Bayh attacks
Rehnquist's
racial views

Bayh, who said, "Our nation is no more dedicated to
sophisticated and subtle." statement by statement, and court decision by court
decision." He compared the process to what happened in
Nazi Germany.

Bayh, who is leading Senate opposition to William
Rehnquist to the
president, whistle-stopped through UCSB yesterday long
enough about the racial views of Supreme Court
nominees.

"How can we tell the young people and minorities of
this country to work within the system, if there are men at
the very top who feel as Carswell and Rehnquist do?"
Bayh asked.

Although he vigorously opposes Rehnquist, Bayh said
that he would not oppose the nomination by Nixon of
Earl Butz to the office of Secretary of Agriculture.

Bayh accused President Nixon of making present
Secretary of Agriculture Clifford Hardin "a sacrificial
lamb for his own failing farm policies." But Bayh said,
the best way to oppose Nixon's farm policies is to change Presidents, not Cabinet secretaries.

Bayh also scored the Nixon administration on a number of
other issues. Among them:

- On the economy, the senator disagreed with Nixon's
trends with big industry with tax incentives: "I prefer the trickle-up theory rather than the Republican
down-the-line theory."

- On foreign policy: "I think his sudden interest in
foreign policy is a good example of how he has the
capacity to manipulate and utilize the tools of the
presidency for his own purposes."

- On electoral reform: "The Electoral College is archaic
and outdated. We ought to repeal it completely . . . If
43,000 votes had been re-distributed in 13 states, we
would have seen George Wallace in the smoke-filled back
rooms selling the presidency to the highest bidder.

The liberal Democrat was not overly optimistic about
his chances of stopping Rehnquist's nomination to the
Supreme Court. "The windmills are stacked against us," he said, accusing his fellow senators of not being sensitive

 Custodians claim
 racist UCen policy

By HENRY SILVERMAN
and MIKE GROSSBERG

Yesterday an informational
meeting of the UCen Governing
Board was held to resolve
differences between the
UCen custodial staff and the
UCen administration. Custodial Supervisor Roy Wade
elaborated on his previous
charges of racist policies within
the UCen and fired custodians
of the UCen.

Wade bluntly accused Assistant Director Doug Jensen
of being a racist. This charge, according to Wade, can be
justified by many statements
that Jensen made to Wade over
the summer including, according to Wade: "I'm not
acquainted to the salaries that you people make here."

Jensen immediately countered with a statement
that, as far as he is concerned,
the charges of racist behavior are
justified by many statements
that have been made to him by
custodians. He then went on to
say that, as far as he is concerned,
the charges of racist behavior are
justified by many statements
that have been made to him by
custodians.

At this point GSA representative Rick Johnson
stated that he felt strongly that
this type of name calling was
extremely nonproductive and
that before any decision was
made he would like to have a
fact summary.

He suggested that perhaps a
study could be made of the
proportion of people that have
been fired over the past few
years from various
departments. If, according to
Johnson, a disproportion does
indeed exist with the firing
patterns of minority employees as compared with other
UCen areas, then there
might indeed be a basis for a
charge of racism. Dean of
Students Lyle Reynolds then
added that perhaps a study
should also be made as to the
percentage of minority employees who have
been accepted for open positions.

It was at this point that the
board asked Special Assistant
Affirmative Action Committee
Chairman Ralph Herrera to
read the report of the
committee which held the
original hearing this summer.

This report examined the
charges brought against the
UCen administration this
summer concluding that fair
employment practices had not
been considered in the
appointment of a maintenance
supervisor.

At the end of the debate,
Judith McCollan, A.S. Finance
Board chairwoman, introduced
two motions. First, she moved
that the UCen Governing
Board act as a personnel board
to both review past personnel
decisions and implement new
personnel policies.

She emphasized that the
first case to be dealt with
should be the complaints of
the maintenance men.

In her second motion, she urged that the UCen
attempt to recruit more
minority employees and
institute a program of on the
job training, especially for
"white-collar" positions.

After the meeting Jensen
commented that he hoped the
creation of the personnel
committee would be a
productive action. Wade said
he would wait and see what the
committee does.

 Redistricting draws
IVCC fire; Honey
ouster is applauded

By CATHY Coggins

After much debate on the subject of California State Senate
reapportionment, IVCC plotted a course for future action at its
Monday evening meeting.

A telegram indicating IVCC's opposition to the Senate
Reapportionment Bill now awaiting Governor Ronald Reagan's
signature was sent to Reagan at the close of the Monday meeting. The
telegram will urge the governor to veto this bill.

IVCC also plans to extend invitations to State Senators
Lagomarsino, Sifers and Dynalny as well as Assemblyman
MacGillivray to speak to the council on the reapportionment issue. In
addition, the council intends to request that IVCC's attorney
institute a program of on the
job training, especially for
"white-collar" positions.

IVCC also plans to extend invitations to State Senators
Lagomarsino, Sifers and Dynalny as well as Assemblyman
MacGillivray to speak to the council on the reapportionment issue. In
addition, the council intends to request that IVCC's attorney
institute a program of on the
job training, especially for
"white-collar" positions.

Angela petition at UCSB

Petitions calling for the release of Angela Davis from prison on bail are now being circulated at UCSB under the direction of Melvin Coller.

"We, the people, feel that the denial of bail to Angela Y. Davis is a further example of the increasing refusal of the judicial system to grant Miss Davis a fair trial," says one portion of the petition, which holds that she was arrested because she "is a Black woman, a member of the Communist Party, a consistent fighter for the freedom of all Political Prisoners."

Davis was arrested earlier this year following the 1970 shootout at Marin County Courthouse in which several persons were killed. Although not present at the scene, Davis was indicted for murder and conspiracy because she allegedly supplied arms to escaping prisoners.

Following the indictment, Davis fled legal authorities and was placed on the "Ten Most Wanted" list by FBI director J. Edgar Hoover. President Nixon at one point declared that she was "one of those involved in terrorist acts."

She was captured and returned to custody in San Rafael after being indicted once more by a Marin County grand jury. Bail was denied her last June by Judge Richard Arnason of the Contra Costa County Superior Court.

The petition now circulating states that "it is the grossest kind of denial of equal protection and due process for Miss Davis to be held in punitive detention while awaiting trial."

Copies are being sent to Governor Reagan, President Nixon and UN Secretary-General U Thant, among others.

"I am a political prisoner. The government intends to silence me, to prohibit me from further organizing my people, to prohibit me from exposing this corrupt, degenerate system by convicting me of a crime I had nothing to do with..."

"In my defense, I do not want one ounce of energy drained from the defense of other political prisoners."

-Angela Davis

COME TO MARKET DAY

Get your Christmas shopping out of the way today at Market Day in Storke Plaza. Local artisans, craftsmen and other creative types will purvey their wares for public purchase all day today. Candles, batik, iron work and leather novelties all will be for sale.

If you're tired of doing holiday shopping in department stores, try it outside for a change!

Mgr. #35 685-1469
Headquarters, braving a hail of one bullet, On Dec. 4, 1969, at 4:30 a.m., Chicago Black Panthers when the pre-dawn shoot-out changed the direction of his life. Hampton speech, in which he exhorts people to either live or die in the revolution, ends the film.

Overall, this documentary is an excellent study of the twenty-first and the typical problems of anything filmed outside of a sound studio, in that the film is unevenly exposed and the soundtrack is sometimes difficult to fully understand, the total effect of the film is stunning.

The first part of the 90 minute production is a fast-paced series of well edited public speeches by Fred Hampton, Illinois Chairman of the Black Panther Party before his death. It portrays Hampton as a dedicated leader of what he called the Black Revolution, and a man of America, often brightening rhetoric.

This segment of the documentary ends with Chairman Fred's statement that he did not expect to die a natural death, but expected to be killed in his struggle for Black Liberation.

For ten months Sears presented evidence to the County Grand Jury, refusing police testimony. By the time he had finished— and after the Illinois Supreme Court reversed some lower court decisions against what Sears termed "legal chicanery," some of the facts came to light.

While Hanrahan, for example, had stated that it was a "miracle" that there were no police killed, it turns out that police laboratory men had deliberately falsified information, and that there could not have been more than a single bullet fired by the occupants of the building, if that.

These and other revelations are made to the audience of the film, while the screen is projecting gory pictures of the blood-soaked scene of the police's heroic "gun-battle."

A mid-film print-out of part of a Hampton speech, in which he exhorts people to either live or die in the revolution, ends the film.

Richard Appelbaum, assistant professor of sociology at UCSB, will be on hand at this Friday's showing to answer questions from the audience and to relate the legal repercussions of the shooting since the film was made.

The location for the Friday showing is the Unitarian Church, 158 Santa Barbara Street in Santa Barbara. It will be shown at 7 and 9 p.m. Admission is 75 cents for students, $1.25 for the general public, and a part of the proceeds from all showings will go to the Panther Defense Fund.
UCSB’s athletic priorities need changing

Mr. Nixon wants the American people to believe the war is over. He tries to locate those people with partial withdrawals, lower draft calls and promised trips to foreign capitals. Meanwhile, the war in Indochina rages on as savagely as ever.

For the people of Vietnam, 300 of whom are killed each day, the war is not over. Nor is it over for the peoples of Laos and Cambodia, targets of the most inhuman bombing attacks in history. Nor is the war over for the 200,000 GIs still in Vietnam, many of whom are being killed or wounded each month so that the Thieu dictatorship can be preserved.

The Indochina war is not over for the working men and women of America whose wages are frozen to help pay its staggering costs. It is not over for those who have been victimized by resisting the war. It is not over for the people, the sick, the oppressed and imprisoned peoples of this country and Indochina, whose domestic needs are shelved and whose rights are repressed while the U.S. government continues to wage its immoral war of aggression.

The National Peace Action Coalition says "No". The war is not over. And the war will not end until people join in more massive numbers in the struggle to end it. To do this, a unified peace movement, involving the broadest forces, must meet together and plan further peace actions to demand an immediate end to the bombing and immediate withdrawal of all U.S. troops, planes and materiels from Southeast Asia.

We marched when the draft calls were higher. We marched when the GI death toll was higher. We marched when our brothers and sisters were murdered at Jackson, Kent and Augusta.

Can we stop marching now when the Vietnamese are dying in greater numbers than ever before? Can we stop marching now when more bombs fall in Vietnam, Laos and Cambodia than ever before? Can we stop marching now when the working people, the poor people, the oppressed people at home suffer the effects of the war more than ever before?

Winnick ‘squeezed out for political reasons’

(Continued from p. 4)

of UCSB by (a) denying me a leave of absence to pursue work I consider crucial to my professional growth, (b) first refusing to even decide on whether I would be given a new contract and (c) then granting only a one year extension. One must wonder just what criteria were used.

According to statements made to me by tenured members of the department who expressed the desire to remain anonymous, “Any relation between professional criteria and the basis for decisions in your (my) case were purely coincidental!” and “You aren’t naive, you know damn well that you’re being squeezed out for personal and political reasons”. Apparently those persons were willing to admit this to me, but, for whatever reasons, not to the NEXUS or to the review committees.

Another indication of the criteria used by the Economics Department is the case of a Berkeley graduate student with a perfect straight “A” record in graduate school, a Masters Degree in Statistics and who was about to receive his Ph.D in an area for which we were recruiting. He was even invited to UCSB for an interview.

He was abruptly dropped from all consideration when it was discovered that he was one of four graduate students who had taught a Radical Economics undergraduate course at Berkeley. Certain tenured members of the department were reported to have made comments to the effect that “One Winnick in the Department was enough.”

It is thus clear that the Department of Economics, and in particular its last two chairmen, Alec Alexander and M. Bruce Johnson, have no intention of accepting the responsibility to provide to the students at UCSB a range of instruction that spans the political spectrum. Similarly, by refusing to acknowledge the value of certain research and community service activities not to their liking, they are seriously in violation of the basic tenets of academic freedom.

In this latter regard, I think of the denigrating remarks made to me, in front of witnesses, by Bruce Johnson concerning the book on which I am working, which is an attempt (1) to develop a socialist economic model applicable to the U.S. and (2) to present that model in a non-mystifying format such that it can provoke discussion among the widest possible audience.

As for the matter of procedures: It seems quite clear that had the various meetings been open to scrutiny, those with personal and non-mystifying format such that it can provoke discussion among the various meetings been open to scrutiny, those with personal and political axes to grind would have been forced to at least justify their positions on professional grounds. But, by hiding under the cloak of confidentiality, even the mere pretense of professional criteria did not have to be maintained.

Keep fighting tobacco

To the Editor:

Regarding the article in the Monday, Nov. 29 NEXUS “Smokers create jobs and solve dog problems.” The argument is totally ridiculous, and conveys nothing valid. It is as far away from the point, as the horizon is from the shore. It would appear as though someone is terribly obsessed with cigarette smoking or else extremely prejudiced against anyone who smokes.

For interest sake, let’s turn some of the silly ideas around.

- If one is offended by dogs, one should hide one’s self from them.
- Non-smokers: Make it a point to throw grown the next lighted cigarette you come across.

Can we allow ourselves to resolve issues by creating a problem much worse than what we started with? Surely making a mess with cigarette butts isn’t going to help unemployment. Nor is burning every dog’s paw you come across going to “solve the dog problem.”

One has to find better means, if one wishes to create jobs for the unemployed, or to solve the dog problem (such as it is). In the event that doctors were out of jobs, would you purposely get sick in order to solve that problem?

Thus, aside from the comments made to me and quoted above, there was the interesting fact that at least one of the meetings of the tenured faculty which considered my case produced such yelling and shouting that it could be heard by those outside the meeting room.

Yet Johnson claims that his position was unanimously supported. If so, one must wonder how and why such strongly held differences of opinion were papered over. One must also wonder if professional differences would have produced such behavior. Confidentiality guarantees that we’ll never know for sure.

The key question is: For how long are the tenured faculty going to be allowed to use the cloak of confidentiality to hide the fact that professional criteria are often subordinated to personal and political views that support an exploitative and oppressive political-economic system.

The answer, I am afraid, is until students, (some) junior faculty and the handful of sympathetic senior faculty join in an effort to force the opening of personal matters to, at least, some public scrutiny.

JESS HILL—new PCAA boss charts future

By SKIP RIMER

On June 1, 1929, a young man named Jess Hill jumped to a new NCAA long jump record of 25' 7/8". Beginning this January 3rd, Hill will make an even bigger jump, one that will have a tremendous effect on the future of the Pacific Coast Athletic Association (PCAA).

That day, he will retire as Athletic Director at USC and become the PCAA's new full-time Athletic Commissioner. In getting this key position is acquiring a priceless asset. Being a man who has lived with sports all of his life, Hill's endless ties with the athletic world will be invaluable to the conference.

"I feel highly honored to serve as commissioner," says Hill in his usual modesty. "The PCAA has a great future in it."

Along the way, though, there will be problems. Relating in his plush and spacious office in USC's new Heritage Hall (which he has been able to enjoy for only one year), Hill discussed some of the obstacles confronting him as the new commissioner.

"We're facing the one problem that will be a determining factor — the financial crisis," Hill remarks. "We will have to generate more income. Right now, the income doesn't keep pace with the outgo."

With Riley Suwara, volleyball is a round-the-clock 12 month-a-year operation. Tonight, you can see the freshman UCSB volleyball coach and his team play the Santa Barbara All-Stars in volleyball at Robertson Gym as part of opening night display of spiking.

Game time for the battle is 8 p.m. at Robertson Gym. Admission is free to all.

The Santa Barbara All-Stars, like their name suggests, consists of top notch players who have taken part in past matches.

One familiar face will be Tim Basketball

UCSB opens its 1971-72 basketball season as they meet tonight at the Cal Post at Santa Barbara. All-Stars in the Mustang home gym.

Game time is 8 p.m. with the broadcast on KTMS starting at 7:45.

UCSB opens their home season this Saturday night with Samford Mustangs home gym.
