VOL. 4

FRIDAY, SEPTEMBER 26, 1924

NO. 2

TELEPHONE TO BE INSTALLED FOR STUDENTS

STUDENT COMMITTEE WILL RECEIVE CALLS

A telephone for the use of students will be installed in the office within a few days.

President Phelps has arranged for the installation of the telephone with the provision that students assume the duty of answering the phone and posting all calls. The burden of receiving student's calls and confusion caused through allowing students to use the secretary's telephone have made it necessary to have a telephone for the exclusive use of students. Three plans providing for student calls were proposed—one whereby a pay telephone would be installed, another whereby Student Body would install a telephone at its own expense, and the above plan which was endorsed by the council. In accordance with the council's wishes, a student committee has been appointed to assume responsibility for the care of the telephone.

ENROLLMENT REACHED

439 THURSDAY MORNING

The total enrollment of the college numbered 439 Thursday morning. Predictions were made for a registration of about four hundred this fall, but the present registration is much beyond expectations.

The increase in registration is partially due to the large number enrolled for the special courses being offered by Dr. Stockton and Dr. Ellison.

ANOTHER INSTRUCTOR TO BE ADDED TO STAFF

A new member will be added to the faculty in order to relieve the present over-crowded conditions.

The Science Department is particularly crowded, and in Mr. Peter's geography class there are over one hundred students enrolled. The instructor will probably arrive to assume duties Monday.

CHANGE MADE IN OFFICE ARRANGEMENTS

Several changes in office arrangements have been made this term. Mr. Ashworth will occupy the office formerly held by Dean of Women and Dean Pyle will have Mrs. Clow's office. President Phelps' office will be divided in order to provide space for Mrs. Clow.

The A. W. S. official stationery is on sale in the A. W. S. club room during each Wednesday noon. This should be of especial interest to the new students who have not yet purchased theirs.

A. W. S. WILL HOLD PARTY IN COURT TONIGHT

A garden party in honor of the new girls is to be given this evening by the A. W. S. In the court at eight o'clock sharp the fun will begin, to last until ten. The particulars are being kept a deep mystery, but if rumors have any weight, the girls are going to have a wonderful time. The setting could hardly be more effective than the court at night, with the lights shining on the eucalyptus trees and reflected in the pool.

The party is being given especially for the new girls who will be escorted by their "Big Sisters." As there were not enough "Big Sisters" to go around, a new list will be posted so that every new girl will have a "Big Sister" to see that she has a good time and meets all her other big and little sisters. Every member of the A. W. S. is expected, and a good time is assured.

LIVELY STUDENT MEETING

The first Student Body meeting, which was held Thursday, started off with a bang. Enthusiasm and pep prevailed throughout the entire meeting which closed with the singing of several songs and an exhibition of yells. Both the Freshmen and Sophomores showed a spirit of rivalry in their yells, the Frosh further displaying their snap by holding a secret meeting after assembly. The Sophs continued the battle royal by burning the numerals of the Frosh immediately following the meeting.

The Health Benefit arrangement with the Cottage Hospital met with the hearty approval of the Student Body. The Health Benefit Association which will be composed of students paying \$2 per semester is similar to the compulsory arrangement made at Stanford. Membership in our association is purely voluntary.

Mr. G. W. Curtis, superintendent of the Cottage Hospital, made the following explanations, which were printed in detail in last week's Eagle:

OFFICE REQUESTS PROGRAM CARDS

A fine of one dollar will be imposed upon all students who fail to turn their program cards into the office today. Each student is requested to leave three program cards in the box on Mrs. Clow's desk.

Students should hand their semester cards to the heads of their departments before leaving today. A fine of one dollar will be charged all students neglecting to turn in semester program cards.

HELEN CULP APPOINTED SOCIAL CHAIRMAN

Helen Clup was appointed social chairman by the Student Body Council, which held a special meeting Wednesday noon. As soon as a social committee has been appointed plans for the social activities for the year will be completed.

Mina Ellis, graduate of the General Professional Department, will teach at Hermosa Beach during the coming year.

SOCIAL SCIENCE CLUB WILL MEET WEDNESDAY

The Social Science Club will hold its first meeting of the year next Wednesday evening, October 1, at 7:30, in the Chamber of Commerce building. Plans for the year, including nomination of new members, will constitute part of the program for the evening. The Club which is composed of students who have shown an especial interest in problems of contemporary civilization, will consider several questions of current interest at the first meeting.

Carlisle Gorman will give a forecast of the coming election, a topic which is of paramount importance at the present time.

Representatives of the club were fortunate in securing a room in the Chamber of Commerce building in which meetings may be held regularly every other week.

TIE-UP CONTEST PERSHING PARK TODAY

FROSH-SOPHS WILL FIGHT FOR HONORS

A tie-up contest between the warring Frosh and Sophs will be held this afternoon at 3:30 at Pershing Park. President Phelps kindly conceded that eighth period classes be excused in honor of the occasion. The tie-up contest is expected to close all hostilities between the classes, as President Phelps has requested that an armistice be signed next week.

Numerous meetings have been taking place all week in preparation for the fray. Both classes, the Frosh and the Sophomores are on edge and are eagerly waiting until this afternoon to go out and prove just who in this college of ours is superior.

Spirit is running high between the rival factions, due to the nocturnal shanghai parties that the sturdy Sophs have been staging during the week. Several Frosh, not long since stranded on the San Marcos at midnight, will make a noble effort to restore their injured vanity.

STUDENT BODY CARDS ISSUED NEXT WEEK

The Student Body cards which will serve as receipts and passes to all games, will be mailed next week, according to Treasurer Gorman. Students must keep both this semester's and next semester's cards in order to secure an annual. Admittance to all games will be by presentation of the cards, and a copy of The Eagle may be obtained by presenting the card. The cards will be white this semester and green the next term, in accordance with the college colors—green and white.

Dear Editor: This open letter might be entitled "Pep, It's a Tonic." Last year it was said by a prominent member of the faculty that it was the best year that S. B. S. C. ever had. Each class put on a snappy entertainment, numerous organizations were begun and our athletes did more than their share in the mad rush for "Pep." The Sophomore class of this year is doing its utmost to create that contagious epidemic called "Spirit" up here on this hill. Today the Frosh and Sophomore classes participate in a tie-up contest. This has been given write-ups in the daily papers and it is expected that a crowd of town people will attend the battle. Students, which means both men and women of S. B. S. C., go down there to Pershing Park this afternoon, in full force, yell and pull for your teams, show some pep, and may the best team take the cake.

A PEPTIOLOGIST.

Although the majority of this year's graduates received appointments in this state, Edith Barnes will teach in Nevada in the Home Economics Department of the Lincoln County High School, Panaca.

NEW FACULTY MEMBERS ENTERTAINED WITH SUPPER

The new members of the faculty were entertained by the former faculty members at an outdoor supper yesterday evening. After college hours the party motored to the Upper World to enjoy stunts and a delicious barbecue supper.

The new members of the faculty and their wives are Dr. and Mrs. Ellison, Miss Elizabeth Crumby, Miss Elsie Pond, Dean Pyle, Mr. and Mrs. Frederick Griffin.

BLOCK "S" STUDENTS RECEIVE GOLD PINS

About twenty students, all members of the Block "S" Society, are the proud wearers of small solid gold "S" pins. The pins, which arrived last week, are very attractive. All men winning letters are entitled to the pin, and it is hoped that the financial status of the society will be such that each subsequent member may have a pin.

THE STUDENTS' TELEPHONE

The installation of a telephone for the use of students is an innovation which has long been needed. The burden of the president's secretary will be greatly lessened in so much as she will not have to answer phone calls, write and post notices, or answer inquiries regarding the use of her phone. Then, too, students may use the new phone without feeling that they are imposing upon the office administration.

It will be truly a students' telephone, used and controlled by students. We are indeed fortunate to be given the privilege of the use of a phone free of charge and should show our appreciation through thoughtful and considerate use of it. Noisiness and confusion should be avoided as much as possible. The student's telephone will be a satisfactory asset if all concerned are courteous and willing to share in its care.

PRACTICAL SCIENCE CLASS ORGANIZED

A practical science class has been organized for the benefit of those students who are lacking a fraction of their required science credit. The class will meet on Saturdays on which there are no games, under the direction of Coach Gilliland. For 36 of these field laboratory hours ½ a unit will be given.

Several interesting trips are being planned. These include a trip to Santa Cruz Island, one to Surf, another to La Cumbre, and another to Stanley Park Lodge. The date for the first trip has not yet been determined.

BUDGET ADJUSTED BY STUDENT COUNCIL

After many adjustments a budget was passed upon by the student council which held its first meeting last week. Although the student body dues have been doubled, the council had no difficulty in apportioning it to the various activities, which have ready use for all increase in finances.

The following budget, which was worked out on a percentage basis, was recommended to the student body for adoption:

Men's Athletics	49.5%	\$2326.50
Women's Athletics	3.5%	\$ 164.50
Social Committee	10.0%	\$ 470.00
Forum	1.0%	\$ 47.00
Eagle	10.0%	\$ 470.00
La Cumbre	14.0%	\$ 658.00
General Fund	2.0%	\$ 94.00
Sinking Fund	10.0%	\$ 470.00
Total	100.0%	\$4700.00

Francis Noel, graduate of the Community Mechanics Department, holds a position in the Orange Cove High School. Noel edited the 1923 issue of La Cumbre.

Dean Smith, the good-natured Student Body Treasurer of last year, had the good fortune to secure an exceptionally fine position with the Kern County Union High School.

Euna Proper, vice-president of the Student Body last semester and graduate of the Home Economics Department, has taken a position in the Yuba City High School. Yuba City has been Euna's home for several years, and she appreciates her position, which enables her to live at home.

MEN'S MEETING HELD TUESDAY

At the men's meeting conducted by Dean Ashworth last Tuesday, several matters concerning parking, use of free periods, and "cuts," were discussed.

A hospital fee was discussed to provide for incidentals in connection with hospital cases. The idea was given as a suggestion to think over and take action on at a later date. A Men's Club meeting followed Dean Ashworth's talk, and the advisability of assessing regular dues was discussed. Action on this matter was postponed. The regular dues will take the place of assessments for each smoker or feed.

SIGNS CAUSE FROSH TO WONDER

At least one class seems to have developed a lot of pep suddenly. The harassed Freshmen were confronted with various kinds of helpful hints and sage advice from our illustrious Sophomores Monday morning. One can hardly blame them for wanting the world to know that they "know the ropes" and are quite experienced.

The numerals '27 are very much in evidence around the campus from the top of the building down to the sidewalks.

We are rather dubious about the sign "Welcome Freshmen," but we think that the Freshmen will show up with just as much school spirit and enthusiasm as any of the other classes just as soon as they get used to the college routine.

A FRESHMAN.

Marion Ogden, Naomi Kasten and Lois Fratis, graduates of the General Professional Department, are all teaching in the Lompoc District. Marion Ogden, who was chairman of the A. W. S. social committee, is a member of the Lompoc Grammar School faculty. Lois Fratis is also a member of the Lompoc Grammar School faculty. Naomi Kasten is teaching with Pearl Wynes at the Maple School in the Lompoc District. Miss Wynes, who is a graduate of this college, holds the principalship of the Maple School.

Ruth Blanchard, Home Economics graduate, has become associated with the Rio Vista Union High School as teacher in the Home Economics Department. Ruth was a prominent worker in her department.

TERTIUM QUID'S CORNER

That Famous 'Middle' Class

A great man once remarked that the middle class was the backbone of the nation, or words to that effect. Quid (who takes a great interest in the welfare of the college) is tempted to make a comparison.

In this college there are three distinct classes of students: the knockers, the lowest class; the sublime indifferents, the 'middle' class; and the boosters, the upper class. The statement of the great man, while true of the nation, when applied to the students of the college, a smaller 'nation,' is not true, for the 'sublime indifferents' are real thorns in the side of Progress. Knockers are relatively few, boosters are still more scarce; their efforts merely serve to neutralize the effect of their respective merits and demerits, struggling as they do across the large apathetic mass of indifferents.

The most vital need of the college today is **more boosters, to be recruited from the ranks of the indifferents.**

As long as there are a great number of students on the campus who have little or no interest in the welfare of the college, the efforts of all the boosters will be of little avail. Every student of the college should be an ardent well-wisher and booster for the college. Our middle class of indifferents, however, feel that the very smallness of the institution denotes a lack of opportunity. They feel that the college has very little to offer them; consequently they merely seek to obtain the strictly academic benefits of the institution, giving little of their time and efforts to the improvement of the less academic, but equally important, sides of the college. Feeling as they do, then, how can they become boosters for the college? They believe that there is nothing to be had at the college but good hard work, (always difficult to boost for), that there are no important outside interests that always make the life of the student both instructive and interesting. Hence spring the sublime indifferents.

Quid would like to suggest a plan to these numbers of indifferents. On this campus there are obtainable many of the activities that are to be had at most of the larger institutions, and, as the need becomes felt, more are being added. Has it ever occurred to the indifferents that if one of their number, or two, or three, should wish to form some new society, club or organization, that there is nothing to hinder them from so doing but sanction from the proper authority, (which is generally forthcoming if the proposition is fair and just)?

The way, then, to become interested in this institution is to do something for it, to 'put' as well as to 'take.' Become actively interested in one of the campus activities, and thus be fully benefited by your quest for the broadening influence of a college education. Put some of yourself into the support of some campus organization or activity: athletics, The Eagle, The Annual, a host of others; and take, as your reward, the satisfaction of an awakened interest in the institution as a whole.

Believe, for it is true, that the Santa

Since The Eagle is the students' paper, any contributions which students wish to make will be deeply appreciated. If you know some news and don't care to write it up, tell some one on the staff so that the latest and best news may be printed in your paper. Any such tips would be gratefully received. Then, too, if you have any suggestions to offer in regard to make-up of the paper, suggestions are always cordially welcome. The Eagle is supported and read by the students, and we wish to make it conform as nearly as possible to your ideals of such a paper.

Although it is the aim of the staff to make as few mistakes as possible, some are unavoidable, and we trust that you will call our attention to any false statements, so that we may make corrections at once.

The Eagle is always glad to print any letters which students might like to write about college activities, either in constructive or destructive criticism or as to suggestions. Your opinions on your college affairs are valuable, and The Eagle is only too willing to serve you.

THE EDITOR.

STUDENT BODY OFFICE PREPARED FOR USE

The student body office, which is situated in the northwest wing of the building, has undergone a rapid transformation from an unsightly room to a presentable office. Several chairs have been added to the furnishings as well as some new green window curtains. Due to the removal of several layers of dust and waste papers, the office is now ready for use. It is hoped that the student body council meetings may be held there hereafter.

MUSIC COMPOSED FOR COLLEGE HYMN

Henry Poetkin, a member of the June graduating class, has composed and sent to Dean Ashworth a musical setting for the college hymn which the latter wrote last year. The words of the hymn, which appeared in last year's annual, were written by Dean Ashworth to fill longfelt need for a real college hymn. Until now they had not been set to original music.

Mr. Poetkin has also written a setting for the poem "Sunset" which was written by Margaret Cronise, a Junior College student, for last year's annual. He has sent her a copy of the music and asked for permission to have the words and music printed.

Mr. Poetkin is now teaching at Covina, California. He sent his greetings to faculty and students and expressed the hope that the music might be of service to his Alma Mater.

Barbara State College is the best place on earth for you to be, that it can offer you more than any other such institution. Believe it and live it! Another great man once said, "He who serves best, gains most." Every student in the college can gain most and serve best by becoming a REAL, LIVE BOOSTER!

PROSPECTS BRIGHT FOR BOTH GLEE CLUBS

Thirty girls were present at the first practice of the Glee Club which was held Tuesday afternoon at the music cottage. Although the Club has not yet organized, the prospects are excellent for a good year. The Boy's Glee Club which met at the Y. M. C. A. the same night had a good showing. Mrs. Barnett stated "the quality of this year's Club bids fair to surpass that of last year."

London, September 1, 1924.

To the Editor of The Eagle, State Teachers' College, Santa Barbara, Calif.

This will reach you when you are dispatching the first copy of The Eagle to press and I want to send the faculty, my friends of the student body, and you, greetings and best wishes for the coming year.

I believe that the last time I wrote, I was about to depart for islands in the South Seas where there was much adventure in store for me.

Toward the end of June I sailed on a Chinese packet for New Zealand and we encountered three hurricanes with the wind blowing to point ten on the barometer or one hundred and twenty miles an hour. Once we went over to a list of forty-two degrees in a beam sea and if a ship lists to forty-five, she never comes back. There was a bit of suspense aboard for a few minutes, when everything from soup to furniture went sailing to the starboard side.

But, we reached port and then made Australia, where I stayed three weeks, leaving for India, which is the place of places for dreams and romance and resplendent color. Then the Red Sea and at last Port Said, where at three in the morning I went to the mosque and heard the faithful called to prayer from the minaret and beheld them praying.

At last, after six weeks at sea, we reached England.

But, girls! If some day you amass a fortune from teaching and come to London, do not miss Liberty's magnificent store housed in a building of the Tudor period. I never saw such things of beauty in design and color anywhere and probably will not again. You who have block-printed and batiked and Home Economized with Miss Fry, do not miss Liberty's!

And men! If some day you are in London, but leave your fortunes in safe keeping; stroll about the Limehouse district, which is the toughest place in this metropolis. You find everything from Chinamen to Lascars from the East and the scale of humanity among the people of the world. But these interest me more than the paraders of Piccadilly and the Strand.

On the morrow I go to a friend in Cambridge for a few days, and Friday leave for Dunkerque to meet my French cousin, with whom I will motor through Belgium and France to his home in Rouen. From there to Paris with his brother, an artist.

Then if Paris does not captivate me too much, I shall be off for Italy, Spain and should the fighting with the Moors be not to "rough," I hope to get over to Morocco. A Spanish or Portuguese ship will take me home by way of the West Indies and Panama, up the west coast of Central America and Mexico. But what is the proverb? "Man proposes and God disposes."

I think of you all up on the hill often and next February I shall be glad to have returned to the most beautiful place I have yet seen, and that is Santa Barbara.

Again, God-speed for the coming year to one and all,

Sincerely,
HAMILTON A. WOLF.

The engagement of Miss Eleanor Zerby, former student of the college, and Irwin McGeary was announced this summer. Eleanor was a graduate of the Junior College Department and the editor of last year's La Cumbre. Irwin McGeary is in the radio business with his father.

MISS GANGE ELECTED PRESIDENT OF A. W. S.

At the first meeting of the A. W. S., held Tuesday morning, Bernice Gange was elected president for the coming semester, to succeed Frances Drew, who was elected last spring but was unable to return to college this fall. Ruth Garner was made chairman of the social committee, taking the place of Marjorie Low, who has resigned her position, as she will not be at school this year.

After a report from the constitutional committee, a new constitution was read, and after a number of amendments had been added, was adopted, to take the place of the former one, which was lost.

It was decided at this meeting to hold a "backward party," October 3, and plans are under way to make this a huge success. The "backward party" is an annual event, being given each fall by the old members of the A. W. S. for the incoming women students.

Dean Pyle announced that any girl wishing a position might consult her.

The epidemic of "the boys' bob" is spreading on our campus. Erma Steward appeared this week with her locks tightly shorn.

The youth pleaded and pleaded, but to no avail.

"Please, just this once?" he almost cried.

Her voice was firm. With not a semblance of a shake in it, "I said 'No,'" she declared.

"Aw, come on, please," fairly shouted the youth.

"Positively NO," she answered him. This time her voice had a ring of anger in it.

"Gee, mother, you were young once; lemme have the machine just this one time, will yuh?" pleaded the lad.

Mrs. Clow was unable to be at school Monday because of illness.

WHO IS TERTIUM QUID?

Early this week the editor of The Eagle received a communication from one who signed himself Tertium Quid. A handy dictionary revealed the fact that the name is a legal term denoting 'party of the third part who remains unidentified.' The mysterious writer enclosed a short article concerning a phase of campus life, elsewhere to be found in this issue, and added that he would like to write a short article for each issue.

The only clue that he (or she) gave to his identity, was that he had once attended this institution, three years ago. He added that he still had a great and lasting interest in the college, and that he was in a position to constantly observe the progress that communication, since it contained certain elements of vital truth that, though seldom that of, should be seriously considered by all. Who is Tertium Quid? Is he teacher, student, merchant or merely an interested spectator?

WOMEN'S ATHLETIC SEASON OPENS TUES.

The first call for women's athletics was made Tuesday afternoon with the opening of the basketball season, when a large number of students turned out for this sport. Other practices were held on Wednesday and Thursday afternoons. Miss Weage is planning to divide the group into classes next week as the first step towards the interclass games which will come during the seventh and eighth weeks, at the close of the season. A basketball manager will also be chosen next week, and managers for the other activities are to be selected.

Besides basketball, tennis and hiking are the other fall sports open to the women students, and the point system which was used last year will again be used. It is expected that by the close of this year several students will have the required number of points to be given the English "S," the official letter for women's athletics.

The year's program, as outlined by Miss Weage, is as follows: Fall sports, basketball, with the final games the seventh and eighth weeks, tennis, closing with a tournament the eighth week, and hiking; winter sport, starting after the Thanksgiving holidays, volley ball; spring sports, beginning in March; baseball, tennis and hiking.

FOOTBALL PRACTICE WELL UNDER WAY

As the second week of practice draws to a close, prospects for a successful season are even more promising. The total of men out for football has passed the 40 mark, insuring sufficient material for nightly scrimmages. The first four or five scrimmages have helped, to some extent, to single out the most likely candidates for the varsity squad.

Especially noticeable is the wealth of backfield material, a determining factor in the scoring ability of any team. To date the greatest worry of the coach is the lack of an experienced and heavy line. However, the daily practices should develop some fast linesmen from the twenty or so aspirants to these positions.

The first game, a week from Saturday, with Christian College, will be a real test of the Roadrunners' strength, for the Los Angeles team is ranked as fast and heavy. The goal of the college will be the defeat of the U. S. C. Frosh who are the most formidable of the long list of dangerous opponents. Christian, Loyola, LaVerne, Bakersfield, San Diego and the S. C. Frosh are all sufficiently strong to make accurate predictions of Roadrunner victories out of the question.

A week from Saturday, at Pershing Park, should see every member of the college in the rooters' section, backing up the team with a real display of college spirit.

FROG HUNTING PROVES FASCINATING SPORT

The new sport is here! Some few innocents may still have the erroneous thought that this is football season, but how untrue. Ever increasing numbers of students are signing up for the sport and they are beginning to practice most diligently. A courageous heart and a hearty constitution are the only necessary qualifications for those who would like to go out for this most fascinating game—to-wit: Frog-hunting.

The training is severe. Skillfully organized parties must carefully comb the city from dusk to dawn, searching, frantically searching, prayerfully searching, madly searching for the elusive, exclusive frog. Daily they must minutely examine each cranny and crook of creeks and canyons—with such pitiful results.

The scoring system is highly involved—a "1" point is given for the capture of a frog, while a "5" point is given for the non-capture of a frog. The Coach is, as is to be expected, also in charge of this latest sport.

Short Drama

Mrs. Clow comes running down the steps trying to catch a car downtown. She slips and falls. A Frosh laddie wishes to make a good impression, and rushes to her assistance.

Frosh laddie: "Have you fallen madam?"

Mrs. Clow: "No. I always come down the steps this way."

We wonder if some of the cars that the Frosh are using came from the Used or Abused Car Market?

"Is Count Ivanawfulitch Please-scratchmybacksky very ill, doctor?"

"Well, I'll merely say that he's in for a long spell."

TENNIS MEN PLAYING ON MUNICIPAL COURTS

Tennis practice for men is being held daily on the Municipal Courts at the beach, in charge of Phil Brotherton, a member of last year's squad. About ten men are out for the sport, all working for places on the six-man squad.

Early next spring a trip is planned in Southern California, when the college men will hold a series of matches with the Southland Colleges. As a nucleus for a team this year, the college has two men from last year's squad, Brotherton and Ellsworth. There are also several promising new men, among whom are Abbott, Greenough, Hollingsworth, and Asakura. With such a good turnout, competition should be keen enough to build a successful team.

ZERO HOUR PROVES BUGBEAR TO FROSH

Tuesday afternoon—
Along shadowed corridors brooding gloom solemnly stalked touching blithe spirits with a scrawny hand, thereby making spirits, a moment before happy and gay, haggard and folorn. The J. C. Freshmen cowered against the walls or drooped along on the benches. Startling eyes glared wildly on watches. With each tick a little nearer approached that fateful, all too probably fatal, hour—4 o'clock—zero hour—the hour set for the English A exam.

Mr. Ashworth on Island trip: "Say, Coach, you're awfully sick, aren't you?"

Casey (very indignant): "Very sick nothing; I'm heaving as far as you are."

NEW SYSTEM ADOPTED FOR SWIMMING TESTS

Despite the cold water, swimming tests are being given daily, several men having already passed the test. Under a new system, in effect at the University of California, a man may receive a half unit credit for swimming upon passing a designated test, without further work in that sport. The test consists in swimming with a given stroke, for a distance of a half mile. The stroke used determines the grade to be given, but credit for the course depends upon the passing of the test, rather than upon the style used.

Wise Soph: "Say, Frosh, what'd you think of a guy who got up in the middle of the night to go horseback riding?"

Green Frosh: "Why? Who done—I mean did—that-?"

Happy Soph: "Paul Revere."
