An ocean mystery.

Once more the gush of sound, Struggling and swelling from the heaving plain, Thrilled a rich peal triumphantly around, And fled again.

O boundless deep! we know Thou hast strange wonders in thy gloom concealed, Gems, flashing gems, from whose unearthly glow Sunlight is sealed.

That thus the watery realm cannot contain
The joy they breathe? Emblem of glorious might! Are thy wild children like thyself arrayed, Strong in immortal and unchecked delight, Which cannot fade?

Alas for human thought!
How does it flee existence, worn and old,

Of finer mould!

Caera tan per- La coquetterie est un déréglement de l'esprit. enseñarles el camino del cielo. dido como siempre. Esto da origen a la La femme coquette se fait hair. cuestion, ¿que se hará con Mexico?

Pero si es dificil decidir lo que se debe hacer, requiere muy poca sabiduria para determinar lo que no deberia hacerse. Cuando el pueblo de los Estados donde reina la esclavitud miran hácia el sur y ven la posibilidad de anexar Mexico a los E. U. es el deber de todo el pais considerarse bajo alguna combinacien de circunstancias si tal medida seria buena.

Incapaz de desembarazarse de las dificultades de su situacion, inepto por el caracter de su pueblo para instituciones republicanas, como no posee ni uno entre sus ambi ciosos gefes que sea bastante fuerte para tener las riendas del gobierno con una mano firme, y sujeto a sus rivales, y asi darle por falta de otra cosa mejor, el reposo del despotismo, es imposible quedar insensibles a las desgracias de nuestra republica hermana. El embarazo de su situacion da un pretexto plausible para interferencia extrangera, y el enagenamiento de su territorio en pequeños pedazos, o la adquisicion de todo de una vez, se considera por nuestros amigos del sur como uno de los eventos que tendran lugar en dia no muy distante. Pero sentimos que no han pesado, ni estimado los peligros de una tal afiadidura a nuestra republica Creemos que acabara con la decadencia de nuestras instituciones.

Expresaremos algunas de nuestras razones. Las mismas causas que han cooperado para que el republicanismo se sofoque en Mexico, operarian con doble fuerza si se enagenara este pais. Mas de la mitad de su poblacion consiste de indios, y una grande porcion de sangre mestiza. La historia demuestra que ninguna raza negra civilizada es capaz de mantener instituciones libres Una gran porcion de la inteligencia y riqueza de Mexico, pertenece al clero Catolico, y en todo el pais hay mas de diez mil frailes. Estos naturalmente desaprueban todas las instituciones republicanas, y tienen mucha influencia en los sentimientos de la clase ignorante. Los plantadores o propietarios de las haciendas son de sangre española; pero los desendientes de los orgullos Castellanos, jamas pueden existir en una republica libre.

Si algun dia Mexico se enagena a este pais vendra bajo la condicion de territorios o Estados. Pero una y otra institucion significa bajo nuestro sistema, el ejercicio de todos los poderes de un gobierno libre. Ellos,

son incapaces de este; y estos gobiernos territoriales o de otro modo, serian la escena Por el Padre Francisco Javier Clavijero de constantes cabalas politicas. Coquetas y Coqueteria. LABRUYERE.

Es la coqueta, mujer Que pasa alegre su vida, Procurando ser querida Y no pensando en querer Si uno llega a pretender, Nunca de si lo rechaza, Pues sabe, con linda traza, Dejando a todos iguales, Recibir los memoriales Y no proveer la plaza.

Es de todos la mujer,-Entiéndase la coqueta; Ella imita a la veleta En variar de direccion -¿No has visto aquella morena De ojos uegros y vivaces, De tranquilidad rapaces Y tambien del corazon?

Pues mira: guárdate de ella, Es hipócrita, traidora; Y si su faz te enamora, Te separa su desden: Amor no encierra su pecho, Pues amor no es de coquetas--Que jugar á todos tretas Forma para ellas su Eden.

Agradar de toda laya A todo ser masculino, Es de coqueta el destino, Y tambien su maldicion; No conoce ella el afecto De un amor ardiente, intenso; Solo la place el incienso De una falsa adoracion.

Una coqueta es el viento, Que á todo: dalce acaricia; Es un pozo de avaricia,-De avaricia en el amor... Jamás ama la coqueta, Quiere parecer amable, Y es en ella tan inst b'e El placer como el dolor.

Alucina la coqueta, Mas al fin es de preciada, Porque tan solo es amada La muger que sabe amar. Es la coqueta remedo De nuestra atmósfera incierta, Que solo es constante y cierta En su continuo variar.

Mas! pobre de la coqueta! Tanto cambia y rueda tanto, Hasta que viene su llanto A impedir su rotacion; Y entónces .. cual la veleta Por la humedad carcomida, Tendra que acabar su vida Inservible en un rincon.

Y fin de tanta gambeta, El tiempo le hará saber: Que es de todos la mujer Cuando se vuelve coqueta... J. M. TORRES CAICEDO. Historia de la Antigua o Baja California.

La audiencia escribio al virey manifestandole las razones que habia para emprender de nuevo aquella expedicion y para esperar su buen exito si era encomenlaba a los padres de la Compañia.
