SOCIAL COMMITTEE PRESENTS VARIETY REVUE TONIGHT

Mesa Auditorium To Be Site Of Stage Show, Dance.

Tonight at 7:30 the Summer Session Social Committee will present a Variety Revue and dance on the Mesa Campus. All students, faculty, staff, alumni, and their families are invited to attend both events free of charge.

Some fine entertainment has been lined up for the variety show. Songs, dancing, and comedy headline the informal presentation. Among the entertainers who will parade their talents before the college family are Pat Williams, Ed Monreal, Eleanor Kuntz, Thelma Simpson, Kathy Tate, Phil Jacks, Coletta Hobert, Marilyn Swift, and countless thousands of other equally talented people!

Immediately following the show there will be a dance under the stars on the balcony outside of the auditorium. Big name bands will furnish the music through the medium of the phonograph record.

It was decided to have the revue and dance on the Mesa Campus because of the intimacy of the auditorium, and also to give an opportunity for those students who have never visited the Mesa to become acquainted with the attractive site.

Ed Monreal and Phil Jacks will act as co-masters of ceremony.

EL GAUCHITO is published each week during the Summer Session. News items should be submitted to the Office of the Dean of Women or the Office of Public Information by Monday noon.

REGENTS PASS UC BUDGET

The Regents of the University of California recently authorized an operating budget of \$1,993,917.44 for Santa Barbara College for the 1953-54 fiscal year.

For the entire University, a budget of \$71,087,951 was accepted, of which \$54,445,473 has been provided by the legislature, the balance coming from student fees, sales, charges and miscellaneous, and donations and endowment income.

The total is \$5,362,928 greater than the 1952-53 budget. The increase will provide principally for new activities and extension of recently inaugurated activities to which the University is committed in order to meet its responsibilities to the growing state of California, and a 3.5 percent larger provision for maintenance of regular and continuing activities.

DR. OAKESON TO DENMARK

Dr. Barbara B. Oakeson, Associate Professor of Zoology, will attend the 14th International Congress on Zoology to be held August 1 in Copenhagen, Denmark. This event is held every five years and Dr. Oakeson attended the last one held in Paris.

She will deliver a research paper on "Variation in Three Races of White-Crowned Sparrows". A subject upon which she has done much investigation and study.

NATURE STUDY INSTITUTE

This 21st Annual Institute of Nature Study and Conservation will follow immediately after the Summer Session--August 10-22--and offers two units of upper division credit. It is a practical course designed especially for teachers. Field trips in connection with seashore life, native birds, insects, native plants, western trees will be offered. A special division of Elementary Science methods is also available.

This event is planned by University of California Extension and will use the Museum of Natural History as headquarters. Application forms and information may be obtained from UC Extension Office, 906 Santa Barbara Street.

GOLETA OPEN HOUSE EXCEEDS EXPECTATIONS

Nearly 300 people journeyed out to the Goleta Campus last Wednesday, the turnout far exceeded the anticipated number of visitors. Much credit for the large turnout of townspeople must go to an editorial in the Santa Barbara News-Press on Tuesday night. The Summer Session Social Committee, sponsors of the open house, had expected about 50 people to show up for the event, and naturally were quite pleased with the huge crowd.

The 300 people presented one problem, however. The Art Gallery was set up to show the color movie, "Santa Barbara: Pacific Paradise", to a limited number. When it became apparent that even with standing room it would be impossible to accommodate the crowd, a second showing was scheduled.

Due to the tremendous interest showed in the open house, there is a possibility that another will be held sometime during the summer.

DISTINGUISHED VISITING PROFESSOR

Dr. David B. Bardner, Head of the Department of Child Development and Parent Education at Utah State Agricultural College is participating in an interesting home economics course on "Family Relationships in Contemporary Life".

He holds a PhD degree in Educational Psychology from Cornell University and for several years has been identified with counseling and guidance activities in his native state of Utah.

His special task in this Summer Session course is to present the subject of relationships and interactions of family members in home life. Other participants in the course are Dr. Ruth Major and Mrs. Marle Wilson, both Assistant Professors of Home Economics.

NEW STUDENTS: PLANNING TO ATTEND REGULAR SESSION?

New students planning to attend the regular session next fall must file an application in the regular manner. This applies to those new students attending Summer Session. Applications and credentials must be filed in the Registrar's Office by August 15. Information is available at the Registrar's Office.
