

## Rental of Carrells is Considered

A policy designed to end faculty abuse of the privilege of reserving private study carrells in the library was agreed upon at last Thursday's meeting of the Faculty Legislature.

The policy called for the establishment of a rental fee for each carrell of \$5 a quarter for assistant professors, \$15 for associate professors, and \$25 for professors.

The fee system is designed to encourage "people who aren't using their carrells to give them up, and it will allow people working on long-range projects to hold their rooms as long as they need them," said David Brokensha, UCSB anthropology professor.

A report presented by the Library Committee at last month's meeting of the legislature revealed that of the 84 faculty members occupying carrells, 17 had held them for 10 years or more, and 72 of the total had occupied their carrells for at least three years.

Most U.C. campuses limit the occupancy of carrells to one or two quarters.

Without any specific limit on their stay, many faculty members were holding on to their carrells for years. Thus, few people on the waiting list were being satisfied.

According to assistant librarian Eugene Graziano, the shortage resulted "when the faculty emphasis turned to research several years ago...the demand (for the rooms) increased but the old people weren't leaving."

To correct the situation, the Library Committee sent a letter to the faculty members holding carrells, asking them to turn them over to those on the waiting list.

Only half of those who received the letter responded, though two-thirds of those who did answer were willing to give up their rooms if necessary, Brokensha said.

In addition to clearing out the "homesteaders," the committee

## Fire Protection Plan Lifts County Burden

By KAREN CLABEAUX

The proposal to shift more of the burden of fire protection from the county to the citizens was accepted by the Board of Supervisors at a meeting last week.

"After two days of public hearings, at which no input was received, the board referred the proposal to county administrative officer Larry Parrish for recommendations on its various plans," said a special districts secretary.

"We will be voting on the proposal starting April 12," said Supervisor Bill Wallace. "The items which won't involve added costs for the county will probably be approved then and the others will probably be defeated."

The fire plan, consisting of over 100 possible programs to maintain adequate fire protection with cutback funding, asks for plans including: smoke detectors installed in every home by 1985; sprinklers installed in larger buildings; a 56-hour work week reinstated for fire-fighters; increased volunteer fire-fighting efforts; stricter enforcement of brush clearance ordinances; and a new system of street addressing.

The citizen's committee that authored the plan feels that the

What has been called the world's largest rugby tournament was held in Isla Vista this weekend.

## Intensive English Program's Future and Staff in Question

By LEE SHELTON

Intensive English, a program within UCSB's English and Subject A departments designed to improve the reading and writing skills of minority and low-income students, is considered a critical part of their adjustment to university life.

Recent administration decisions have, however, left the future of the program and one of its most vital members in serious doubt.

Mark Ferrer, who is in his sixth year as a lecturer in the Intensive English Program, was informed earlier this year that he was not being rehired. He would have been up for review next year for Security of Employment, the lecturers' equivalent to tenure. His work as an instructor has received praise from students, teaching colleagues and members of the administration.

This action prompted a strong show of support from Ferrer's admirers. A group of students, led by Michael Pina and Kristina Griffin, have collected some 300 to 400 signatures on a petition to be submitted to Chancellor Robert A. Huttenback. The petition requests the reappointment of Ferrer to his current position, and that a more stable funding base be established for the Intensive English Program.

Ferrer has also received backing from the English Department. Department Chair John Carroll has actively lobbied the administration on his behalf. According to Carroll, "We (the English Department) completely support the EOP program and the reappointment of Mark Ferrer."

There is a strong possibility that Ferrer will remain with the university although his role has yet to be determined.

"Officially, on paper I'm fired, but by verbal promise I'm rehired in a capacity yet to be defined," said Ferrer. Ferrer sees his own struggle as secondary to the needs of the Intensive English Program and the students it serves. "The problem," he said, "is our program's funding base."

At present, Intensive English is funded through "soft" monies, which are allocated to departments and left over after their top priority needs have been satisfied. As a result, Intensive English is, as director Michael Fernandez said, "dependent upon the good will of the English and Subject A departments."

## Bill to Equalize Funds in Athletics

By CAROLYN FRIDAY PAUL

The Assembly Education Committee unanimously adopted a bill last Wednesday requiring state and community colleges, and requesting the University of California, to develop regulations ensuring equal athletic opportunities for male and female students.

The public institutions' progress in this area will be monitored by the legislative analyst in annual reports to the legislature.

"In so far as there are monies available for athletics, the university should consider sport by sport the distribution of monies between male and female," said Assemblyman Leroy Greene (D-Sacramento), the author of the bill.

The state colleges' student advocate Steve Glazer told the committee, "We're not trying to hurt the football and basketball programs, but if it's necessary, we should slow down the growth of men's sports programs to let the women improve their programs."

U.C. representative Lowell Paige told the committee, "It behooves me to alert the committee that the regents may not adopt some of the provisions of this bill. There are some provisions which are in conflict with HEW's Title IX."

Under the California constitution, the Board of Regents cannot be mandated by legislative action, such as the Greene bill, but it has the option of adopting any or all provisions if it chooses.

In compliance with a 1975 directive from the federal Health, Education and Welfare Department, the regents already adopted a policy by which the ability and interests of both sexes are equally

## Weekend For I.V. Residents Seems Unusual

Although the rugby tournament and fraternity rush were scheduled last weekend, Officer Bill Spears of the Isla Vista Foot Patrol stated that "all in all it was a quiet weekend."

But according to last Friday's and Saturday's police records, the "typical Isla Vista weekend" appeared to have been a bit more than the ordinary. Friday evening appeared to be "less quiet."

Intoxication seemed to be the most common problem, and according to Spears, "loud party calls" were constantly received throughout the weekend. Numerous fights and disturbances also highlighted the weekend for many Isla Vista residents.

Complaint calls concerning parties on Trigo Road, Cervantes and Abrego Road were received by the I.V. Foot Patrol.

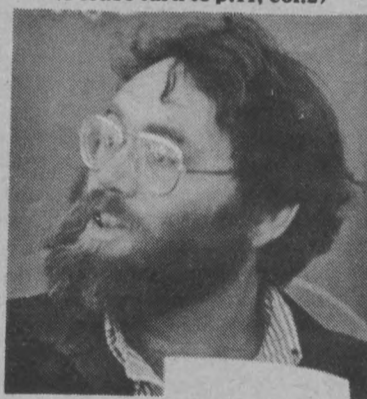

A "malicious mischief of an auto" report was filed in which a few visiting rugby players overturned an automobile. No arrests were made, but according to Spears, "The players were constantly headed by our officers into the direction of their sleeping quarters."

Many of the fraternity houses faced problems with "party crashers," but Sigma Alpha Epsilon Fraternity faced an additional problem as a woman was reported "throwing rocks at fraternity men."

Arrests were also made by the university police at a dance held at the Cafe Interim. Intoxication again appeared to be the cause of arrest.

In addition, a residential

## Minors Arrested For Burglary, Vandalism

Three juveniles were arrested last Thursday in Goleta's Hollister Inn on felony charges of vandalism and burglary.

Two of the minors had escaped approximately two weeks before from the Rancho Del Campo Juvenile Institution in San Diego County. The address of the third juvenile is unknown.

Ages 15 to 16, the minors were apprehended by the Sheriff's Department around 9 a.m. at Hollister Inn, after the hotel had reported vandalism of one of their rooms.

"The vandalism was quite extensive," said Deputy Robert Spinner. "About \$1,000 to \$2,000 worth."

During the investigation of the damaged hotel room, Sheriff's officers discovered stolen property belonging to the Calvary Way Christian Fellowship Church in Goleta. The property, valued at an estimated \$1,000, had been reported missing after the church was burglarized last Monday night.

According to Spinner, the minors will not be sent back to Rancho Del Campo, but will remain in Santa Barbara until juvenile officers determine what charges to press.

"They will remain in Juvenile Hall until their charges have been dispensed with," said Spinner. "Then they will be sent back to San Diego."

# HEADLINERS

## The Nation

## The State

**LOS ANGELES**—Southern California Rapid Transit District directors Saturday approved an unexpected five-cent reduction in the basic bus fare but made other changes, mostly upward, to bring in an additional \$31 million next year. The new fares, lowering the basic charge to 50 cents, but increasing regular monthly passes \$10—from \$20 to \$30—will go into effect May 1. About 40 percent of the districts 1.3 million daily riders use monthly passes. Climaxing a seven hour session, the board voted eight to one for the new system, which virtually overhauls the existing fare structure for the Los Angeles region's 2,600-bus network.

**LOS ANGELES**—Senator Edward Kennedy is back on the east coast after a brief two-day campaign through California. Kennedy addressed a large crowd at a Jewish temple in Los Angeles last night and confirmed his support for Israel.

**LOS ANGELES**—Nearly a million sun worshippers blitzed Southern California beaches Saturday, crowding the sands, parking lots and highways and catching lifeguards by surprise with their numbers. Hot desert winds that would have reduced the crowds diminished, no longer fanning the year's first two major chaparral fires near Sunland and Glendora. About 1,000 firefighters still battled the blazes but the flames were reported moving slowly after the winds died.

**SANTA CLARA**—What started out as a polite exchange of views among seven rival candidates for the Republican nomination for U.S. Senate turned into a donnybrook here Saturday, with charges made of a backroom deal between Paul Gann and Howard Jarvis. At a convention of the California Republican Assembly, Gann's opponents charge that Jarvis had made a deal to endorse Gann's candidacy next Tuesday in Los Angeles in return for Gann's endorsement of Jarvis' income tax cutting June ballot initiative, Proposition 9.

**WASHINGTON**—President Carter disclosed Saturday that he has fixed a date when he expects major European allies to take new action against Iran to help resolve the hostage crisis. In an interview with television correspondents from Britain, France, West Germany and Italy, Carter said that, in the absence of favorable developments, "we don't have much time left" in which to consider new moves against Iran, including the possible use of force. Asked for "an idea of timing," Carter replied, "Well, it's not a matter of many weeks, or certainly not a matter of months." But he emphasized that prospects for more forceful U.S. action would be greatly decreased if Washington received "the full and aggressive support of our allies."

**WASHINGTON**—The Carter Administration announced Saturday that all Iranian, except students, must leave the United States when their travel documents expire unless they are "compelling humanitarian reasons" for them to remain. The announcement was the latest action against Iran for its holding of American hostages in Tehran. The directive could affect tens of thousands of Iranians who may be in the United States as tourists, businessmen or temporary visitors, David Crossland, acting head of Immigration and Naturalization Service, said.

**COLORADO SPRINGS**—The U.S. Olympic Committee's House of Delegates voted by a 2-1 margin here Saturday not to send an American team to this summer's Moscow Olympic Games, unless President Carter says by May 20 that the international situation has changed so that a U.S. team may go. In Washington, the White House promptly announced that Carter will not change his mind and that henceforth, the American boycott of the Moscow Games — in response to the Soviet invasion of Afghanistan — can be considered a fact. The deadline for accepting the invitation to Moscow is May 24. The decision of the USOC, which came after weeks of mounting pressure from the Carter Administration, freed the U.S. government to intensify its worldwide campaign to enlist other countries in the boycott. That campaign will have a better chance of success after Saturday's vote.

## The World

**MONROVIA, Liberia**—A coup led by a 28-year-old army sergeant toppled the government of President William R. Tolbert Jr. on Saturday. Tolbert, a Baptist minister descended from freed American slaves, was killed in the coup, and Master Sgt. Samuel K. Doe was named Chief of State. Doe setting up headquarters at the presidential compound where fellow enlisted men addressed him as "Mr. President," ordered a dusk-to-dawn curfew to try to restore order. Doe said the army will remain in charge until a decision is made on the future government. The new military rulers arrested some high-ranking former officials and closed the small West African country's airports and borders to prevent others from escaping.

**TEHRAN**—Iranian President Abolhassan Bani-Sadr dismissed an appeal Saturday by nine Western European nations and Japan for the freedom of American hostages held since the seizure of the U.S. Embassy on November 4. Bani-Sadr, meeting with the ambassadors of the 10 nations, declined to present a specific answer to the request, agreed on last week by the European Common Market countries and supported by Japan. He restated the decree by Iran's revolutionary leader, the Ayatollah Ruhollah Khomeini, that the hostages' fate is up to the new Parliament, which is still being elected and may not convene until June. The Iranian president, however, indicated that the Red Cross would be permitted to visit the 50 hostages at the U.S. Embassy.

**VATICAN**—Pope John Paul has sent secret messages to top Iranian leaders, President Carter and U.N. Secretary-General Waldheim. A Vatican spokesman said the messages resulted from the Pope's "constant preoccupation for world peace."

**BRAZIL**—Authorities fear 54 people are dead in the wake of an air crash Saturday near the southern city of Florianopolis. An air force spokesman says only four survivors have been found so far, and it appears that all the other passengers and crew members were killed in the fiery crash.

TODAY

**UCSB LIBRARY REFERENCE DEPT.:** General library tours: learn to use the resources & services to complete course assignments. Meet at the information desk, 11 a.m.-1 p.m., UCen library info desk.

**CAB:** All A.S. candidates interested in CAB endorsement invited to speak 5 min. at Coard Board meeting tonight. RSVP by 12 noon in CAB office. 5 p.m., CAB 3rd floor UCen.

**MATHEAMTICS:** Distinguished Visitor Series. Professor Wolfgang Schmidt, "Diophantine Approximation" At 4 p.m. in GIRV 1127.

**WOMEN'S CENTER:** Re-entry luncheons, bring brown bag lunch. Listen to special guest speaker, 12-1 p.m., Women's Ctr. Bldg. 434.

**BIG BUSINESS DAY 1980:** Meeting for volunteers. Help publicize April 17th. Workshops, speakers, films, theater on corporate involvement in housing, energy, taxes, etc. 2:30 p.m., UCen 3137.

**UNDERGRADUATE SOCIOLOGY UNION:** First meeting of the quarter; everyone welcome! Bring a bag lunch and we'll brainstorm about spring quarter activities, noon, Soc. Conf. Room.

TOMORROW

**UCSB ACCOUNTING ASSOCIATION:** 1st meeting of spring quarter. We will discuss this quarter's plans & activities. New members welcome! 12 noon, NH 2110.

**CAB CAMPUS SCOUTS:** Mandatory meeting. Our favorite munchies, A.S. cookies will be available, 7 p.m., CAB office 3rd floor UCen.

**URC:** Meet and discuss conscientious objection with three C.O.'s from WWII and Vietnam at 7:30 p.m. in Santa Rosa Lounge. A draft counselor will also be available to answer questions.

**PRE-DENTAL CLUB:** Dr. Arnett will lecture on maxillo-facial surgery, and officer elections will be held, 7:30 p.m., Biology II Room 3193.

**NO ON 9 COMMITTEE—ASSOCIATED STUDENT, AFSCME, AFT, ADMINISTRATION:** A rally against Prop. 9 is being held on April 15 at noon on the UCen lawn, 12-1.

## For UCSB Graduates with course work in the Sciences and Business

APPLIED MAGNETICS representatives will be interviewing at the Campus Placement Office on April 15, 1980.

APPLIED MAGNETICS is the world's leading supplier of magnetic recording heads to the computer industry. That's right Applied Magnetics is No. 1. And we've grown from a single plant in Santa Barbara producing one product to a high technology research and manufacturing business with multiple products and facilities in several countries producing custom designed products and our sales grew to \$90 million last year.

We have manufacturing management development assignments in Manufacturing Supervision, Production Control, Material Control, Purchasing, Quality Control, and related areas.

IF YOU WANT to tackle manufacturing planning and supervision problems in an informal, shirt sleeve environment, and

IF YOU PREFER a work hard, learn to manage, share the profits environment, and you won't be distracted by working in Santa Barbara, California,

THEN sign up NOW at the Placement Office for an interview, or write to Mr. G. Bruce at the address below. We will take the time to tell you about our management development opportunities in a high technology manufacturing business.

# Eight Arrested at Knack Concert For Drinking, Drugs, Resistance

By BARBARA FISKE

Eight arrests, including petty theft, public drunkenness, possession of marijuana and resisting arrest, were made at the Knack Concert last week in the Events Center.

Although the concert did not draw a capacity crowd, Commander Larry Larson said, "This is not an abnormal number of arrests for a concert."

The Los Angeles-based pop-band drew a younger crowd than past A.S. concerts, which was reflected in the type of arrests made at the concert. The majority were juveniles arrested for alcohol-related offenses, whereas harder drugs were prevalent at the Loggins concert.

Most of the arrests were made outside the Events Center. Incidents inside the facility were limited to rescue calls for Knack fans who had over-indulged in drugs or alcohol.

Despite the arrests, Larson said that he did not obtain a bad impression of Associated Student concerts.

"I think that concerts are an important part of college life. Ninety-eight percent of the crowd are no problem. It's those from the outside that try to crash the concert and sell drugs that create the disturbances."

Larson also commented that the Events Center provides a better facility for security than Robertson Gym. Its fixed seating and aisles make visual policing of the crowd easier. In addition, because it accommodates larger crowds, less people attempt to crash the concerts.

Three types of security officers are employed at UCSB concerts. Western Entertainment Services and the Community Service Organization conduct bottle and can checks, keep aisles clear, and act as intermediates between the ushers and the police. Uniformed and plain-clothes police officers are employed to hand out citations and to make arrests.

The campus police offer "an

excellent security package for either indoor or outdoor concerts," according to Larson. He said that although it is expensive to the promoter, "Our security system is one of the best in the nation. Our

goal is to provide adequate protection to the concert-goer, not to save money. The whole key to security is cooperation between the respective agencies and this has been very good here at UCSB."

## State Tax Credit Available To Renters

A \$60 tax credit from the State of California is available to persons who were renting their principle places of residence on March 1, 1979.

By filling out the 540 RC form, available at the CalPIRG desk in front of the UCen, qualified renters will receive the credit.

Only those people who rented privately owned houses are eligible. Those who lived in off-campus privately owned dorms are eligible, but tenants of on-campus state owned dorms are not eligible.

Renters who owe less income tax than the amount of the credit will receive a refund. Tenants who earned less than \$5,000 are not required to file a tax return and can simply get the refund.

"What the tax credit is," explained Bill Shallenberger, IRS representative and tax consultant at the IVCC, "is a reduction in tax on your personal residence, much like what a homeowner receives."

Shallenberger said that the credit, which was originally only \$37 for individuals, was boosted to \$60 because of Proposition 13. Couples will receive \$137.

Proposition 13 gave California landlords a windfall reduction in property taxes. According to Michael Feeney, a member of CalPIRG, California renters were supposed to receive some financial relief through rent reductions or rebates, but this never materialized. As a result, the California Legislature last year voted to accommodate angry renters with the tax credit.

According to Shallenberger, the

IVCC will be open for those needing assistance with their taxes. The last day to get this help will be Saturday from 1 p.m. to 3 p.m. The IVCC is located next to Sunburst Farms Market in Isla Vista.

The 540 RC form is also available at the Franchise Tax Board office, located on 41 Hitchcock Way in Santa Barbara.

## Gusfield to Speak On Public Laws

A sociology colloquium featuring Joseph R. Gusfield will be held on Wednesday, April 16, at 12 noon, in the Sociology Conference Room, Ellison 2824.

Gusfield, professor of Sociology at the University of California, San Diego will speak on "Law and the Culture of Public Problems."

Professor Gusfield will present an analysis of the discrepancy between public laws as negotiated in courts and as described in legislation and decision. These phenomena are analyzed as a form of myth and ritual.

Gusfield is one of the country's foremost students of social movements and general cultural patterns characterizing contemporary society.

## No on Prop 9

Some opponents of Proposition 9 have portrayed Howard Jarvis' latest tax-cutting measure as similar to the shark in the movie "Jaws II." It is an apt simile; both are big, mindless, and have the potential of doing tremendous harm. However, unlike the shark, the proposition could strike everybody.

The proposition, which would cut personal income taxes by approximately 50 percent, will without a doubt have a tremendous impact on the state.

For this reason and many others, we strongly oppose Jarvis' new measure and hope it goes down to an overriding defeat in the June election.

The handwriting is on the wall; Proposition 13 tightened the financial workings of libraries, police and fire stations, schools and universities all across California. The only reason that the financial devastation was not any worse was because of the large state surplus which existed at the time Proposition 13 was passed.

Now that surplus is gone we are asked to squeeze these institutions even more, cutting down to the bare bones and beyond. In a clumsy and heavy-handed way of trying to alleviate tax problems, we are given a solution which is far, far worse than the problem: Proposition 9.

California's public services, including education, will not be able to withstand this squeezing another time.

Projected losses for state revenue in the first year alone will be about \$4.9 billion dollars. In the following years, the losses will climb even higher, up to approximately \$5.2 billion in 1982-83.

With so vast a reduction of funds, there is no way that the services we use everyday will not be affected. Community colleges, through the Jarvis proposal, may become a thing of the past, simply by the inability of counties to raise any kind of appreciable funds for their support. Police and fire departments would also become severely restricted.

Closer to home, the measure will have a disastrous impact upon the entire U.C. system. Already proposals of tuition ranging from \$500 to \$2500 per year are being discussed. Chancellor Huttenback estimates that even this would only recoup half of the losses that Jarvis II would bring about.

With that kind of tuition, the number of people needing financial aid will of course increase — but with no money coming in, no money can go out and even less people will be eligible than before.

These are not horror stories; they are the grim realities of Proposition 9. Such random cuts of such size cannot result in anything but harmful effects on education and necessary services. As one opponent has put it, it is like "brain surgery with a meat cleaver."

Like 13, Proposition 9 will not even help you that much with your income taxes. The highest savings are all passed on to the people at the top of the economic scale, with the smaller, middle-class homeowners who really need the financial help left out in the cold.

School closures, lack of police and fire services, libraries having shorter and shorter hours, and heavy tuitions are all the legacy of Jarvis and his proposition. While it can be agreed that some tax relief is needed, it will not come in the form of Jarvis II.

Some tax relief ideas that have been suggested are in the form of gasoline, inheritance or sales taxes. These would have a much gentler effect and could achieve the same goals.

The thing that is truly boggling about Proposition 9 is not simply the massive cuts or its potential to disrupt most of California, but rather the public's apathy and lack of concern about the results of such a measure. In fact, the majority of Californians polled support it. Despite the wide majority of California legislators speaking out against the proposition, the public remains distrustful. This attitude cannot go unchallenged.

It is only through a massive effort that we can turn this attitude around. Letters, demonstrations, telegrams; all have the potential of showing the public the danger of Proposition 9. Such effort must be put into the reawakening of California's public, for if we don't, "Jaws II" will strike all of us.

## letters

### Soviet Errors

Editor, Daily Nexus:

Stephen Wohl's letter in the April 11 issue of the *Daily Nexus* left me dazed and confused. I can't imagine where Mr. Wohl found all of his pro-Soviet information, but it just isn't the least bit factual. I spent fall quarter in the Soviet Union, living with the Russians and studying their culture, language, and politics. And so I was knocked off my feet by the untruths spewed out in Mr. Wohl's letter.

He notes that a loaf of bread in the Soviet Union costs the same as it did in 1948. However, he forgets

to mention that this same loaf weighs half as much now as it did then. He notes that university education is free. Nothing could be further from the truth. A Soviet student is required to work for two years following his college education in a city specified by the government. Somehow, in describing the benefits of the Soviet airlines Aeroflot, he omits the fact that they have the highest accident rate in the world. He speaks of paid vacations for workers, but does not say that workers are not allowed to take those vacations in non-communist

countries. Contrary to Mr. Wohl's beliefs there is unemployment in the Soviet Union in the rural areas. However, Americans are not allowed into these areas. Perish the thought that the Soviet Union should have slums.

I wonder if Mr. Wohl ever shopped in a Soviet supermarket where they have milk only twice a week, mayonnaise only twice a month, salami four times a year, etc. During the entire last month of my stay in Leningrad, the second largest city in USSR, there was no laundry detergent in the city stores.

Most offensive to me was the statement that fewer Russians than Americans are "forcibly confined in prisons and mental institutions." How can Mr. Wohl forget the 30 million people who perished in Stalin's gulag? What makes him think that the city of Magadan in Eastern Siberia is not still teeming with dissidents? Perhaps Mr. Wohl should converse with Anatole Scharansky about Soviet labor camps.

From what I've seen, from the people I've talked to in the Soviet Union, and from the everpresent air of tension on the streets of Leningrad, I can only suggest to Mr. Wohl that if he wants communism so badly, let him move to the Soviet Union. I'm sure there are still positions open for picking up the bricks that have fallen off of the new high-rise apartments in Moscow. As for me, I'll stew in my own imperialist juices as far away from Aeroflot as I can get.

Allen Grodsky

### I. V. Mistake

Editor, Daily Nexus:

A letter was printed in your column on April 4, 1980, written by Carolyn Winston in which some strong criticism of the Isla Vista Foot Patrol was presented. This letter is intended to correct some of the misinformation upon which Ms. Winston's allegations are made.

First, the target of Ms. Winston's criticism and allegations, the Foot Patrol, was not the agency involved in the "I.D. checks" at the Magic Lantern Theater on Saturday night. Due to the extended showing of *The Rocky Horror Picture Show* and the associated problems the theater management and employees have

had to contend with, a private security guard agency has been employed at the theater for the past month. These guards are not U.C. police officers or sheriff's deputies and are in no way associated with the I.V. Foot Patrol.

In a time when public agencies, particularly law enforcement agencies, are subject to close scrutiny by the general public, it is extremely important that any criticisms or allegations be based on fact. We are always open to community input and invite as well as appreciate deserved criticism and praise. We are very disappointed that such a letter would be written without the writer making a responsible attempt to confirm her facts.

### Reagan

Editor, Daily Nexus:

This letter is in response to Mark Edward Hancock's letter dated April 10. Mr. Hancock encourages us to vote for Ronald Reagan. I think it is fitting that he compared Reagan with Wallace and Nixon because Reagan is as incompetent, incompassionate and self-serving as both of them.

It is easy to understand why anyone who considers the elections of corrupt Richard Nixon and racist George Wallace as "successes" would support Ronald Reagan as President — he is their caliber of candidate. Nixon and Wallace demonstrate that ruthless power-hungry men can go far within the system. Reagan is just like them.

I hope we have learned from our past mistakes, and so "we won't be fooled again."

Kirk Boyd

### Vandal Issue

Editor, Daily Nexus:

Your report on the arrest of one of the professors in our department requires clarification. You quote an informed source that, "personal pressures and some minor conflicts regarding his proposed research grant could have been responsible" for the alleged action of his breaking windows in the Administration Building. I do not wish to argue whether personal pressures or problems regarding the administration of his National Science Foundation grant were primarily responsible for the alleged act of "vandalism", except that personal problems might have been more likely to have led to the

smashing of windows of, for instance, the local Safeway store. As to the "minor conflicts regarding his proposed research grant," I wish to say that they were not minor by any means. As a television station reported, without any fault of the professor himself, a local computational error led to the loss of \$12,000 in the national grant with which our colleague was scheduled to leave the country next week for a period of 18 months. The \$12,000 deficit would have made his research impossible and the remainder of the grant would have had to be cancelled. Without any assistance from the local agencies the National Science Foundation fortunately, the day after the incident for which our colleague was arrested, made up for the substantial error by allotting sufficient additional funds.

Without wanting to condone any illegal action, I furnish these facts, which will place the events in their proper perspective. Our colleague, in the meanwhile, will compensate the university for the full cost of the damages.

Gunther H. Gottschalk  
Chairman of Germanic and Slavic Languages and Literatures

responsible, knowledgeable and has the foresight to make important purchases which allow us to maintain our reasonable (cheap!) prices.

The A.S. Bike Shop must be allowed to spend the money we (Please turn to p.5 col.1)

### Employees Respond

Editor, Daily Nexus:

We, the student employees of the A.S. Bike Shop were offended by your article of 4/11/80 concerning the A.S. Bike Shop. The shop requested and did not receive a \$4,000 underwrite, not a \$64,000 grant. An underwrite is not a giveaway or a bailout. It is seed money which allows us to purchase necessary parts, with the understanding that all money will be returned to A.S. through sales.

The mismanagement allegations are erroneous and slanderous. Since Bruce Macklin was hired in 1975, the overall budget of the A.S. Bike Shop has been in the black. This has been achieved in spite of the increase in business and ser-

vices since 1975. A great deal of the highly disputed inventory consists of essential items ordered at special sale prices from wholesalers. We are able to continually pass on lower prices due to our inflation beating purchases at these lower prices. The example quoted out of context was that of inner tubes. The tubes were purchased in bulk last summer at an especially low price. We are able to offer these tubes at the lower price of last August, even though prices have increased 24 percent since then. Is this mismanagement?

Our main concern is to serve the bicycling needs of the students. We feel Bruce Macklin is an especially competent shop manager. He is

IRANIAN TEA PARTY

By KEVIN KELLEY  
Students Pro Life

With the Supreme Court decision of January 1973, the abortionists found themselves cloaked in legal approval. Now they have turned their attention to dispensing murder for hire to the inhabitants of nursing homes, intensive care units, and shelters for the mentally retarded. They are pushing for legalization of euthanasia.

Abortion is directly equated with euthanasia. Both directly kill innocent living humans. They both are done for the same fraudulent reasons. Pro-Abortionists claim both the unborn and the aged are a burden, neither being wanted: both are supposedly defective. The unborn are too young, while the aged are too old. The baby is not yet conscious, while the senior citizen is not really conscious any more. The baby does not yet have a meaningful life, and the retired no longer has one.

The Supreme Court decision of January 1973 stated, "Only 'viable' human beings who have the 'capability of meaningful life' may, but need not, be protected by the state." But whose life is "meaningful..." The retarded? Handicapped? The senile? The terminally ill? And, who will

decide...The government? The doctors? The heirs?

Several influential leaders of the abortion and euthanasia movements have suggested the next logical step after abortion. "There is a need to redefine the legal status of an infant," believes Nobel Laureate Dr. James D. Watson, "so that parents who discover at the birth of their child that it will be abnormal, may decide whether or not to allow it to live. If a child were not declared normal until three days after birth, then all parents could be allowed a choice." That is outright infanticide.

Dr. Walter Sackett, a physician and Florida legislator, has proposed a Euthanasia Bill to the Florida Legislature to the effect

that "life shall not be prolonged beyond the point of meaningful existence."

Rev. Warren Briggs, a Methodist minister, suggested in an article in the *Los Angeles Times* (December 11, 1972) that "crisis clinics" be established where persons can "commit suicide with dignity."

Life is a continuum. At one end of the spectrum, life is being destroyed before birth. Will we next accept euthanasia to destroy life after birth? If the precedent set by the 1973 abortion decision stands unchallenged, who might next be ruled incapable of "meaningful life"?

"If a man loses reverence for any part of life, he will lose his reverence for all of life."—Albert Schweitzer.

## Apply Now For A Salaried Internship Next Year

The UCSB Alumni Association sponsors the Stephen S. Goodspeed Internship in Student Affairs which is awarded each year to an undergraduate or graduate student who might be considering a career in higher education administration.

The recipient of the Internship will receive a \$300 honorarium and a salaried position working a minimum of 10 hours a week in the Office of the Vice Chancellor, Administrative Services and Student Affairs. The position is for the academic year, and the student will begin work in the beginning of fall quarter, 1980.

The internship is open to all undergraduate students and graduate students who received their B.A. or B.S. degrees since the spring of 1978. Applications are available at the Alumni Affairs Office, 1431 South Hall, in the Graduate Tower, and must be returned no later than May 16, 1980. For further information contact the Alumni Affairs Office at 961-2288 or Sheila Simpson at 961-3651.

# AWARD NOMINATIONS NOW BEING ACCEPTED FOR OUTSTANDING SENIORS All 1979-80

**Fall, Winter, and Spring Quarter Graduates are Eligible!**

Every year the University community seeks to recognize the contributions and achievements of our outstanding graduates by soliciting nominations for two highly esteemed awards: the Thomas More Storke Award, given to a single member of the graduating class for distinguished scholarship and extraordinary service, and the University Service Award, presented to several students who have contributed greatly to the quality of life on the UCSB campus by giving distinguished service to the University, its students, and the community.

To accomplish this task, we are seeking nominations on behalf of graduating seniors whom you believe are deserving of recognition — and thanks — for special contributions they have made while students at UCSB. Self-nominations are encouraged, as are those made by friends, faculty, and staff.

The purposes and the information needed for these two awards are outlined below. Nominations may either be made on a blank sheet of paper or on nomination forms available in the following locations:

Office of Student Life (UCen 3rd floor)  
Library Lobby  
Registrar's Info Desk (Admin., 1st floor)  
Residence Hall Trailers (T.B. 335)  
Nexus Office (1st floor, Storke Bldg.)  
Community Housing Office (Bldg. 434)

PLEASE BE SURE TO RETURN COMPLETED NOMINATIONS TO THE OFFICE OF STUDENT LIFE BY FRIDAY, April 25 and thanks for helping us acknowledge those students who have made UCSB a better place to learn, to be, and to grow.

### THE THOMAS MORE STORKE AWARD FOR EXCELLENCE

One hundred of the bronze medals pictured above were sculptured for UCSB by Francis Minturn Sedgwick, nationally famous sculptor. Each year, for the next 100 years, one medal will be awarded to the outstanding graduating senior. **OUTSTANDING SCHOLARSHIP** and **EXTRAORDINARY SERVICE** are the basic criteria for selection.

### UNIVERSITY SERVICE AWARDS

These awards are presented annually to those graduating seniors who have performed "above and beyond the call of duty" in giving service to the University, its students, and the community. The fundamental criterion for this award is unselfish and dedicated **SERVICE TO OTHERS**.

### ALL NOMINATIONS MUST INCLUDE THE FOLLOWING INFORMATION

1. The award for which the student is being nominated.
2. The nominee's full name, academic major, and emphasis.
3. A description of the service performed. In addition to listing specific activities, please explain how the nominee distinguished him/herself from others involved in these activities.
4. The average number of units the nominee carried per quarter during his/her term of service.
5. An indication of whether the service performed was for academic credit, for pay, purely volunteer, or some combination of the three.
6. Whether or not the nominee works to put him/herself through school.
7. Special qualities or additional comments.
8. The name(s) of a person/persons to contact for more information about the nominee.

Members of Pi Beta Phi sorority kicked off Fund for the '80s Phone-A-Thon as fund director Jim Dougherty looks on.

## Phone-A-Thon Will Kick Off Fund For The '80s Campaign

By VALERIE BURCHFIELD

The Fund for the '80s Phone-A-Thon, which consists of phone calls made to nearly 30,000 parents and UCSB alumni throughout the country, began last night and is scheduled to continue throughout April.

Sponsored by the UCSB campus, the campaign marks the first major fundraiser. The campaign, which began last quarter, has already made \$45,000, over half of which was donated by one in-

dividual, Tom Richards.

The phone-a-thon will give the students an opportunity to help meet the Fund for the '80s goal of \$80,000. Leslie Byrd, chairman of the Student Coordinating Committee for the Fund for the '80s said, "The phone-a-thon will probably be the only opportunity the students will have to help raise money for the school."

Several organizations such as the rugby and crew teams, the Student Hunger Action Group, San Rafael dorm, and several sororities and fraternities have agreed to help with the phoning.

Jim Dougherty, director of the Fund for the '80s project, said that he is very pleased with the response he has received from student organizations. "The enthusiasm of those students willing to help encourages prospective donors of the validity of their investment," Dougherty added, "The students will be serving as ambassadors, representatives of the university."

Twenty new phones have been installed in the Founder's Room in the Events Center where the phone-a-thon will take place. The volunteers will be served a complimentary dinner with beer and wine at the beginning of their shift.

People will be asked to begin their donations at the \$25.00 mark in commemoration of the university's 25/35 year anniversary. The purpose of the phone-a-thon is to reach people who have not previously contributed money to the school. In the past, UCSB has received donations from only 2 percent of its alumni.

Both Jim Dougherty and Chancellor Huttenback emphasize the fact that only 60 percent of the cost of education at the university is funded through tax dollars and fees while the remaining 40 percent is dependent upon grants and endowments from individuals and foundations.

According to Dougherty, the money raised from the Fund for the '80s campaign will go towards "adding vitality and life to programs at UCSB." These endowments will help allow creativity and the addition of extra things within the university, such as curriculum enrichment and innovation, visiting lectureships,

and financial aid.

Chancellor Huttenback, possibly with the help of appointed committees, will make the final decision of how the monies will be allocated. His primary concern is to direct the monies to the most useful areas. The chancellor highly stresses the importance of having a well-rounded educational program.

Jim Dougherty shares Huttenback's sentiments on the necessity of a well-balanced program and anticipates using the phone-a-thon as a means to raise money for this purpose. He said, "The prospect of the students calling over 30,000 people from all over the country is very exciting. It should be a very interesting experience for everyone involved."

Volunteers are still needed to help with the phone-a-thon. Interested individuals or organizations should contact Jim Dougherty at the University Development Office, 961-2600.

## R.A. Posts

Applications for resident assistant positions for the 1980 summer session are now available, according to the Office of the Dean of Student Residents.

The resident assistants are needed to work with the special High School Juniors Program in Santa Cruz Hall.

According to Alan Kirby, assistant dean of student residents, in this program high school juniors attend UCSB for a head start on their college experience. They enter university classes and receive credits that transfer to any college or university.

"The position of resident assistant is different from the regular year because one is responsible for younger students," said Kirby.

Applications are available in the Dean of Student Residents Office. A mandatory orientation meeting will be held on April 22 at 3:30 p.m. in San Nicholas Formal Lounge. All applications are due by April 24.

# Muscular Dystrophy Association Awards UCSB Scientists Grant

The Muscular Dystrophy Association has awarded a \$30,000 research grant to UCSB scientists, Dr. William Thompson, Dr. Daniel Purich and Dr. Leslie Wilson, to study the "Control of Microtubule Metabolism in Normal and Dystrophic Tissues."

In an interview Tuesday, Dr. Thompson explained the problems being studied. In each human cell there is a network of protein fiber chains called microtubules. These microtubules assist in the physical support of the cell structure and play a part in cell division. However, a year ago, scientists discovered that the microtubules are absent in the cells of those affected by muscular dystrophy.

The first stage of research is a study of the functioning of microtubules within normal tissue cells. The study of dystrophic tissue cells, which lack the structures, will be studied in the second stage. A comparison of the two will hopefully yield valuable data.

No cure exists yet for muscular dystrophy, in fact the cause itself is not known. However, the information obtained by the study will provide a better understanding of how dystrophic cells function.

In an interview by telephone, local district chair Pam Shidan explained that this is the second study at UCSB being funded by the association in two years. Last year, Dr. Stanley Parsons of the chemistry department was awarded a \$22,000 grant to research "Acetylcholine Storage by Cholinergic Synaptic Vesicles." These are the only studies being funded in the Tri-county area.

In order to receive funding for a

project, an application must be made to the MDA which is forwarded to the national headquarters in New York. The application, which includes a description of the project and scientific evidence in support, is then reviewed by a board consisting of administrators and

physicians who decide what projects receive funds. The application must be made in June for the following year or so, Dr. Thompson notes. While the study is less than three months old, application for funds to continue the project, if successful, must be made soon.

## Corle Entries Due Soon

Entries for the 1980 Edwin Corle Memorial Book Collection contest sponsored through the UCSB library are due Monday, April 14.

Prizes have been increased to \$250 for first prize in both the graduate and undergraduate contests, \$150 for the second place winners, and third place, \$100, for a total of \$1,000 in awards. This year's contest is the 17th annual competition, sponsored by Mrs. Jean Corle in memory of her late husband.

UCSB students are invited to

enter the contest by submitting a short essay describing their personal book collections, plus an annotated bibliography of 35-50 books. Judging will primarily be on the extent to which the books represent a well-defined field of interest.

For more information students should consult Christian Brun, head of the UCSB library's special collections, 961-3420. A pamphlet giving rules for the contest is available at the library.

## Correction

In the Friday, April 11 issue of the Daily Nexus in a front page article entitled "Bike Shop Accused on Mismanagement" the first sentence read "A spontaneous motion calling for an emergency grant of \$64,000 to be given to the A.S. Bike Shop for the purchase of out-of-stock parts..."

This sentence is incorrect. In the first place the amount was for \$4,000 and not \$64,000.

In the second place, the proposal was for an underwrite, an increase in the budget which would be covered by anticipated income, not a grant, gift or allocation.

Bring your bod to the 2nd annual VOD April 17 11-2 UCen Lobby.

## Spikers Take Second in Mikasa Classic

Mark Roberts has played consistently all season and Friday and Saturday night at the UCLA Mikasa Classic was no exception. UCSB finished second, defeating second-ranked USC, but losing Saturday night to the number one ranked UCLA Bruins, in four games.

## L.A. State Hands UCSB Three Losses

By ELIZABETH WEISSENBORN

Crushing losses snowballed the Gauchos' baseball team as they dropped three consecutive games to Cal State Los Angeles, burying their six game streak. The games were close and at times exciting, but UCSB did not have enough to put any wins away.

There were many factors which could have led to the Gauchos' losses: smog, heat, wind or possibly a basic case of thinking too far ahead. With a crucial game against Fullerton only three days away, it's hard to expect a team's full concentration against a 12-20, last place team, like Cal State L.A.

It was easy for UCSB to relax for a supposedly inferior L.A. squad, but that is when all the years of experience and instinct should have warned the team of possible collapse somewhere in their finely tuned game.

The dam began to leak Friday when UCSB lost 7-5 after being tied 5-5 in the sixth inning. Apparently, no one noticed the problem until the wall collapsed Saturday around the Gauchos' pitchers.

The Gauchos' primed support gave way, leaving the rest of the squad grasping for something solid to keep them going. Pitching duties traded hands four times in the first game of the double-header. Mark Nowlin began the game with extremely strong pitching, but left after five innings looking quite fatigued.

"I just got tired," Nowlin began, "I threw 103 pitches in five innings. I guess I need to develop longevity in my arm."

Whatever the problem was, it carried into the final game with instability seeping from the bullpen. Unfortunately, as the defense struggled, the offense fired-up, gaining 19 hits in two games, and 15 runs.

"The hits were definitely there. We even scored enough runs," Simpson said, "but it wasn't enough."

UCSB stayed even with L.A.  
(Please turn to p.10, col.3)

## USC Falls, UCLA Dominates Gauchos

By JOEL JONES

In two nights of outstanding volleyball competition last weekend, the UCSB men's volleyball team again beat USC 12-15, 15-7, 15-13, 15-8, but lost to top ranked UCLA 15-13, 15-7, 10-15, 15-13 at the Mikasa Collegiate Classic in Pauley Pavilion.

Behind what former UCSB coach Harlan Cohen called Scott Steele's "best game of his career," the Gauchos outdid the Trojans.

If Steele's setting tipped the balance in UCSB's favor, his job was made that much easier by the Gauchos' consistently perfect passes.

With their passes on target, UCSB was able to execute its offensive play sets with ease. According to Cohen, this is necessary to fool the opposing block.

GaUCHO head coach Ken Preston particularly praised the passing and all-around play of Jon Stevenson, "who seemed to be everywhere on defense."

"This was a great win for us," said Preston.

The victory marks the second time that the Gauchos have beaten USC in the last two weeks.

While UCSB has great depth (usually nine or ten players can do the job each match), USC does not.

In the pivotal third game, Trojan hitter John Hedland substituted into the USC line up. After putting the first few balls away, he spiked off the tape and out-of-bounds for the remainder of the game.

Trojan coach Ernie Hix then substituted Bill Stetson, who was equally ineffective against the eager GaUCHO block.

"The Gauchos played with intensity and concentration, making few errors," said assistant UCSB coach Jay Hanseth.

Blocking also proved itself Saturday against the Bruins, but it was not strong enough to make the difference.

In the front row, Todd Cohen turned it on, pounding straight down angles and stuffing

everything coming his way.

A fired-up GaUCHO defense played with the motto "nothing hits the floor." The Gauchos got their hands on almost every Bruins spike that went past the block.

Making few errors during the entire match against UCLA, Mark Roberts played very consistently.

Another factor in the loss to UCLA was the difference in the play of outside hitter John Nisbet. While most of his off-speed shots went down against USC, he could not find Bruin floor on Saturday night.

Gary Pearce proved to be the GaUCHO's most consistent attacker. For his efforts, Pearce and

teammate Steele, were named to the all-tournament team. Also named to the team were Mike Dodd from San Diego State, Dusty Dvorak from USC, Steve Guirac, Peter Erhman of UCLA and Karel Kiraly, the MVP from UCLA.

One turning point in the match against the Bruins occurred late in the fourth and deciding game. A UCLA spike apparently went wide by a one-foot margin and the linesman, who did not see it, claimed the spike was in.

Despite UCSB's loss to UCLA, Preston said, "We showed everyone that we're an excellent team."

## Everything Normal in Rugby Tournament

The world's largest rugby tournament started its festivities Saturday with hard hits and loads of beer.

The Los Angeles Rugby Club and Eagle Rock faced each other in the finals of the Blue Division yesterday at 3 p.m.

The Santa Barbara Gruins played for the Gold Division against Long Beach State.

UCSB fell to Davis, 14-6, on Saturday, after winning two straight games.

The women's team featured the Kiwis of Huntington Beach against the Denver Colorado Blues.

## Recruit

The UCSB basketball team announced that they have recruited Aaron McCarthy, a 6-foot-1, 165 pound guard from Judge Memorial High School in Salt Lake City, Utah.

The guard averaged 20.1 points and 8.3 assists per game during his senior season, and was named most valuable player in the AAA division in Utah. McCarthy led Judge Memorial to the state championship last year, scoring 15 points and dishing out 12 assists.

## Spiker Club

There is an important volleyball club meeting today at 3 p.m. in the Old Gym to discuss the coed beach tournament this Saturday. Practice times and tournament dates will also be set. The tournament is open to everyone with a \$1 entry fee.

## L.A. Sweeps Series

(Continued from p.9)

going into the ninth inning 10-10. In the bottom of the ninth with bases loaded and two outs, Jerry Dietz experienced the batter's nightmare, striking out with three men on. That ended the Gauchos' final threat, and L.A. went on to score two in the tenth, winning 12-10.

It was definitely a day for big hits. Home runs were ripped by Mike Merk and Rick Clark, who also clubbed two doubles. Maury Ornest and Dave Jorgenson also

pulled out two nice shots to the fence.

In the last game, UCSB led 5-4 in the fifth inning. However, in a series of "little league" errors that allowed three unearned runs, the Gauchos fell for a third time, 8-5.

Tuesday brings Cal State Fullerton, reigning NCAA champs, to UCSB for what is considered the Gauchos' big game. "We're going to try and bounce back after the last losses," Simpson said.

## Daily Sports Update

Jimmy Connors collected \$110,000 in first-prize money, by beating John McEnroe, 7-5, 6-3 in the finals of the \$250,000 tennis tournament in Tokyo yesterday. Connors used his blazing speed and overpowering shot selections to overtake the 20-year-old McEnroe, who was ranked second in the world before the tournament. McEnroe picked up \$70,000 as second place finisher.

The Boston Celtics have opened up a 3-6 lead against the Houston Rockets in their NBA Eastern Conference semi-final game. Yesterday afternoon, the Celts used balanced scoring and domination on the boards to down the Rockets, 100-81, in Houston's Summit. Nate Archibald led Boston's attack with 20 points, followed by Larry Bird with 18. Houston's Moses Malone led all scorers with 28. The Celtics need just one more game to advance to the conference finals and could pick it up tonight in Houston.

Roger Maltbie has been awarded first-prize money for the Magnolia Golf Classic in Hattiesburg, Mississippi. The final three rounds of the tournament were cancelled because of rain. Maltbie, who fired a six-under par 65 Thursday, was given half of the planned winner's share of the \$4,500 purse. Lee Carter finished second with the 66 he shot on Thursday.

Stuntsman Gary Wells beat his own world record for motorcycle jumping. The American did it with a jump of 176 feet, four and one-half inches in yesterday's world long distance motorcycle jumping championships in Melbourne, Australia. Wells earned \$35,000 dollars for his efforts.

The Los Angeles Rams announced their 1980 season schedule, as they will open their first game in Anaheim Stadium against the Detroit Lions on Sept. 7. The Rams will be leaving the Los Angeles Memorial Coliseum for Anaheim Stadium, about 35 miles south. The schedule, in order, includes home games against Detroit, Green Bay, San Francisco, New Orleans, Miami, New York Jets, Dallas and Atlanta. Away will be contests with Tampa Bay, New York Giants, St. Louis, San Francisco, Atlanta, New England, New Orleans, and Buffalo.

# Bill Would Equalize Funds...

(Continued from p.1)  
served, according to Paige.  
The penalty for noncompliance with Title IX regulations — withdrawal of federal funding — is quite severe, Paige pointed out.  
“We wouldn't have a women's basketball team at UCLA or a women's polo team at U.C. Davis who are national champions if we weren't in compliance with Title IX,” Paige said.

According to Judith Holland, the women's athletic director at UCLA, the women's basketball team actually travels more than the men's, entailing a larger travel budget. Both teams are awarded the maximum number of scholarships permitted under their respective athletic association, the Association of Intercollegiate Athletics for Women and the National Collegiate Athletic Association. This translates into 12 full scholarships for women and 15 for the men basketball players.  
Horse polo, which is a club sport

at U.C. Davis, generates its own funds, said Don Kersten, UCD physical education business manager.

The Greene bill provides that financial assistance be made available to male and female students in proportion to the numbers of male and female students qualifying for athletic scholarships.

In addition, Green's bill also encourages public education institutions to conduct a systemwide survey to determine the current level of participation which would

occur if the new act were made available.

University officials had earlier protested in a letter to Assemblyman Green about the costliness of the survey. According to Greene's legislative aide, the university was estimating the cost of such a survey to range between \$80,000 and \$100,000.

The committee decided before voting to change any language which did not concur with Title IX. The bill must now be approved by the entire Assembly and then the Senate before it becomes law.

# Intensive English

(Continued from p.1)  
Fernandez said.

While the teaching staff of the Intensive English Program has never grown past three members, the number of students has gone from 12 to 120 since it started ten years ago. This year 80 students

had to be refused entrance because of understaffing, and it is estimated that as many as 120 will be turned away next year.

David A. Sprecher, Dean of the College of Letters and Sciences, acknowledging the problems students face in this area, said, “A task force is being established to look into the whole problem of writing skills.” According to Sprecher, this will include problems with Subject A, freshman English and Intensive English.

# Fire Protection Plan

(Continued from p.1)  
inadequate stations at Sisquoc and the Santa Barbara Airport; and the completion of the county's communications system. These plans would involve approximately \$1,600,000 in funds.

The funding options proposed by the committee include the imposition of fees on district property owners, and new or increased fees charged to private owners for services such as weed removal and safety inspections.

Oil and building representatives have asked the board to delay action on sections applicable to them. This will allow them further time to review and suggest changes.

Industry representatives favor the plan, but consider many of its recommendations and their wording in need of clarification.

Santa Barbara Cattlemen's Association and other ranch owners support the plan. They favor the proposals for range land protection, and have made suggestions regarding fining of those found responsible for starting fires, and training fire-fighting techniques to citizens and ranch workers.

The fire plan, compiled by a citizen group formed after the 1978 Sycamore Canyon fire, is an attempt to retain sufficient fire protection in the county under the present lack of funds. A recent effect of the decreased funding has been the decision to terminate the UCSB fire station.

“Unless the U.C. is willing to help pay part of the station's cost it will have to be closed,” said Supervisor Wallace, “the fire chief has been given a 90-day termination notice already.”

The Daily Nexus has some positions open for students interested in journalism and news editing. Interested students are encouraged to come by our offices underneath Storke tower and talk to Kenna Himes.

# “Free Enterprise” is Theme Of New Amusement Park

(ZNS)—If you're tired of those traditional theme parks such as “Disney World” or “Knotts Berry Farm,” next year there will be something new for you.

Mother Jones magazine reports that corporate promoters of the free enterprise system are planning to open what they call “Enterprise Square, U.S.A.” in Oklahoma City in late 1981. This \$15 million theme park is being billed as the “Disney World for capitalism.”

According to the report, visitors will begin their tour at the “Heartbeat Rotunda.” Here they will see economic transactions from all over America — such as the number of gallons of soft-drinks being bottled or the number of hamburgers being purchased — simulated in a sweeping panorama featuring flashing numbers and breathtaking graphics.

Another stop on the agenda will be “The Caps and Socs Quiz” — a theater in which the audience will be treated to a question-and-answer session that contrasts the American system with socialism.

Mother Jones says a third event will be the “great talking face of government.” This is described as a nine-screen video operation which will expound the need for more regulation until, “in a frenzy of action,” it short circuits. The message, of course, is that too much regulation is very bad for the free enterprise system.

Among the sponsors of Enterprise Square, U.S.A. are said to be representatives of Phillips Petroleum, Bankers Trust, The Kerr-McGee Corporation, Western Electric, and The American Can Company.

# I.V. Weekend

(Continued from p.1)  
burglary was reported at Francisco Torres along with various other thefts in Isla Vista. On Del Playa, an act of malicious mischief to a residence occurred when an unidentified individual placed a running water hose into an apartment window.

It was reported that a woman, living on Camino Del Sur, attempted suicide by consuming an overdose of pills. She was taken to Goleta Valley Community Hospital for treatment.

Both the Greenhouse and Rudy's Restaurant were lectured and received warnings for selling alcohol to minors.

# Carrells

(Continued from p.1)  
was faced with the problem of creating a fair system for allocating the carrells.

Several plans were considered, including a time limit, double occupancy, or a system for determining how often the carrells were being used.

Though most of the options were rejected on grounds of impracticality or unfairness, double occupancy is still a possibility, according to Brokensha.

Final details of the proposal will be worked out at next month's meeting of the Faculty Legislature. Brokensha expects the fee structure to be imposed by the end of this quarter or next fall.

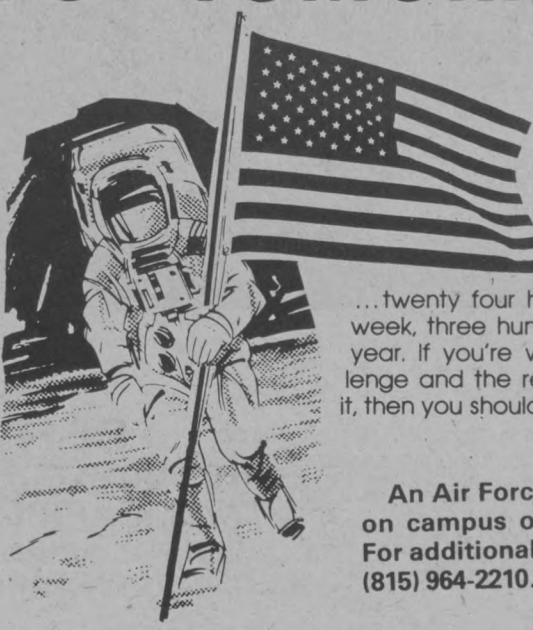

**FREE GRE PREPARATION**  
The Academic Skills Center has practice sessions for GRE preparation. Topics for study include: test format, test taking techniques, and methods of preparation.  
Mon., April 14, 3:00-5:00 — verbal and analytical ability  
Wed., April 16, 3:00-5:00 — math ability  
(Please enroll in advance)  
Academic Skills Center  
Bldg. 477

**READY FOR TOMORROW?**

Air Force personnel are a key part of American way of life. They stand trained, equipped, and ready to defend the longest surviving democracy the world has ever known. It is this willingness to fight, along with dedication to duty that helps keep this nation strong. This is the responsibility which they shoulder; the legacy they leave for the American people... twenty four hours a day, seven days a week, three hundred and sixty five days a year. If you're willing to accept this challenge and the responsibility that goes with it, then you should get the details right away.

An Air Force Representative will be on campus on Wednesday, April 16. For additional information, please call (815) 964-2210.

**AIR FORCE**  
A great way of life.

# THE END OF CRAMMING

BRING A FRIEND

#### Would you like to:

- ✓ Raise your grade average without long hours over texts.
- ✓ End all-night cramming sessions.
- ✓ Breeze through all your studying in as little as 1/3 the time.
- ✓ Have more free time to enjoy yourself.
- ✓ Read 3 to 10 times faster, with better concentration, understanding, and recall.

Evelyn Wood's new RD2 reading system makes it all possible.

**Evelyn Wood works** — over 1 million people, including students, executives, senators, and even presidents have proven it. A free 1 hour demonstration will show you how to save hundreds of hours of drudgery this year (as well as how to increase your speed immediately with some simple new reading techniques).

It only takes an hour, and it's free. Don't miss it.

**Evelyn Wood RD2**  
will open your eyes.

#### TWO LOCATIONS: IN GOLETA NEAR UCSB: FRANCISCO TORRES,

6850 El Colegio Rd. at  
the corner of Storke Rd.,  
next to Isla Vista

#### IN SANTA BARBARA NEAR SBCC: THE SANTA BARBARA SHERATON

(formerly the Mar Monte)  
1111 E. Cabrillo, on the beach.

#### SCHEDULE OF FREE LESSONS

(FOR BOTH GOLETA & SANTA BARBARA)

TODAY, APRIL 14 2:30 pm, 5:30 pm, 8:00 pm  
TUESDAY, APRIL 15, 2:30 pm, 5:30 pm, 8:00 pm  
WEDNESDAY, APRIL 16, 2:30 pm, 5:30 pm, 8:00 pm
