

Kaplan Lectures Tomorrow; Faculty-Clergy Panels Open

Dr. Joseph Kaplan will speak at 11 a.m. tomorrow in the Campus Auditorium on the theme of Religion in Life Week, "A Living Faith for a Changing World." Classes will be dismissed tomorrow for the All-College Lecture. Eric Bruckner, executive chairman, will introduce Dr. Kaplan.

Faculty Conversation, the Thursday evening radio program sponsored by the Faculty Committee for Radio and Television, will feature Dr. Kaplan's lecture.

Also beginning tomorrow is the faculty-clergy panel series on Faith and the Academics. At 3 p.m. in the New Classroom Building Auditorium Dr. Glenn Durlinger, chairman of the Education Department, will moderate a panel on "Faith and Education in a Changing World."

On Thursday Dr. Robert Kelly of the History Department will moderate "Faith and Society in a Changing World;" also on this panel will be Dr. D. M. Brown of the Political Science Department, Dr. W. Kennedy of the Economics Department and Rabbi Max H. Kert.

Immediately following the faculty-clergy panels a coffee hour will be held in the Huddle. Free coffee and a chance to challenge the clergy will be offered to all students who want an opportunity to think through or disagree with the men who presented their ideas previously.

Tomorrow evening at 7:30 the Christian Science Organization is having a reception for new students. It is being held at the home of Ewart White, 2736 Cuesta Rd., in Samarkand.

Blood Drive Goal Set at 500 Pints

The goal for UCSB's annual Larry Adams Blood Drive, scheduled for March 12 in the Campus Auditorium, is 500 pints, according to the AS Charities Committee.

Students under 21 years of age are urged by program spokesmen to first pick up a permission slip (to be signed by parents) from the Graduate Manager's office. If you have not yet turned in your permit slip, bring it with you on the day of the drive.

So that more donors can be quickly processed, the hours of the drive have been extended from 8 a.m. until 4 p.m.

Students living in town are asked to donate at the Tri-Counties Blood Bank (902 Laguna St.) on Friday, March 13. Call 5-7037 for an appointment.

With an appointment, (all who plan to donate should make an appointment before donating) 60 to 100 students can be processed in an hour. Donors can sign up this Thursday at the SU or in front of the library.

'Darwinism and the Theatre' Hatlen Lecture Topic Today

Dr. Theodore Hatlen of the Speech Department will present his views on "Darwinism and the Theatre" as part of the All-College Lecture Series today at 4 p.m. in the Classroom Auditorium.

The subject of Dr. Hatlen's lecture will be what happens when the scientist invades the theater with his objective attitude and his techniques based on careful observation.

According to Hatlen, "Charles Darwin's *Origin of the Species*, which appeared just one century ago, caused men to revise their thinking about many facets of life. In literature the implications of evolution were reflected in a new genre called Naturalism."

When this literary movement reached the drama with Emile Zola's play, "Therese Raquin," in 1873, a great revolution took place. New subject matter which previously had been considered too frank or too sordid now appeared on the stage.

Psych Department Has Research Lab

A \$20,000 experimental research laboratory at UCSB is now ready for occupancy by the department of psychology.

The new laboratory adjoining the Science building, occupies an area of 1225 square feet and includes experimental facilities, an animal house, a research laboratory for graduate work and a small classroom area.

Equipment available includes a stereotaxic instrument which permits delicate surgical operations on small animals, and behavior equipment such as activity wheels, mazes and stimulators.

Dr. Robert W. Reynolds, assistant professor of psychology and laboratory director, reports that students will conduct studies to determine behavioral and motivational factors and look into problems as hunger and sex behavior. Dr. Reynolds himself is studying the effects of new drugs on behavior.

March 13 Deadline For Barbary Coast

Applications for entries in the 1959 Barbary Coast will be accepted in the Graduate Manager's office March 9 thru 13, it was announced by co-chairmen Kathy Grant and Shelly Shapiro. Entries in the Whiskerino contest are also due at this time.

This year's Barbary Coast will be held April 10 and 11 on the UCSB campus. The date was set several weeks later than usual in hopes of avoiding the rains.

Barbary Coast features booths, a talent show, the Whiskerino contest and a dance.

The Les Brown band, usually engaged for the dance, is not available this year. The Special Events committee is currently working on arrangements for another orchestra.

INSURANCE PLAN DEADLINE FRIDAY

Deadline for purchase of the Associated Students Accident and Health Insurance Plan is this Friday at 4 p.m. The policy costs \$8 and is effective for the spring semester, summer vacation and terminates Sept. 15, 1959. The insurance is available in the Graduate Manager's office.

Since the Naturalist took his cue from observed life, this meant that dialogue in the theater should be patterned after everyday speech. The situations in plays should be drawn from life rather than from the imagination. In acting and staging, the old technique tricks were eliminated. In short, the effect of Naturalism was to bring about the contemporary theater.

"Charles Darwin is important to this Naturalistic movement because his concept of evolution was instrumental in stimulating a new view of life," Hatlen concluded.

Hatlen is a professor of speech and has directed many plays on campus and in the community. He was formerly chairman of the Speech Department. He received his AB in 1934 from the University of Redlands, his MA at Cornell University in 1935 and his PhD in 1950 from Stanford University.

'BEAUTIFUL PEOPLE' OPENS THURS.

DEAN BOWERS GETS ADVANCE

Miss Ellen E. Bowers has been appointed assistant Dean of Students, Dean of Student Activities. Miss Bowers has served as counselor of women students.

In effect Miss Bowers has served in this capacity unofficially for several years. The new title will shift Dean Bowers' emphasis as she will now act as an official liaison between the administration and student activities.

Miss Bowers has had a great deal of experience in student personnel work and long association with Associated Students government. She will also continue in an advisory capacity to the RHA.

Born in Arizona and a graduate of Pomona, Miss Bowers received her MA at Claremont and took further graduate work in the field of student personnel at Columbia University.

The students, recognizing and appreciating her contribution to student government, dedicated La Cumbre to her in 1953.

Silent-Film Classic; Janet Gaynor Stars

The classic silent film, "Sunrise," is being shown tomorrow evening at 7:30 in the new classroom building auditorium with no admission charge. Janet Gaynor, George O'Brien and Margaret Livingston head the cast.

This silent movie, filmed in 1927, is from a collection of the Museum of Modern Art. The film is the first American movie directed by F. W. Murnau and reveals the influence of German technicians on American films.

Murnau surpassed any of his previous achievements with "Sunrise." The picture begins by suggesting in brilliantly visual terms all the summertime gaiety of vacations and resorts.

Moving to a specific village, the film develops emotional tension and pictorial beauty. Real poetry and real feeling follow, especially in the peasant dance, though an inebriated pig and byplay with a lady with shoulder straps provide comic relief.

The masterly photography and lighting, the unusually pleasing sets, and the well-considered tempo of acting and cutting make the film outstanding.

Naegli New Frosh Veep, Council Positions Filled

Tim Naegli has been elected Vice-President of the Freshman class last week, it was announced by class President Larry Linn. In addition to the new veep, 14 class representatives were selected.

Committee chairmen have also been picked. They are, Merrill Ring, scholastic; Pete Nissler and Sue Tremdling, projects; Rodger Dawson, Social; Carol Wallace, publicity and Barbara Ewing, corresponding secretary.

The class is planning a joint activity with Cal Poly in the near future. Other potential activities include a project to aid the city of Santa Barbara and an all student body function.

According to Linn there are still openings on the class council. The council meets every Wednesday at noon in The Huddle.

Graduation Honors Requirements List

Eligibility of students for honors at graduation is determined on the following basis, announced the Registrar's office recently.

Minimum requirements: **HONORS** — A 3.0 grade-point average for five semesters or more, not counting summer sessions, or a 3.25 average for four semesters, not counting summer sessions.

HIGHEST HONORS — A 3.5 for five semesters or more, not counting summer sessions, or a 3.6 for four semesters or more, not counting summer sessions.

In addition to meeting the above arithmetical eligibility, the student must be recommended by the chairman of his major department.

Chemistry Contest Open to Students

The opening of the 1959 contest in colloid and surface chemistry among college undergraduates has been announced by the University of Southern California.

Students of chemistry and biochemistry at UCSB who are undergraduates on April 1, 1959 are eligible to apply.

The best essay and the best report will receive each prizes of \$500 and the second best each \$200 under contest regulations. Honorable mention prizes of \$50 each are also provided.

The deadline for submitting entries is July 1, 1959. Entry blanks may be obtained by writing to Prof. K. J. Mysels, Chemistry Department, University of Southern California, Los Angeles 7, Calif.

'MY CHURCH IS THE WHOLE BLOOMING UNIVERSE' . . .

JONAH WEBSTER, played by Arlen Collier, expounds on his philosophy of religion to his disciple, Dan Hillboy, and Father Hogan, portrayed by Mike Binnette and Allen Knight. "The Beautiful People," by William Saroyan, directed by Robert Crumb, will open its six-night run this Thursday night. Tickets may be obtained at the Graduate Manager's office and the Little Theater.

—Photo by Bob Quittner

Collier, Richards, Evans Star in Saroyan Comedy; Tickets on Sale in Little Theater

William Saroyan's "The Beautiful People" opens Thursday at 8:30 p.m. in the UCSB Little Theater. Tickets can be purchased at any time during the day from the Little Theater box office. Reservations may be made by telephone. The play will run March 5, 6, 7, 12, 13 and 14.

'Starlight Serenade' Theme of Friday's Junior-Senior Prom

by Linda Carver

"Starlight Serenade" is the theme chosen for this year's UCSB Junior-Senior Prom. The gala affair will take place Friday, March 6, at the Coral Casino.

Dancing will be from 9 to 1 to the music of the Elliott Brothers, better known as the Disneyland Dancemasters. They are currently featured at the pavilion at Disneyland. Gauchos are getting a sample of their sound daily (on record) in the Dining Commons.

The decor for the evening will be carried out with stars placed at intervals throughout the Coral Casino. Bars of music with stars representing notes will furnish the background for the band.

The highlight of the evening is to be the crowning of a queen, chosen from members of the Senior Class. Pictures of the queen candidates are on display in the classroom building. The queen will be chosen by the male species attending the prom.

The prom is open to all students. For couples with Junior or Senior Class card, admission is \$2. Without a card the price is \$2.50.

Bids are on sale at the Associated Students office and can also be obtained from any Junior Class Council member.

In 'Carousel'

Collier plays Jonah Webster, the gentle patriarch, a blend of worldly wisdom and naivete. His experience in drama includes work with the Sacramento Music Circus, a professional group doing such shows as "Carousel."

Richards is cast as Owen Webster, the 15-year-old poet. Although he is a senior, his youthful appearance makes his portrayal realistic. Richards also played the part of the young boy in "The Innocents," staged last year.

St. Agnes of Mice

Miss Evans plays St. Agnes of the Mice, Jonah's daughter. She is a freshman drama student from Salt Lake City, Utah. Last year Miss Evans won second place in a state-wide dramatic declamation contest in Utah. This year she was stage manager for the initial Little Theater production, "A View from the Bridge."

The role of Dan Hillboy, Saroyan's philosophical drunk, will be played by Mike Binnette. Mr. Prim in "The Beautiful People" will be done by Nick Scott. Allen Knight, who played Joxer in "Juno and the Paycock" earlier this year, plays Father Hogan.

Fay Moss is cast as Harmony Blueblossom; Dave McCleerey will play Harold Webster. Arnold Shapiro is cast as Steve, and also serves as stage manager.

Swimmers Open Slate Tomorrow

Coach Frank Rohrer unveils his Gauchos swimmers for the first time against collegiate competition tomorrow afternoon when San Fernando State invades for a 3 p.m. engagement in the campus pool.

Fresno State Bombs Gauchos Hoopsters In Season Finale

The basketball season slipped out the back door at the University of California at Santa Barbara last Friday night when Fresno State College's flashy Bulldogs closed the Gauchos schedule on a losing note, 86-52. Coach Art Gallon's UCSB cagers were never much in the game after the first ten minutes as the hot-shooting Babe Williams and Gary Alcorn teamed to lead an impressive Bulldog scoring parade.

Santa Barbara ended with a 4-20 record on the season, while they occupy the bottom rung on the CCAA ladder with a 2-8 conference mark.

Sophomore Gene Freeman topped the Gauchos scoring column in the finale with 18 points, while "Easy Ed" Haertel chimed in with 12.

by Tom Morgan Sports Editor

The University of California at Santa Barbara's baseballing Gauchos galloped quickly out of the starting gate Saturday afternoon.

Coach Rene Rochelle's crew, unloading a 10-hit attack, waltzed past a highly touted Alumni team, 6-3, in its season debut on the campus diamond.

With Bill Wetzel, Jim Escirano and Jim Hezlep taking care of the mound chores, the Gauchos got two hits from Bill Shortell, Vaughn Wipf, Frank Stevens and Rich Gunner to produce what Rochelle termed a "pleasing" early season showing.

Santa Barbara, with Wetzel twirling a hitless shutout for three rounds, scooted into an early 1-0 lead in the second inning, before widening the gap to 4-1 in the fourth and coasting home free.

UCSB travels to San Diego this weekend for a Friday-Saturday doubleheader against the Naval Training Center and Marine Recruit Depot.

by Wils Winnek Sports Writer

The University of California at Santa Barbara track team opened its season Saturday with a victory in a triangular meet on the campus cinderpaths. The Gauchos thinclads collected 93 points, as compared to 54½ for Pepperdine and Westmont's 11½.

A gruelling duel developed in the mile between Pepperdine's Pete Westphalen and UCSB's Coyt Davis. Davis led the first two laps, but Westphalen pulled in front and held a 25-yard lead at the backstretch of the final lap. It was then that Davis made his move; like Silky Sullivan, he came on to win by a step in the time of 4:32.9.

The Gauchos took the first three places in the 440 when Bernie Weiner blazed to a 50.1 win, followed by Herb Lieper and Jim Law. These three, along with Dave Boraker, took only 3:27.1 to win the mile relay for Santa Barbara.

Gauchos Coach Nick Carter had praise for his entire team. In addition to Davis and Weiner, he was pleased with the performances of Roland Cordobes, winner of the 880 in the time of 1:59.9, and George Chappell, whose heave of 48 feet won the shot put.

Do You Think for Yourself?

(THESE QUESTIONS CAN TELL YOU A LOT ABOUT YOURSELF!*)

1. When you feel that certain fads are foolish do you talk against them?

YES ☐ NO ☐

5. Do you prefer a salesman who is anxious to make a quick sale to one who will patiently answer all your questions about the product?

YES ☐ NO ☐

2. Do gadgets such as new cigarette lighters often intrigue you so you want to take them apart?

YES ☐ NO ☐

6. When arriving late for a party, are you inclined to join a group of close friends rather than attempting to strike up new acquaintances?

YES ☐ NO ☐

3. Do you think that political candidates should write their own speeches instead of using a "ghost writer"?

YES ☐ NO ☐

7. If you met somebody with a beard, would you tend to consider him "off-beat" and treat him with reserve?

YES ☐ NO ☐

4. Given the choice, would you prefer having an apartment of your own to living at home with your parents?

YES ☐ NO ☐

8. Are you normally reluctant to go on a "blind date"?

YES ☐ NO ☐

9. Do you base your choice of a cigarette on what people tell you rather than doing your own thinking?

YES ☐ NO ☐

You'll notice that men and women who think for themselves usually smoke VICEROY. Their reason? They've made a thinking choice. They know what they want in a filter cigarette. They know that VICEROY gives it to them! A thinking man's filter and a smoking man's taste!

*If you have answered "YES" to three out of the first four questions and "NO" to four out of the last five . . . you really think for yourself!

The Man Who Thinks for Himself Knows —

ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!

Margaret Mead, Expert on Native Culture, Does "A Woman's Job--Never a Man's"

by Roberta Hart

In 1923, a young dynamic woman, fresh from Barnard College, decided to explore the relatively unexploited field of the culture of Samoa. Because of her determination to "do a woman's job—never a man's," she was admitted to the women's huts—a place hitherto taboo to anthropologists.

Out of these huts came material which, because of its directness, shocked the American readers. *Coming of Age in Samoa*, by Margaret Mead, a study of the adolescents in Samoan culture, was indeed a revelation, but was only the beginning of a series of direct analytical books on the primitive family and comparative child training.

Lectures March 13

Dr. Mead, sponsored by Crown and Scepter, will be on the UCSB Campus on Friday, March 13th, to deliver a special benefit lecture in the Campus Auditorium. The title of her lecture, to be given at 8:30 p.m., will be "Orchestrating the Cultures of the World." All proceeds are to go to the Student Center Building Fund.

Absorbed with such questions as what are the primary differences between men and women, the difference in their reproductive roles? Out of bodies fashioned for complementary roles in perpetrating the race, what differences in functioning, in capacities, in sensitivities, in vulnerabilities, arise?

How is what men can do related to the fact that their repro-

ductive role is over in a single act, what women can do related to the fact that their reproductive role takes nine months of gestation and until recently many months of breast feeding?

What is the contribution of each sex, seen as itself, not as a mere imperfect version of the other? Margaret Mead has produced such popular books as *Growing Up in New Guinea*, *From the South Seas*, *Sex and Temperament in Three Primitive Societies* and the 1950 best seller, *Male and Female*.

Buffet Dinner

An informal buffet dinner, designed to allow Dr. Mead to meet the students and interested faculty members before her lecture, will be held in the Faculty Club at 6 p.m.

Tickets for the lecture are available at the Graduate Manager's Office, Gammill's, Chamber of Commerce and from any member of Crown and Scepter. Because the dinner is restricted to students and faculty only, dinner tickets are available only from the Graduate Manager's Office or from Crown and Scepter Members.

Students are urged to buy their tickets early. The number is limited.

NEED JEWELRY

Old jewelry is needed for the forthcoming presentation of "Romeo and Juliet." Any persons having some that can be used in the play please deliver it to the Little Theater or to the Speech Department.

FRENCH CLUB

Dr. William Aggeler will speak informally to members of the French Club Tuesday evening, March 3, in Santa Rosa lounge at 7:30. He will describe his impressions and ideas of the current French scene. The public is invited and refreshments will be served. There is no charge.

L&M is
Low
in tar

with
More
taste to it

Don't settle for one without the other!

©1959 Liggett & Myers Tobacco Company

"L&M is kindest to your taste," says James Arness. "There are two good reasons why I know you'll like 'em. They're truly low in tar, with more exciting taste than you'll find in any other cigarette."

LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke . . . makes L&M truly low in tar.

MORE TASTE: L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.

LIVE MODERN...CHANGE TO MODERN L&M

Dr. Urey Talks of U.S. Scientist Shortage, Value of Man on the Moon, Life on Planets

(Editor's Note: This is the second of a two-part series of interviews with Nobel Prize-winning atomic scientist Dr. Harold Urey. Last week Dr. Urey told why he feels the present Washington administration is the weakest of this century. Below, Urey tells why he thinks there is life on other worlds, why we lack scientists, and why we will put a man on the moon.)

Is our shortage of trained scientists a significant problem?

"Yes, very significant. And I am afraid it is going to get worse. . . . The government and the schools are paying scientists and teachers less and less (in actual buying power) as the years go by. A comparatively short time ago a young man planning to go into a scientific career thought that the best job he could get was with a first-class university, and next was a second-class university, and third he would go into industry. Today, industry pays so much and universities so little that he almost has to go into industry.

"Eventually we are going to find that our universities are in as bad a condition as our primary and secondary schools. . . . A great deal of the reason is due to inflation and increased taxes, but this is not the whole story.

"In so far as our scientific men (those working for the government or schools) are concerned, they are paid largely from the public purse. Anyone paid from the public purse has an income that falls behind the average in an inflationary spiral."

You have written a number of articles on the reasons for the extinction of the dinosaurs. What did cause their disappearance?

"I don't know why they disappeared. Here is a group of animals, big animals, larger than elephants, ranging all the way down to very small animals. They lived in the sea, they flew in the air, they ran on the ground.

"And they all disappeared. I don't know why. One can say that the more efficient mammals exterminated them—but they didn't exterminate alligators and crocodiles, which are very similar."

Is there any value in putting a man on the moon?

"It would be wonderful. We would learn what the moon is like. He could collect information more accurately.

"It is a big job to send him and try to bring him back. It is easier to send complicated apparatus to the moon than to send a man."

It has been said that the Russians will beat us with a man to the moon because they are not primarily concerned about getting him back. How do you feel about this?

"People should stop underestimating the Russians. We think that we will not put a man on the moon until we can bring him back. Russia takes exactly the same attitude, and they are very likely to put a man on the moon first, and bring him back, too."

"Trying to make excuses for being behind doesn't appeal to me at all."

What are your views on the possibility of life on other planets?

"I think there is considerable evidence for a low form of life on Mars. I do not believe that any of us will have a confident view in regard to this until we are able to get much better evidence than we have.

"One of the most thrilling bits of information we could get would be to confirm that there is life existing on another planet. I would pay my share for this bit of information. It has profound philosophic and scientific implications. It would be very exciting indeed."

OFFICE MANAGER JOB

Applications for Office Manager of the Associated Students are available in the AS office from March 3 until March 9. A slight compensation for personal expenses is provided for in the AS Budget.

BIOLOGY & HUMANS

Dr. G. Hardin, professor of biology, will discuss "Biology in Human Relations" at 8:30 p.m. Thursday, March 5, in Santa Rosa Lounge. The student-faculty committee of the RHA urges everyone to come.
