July 5, 1962

University, California

Special Lecture

BOOLOOTIAN TO TALK ON BEHAVIOR OF SEA OTTERS, ELEPHANT SEALS

A special illustrated lecture on "Sea Otters and Elephant Seals: Some Aspects of their Behavior," will be given this afternoon at 3 p.m. in South Hall by Dr. Richard Boolootian, Assistant Professor of Zoology at UCLA.

The marine biologist will cover aspects of the biology and behavior of the two mammals--the sea otter, highly prized for its fur; the elephant seal for its oil.

Dr. Boolootian received his B.S. and M.S. from Fresno State and his Ph.D. from Stanford. He has been at UCLA since 1957 and has been a research associate at the Hopkins Marine Station in Pacific Grove since 1954.

Last summer he was a visiting investigator to Samoa and Hawaii where he examined poisonous marine organisms. He has also been a visiting investigator with the Atomic Energy Commission at Eniwetok Atoll.

Author of 30 articles in professional journals, the marine biologist has written one book and has another underway as well as six papers in the process of publication.

Dr. Boolootian is also interested in the field of space biology and has held seminars at UCLA on the Gagarin and Glenn orbital flights.

FACULTY AND STUDENTS ENJOY SUMMER FUN--ANOTHER CHANNEL ISLAND TRIP IS SCHEDULED FOR THIS SUNDAY

The faculty and their families dominated the throng of humanity that turned out in Robertson Gym last Friday night.

As we predicted, folk dancing really caught on...Pat Alexander taught basic steps from 7:30-9 and the newcomers really joined in. The nighttime athletes also demonstrated their prowess on the trampoline, flying through the air with the greatest of ease. Half-court basketball, badminton and volleyball were again popular.

Lots of the usual good food made the "Surf 'n Supper" a smashing success. There was lots of surf, but very few boards.

The Summer Whirl at Santa Cruz last Saturday also proved to be a social success. The faculty again showed that they weren't wallflowers by their turnout. Everything from the twist to the swing was performed during the gala event.

For those who weren't able to make reservations for the Channel Island excursion this Saturday, you still have a chance to go the following day, Sunday, July 8. Word has it that there are about 25 people on the waiting list. The same trip will take place leaving from Dock 1, Port Hueneme at 8:00 Sunday morning. The price is \$5.50 per person.

For additional information, call the Graduate Manager's Office, where reservations can be made for the trip.

PAGANINI QUARTET WILL PLAY NOON CONCERT

The world-famous Paganini Quartet, in residence at UCSB, will perform in a noon-day concert on Monday, July 16 in Campbell Hall. The price of admission for the performance is \$1.25. Everyone is urged to attend.

Members of the Quartet are: Henri Temianka, first violinist and leader; Stefan Krayk of the UCSB Music Department, second violinist; Albert Gillis, violist; and Lucien Laporte, cello. No program has been announced as yet.

COLLEGE CABIN WILL OFFER DAY OF
MOUNTAIN RELAXATION FOR STUDENTS
AND STAFF ON JULY 15

The UCSB College Cabin will offer a hermitage for all students, faculty and their families who would like to spend a day in the Santa Ynez mountains on July 15.

About an hour drive from the campus, the cabin is located off the San Marcos Pass adjacent to Rancho Oso. The only charge will be for horseback riding (at Rancho Oso) which is \$1.75 per hour on Sundays.

Hiking, fishing, and general activities of relaxation will be the order of the day.

For further information, contact Kathy Barthels at ext. 2252.

ULLIAN, GUEST PROFESSOR TO TALK
ON MATHEMATICAL LOGIC TUESDAY

Dr. Joseph Ullian, Visiting Professor of Philosophy at the University of Chicago is scheduled to speak on "What Is Mathematical Logic," Tuesday, July 10 at 3 p.m. in South Hall Lecture Room.

"BORN YESTERDAY" ON SUNDAY

The hilarious "Born Yesterday" starring "dumb blond" Judy Holliday and William Holden won an academy award in 1950. This Sunday in Campbell Hall at 7:30 it will be shown again along with "The Loves of Franistan," a satire on the makers of epic motion pictures. Included are clips from the "The Charge of the Light Brigade," "Custer's Last Stand," and others.

C A M P U S E V E N T S

THURSDAY, July 5

Special Lecture: Dr. Richard Boolootian, Visiting Professor UCLA; "Sea Otters and Elephant Seals: Some Aspects of Their Behavior." South Hall, Lecture Room, 3 p.m.
