Galloping Gaucho Revue Runs Tomorrow and Friday

The Galloping Gaucho Revue will run tomorrow and Friday nights in the Riviera auditorium. Curtain time is 8:00 p.m.

Ed Monreal, director of the Revue, hopes that this year's show will top those of all previous years. "The rehearsals are going great," he said, "and I hope all students will be sure to attend."

Two special events will be featured Thursday night. The Home-

coming Queen and her three attendants will be introduced during the evening. After the show a rally will be held in the auditorium.

This year a band will play with the Revue. Specialty acts will feature new talent. "There are many good fraternity and sorority acts," said Monreal.

"The Delta Tau Delta Beauties have worked out another hilarious skit," said Monreal. Other acts include *A Street Car Named Perspire*, *Disney Doodles*, a Follywood takeoff on the casting of *Fearless Fosdick*, and many others.

Tickets are on sale in the Graduate Manager's office. The price is 60c for students and 90c for adults.

Mayor Montgomery Proclaims SBC Day

Ted Troy, Homecoming manager, issued this proclamation in conjunction with Santa Barbara College Day and Homecoming. The suggestion evolved from Bob Lorden, graduate manager, who, in turn, passed it on to Ted. Norris Montgomery, mayor of Santa Barbara, was consulted, and this is the result:

PROCLAMATION

WHEREAS, The University of California, Santa Barbara College is celebrating its 29th Annual Alumni Homecoming this weekend, October 23-26, and

WHEREAS, the Galloping Gaucho Revue, a comedy in several acts, is being given on Thursday and Friday nights particularly for Townspeople, Alumni and Students, and

WHEREAS, The Annual Homecoming Parade, Santa Barbara's biggest and most beautiful parade is being held on State Street Saturday afternoon at 2:15 p.m., and

WHEREAS, The City of Santa Barbara wishes to encourage its citizens to take part in the activities sponsored by the College, Saturday, October 25, 1952, is hereby proclaimed SANTA BARBARA COLLEGE DAY.

Mayor
(Signed) Norris Montgomery

Homecoming Events Planned for Alums

"Santa Barbara College alumni will return this year to a very different and exciting Homecoming celebration," said Desmond Kincaid, alumni chairman. The 29th annual alumni Homecoming will start tomorrow and run through Sunday, with "Comic-Cal" as the theme.

Friday evening's production of the Galloping Gaucho Revue will feature the official welcome for the alums. Immediately following the Gaucho Review everyone will adjourn to the University Club, Santa Barbara and Sola Streets, for the alumni reception.

Saturday, from 9 a.m. to 4 p.m., the alumni will register at the Barbara Hotel. Luncheon will be served at 12 in the Barbara Hotel. The parade will start down State Street at 2:15 p.m.

Preceding the game with the San Francisco Gators will be a special rally at La Playa Stadium featuring alumni yell kings. Half-time activities will include the introduction of the Queen and her court and the awards for the parade.

Two big Homecoming dances are scheduled following the game, one at the University Club, especially for alumni, and the other at the Montecito Country Club.

The climax of Homecoming for the Greek alums will be the annual Sunday morning breakfast from 9 a.m. to noon.

'Biggest, Best' Parade Predicted for Saturday

Over 25 floats and decorated cars will be seen in the Homecoming parade this year. Add to this visiting dignitaries, the queen and her court, marching bands and the football team, who will be riding in convertibles, and the parade shapes into one of the biggest and best seen here.

The floats will line up on Micheltorena Street and the parade is routed to go down State Street, from Micheltorena to Haley. Organizations having entries will draw for their places in the line.

Judges will be seated in front of the Art Museum on Anapamu Street and two loudspeakers will announce the entries as they pass in review—one located at the museum and the other at the Barbara Hotel. No maximum has been set for float expenditure this year and they will be judged on the basis of cleverness, originality and adherence to theme, which is "Comic-Cal Caravan."

Lineup

Bill Tiernay, parade chairman, states that entries are to be lined up by noon on Saturday, Oct. 25, and the parade will start promptly at 2:15. When the parade is over the floats will be parked at La Playa Stadium, where the presentation of awards will take place during half-time activities of the football game. Awards to be given are: Sweepstakes; 1st, 2nd and 3rd in sorority division; 1st, 2nd and 3rd in fraternity division, best entry by a club or organization, and most unique.

Initial plans for floats already have been turned in by those organizations entering and, in many cases, work on them already has begun. Students and townspeople alike are remembering the outstanding parade put on by the college at last year's Homecoming and are looking forward to this one with expectancy. "From

Ten Groups Enter House Decorations

Ten groups have entered in the house decorations contest for Homecoming, announced Bob Holland, chairman of the contest.

Judging will take place from 3-5 p.m. Friday. Three cups will be awarded at the Galloping Gaucho Revue that night.

Organizations entered in the contest are Delta Sigma Epsilon, Delta Sigma Phi, Chi Omega, Delta Gamma, Kappa Sigma, Delta Tau Delta, Sigma Tau Gamma, Sigma Alpha Epsilon, Pi Beta Phi, and Alpha Phi.

All house decorations will follow the comic theme set up for the weekend.

"The way things look, they won't be disappointed," said Tiernay.

Entries

Entries in the parade include Delta Sigma Phi, Romans, Chi Omega, Sigma Pi, Delta Gamma, Kappa Alpha Theta, Alpha Phi, Alpha Delta Pi, Alpha Mu Gamma, Sigma Kappa, Five Footers, Sigma Tau Gamma, I.A. Club, Chimes, Delta Sigma Epsilon, Kappa Sigma, Sigma Alpha Epsilon, Pi Beta Phi, Delta Tau Delta, Blue Key, Spurs, Red Cross, Crown and Scepter, Sigma Phi Epsilon and Lambda Chi Alpha.

'Burning Darkness' Tryouts Being Held

Tryouts for "In the Burning Darkness" are being held Tuesday, Wednesday and Thursday of this week from 3 until 5 p.m. in OH 7. This is a correction of the statement that the tryouts were being held last week.

Anyone interested in trying out may pick up a script beforehand in Dr. Hatlen's office in Oak Hall if he wishes. There are parts in the play for five women and seven men.

"In the Burning Darkness" concerns a group of blind college students and should be an interesting experiment in acting, according to Dr. Hatlen. The play has been translated by Dr. Wofsy of the foreign speech department and rewritten by Dr. Hatlen and Dr. Wofsy. This is the first production of the play in America.

Dr. Hatlen also said that the Speech Department is planning a series of oral readings to be given here at school and downtown. Anyone interested in the readings or in being a part of the stage crew for "In the Burning Darkness" may sign up at the time of the tryouts.

Queen Candidates Introduced Tomorrow; Chosen Four to be Announced At Night

This Thursday, in the quad, the "Queen of Homecoming, 1952" will be chosen. The ten candidates will be introduced and interviewed by Joe Costantino. The judges will base their opinions on the girl's appearance, applause, poise, and personality.

Country Club Scene Of Homecoming Hop

The Montecito Country Club Annex will be the scene of the Homecoming dance after the football game Saturday night. At the same time an alumni dance will be held at the University Club. Both dances are under the direction of Jack Winger and the Social Committee.

Skip Wilson's band will provide the music at the Country Club and refreshments will be sold throughout the evening. Jack McNamara's Combo will play at the University Club.

Tickets are now on sale at the ticket booth in front of the Men's Gym, and will be on sale through Friday. The price is \$1 per couple.

New Leaders Chosen; Ike Wins SBC Poll

Class activities for the year got off to an official start last week with the elections of officers to fill vacancies in the senior, sophomore and freshman classes.

Chosen to head the seniors were Gordon Hardy, president, and Pat Gaard, vice-president. Dave Daniels was elected sophomore president, and the freshmen picked Jack Christofferson president, Pat Dominis vice-president and Judy Garcia secretary.

Newly elected officers will automatically assume office. The officers of each class will form the

cabinet. Class councils will be set up at the discretion of the officers and students of the classes when and if needed.

In the straw ballot for President Republican candidate Dwight D. Eisenhower got the majority of the votes cast by each class, the vote being 442 for the GOP candidate and 158 for Adlai E. Stevenson.

Eisenhower was favored by a vote of 155 to 51 in the freshman class and 83 to 27 in the sophomore. In the junior class the vote was 70 to 31 and in the senior class 134 to 49 for Eisenhower.

Rally with S.F. State Rooters After Parade

A rally with San Francisco State rooters at La Playa Stadium following the Homecoming parade Saturday afternoon has been planned by the Rally Committee, according to Peggy Gilbert, chairman.

San Francisco has planned to send down at least one busload of rooters and is encouraging more students to drive down.

ROOTERS

Rooters' caps and pom-poms will be required for admittance to the rooting section at the Homecoming game, announced Peggy Gilbert, Rally Committee chairman. Both caps and pom-poms are on sale on the Riviera campus now and also at the game Saturday.

Homecoming . . .

Homecoming is the big weekend on the college social calendar. The committee has been doing everything in its power to make this year's event the biggest and best that was ever held. But they need your help.

They need your attendance at the Galloping Gaucho Revue, at the game, and at the dance. Not often is a big weekend like this planned for the entire student body. When something like this is planned, it is to your advantage to participate. Nothing can be successful without complete support.

Some groups have planned their own parties for Saturday night after the game. These parties will not receive the approval of the Activities Control Board. They are contrary to the events already planned. It is hoped that these groups will cancel their after-the-game parties and attend the dance open to all students. Only by complete support of these all-college events will they continue to be successful.

Several days ago I read an article in the *University News*, published by the Bureau for All German Student Affairs of the German National Union of Students under the headline "Many People Are Not Sufficiently Aware" which stated that students of the universities of Eastern Germany "do not sufficiently recognize the great achievements of the democratic university reform" in Eastern Germany.

This democratic reform, however, is everything but democratic. It is a system through which the political opinions of the students are so strictly controlled and influenced that critical examination of political ideas is highly dangerous. There is hardly any possibility of reading unbiased works on history and political science.

Examinations are used to find out the students' opinions. Some questions concern reasons why the foundation of the German Democratic Republic is a turning point in German history, the Marxist theory of the question of nationalism and its application today, the right of self-determination, and the application of this principal by the Soviet Union in its relations to Germany.

Professors do not hesitate "to take action against all those students whose achievements in Marxism-Leninism or in political economy are insufficient, or are based merely on their good memories and not on a good ideological grounding."

These "half-hearted colleagues" might be "excluded from further studies and first of all educated in a progressive spirit in the ranks of the Volkspolizei (East German police force)."

Students who in spite of all the threatenings still persist in expressing their own opinions are in danger of being arrested as "criminals, social and destructive elements, spies and saboteurs of the Anglo-American warmongers and their bribed accomplices."

Later on their arrest will be denied in order to avoid an open trial which theoretically is the right of every citizen of the German Democratic Republic so that nobody knows what has happened to them.

Under these circumstances it is hardly surprising that there is no open opposition against this regime in Eastern Germany. The old spirit of the universities with its critical examinations is overpowered by fear and, we must admit, by a reasonable fear.

UP ON THE HILL . . .

UP ON THE HILL . . . we have a fair number of students, a seeming abundance of professors, ample vegetation, a surplus of classrooms, and almost too many hills and valleys to navigate. However, there seems to be a shortage of two very needed elements . . . namely, Parking Space and that Green Stuff. (Money to the freshmen.)

Thinking that there might be some correlation with the two, and not using too much deductive logic, I came up with the idea that the two might be combined. As a result I contacted various powers in town to start a U-Park for Santa Barbara students (at a nominal cost). I am afraid we have not had too much success. I was all for converting the athletic field for parking, but I learned that the archers might hit as many windshields as targets, and was discouraged from that location.

Checking into a large barren area on Las Tunas Road just in back of the school I again had the perfect parking lot—I thought. The owner had different ideas . . . he was afraid his pet gophers, rattlesnakes, red ants and spinodermis worms might not be too happy sharing the area with college students.

Undaunted, I came up with the perfect solution . . . we would make rooftop parking lots on all the campus buildings, and students could park directly over their classrooms. The Regents ended this little project by stating that they could see no sense in appropriating money for such a cause when we were soon to move to Goleta. (In 1946, when I first attended UCSBC, this move was first announced for the following year, so I picked up my pogo

stick and returned to my room for further contemplation.

At last I can report the finest idea of all. I present the following idea to Fred Wade for inclusion on the next agenda of Student Council. (Under new business if it is possible to so pick a category.) The constitutional amendment should read that NO freshman, or college professors, shall be allowed to have autos in any parking areas on campus, and all space formerly occupied by them shall be turned over to the remainder of student body. I also further propose that freshmen and professors be allowed to have pogo sticks, motorcycles and motor scoots, provided they park them no nearer than Grand Avenue.

I am convinced this is a sound idea that will not be approved but, feeling heroic and being a senior, I now advance the theory in the hope that my descendants who shall possibly attend when we move to Goleta will not be left without anything but the Goleta slough to park in.

(The body seen swinging from the rafters of the administration building is reported by the editor as our crucified and departed columnist . . . Senior Costantino. Applications are being taken for a new president of the College Cast-off Casanovas Club, Incumberated.)

Sigma Alpha Epsilon Initiates New Members

Sigma Alpha Epsilon recently initiated six new members. The initiates are Jim Pitcher, George Vrtiak, Lynn Reitnour, Frank Walker, Dave Daniels and Lloyd Heavin.

MESA MEMO . . .

On Monday, Wednesday and Friday afternoons M100 is brimming with journeymen and women. There are 26 boys and 2 girls (what statistics) enrolled in G.A. 80, which is an elementary printing course. As a starter the class did a problem in hand-setting type. There are those who are a pleasure to watch and those like me who can't tell a "b" from a "d" and invariably pick up the set type wrong to see if it will fall apart. Speaking from a great deal of experience, it does.

Recently the class went on a field trip through the News-Press Building, Schauer's Printing and Channel Lithograph Co. Several additional trips are planned during Christmas vacation. For those who will be taking the course in the future, you can look forward to making rubber stamps, calling cards and Christmas greetings, as well as binding books and running several machines that can cut your arms off. A prerequisite is to learn the alphabet and the class motto, "Only 12 more units for a credential."

Alpha Mu Gamma Meets, Plans Entry

Alpha Mu Gamma, honorary language fraternity, recently held a meeting at the home of its sponsor, Miss Edith Ramelli.

Members of this fraternity will enter a float in Homecoming. A car will carry representatives of various nations in their national costumes.

To fulfill one of the purposes of the club, speakers are scheduled for some of the meetings. Its purpose is to promote interest in foreign countries.

Any person obtaining two Bs and an A in college foreign languages is eligible for membership in Alpha Mu Gamma.

CONVERTIBLES

Late-model convertibles for the football team to ride in during the homecoming parade are needed, according to Bill Tiernay, parade chairman. Anyone willing to drive his car for this event is asked by Bill to notify him in the SB office.

Many members of the I.A. faculty recently attended a steak fry held for members of Kappa Delta Pi, honorary education fraternity, at the Ojai Union High School Mr. Fred Snodgrass, a Dodger of 1910-12 fame, spoke on baseball as it was played then and as it is played now.

In keeping up with the Joneses, Bill Ramsey has a '41 Cadillac to replace his Pontiac and Willis Henry Grannis has acquired a '41 Buick. Chuck Willis, June I.A. graduate, was really on top of the world a few months ago. He had a good teaching position and was to begin work on his master's degree. Then Uncle Sam spoiled everything. Chuck had been deferred during the last war due to his eyes and it was very disturbing to see a I-A status. Now he is Pvt. Willis at Camp Roberts, getting up at 6 a.m. even on Sundays. Quite a change, wouldn't you say?

Loobster's Ears

A lobster's ears do not provide him with hearing apparatus; rather, they act as stabilizers in telling him which end is up, report University of California physiologists on the Los Angeles campus.

"Campaign Speaking" Next in All-College Lectures

The next in the series of All-College Lectures will be given today at 4 p.m. in Pine Hall 100, by Dr. Upton S. Palmer, Assistant Professor of Speech. He will speak on the subject of "Campaign Speaking."

Some of the highlights Dr. Palmer will cover will be the resorting by political speakers to mud slinging; the effect of television on campaign speaking; the use of humor; the growth of debate in relation to campaigns; the effect generally that campaign speaking may have on the outcome; and the use of ghost writing in political campaigns.

In referring to the resorting to the use of mud slinging, Dr. Palmer pointed out that in the last analysis the most important thing about the speaker is the character of the speaker. He mentioned also that in the elections of 1936, some of FDR's speeches were believed to have resulted in a change in the vote of as high as 15%. At that time the Democrats were conducting their own campaign poll, and they claimed that the change in the vote was a result of campaign speeches.

Dr. Nettles

Dr. H. Edward Nettles, Professor of History, in his lecture on "Contemporary Britain," presented some observations on Great Britain's physical and mental condition apparent to him during his six-months stay in Great Britain last year.

Some of the reasons given for the decline of Britain into a second or third-rate power were the industrial development of other great nations, loss of lives, investments and markets during and since World War I, and the loss of much of Britain's empire. The impact and consequences of these losses forced her to reduce her world-wide military, economic and diplomatic commitments.

It was pointed out that one of the solutions for Britain is through emigration to the Commonwealth. Out of the figure of 15,000,000 people who, it is believed would have to leave, only 800,000 have emigrated to other parts of the Commonwealth, and those parts already claim to feel the impact of the increase in population.

Another solution would include a program of increased exports, higher production at home for home consumption, stimulated Empire and world trade, and necessarily, the austerity program. Dr. Nettles described also the labor

government's program of Democratic Socialism in which the nationalizing of "commanding heights of industry" has become the policy. This policy encompasses the Bank of England, the coal industry and transportation.

The question of socialized medicine is pertinent in Great Britain and here, too. One of the observations on the working of the British national health service was that it has not proved successful for a number of reasons. The doctors themselves admit they are unhappy about the program, saying it was forced upon them without consultation and that it was a political decision; that there is an overwhelming amount of red tape; that there is a low income; that the patient suffers from haste and inadequacy in the mass treatment; and that there is a lack of respect which demoralizes the patient. (All of which should give the American public many things to think about in relation to the question of socialized medicine here.)

Dr. Nettles pointed out that he believes the nationalization program will be de-emphasized, but that even though Churchill is back in power, he will be forced to continue many of the labor programs however contrary they may be to his thinking.

IA Education Topic Of Paper by Monroe

Dr. Lynn Monroe, chairman of the Department of Industrial Arts, assisted in the preparation of a statement of the place and function of industrial arts in education, published recently by the Industrial Arts Policy and Planning Committee of the American Vocational Association.

He was the only West Coast educator serving on this sub-committee charged with the writing of a clear and concise presentation of the industrial arts picture. In this brochure the main topics taken up include definition, purpose, basic areas, levels and types of organizations.

Its purpose, as stated by Harry C. Schmid, state director of vocational education in Minnesota and president of the American Vocational Association, is to foster a clearer understanding of the vital role of industrial arts education in the schools of this nation.

Colonel Maddox New Head of Military Science Department at College

Lt. Col. Edward R. Maddox has assumed the chairmanship of the Military Science Department at Santa Barbara College, it was announced by Dr. J. Harold Williams, provost.

He succeeds Lt. Col. Richard W. Mabey who served as department chairman for three years and recently departed for the University of Indiana where he will pursue a special foreign language course in preparation for military attaché duty.

Lt. Col. Maddox has been on the College Military Science staff since 1950. He is a graduate of Clemson Agricultural and Mechanical College where he received his B.S. degree and a commission as a Second Lieutenant of Infantry in the Officers' Reserve Corps. He accepted a Regular Army commission in 1946.

During World War II he trained and fought across Europe with the

LT. COL. EDWARD H. MADDOX

Curriculum Revision Planned at Ventura

Two officials from Ventura College visited the Santa Barbara College campus last week to discuss the revision of their curriculum to meet the needs of students transferring to Santa Barbara College and other four-year institutions.

The principal field of interest for this meeting was in home economics. The visitors were Phil Powers, coordinator of curriculum and instruction, and Miss Martha Kollmansperger, chairman of the Home Economics Department. They met with Dr. John C. Snider, dean of the Division of Applied Arts, and Dr. Edna Meshke, chairman of the Home Economics Department here.

Ventura College this year changed from a four-year program, consisting of the last two years in high school and the first two of college, to a two-year offering for the freshman and sophomore years of college. They are now bringing the curriculum in line with the revision.

Transfers

Santa Barbara College is one of the institutions to which many Ventura College students transfer and this cooperative effort will assist in establishing a curriculum to tie in with home economics and general education courses here. This will help prevent loss of credit and time for those transferring.

Dr. Meshke also explained the plans and facilities to be established for the Home Economics Department on the new Santa Barbara College campus at Goleta, which was of interest to Ventura College because they too are planning to move their campus. They have acquired a 130-acre site three miles east of Ventura and expect to move in 1954. They are now designing the Home Economics Building.

Delta Sigma Epsilons Hold Open House, Sun.

The Delta Sigma Epsilons held an open house at their new residence at 1515 Bath street, Sunday, from 2 to 4 p.m. Approximately 100 guests were taken on tours through the house and gardens, while punch and cookies were served in the dining room. In the receiving line were Margaret Wright, president, Mrs. Katharine Muller, Mrs. Holtrop, Mae Allison, alumna president, and Mrs. Edna Williams, house mother.

Sorority members wore name tags in the forms of houses.

Fourth Infantry Division. On returning from overseas he was assigned to the Infantry School at Ft. Benning, Ga., where he served as an instructor in tactics for two and a half years. From there he reported to one of the Army's top military schools, the Command and General Staff College, Ft. Leavenworth, Kan. Since graduating from this command school, Lt. Col. Maddox served one year in Korea with the 31st Infantry Regiment, leaving there before war broke out. After a year with the Fifth Infantry Regiment in Hawaii he reported to Santa Barbara College.

The Department of Military Science and Tactics is one of 16 departments at Santa Barbara College. Military Science involves the ROTC program which provides the student with an opportunity to earn a commission in the Army—reserve or regular, depending on qualifications. This commission can be earned while completing the normal requirements for earning a B.A. degree at Santa Barbara College.

An experienced staff is stationed at the college to assist the new department chairman in conducting the ROTC program. Maj. John W. Barnes, associate professor of Military Science and graduate of the United States Military Academy, joined the department in 1950.

Assistant professors include Capt. Carsten E. Fosmark, a veteran of the Korean war, and Lt. Mercer W. Doty, recently returned from Europe. Other members of the staff include Master Sgt. Charles W. Brenner, detachment sergeant-major; Master Sgt. Jack D. Wilson; Sgt. First Class Grady Storey and Sgt. First Class James Craig, assistant instructors.

Reservations Made For Gaucho Housing

The majority of UCSBC students attending All-Cal Weekend already have made reservations for housing, according to Bill Stoner, assistant Graduate Manager.

The Gaucho football team will be staying at the Durant Hotel while the Shattuck will house many students. Last word from Berkeley states that all available rooms in hotels have been reserved.

Students who have not made plans for staying at hotels, private homes, sorority or fraternity houses may find housing in many motels along University and San Pablo Avenue.

A word of advice coming from the Graduate Manager's office is to avoid staying in San Francisco

RIGHT GUIDE

It is important that veterans should withdraw officially when they drop out of college or cease to attend specific classes. If this is not done it may lead to serious results, as they are not entitled to receive subsistence when not in regular attendance (except in cases of illness or other circumstances over which they have no control), and will be billed by the U.S. Veterans Administration or California State Department for overpayments.

if possible, since heavy traffic over the bridge takes a great deal of time away from All-Cal activities.

THESE HANDS ARE PRICELESS!

They protect the American way of life . . . our homes, our freedoms, our future.

These Hands, sensitively trained to respond acutely to the commands of an alert mind and courageous heart, are the hands of a United States Air Force Pilot.

The skillful touch of these hands attunes the blasting speed of modern jet aircraft to effective missions in discouraging any enemy. These hands are supremely capable of flying and fighting these machines with devastating effect.

These Hands belong to young, spirited American men (not supermen) who desire to live unmolested in a free America . . . who want to enjoy the same rights and opportunities open to all real American people.

These Hands belong to our sons—yours and mine. Youths who must decide today how they can share in defense of our nation and also better themselves. To insure greater chances of their success, today's college men should be encouraged to complete their education and then serve their country best by enlisting as Aviation Cadets in the U. S. Air Force.

Theirs is the choice of becoming either a Pilot or Aircraft Observer. After graduation as Second Lieutenants in the U. S. Air Force, they wear the silver wings of flying executives and begin earning nearly \$5300 a year.

These Hands represent a man ready to qualify for this tremendous task because he is between the ages of 19 and 26½ years, unmarried, and in excellent physical condition, especially eyes, ears, heart and teeth. He possesses at least two years of college and the inherent urge to fly.

These Hands shape the destiny of America . . . the difference between our survival and oblivion. The U. S. Air Force needs the hands, the minds and the hearts of young Americans who desire to make the American way a greater way of peace and happiness for all.

WHERE To Get More Details

Visit your nearest U. S. Air Force Base or write direct to Aviation Cadet, Headquarters, U. S. Air Force Washington 25, D. C.

PIONEER members of "Romans," a new organization for women students at UCSBC who are not affiliated with sororities. From left to right, above, are Pat Malvey who watches while Teddy Tye, president of AWS who sponsor the new club, discusses the new rules with Jan Anderson, vice president, and Ora Jean Ward, its president.

"ROMANS," NEW CAMPUS CLUB FOR UNAFFILIATED WOMEN STUDENTS, TO BEGIN SEMESTER'S VARIED ACTIVITIES

"Romans," a new organization for non-sorority women on campus recently revealed ambitious plans for the future, including participation in the Homecoming parade

and sponsorship of Marjorie Gibson as queen candidate.

Meetings are held every Monday at 7:30 p.m. in Pine Hall 104, and are open to all college women,

according to Ora Jean Ward, president. Other tentative officers for this semester are Jan Anderson, vice president, Marjorie Gibson, secretary, and Martha Ann Jakway, treasurer. Mary Mollina is in charge of publicity, Patsy Miller, social chairman, and Ann Ford, corresponding secretary. Faculty advisors for the group are Dean Helen E. Sweet, and Miss Jean Lohmough, music instructor at UC SBC.

The brand-new Romans look forward to providing social opportunities for college women who have no sorority affiliation or who have not yet joined a sorority. The organization will also give these "independents" a chance to participate as a group in campus activities that would otherwise be closed to them. The Associated Women Students, sponsors of the new organization, are especially encouraging freshman women to join the group.

Other activities include sponsoring a dance with students of California Polytechnic School in November, a booth in the Barbary Coast Carnival, and several house parties throughout the year. An open house will be held Oct. 27, at 7:30 in the AWS room. Any non-sorority girl is welcome. Call Jean Ward, 20848 for transportation.

Imagine My Surprise!

Oh horrors! After working to the wee hours of the morning on my last column, someone had the gall to tell me it stunk. To think that I have been laboring my fingers to the bone for three weeks for nothing; besides that, my nose has been pushed out of joint because I seem to be putting it in places where it definitely isn't wanted. Such sacrifice for UC-SBC; anyway, I refuse to quit and proudly present column number four, complete with blood, sweat (all right, in college it is perspiration) and tears.

As if to add insult to injury, Madam Georgia ran out of room in the paper last week. It seems that Bob Alford can only get enough ads for a four page paper. More ads, more El Gaucho. Anyhoo—because of 'vital' news items this little ditty was cut. I ran around all day screaming, "Imagine my surprise." I wanted to explain all this to the satisfaction of my readers and to you Miss BaciBaciu, I LAFF . . . Circulation dropped fifty per cent last issue.

Well last week I was going to talk about Cal Poly (ugh) and about Presents (fun) and all sorts of things, but that installment went down the shoots. Brief items need a recap for the pleasure of the masses.

Geology department had another booming field trip. For gory details of their escapades just listen to their conversations by the snack shack, daily, 8-4 o'clock. Those trips are really the greatest, aren't they Laura and Diana?

Several highlights on frosh rally: When Ed Monreal got pinched in a most embarrassing place by someone behind stage; when president class candidates were abducted as soon as they completed their speeches based on a fight-the-soph theme. I wonder how the walk back from La Cumbre Peak was. The freshman saw one of the rare appearances of the Cal Club at their meeting. Eileen Berkman as chairman gave the kids a build-up and then they (excuse the expression) sang a few numbers. Bill Meyers announced, and Pat Williams led, and a quartet came forth with "Please Don't Burn My W. C. Down." This was the highest type torture the frosh could be put through.

Question: Why was the turn out for the Frosh Tribunal so poor? Too bad the support of the student body wasn't behind the kids who worked their hearts out to put on a good show.

A word now about All-U weekend—Plan to be there . . . only the greatest of times will be had. This is something you don't want to miss.

Alpha Phis, your big surprise of the year happened . . . the engagement of Marilyn Ringle to Pete Kincaid. Don't say I didn't warn you. To Marilyn and Pete best of luck. Wedding plans are for sometime next year. Oh by the way, the reason Marilyn wasn't at the meeting last week . . . she was in Portland meeting in-laws.

What people have been talking about: The Serenade to the Thetas by certain parties who came complete with top hats and bathing suits in the dead of night. The serenade was for Mary Jo Borne-

man and all present agreed it was one of the most original things seen in Montecito for many moons.

Also talked about: Serenade by certain Sig Pis to any DG who would listen. The falsetto voice in harmony could have belonged to T.T., and it did. I guess they were just breaking their pledges in.

Surprise of the year was dropped at the DG pre-party before Presents. Bab-o (the foaming DG) Barnard announced her engagement to Bill Jenny. Bill, a Delt, was in the limelight this summer when he rescued Herbert Hoover. As if the engagement wasn't surprise enough, Babs announced the date set for the wedding, Oct. 25, no less. Pat Benko, Bill Kindel, Ralph Yates, and best may Bill Grannis are touring south to be in the wedding party. Also engaged DG Marilyn Maag to Cal Poly's Bob Ashton.

Theta engagement of the week: Benny Droste to Bill Haley. Their wedding is set for next spring.

GAUCHOS MEET SF GATORS

Gauchos Defeat Devils, 21-20 For First CCAA Victory

by Arnaldo Solis

The UCSBC Gauchos scored their first 2C2A victory of the season as they barely edged out the Los Angeles State Diablos, 21-20, at Snyder Field in Los Angeles, last Friday night.

After leading 8-0 at halftime the Gauchos were suddenly thrown behind during the third quarter by two Devil touchdowns and one conversion, changing the score to 13-8. But as the fourth quarter started, Bill Paterson recovered a Diablos fumble on the 13 where Bobby Shoup skipped the remaining 13 yards on the next down for six points plus one more from a good conversion by Bucky Baird. From then on both sides tried unsuccessfully to gain ground and were forced to punt on fourth down. Then the short 15-13 Gauchos lead was boosted to 20-13.

Line Scores

Marv Ashby blocked a Diablos pass putting the ball in the hands of several of his line teammates. Immediately all five of them ran for their goal line handing off the ball to the others as each was hit from behind by the Diablos. Andy Spaan, right end, was the only one to finish the 37-yard dash into the end zone. Charley Green converted but it was wide of the goal-post.

As the Devils took hold of the ball again, they fought desperately to get back in the game with only five minutes left. Bob Settle pitched the pigskin for short and long gains which resulted in their final touchdown play for a ten yard pass from Settle to Diablos fullback Jim Pendleton who crossed the goal line with only 20 seconds left to play. Jim Williams still had time to add another point in the conversion, but the Diablos were still short one point when the final gun went off.

The first quarter had been scoreless; but in the second period when the Gauchos had cornered the Diablos deep in enemy territory, Bud Cravens, Gauchos left guard, brought Diablos Paul Thomas down in the end zone for a Gauchos safety and a 2-0 lead. As soon as coach Roy Engle's boys had gotten control of the ball after the Diablos kick off, they took to the offensive with Bob Shoup, Gauchos left half, spotting passes to George Mattias for vital gains leading to a 10-yard pass on the left and into the end zone.

Shoup Stars

Throughout the first half Bucky Baird sparkled with elusive running which kept the Diablos out of the game. He totaled 48 yards rushing. Every time the Gauchos got into trouble and a fourth down, Less Harris was there to punt the ball deep in L. A. terrain, averaging 35 yards each. Bill Davis, right half, pushed the Gauchos by intercepting three Diablos passes. But Bob Shoup was the one who passed the ball for short and long gains, tallying for one by himself and throwing another.

Statistics

Score by Quarters:	
UCSBC	0 8 0 13—21
L. A. State	0 0 13 7—20
Touchdowns	— Shoup, Mattias, Spaan; Safety—Cravens.
Conversion	—Baird.
First downs	19

SAE, Independents Place in Swim Meet

Sigma Alpha Epsilon fraternity and the women's Independent team scored first-place victories in their sections, and Jim Sikking and Sydney Vilen claimed highest scores in the men's and women's individuals section at the first semi-annual David Russell Memorial Swimming Meet last Tuesday, Oct. 14, at the municipal pool, Los Banos del Mar.

The winning women's individual team, formed by Betsy Ross, Peggy Davis and Mildred Butterfield, took higher honors as they were the only record-shattering swimmers of the day. The old 150-foot Medley Relay Women's record of 37.3 seconds was clipped by almost two full seconds as the new record showed 35.9 seconds. Sydney Vilen, Women's Individual winner, scored a total of 18 points by taking three first places. They were scored in the 50-meter freestyle, 100-foot breaststroke and the 100-foot backstroke. Jim Sikking's 11 2/7 points came from two first places and one third place. The two first places were in the 50-meter breaststroke and the 150-meter medley relay, while his third place came in the 200-meter relay. Jim is a member of Delta Tau Delta and Sydney is unattached.

In the team section those SAEs winning were Vern Bridges, Bob Caldwell and Jick Bowen. They scored a total of 50 points. Their major first place was scooped in the 200-meter freestyle when they came in 12 seconds ahead of their closest competitor.

Faculty, Drunks Are First in Bowling

The Faculty and the Downtown Drunks are both holding first-place honors after last week's Intramural Bowling League competition.

Downing Delta Tau Delta three games out of four netted the Drunks their first-place spot while the Faculty moved into the tie with a forfeit by Sigma Pi.

The results of other league games were: Sigma Tau Gamma took three from Sigma Alpha Epsilon, Sigma Phi Epsilon took three from Lambda Chi Alpha, and the Gutter Snipes won all four from Delta Sigma Phi.

Allan Cox walked off with high-game honors with a 210 and also had the highest series, 539.

Bowling league officials announced that there will be no bowling in either league tomorrow because of the Galloping Gauchos Revue. However, bowling will be held on Thursday, Oct. 30.

On that night the Delts meet Sigma Pi, the Faculty play the Gutter Snipes and the Drunks tangle with the Sig Taus. Also, the Delta Sigs will meet the Lambda Chi Alpha team and SAE will play the Sig Eps.

Team standings:	W	L
Faculty	7	1
Downtown Drunks	7	1
Sigma Tau Gamma	4	4
Lambda Chi Alpha	4	4
Sigma Phi Epsilon	4	4
Delta Tau Delta	4	4
Gutter Snipes	4	4
Delta Sigma Phi	3	5
Sigma Alpha Epsilon	2	6
Sigma Pi	1	7

San Francisco Should Give Gauchos Trouble With Passing and Good Running Attack

Fresh from downing their 2C2A rival L. A. State 21-20, the Santa Barbara Gauchos meet the San Francisco State Gators in the Homecoming clash this Saturday at La Playa Stadium.

The Golden Gators bowed to Cal Poly 34-26 last week. Up to that time they were undefeated, having downed Pepperdine 21-0, Whittier 38-26 and Occidental 14-0 in previous weeks.

Coach Joe Verducci's team should give the Gauchos their roughest test of the season. The Gators have good passing and excellent running attack and a heavy defensive wall that is going to give the Gauchos plenty of trouble.

The Gauchos will be hampered by the continued absence of Sal Padilla whose leg injury will once again keep him on the sidelines. Also, tackle Grant Gaunce will sit out the contest due to an attack of flu.

Corrie Back

On the brighter side, Dave Corrie will once again be back into shape. His ankle injury has healed and the All-Conference fullback should provide the Gauchos with some much needed ground power.

Kickoff time is 8:15 p.m. and students and alumni alike should be treated to one of the best games of the season.

GAUCHO chances for a homecoming victory will be boosted by Fullback Dave Corrie's return to the starting lineup.

Volleyball Teams in Tournery Tomorrow

WAA Intramural Volleyball teams will resume play tomorrow night after taking last Thursday off because of the Frosh Tribunal. The teams playing in the tournament are the Garden Trimmers, Hot Shots, Pi Phis, Thetas, AD Pis, Delta Sigma Epsilon, Chi Omegas, Cut Ups, NAEs, Red Hots, Schmookes and Old Timers. Anyone interested in watching these games is invited by Intramural Co-chairmen Peggy Davis and Marty Hall, and by Miss Elvera Skubic, faculty adviser. The games are held each Thursday night in the Men's Gym and the De la Vina Gym.

CRA Meeting Plans New Badminton Club

The College Recreation Association and the Men's Intramural Department are sponsoring the formation of a badminton club which will play one night a week at the Community Gym. A meeting of all interested students and faculty members will be held at 4 p.m. tomorrow in the Men's Gym.

At this time plans will be made for a time to play, election of officers and purposes and policies of the club. This will be a self-sufficient organization with a representative on the CRA executive board. Instruction will be provided for beginners by skilled badminton players or members of the physical education faculty. Interested persons unable to attend the meeting should contact Kay Horne in the Physical Education Department.

Concrete Columns Poured For Goleta Campus Library

Concrete footing columns for the library building on the new University of California's Santa Barbara College campus were poured this week and forms are now being put in place for the foundation as work progressed on the first permanent buildings at the Goleta site.

This \$792,500 library is part of a \$1,934,500 project which also includes the construction of a \$1,142,000 science building.

The science building site is still being graded and the earth from that job is being utilized in preparation of the library building foundation.

A total of 54 building footings were poured for the main structure and eight for the entrance canopy. These columns go down five to 10 feet to solid, undisturbed earth. At the bottom of each column are pads which are from four and a half to eight feet square. The footing columns themselves are about 15 inches square.

Robert E. Floyd, University planning engineer, said that a lightweight aggregate, called rocklite, is being used in the concrete instead of crushed rock. This material, which is cheaper to ship than rock, is mined and processed near Ventura. It not only makes the building lighter but removes the tendency for expansion, which

New Policy Set Up In Buying La Cumbre

In accordance with a policy recently adopted by the staff of this year's annual, there will be a change in the procedure for securing the copies of the 1953 *La Cumbre*.

Up until May first, deposits of two dollars will be taken. On the basis of these receipts the number of copies of the annual will be ordered. This means that those who have not made a deposit or paid the full price on the yearbook will be without one in June. Further details on the sales campaign will be published later in *El Gaucho*.

All organizations, fraternities, sororities, honoraries, clubs, etc., who wish to have a page in the annual are requested to sign a contract for their page from Oct. 20 to 30th. From nine to one each day, a member of the *La Cumbre* staff will be in the office in Oak Hall 101. Signing the contract does not require immediate payment for the page but is a guarantee to pay. All contracts must be signed by Oct. 30th.

To those organizations wishing individual pictures of their members and to graduates (both spring and fall), Zane's at 7 La Arcada Court is the official photographer for *La Cumbre*. The rates for pictures are the same as those of last year and appointments for pictures can be made through Zane's. The deadline for portraits will be early, so it is important that appointments be made early in the semester. Students can check with Mrs. Zane if doubt arises as to whether a certain organization is having individual pictures taken.

is a characteristic of the rock aggregate. This expansion, has given trouble at the La Playa Stadium structure and also at the Santa Barbara Mission.

Officials of the construction firms of Williams & Burrows, Inc., of Burlingame, and Carl N. Swenson Co., Inc., of San Jose, have been spending considerable time on the campus getting the construction under way. The firms are now erecting a batching plant in which the concrete for the buildings will be mixed. Both buildings will be steel-reinforced concrete structures.

Floyd reported that the overhead electrical system contract has been completed in which all the overhead lines to the converted building area were reworked.

Another job went out on bid to provide water and sewer connections to the permanent buildings now under construction. This will also include alterations to the present water system, including the installation of additional fire plugs.

Other projects in progress on the new campus include the laying of a sewer connection with the new Goleta Sanitary District disposal plant, of which the University is co-owner. The work on the playfields in the northwest area of the campus is progressing. The job includes grading, planting of grass, installation of sprinkling and irrigation systems and the laying out of the playfield areas.

The surface grading around the physical education buildings, to provide surface drainage for the winter rains, is progressing. Underground primary electrical ducts to supply the campus with sufficient power are being installed in conjunction with the construction of a sub-station.

Picnic Scheduled for Elemeds at Oak Park

The Elemeds Club will hold its fall picnic at Oak Park from 4:30 to 8 tonight. Pat Benko, social chairman, is in charge of all arrangements. The activity will be the main social and informal get-acquainted event for the semester. All elementary education majors are invited by the club.

Working on the committees are: Carlene Hopper, cooking; Carolyn Herman, Shirley Stockton, Laura Reeder, Mitzi Braden, Inez Smith, Virginia Hannah, Marjorie Gibson and Dorothy Dutton, cleanup; Carlene Hopper and Pat Benko, buying; Nancy Biddle, Shirley Davis, Virginia Jewell, Diana Beamish and Bette Hanks, serving; Cathy Stuart, John Whelan and Margaret Cassidy, entertainment.

Swimming and Dancing Co-Rec Night Features

The College Recreation Association is sponsoring a co-recreational night to be held tonight at the YMCA. There will be billiards, table tennis, badminton, volleyball, swimming and dancing.

The activities will begin at 7:30 p.m. and everyone is welcome to come out for an evening of fun. Admission is 25c.

Seventy Students Make Dean's List For Spring Semester

Ten students received 3,000 averages last semester, and 60 others made 2,500 or better, earning themselves places on the Dean's List for the spring semester.

The two women who made 3,000 averages are Helene Horn and Billie Padgett. Men are Adran Adams, Lyman Cook, James Frick, Willis Jolly, Cecil Mahon, Robert Padden, Philip Staniford and William Vasse.

Others making the Dean's List, and their averages, are:

Albert Harbury, 2.975; Rena Frabony, 2.944; Claire Podger, 2.939; Jean Meda, 2.937; Hermione Chevallier, 2.933; Jerry Kehr, 2.933; Nancy Schoonover, 2.867; Charles Willis, 2.846; Catherine Cox, 2.842; Courtland Doan, 2.812; Edward Brown, 2.800; Harriet Polt, 2.800; Charles Forslund, 2.786; Joan Rice, 2.786; Kathryn Robertson, 2.786; Ray Stark, 2.786; Scharli Lyon, 2.765;

Also Andrew McFarlin, 2.722; William Hart, 2.692; Charles Stasek, 2.692; Carol Funk, 2.687; David Jordan, 2.687; Mildred Wilton, 2.677; Richard Beeks, 2.667; Robert Burfeindt, 2.667; Celie Jones, 2.647; Judy Cook, 2.645; Alfred Hansen, 2.643; Phillip Bostwick, 2.636; Charles Maynard, 2.615; Arthur Hendricks, 2.611; Melida Horn, 2.606; Virginia Kluth, 2.600; Florence Winkler, 2.600; Joy Greer, 2.580; Wayne Kluth, 2.571; George Outland, 2.571; Loyda Solis, 2.571.

Others are Sam Burton, 2.562; George Young, 2.562; Leland Albee, 2.555; Harry Sain, 2.555; Margot Abbott, 2.552; Nancy McKee, 2.548; Dorene Chesmore, 2.545; Margaret Grant, 2.538; William Orluske, 2.533; Esther Russell, 2.533; Donald Higbie, 2.529; Marvyn Melvin, 2.529; Barbara Drake, 2.526; Mary Otten, 2.517; Mary Wall, 2.516; Geraldine Atkinson, 2.500; Lee Beaver, 2.500; Devra Durgin, 2.500; Stanley Kasprzyk, 2.500; James Marsh, 2.500; Richard Metzger, 2.500, and Robert Soltys, 2.500.

Physical Ed Club Talk 'Degrees of Learning'

The Women's Physical Education Club held its second meeting of the semester last Wednesday in the Women's Gym. The short business meeting was followed by an interesting talk given by Dr. Jean Hodgkins, assistant professor of physical education.

Dr. Hodgkins spoke on "Higher Degrees of Learning." After the meeting was adjourned, refreshments were served.

RESIDENCE
 Mr. A. T. Conard, Attorney in Residence Matters for the Regents of the University of California, will be at the College on Thursday, October 23. He will be glad to interview students with non-residence problems (out-of-state), in the Office of the Provost from 11:00 a.m. to 12:00 noon and from 1:30 p.m. to 2:30 p.m.

Poli. Sci. Classes Hear Dutch Educator Graduate Manager

A noted Dutch educator and journalist, Dr. Ernst Van Raalte, took time off from his brief holiday in Santa Barbara to speak to a political science class last week on the subject of "Indonesia and the Netherlands."

The distinguished visitor spoke to the introductory political science classes of Dr. D. Mackenzie Brown and Dr. Gordon E. Baker. He told the students the history and background of the struggle for independence on the part of the people of the East Indies. He emphasized the tremendous differences of language, race and religion in the 3000 islands which comprise what formerly was the Dutch East Indies and which now is known as the Republic of Indonesia. "They have only one common interest there," he said, "and that is to live their own lives."

"There are very few Indonesian people who are able to govern themselves completely," Dr. Van Raalte said, because of the lack of experience and lack of knowledge in governmental concepts and procedures.

The speaker is touring the United States, lecturing at various universities. He has written many articles on constitutional and international law and historical problems.

California Man

University of California anthropologists estimate that California man is approximately 10,000 years old. The scientists point to strong evidence that he migrated from northeastern Asia and suggest that the Pomo, Yuki and Cahuilla Indians of California may be survivors of this ancient migration.

Bill Stoner Asst. Graduate Manager

Bill Stoner has become a busy man - about-campus these days. His new appointment as assistant graduate manager is now added to his list of many activities.

Being a student is also a part of Bill's schedule. His first year of higher education was spent at the Berkeley campus of University of California. He then transferred to Vallejo Junior College and after a year's study came to Santa Barbara in September, '51, where he is a senior, majoring in Political Science.

Bill is a member of Pi Sigma Alpha, national political science honorary, and was recently elected president of SAE, where he handles the business of the fraternity in the same efficient, "get-things-done" manner that he uses in the Graduate Manager's office. His particular responsibility at this time is Game Production, which includes ticket sales for football games and the financial end of student projects, such as the yearbook and student directory. He works in conjunction with Bob Lorden in planning and budgeting other student affairs.

The Christian Science Organization
 MEETS
THURSDAY EVENING
 7:30 — 8:00
