There is almost an endless list of factors which can contribute so surely to the stifling of growth—whether it be of an individual, an institution, or a nation—as that of apathy and indifference. I recognize the problem in almost an perfect ratio with these two negative factors.

The above is a faint truth which can be verified simply by reading today’s book. It is indeed regrettable then that such an apathy of apathy and indifference is perverted so many to the detriment of another and our own, somehow, no exception.

If one remains here long enough he begins to feel that the activities of campus life are not being held together to the very glue of continuation. We are no longer interested in the past, but the present.

A rather nebulous state on this campus is an organization whose avowed intention is to rectify that wrong, to strike at the roots of our apathy and lethargy, to foster in the students a spirit of a better atmosphere and to carry on our continued growth in the face of current national and international affairs. This organization is the National Students Association.

It aims best be quoted by directly from the preamble to its constitution: “We, the students of the United States of America, are conscious of our role in the protection of our liberties and of our duties to our country and our students, and as a result, we may stimulate and develop better educational standards, improve student cultural, social and physical welfare, to promote international understanding and fellowship, to guard against all pacts of race, color, creed, political or economic status, to foster the recognition of the rights and responsibilities of students, and finally, to be able to preserve the interests and integrity of the government and constitution of the United States of America, do hereby establish,” etc.

The group, if activated, will seek to operate on three levels: student, campus, and national. It will be the project of the group to make students aware of all the programs and needs in those fields, to make a determined effort to come to an understanding of these issues and to attempt to come to some solution.

At next week’s Student Council meeting, two students from this campus will give a report concern the California-Neveda-Hawaii regional held at Berkeley recently, and perhaps appreciate the way that this organization can do on the American college campus.

Last meeting was open to everyone. It is interesting to see how just students react when they hear the snap of their informant is aumbled.

People remaining in a somewhat fixed environment tend to live in a rather small world. It is this manner of life that we are all prone to pursue.

But since Thanksgiving is in the immediate offing, it seems like a good time to give thanks for all the people who have been with us. Some of these friends were a part of our lives only for a short period of time, yet they left a lasting impression.

Gaucho Gridders Prepare for Big Game After COP Slaughter

By Geo. F. Outland

Still burning from their humiliating 46 to 0 defeat at the hands of the College of the Pacific Tigers, the Golden Gauchos grid squad enters this week's game against San Diego State Saturday evening. They face the Aztecs in La Playa Stadium at 8:15.

The Aztecs defeated Cal Poly 21 to 14 last weekend, and so the same club which the Gauchos dumped 15 to 19 the week before. When State played COP earlier in the season in San Diego, they fell before the Tiger onslaught 41 to 14.

Fourth Place Now

The Gauchos, San Diego State and Cal Poly are now in a three-way tie for fourth place in the 2C2A conference, and although the games this weekend will have no bearing on the winner of the league, they will definitely affect standings. Should the Gauchos defeat COP State and COP house frenemies Muir State, then the Gauchos would move into a tie with FSC for third place in the conference—the first time they've been in the upper division.

The State team has not an en- tire record this season. They have won from Belland, Pepperdine and Cal Poly, and lost to Santa Barbara High, Lomita, Fresno State and San Jose State. The Gauchos' season check-list reads: four victories, three losses and three ties.

One Touchdown

In the COP fiasco, it was the灵气 to whom the ball went. Even the Tiger fans, who re- ceived the afternoon games, the play-offs would be in the last game played, Sigma Phi Epsilon knocked off the Muirites 19-7, as George Snyder, and Quentin Sims scored once on a short drop pass over the Muirites, and thus won the last game played. Sigma Phi Epsilon scored twice in the game, while the Muirites failed to score on their two touchdowns.

The Gauchos' pass defense, so effective against Cal Poly, held the Muirites down to 13 points for the game, keeping the score 13-6.

Previously, Sig Ep had defeated the Muirites, Kappa Sigma went out in front of Del- ta Sigma Phi, and thus went into the Intramural Touch Football playoffs for the conference championship. On Wednesday they had defeated a strong Dog- ger House aggregation by a score of 14-6 on a touchdown pass from Malnafy to McCarthy, and a 22 yard run by Bob Smith. The Dogger House score was made after a 30 yard run by Bob Smith and a 13 yard run behind effective blocking.

In the win,sig Ep had a 1-point advantage in the Muirites, Kappa Sigma went in front as Bob Smith began the opening kick off for a touchdown. The game was over many minutes earlier. Fred Bahl connect- ed with the first of four touchdowns, twice to Barr and once to McCarthy for three touchdowns, and then scored the ball through the goal post for points, and thus finding McCarthy in the end zone for the extra point.

In the second game on Thursday, Dogger House played heads-up with the Golden Gaucho, and 40

Santa Barbara College today chulked another step up in its advance to nationwide recognition. Acting Provost J. Harold Williams reported that United States Civil Service Commission had extended full recognition to this college, as an institution of higher learning, as required by the law. Dr. Williams was informed of this action in a letter from C. F. Wilson, Executive secretary of the Central Board of Civil Service Examiners at Denver, Colo.

“In view of the information that degrees are now conferred upon graduates of your college by the Regents of the University of California, you may be assured that all possible credence will be given to students at your institution in examination by this Board,” Dr. Williams relayed in his announcement. Thus, the College in determining eligibility and advancement to nationwide recognition.
