

**CADET QUEEN** — One of the three Col's Coeds pictured above will be crowned queen of the Military Ball tomorrow night. From left to right, the contestants are Sue Swift, Paula Van Benschoten, and Maureen Mahoney. The three finalists were selected from the 30 Col's Coeds by the ROTC cadet corps this week. The winner will be picked by voting at the dance. The other two girls will reign as princesses. The ball is sponsored by Scabbard and Blade. —photo by Gilberts

## Military Ball Tomorrow Night; Scabbard, Col's Coeds Host

Scabbard and Blade and Colonel's Coeds host tomorrow night at UCSB's annual Military Ball. Place: Rockwood Women's Club in Santa Barbara. Time: 9-1.

Bids (\$3) are available at the graduate manager's office, from members of Scabbard and Blade and Colonel's Coeds, or at the door.

### Queen Crowned

The dance features the crowning of a queen. Candidates for this honor are Colonel's Coeds Sue Swift, Maureen Mahoney and Paula Van Benschoten.

The semi-formal affair is complete with reception line and grand march — the first grand march at any UCSB all-school dance. All students are welcome.

### Hours Extended

Dress is formal for women, dark suits for men. Upper-division ROTC students may wear uniforms. On-campus women have extended hours for the dance. A special floor show will also be featured.

Scabbard and Blade is an honorary fraternity of upper-division ROTC students. Colonel's Coeds are chosen by UCSB's military science students to participate in formal ROTC affairs.

This is the second formal dance of the spring semester, following last week's Jr.-Sr. Prom. The I. Newton Perry orchestra will play for the event.

## FEW TICKETS AVAILABLE TO DR. MEAD LECTURE

A limited number of tickets are still available for tonight's lecture by noted anthropologist-author Margaret Mead. The talk will be given in the campus auditorium at 8:30 p.m. Tickets can be purchased in the Graduate Manager's office. Miss Mead's topic will be, "Orchestrating the Cultures of the World."

A few tickets for the informal buffet dinner featuring Dr. Mead's appearance in the Faculty Club at 6 p.m. tonight can be purchased at the door.

"We urge students and faculty to buy their tickets before the lecture since the auditorium capacity is 750," stated June Yokoyama, President of Crown and Scepter, the group sponsoring Miss Mead's appearance.

### Primitive Peoples

Dr. Mead is Associate Director of Ethnology at the American Museum of Natural History. She is well known for her work among the primitive peoples of the world and the publication of her findings.

Some of her more popular texts include, *Coming of Age in Samoa*, *Growing Up in New Guinea*, *Sex and Temperament* and the 1950 best seller, *Male and Female*.

### Psychology of Sex

Between trips to the South

### DELTS SUSPENDED

The Delta Tau Delta fraternity has been placed on probation until February of 1960, it was announced by Dean of Students Lyle Reynolds late yesterday.

The punishment resulted from a violation of University regulation No. 25, pertaining to the consumption of alcoholic beverages in a fraternity house. This violation took place last Saturday at the Delt "Viva Zapata" party.

According to Dean Reynolds, this means the fraternity will not be able to carry on any social activities during the period of probation. Dr. Reynolds told *El Gaucho* that the action will make the group's status almost "that of a boarding house." The decision was reached by a group of administrators and faculty. The complete story of the Delta Tau Delta case will be printed in Tuesday's issue of *El Gaucho*.

Seas, Dr. Mead has served as lecturer in the fields of child growth and development, child psychology, child study, psychology of sex and contemporary cultures.

She has served as a lecturer at the UNESCO workshop for International Understanding in Sevres, France. She has also toured England explaining the American GI to the British people.

### U.S. Scientist Lag

Miss Mead has published 18 books and over 100 articles since her initial journey to Somoa. Her latest article, a study of the concept of the scientist among American high school students, reveals one of the basic reasons why the United States is lagging behind the U.S.S.R. in the training of scientists.

Tonight's dinner will feature meatballs in wine sauce as the main fare.

# S. B. ATHLETIC PROBLEMS DEFINED

## Goodspeed Investigation Shows Problems In Finance, Administration, Defining Aims

After more than four months of careful study, Dr. Stephen S. Goodspeed, special assistant to the Chancellor for student affairs, has outlined what he feels to be the major problem areas connected with the UCSB Athletic program.

### McCLAIN DROPS COUNCIL POSITION

Assembly Chairman Russ McClain became the eighth Council member to resign this year. McClain explained that he was dropping from student government due to studies and work.

Immediately following the meeting AS President Stan McGinley announced that applications will be accepted for the vacant job until 5 p.m. Tuesday, March 17.

Council endorsed a proposal of the Student Union committee to initiate a graduated fee beginning next fall to collect funds for the new student union building.

The final decision will be made by the Associated Students in the spring elections. The proposal would begin with a one dollar assessment in 1959 and would increase, reaching a maximum of five dollars in the fall of 1964.

In other important business, Council approved the Social Committee's request to hire the Dave Pell Octet for the Barbary Coast dance. Arrangements are being made to secure The Four Eligibles to perform with the Pell group.

Judy Berrigain was appointed by the President to serve as the new Office Manager for the AS.

A motion to establish an office for the IFC and Panhellenic Presidents in the ACB office was approved by Council.

Dr. Goodspeed was appointed by Vice-Chancellor Elmer R. Noble to conduct the study. The athletic programs on all of the University campuses are under similar study.

After talking with athletic officials on all of the campuses and carefully considering the specific problems at UCSB, Goodspeed pointed out the following four major problems.

### Problem Areas

- 1) Lack of an administrative agent or agency where authority should be coupled with responsibility to define the aims of the intercollegiate athletic program and make decisions to implement these aims.
- 2) Lack of a long range policy of financial support for athletics by the Associated Students as well as the administration.
- 3) Lack of a clear distinction between the duties of the Director of Athletics and the Men's P.E. Department.
- 4) Lack of a determined policy with regard to the future relationship of the

*Continued on page six*

### S.B. TRIO COMPETES

UCSB students Marilyn Mack, Sue Swift and Don McInnes will compete in the 13th annual Coleman Chamber Music Audition in Pasadena Saturday.

The trio will be directed by Associate professor of music Stephan Krayk. Miss Mack plays the cello, Miss Swift the piano and McInnes the violin.

In addition to their appearance at College Day last Saturday, the trio will play for the Contemporary Music Festival in May.

## NEW 'SPECTRUM' EDITOR . . .

**LITERARY MAGAZINE EDITOR**—Kerry Gough has been selected by the Press Control Board to be editor of the campus literary magazine, *Spectrum*. Gough is a former assistant editor of *El Gaucho*. His appointment must be approved by Legislative Council Tuesday night.—(Photo by Bob Quittner).

## Overpopulation Like 'Cancer On Earth,' Emphasizes Huxley

by Quarton and Collier

The earth's population explosion is a crisis which must not be ignored by the world's leaders any longer, stated Aldous Huxley in his lecture Monday afternoon. He declared unlimited increases in numbers of people practically guarantee the ruin of our planet.

"If the population continues to increase at its present rate, within 200 years our species will be like a cancer on the earth — will destroy its host and finally itself," he said.

With the advent of more public health measures the population will keep increasing at an unprecedented rate.

### Death Rate Fallen

"You have this ambivalent fact," stated Huxley, "while the birth rate has remained what it was during the period when three out of five children died and when it was necessary to have large families in order to preserve the race, the death rate has fallen.

"If we continue as we are going now (doing nothing), the problem will be solved by Nature in the way Nature always solves problems of over population — starvation, disease and warfare.

"This is an undesirable solution. Are we going to restore the balance (of nature) in a natural anti-human way, or are we going to establish it in an intelligent, rational, human way?"

"The next way is to increase resources, industrial and agricultural production, so it can catch up with the increase in population.

### Two-thirds Underfed

"Two-thirds of the world is now living on a daily diet of 2,000 calories, the optimum is 3,000. The situation has been getting slightly worse each year.

"Thirty years ago fifty percent of the population was undernourished." *Continued on page three*

## 'Beautiful People' Show Continues

UCSB's Little Theatre production continues its run of Saroyan's "The Beautiful People" this Thursday, Friday and Saturday. Curtain rises at 8:30 p.m., tickets available at the box office or by phone, 7-1227.

"The play is good theatre," says *El Gaucho* drama critic Janiece Asper. "Leads Arlen Collier, Bob Richards and Nancy Evans all perform professionally."

The play deals with a Bohemian family living on the \$24 pension check of a man dead seven years. Others in the cast of Pulitzer-prizewinner Saroyan's play are Alan Knight, Nick Scott, Mike Binette, Faye Moss, Dave McCleery and Arnold Shapiro. *Gaucho* drama professor Bob Crumb directs.

## Huxley Highlights English Session

Lecturer-novelist Aldous Huxley will be the featured guest at the fifth meeting of the English Major's Forum, Monday night in the Santa Rosa Hall lounge.

The discussion period will consist of questions from the audience answered by Mr. Huxley.

While English majors will be given preference if the conditions in the lounge become over-crowded, there is a possibility that other students may attend the discussion.

The session has been planned by the forum's five-member student advisory committee for the English department.

The committee members are Judy Owen, Richard Hendrickson, Walt Wager, Richard Rex and Georgia Pearce.

The committee attempts to better acquaint the English majors with the faculty. The talks cover a variety of subjects of interest to both students and faculty.

## Blood Donations Taken At Tri-Counties Bank

Donations to the annual Larry Adams Blood Drive can still be made at the Tri-Counties Blood Bank today from 9 a.m. to 6:30 p.m. Appointments can be arranged by calling 5-7037.

Blood collected from the drive goes to aid Larry Adams, a former student who is a hemophiliac. The blood is also given to a general student-faculty fund.

## BICYCLE RACE HELD TOMORROW IN LOT

Tomorrow the International Relations Club will sponsor a benefit bicycle race at the campus library parking lot from 2 to 4 p.m.

All students are invited to race in one of the five divisions: sports, racer, two "junkers" and womens. Roberta Arkush, Oak Hall and Don Dwiggin, Palm Hall, may be contacted for additional information.

The fee of 25 cents to be paid by each participant Saturday contributes to a fund to send a delegation to USC for the Model United Nations session in April. This will be the first time UCSB will be represented at the session.

## PCB Names Gough Editor of Spectrum

Kerry Gough is the Press Control Board's nomination to be the new *Spectrum* editor. The PCB met yesterday and approved Gough for the office, upon the recommendation of outgoing editor Jacqueline Newby.

Gough's appointment must be approved by the Legislative Council before it is final. Council will consider the question Tuesday.

Gough served as Editorial Director of the *El Gaucho* for the fall semester. He is a junior at UCSB, majoring in English.

Gough is a transfer from Cal at Berkeley. While there he worked on the *Daily Californian*.

Previous to going to Berkeley he attended Washington State College and worked on the *Daily Evergreen*.

He has toured Europe, acting as correspondent for the Washington State paper.

Under the new method of selecting *Spectrum* editors, initiated this semester, Gough will assume his job immediately after Council's approval.

## THE COPY CAT...

by Pat Gower

Our thanks to Patrick Hayes for contributing some Hangover House philosophy to our column this week. The following is from him:

Big news of the weekend for all concerned was the superb job done by The Disneyland Dataliners in the sophisticated Coral Casino to make such a wonderful evening of the Junior-Senior Prom. Of special interest to the veterans of the King of Diamonds Ball was the fact that the floor at the Casino could be seen throughout the night. Sigma Phi Epsilon's candidate, Gretchen Davis, reigned prettily as Queen and inspired choral endeavors from her sponsors which set new standards.

Our recommendations for Covell Brown as Host of the Year. He merits the nomination for his truly inspired technique of ignoring guests and allowing them free use of his facilities for a spontaneous post-party.

There's a new Hemingwayesque sport devised by some of our more adventurous Isla Vistas—the chase and capture of squirrels an Alpha Delta at Loyola U. in Chicago. They will be married

Aug. 22. And another announcement to the Chi O's and a happy surprise, was the Jan. 1 wedding of Nonnie Pelleiter and SAE Dennis Harris.

along the beach cliffs. Guaranteed to compete with the thrills and dangers of an African safari. The score thus far in this new game is one squirrel captured at the cost of one bitten thumb and one twisted ankle.

An unusual place was picked for the pinning of Gloria Morgen to Bob Link on the beach over the weekend. Tetanus shots, anyone?

\* \* \*

Thank you, Patrick. The dubious personages of Gloria and Bob will have to share congratulations with some real campus personalities who make the UCSB social register this week.

Chris Anderson revealed her pinning to Lambda Chi Dale Lauderdale at the Theta meeting Monday night. Laurie Wallace recently announced her engagement and August wedding plans with Owen Guitteau of Santa Barbara. At the Chi Omega house senior Maureen Mahoney told of her engagement to Brian Shutts,

## Greek Weekend Scheduled March 20-22, Events Include Dance, Service Project

Members of the 16 fraternities and sororities on the UCSB campus will participate in "Greek Weekend" beginning Friday March 20 through Sunday March 22. Chairman John Lauritzen announced, "due to the many time consuming activities already scheduled for the semester, the Inter Fraternity and Panhellenic Councils have condensed the traditional Greek Week to a weekend."

The schedule of activities will include exchange desserts at the respective houses Friday night followed by the Greek Dance later in the evening, which will feature a 15-piece all-fraternity band headed by Steve Roland.

Highlight of the week-end will be the community service projects which the Greeks are sponsoring Saturday. Included in the projects are improving of the Little League facilities at La Playa Park and working for the Santa Barbara Boys Club.

A pancake breakfast provided by Uncle John's Pancake House will initiate the work day with the City of Santa Barbara providing lunch for the laborers.

The culmination of the activities will be marked by the attendance of the Greeks en masse at the churches of Santa Barbara on Sunday morning.

Lauritzen stated that a special television program is in the making for the week-end. This feature would entail a discussion of fraternal organizations, their purposes and scope.

Representative displays of the Greek Organizations on the campus may be viewed in the display case on the second floor of the library.

dear susie,

just a short note this week to give a forecast of the easter fashions to be found in the l.r. annex.

first, for those of you who are fashion conscious, but limited financially here is really something of interest. a striped cotton knit from marie phillips, its two piece, slim skirt with a slight blouson to the top, comes in combinations of grey and white or toast and white, price 16.95.

next, a rayon linen two piece ensemble, shadow plaid, fitted top, also 16.95.

of course, i've barely scratched the surface, but will let you know more in weeks to come of what we're featuring at the annex especially for easter. please drop in and see me any friday afternoon or saturday, would love to see you.

## HUXLEY LECTURE . . .

Continued from page one

ished. Today, 65 percent is undernourished. The extraordinary difficulty of keeping up with this increase in population can easily be envisioned." Huxley went on to say most countries do not have the capital to even attempt this.

### Increase Production

"The third alternative," he said, "is to try to increase production and at the same time to try to re-establish the balance between birth rate and death rate by intelligent and humane methods.

"In the 19th and 20th centuries, various methods of birth control of a less fearful nature than those practiced in antiquity, (such as infanticide) have been devised. One theoretically could have these methods applied throughout the world. But what is theoretically possible might be practically impossible.

"Whereas death control is easy under modern circumstances, birth control is difficult. When you come to decreasing the birth rate, we are confronted with problems that can be solved only with the cooperation of the entire population.

### Oral Contraceptives

"The problems are infinitely complex. It is not merely a problem in chemistry, biology and physiology, but in sociology, education and psychology. It has to be attacked from ten fronts simultaneously. First of all there must be a great deal of fundamental research in biology, into the problem of reproduction, to produce some sort of oral contraceptive.

"There is absolutely no prospect of our making any political agreement on a general population policy throughout the world. There would have to be a worldwide agreement or rational agreement to gain a satisfactory control of the situation at all. The trouble is that leaders just don't think in biological terms.

### Wallace and Corn

"What would happen if the only man who had experience in practical biology and who was in politics had become President. I am referring to Henry Wallace.

## Faculty Cellist Plans Research in Italy

Miss Nancy Payette, member of the UCSB music department and cellist with a number of well-known symphony orchestras will leave Santa Barbara in the early fall for two years of study and research in Italy.

Miss Payette plans to work with Maestro F. Ghisi, professor of music history at the University of Florence, in bringing to light lesser-known cello and chamber music of the late Italian Baroque period.

Miss Payette has performed with the San Antonio Symphony, the Santa Clara County Symphonette, the Stanford University Orchestra and other professional orchestral groups. She has also made numerous recital and concert appearances.

Shortly after joining the music faculty at UCSB in 1957, Miss Payette performed in a duo sonata recital with pianist Wendell Nelson as part of the Faculty Recital Series.

Patronize Our Gaucho Advertisers

He has done something which was unquestionably good for the entire human race. He had helped to develop hybrid corn, which is more than can be said for anyone else in politics.

"His mind ran along biological lines, and maybe if we had had a man who thought in these terms, we might have a policy which would make more sense in the long run than the policy now used, which seems frivolous and irresponsible.

### Education Problem

"Another problem is the education problem. This enormous increase makes it almost impossible to realize the ideal of providing a basic education for everybody.

"The problem of raising human quality is being thwarted by the increase of human quality. Quantity makes educational potentialities of the world unrealized. It is almost impossible to improve the natural standards of life, to realize any of the higher possibilities.

### Catholic Opposition

"In the last analysis, this problem is really a religious problem. There are certain theological objections to methods of population limitation. Most religious organizations have accepted this. The Roman Catholic Church does not, except that it was made permissible in 1932 to use the rhythm method, but this has not been effective.

"In 1952, the Pope made it clear that the problem of population was grave. Whether this present attitude towards methods of control will be changed is a matter of interest.

### Birth Control — Usury

"One of the main arguments is their unnaturalness. The same argument was used right after 1515 against the taking of interest on money, saying money was barren and should not breed.

"This represents a very fundamental change in attitude. I don't know whether a similar change will take place.

"To my mind the most important requirement is awareness of the problem and then a realization that it is a religious problem, a problem in the field of human destiny, which we all have to think about. We must think in essentially religious and practical terms. The problem is to be realistically idealistic."

## Record College Day Has 800 Visitors

A record attendance of 800 prospective collegians, their parents and interested visitors marked the tenth annual College Day open house at UCSB last Saturday. This attendance figure exceeded that of last year by over 200.

The majority of the high schools and junior colleges in the southern part of the state were represented at this orientation day for future UCSB students.

Teen-agers from as far away as Las Vegas were touring the campus.

On hand were 100 UCSB student guides to make the rounds with small groups of visitors.

The majority of visitors took this opportunity to talk with the faculty about academic offerings, admissions, housing, scholarships and expenses.

## Public Piano Recital Given By Mansker

Charles Mansker, senior music student, will present a piano recital in a public performance Sunday evening at 8:30 in the Choral Room of the Music Building.

Mansker will play works by Bartok, Debussy and Rachmaninoff. He has been active in musical productions of the UCSB department during the past four years.

He has also been active with the opera workshop, helping in preparing the performance of Menotti's "The Consul" and the recent opera "Mistress into Maid."

## Three Gaucho Debate Teams In Bakersfield Meet Today

by Phyllis Fisher

Three top UCSB debate teams left for Bakersfield this morning to compete in the annual Championship Debate Tournament.

"We have good upper division entries and the lower division team shows promise," commented Gaucho debate coach Robert Cleath.

The upper division teams are Bruce Loeb-Karol Nelson and George Hart-David Peterson. Bob Oldham and Pat Hansen will compete in lower division.

This year's debate question concerns the pros and cons of stopping the further development of nuclear weapons by an international agreement.

The affirmative side advocates the cessation, while the negative upholds the status quo. The debaters will speak both for and against the proposal.

Awards at this tournament, one of the toughest of the year according to Cleath, will be made on a superior or excellent rating scale.

After the Bakersfield event, the next tournament is the West Point Elimination Tournament at Redlands. An alternate to the Bakersfield Tournament will be held April 10-11 at Pasadena.

## SPURS MEMBERSHIP

Applications for membership in Spus, UCSB's honorary sorority, are due before 4 p.m. Monday, March 16 in the Associated Students office. Any woman student with at least a 2.5 grade point average who will be of sophomore standing next fall is eligible for application.

Applicants are asked to sign up for group interviews when they return their applications. The interviews will be held March 24, 25 and 26.

All those applying are also invited to a tea which will be held April 14. There are applications available in the Associated Students office.

## Aquacade

Tryouts for solos, duets, trios and quartets will be Friday, March 20 from 2:30 to 5:00 p.m. at the pool.

Bring your own music and ideas for costumes.

For further information, contact Miss Stitt in building 421, room 216.

# GALLON LOOKS AHEAD TO BRIGHT SEASON FOR '59 GAUCHO HOOPSTERS

by Tom Morgan, Sports Editor

It's been a long season. Coach Art Gallon and his University of California, Santa Barbara basketballers have packed away their equipment after wading through a rugged 24-game hardwood schedule with just four wins to their credit.

Sprinkled in with an otherwise below-par seasonal showing were a few bright spots, including a stunning 71-67 upset over NCAA Playoff-bound Los Angeles St., perhaps the season's biggest win, and numerous other occasions when the determined Gauchos battled down to the wire with Southern California's top cage powers, only to have the door slammed in their faces just inches away from victory.

If it wasn't the winning that counted in basketball, the Gauchos would certainly have been credited with better than a 4-20 seasonal

record and a 2-8 conference standing. Santa Barbara was never convincingly outclassed in any game, including its first venture into the "big time" when UCLA scrambled off the deck to pull out a spintangling 63-59 "squeaker."

Despite being confronted with one of the toughest schedules in the school's cage history, Gallon takes an optimistic outlook at the 1959-60 campaign. "The only place we can go is up," is the philosophy of the likeable mentor.

With seven "seasoned" veterans returning next year and added strength from a strong Freshman team, the Gaucho basketball outlook figures to improve.

"We are expecting Gene Freeman to help us a great deal," stated Gallon. "He really came on at the end of last season. Of course if Ed Haertel is able to play up to his capabilities, we will definitely be

stronger, for he was our leading scorer before he injured his ankle. And with Joel Fleiss and John McMillan back, we should have a much more experienced front line."

"We are going to basic fundamentals next year," forecast Gallon, "for we have to become fundamentally sound before we can expect to go up. Our biggest problem will be to try and evaluate the merits of each player and come up with the best possible offense."

"We could still use a good 'big man' up front," he continued, "but we have quite a few good shooters, which could offset our lack of height."

But in the meantime, Gallon will quietly complete the schedule and then settle back and relax before mapping out his plans for next year.

It's been a long season.

# UCSB SPIKERS INVADE LONG BEACH TOMORROW

## Gauchos Face Highly-Touted 49er Crew, Seek Repeat of Last Year's Easy Victory

by Wils Winnek, Sports Writer

With two weeks of intercollegiate competition under their belts, the UC, Santa Barbara cindermen will face Long Beach State in a dual CCAA track meet tomorrow afternoon in the Beach City. The thinned get-together shapes up to be much closer than last year's meet, which the Gauchos won handily.

Discussing the meet, Nick Carter, UCSB coach, changed from pleasant contemplation to moderate anxiety as he doped out tomorrow's action.

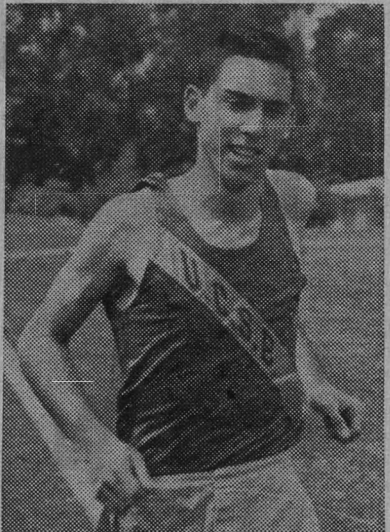

Long Beach is strong in the sprints and should be given the edge as the Gaucho sprinters have not yet rounded into shape. Carter smiled though, as he thought of Bernie Wiener's chances in the quarter mile. (He's done 49.2 already this season).

Then there is a real gem in Coyt Davis, who started as a hurdler, but since has become a pretty fair distance runner. Carter will run him in the mile and the two-mile, if need be.

Davis, a junior, had never run the two-mile until three weeks ago in the inter-class track meet. He ran a 10:07 to win easily. The Gaucho coach beamed as he recalled how the newly-found Santa Barbara distance star performed in last week's SPAAU meet, moving from next-to-last place to second in the relay, passing six other runners.

Roland Cordobes will be pushed hard in the half-mile. Though he has run it in under two minutes this year, the 49ers have depth and speed of their own in this event.

The field events dope out pret-

**BERNIE WEINER**

ty even. The Gauchos rate the favorite in the javelin with Don Kelliher and Dave Mead, who both heaved the spear better than 190' last week. Fast-improving Jim Perino could make it a clean sweep for the Goleta lads.

Coach Carter is going to use Duke Ellington in the broad jump, which may give UCSB another first. But the second and third spots should go to Long Beach.

Page 4 EL GAUCHO Friday, March 13, 1959

# Sports

## GAUCHO MERMEN TEST POWERFUL CAL TECH, WHITTIER SWIM TEAMS

The University of California, Santa Barbara swim team travels to Pasadena this afternoon to meet powerful Cal Tech. This will be the second outing of the season for the Gaucho mermen, who won their first meet decisively last week, over San Fernando St.

Coach Frank Rohter's tankers return to the campus pool tomorrow afternoon to take on the Whittier College swimmers at 1 p.m. Both weekend opponents are members of the SCIAA conference.

Santa Barbara figures as the dark horse for this year's CCAA swimming title. With Dave Parks in the backstroke and

Paul Hodgert, butterfly and breaststroker, showing rapid improvement, some new records may be in the offing. Sprint man Henry Hill has already set a new mark of 56.8 in the 100-yard freestyle.

Impala Sport Coupe—like every Chevy—has Safety Plate Glass all around.

## Chevy stops quickest... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR\*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you. There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

# GAUCHO BASEBALLERS TOPPLE BRUINS

## GOLFERS HOST 49ERS MONDAY

Coach "Doc" Kelliher and his Gaucho golfers go hunting for their first CCAA victory Monday afternoon when they play host to Long Beach St. at the Santa Barbara Community Course. UCSB is 0-1 in conference action.

UCLA's stunned Bruins became the University of California, Santa Barbara's fourth straight baseball victim Tuesday afternoon.

The Gauchos, behind the right-arm of Bill Wetzel and a six-run fourth inning, coasted past their "Big Brothers" to the tune of 8-6, by far the biggest feather of the young season in the hat of Coach Rene Rochelle.

Wetzel, after surviving a shaky

second inning when the hosts jumped off to a 3-0 lead, scattered five hits in the remaining five frames to become the first UCSB hurler to go the distance.

Santa Barbara, trailing 3-1 going into the fourth inning, reeled together four hits and a couple of walks to produce six runs, enough to give Wetzel a comfortable cushion upon which to ride home free.

The winners rapped out eight hits, including two apiece by Ron Williams, Rich Gunner and Frank Stevens. Stevens picked up UCSB's only extra base hits, a double and a triple.

This is the third "upset" of the season for the Gauchos, as they opened the year with a win over a talent-laden Alumni crew and just last week outhammered a pro-studded San Diego Marine Recruit Depot team in a 16-15 slugfest.

Tuesday's contest marked the first game that right-hander Jim Escareno did not pick up the win. "Esky" had come on in relief to get credit for each of Santa Barbara's first three victories.

**UGH!** — That's the greeting Ron Huesser and his Gaucho baseball mates will have waiting next Tuesday when they meet Westmont's Warriors on war path in non-conference clash.

## UCSB NINE TAKES 'REST'

The University of California, Santa Barbara's surprising baseball crew will take the weekend off from intercollegiate competition to rest up for next week's three-game stand against Westmont and USC.

The Gauchos will be looking for their fifth-straight win Tuesday when they travel across town to tangle with the Warriors in the first of a three-game series that winds up on April 14.

Coach Rene Rochelle will take his squad to Los Angeles next weekend for a Friday-Saturday doubleheader with SC's defending NCAA kingpins at Bovard Field.

The Gauchos have scheduled a practice game against a team of local players organized by Rochelle-aide Ed Coulter tomorrow afternoon on the campus diamond.

## TENNIS TOURNEY

UCSB will participate in the Southern California Intercollegiate Tennis Championships at Pasadena this weekend.

## Quotes - for Better Living

"The secret of success in life is for a man to be ready for his opportunity when it comes . . ."—Disraeli

Each day, each hour—Jordanos must be ready for the opportunity of serving its customers. All of the after-hours work of stocking shelves with foods, ordering, unpacking, sorting, pricing—to make it easier for you as customers to find what you want, is part of the "being ready" for opportunity. We're proud to be part of that great supermarket set-up which is called one of today's modern miracles . . . Come and see us—often.

## Letters to The Editor . . .

### 'Whiskerino' Rules

The organization participation trophy for the Whiskerino Contest is one of the most hotly contested prizes among male living groups and organizations.

The reason for this is that it stands as the indication of the organization best able to receive complete co-operation from all of its members.

In view of this, a system of checks has been worked out to insure the presentation of this trophy to the most deserving group.

It would necessarily include accurate administration of sign-ups and a check system to discover if those who sign up carry through and grow beards.

Any organization guilty of violation of any of these counts will be either disqualified or docked appropriately. This decision will be subject to the discretion of the AMS Council, sponsors of the event.

The judging of the beards will be done by the staff of Shorty's Barber Shop.

Dave Hall  
AMS President

### GUIDES PRAISED . . .

It is our opinion that the overwhelming success of "UCSB College Day" March 7, was due, in no small part, to the courtesy and efficiency of the student guides and hostesses.

The impressions made by these volunteers were pleasing and lasting as representatives of our campus and its students.

The more than adequate response to the call for volunteers was appreciated greatly.

We wish to thank those participants for their time, energy and splendid spirit.

Phillip Walker  
Sandy Meyer  
Art Herman

### CAHPER Meeting

CAHPER will have Dr. Norman Scharer as speaker for its meeting next Tuesday evening at 7:30 p.m. in the Science Auditorium.

Scharer, Superintendent of Santa Barbara City Schools will speak on "What is expected of Physical Education Teachers" and "Some of the weaknesses of new teachers in Physical Education." Both points will be presented from the standpoint of the administrator.

According to Mike Rappaport all Physical Education majors should plan to attend. All faculty members as well as students are invited.

## Poole Named Head Of National Library Technology Project

Frazer G. Poole, assistant librarian at UCSB, was named director of a national library technology project, announced Dr. Donald Davidson, head University librarian.

For this important two-year project financed by a grant of \$136,000 from the Council on Library Resources, Inc., Poole will take a leave of absence from UCSB and move to Chicago. He will assume his new duties on May 1.

Selected from a number of applicants from across the country, Poole will direct a project to be known as "Library Technology; a Standards Program on Equipment and Supplies."

In the initial stages of the work, his office will compile and edit a reference handbook of all existing standards of library equipment and proceed to determine criteria for equipment not presently having standards of design and quality.

This will require close co-ordination with the National Bureau of Standards, private research and testing agencies and manufacturing firms.

The study is expected to include information and guidance in the techniques of use of modern equipment, machines and furniture to the thousands of American libraries.

A consulting and advisory service for librarians will be inaugurated as soon as the project is under way.

## ATHLETIC PROGRAM . . .

Continued from page one

Santa Barbara campus with the CCAA.

### Student Committee

A student athletic committee composed of Ray Ward, AS President Stan McGinley, BAC Chairman Mike Rappaport, Rep Bill Harris and El Gaucho Editor Bruce Loeb, is currently studying these and possibly other problems related to the UCSB athletic program.

Any decisions dealing with the student's part in the athletic program will be presented to the Legislative Council for final approval sometime in the near future.

The AS Athletic Committee is also studying various solutions to the problem areas.

### Feeling Against Big Time

Concerning the aims of the UCSB athletic program, Dr. Goodspeed stated, "There is a growing feeling on the part of the administration of the University system against big time athletics."

In discussing the lack of a central agency set up to define and make decisions of the athletic policy, Goodspeed pointed out

that at the present time this responsibility rests with many different bodies.

"Until this decentralization is eliminated," related Goodspeed, "it is unlikely that the aims of the athletic program can be clearly defined nor can decisions be made to implement these aims." the Legislative Council has a policy of granting one-third of the AS budget to athletics, this policy is not stable and could change with each ensuing Council.

### 2 Years Behind

It was also noted that the AS budget to athletics (which comes to roughly 40 per cent of the total) is prepared on a year to year basis, while the University budget is submitted for two years in advance.

The lack of a clear distinction between the duties of the Director of Athletics and the Men's P.E. department is not of immediate concern to the AS according to Goodspeed.

The fourth problem area concerns UCSB's membership in the

CCAA. It has been said that in some respects Santa Barbara is not competing on an equal basis with other league schools.
