keep your eyes on the road, and listen to the advice of others. You have more finances to look at than were necessary. Why so prissy? You’d rather be up front, that’s why. Schedule something special for Friday night and Saturday. Let yourself get creative. Have an impromptu picnic.

Grendel (May 23 June 21) - Today is a 6 - If you should soon see the light at the end of the tunnel, only a couple more minor frustrations, and you’ll be there. Here are some choices. Measure those times and cut more, and pretend there’s not enough to go around.

Cancer (June 22-July 22) - Today is a 7 - You may be slowing down just a bit. Don’t plan anything huge for tonight or tomorrow. Leave everything if you will be too appreciated. Be grateful.

Leo (July 23-Aug. 22) - Today is a 4 - You could get a chance to increase your income. It could mean having to play by a new rule, which doesn’t sound bad. The tough part is that it’s something you don’t think you can do. Get past that, and you’ve got it made.

Virgo (Aug. 23-Sept. 22) - Today is a 4 - You can figure out how to make the operation profitable. Now, you can only do the others to listen to your advice. Start by juggling those into giving you a sense. They’ll also give you more respect.

Libra (Sept. 23-Oct. 22) - Today is a 5 - Check your work and make sure everything is in order. There’s no future for you. Take the advice of those around you. They may have opinions, but that’s all they can do. You must figure it out for yourself.

Sagittarius (Nov. 22-Dec. 21) - Today is a 5 - You can figure out how to make the operation profitable. Now, you can only do the others to listen to your advice. Start by juggling those into giving you a sense. They’ll also give you more respect.

Capricorn (Dec. 22-Jan. 19) - Today is a 7 - The true you is coming now. This is when you can convince an older person, poise, a player or a boss, that you deserve more money. Don’t be impostor. Wait until the time is right. The other person will see what’s coming. It’s a step in the process. You’ll see it as a much better step in the future. Partial payments will work on some things.

Drilled Banana & Toasted Pecans
Topped with grilled bananas, lite whipped cream and toasted pecans.

YOUR DAILY HOROSCOPE
By Linda C. Black
**SUMMER**

**Continued from p.3**

CEMA Director Sal Guerra said the donation has been discussed for 16 years. "Acquiring and preserving the archives of this center was extremely important to us," he said. "The collection documents the inception and evolution of the Chicano visual arts movement in Southern California, and it uniquely captures the dynamics of the U.S.-Mexico border culture in a way that nothing else does."

**Fields Forever Lives On**

Baring a Gov. Davis line-item veto next week, Santa Barbara little leaguers will be $2 million closer to stopping their baseball diamonds from becoming tract homes.

On June 23, California State Senator Jack O’Connell did a $2 million allocation for the development-threatened Girsh Park into the 2001-2002 State Budget. If passed by Davis on July 1, the allocation will help to purchase the $4 million baseball fields.

Girsh Park has been home to the Dos Pueblos Little League for over a year and went on sale for $6 million in the spring. Park owner Mark Liebman said he would sell the park at a $2 million discount to the Girsh Park Foundation if they raised half of the money by October 31.

"Fields Forever" — a community fundraising group created to save the park — has already secured over $1 million in funding from the Goleta Valley Land Trust and Santa Barbara County, and has been working with O’Connell and 35th District Assemblymember Hannah-Beth Jackson on an allocation of this type.

**Body Found at Campus Point**

The body of a 40-year-old male was found on the beach at UCSB Campus Point on June 21. The deceased, Timothy Robert Enem, was a resident of Santa Barbara and diver for sea urchins.

A couple discovered Enem’s body around 5:40 a.m. on June 21 and attempted CPR, but were unsuccessful. According to the Sheriff’s Dept. report, Enem had no obvious signs of trauma and his clothes were dry. An autopsy found that he died of natural causes due to a pre-existing heart condition.

**Goleta Armed Robbery**

On June 18, at 3:12 a.m., a male suspect with a gun stole an undisclosed amount of money from the Goleta Mobil Gas Station, located at 4801 Hollister Avenue.

The suspect approached a station attendant and pointed a black, semi-automatic handgun at the victim. After obtaining the cash, he fled on foot around the west side of the store.

Santa Barbara Sheriff’s Dept. deputies responded to a call from the attendant, but were unable to locate the suspect.

The victim described the suspect as a 20- to 25-year-old Hispanic male, approximately 5’11” and 120-125 pounds. According to the Sheriff’s Dept, the victim said the suspect covered his face with a handkerchief during the robbery, and was wearing a dark crewneck sweatshirt with a pink or white stripe on each sleeve, and baggy stone-washed jean shorts.

Anyone with information regarding the incident is requested to contact the Sheriff’s Dept. at 681-4100.

Phelps took the MCAT...
Phelps DIDN'T take The Princeton Review...

Phelps is Pissed!

Did you know that you could miss 4 weeks of the Princeton Review MCAT course and still get more proctored exams, more instructors, more materials, and more instructional hours?

<table>
<thead>
<tr>
<th>Kaplan</th>
<th>The Princeton Review</th>
</tr>
</thead>
<tbody>
<tr>
<td>What is your total amount of practice materials?</td>
