P. E. PRESENTS DANCE CONCERT

'Dancerama '53' to Be Presented Friday

Pops to contemporary dance will be presented this Friday and Saturday night in the Riviera Auditorium by the Women's Physical Education Department as "Dancerama '53."

The program which will be divided into themes, will present as its first "Hebrew Song" as part of the international division. It will tell about the exile of the Jews and their ever-lasting faith with the accompanying picture as an illustration of their long and wide search. "Hebrew Song" is directed by Rena Frabony, and is an original student composition. The traditional Hebrew music and story background, were obtained from Rabbi Kert of Santa Barbara.

Another special number in the dance concert will be "Carnival" directed by Kathy Small and Claudine Casey and composed by members of Miss Jean Bellinger's modern dance class.

Included among the nine numbers which will comprise the program will be a classical number entitled "Ballet Waltz," directed by Ann Pilkington; two modern dances, "Jet," directed by Marian Combs; "Color and Design" supervised by Betsy Ross; and a pop selection with music by Leroy Anderson, directed by Pat Stoft.

Completing the program will be a parody of the effect of Television on society, directed by Jean Ballinger, and a suite set to the "Scaramouche" music.

Tickets for the production will be 90 cents for general admission and 60 cents for students. They will be available at the graduate manager's office or at the door the night of the production.

Physics Club to Meet Plan Navy Speaker

At an open meeting of the college Physics Club, a naval scientist from Port Hueneme will describe careers in one of today's most dramatic fields: physical research. The speaker, Dr. F. E. Lowance, whose present position involves research work in points as distant as Greenland and Alaska, will emphasize part of his talk with movies showing operations and field projects of naval research laboratories. The lecture, entitled "Careers in Physics," will be held in Ridge Hall 101, April 15 at 7:30 pm.

Dr. Lowance, Technical Director, U. S. Naval Civil Engineering and Evaluation Lab., Port Hueneme, received his Ph.D. in physics at Duke university. Prior to his present position at Port Hueneme, he taught physics and engineering, and performed research work at Georgia Tech, M. I. T., and Harvard. He was head of the Department of Physics and Engineering at Centenary College in Louisiana. His broad experience in scientific work will make this opportunity of great value to anyone interested in a career in a scientific field.

This lecture will be the first in a series of events to be sponsored by the Physics Club. The Physics Club invites all students who are interested in physics, regardless of major, to become members of the club. Further information can be obtained from Dr. E. A. Williams, Quad 109.

HEBREW SONG will be one of the dances featured in the Dance Concert Friday and Saturday nights. Shown in rehearsal are (from left to right) Joan Smith, Marilyn Child, and Shirley Throne. Photo courtesy News-Press

Kappa Sigma Presents Annual Beachcomber Ball Saturday

Saturday night from 9 to 12 the Carrillo Auditorium will be the scene of one of the most unusual dances of the year. It is the Beachcombers Ball presented by Kappa Sigma fraternity.

In keeping with the theme, the entire hall will be covered with fish netting draped from the ceiling. The tables at the side will be decorated with seashells and driftwood ash trays. Surfboards, bamboo, and cork bobs will add to the setting.

The Beachcombers Ball is an annual dance which is sponsored by the Kappa Sigma fraternity and is open to the entire student body. The music will be provided by the Hollywood Hi Notes, the same group who did such an excellent job at the Mardi Gras last semester.

Costumes should be worn and it is left to the very active imaginations of the students as to their preference for sarongs, sailor

110 Grow Whiskers for Barbary Coast

The official count of whiskers to date is 110 men signed up for the Whisker Contest of Barbary Coast, April 17 and 18. 33 booths are entered, including two Chinatowns, a fun house, three talent shows, a puppet show, showboat, the dunking men and games of all sorts.

Sweepstakes trophy will go to the best booth of the Barbary Coast. Three cups in the fraternity, three in the sorority and three in the independent entries will be awarded. A trophy will also go to the booth making the most money during the two nights.

Barbary Coast Committee members warned that no currency from last year will be accepted, as the booths accepting old currency will lose out. This year's script money will be sold at three ticket booths for use at the various concessions.

Letters have been sent to service clubs of Santa Barbara and UCSBC alumni inviting them to Barbary Coast. 60 per cent of the proceeds will go to the booths and 40 per cent to the student body treasury.

No Controls Initiated For 'Coast' Groups

Appealing to the integrity of the organizations building booths for Barbary Coast, the Committee on Student Discipline, Dean Lyle G. Reynolds, chairman, decided not to initiate any controls on the acquisition of supplies by student groups for the forthcoming Barbary Coast.

The possibility of establishing a stockpile of lumber and building lath at the Goleta campus under the joint sponsorship of Pan-Hellenic Council and IFC was suggested at the meeting. It was also suggested that local building contractors and supply houses could be given the opportunity to donate used materials for the stock pile.

Possible means of limiting student pilfering of building materials suggested and discarded were to "Limit the amount of money to be spent on projects." It was pointed out, however, organizations would just spend the amount agreed upon and then steal the rest.

It was also brought out that making an inventory of supplies held by organizations and checking receipts of material purchased would be impracticable because in examining a project, it would be almost impossible to differentiate between old and new lumber.

The need for action on this subject was shown by Dean Reynolds when he stated that "when a group of college students becomes involved in difficulties with the community, the finger of guilt is invariably pointed at the Greek letter organizations. To attain and maintain a good reputation in the community and on campus, organizations, Greek and non-Greek, must take steps to prevent such actions as 'requisitioning' building materials."

garb, or any outfit that would appeal to a beachcomber.

Tickets may be obtained from any Kappa Sig and will be on sale at the door for only \$1.50 per couple. "Don't miss the biggest costume dance of the year" says chairman Ed Schertz.

Dr. Fay-Cooper Cole to Unearth Monkeys From Family Trees at Student Assembly

The query that appeared in last week's *El Gaucho*, namely whether or not any of us has any monkeys in the family tree, will be answered during the assembly on Tuesday at 11:00 am.

Dr. Fay-Cooper Cole, one of the nation's most distinguished anthropologists and scientists, has chosen as his topic "The Family Tree," a subject which he describes as being the story of man up to the portals of history.

The subject of evolution is still new enough to allow for much controversy, especially on the topic of having monkeys as our not-so-distant predecessors if not our immediate scions.

During the assembly in the auditorium everyone will have an opportunity to discover that to be an outstanding person in the scientific field is not necessarily to have your head in the academic clouds. Dr. Cole's lecture will not be at all technical, for his primary aim is to interest his audience.

He will discuss the character of

Editors Needed for Campus Publications

The Press Control Board is now receiving applications for three editorships of campus publications. Editors are needed for the *Student Directory*, *La Cumbre* and *El Gaucho*.

Deadline for the applications is Friday, April 17. Applications should include previous journalistic experience and should be addressed to Georgia Baciu, Press Control Board. They must be put in her box in the student body office.

Election Today and Tomorrow is to Vote On Proposed Increase in Student Body Fees

Election booths are open today and tomorrow to vote on the proposed increase in student body fees. Voting will take place on the Men's Gym Lawn from 9 am to 3 pm.

If the proposal is passed, it will be sent to Provost J. Harold Williams who will submit it to the Regents for approval.

Annual Steak Fry At Tucker's Grove

The annual AMS Steak Fry will be this Sunday afternoon from 2 to 5 pm at Tucker's Grove. Admission will be by one AMS card. "To be assured a steak, buy your AMS card now," said AMS President Danny Escalera. They may be bought in the Graduate Manager's office for \$1.00.

There will be the same excellent cooks as last year: Dean Lyle G. Reynolds, Professors John M. Groebli, Theodore (Spud) Harder, Mayville S. Kelliher, and Wilton M. Wilton. On the menu are steak, salad, beans, french bread, and something to drink.

Sports will also be the order of the day. Trophies will be awarded the winning fraternity team. Last year Kappa Sigma won the trophy for volleyball. The two men who won the horse shoe contest were given shirts.

Get Your La Cumbre; Contest Underway For Sales Contest

Only 700 copies of the *La Cumbre* have been ordered to be sold this year, and since this number is less than in any previous year, students are advised by Editor Sue Bullis to get their copies early.

La Cumbre will include special sections on various campus activities, including Homecoming, High School Day, and Barbary Coast, and many other sections, according to Jim Pitcher, assistant editor.

The *La Cumbre* sales contest will last until April 25, according to Dave Hodgkin, business manager. All organizations as well as any individuals on campus may enter this contest. Receipt books may be obtained in the graduate manager's office, where they must be returned before April 25. The year-books cost \$4, and deposits are non-refundable. A \$2 non-refundable deposit may be taken and considered as a sale for contest purposes.

Requests for the use of ticket booth, including the specific hours and dates, may be submitted to the *La Cumbre* office, Oak Hall 101. For any other information regarding the sales, students may check with Sue Bullis, *La Cumbre* editor, or Dave Hodgkin.

Jazz Club Discusses New Orleans Music

The next meeting of the Jazz club will discuss the development of jazz music as it left New Orleans and began to spread to the other cities up the Mississippi. Also, the music as it developed will show the influence of the first contribution of white musicians to the basic jazz developed by the negro musicians around New Orleans.

Music will include records by Jelly Roll Morton, Red Nichols Five Pennies, the early Chicago jazz of Bud Freeman, Teschmaker, Goodman, and the influence of Bix Biederbecke.

The club meets Monday afternoon at four in Pine Hall 103.

Honor Code System Studied for UCSBC

The honor code system is still being investigated by the Standards committee, according to Diana Evasovic, chairman of the committee. Information concerning the system on the Davis campus is now being studied by the group.

The Davis system which has been in existence for 25 years, consists of these main points. The Welfare Council handles the cases that are referred because of a violation of the code. The power of the council is only to recommend action to the Dean of Students. Infractions of the honor system are never made known to fellow students, and the accused is never informed of his accuser.

Finance Committee is now in the process of trying to coordinate the budgets for next year, and it has become obvious that more money is needed. "Instead of kidding ourselves we should take a more realistic attitude and give people the money they need to do the things that must be done," stated Dave Hodgkin, chairman of the Finance Committee. "If we're going to have an activity, let's do it right—let's give it the full support which it deserves." In the past this hasn't been the case, he pointed out.

Every group has been progressively restricted over the past several years in order to meet increasing costs. Instead of replacing assets, they have been used up at a rapid rate in order to put on any kind of a function at all. The Speech Control Board has been using old props until they now cannot be used any more. The Board of Athletic Control has used up all of their thousands of dollars of reserves.

If the increase in fees is not approved, student body activities must be cut because there will not be enough money to do everything, Hodgkin pointed out.

The student body fees are collected at the same time registration fees are paid.

ASB Elections To Be Held On May 7, 8

A general election will be held May 7 and 8 to fill the offices of Associated Students president, vice president, and secretary for next year. Other offices are three women's representatives-at-large; three men's representatives-at-large; president, vice president and secretary of the senior class; president, vice president, and secretary of the Junior class; president, vice president, and secretary of the sophomore class; and Mesa representative. Run-offs will be held on May 11.

Election for freshman class officers will be held at the beginning of the Fall semester.

Those interested in running for office must sign up in the Graduate Manager's Office by 3:00 pm Thursday, April 16.

At the time of signing-up, candidates will receive a copy of the Associated Students Constitution and Robert's Rules of Order, upon which they will be tested April 23, at 11:00 am, in Pine Hall 101. All candidates must pass a test on this material in order to be eligible to run for office.

Petitions also will be issued at the time of sign-up, and candidates must have them signed and ready to turn in on the day of the test, April 23. Candidates will be allowed to take the test only once and no make-up tests will be conducted.

Candidates for Student Body president, vice president, and secretary must be upperclassmen during their term of office and shall have been in regular attendance at SBC at least one semester prior to nomination.

Following are the unit requirements for class officers: 30-59 1/2, sophomore class; 60-89 1/2, junior class, 90-120, senior class.

To be eligible for an elective office a student must have a scholarship average of C or higher in all college work, a C average or higher in all courses taken while in office, and a C average or higher for the semester preceding the current one. Candidates must carry a minimum of 12 college units during the semester preceding their taking office, and must take a minimum of 12 college units during the period of holding office, except student teachers who may carry a minimum of 8 units.

Publicity will be due in the Student Body Office, Building D, on April 24. Publicity rules will be announced in next week's *El Gaucho*.

Your Student Body Need the Money...

This editorial is an excerpt from a letter written to the editor and sent to all organizations and living groups. It is particularly important at this time.

Dear Fellow Students:

Everything done on this campus which is not a direct part of the school curriculum is paid for by the students. Besides the more obvious things such as the entire athletic program, all music and drama activities, many awards, and all assembly and social events, this includes many expenses which are not noticed by the majority of students, which run from the salaries of policemen for all large gatherings to rental of University chairs and charges for heating and cleaning places such as the school auditorium when used by the students. Just as living expenses have increased for all of us over the last several years, so have the expenses of the Associated Students. Enrollment has been dropping steadily since 1948, meaning a decrease in available funds of nearly \$10,000 while all expenses have gone up. As a result, each year some activities have been cut out entirely and others decreased in scope and hampered by lack of funds. The results weren't too bad at first; there were large inventories which could be used and not replaced, as well as various funds from which extra money could be obtained. The Board of Athletic Control had a buffer fund of some eight thousand dollars for instance. But now: all these sources have dried up; assets have been used at a great rate with no attempt to replace them. We have arrived at a point where we can no longer kid ourselves—you just can't run in the red indefinitely.

In trying to put together a realistic budget and get the Associated Students back on their feet, your Finance Committee is faced with the problem of either obtaining more money to work with, or severely reducing the number of student activities. In the recent opinion poll which Finance took to help them with the new budgets, there was an overwhelming majority in favor of increasing support on all activities—after an activity is once set up it takes very little more to greatly increase its scope—but we've got to have that little bit more to put in. If not, the Speech Control Board will possibly give only one or two productions; the Board of Athletic Control will have to cut, possibly they will decide to have only the four major sports and no minor ones and still be hampered by lack of funds; the Music Control Board will have to take fewer trips; perhaps even *El Gaucho*, which last year came out twice a week will not even be able to have a weekly issue; as well as increased cost for your La Cumbre. These are all possibilities.

There are those who say we already have too many activities, there are others who want even more—what is your opinion? Here is our chance to make a definite decision. If you vote for the first part you'll put the students back on their feet, if you vote for the second part we'll have to force them back. Whatever you want, be sure to express it at the polls Wednesday and Thursday. We'll be glad to discuss it with you if you like. Let's be realistic; let's be proud of our activities—if we're going to have them let's support them.

DAVE HODGIN, Finance Chairman

Pauline Byard Engaged To Alum Ed McCann

Chinese fortune cakes at student council announced the engagement of Pauline Byard to Ed McCann last Tuesday. The couple plans to be married June 21 at El Presidio, and will make their home in Van Nuys.

Pauline, a political science major, is Student Body Vice Presi-

dent this year and served as ASB secretary and office manager last year. She is a member of Cal Club and three honoraries. She also belonged to Spurs, Chimes, and Crown and Scepter.

Ed McCann, who is teaching electricity at John Sutter Junior High in Canoga Park was active in Blue Key and Sigma Phi Epsilon while at Santa Barbara.

UP ON THE HILL by Joe Costantino

I hope to be able to save you some expenses... UP ON THE HILL. Today I contacted Capt. Bernard of the Campus police and have information of an almost Macy-like assortment of goodies that have found their way into the Lost and Found department.

Before detailing some of the items that are to be found in their office under the library steps, I would like to pass on to brother and sister Gauchos some interesting little items that have come through his office.

For instance there was the expensive dress that was found just outside the Ad building entrance one bright and early morning. This was later claimed and returned to its rightful owner. (One of our female faculty members.) Also at other times the office has been the recipient of petticoats, slippers, gloves, kerchiefs, etc. (Female faculty members take note.)

At the moment the lost and found department even contains one pretty nifty looking sweater that has been turned in. In addition to these items, it seems that women are the majority of persons losing items, because most of the cabinet space is taken up with bracelets, earrings, combs, brushes, lipstick, compacts, and even one wedding band.

Besides this jewelry I also noted one SAE pledge pin, one Xi Omega Pi pin, one pin with a Delta and Phi upon it, one Sigma Alpha Phi pin, one lapel pin from the University of Maryland, one gold basketball with an "A" and 1949 on the pin, one blue class ring that reads "Fi-li Deltias—1952," also one IHSHSY ring.

Besides these precious bits of metal the department has several cigar boxes full of rings, knives, and watches—both of the wrist

and pocket variety. One watch contains just the works, and the face, no case or wrist band. Speaking of wrist bands, there are several of these too.

Hold on... don't go rushing off. There are somethings you should know before I continue with this list. You just can't go into the office and paw through the files until you find something you want, and then walk out with it. You must identify any lost article to the satisfaction of the secretary before you will find out if such an article is in Lost and Found. Also they only have tangible effects in this department, no lost weekends, missing morals, or stray girl friends. Also no lost time.

To continue... the Lost and Found has several raincoats, both men's and women's, and a whole locker full of umbrellas, and several ladies' coats, of the type that M. Fredericks labels as Kashia. (I think.)

There's more. There is a veritable library of lost books, pamphlets, notebooks, folders, workbooks, etc. Plus four sets of dissecting tools, one set of sculpture tools, and one slide rule. Also one thermos bottle, two sand pails, complete with shovels, and a toy harmonica, a top, and a toy accordion. (No doubt left from the last High School concert.) Add

one handy dandy little set consisting of comb, brush and nail file. Also several pairs of shoes, and a belt that looks like ROTC issue, but is probably one of these new stomach bracers the women are wearing.

To this conglomeration add one red beanie (Stanford type) with Leila Sears name inside. (No phone number.) In addition, one full carton of king size cigarettes. Brand deleted for obvious reasons.

Also... one pair of prescription glasses that were found in a hotel room in Berkeley during All Cal weekend. Don't know how they were sent down here, but no questions asked if they are yours.

To complete the list there are several necklaces, and one rosary. Mrs. Lubeck, the secretary has been alerted for today, so stand in line and wait your turn. I'm still trying to find my automobile, I can't remember where I parked it today, and my feet are getting sore.

Phrateres Hold Election and Plan Dinner Dance

Joan Hamon and Patti Kaiser were guests of honor as new Phrateres pledges, when the group held a dinner meeting recently.

Fay Taylor is the new secretary. Appointed to offices were Dee Smith, publicity; Phyllis Kaufman, historian; and Phyllis Bell, Phraterian representative.

Future plans include a dinner-dance to be held in May.

Mary Molina Elected President of Spurs

Last Wednesday Spurs elected Mary Molina as President, and Carolyn Barron as Secretary for the Spring semester. The time of meeting is still Wednesday at 4 pm on alternate weeks.

The campus queen has dates galore,
A new one every night;
But Luckies are her steady smoke—
Their taste is always right!

Diana Yates
University of Washington

Nothing no, nothing-beats better taste
and **LUCKIES**
TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?
You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy-GO LUCKY!

So round, so firm, so fully packed—
They're really better-tastin';
So reach right up for Lucky Strike—
Hop to it, time's awastin'!

Richard J. Dresher
Drexel Institute of Technology

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!
Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette by a wide margin. No. 1 reason—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

When nerves are frayed and tempers short—
From books and everything—
Just smoke a soothing Lucky Strike—
To get back in the swing!

David W. Scott Discusses Character of Spanish Art

Today's All College Lecture at 4 pm in Pine Hall 100 will be given by Mr. David W. Scott, Assistant Professor of Art at Scripps College and president of the California Water Color Society. Professor Scott will speak on "The Character of Spanish Art": an art of the greatest originality and significance. The impact of the Spanish character can be felt daily in our surroundings.

Differences and similarities of Canadian and American educational systems were described in last week's All-College Lecture by Dr. John A. R. Wilson, assistant professor of education, who previously taught in the British Columbia schools.

He said that the educational systems of the two countries are much more alike than they are different, since the basic English speaking people in many areas came from the United States.

Two of the principal differences, he explained, are the separate schools and the dual language problem. A large part of Canada has dual state supported school systems—Protestant and Catholic. There are two equal and official languages, English and French. All money, all federal laws and regulations are printed in both languages, which affects the school systems.

"The movements in education usually show up in Canada somewhat later than they do in the U. S. The time lag seems to be from ten to 20 years," he said.

School levels are similar to this country, but publicly supported kindergartens are still quite rare in Canada, although there are many privately operated kindergartens.

Skilled subjects—reading, writing and arithmetic—are emphasized at the expense of the socialized program. The high schools vary from a composite plan in the west to a tendency of separation into vocational and academic schools in Ontario and Quebec. In the larger schools it is common for the school to offer the first year of liberal arts program of the university.

The secondary schools of Quebec offer a fine scholarly education, Dr. Wilson declared. "It is undoubtedly one of the most rigorous secondary educations at present in vogue in North America."

Lou Rose to Give Bridal Fashion Show

The Lou Rose shop of Santa Barbara will present a bridal fashion show tomorrow at 8:00 pm at their store.

There will be an appropriate bridal setting and music will be provided by Mr. Fred Scholl at the organ. Gowns by Cahill and many other famous designers will be featured.

The commentation will be done by Mrs. J. A. Wiggs who is the Bridal Consultant for the shop. Mrs. Margie Miller, manager of Lou Rose's will receive the guests, and immediately following the show refreshments will be served by Mrs. Rose.

Reservations must be made by noon of Wednesday April 8 as there is a limited amount of space available to accommodate the guests. There is no admission charge.

The models who have been chosen are: June Smith, Kappa Alpha Theta; Betty Dorman, Delta Gamma; Lorie Stillings, Chi Omega; Sally McAnaney, Alpha Delta Pi; Jo Salmon, Alpha Phi; Jodi Buckle, Delta Sigma Epsilon; Nancy Bennett, Sigma Kappa; and Joyce Bunting, Pi Beta Phi; Gerry Cox, Independent; Teddie Tye, AWS; and Margaret Nelson for Westmont.

Convertible is Prize in Photo Contest

A 1953 Nash Rambler Custom Convertible, a 21' Sylvania television console, a Bell and Howell 8mm movie projector outfit, room air conditioner, and photo supplies are included in the more than one hundred prizes offered in the third annual flash photography contest sponsored by Sylvania Electric Products Inc. The theme of the 1953 contest, open to all amateurs, is "Folks Are Fun"—shots of people being funny, enjoying games, parties, hobbies, children playing, etc.

Pictures should illustrate the theme and all prints must be in black and white, no smaller than 2 1/4 x 2 1/4 and not previously published commercially. All pictures must be accompanied by the printed circle showing the bulb size from the outer wrapper or sleeve of any Sylvania flashbulb, and must be sent, no later than April 30, 1953, to Sylvania "Folks Are Fun" Contest, P. O. Box 232, Boston 1, Massachusetts.

"Folks Are Fun" contest is open to anyone living in the United States, except employees of Sylvania, their families, and professional photographers. The Junior Contest Division is open to boys and girls under 18 years of age and the Senior Division is open to amateur photographers over 18. The pictures will be judged on the basis of story-telling value, originality, and photographic quality. Additional information and official entry blanks may be obtained from the College Bookstore.

Referral Slips Due At Health Center

All students still retaining a referral slip for a fluoroscopy must turn them in immediately to the Student Health Service, it was announced by Miss Ethel P. Shrode, head nurse.

These referral slips were given out during the spring semester registration week and must be submitted to the Student Health Service to complete the records.

Ted Troy and the ASB Officers wish to thank the "Easter Bunny" for their basket of goodies.

IA Alumni Discuss Teaching Problems

Santa Barbara College industrial arts alumni held their second annual Professional Progress Conference on the Mesa campus yesterday to discuss problems and the betterment of teaching industrial arts.

Eddie Dodge, class of '52, now teaching in the Santa Monica schools, was chairman of the conference meetings, coordinated by Mr. Tom Weir, assistant professor of industrial arts at Santa Barbara College.

Section meetings were held in nine industrial arts fields. Displays of projects and teaching aids were set up. Mr. John Groebli, assistant professor of industrial arts, re-

ported on progress made concerning the recommendations of the alumni group last year. Activities closed with a discussion of problems concerning teaching and teaching - training. Prospective teachers at the College also took part in the section meetings.

The section chairmen were as follows: auto mechanics, John Ehrenborg, Santa Barbara; crafts, Lindy Zichichi, Los Angeles; drafting, Ralph Johnston, Los Angeles; electricity, Stan Ward, Santa Barbara; metal, Dave Carter, Los Angeles; graphic arts, Bruce Brady, Los Angeles; machine shop, Marvyn Melvin, Santa Barbara; photography, William Ramsey, Santa Barbara, and wood-working, Darwin Kusian, Los Angeles.

Alpha Phi Gamma Meet; Plan All-Staff Party

Alpha Phi Gamma, national journalism honorary, recently pledged George Obern as an honorary member and Shirley Chard at a meeting held at the home of Georgia Baciu.

Mr. Ken Palmer from the Santa Barbara News-Press was the guest speaker and answered questions in a discussion session.

A meeting with the Occidental chapter of Alpha Phi Gamma and a publications party for all publication staff members will be held on May 8.

The music department of Santa Barbara College was organized in 1919.

Carnation Ring Tea Scheduled for May 31

The Fourth Annual Carnation Ring Tea, sponsored by Chi Omega, will be held Sunday, May 31, at Rockwood from 1 to 5 pm, with all women on campus being invited.

Traditionally, the main event of the tea comes when the girls who have become married or engaged during the past year step through a ring of white carnations to announce their marriages and engagements.

Expanded facilities now make it possible for Chi Omega to make this Tea an all-campus event. In the past it was given for sorority women only.

ARE YOU TOUGH ENOUGH FOR THIS JOB?

If you can make the grade, the U. S. Air Force will award you a commission, your wings and pay you over \$5,000 a year!

CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

ARE YOU ELIGIBLE?

To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26 1/2 years, unmarried, and in good physical condition.

YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Where to get more details: Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.

Track Team Meets Arizona At La Playa Field Saturday

There wasn't much for partisan Gaucho track fans to cheer about at last Saturday's Easter Relays, what with Hugo Nutini proving to be the only Santa Barbara man to take a first place and the weather making things generally uncomfortable. But for the non-partisan fans who could ignore the weather it was a brilliant meet. Most of the races were closely contested and the field events produced new records galore.

Gauchos Coach Nick Carter sends his thinclads back into competition this Saturday afternoon in a dual meet with the University of Arizona at La Playa Field. The Gauchos and the Wildcats seem to be pretty evenly matched and the meet should be extremely interesting.

As for the Relays, it proved to be satisfying for Gauchos fans in one respect. A Gaucho track man won a Relays gold medal for the first time in many moons.

Nutini had things all his own way in the special 880. He jumped off to an early lead and was never headed, leading Ernie Amador to the tape in the good time of 1:56.9.

Nutini also anchored the distance medley relay team to a fourth place. His mates were John Godfrey, Wayne Piercy and Jerry Downing, all of whom turned in good performances. The sprint relay team also picked up a fourth.

Only one meet record was broken in the open division—USC's Parry O'Brien shoving the iron ball out 56 ft. 5 in. That topped the old record of 55 ft 1 1/8 in. set in 1949 by Moose Thompson.

Bill Miller of the Camp Pendleton Marines, second place winner at Helsinki last year, won the javelin with a toss of 212 ft. 4 in. A stiff wind hampered this event, as it did almost everything else.

Art Barnard of Los Alamitos Naval Air Station, third place winner in the Olympics, won the 120 yard high hurdles in 14.6.

Les Laing of Fresno State, another Olympic performer, took the 100 yard dash in the slow time of 10.3.

Two national records were set in the lower divisions. Don Vick of Chaffey won the high school shot put at 60 ft. 7 1/4 in. which was a new national interscholastic record.

Mason Benner of Santa Monica CC won the junior college shot with a put of 52 ft. 8 3/4 inches. That broke Clyde Wetter's national record of 51 ft. 7 1/4 in. set last year.

Splitters, Mabeggels Lead Bowling Field

The Splitters and the Mabeggels continue to lead their respective bowling leagues, but things are getting more interesting. The Splitters' lead in the Intramural League was narrowed last week when Sigma Tau Gamma pulled to within one game of the leaders by taking four games from Lambda Chi Alpha. The Splitters, meanwhile were taking three out of four from Sigma Pi.

Other games in that league saw the SAE's besting the Sig Eps, 3-1 and the Faculty team duplicated that score against the Sig Toos.

Ray Muhlthaler bowled the high game with a 205, just one pin higher than Lloyd Heavin. Ray also had high series with 556. Sigma Tau Gamma bowled the highest series with 2881.

The Mabeggels retained their two-game lead in the Coed League by taking three out of four from the 7 Ups. Second place King Pins also took three out of four from the Bs's. The Alley Cats topped the Aces, 3-1 and that was also the score of the other games—the Mixed Hits defeating Pep and the Sig Toos beating the Crazy Kats.

STATE
Sombrero and No Time For Flowers

HUGO NUTINI proved to be the Gauchos' only first place winner in Saturday's Easter Relays. The Chilean star won an easy victory in the special 880 yard dash, turning in a clocking of 1:56.9. Santa Barbara's only other place winners were the distance medley relay and the 440 yard relay.—Photo courtesy News-Press.

Gauchos Trample Cal Poly Nine As Gorrie, McIlvaine Shine

By MIKE NOONAN

A spirited Gaucho nine blasted out a 12-4 upset victory over the highly favored Cal Poly "Mustangs" last Friday afternoon on the Mesa field.

It was the third game of a busy week—a contest that marked a peak in the development of coach Engle's boys thus far this season. Starting off the week's toils against powerful UCLA the Gauchos dropped a 7-0 contest on the Bruin's home diamond—and lost the services of all-conference short-stop Bill Davis who was run down by a Bruin base-runner in an unfortunate accident in the fifth inning.

The following day—without the services of Davis, Gary Morris, and Ray Rubinstein—Engle sent his boys against Port Hueneme. It was a loosely played contest—won by the Gauchos when the big stick of Dave Gorrie accounted for two runs in the bottom half of the ninth—score 15-14.

And then came Friday—a severely handicapped club—Davis was still out, and Ken Trout turned his ankle against Hueneme—took the field against what was rated as the team to beat in the CCAA. Cal Poly had a fine record—notably a 6-3 win over UCLA.

A guy named Zanolli blasted out a two run homer off of pitcher Jerry McIlvaine in the top of the first—but that was all for the Mustangs this afternoon. McIlvaine burned 'em in—showing a tremendous change of pace—giving up but nine hits, and lasting the distance.

Gauchos batters blasted out sixteen hits—sixteen hard hit bingles against a completely frenzied Mustang nine.

Little Dave Townley filled in for Davis at short—filled in with three sharp hits in four trips to the plate, and Dave Gorrie led 'em all with a hefty four for five. Dave started things off in our half of the first when he sent Duenas in with a resounding triple and then tied the game up when he came home by way of one of the many Cal Poly errors.

Gary Morris and Joe Duenas also hit with consistency, but, in all it was a team win. On the field not an error after a simhap in the first—at the plate—murder! The boys really hustled—hustled the astounded Mustangs right out of the park.

Over this next weekend—another against Cal Poly on Friday and then a deciding double header against Fresno State the following afternoon. Fresno and Santa Barbara are now tied for second—one game behind league-leading Pepperdine.
