ONE COUPON

Five reasons why you should have your contact lenses fitted at the Hollister Optometric Center.

- 1.) **Quality** - You will be fitted with the highest quality lenses available. We use primarily Wesley-Jessen Durasoft lenses for our soft lens fittings. They are more resistant than most lenses to protein deposits that cause lenses to "wear out." They are also very difficult to chip or tear, which gives them an excellent lens life.
- 2.) **Service** - Our fitting fee includes three months of follow-up care. If we have to change lens size, curve, power, or brand to achieve a better fit, we do this at no extra charge. We follow you through until we get a fit that you are happy with.
- 3.) **Selection** - We have access to every contact lens available so we get the lens that is just right for your needs. We fit soft, hard, extended wear, astigmatic, gas permeable, bifocal and colored contact lenses.
- 4.) **Convenience** - We carry most contact lenses in stock and can usually fit you the same day. Think of how easy this makes replacement of damaged or lost lenses, too. We also have evening and Saturday hours for your convenience.
- 5.) **Price** - A complete fitting of daily wear soft lenses is just \$169. Extended wear lenses are just \$249. Ask about our other fitting fees. You will be pleasantly surprised.

So don't delay! Get the contact lenses that will make you look and feel great. Call us today.

Seattle FilmWorks has adapted Kodak's professional Motion Picture film for use in your 35mm camera. Now you can use the same film — with the same microfine grain and rich color saturation — Hollywood's top studios demand. Its wide exposure latitude is perfect for everyday shots. You can capture special effects, too. Shoot it in bright or low light — at up to 1200 ASA. What's more, it's economical. And remember, Seattle FilmWorks lets you choose prints or slides, or both, from the same roll. Try this remarkable film today!
