## \$100,000 Appropriated For Enlarging State's Campus

### APPROVAL OF SENATE AND GOV. NEEDED

Land, Gymnasium, Field and Swimming Pool To Be Added

Passing a bill for the appropriation of \$100,000 to purchase land for Santa Barbara State college, the State assembly provided for an enlargement of the campus to twice its present size, according to President Clarence L. Phelps.

Sponsored by Assemblyman George R. Bliss, Carpinteria, the appropriation bill gained unanimous approval in the assembly ways and means committee while bills of a similar nature failed. Before the appropriation is a certainty it must be approved by the senate and the governor. In an interview Monday morning President Phelps stated that the unanimous support of the ways and means committee and the approval of the assembly gave favorable indication of the bill's passage.

The money is to be provided for the purpose of adding to the campus land and facilities for a new gymnasium, girls' play field, and swimming pool. Plans for the proposed buildings have already been made by the state board of architecture, and a sketch sent to President Phelps shows that the Spanish style will be carried out.

(Continued on Page 2, Col. 5)

### STATE ENTERS SWIM IN SAN PEDRO HARBOR

Taking part in the first Southern California Intercollegiate Breakwater Swim at San Pedro harbor, outstanding paddlers of twelve colleges and universities are scheduled to compete in a one-mile race at Cabrillo Beach on May 15 under the sponsorship of the Los Angeles Playground and Recreation Department, the University of Southern California, and the Red Cross.

The event, which has been staged for two years as a U. S. C. swim only, will this year have entrants from U. C. L. A., Loyola, Occidental, Pomona, Caltech, Laverne, California Christian, Whittier, Redlands, San Diego State, and Santa Barbara State. A total of 35 entries have been received to date for the swim, with 200 expected to participate when the race date arrives.

Buster Crabbe, last year's winner, and Mickey Riley, runner-up, are to compete again, together with Oscar Simmons, captain of the Trojan swimming team, and other well known stars. In addition to the winning trophies, however, medals will be awarded to all who finish the swim, giving a larger number of competitors a chance for glory.

In order to furnish protection for the entrants, the Playground Department has agreed to station twenty boats, manned by municipal lifeguards along the race course, which lies just inside the harbor lighthouse. A second will accompany each swimmer, walking opposite him along the breakwater.

### SCIENCE STUDENTS VISIT CATALINA ISLE

Thirty-five members of the Zoology and Botany classes made an excursion to Catalina Island Saturday. Leaving the Wilmington pier at 10:00 a. m. the S. S. Catalina arrived at Avalon at noon.

Out of the many attractions that Catalina offers, the glass-bottom-boat ride was of chief interest. This boat patrols the coast about a hundred feet from shore passing over marine gardens and various types of sea life.

After spending the afternoon riding, boating, inspecting the bird farm, and enjoying the casino the students left for the mainland at 4:00 p. m. on the S. S. Catalina. While entering the Los Angeles harbor a great portion of the United States battle fleet could be seen. The boat docked at 6:00.

Through the generosity of Mary Smiley and her parents the group ate lunch at their home in Redondo. Mr. Wells, instructor of science at S. B. S. C., played the piano for entertainment.

Ending the day with a few amusements at Venice the students arrived in Santa Barbara near midnight.

### A. W. S. To Entertain High School Women

The A. W. S. will be hostesses to the High school senior women at a tea to be given May 23 in the college dining hall. At the last board meeting, plans and committees were arranged with the following chairmen: Program, Petty Procter; invitations, Phoebe Steer and Jean Wood; publicity, Carmie Janssens; food, Margery Johnson; serving, Jeanette Taylor; decorations, Shirley Mercer; properties, Edna Blake; clean-up, Norene Cave. This tea is an annual affair given to interest the local seniors in the activities of the Associated Women students, and is one of the nicest affairs of the year.

Clowns paint their faces to create laughter, and Indians paint theirs for some unknown reason — as do many otherwise beautiful young girls.

### ORIGINAL COMPANY FROM GERMANY TO GIVE PASSION PLAY

One of the biggest productions ever presented in Santa Barbara will be the Freiburg Passion Play, to be given here, Thursday, Friday, and Saturday, May 28, 29, and 30. The original Freiburg Company of Germany is making its first tour of America, and is being brought to Santa Barbara under the auspices of the Santa Barbara State college.

The huge stage production is to be given in the College Court, chosen as the best place in the city by a representative of the Freiburg Company. The stage will be built out from the cloister in front of the entrance to the Art Building. The pool in the center of the quad is to be boarded over to allow seating for 2,000 spectators.

The college is under contract to furnish a twenty-piece orchestra, a chorus of sixty voices (to be taken from the Glee clubs), and seventy-five students for the mob scenes. The Freiburg Company itself, directed by Adolf Fassnacht, who also portrays the "Christus," includes a cast of fifty. Besides an enormous cast and superb acting, the production will feature stupendous scenes and lighting effects.

The price of the seats for the Passion Play will range from fifty cents for students to two dollars for the best reserved seats. Tickets will be on sale either at the college or the Santa Barbara Music company after the eighteenth of this month.

### ROCKWOOD IS DECKED IN NEW MODE FOR HOP

The "Modernisque" dance was held Saturday night at 8:30 o'clock in Rockwood Inn.

The decorations were balloons and various forms of colored paper arranged in a modern manner from the chandeliers. The programs were silver and black.

Virginia Weber, social chairman, was in charge, and was assisted by Betty Higbee, Stuart Thompson, Shirley Mercer and Elizabeth Peacock.

Dr. and Mrs. William Maxwell and Mr. and Mrs. S. F. Werner were patrons and patronesses.

### REPORT BY MRS. PRICE ON TRIP TO SAN DIEGO TOLD IN MEETING

Mrs. Laura Specht Price, head of the Elementary Education department of this college, who attended the Teachers Training Conference at San Diego two weeks ago, talked about her trip to members of her department last Thursday at the departmental meeting held in the auditorium. Among those present at the San Diego conference, were U. S. commissioner William John Cooper, and State Superintendent Vierling Kersey.

Mrs. Price told of her visit to the San Diego State college training school, where she attended an academic demonstration of the new building, which was erected last February. She took special note of desk features, etc., which might be of some value in drawing up plans for our new elementary building. She was greatly pleased with the large

### 'THE TRAVELLER' CHOSEN BY CLUB FOR ISLAND TRIP

"The Traveller," a 42 foot launch, has been secured for the annual island trip which is to be sponsored this week-end by the Outing club. The boat provides for only 75 people which necessitate making immediate reservations.

Final plans have been announced by Miriam Smythe, treasurer of the club and chairman of the ticket sales. The boat is to leave Santa Barbara harbor at 12:15 p. m. Friday and will return about dark Sunday night.

Ralph Johnson will act as main chef and kitchen patrol duty will be shifted to all members of the party.

The club has provided for all luggage which is left on the steps of the Quad before 9 a. m. Friday to be taken care of. All other luggage must be attended to personally.

Suggestions from the club concerning provisions include plate, cup, knife, spoon, fork, plenty of blankets, camera, bathing suit, change of clothing, and other personal articles which might be needed.

### PLAY IS GIVEN BY CHILDREN

Marking another event in the dramatic history of the College Elementary school, the intermediate department presented the "Makers of America" last week. Aside from the value to the children in fixing facts of history, the play was well worth while as a project in which children carry out both executive duties and the actual work themselves.

The play was divided into episodes with a different background for each scene. Mrs. Florence Lyons, art supervisor, devised a clever bit of work in this scenery by having it painted on unprinted newspaper in a series and fastened to a set of standards holding the framework. The back curtain was dropped to meet these and the result was an unusually effective background. Each episode had a student director who planned the scenery, directed the action and wrote the dialogue.

The most popular scene was the (Continued on Page 2, Col. 6)

Rose Greenwell and Richard Cooper who have been appointed to edit State's publications next year.

### CLASS DAY BANQUET PLANS IN PROGRESS

The annual senior banquet is scheduled to be held in El Paseo, on the eleventh of June, at 8 P. M. As this banquet comes at the end of the seniors' life, it is of course the main event of the year for them.

Seniors may obtain their reservations now at the co-op store, and after May 18, tickets will be on sale to the lower classmen who may reserve their seats through the seniors. The price will be one dollar per plate.

The complete program for the evening has not been definitely planned, but it promises to be a most interesting and entertaining one. The five members of the senior class who are to propose toasts have already been chosen.

Members of the Class Day committee are: Doris Rodehaver, Fred Greenough, J. C. Lewis, Rachel Burns, Mrs. Barnett, Dean Ashworth, Llewellyn Goodfield, Florence Thacker, John Davis, Margaret Wilson, Helen Nauman, and Dean Pyle.

### Kindergarten Work Will Be Initiated

Assurance that kindergarten work is to be given this summer and fall was given at the meeting of the Elementary Education club held last week. This field of work has been in demand for a long time and is now a sure thing. Mrs. Price and Miss Leonard have worked very hard to make it possible and are the directors.

(Continued on Page 2, Col. 1)

### GREENWELL AND COOPER ARE TO DIRECT STAFFS

Appointments Made At Publications Meeting On Tuesday

Appointments to the editorship of La Cumbre and the Roadrunner were made Tuesday at a meeting of the publications committee.

Rose Greenwell, '33, and Richard Cooper, '34, received the appointments.

The publications committee is made up of the present editors of La Cumbre and the Roadrunner, president of the A. S. B., presidents of the senior and junior classes, head of the English department and president of the college. In the absence of President Phelps, Miss Hazel Severy sat as proxy. The junior class president was not present.

Publications at Santa Barbara State do not employ a system of promotion on their staffs, and while senior control is maintained by many to be desirable, it is not established. Appointments are made upon the suggestions of members of the committee and the merits of the candidates.

Rose Greenwell, who is secretary-elect of the A. S. B., is at the present time assisting the editor of organizations on La Cumbre. She is society editor of the Roadrunner and a student of journalism.

Dick Cooper, present managing editor of the Roadrunner, has a great deal of professional experience which will be invaluable in the edition of the paper. Two years as sports writer and schools editor on the Morning Press staff have equipped him well for the position.

### LEONARD NOW CONTRIBUTING TO MAGAZINE

Edith M. Leonard, supervisor of the Primary Department of the Elementary School, has edited a series of articles in the American School Board Journal taken from her master's thesis "The Selection of Teacher Personnel." Miss Leonard received her master's degree from Claremont College last year and is publishing articles from her thesis. The one on "Personal Equipment of a Teacher," is a valuable source of information for prospective teachers.

Personality is indefinable, but it consists of those characteristics which make the individual pleasing or unpleasing, effective or ineffective in his social relations. There is a question as to whether it is native or capable of being cultivated. Miss Leonard says, "A pleasing personality, which is more to be desired than physical beauty, may to some extent be acquired, but time, thought, effort and will power are necessary." The elements of personality are general appearance and address, speech, versatility, reliability and integrity, imagination, health, emotional control and elements of leadership.

## GRADUATES OF SPRING, SUMMER TERMS LISTED

The following are the names of the June 12, and July 31, 1931 graduates. If you are to graduate on one of these two dates and your name does not appear on the list, kindly notify Mrs. Jane C. Miller, registrar, at once.

June 12, 1931

**Junior High School** — Norval Caywood, Dudley H. Buck, Nellie Larson, Charles Ritchie, J. David Watson.

**Home Economics**—Vera Bowen, Mary K. Camp, Theodora Corey, Ruth Gordon, Jocelyn Kelley, Frances Leech, Jennie Lind, Eleanor G. Olsen, Marie Stiber, Bernice Smith, Florence Thacker.

**Industrial Education** — John Davis, Wilbur Day, William Ezaki, Lewis Fleckenstein, Oswald Higgs, James Howell, Fred Imes, John Jacobs, Merl Jaynes, Ralph Johnson, Fred Olson, Lovell Pagegeot, Carl Shoemith, Ray Dean Walker, J. Parks Blodgett.

**Art**—Lyllis Blackie.

**English**—Dorothy Cronise, Doris Rodehaver.

**History**—Llewellyn Goodfield.

**Physical Education**—Anna Furtado, Maiden Stout, Margaret Wilson, John C. Lewis.

**Elementary Education** — Elizabeth Adams, Eleanor Barnes, Rachel Burns, Charlotte Faris, Alice Izant, Edna Knott, Louise McNamara, Doris McCallister, Marie Miller, Marian Miller, Helen Nauman, Ethel Olson, Pearl Ogle, Zelma Parker, Elizabeth Pomeroy, Viola Petersen, Dorothy Robison, Miriam Smyth, Mildred Smyth, Rose Telford, Virginia Weber, Rosamond Young.

July 31, 1931

**Elementary Education** — Neva Gilmore, Mae Edwards Gilbert, Sarah Virginia Holbrook, Florence (Glen) Izant, Marian Lloyd, Helen Webster, Virginia Weber.

**Physical Education** — Norval C. Fast, Cecil Hickman.

**Industrial Education**—Bert Clemore, John Howard Nevins, Vernley West Tice, Walter Stewart, George Cutler, Joseph Louis Fraga.

**Home Economics**—Alma Shackelford, Beatrice O. Webb.

**Art**—Frederick G. Greenough, Stanley V. Miller, Valentine F. Toland.

**Junior High School**—Norval C. Fast, Howard J. McKibben, Alice J. Sonnesyn.

## Kindergarten Work to be Offered Here Next Year

(Continued from Page 1, Col. 4) rectors of the new department. Students taking this work are requested to check and program with Mrs. Price on their requirements since some courses are given only in the summer. Mrs. Price asked that those who teach next fall be the first to see her about their programs.

A nominating committee is to be appointed to present candidates for next year's officers to be elected at the last meeting of the year.

The surest way of not making good is to be afraid you won't.

## Sig Alphas Choose New Officers For Coming Semester

At a meeting of the Sigma Alpha Kappa fraternity held Monday night the following new officers for the coming semester were chosen. Wesley Dickenson, president; Archie Way, vice-president; Pat McCullough, secretary; Bernard O'Reilly, treasurer; Larry Cudney, corresponding secretary, and publicity; Walter Barnett, sergeant at arms, and Emmett McTavish, social chairman.

The retiring officers are: Llewellyn Goodfield, president; Ned Porter, vice president; Stuart Thompson, secretary; Lovell Pagegeot, treasurer; Everett Brown, sergeant at arms, and Wesley Dickenson, social chairman.

The office of corresponding secretary and publicity agent is new this year.

## Home Economics Sorority Takes In 6 New Members

Six new members were taken in Kappa Omicron Phi, home economic sorority, at a formal initiation held in the colonial room of the home economics building Monday evening, May 4.

After the initiation, the new members were guests of honor at a dinner in El Paseo.

The new members are: Norene Cave, Wilda Brodie, Catherine Frankforter, Geraldine Griffin, Helen Banker and Astrid Clingwood.

## Several Alumni Attend Delta Zeta Delta Meeting

Delta Zeta Delta sorority held their meeting at the home of Jean Nielson on Arrellaga street last Monday night. The following alumni were present: Isabel Vaughn, Jeanette Birnie, Mrs. Sherman Ludke, Mrs. Gene Powell, Laura Middleton and Jean Nielson.

Jean has been attending the University of California for the past year and returned home for the summer only last week.

## Former S.B.S.C. Students Home for Summer

The following students from the University of California, who have attended State, are home for their summer vacations:

Isabel Vaughn, who graduated from California this semester; Jean Nielson, Elizabeth Schauer, Laura Lou Houghton, Helen Cooley, Allan Ottley, former editor of the Roadrunner; William Raulston and Grace Shorkley.

However good they may be others' ideas are worthless unless you build them into your own character.

## DELTA SIGMA EPSILON FORMS MOTHER CLUB

Members of Delta Sigma Epsilon honored their mothers last Sunday with a luncheon at Ebbets Hall after attending the Unitarian Church in a group. The observance of Mother's Day is a tradition of the sorority.

Instituting a new part of the sorority, an initiation ceremony took place in the afternoon in the Faculty room, which formed the mothers into a club. This club is to meet and function for social purposes and the purpose is to give the mothers the benefit of meeting each other and keeping in touch with the sorority as well as with the active members. Those who were initiated were Mrs. A. J. Young, Mrs. W. Wood, Mrs. Thacker, Mrs. Izant Mrs. Jones, Mrs. L. P. Houghton, Mrs. H. Damerel, and Mrs. Adams. Guests at the luncheon were Mrs. L. Meigs, Mrs. M. Sager, Mrs. W. B. Byron, aunt of Helen Furby, and Mrs. B. Harlacker.

## Radio Dance Holds Sway Friday Eve

Lowell Washburn was hostess to several guests at a dancing party at her home on Islay street last Friday night. Exceptionally good radio music and a perfect floor made for a delightful evening. The dancers were refreshed by the serving of cold drinks throughout the evening, followed at its close by delicious cakes and coffee. On the guest list were Fran Leach, Helen Nauman, Margaret Mathias, Betty Thomas, Evelyn Sims, Elizabeth Casaroli, Irene O'Leary, Audrey Moore, and Doris Rodehaver; Pim Deutschmann, Tom Keating, Ted Reeder, Doug Kirkpatrick, Dick Waterman, Dave Larsen, Fred Lauritzen, Everett Brown, Albert Cochran, Mario Casaroli, and Paul Hylton.

## Course In Debating May Be Offered Next Year

Dr. William Maxwell, head of the English department, says that if an instructor can be obtained and the students show the proper interest, a course in debating will be offered at State college next year. Cal Christian, Whittier, and other Southern California colleges, have debating teams, and if enough students enroll, State will be able to enter a team in competition with the other schools.

No man can afford to "don't care."

## Primary Department Will Present "Queen Titania's Court"

"Queen Titania's Court," a festival which is being rehearsed by the primary department of the college elementary school, is to be given for the A. S. B. Thursday, May 21 at the regular assembly hour.

In deciding for whom the festival should be given the following statement was made by Kenneth Roberts, president of the primary council, "I think we should give the play for the college, because the college does so much for us."

The play was written and is being directed by two women of the education department, Pearl Slater and Mrs. Clotilde Ferte Miller. Mrs. Helen M. Barnett, supervisor of music in the department, wrote the music which is being used in the production. Mrs. Florence Lyons, art supervisor, is directing the construction of the scenery.

## College Students To Take Part In Unitarian Play

State college students will take prominent roles in a three-act comedy, "Her Step-husband" by Larry E. Johnson, which the Goodrich Club of the Unitarian Church will present May 22 and 23 in the church auditorium.

William McDavid, as Gerald Niles; Theodora Corey, as Mary Marshall; and Walter Wilkinson, as Harvey P. Marshall, lead the cast, while Avery Towle, as Limpy Lannigan; Loren Meigs, as Officer Shea; Eva Towle, as Miss Emily Paisley; Patricia Holmes, as Florence Ainsley; Dot Cronise, as Stella; and Isabella Bradbury, as Sylvia Allen, give them adequate support.

The production staff consists of Howard Bradbury, business manager; Miss Virginia Bell, director; and Mary Louise Dye, costume manager.

So many college persons get the idea that to appear dignified they must wear faces without smiles.

## STATE MAKES BIG PLANS FOR BETTERING S. C.

(Continued from Page 1, Col. 1)

Several locations are being considered, but college authorities have made no definite decisions concerning the campus addition. As no adjoining property is available, it will be necessary to secure land apart from the present site, but plans for future consolidation will govern the choice. The state department of education and finance have expressed a preference for a vacant lot located about one block north of the college.

Two projects for the improvement of the present campus are also under consideration of state officials. Plans for the widening and straightening of the road along Mission Ridge include a flagstone sidewalk bordering the college property from the hotel to the front of the Administration building and extending from there to the Mission on the opposite side of the boulevard. An underground pass instead of a crosswalk at this point is favored by the Riviera Mission Ridge Improvement association. Members of the state board of education and finance have agreed to support a bill for the appropriation of half the expense by the state legislature. Recently the state gave a strip of college property to the city for the purpose of widening the boulevard.

After the completion of Mission Ridge Boulevard the main entrance to the college will eventually be up the hillside to the Administration building, instead of the present walk leading to the quad. A bus stop will be provided at the crosswalk and the hillside terraced from there to the building. The state board of architecture has submitted a drawing of the project, and these plans will be carried out when funds are available, President Phelps stated.

## Historical Play Is Presented By Elem. Education Dept.

one in prison in which Oglethorpe, Tony Gunterman, took the most industrious prisoners to become members of his colony, Georgia, in America.

Peter Stuveysant, played by Eleanor Crawford, proved a fiery leader of the Dutch in New Amsterdam. She provided an additional cause for humor by poking her head around the curtain and hissing at the curtain closer who had failed to pull the curtains.

Susan Whittemore, who took the part of an English gentleman in the scene with Charles II, became Betsy Ross in the next to the last episode and was a most gracious lady. Realistic reproductions of the flag made the scene effective. The play closed with representative flags surrounding the American flag and the entire cast singing the Star Spangled Banner.

Acknowledgments are due Miss Dorothea M. Peterson and Mrs. Helen Barnett for the teaching and supervising of the music; to Mrs. Gladys Felger, Ethel Hudson, Louise Dunham, Mildred Chamberlain, Ella Cornwall and Mrs. Hodgins for the dances; Mrs. Florence Lyons and her helpers, Alice Izant and Dorothy Mae Gibson for the scenery, and Miss Nettie Maurer who supervised the entire production. The play was an example of activity work which can be carried on with children.

## ROADRUNNER CINDERMEN TAKE GOOD LOYOLA TEAM INTO CAMP

### STATE TRACKMEN ROLL UP HIGH SCORE IN MEET

Placing in every event, tracksters of Santa Barbara State easily copped the dual meet with the Loyola Lions at Peabody Stadium last Saturday. With a deluge of first and second places, the Roadrunners rapidly piled up an impressive lead, and with the finish of the last event had accumulated a total of 87 1-2 points to their opponents' 43 12, and had hung four new school records on their belts.

The affair started auspiciously when Johnny Eckhardt galloped around the oval to crack the record in the one-mile run by one and one-tenths seconds. He was pushed hard all the way by Chet Tubbs, who took an easy second. Walter Barnett turned in the stellar performance of the day by winning both hurdle races in record time. His time of 15.7 in the highs smashed Ted Niedermuller's time of the previous week by half a second, and the winning time of 26.3 in the lows tied Jimmie Tinkle's time. Ted was right on his heels in both races. "Army" Kessler rounded off the day's work nicely by heaving the iron ball out to a new mark of 40 feet, 4 1-2 inches.

High point honors went undisputedly to "Army" Kessler. After smashing the record in the shot, he calmly hoisted his bulk over the cross bar to win the high jump, and later tossed the javelin out 169 feet, 11 inches, for another blue ribbon. Walter Barnett, with first places in the two hurdle races, a tie for third in the high jump, and a lap on the relay, was second with 11 3-4 points; Johnny Eckhardt, with 2 firsts, in the one and two-mile

runs, was third with 10, and Chet Tubbs drew fourth with a first in the half, second in the mile, and a lap on the relay, for a total of 9 1-4.

The results by events were as follows:

100 yard dash, 10.1 — Cummings (L), Atkinson (L), and Winters (SB).

220 yard dash, 22.5 — Cummings (L), Winters (SB), and Atkinson (L).

440 yard dash, 53.9 — Grover (L), Ezaki (SB), and Bevis (SB).

880 yard run, 2:13.1 — Tubbs (SB), Meigs (SB), and Grover (L).

One mile run, 4:51.9 — Eckhardt (SB), Tubbs (SB), and Dimuro (L).

Two mile run, 11:7 — Eckhardt (SB), Upstill (L), and Dimuro (L).

120 high hurdles, 15.7 — Barnett (SB), Niedermuller (SB), and Hylton (SB).

220 low hurdles, 26.3 — Barnett (SB), Niedermuller (SB), and Main (SB).

Broad jump, 21 feet, 5 1-2 inches — Ruby (L), Treloar (SB), and a tie for third between Nevins (L) and Bruce (SB).

High jump, 5 feet 10 inches — Kessler (SB), Ruby (L), and a tie for third between Barnett (SB) and Hathaway (SB).

Pole vault, 11 feet — Tie for first between Greenough (SB), Fleckenstein (SB), and third, Fong (SB).

Shot put, 40 feet 4 1-4 inches — Kessler (SB), Flinn (L), and Feo (L).

Discus, 141 feet 2 inches — Flinn (L), McCullough (SB), and Earhart (SB).

Javelin, 169 feet 11 inches — Kessler (SB), Harper (SB), and Klitzki (L).

Total — Santa Barbara State, 87 1-4, Loyola, 43 1-4.

## HEARD IN THE SHOWERS

SPORT COMMENT

The track team deserves much credit for their decisive victory over Loyola Saturday afternoon. Marked improvement has been shown at every Saturday meet until the team is now worthy of meeting any conference squad. "Iron Horse" Kessler and "Record Breaker" Barnett are a treat to any coach's eyes.

Strange as it may seem three co-eds were seen in the bleachers during the Ventura baseball game last Thursday afternoon. Reading from left to right they were, Elizabeth Peacock, Rose Greenwell, and Viola Petersen. Thank you, girls, for your support. I'm sure the team functioned better with that touch of feminine cheering. Next time bring your friends along with a couple of friends with them.

In looking over the results of the various relay meets held throughout the country, the marks of the West Coast meet were by far the fastest. Two of the world's records, the 440 yard relay and one-mile relay, were broken, and various others were practically equalled. Out of the scheduled fourteen events in the relay meets the coast records bettered those of Drake or Penn. in thirteen events.

### BARTHOLOMEW SCROGGINS

Away went the hammer, away in the blue, Away and away went Bartholomew, too; Away went the ball and the handle combined And little Bartholomew trailing behind; Away, till the judges agreed that their flight Had broken all records for distance and height, The records established by any balloon Or even the cow that jumped over the moon; They flew till the hammer no farther could fly, But, just like an asteroid, stuck in the sky. So now, as no heavier weight-putters are, Bartholomew Scroggins is truly a Star!

Hard-muscled, athletic, and light on his feet, Bartholomew entered and stood in the ring; He balanced the hammer, he gave it a swing, He whirled it around for a terrible throw, But, just at the send-off, forgot to let go!

Away went the hammer, away in the blue, Away and away went Bartholomew, too; Away went the ball and the handle combined And little Bartholomew trailing behind; Away, till the judges agreed that their flight Had broken all records for distance and height, The records established by any balloon Or even the cow that jumped over the moon; They flew till the hammer no farther could fly, But, just like an asteroid, stuck in the sky. So now, as no heavier weight-putters are, Bartholomew Scroggins is truly a Star!

—Classmate.

## VENTURA HORSEHIDERS PLAY TIE GAME WITH ROADRUNNER NINE

### STATE COLLEGE NINE DEFEATED

### Santa Marians Nose Out S. B. Stars in 11-Frame Tilt by 9 to 8 Score

Santa Maria Junior college nosed out the Roadrunners with a 9 to 8 score in an 11-inning tilt staged in Santa Maria yesterday afternoon.

Coach Luke Trimble's Santa Barbarans started the game with a good showing, earning an 8 to 2 lead by the fifth inning. The Santa Maria team, undaunted, came back with six runs in three innings to tie the score in the eighth frame. Neither team was able to make another run until the last of the eleventh, when Hayes broke the tie in Santa Maria's favor, coming in after making the circuit on two hits and an error, with two men out.

The score:

S. B. State	AB	R	H	PO	A	E

### EXTRA INNINGS FAIL TO BREAK 6-6 DEADLOCK

State college Roadrunner horsehiders played a 6 to 6 tie with Ventura Junior college in an 11-inning baseball game on Pershing field Friday afternoon.

A five-run rally in the second frame gave the Staters a good lead, but costly errors allowed the Venturans to overtake them. Ventura scored the tying run in the ninth inning. Two extra periods of hard played baseball failed to give either nine a chance to tally, and the Venturans were forced to start for home at the end of the 11th inning.

The Roadrunners beat Ventura 6 to 5 in the first game of the series between the colleges.

P. E. Women's Steak Bake Is Planned

Taking into consideration that there are but four remaining weeks of school, members of the Women's P. E. department have scheduled for their last get-together a steak bake to be held at the Mitchell's beach cottage near Campbell's ranch next Saturday, May 23. Romaine Mitchell will act as hostess.

Surf swimming and other beach sports will help to keep the P. E. majors busy in having a good time topped off with a dandy meal. Cars will leave the college in the morning at 9:15 with expectations of returning in the afternoon at 5:00. Girls are asked to meet in the gymnasium next Saturday at the designated time.

### THE EDITOR SPEAKS

#### CHANGE

Educators, no less satisfied with the present grade-point system than the students, though much more qualified to see its imperfections and the obstacles in the way of its reform, are constantly making efforts toward improvement.

One such, known as the "Sarah Lawrence Plan," was recently discussed in an article in The Nation. The student, under this plan, carries only three major courses a year, and each chooses a major activity. Working from a syllabus provided by the instructor, the bulk of the student's study is done independently along lines of particular interest to him. There is no grading system.

The demands of the plan upon the individual are tremendous. It calls for initiative and the assumption of responsibility now almost exclusively held by the faculty.

To suppose that it would be practicable in the college of today is to over-estimate immensely the capacity of the average student, in terms of those qualities. That it is not a plan of today leaves the hope that time may evolve a student capable of using its opportunities. The evidence it offers of the effort toward change now being made alone makes it worthy of attention.

JUNE 12, 1931

It won't be long now. With the second set of mid-terms over, we are now settling down (?) for the home stretch. Only six weeks remain to do all those many jobs we so firmly resolved upon in that last hectic week before finals last semester.

Where do we stand scholastically? Spring has come; or at least it was here for a while. The days to come will be none too conducive to study. Perhaps it isn't too late as yet to learn something before the clock strikes the eleventh hour and we find ourselves holding—what? A sack or some ideas?

### IT'S WORTH KNOWING

That Mrs. Irene Clow, secretary to the president, is the sister of Dick Waterman, sports editor of the Roadrunner; that she was born on the plains of Kansas on a windy day and at the age of two weeks she went to Iowa; that she was educated in the public schools of Colorado Springs until her senior year and then she was graduated from the Fort Worth High School, Texas; that she then came to California with the intentions of taking a home economics course at Santa Barbara Normal, but found she had to have two years of college first, so she attended Santa Barbara Junior College for a year; that she then took a business course and her first position was in an insurance office in San Diego at twenty dollars a month; that she married then, and when her husband went into service during the war she returned to the business

world and has been at it ever since; that in May, 1922, she accepted a position at State as assistant registrar and assistant secretary and was here until October, 1924, when she resigned to stay home; that after the earthquake she came back for six weeks in a temporary position and then worked for three years at the Ott Hardware Company; that in August, 1928, President Phelps asked her to come back when Mrs. Mary Steele, a schoolmate of Mrs. Clow's at Colorado Springs resigned, and she has been here ever since; that she likes music and is very fond of dancing and swimming; that her mother graduated from State in 1923 with a California teaching credential and she is now teaching at Harding School; that she lived in Hawaii for a year; that she is a member of the American Legion Auxiliary and the Woman's Club.

### I OBSERVED!

Ted Niedermuller flinging a mean hoof with a more or less elderly guest of the Samarkand hotel at the College Club affair last Saturday night.

Betty Higbee and Shirley Mercer saying naughty things under their breaths because they could not get into the administration building or find the janitor to get some properties to use at the Modernist Dawnce.

A greatly improved track team (surely one worthy of the student body's support) piling up point after point to win over a good Loyola team Saturday.

Audrey Moore and Elbert Cochran entertaining a party of merry-makers with an exhibition of adagio dancing. It's mean of me to mention it, but Bert went down for a count of three at the finish.

Fran Leach blushing when some young frosh told her how much he liked to dance with her.

Betty Thomas, Lowell Washburn, Evelyn Sims (and others) climbing to the top of a 120-foot oil derrick at Henry's beach one night last week at a late hour.

Dean Pyle driving a dazzling new black - and - chrome "free-wheeling" creation in place of the familiar cream-colored job.

### Local Banker Gives Opinions On College

That it is better to have a college education than a business training before entering the banking business, is the opinion of Mr. James D. Lowsley, president of the First National Bank of Santa Barbara.

Mr. Lowsley believes that in this day and age, when there is so much specialization, a young person should determine what future business profession he or she wishes to enter. A high school education is essential in almost any line of endeavor and a student should be enthusiastic, without any exterior influence, with reference to the vocation which he wishes to follow.

Persons unable to go to college may enter the American Institute of Banking upon finishing high school. It is a national organization with a membership of 30,000. Classes of the institute are held at night and do not interfere with regular routine of work.

If a man or woman enters any kind of business especially the banking business, and does not study after finishing high school or college, he or she will not succeed," said Mr. Lowsley.

### EXCHANGES

Sociology students of Yuba County J. C. recently visited Folsom penitentiary. This class has been visiting various insane asylums and reform schools located near there.

Prof. H. E. Smith of Brown university has hit upon a new scheme for students to take examinations. The student would go to his college building on examination day, draw from a box a slip on which he would find indicated a subject within his field of knowledge. He would have to return 24 hours later with a complete lecture written on the subject, including an adequate bibliography of all material that he had selected. Professor Smith claims that this type of examination would make it absolutely impossible for the student to organize his data unless he had complete knowledge of his subject, and would eliminate the mental strain that is encountered at present among students during final examinations; great doubt arises as to the last statement, however.

Co-eds at Oxy have a diversified collection of pets and mascots. Twenty dogs were found to be living in the same dormitory with twenty-five cats. One room contained twenty-three elephants, in the form of statues, pillows, and ash trays. One co-ed has a regular menagerie with a collection of dogs, cats, donkeys, turkeys, and pigs. Felix and frogs seem to be the official door keepers.

A student at Washington university, after inventing a new way to "get by" in examinations decided the plan wasn't so good after all so gave it up. The scheme was this: On the inside of a zipper coat he pinned all the notes needed for a course. Open the zipper, lean forward, and there would be the answers. When the instructor looked that way, lean back, zip up the coat, and appear to be engaged writing an honest blue book.

When members of a University of Pittsburg fraternity were quarantined for ten days recently with scarlet fever, they spent their spare moments carrying on phone conversations with neighboring sorority houses. The house phone was one of those nicker affairs and some smart brother promptly conceived an idea for making a little extra cash, he promptly secured a monopoly on five-cent pieces, retailing them to those confined, four for two-bits.

The coach of the football squad at Temple university in Philadelphia has his boys up in the air over their spring grid practice. Workouts have been carried out on the roof of the student recreation building, 300 feet in the air.

### Health Office Makes Complete Check-Up

Have you gained weight this year? Or lost it? The Health Committee wishes to accumulate complete data on the weight gains and losses in the student body during this college year. If you have not recently been in the office to be weighed and leave a record of your present displacement, Dr. Bishop asks that you do so at your convenience in the near future.

The Health Office will be left unlocked all day, and a record sheet will be available on a table near the scales. Just step in and weigh yourself and record your name and weight on the chart. We have, of course, records on seniors who have been in lately for their certificates.

Dr. Markthaler wishes to see for a final check-up for the year those students who have been for any reason under more or less constant supervision by the Health Office this year. Appointments will be sent out alphabetically for these people, beginning this week. Their weight records will be taken during the appointment time.

### Campus Styles

#### I Wonder If

It was a man well versed in the tastes of men who said to me recently that he believed the time was approaching when men again will wear frills on their shirts, high-colored velvets in clothing and cocked hats with long plumes!

He reminded me that in nature, the male was always the best clothed as to fur or feathers, while the female was plain and drab. I retaliated that I thought the male of our species really needs more embellishment than does the female.

But I rather wonder who would keep men's ruffled shirts in ruffle and their elaborate garments cared for, in these times which are so busy for women, when interests outside the home so engage us.

Golf togs are showing a care-free disregard of the feminine mode supplanting it with a more "workmanlike" style.

A smartly tailored gown of black crepe is made charmingly feminine by the addition of gauntlet cuffs and vestee of white organdie and lace.

With the advent of sheer cottons into the foreground of evening fabric, may we offer this "contrasting" hint—dark slips under light dresses are most effective, and pastel slips add to the mistiness of white frocks.

Red—warmest of tones, exotic, vibrant! And green—cool, almost frigid! Opposites — yet fashion unites them with a background of white.

An arrestingly lovely and unusual dinner gown combines a white chiffon pleated skirt and draped bodice to a black leaf lace yoke and long dolman sleeves.

### World News

Dr. Albert Abraham Michelson, world famous physicist, died last week at his home in Pasadena. His most noted achievement was the accurate measurement of the velocity of light, the latest experiments of which were completed just prior to his death. He would have been eighty years old next December.

Emotions are shown more readily by the lower than by the upper part of the face, according to psychologists gathered recently at the University of Chicago.

Officer F. A. Lungerhausen, of the Sacramento police department, was punched in the nose on the State Capitol grounds recently by Assemblyman Emmett, of Santa Paula, in an argument over traffic rules. The assemblyman is immune from arrest while the legislature is in session.

Two large ocean liners collided last week in New York harbor during a dense fog. Neither vessel was seriously damaged.

More than twenty million telephones are in use in the United States. This is three-fifths of the number in the entire world. Chicago uses more than all of France and New York City more than the British Isles.

Over sixty per cent of the total budget of the United States is spent for war purposes, past, present and future.

The King of Siam has just been successfully operated upon in this country for eye trouble. His first words, when the bandages were removed, were, "I see the light."

"Legs" Diamond, noted gangster, hangs between life and death as a result of the latest attempt made by rival gangsters to kill him.

Happiness is crowded out of our lives by wanting that to which we are not entitled and worrying over things that never happen.
