LARGEST LIGHT IN THE WORLD!
(OVER 500 FEET OF GLASS.)
New Building, corner of Sacramento and
Montgomery Streets, San Francisco.**

WHY SHOULD EVERY ONE GO TO VANCE'S who wishes perfect Likenesses? Because he has the best arranged gallery on the Pacific Coast, and not to be surpassed by any in the world, instruments containing lenses more perfect, and with greater power than any ever before used in the country.
2d. Because he has the largest Light in the world, from which he can form three distinct lights—top, side, and half side lights—that now enables him to overcome the great difficulty which every artist in this city has to contend with, namely: In order to obtain perfect likenesses, different formed features require differently arranged lights.
3d. Having the largest light, he is enabled to make pictures in half the time of any other establishment in the city; therefore they must be more perfect, for it is well known the shorter the time the more perfect the expression.
4th. Because every plate is carefully prepared with a coating of pure silver, which produces that clear, bold, and lasting picture that is so much admired, and which cannot be produced on the common plates, as they are now used by other artists.
5th. Because he has, of late, after much experimenting, brought his chemical preparations to such perfection, using compounds entirely different from anything ever before used in the art, which enables him to produce perfect likenesses at every sitting, with that clear soft and beautiful tone, so much admired in all his pictures.
All those wishing perfect likenesses will do well to call before sitting elsewhere, and judge for themselves.

Established for the Permanent Cure of all Private and Chronic Diseases, and the Suppression of Quackery.

DR. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honors, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late lecturer on Diseases of the Urinary Organs, and Diseases of Women and Children, would most respectfully inform the public of California that he has opened an Institute for the cure of Chronic Diseases of the Lungs, Liver, Kidneys, Digestive and Genital Organs, and all Private Diseases, viz: Syphilitic Ulcers, Gonorrhoea, Gleet, Strictures, Seminal Weakness, and all the horrid consequences of self-abuse, and he hopes that his long experience and successful practice of many years will ensure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patients in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.
Spermatorrhoea, or Local Weakness, Nervous Debility, Low Spirits, Lassitude, Weakness of the Limbs and Back, Indisposition and Incapability for Labor and Study, Dullness of Apprehension, Loss of Memory, Aversion to Society, Love of Solitude, Timidity, Self-Distrust, Dizziness, Headache, Involuntary Discharges, Pains in the Side, Affections of the Eyes, Pimples on the Face, Sexual and other infirmities in man, are cured without fail by the justly celebrated Physician and Surgeon, L. J. CZAPKAY. His method of curing diseases is new, unknown to others, and hence the great success. All consultations, by letter or otherwise, free. Address, L. J. CZAPKAY, M. D. San Francisco, California. n15 ft

THE GREATEST DISCOVERY OF THE AGE!

Great Blessing to Mankind! Innocent but potent! **DR. L. J. CZAPKAY'S PROPILIACIUM**, (Self-disinfecting Agent), a sure preventive against Gonorrhoea and Syphilitic Diseases, and an unsurpassed remedy for all Venereal, Scrofulous, Gangrenous, and Cancerous Ulcers, Fœtid Discharges from Vagina, Uterus, and Urethra, and all Cutaneous Eruptions and Diseases. For sale at Dr. L. J. CZAPKAY'S Office, Armory Hall, corner of Sacramento and Montgomery streets, San Francisco. As inoculation is a preventive against small pox, so is Dr. L. J. CZAPKAY'S Propiliacium a preventive against syphilitic and gonorrhoeal diseases. Harmless in itself, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without Dr. CZAPKAY'S Propiliacium. It is in very convenient packages, and will be found convenient to use, being used as a soap. That the disease can be prevented by the use of proper agents is as well an established fact as that they can be cured after their establishment. This principle, which is now universally recognized, was received even before the day of Jenner, the discoverer of vaccination, in 1766, and its multiplied benefits ever since have received, as they deserved, the attention of the medical faculty. It was in pursuance of this branch of the medical science that Dr. CZAPKAY fortunately made the discovery of his "Propiliacium," which, for the prevention of syphilitic, gonorrhoeal, cancerous, and cutaneous disorders, stands unrivalled by any agent in the Pharmacopœia.
The effect of this agent after coition is immediate, and removes the possibility of a contraction of disease. However, the disease has been contracted, it is useful in neutralizing the poisonous secretions, which, by absorption, produce the horrid consequences known as secondary syphilis. It has been administered by the Doctor in many thousand cases, and he has yet to find the first in which it has failed to subserve the purpose for which it was administered. Price \$5. Full directions are attached to each package. In cases where the Propiliacium is used as a curative, Dr. L. J. CZAPKAY will furnish (gratis) a prescription for his Blood Purifier.
All communications from the country, addressed only to Dr. L. J. CZAPKAY, San Francisco, will be strictly and confidentially attended to, and the remedies, with the greatest care and security, immediately despatched by Express or other conveyance to their destination. n15 ft

SANTA BARBARA:

THURSDAY, DECEMBER 4, 1856.

The steamer arrived Tuesday evening, bringing intelligence from the East of the probable election of James Buchanan to the Presidency of the United States. The hopeful adherents of the victor were jubilant and vulgar; the partisans of the vanquished were no where to be seen. Now a lesson in political morphology was to be learned. People who had before the election been months unable to make up their minds upon the merits of the candidates and the questions at issue between the two parties, were enabled to make an intelligent and conscientious choice in a remarkably short space of time. Least of all could appearances be reconciled to the fact that the defeated candidate had received a majority of votes on election day, only one short month ago. This change has not even the merit of novelty. Politicians easily acquire this part of their professional education.

People whose heads contain little else but political ideas came together and decided to celebrate the victory. Every body was besieged for money to defray the inevitable expenses of a celebration, and the demand admitted no denial. People who close their ears and hearts to imploring want and kindly charity contributed without questioning the necessity or object of the donation. It might be said further, that people, disregarding a wise and honest maxim, were in this instance prodigal, even before they were just. But a considerable sum of money was collected, and with it several kegs of powder purchased, salutes fired, (which, by-the-by, came near costing the life of one of the gunners,)—large parties of men and boys marched and counter-marched till late at night through the streets, determined to be joyous, regardless of expense and their lungs,

"All the while sonorous metal blowing martial sounds."

The election is over. It was pre-eminent in importance to all that have preceded it in this republic. It was fraught with the gravest consequences to the Union of the States, or rather to the peace and fraternal Union of the people of all the States. Peaceable disunion of the States cannot take place. If the intelligence from the East received by this steamer be true, the people have decided that the government shall be administered on the basis of the Constitution as interpreted by the elder Adams, Madison, Marshall, Story and Webster. It remains to be seen if the administration of the government on that basis be practicable, with the question of slavery still open, and a minority that is almost a majority demanding its solution. We hope there is yet virtue and wisdom enough in the people to solve the question peaceably.

Juan Lago, who was convicted in San Luis Obispo county of the crime of grand larceny, and who made his escape from the jail of that county last month, was captured at Santa Clara river last week, and is now confined here. Application was made on his behalf to the District Judge on Saturday last for a writ of Habeas Corpus to test the legality of his confinement. The judge granted the writ and continued the hearing for twenty days.

Peace has at length been restored and order established in the territory of Kansas. The deluded wretches under General Lane fled at the approach of Gov. Geary with the government troops, and the "Ruffians" skulked back over the border into Missouri. About ninety persons have been indicted for murder in the first degree, and a large number for robbery and arson. Many of the accused have been apprehended, and will, without doubt, be punished.

Hon. Samuel Hoar died at his residence in Concord, Mass., on the 2d day of November last, at the age of 78 years. Mr. Hoar graduated at Harvard College in the celebrated class of 1802, was admitted to the bar in 1805, and has been for the last 40 years one of the most eminent and successful practitioners in the State of Massachusetts.

LATER FROM THE ATLANTIC STATES. By the arrival of the steamer Golden Age, at San Francisco, on Sunday evening, we have dates from New York to the 6th of November.

The Election.

We take the following summary from the Alta California:

The result of the Presidential election renders it certain that James Buchanan, of Pennsylvania, will be our next President, and John C. Breckinridge, of Kentucky, Vice President.

According to present appearances the following will be the vote of the Electoral College:

FOR BUCHANAN.	
California.....	4
Illinois.....	11
Indiana.....	13
New Jersey.....	7
Pennsylvania.....	27
Alabama.....	9
Arkansas.....	4
Delaware.....	3
Florida.....	3
Kentucky.....	12
Total.....	174

FOR FREMONT.	
New York.....	35
Connecticut.....	6
Maine.....	8
Michigan.....	6
Rhode Island.....	4
Wisconsin.....	5
Total.....	104

FOR FILLMORE.	
Maryland.....	8
Whole number of votes.....	296
Necessary to a choice.....	149

THE NEXT CONGRESS. The next House of Representatives will probably stand very nearly as follows:

Buchanan.....	135
Opposition.....	99
Buchanan majority.....	34

The result of the State elections thus far indicate that the Democrats will have a clear working majority in the Senate, and that they will have control of both Houses of the next Congress.

New York State—Incomplete. In this State there were but 355,701 votes heard from. These give a majority for Fremont over Buchanan of 10,484.

The Republican State ticket is believed to be elected.

In New York City the Democrats elected nearly the whole of their charter ticket.

Pennsylvania. Buchanan's majority in his own State, it is said, will be about 20,000.

Michigan. The Republicans claim this State by 15 to 20,000 majority. The Legislature is largely Republican, which ensures a Republican U. S. Senator in place of the Hon. Lewis Cass.

Illinois. The result in this State is considered somewhat doubtful, though it was generally conceded to Mr. Buchanan.

Indiana. Nearly all the counties heard from give small Republican gains. The New York papers, however, put down the State for Buchanan.

Wisconsin. The indications are that Wisconsin has gone for Fremont.

Kentucky. A private despatch from Louisville states that Mr. Buchanan had carried Kentucky by 7000 majority.

Tennessee. A despatch received at Washington states that Buchanan had carried this state by a very large majority.

Louisiana. Senator Slidell received a despatch from Louisiana, stating that Buchanan had carried this State by a handsome majority. New Orleans gave Fillmore 3483 majority.

Ohio. Ohio gives Fremont about 20,000 majority.

Delaware. The full returns from Delaware show a Buchanan majority of 1853.

Maryland. Mr. Fillmore has carried this State by about 8000 majority.

Virginia. Buchanan has carried Virginia by about 15,000.

North Carolina. The returns indicate a decreased vote, but the State is sure for Buchanan.

South Carolina. The Legislature of South Carolina have elected an elector under instructions to vote for James Buchanan for President.

Georgia. The Democrats will carry this State by about 15,000 majority.

Alabama. The Democrats will have about 5000 majority.

Mississippi. Scattering returns show Democratic gains.

Maine. Fremont's majority will be about 20,000.

Rhode Island. Fremont's majority will be over 4000.

New Hampshire. Fremont's majority is upwards of 4000.

Vermont. Fremont's majority will reach 25,000.

Massachusetts. Fremont's majority will be over 50,000. Burlingame is re-elected to Congress.

Connecticut. Fremont's plurality will be over 6000.

Charles E. Carr has been appointed Collector of Customs at San Pedro, California, vice Williams, deceased. Jos. H. Snyder, Assayer of the Branch Mint, vice Wiegand, removed.

The amount of money subject to draft in the U. S. Treasury is upwards of \$24,000,000—of which amount there is reported at San Francisco the sum of \$2,750,000.

The number of resignations of army officers is in consequence, as alleged, of the inadequacy of their support. The War Department is constantly receiving them.

The Secretary of the Interior has decided against the ruling of the late Commissioner of Pensions, making a discrimination between volunteer and regular service. The soldiers of either service are, therefore, equally entitled to bounty land. A large number of claims that have been suspended pending the decision of this question, will now be satisfied.

An accident occurred on the Williamsport and Elmira Railroad, when near Crescent station, on the 1st inst. In consequence of breaking a rail the whole train was thrown off the track. A baggage master was killed instantly, and several passengers badly hurt.

A duel was fought on the 1st inst. a few miles below Richmond, Va., between Roger A. Pryor, editor of the Richmond Enquirer, and Dr. Finney, Senator from Accomac county. Dr. Finney was wounded in the right hip.

There was a violent gale on the 4th inst., on the Lake Erie and Lake Ontario. A large number of vessels were wrecked.

Montreal was visited on the 4th inst. by a terrific hurricane. A good deal of damage was done to the buildings in the city and neighborhood, but no loss of life is reported.

The Church of the Epiphany, at Philadelphia sustain the vestry in the rebuke given to the pastor, Rev. Dudley A. Tyng, for preaching politics from the pulpit. Dr. Tyng will resign the pastorate.

The powder mill of Nathan Pratt, at South Acton, exploded on the 1st inst., and killed two men employed in the building.

European Intelligence.

The European news is to Oct. 25th. We make the following extracts of interest:

The money trouble in France continues to affect the stability of the financial world, and to alarm all who have dealings with the French. According to the news brought by the Asia, the drain of gold continues, with unabated steadiness; the Bank of England was defending herself by new precautionary measures, refusing to advance on government securities other than exchequer bills; the Bank of France was still hesitating between further restriction and suspension, the prevailing opinion being that she would be compelled to suspend.

It is now generally believed that in consequence of the growing importance of the question to be discussed, the Congress of Paris, about to re-assemble, will consist of the first plenipotentiaries, as before, and not of the second, as was proposed. The proposition to refer the Neapolitan question to the Congress emanates from Austria. Rumor states that on the first day of meeting Count Walewski, in the name of the French government, will advocate the admission of Naples. A discussion will then be invited as to whether the Congress will step beyond the Eastern question, for which it was first assembled, to take up the Holstein, Neufchatel, Montenegrin, Greek and other questions, and whether the King of Naples shall be represented.

An ambassador from Paris has arrived at Trebizonde, on his way to France, as the bearer of costly presents to the Emperor, and accompanied by a large suite.

A despatch from Constantinople, dated the 9th instant, states that Sefer Percha has gained two victories over the Russians in Circassia, and had taken from them 800 prisoners and 21 guns.

The Emperor of Russia has conferred the order of knighthood of St. Alexander Nevsky on Baron Humboldt.

Austria refuses to pay the dues levied for the maintenance of the lighthouse at the Sulina mouth of the Danube, on the plea that she was not consulted respecting the establishment.

Rumors were rife of an intended strike for higher wages by some classes of the workmen of Paris. Plasterers, wharf laborers and others were spoken of as likely to stop work.

Princess Mathilde, daughter of Prince Charles Bonaparte, was married to Count Louis de Cambacres, on the 14th of October, at the chapel of the Tuileries.

The California American gives the following account of an occurrence which took place recently in Napa county: "A gentleman, in whom we place the utmost reliance, informs us that considerable excitement has existed in Napa county the past week, caused by the outrageous conduct of a minister named May, who, having a family with him, attempted to elope with the daughter of one of his parishioners, a highly respectable gentleman, but fortunately for all parties, the scheme was discovered in time to be prevented. The reverend gentleman concluded it was expedient to leave Napa county at his earliest opportunity, and fled upon the discovery of the plan, or just in time to save lynching, as the people were intensely indignant at the infamous conduct of the pretended religious man. Mr. May was, in the winter of 1854, a resident of this city, and held a clerkship in the Senate, and has always been regarded by his friends as a very pure man."

THE HONEY BEE. The San Jose Tribune says that the apiary of Appleton & Co., on the Alameda, contains one hundred and four hives, and from the commencement of their operations, have lost but one swarm among them all. The rapidity of their increase is almost miraculous. In the Eastern States two swarms in one year are considered a fair increase; here three are a common average, and in some cases as many as eight; and in one instance as many as nine swarms were sent out from one hive in a single year. The bees work more or less all winter, finding material from one source and another, with which to construct and fill their delicate cells. In early spring they resort to the thickets of willows upon the first appearance of the leaves; from some plants they obtain gums, and gather honey dew here and there, so that their work is hardly ever suspended. But from the first of April to the first of July is their busiest time, when the whole country—hill, plain and woodland—is one immense garden of flowers. During that season, "from early morn till dewy eve," the bees are most active. Their labors are also very productive and profitable. A hive of average size produces forty pounds of honey per year; which is, at present, worth from \$1.50 to \$2.50 per pound. Any one can see how remunerative the rearing of the honey bee may be made. The only outlay of consequence is a stock from which to propagate; and after that the management of the business is easy and inexpensive. Messrs. A. & B. have this year sold several swarms, which uniformly have done well. They have sent them to different parts of the State and to Oregon; and at the Fair they received a special premium for exhibit of bees, and also one for a fine specimen of honey.

HIGH HANDED ROBBERIES IN SHASTA COUNTY. A correspondent writing from Shasta, Nov. 21st, furnishes the following account of two daring attempts at robbery in that county:

On Wednesday night last, at about 9 o'clock in the evening, six men masked and each armed with a revolver, entered the house of A. J. Van Wie, at Oak Bottom, about eight miles from this place, on the Weaverville trail, and with their revolvers pointed at the head of the proprietor, demanded the key of his safe. He, seeing there was no show for him, gave up the key. Not succeeding in opening the safe with the key, they commanded him to open it for them, which he did. To their disappointment they found but \$14 in the safe. The robbers then helped themselves to liquors and left. The same evening, a man at French Gulch, fifteen miles from here, was surprised by some men jumping out from behind some bushes, evidently with the intent to rob him, but his horse taking fright, ran off, by which means he escaped. No doubt they were the same gang that entered the house as above stated.

The Sonoma Journal, of Nov. 21, contained the following, which we copy for the benefit of ambitious bachelors: "A widowed lady, twenty-five years of age, having no children or relatives in this State, and possessed of property which, with proper management, can be made to realize from \$2,500 to \$3,000 per year, wishes to form a matrimonial alliance with some gentleman of genteel appearance, good reputation and business capacity. A letter addressed to 'Emma, care of the Editor of Sonoma County Journal,' stating age, place of residence and profession, with real name, will be treated with the utmost confidence and respect."

INDIANS IN YUBA. We have obtained from Gen. Sutter a census of the four Indian tribes in this vicinity, which, with the exception of the Yuba tribe, may be relied on as correct. There are of the Hoek tribe, at the rancharia near Hock farm, 10 men, 7 women, and 3 children; of the Yukulmey, 7 men, 4 women, and one child. The number of the Yubas will not vary materially from 100, men, women and children.—Marysville Herald.

An event of no small interest in the commercial world has just transpired. The schooner Dean Richmond, of 380 tons register, 145 feet in length, 26 feet beam and 12 feet hold, has arrived at Liverpool, direct from the port of Chicago, without breaking bulk, with 400 tons of grain, which she delivered from the ship's side exactly as she received it.

HEAVY JUDGMENT AGAINST THE ESTATE OF J. L. FOLSOM. On Saturday morning, Nov. 22d, in the U. S. Circuit Court, the jury in the case of the United States vs. the Executors of J. L. Folsom, returned a verdict in favor of the United States for the sum of \$186,658, with interest from Nov. 14th, 1855—amount due by deceased on his account as Quarter-Master.

TAXES ON THE FREMONT GRANT. The Board of Supervisors of Mariposa county, have assessed Col. Fremont's estate, in that county, at one million of dollars. This will yield in taxes to the State and county, seventeen thousand dollars, at the rate fixed by the Board of Supervisors.

We are again placed under obligations to Mr. S. G. Wilder, of the Pacific Express, for files of papers by the Senator.

NOTICE TO MARINERS.

LIGHT HOUSE

SANTA BARBARA, CALIFORNIA.

A FIXED RED LIGHT, 4TH ORDER OF FRESNEL, Illuminating the Seaward half of the Horizon.

The Light House consists of a plastered dwelling of one and a half story, with a low tower, also plastered, rising through the roof. It is situated at an elevation of 146 feet above the sea, two miles south-westerly from the landing at Santa Barbara, and about 550 feet from the brink of the bluff. The light is 180 feet above the same level; but from the red color, and low order of lens, it will not be visible for the range due to that elevation. It should, however, in a clear atmosphere, be seen 10 to 12 miles.

The latitude and longitude of the light, and the magnetic variation in the vicinity, as given by the Coast Survey, are as follows:

Lat..... 34° 23' 35" N.
Long..... 119° 42' 05" W.
Mag. var..... 13° 30' E., November, 1853.

The light will be first exhibited on the night of the 1st of December, 1856, and every night thereafter until further notice.

By order of the Light House Board.
