**GIBBY IS ELECTED NEW CAPTAIN OF FOOTBALL.**

Gibby Martin, stellar end on this year’s football team, was elected for the coming season at a meeting of the Monday morning of the charter members of the journalism club being organized on the campus. Jack Smith was unanimously chosen as editor, and Floyd Kennedy, and Josephine Black tied for the position of secretary-treasurer, Kennedy withdrawing because of Minnie Black. Marie Cochran and Adele Miles automatically became first and second assistant-treasurers respectively.

Miss Miles will also have the office of Social chairman, while Franklin Anderson will be publicity manager for the club. Dr. Maxwell is the faculty sponsor for the club, Dan Britton will work with the Social committee, while Clifford Weiser, Merton Harlow, and Cliff McEwen will head the membership committee.

Art Department Has Pep Committee

The art department, this meeting Tuesday, planned many social events for this semester and for next year. The dinner dance will be given at Margaret Baylon Inn in December. A Christmas party will also be given.

Edward Brown, the social chairman, found it necessary to resign. Marion Osborne was elected classman and assistant-chairman.

**Pep Committee Sells Tickets.**

Tickets will be on sale today and will be collected by the Pep committee. Gene Harris will have direct charge of the ticket campaign to be carried on for the raising of money to pay for the stickers.

“Buy a sticker and advertise both yourself and your school,” was the advice of Gene given out for the students who are going home for Thanksgiving.

**DEBATING TEAM IS CHOSEN BY FORUM.**

The debating team of the Forum club was chosen this week with Benjamin Martinez as captain. The other members are Elizabeth Deshorm, Althia McCullough, and Mary McEwen.

The first debate will be held on Tuesday, November 29. The topic will be, “Resolved, That the H. L. Mesereau School of Thought endorses American ideas.” The affirmative and negative teams have not been selected. Dr. Max well has been invited, and Marion Keep has charge of the debating department of the club.

Further notice of the coming debates will be scheduled later.

---

**FURNITURE FOR NEW BUILDING DELAY OPENING.**

Opening of the new Administration building for next week, was indefinitely postponed this week when equipment for several parts of the structure failed to arrive. The final date is not decided.

Hardware for doors, which must be specially made, and motors for the elevator system, have not made their appearance as yet. Furniture for the library will be delayed further beyond delivery, coming from Buffalo, N. Y.

Work of installation of the telephone system, the clock and gym systems, and the heating connections, is being completed at the present time, according to President Phelps. A change in the water mains and the pressure involving considerable labor and time has been necessitated.

---

**PICTURES ARE TAKEN OF THE ADMIN. BUILDING.**

A picture of the new Administration building is being sponsored by the American Architectural association to be photographed in the near future by Contractor McDonald and Driver. Pictures from contracts building in various parts of the country are received in each contest announced, and from the best are chosen a few prize-winners. These are finally judged by a committee of visitation.

McDonald and Driver recently won two prizes with a church and a club building. It is hoped by the administration to have Santa Barbara State represented by such an honor, which is based entirely on beauty of architecture.
A SOLUTION FOR ASSEMBLIES, RALLIES

THERE seems to be, in this college, no interest taken in the assemblies and rallies. Is it because the assemblies themselves are boring? It is thought not, though it might have been that the one assembly attended and by which all others are judged, was less interesting than the average.

It is because those who take part in entertaining are not interested? That might easily be, because the mood of an actor, of a storyteller, or of the speaker, is usually the reflection of the mood of his audience.

The yelling that one hears as one is at the games or elsewhere is due to the excitement engendered in the minds of the students either by the enthusiasm of the leader and rivet the easily diverted attention of college students. It seems to be the fashion to cut rallies and assemblies, but it seems to be a fashion that is due for re-examination. Excitement and interest are infectious, contagious. They would slip away if one or the other were missed, then it would be the fashion to scorn the one who would desist to refuse to attend a rally or assembly.

The Freshman Day Assembly was a record breaker. Why? Because the students knew that there was going to be something that would entertain, that is what makes all class day assemblies better attended than others.

Amusement is not a necessity, but entertainment it is. "They wedded, though parted." That paradoxical statement is especially true.

Who is brave enough to make a part of the audience in that they are there physically but not spiritually—D.C.

NOTHING EVER HAPPENS HERE

ONE of the most common remarks heard on this campus is: "There is nothing ever happens here." If this be true, the assemblies and rallies are boring. This article was written in a northern college paper, but its contents could well suit the Santa Barbara campus. The person who previiously and disgustedly wails the lack of things doing is the very one who does nothing and can do nothing because of his blindness and deafness to the things that are vital.

"Aw, hell," says the dapper but bored collegian as he flips the ash tray with a cigarette, "I'm going to a regular school next year. Nothing ever happens here.

In a vacant room on the second floor a youth is poring over a book. The book is pretty hard reading, he finds, it would be hard for anyone who had never heard or seen a word of English until a year ago. Far away, in a little village near Ojai, his brother is teaching the K.C.B. It is four days before the big game. Yes, it is a big game. Of course, it will not burn up the Associated Press wires and Grant Land. But never mind the rest of it. But, nevertheless, the men who are preparing for it can think only of victory. It is yelling that makes throats husky and there is only one kind of fighting spirit.

The son of the laborer adjusts the microscope, never before has he seen an amoeba, much less heard of one. He decides that the night he and the fellows sneaked out to see the blacktop show was not quite the ultimate in human experience, and features in the upper and oil varnish—at least for the moment.

The collegian slacks back his hair with his hand; he adjusts his necktie and is all set for a large evening at the Palais de Terpichore. "Nope, nothing ever happens here.

Nothing ever happened because he was not interested in things that made happenings. The youth learned English and returned to his people with his knowledge. The thought of victory came from the other team for the home men. The laborer learned new thoughts and new inspirations from his glimpse of the lovely amoeba. And yet, according to the college Beau Brummel, nothing ever happens here.

The Freshman Day Assembly was a record breaker. Why? Because the students knew that there was going to be something that would entertain, that is what makes all class day assemblies better attended than others.

Amusement is not a necessity, but entertainment it is. "They wedded, though parted." That paradoxical statement is especially true.
THE EAGLE

U.S.C. Sophomores Have Official Togs

U.S.C., Nov. 19 — (P.L.P.) — Sophomore students at the University of Southern California have adopted an official sweater to distinguish them from members of other classes. Women, as well as men, will wear the sweaters, as it is claimed that the texture and colors of these garments have been designed especially to please feminine taste.

In addition to the sweaters, there has been some talk of the Sophomore men adopting the exclusive use of blue dungaree pants.

Mrs. Madeline Consall Am­brose, a member of Delta Phi, is active in the matter. There has been some talk of the Sophomore men adopting the exclusive use of blue dungaree pants.

Winfred M. Frye, president of the Santa Barbara Business and Professional Women's Club, said at a meeting of the southern district federation held at Santa Barbara Saturday, that the entire southern part of the state was represented.

SANTA PAULA MEET ATTENDED BY FRYE

Winfred M. Frye, president of the Santa Barbara Business and Professional Women's Club, said at a meeting of the southern district federation held at Santa Barbara Saturday, that the entire southern part of the state was represented.

Following the business meeting at 4 p.m. a tea and reception was held at Glen Tavern. At 5:30, dinner at the Santa Paula Union High school, was served to more than 200 club members. Following the banquet a splendid program was given.

The Business and Professional club of Santa Paula was the host, controlled in the generosity of its hospitality and gracious friendliness, according to Miss Frye, who was unscripted in her admiration.

STUDENTS HAVE ANOTHER TRIAL AT APT. TESTS

On Tuesday, the 25th of this month, an additional aptitude test was given to those students who did not make a satisfactory factory score on the first College Aptitude test, will be given an opportunity to try again.

It is believed that the selection of the first or second attempt at this kind of a test, a student is either too uncertain or overconfident, or failing to see the reason for taking the test at all, does not really try to make a good showing. In any of these cases, the score he makes does not really represent his actual ability, nor his true relative position in his class. In the second case rating is recorded until the student has been given ample opportunity to show his real ability.

First Outing of Art Students Fun

A beach party winner bake- off, the first social affair of the Art department yesterday at Mrs. Croswell's beach hut at Orella del Mar.

Over thirty people were present, including art students and their guests. The judges (Mr. and Mrs. Barbosa) win­nered the menu while Maude Bob­man and Parian Osborne had charge of the entertainment.

Reid Hollingsworth and his or­chestra, Mr. and Mrs. Peters, Wilbur Thornbury, Paul Thornbury, and Miss Cash and Miss Nygren, who is the manager of the Art department, will be present.

The Art department will be in charge of the entertainment.

Berkeley Men Peeved

Up at the State university at Berkeley the men students, be­scape with incongruities of their col­lege, complained that the girls were daffy and not wearing such decorations. When the matter was looked into, however, it de­veloped that the girls wore no fewer than a dozen dresses there really isn't any place for college insignia, so that the charge went flat.

"If call my girl Ketchup, 'cause she's pure, but artificially colored."
