FRIDAY, SEPTEMBER 19, 1924

NO. 1

## TRAINING SCHOOL IS ESTABLISHED ON CAMPUS

### MANY CHILDREN ENROLLED FOR WORK

The opening of an elementary training school here on the campus marks a significant step in the history of the college. President Phelps has been working for a training school here for sometime and expresses himself as being very much pleased with its establishment on a basis of high efficiency.

Ranging in class work from the primary through the sixth grade, the students enrolled in the school have been chosen from registrations made from all parts of the city. The most advanced methods will be used in instructing the students and the school will be conducted in a manner similar to that of the training school at Columbia University.

Practice teaching by General Professional students has been done at the Riviera school in former years. The establishment of an elementary school on the campus will make it possible to have all such work directly under the supervision of the college.

The upper story of the new building which was erected by summer school students will be used for the training school. The rooms are to be furnished with chairs and tables instead of desks. Tables were made here at the college and the chairs which have been ordered will be here soon. Temporary furniture has been borrowed in order that the class work may start at once.

Special luncheon service has been provided for the children by the cafeteria.

### PLANS FOR ANNUAL ALREADY IN PROGRESS

Plans for the Annual are rapidly taking definite shape. The editor, Ted Ellsworth, announces that this year's edition will feature pictorial events of the campus, while the printed matter will occupy a place of less importance in the make-up of the book. Already there are many views finished, the most interesting of which is an aerial shot of the entire campus. This is the first such view ever to be made of the campus, and will greatly add to the value of the book.

The engravings and etchings will be done again this year by the Commercial Art & Engraving Co. of San Francisco, who last year did such commendable work. Bids for photography are soon to be called in. Selections for the staff are soon to be made, and all students who are interested in working on La Cumbre should hand in their names to Ted Ellsworth at once, listing their previous experience. However, it is understood that previous experience is not necessary, as there are many branches of work connected with the publication of the year book.

From week to week new features will be announced, and should awaken great interest in the book. These features will also be followed by the local papers, and are all part of a publicity scheme to put the book before the townspeople and facilitate the soliciting of support from the local merchants.

### GREETINGS FROM PRESIDENT PHELPS

The college year has just opened with a full registration of ambitious and enthusiastic young people. So far as one can see the opportunities for all are about equal. Later in the year, however, if history repeats itself, certain students will begin to lead out in their work and general standing, while others will lag behind.

Knowing that such things are apt to happen, it may be worth while to emphasize the necessity for a careful and consistent application of energy and ability to the main task of securing the best possible results from the year's work. To that end a careful study of his available time should be made by each student and a satisfactory distribution of it worked out. Such a distribution should provide the proper amount of recreation and social activities as well as study. In other words a well-balanced program should be developed and followed.

Work should be the keynote of a good college. Here, if anywhere, the eight-hour day should be the minimum requirement. Progress can be made only by continuous effort and "sweating" of the brain. May it be, therefore, the high resolve of all who have entered the college that this year shall be the best for the individual and the college that either has yet experienced. In this way success may be assured.

### CLUB WOMEN INSPECT COLLEGE

Committees of the various Women's Organizations of the city inspected our college Wednesday afternoon in order to secure information regarding an expansion program of the college which has been undertaken by the Chamber of Commerce' Educational Committee. Tea was served the delegates in the cloister at 5 o'clock.

### FILE OF 1923-24 EAGLE PRESENTED TO LIBRARY

The college library is now in possession of a complete bound file of last year's Eagle. This volume was presented to the library with the compliments of the 1923-24 staff, and forms a very valuable addition to the ever-growing collection of material. The eighteen issues of last year's paper are attractively bound in a heavy dull blue cloth. The cover bears the legend 'The Eagle, September 1923-June 1924.' The most valuable feature of the volume is the ready reference that it gives one to all that was accomplished last year.

### STUDENT BODY PRES. HAS WORD FOR US

The indications are that this year at Santa Barbara Teachers' College may far surpass the accomplishments of former years. New members of the faculty, the return of many former students and a greater number of new faces than ever before all tend to make this a bigger and greater year for "OUR COLLEGE." But with all of this each one of us has a duty to perform, an obligation to fulfill. We must promote a real college spirit and enthusiasm for this, the school of our choice.

The student body needs hearty support and co-operation in the various lines of activities that already exist and those being planned for this fall and winter. First of all let's get acquainted and from that will emerge the splendid fellowship which is so essential in the consummation of aims and ideals. Learn the school song and yells and be ready to do your bit for "OUR COLLEGE."

J. M. HAWLEY,  
Student Body President.

### STUDENT INSURANCE UNDER CONSIDERATION

For some time the problem of Student Accident and Sickness Insurance has been occupying the attention of many of the faculty and students on the campus. Last year there were several students injured while engaged in campus activities; men in football, women in gym classes. These injuries, while not serious, were costly, imposing a burden on the individual students for injuries received while upholding the college in its various activities. One man, out for football, sustained injuries that cost him almost \$50.00; a girl, injured in the gymnasium, was forced to expend approximately \$40 for medical care. Another girl was struck by an automobile and was in a hospital for several days.

During the summer President Phelps has been working on an Accident and Sickness Insurance proposition with the Cottage Hospital. While a detailed discussion would be too lengthy to be here set forth, the main points can be briefly listed:

1. An association shall be formed to be called The Students' Accident and Sickness Insurance Association.

2. Students may become members of the Association upon payment of a fee of \$2.00 a semester, summer session students to pay only \$1.00.

3. The Hospital agrees to furnish the members of the Association:

(a) Beds, meals and nurse service at a ward rate of \$3.00 a day. This service shall hereafter be referred to as the "base rate."

(b) Medical attention at the rate of \$1.50 a visit, up to ten (10) visits.

4. The fund created by the payment of the fee of \$2.00 a semester shall bear the following costs:

(a) Two-thirds of the base rate of three dollars (\$3.00). Thus, meals, a bed and nurse service shall cost the student members of the Association but \$1.00 per day.

(b) Total medical care up to 10 visits, at \$1.50 each.

(c) All operating room charges, laboratory fees, ex-ray service, taxi and ambulance service and all doctors' charges for applying casts.

(d) 50% of all operating costs not exceeding \$50.00.

This proposition comes as an answer to a long felt need. It is reasonable enough to be fair to all students. The \$2.00 fee gives the student 18 7-day weeks insurance, or a total of 126 days, for an average of 1.60 cents per day.

## COLLEGE ENROLLS OVER FOUR HUNDRED

### EIGHTY STUDENTS ENTER FROM H. S.

The enrollment of the college has reached more than four hundred, far surpassing any previous enrollment. Since the largest number ever registered at one time in other years has never exceeded three hundred and twenty-five, the increase in enrollment is approximately twenty-five per cent. More than one hundred and eighty new students have enrolled, the students entering from the local high school numbering more than eighty. Nearly one hundred and seventy old students have registered and about fifty city teachers are entering some of the special courses offered after regular class hours.

The number of registrants has climbed steadily since the first count Monday, which was 348, and more are expected to register next week.

### ENGLISH ENTRANCE EX. GIVEN J. C. STUDENTS

Approximately eighty students took the English entrance examination, required of all Junior College students, which was given last Tuesday afternoon at 4 o'clock under the direction of Dean Ashworth.

The examination was similar to those of previous years and will be graded on the organization of material, paragraphing, sentence structure, discrimination in the use of words, spelling, punctuation and legibility.

Heretofore the papers have been sent to the University of California for correction, but the delay which this made necessary made it difficult to place the students who failed in suitable classes. Dean Ashworth has been authorized to correct the papers here himself and those who do not pass will immediately be placed in a non-credit English course.

### STUDENT BODY OFFICERS

The suggestion of several students that the names of the council members be published so that the Student Body as a whole may become familiar with its officers, is being followed accordingly through the printing of the following personnel of the council:

Jesse Hawley	.....President
Jessica Lemmon	.....Vice-President
Carlisle Gorman	.....Treasurer
Ester Janssens	.....Secretary
Lewis Peters	.....Advertising Manager
Margaret Burke	.....Manager of Debating, Oratory and Dramatics
Terence Ellsworth	.....Editor of La Cumbre
Barbara Dewlaney	.....Editor of The Eagle
Rene LeFevre	.....President of the Men's Club
.....	President to be elected of the Women's Club.
Edmund O'Reilly	.....Men's Athletic Manager
Marjorie Granger	.....Women's Athletic Manager
Miss Hazel Severy	.....President's Appointee
Mrs. Mildred Pyle	.....Dean of Women
William Ashworth	.....Dean of Men

# THE EAGLE

Owned and published weekly by the Associated Student Body,  
Santa Barbara State Teachers' College and Junior College,  
Santa Barbara, California.

Barbara Dewlaney ..... Editor-in-Chief

The Staff has not been chosen yet, but special mention should be given Terence Ellsworth, Margaret Burke, Mary Virginia Platt, and Edwina Kenney, who assisted in the publication of this issue.

**Advisory Board**  
Miss Winifred M. Frye

## A CORDIAL WELCOME TO ALL

A hearty welcome to all. We're glad you're here—glad to see the old faces again and happy to have the newcomers join us. May your year in Santa Barbara College be one of the best and most profitable in every way. We hope that each and every student may share alike in work and pleasure.

## WHY NOT?

One of the marked factors of the first two days of college was the spirit of good fellowship which prevailed on the campus. Old students greeted one another with utmost cordiality and tried to assist the new students in every way. Each had a cheery word and a smile for the other. No matter how busy an instructor or student might be, he was never too busy to lend a helping hand.

Such enthusiastic good fellowship is worth keeping throughout the year; let's try to help the other fellow in every way in weeks to come.

## THE EAGLE

At the beginning of this fourth year of its existence, The Eagle, not long since a mere fledgeling, begins to stir and stretch its wings, preparatory to embarking upon a long flight. The confidence that makes The Eagle seek to soar is the result of three long years of struggle for continued life. The struggle came in finding a welcome in the life of the students, in securing their support, their time and their efforts. For two years the outcome of the struggle was in doubt; the Eagle almost ceased to live. The efforts of a few loyal students nurtured the bird, however insufficiently, enabling it to maintain a feeble spark of life. During the third year, fostered by an earnest group of twenty odd students, that spark sprang into life and became a small steady flame; The Eagle underwent an astonishing change, showed signs of maturing into a full-grown bird.

Because the efforts of this small group were unceasing, this year's management is able to plan for the publication of a weekly paper, four pages in size. In order to realize this plan, it will be necessary for each and every member of the Student Body to back up, whole-heartedly, The Eagle. Many students must give of their time and abilities that The Eagle may fully succeed in its service to the Student Body, the others must be back of the paper in spirit.

The average student has little conception of the time and energy that is required of those students who are responsible for the publication of The Eagle, nor is he aware of the utter thanklessness of the task. There is but one reward that is unquestionably satisfactory to the members of the Staff: whole-hearted appreciation. Since this group of students is working for the benefit of every one of us in the College, let's show our appreciation by all becoming real boosters for The Eagle. The effect of that support will be reflected in the coming issues of The Eagle, a tangible evidence of the result of a faith well placed.

Signed: A STUDENT.

## SPECIAL COURSES IN EDUCATION OFFERED

A course specializing in giving educational tests is being offered this term to teachers and other people interested. The course, which is a new departure in the curriculum, will be given under Dr. J. LeRoy Stockton, who is an authority on educational tests. Classes will be held each Saturday morning.

Another course, Methods in Curriculum, is being offered to outsiders and students this semester. Classes will be held under Mrs. Price, head of the General Professional Department, on Tuesdays and Thursdays at 4:15.

## TRYOUTS FOR GLEE CLUBS ANNOUNCED

Glee Club tryouts are being held this week and during the first part of next. A tryout for the Women's Glee Club was held 8 period Tuesday, but since so few had heard about it, more tryouts will take place at the same time next week in the Bungalow.

Tryouts for the Men's Club were also held this week. The first meeting will be held Tuesday evening at the Y. M. C. A. at 7:30. Mrs. Barnett is especially pleased with the enthusiasm shown this year for the Men's Glee Club.

## FIVE NEW MEMBERS ADDED TO FACULTY

Of the five new faculty members who assumed their duties this week, two are being added to the educational staff to meet the increase in growth of the institution in the establishment of the training school. Mrs. Mildred C. Pyle of Fresno has been appointed Dean of Women to succeed Dean Regina Westcott, who resigned last spring to accept a position in Boston. Mrs. Pyle has been an instructor in the Fresno High School. She graduated from an eastern woman's college earned her master's degree at the University of Illinois, and recently took graduate work at the University of California.

Dr. William H. Ellison, who was head of the Junior College in 1920, and who succeeds Mr. Guenther of the social science department, has been named head of that department. Dr. Ellison, who has been an Associate Professor in History at the Oregon Agricultural College since his Junior College work here, has done a large amount of research work and will continue such work here while heading the social science department. Dr. Ellison holds his degree from the University of California.

F. L. Griffin, who has been added to the faculty as an instructor in the Community Mechanics Department, will assume some of the duties of Mr. Hull and Mr. Blodget, students assisting in the Community Mechanics Department who have just graduated and have secured other positions. Mr. Griffin has had several years of training and experience in this line of work and comes here from the University of Montana, where he has been instructing especially in Agricultural Mechanics.

Although the final supervision of the training school rests with Mrs. Price, two additional faculty members have been secured to have direct supervision of each grade. Miss Elsie A. Pond, who has had a number of years experience as supervisor in a training school in Tempe, Arizona, has charge of the fourth, fifth and sixth grades. She was recently an instructor at the San Diego Teachers College. Miss Pond secured her M. A. degree from Stanford, and has given special attention to educational tests and measurements, which will make it possible for her to co-operate with Rr. Stockton in that work.

Miss Elizabeth Crumby, who is a graduate of Stanford with graduate work at the University of California, will supervise the work of the primary grades. Although Miss Crumby has been traveling in Europe during the past year, she was recently an instructor in Miss Harker's School in Palo Alto.

Although Miss Florence Gaylord has charge of the cafeteria for the first time during regular session, she is not a new member of the faculty, having been a faculty member throughout the summer term. Miss Gaylord, supervisor of the cafeteria, formerly had charge of the cafeteria at Burlingame for several years.

Charles Mansfield, Junior College graduate, and Phil Martin, member of the Junior College, left this week for the University of Washington. Both were students with ability in the athletic line—Phil in football and Charles in basketball.

## STUDENT MEETS DEATH

The death of Clovis Smith on July 10 came as a shock to his many friends and classmates. His death followed as a result of a fractured skull and internal injuries received when the motorcycle which he was riding collided at Canon Perdido and Bath streets with an automobile. Smith had been using the motorcycle for the purpose of delivering newspapers in Carpinteria and Summerland.

Clovis Smith had proved a genial earnest student of the College and was well-known for his athletic record. His presence will be greatly missed by all who knew him.

## FIRST ASSEMBLY HELD ON TUESDAY

Students were greeted with a hearty welcome by President Phelps at the first assembly of the year held Tuesday morning at 8:15. He also made some helpful suggestions to both old and new students for the new year. Time, said President Phelps, is the only precious thing we have; in fact, it is about the only thing we possess. In order to make the most of their time students should program their outside study as carefully as they do their college classes. Free periods should be spent in study and the library is the place best suited for this occupation. The corridors, the President hinted, are not exactly conducive to concentration. One should not only be conservative of one's own time but should be even more careful of that of others, hence promptness to classes and appointments is essential.

President Phelps cordially invited all students to feel free to come into his office for consultation. He intends to hold open house on Thursday afternoons.

## SUMMER SESSION ATTRACTS MANY

The enrollment of the college this summer climbed to the enrollment of the institution during the regular session. The attendants consisted of many former graduates of the institution, also a large number of students attending regular session as well as those who were newcomers in the college.

The summer faculty was composed of not only members of the regular college educational staff but of many who were instructing here only in the summer, some of whom have been with the college during other summer sessions and others who were with us for the first time. Many exceptionally fine courses were offered this summer, although equipment and lack of funds as well as insufficient demand made it impossible to afford all courses that might have been desirable.

Not only work but play as well existed in the program of the summer students. The social program included a get-together every week either in the form of a beach party, a dance, or some other pleasing entertainment. Another diversion was the Greek play "Antigone," produced by students of the college under the direction of Mr. Ashworth. Mr. Ashworth also received special commendation for his readings of six plays, one of which was given each week during the six weeks' summer course.

### A WELCOME FROM THE DEAN OF WOMEN

As spokesman for the Associated Women Students, the Dean of Women wishes to welcome all new students to our college life. We wish you well, we are glad that you have come to us. We hope that you are planning for a healthful, happy, industrious and profitable life on the campus.

New members of the A. W. S. we are especially happy to welcome you. We desire, and know that we shall have, your co-operation in everything that we shall undertake. We hope that you will enter at once into the spirit of our college, and that you will assist us in maintaining its standard and ideals.

DEAN PYLE.

During the summer months the marriage of Paul Cradler, former editor of The Eagle, and Florence Miller, graduate of the college, became known to friends, although the exact date of the marriage has not been discerned. Both have created many warm friendships among college students, and Paul is still receiving congratulations from students returning this fall. Mrs. Cradler had been teaching in the elementary school at San Gabriel during the past year.

### REGISTRANTS RECEIVE STUDENT HANDBOOK

Upon registration students were presented with the first handbook ever published by the Santa Barbara College. Plans for the handbook were suggested by the council of last year and carried out by the present council through a committee which compiled the pamphlet during the summer months.

The booklet contains brief bits of information regarding the various activities and interests of the Student Body as well as the complete constitution of the Student Body. It is hoped that this handbook will serve as a helpful guide for students.

The efforts of the following committee made the booklet possible: Paul Cradler, chairman; Dean Ashworth, Margaret Burke, Allen Keim, Jessica Lemmon, and Barbara Dewlaney. The efforts of Frances Jones made possible the small cut of the College emblem which adorns the cover.

### CHURCHES ENTERTAIN FOR STUDENTS TONIGHT

A welcoming home party will be given college students at the Presbyterian Church this evening at 8:00 by the Young Peoples' Societies of the Protestant Churches of the city. Since both the faculty and students are invited, it has been decided that this party will take the place of the one usually given for the students by the faculty.

The party will consist of a musical program, the playing of games and the serving of refreshments, or, as Ralph DeBolt announced, reinforcements.

### FORMER INSTRUCTOR SENDS GREETINGS

Karl W. Guenther, former instructor in history and economics, is now at his home in Lansing, Michigan, according to word received from him a few days ago. Mr. Guenther is filling a temporary position as State Highway Inspector and incidentally studying the laboring man.

Although his plans are not yet completed, there is a possibility that Mr. Guenther will enter the University of Chicago or Columbia next month. He sends his greetings and good wishes to all his friends here at the college.

Miss Winham, librarian, who spent most of her vacation in England and Scotland, reports a most enjoyable visit. On her return voyage she stopped at ports in France and in Spain. She spent a few days in the Panama Canal Zone and was in the big Atlantic storm in August, which, according to Miss Winham, was an adventure worth having.

Mr. Wolf, art instructor, who has been on leave of absence since February, sends greetings and best wishes to the faculty and his friends of the student body. His greetings were dispatched from London, but his letter indicates that he is now traveling in France.

### HUMOR

Cannibal chief to chief chef: "Even if I am a cannibal, I'm still a gentleman. Serve the ladies first!"

Young cannibal rushing into the dining hall: "Am I late for lunch?"  
Cannibal chief: "Yes sir. Everybody's eaten."

Cannibal doctor to assistant: "Chief Guzzle'emdown has a bad case of hay fever. I told him to refrain from eating that buxome grass-widow."

### Correct This Sentence:

"Every joke in The Tagle this year will be absolutely new."

Young Freshman girl to B. H.: "Your mustache reminds me of a football game."

B. H.: "Why? Because there are eleven on each side?"

Y. F. G.: "No. First down."

### EXTRA CLASSES IN MUSIC OFFERED

Several interesting classes are being offered by the Music Department that are not listed in the schedule of classes. One is a class in advanced Harmony, which will meet 7th period three times a week. Only students who have taken the beginning course in Harmony may enter this class.

A number of voice classes, which will be devoted to individual voice work will be held. Since she can only have 4 or 5 in each class, Mrs. Barnett advises that students desiring this type of work sign up for it immediately.

### CAMPUS ACTIVITIES

**THE MEN'S CLUB** is open to all men students of the college. The organization is purely social in purpose, and strives for a closer unity of the men interested in the different branches of activity that are offered on the campus.

**THE A. W. S.** (Associated Women Students) corresponds to the Men's Club in purpose, offering a common meeting ground for the women of the college. All women of the college are eligible for membership upon payment of dues (50c per semester).

**THE LITERARY FORUM** affords an opportunity for all students, both men and women, who are interested in things literary, to meet and discuss topics of interest in the literary field. The Forum meets twice monthly, and membership is attainable through invitation of entire club.

**THE SOCIAL SCIENCE CLUB**, restricted to twenty members, is composed of those students who have shown an especial interest in problems of contemporary civilization. Regular membership is kept at twenty; new members are elected only upon the graduation or leaving of the old members.

**THE OUTING CLUB** offers a means of recreation to the lover of the great outdoors. Hikes and automobile trips enable the student to become acquainted with the mountains surrounding Santa Barbara. The organization is open to all regularly enrolled men and women of the college upon payment of 50 cents dues per year, and an equal initiation fee.

**THE BLOCK 'S' SOCIETY** is open to all men of the college who wear the official letter awarded for specified competition in major sports.

**GLEE CLUBS** for both men and women are open to those students who can find time and ability to pursue the muse.

### A WELCOME FROM THE DEAN OF MEN

Greetings to the men of the college. I know no better place to gauge and fix the finest manhood than at college. This is a place for giving; a person does not receive a college education; he gets it with emphasis upon the effort he puts forth in its acquisition. It is not a proposition of "something for nothing;" it is a process of evolution. The college cannot develop what is not there in the first place. Ideas and information may be supplied but you must present for cultivation and development those real, inner, ethical qualities which govern the use of these attainments and which make the most desirable manhood. College is no life of ease. Rather it is a strenuous challenge that can be answered only by summoning courage, a mind willing to be convinced, and a body and brain that are willing to work. A serious purpose is expected of the college man, and a strong, manly attack brings an easy victory. This is a period of preparation not of enjoyment,—yet. There is a place in the world waiting for each of you that will be filled the better because of your training here. This is your chance to show your stuff. Take it.

DEAN ASHWORTH.

Marjorie Gates, who graduated from the General Professional Department, secured a position in Ventura, which is her home. Marjorie was a prominent worker in the women's club and had charge of the club room for several months.

## FIRST FOOTBALL

### PRACTICE HELD

The first call for fall football practice brought out thirty-five men of varied experience. Practice was called at 4:30 Wednesday afternoon at Pershing Park, better known as the dust pile, with Coaches Gilliland and Hawley putting the men thru the paces. The Coach is wearing his perpetual smile, befitting any coach having such rosy prospects for a successful season. At the end of the practice the Coach expressed himself as more than pleased with the turn-out.

From last year's squad the following men have donned their uniforms: Max Conklin, Debolt, Baranov, Weide, Ed O'Reilly, F. O'Reilly, Keim and Linder, Hawkins, Hollingsworth, Vince, Morehead, Seegert and Anderson. Art Gray, a letterman in 1921, has returned to try out at quarter or end.

The following new men have signed up: Hill; Annin, a big 240-pounder from Wasco; Gillette, fast quarter from La Verne; Foss, Connors, Price, Peterson, Garber, P. H. Smith, Henderson, Wright, E. Conklin, Heggie, Wormser, McCormick, Peel, Dice, Jacobs and Heath.

While the Coach is unable to announce any line-up for the game a week from Saturday, he is rapidly singling out the likely candidates for the enviable positions on the first varsity. There is also a wealth of fast material for a lightweight squad, and plenty of substitutes for both teams. The college can well be proud of the record turn-out, and should be able to turn its games into victories by a good display of the old college spirit.

### RULES FOR USE OF P. E. BUILDING ISSUED

1. No street shoes except during assembly should be worn on the gymnasium floor or while using any apparatus.
2. Please do not use the center doors as an entrance, as dirt is thereby tracked directly onto the floor.
3. Please replace all apparatus after using.
4. No nails are to be used in the gymnasium walls when decorating.
5. No wax is allowed on the floor for dances or other parties, as the gymnasium is hereby rendered practically useless for class work during the week following.
6. The dressing rooms are for use of students in Physical Education classes only.

Will you not co-operate to the fullest extent with the Physical Education Departments in their care of the building and its equipment, that you might have the best facilities possible for work and play?

WINIFRED WEAGE,  
Physical Education Director.

### ASSEMBLY AND CONFERENCE PROGRAM

Assembly, 1st & 3rd Tuesday...11 A. M.

Thursday ..... 11 A. M.  
Council, 1st & 3rd Thursday...11 A. M.  
Student Body, 2nd Thursday...11 A. M.  
Class Meetings, 4th Thursday...11 A. M.  
( Extra Student Body Meetings to  
be arranged).

Herbert Keeler, graduate of the Community Mechanics Department, is now a member of the Marysville High School faculty as an instructor in the Community Mechanics Department. Keeler, better known as "Herb," proved a competent and enthusiastic Student Body President during the past year.

### GOOD PROSPECTS IN VIEW FOR WOMEN'S ATHLETICS

Prospects are especially good this fall for a successful year in the various branches of women's athletics, as the increased number of women students makes probable a large turnout. Although it has not as yet been decided what sport will be taken up first, it is hoped that practice can be started earlier this year than last. Miss Weage, faculty supervisor, and Marjorie Granger, women's athletic manager, expect to complete this week the plans for the year's activities.

One of the Men's Glee Club leaders, Merton Harlow, will teach in the Community Mechanics Department of the Wasco Union High. On the strength of his newly acquired position Merton purchased a new Chevrolet coupe.

### MESSAGE RECEIVED FROM FORMER S. B. PRESIDENT

This issue of The Eagle marks the beginning of another year of progress and achievement for S. B. S. C. As an outsider I must watch you carry on the work of preceding years raising the college standards and forging ahead.

With increased financial resources you face a year filled with brighter prospects than ever before. Green and White will be carried to victory in new fields, and campus life should be second to no college your size.

President Hawley is to be congratulated upon having the opportunity to lead you through so promising a year, and the Student Body is to be congratulated upon having chosen such a capable corps of officers. Get behind them and put the college over in a bigger and finer way than it has ever been done before. You can do it, and you are the only ones who can do it. The alumni are expectantly watching your progress, and you owe it to them and tradition to succeed.

Sincerely,  
H. F. KEELER.

[Editor's Note: We are grateful to Herbert Keeler, former Student Body President, for his thoughtfulness and kindness in sending us this message.]

### BUILDING RECEIVES MAGAZINE PUBLICITY

A full account of the construction of, together with pictures of, the new building was printed in the September issue of the Industrial Education Magazine, a magazine of wide circulation. A cut which shows the building under construction is given prominence on the cover. A picture of the carpentry class is printed with the account.

The carpentry class which constructed the building during the summer months was under the direction of John R. Alltucker, one of the best teachers of this subject in the state. The materials for the building were provided by the state and the work was done by the members of the carpentry class.
