Spring Registration Procedure Announced, Students Advised to Make Appointments

Continuing UCSB students are urged to make counseling appointments as soon as possible, according to Dr. Paul Wright, Registrar. Required pre-registration counseling will continue through Jan. 15.

IBM registration procedure for the Spring semester will be the same as last semester. Pre-enrollment is scheduled for Feb. 4. Instruction begins Feb. 8. The *Schedule of Classes and Directory* is now on sale in the student bookstore, price 10c.

Alphabetical

Admittance to the old gym on registration day will again be alphabetical as has been done in the past. According to Dr. Wright, the giving of registration privileges to upper division students is not yet feasible.

Registration Steps

Preferred program cards will be issued by advisors after the required counseling appointment. This card must be taken on registration day for pre-enrollment.

Payments of fees and obtaining of IBM registration packets may be done from Monday through Feb. 4. Fees must be paid before registering or enrolling or enrolling in classes. The late registration fee of \$10 will be assessed beginning Feb. 5 and continuing through Feb. 19. Total fees for the Spring semester for undergraduates who are residents of California are \$75. Registration packets will be obtained at the Cashier's Office at the time of payment. Students wishing to receive the packet by mail must send their fees and a self-addressed, stamped envelope to the Cashier's Office no later than Jan. 28.

Reg Card

In order to be admitted to the old gym for pre-enrollment, students must bring their billfold-size registration card, which is given when fees are paid, and their preferred program card, which is issued by advisors. Registration will begin at 8:20, Thursday, Feb. 4.

Official enrollment in classes is accomplished by obtaining from each instructor at class time a class card corresponding to the temporary card given during

NOBLE TRAVELS TO INDONESIA; OFFERS AID TO ICY EDUCATION PROGRAM

Dr. Elmer R. Noble, vice-chancellor at UCSB, will leave Santa Barbara immediately after Christmas to spend four months in Indonesia as a consultant on higher education with the International Cooperation Administration, the U.S. agency for international aid in education.

Dr. Noble was invited to aid the Indonesian educators in solving some of their university administrative problems by Dr. Raymond B. Allen, former chancellor at UCLA and now head of the ICA operation in Indonesia.

Resident Before

A resident of the Orient for 18 years, Dr. Noble has kept up his interest in this area of the world which provides familiarity with the problems of this type of emerging nations.

To Washington

Upon leaving here the vice-chancellor will fly to Washington, D.C., where he will be brief-

His experience as chief campus officer at UCSB will also aid in advising the Indonesian government's universities in or-

FALL GRADES

Fall semester grades will be released at the old gymnasium Thursday, February 4th, from 8 a.m. to 12:30 p.m. as you enter for pre-enrollment, upon presentation of your registration card. Do not come to the gymnasium for grades in advance of your published appointment hour, Paul W. Wright, registrar announced. Grades will be mailed on this date only if you leave with the Registrar a self-addressed, stamped envelope.

Saints, Sinners Revel After Game Tomorrow

Devils will vie angels for attention at the "Saints and Sinners" dance presented by the AWS and AMS tomorrow night in the campus auditorium right after the basketball game between the Harlem Clowns and the College All Stars.

The "Trip to Hawaii" winner will be announced at the climax of the evening by Hal Brendle, leader of the Gaucho band that sponsored the contest. The band will also play for the dance and will vary their music to two fast numbers for the Sinners and two slow ones for the Saints. Sinners should try to restrain during the slow numbers and wait until the fast ones to move.

A parade from the gym to the dance, led by the band will begin the event which is the last social fling of the season before dead week.

Roz Robidoux, Jim Davis, Jim McIlwain, Kay Hubbell and other members of the AWS and AMS cabinets are in charge of the red and blue lighted affair.

Admission is free to all AWS and AMS card holders. For others the charge is 50 cents per head, with horns or halo. School clothes are the dress of the evening.

organizational matters. He also expects to assist in the specific field of biological sciences as a specialist in that science. He is a professor of zoology at UCSB. He is by the Department of State, the parent agency of the ICA. On his way to Djakarta—his headquarters for the next four months—he will stop off for a few days at the Marine Biological Laboratory in Plymouth, England, where he spent a year on sabbatical research in 1955-56.

During his absence, Dr. Paul Kelly, chairman of the mathematics department, will serve as the officer in charge of the administration of the graduate program, one of the duties of the vice-chancellor's office.

FINAL EXAMINATION SCHEDULE

The Committee on Registration and Schedule announces the following FINAL EXAMINATION SCHEDULE for the Fall Semester, 1959. Changes in the schedule may not be made without approval of the Committee.

NOTE: (1) Classes of two or fewer units will have examinations from 8 to 10 a.m. or 1 to 3 p.m. (2) Classes held at 5 p.m. or during the evening will be scheduled by the instructor at an hour that results in no conflicts for the class. (3) Three-unit classes that meet for 75-minute periods of Tuesdays and Thursdays will normally schedule the final examination for the first of the two continuous periods; if preferable, and when no conflicts result for the class, the examination may be scheduled for the second of these two periods.

	8-11 a.m.	1-4 p.m.

Wednesday, January 27	TuTh 8	TuTh 12

ALLOWANCE FOR STUDENT LOANS INCREASED AT UC BY REGENTS

Student loans allowances were increased and repayment periods extended at the November meeting of the Board of Regents according to Chancellor Samuel B. Gould.

The maximum amount of single loans increase from \$600 to \$1,000 allowance to each individual. The number of years for repayment increases from two to three after graduation or withdrawal and an extension of the repayment schedule in the event an individual re-registers allowing for further study before the expiration of the three year repayment period. Any registered student, is eligible for a loan from unrestricted loan funds.

Co-Signers Required

On loans of less than \$350 one co-signer is required and should be a parent unless, in the opinion of the Chancellor, special circumstances dictate that this requirement be waived. On single loans of \$350 and up, or when a series of loans to an individual aggregate \$350 or more, two co-signers are required. In the case of students under 21, one of the co-signers should be a parent unless the Chancellor approves, in special circumstances, the substitution of some other financially responsible adult.

Married students applying for loans must have the co-signature of the spouse. Recipients of loans must agree to a regular repayment plan to begin when the student graduates or withdraws from college and to extend no longer than three years after graduation or withdrawal. Interest on loans is at the rate of 3 per cent on the unpaid balance beginning with graduation or withdrawal. A schedule of regular monthly payment is most desirable, with the privilege of accelerated payments if the borrower desires.

Single Note

All loans granted to a single individual are covered by a single note, and a new note must be drafted to cover any augmented amount whenever a new loan is made.

STATE COMMITTEE STUDIES EDUCATION PROPOSES 22 NEW JUNIOR COLLEGES

Twenty-two new junior colleges plus the raising of University admission standards were proposed by a liaison committee of the State Board of Education and the University of California Board of Regents at a meeting Dec. 7 to study the higher education problems at the request of Gov. Edmund G. Brown.

Admission Limited

UCSB To Receive More Wilson Funds For Current Year

Funds totaling \$2,000 will be granted to UCSB to be used during the current academic year to assist advanced students and "to strengthen graduate programs in general," it was announced today by Dr. Hugh Taylor, President of the Woodrow Wilson National Fellowship Foundation at Princeton, New Jersey.

UCSB is one of 75 universities throughout the U.S. and Canada to share in two million dollars in Wilson Fellowship grants for 1960. Three-quarters of each grant is to be used "for assisting beyond their first year any students genuinely interested in a teaching career, whether or not they earlier received Wilson eFellowships." The remaining quarter is to be "available at the discretion of the institution, for strengthening its graduate programs."

Last March, two UCSB students, Philip S. Gallo Jr. and Donald R. Lent were awarded Wilson Fellowships. Gallo, a graduate student in psychology is continuing his studies at UCSB under the Wilson Grant. Lent is at Yale University completing graduate work in the fine arts.

The Woodrow Wilson Foundation was incorporated in 1957 to administer a \$24,500,000 grant from the Ford Foundation, designed to intensify, during a five-year period, the recruitment of college teachers. The Wilson Fellowship Foundation annually awards about 1,000 scholarships for first-year graduate study to students seriously considering entering the teaching profession, primarily in the social sciences and humanities.

Presently, some 8,000 college seniors, nominated as candidates for Wilson Fellowships by faculty members, are being processed in their schools and at regional centers for the final selection of those who will enter graduate schools in the 1960-61 academic year.

NO FEE LOANS

The Dean of Students' office would like to remind students that they must pay registration fees as loans are not available for this purpose. Also loans cannot be made for any other reason until students are actually enrolled in classes and will not be available until the first week of classes.

APA Elects Dr. Wienpahl

Dr. Paul Wienpahl, associate professor of philosophy and acting chairman of the department at UCSB, was elected vice president of the Pacific division of the American Philosophical Association at the business meeting on the University's Santa Barbara campus last week. Dr. Barnett Savery, professor of philosophy at the University of British Columbia was elected to the presidency.

Dr. Wienpahl, on the faculty here since 1948, received a Ford Foundation Fellowship in 1954, was named the winner of the annual teaching prize in 1957. Last year he was in Japan on sabbatical leave making a study of Zen philosophy.

University admissions should be limited to the top 12-1/2 per cent of high school graduates, the committee, suggested, instead of the current 15 per cent and State College admissions should be restricted to about 33-1/2 per cent, compared with the present 40 per cent. All high school graduates still could go to junior colleges, but transfer requirements would be tightened under the proposals.

3 New Campuses

The committee suggested that three University of California campuses be established by 1962 at La Jolla, in the Los Angeles-Orange county area, and in the San Mateo-San Benito county area. Four new State colleges were also proposed for the San Bernardino-Riverside area, Los Angeles International Airport, Petaluma and Salida. Eight of the 22 new junior colleges would be in the San Francisco Bay area, 11 in southern California and three in the South central region of the state.

Boasts in Tuition

The report also suggested substantial boosts in tuition fees for out-of-state students plus higher fees for non-educational services and the development of summer educational programs. Funds for the proposed new junior colleges would come from a tax in school districts which now send their students elsewhere for such education. A 35 cent tax per \$100 assessed valuation is proposed.

Property owners in districts not having a junior college are presently assessed 18-1/2 cents per \$100.

The committee filed their report with the State Legislature and Governor Brown Dec. 19 for study and consideration.

Late Council News

Legislative Council elevated five sports to the major ranks last Tuesday evening enabling participants in those sports to win a Block "C" letter. The sports gaining new status were: swimming, water polo, wrestling, cross country and golf. A full story on council's action will appear in the next issue of *El Gaucho*.

'Prints '59' Show Student Work

'Prints '59,' an exhibition of student work in the graphic arts opens today in the UCSB campus art gallery and runs through January 30.

Sponsored under the auspices of the intercampus arts exchange committee at the University of California, this exhibition is currently touring the university campuses at Berkeley, Davis, Los Angeles, and Santa Barbara. The exhibit is representative of student work from these three branches of the University.

UCSB students and alumni whose prints appear in the exhibition are: Donald Lent, a 1959 graduate who is now in graduate school at Yale; Harry Batlin, also of the class of '59 who is continuing his studies at Cranbrook Academy; Lawrence Hauben, a senior at UCSB; Donald Wright, presently doing graduate work in Mexico; Maureen McCartney, a 1959 graduate and Michael Dvortcsak, currently studying in Europe.

by Carole Kinser

Lazy days suddenly change to panicked cramming as the last days fly past. Vacation ease and partying taper quickly and SU sitters notice excellent beach weather signalling finals drawing near.

Two Thetas took wedding vows during the Christmas season—*Sue Hoelscher* and *Sam Adams*, and *Carol Hovde* and *Bob Bowen*. Brother SAEs staged a party for *Bob* that Staggered IV.

Two UCSB seniors, *Carolyn Zelle* and *Jim Perino*, recently honeymooned in Las Vegas. This week Sigma Kappa grad of '59 *Myrna Schaffer* and *Bill Wright*, Cal Poly, will be married.

Sig Eps double serenaded Santa Rosa Monday night for the pinning of *Sheri Aitken* and *Ed Richardson* and engagement of *Linda Hileman* and *Terry Phillips*. Another Sig Ep's proposal was made known as *Kathy Gerrard* passed white carnations to Delta Gamma sisters.

More chocolates —

ADPi *Marilyn Woods* showed sisters the diamond Xmas present given her by *Pete Kloock* who is serving with the Air Force in Georgia. Balloons popped to reveal a June bride at the Pi Phi house. She is *Barbie Summerhill* and her fiance is Cal Poly's *Vic Androni* who soon becomes a Princeton student. Chi Omega *Maggie McBride* revealed her engagement Monday night to *Tom Pickering*, UCLA.

Candles passed, too... *Suzanne Hansen* received Delta Sig *Pete van Duinwyl's* pin for Christmas. Chi O *Barbara Knapp* wears the Phi Kappa Psi pin of *Harry Purnell* of Johns Hopkins U. The pinning of *Vonnie Cannon* and SAE *Mike Tucker* was announced to Manzanita gals.

DZ *Sylvia Wells* and Lambda Chi *Jim Howe* were serenaded to honor their pinning. Sig Pis joined ADPis for singing and a dessert after their meeting this week.

Hoping they won't be used, Chi O pledges presented their active big sisters with paddles. A party for some surprised actives was given this week by Pi Phi pledges. Other pledges continued to short sheet beds for, I hope, the last time.

Carbon Talk

"The Carbon Clock" is the title of Sunday's University of California "Explorer" radio show which may be heard locally over KNX, Los Angeles at 9:30 a.m.

This is the story of "Carbon 14" the radiotope which has been used extensively in dating remains of early life. The authority for this show is Dr. Willard F. Libby, Professor of chemistry at UCLA.

El Gaucho

University of California,
Santa Barbara

Published every Tuesday and Friday during the school year except during vacation and exam periods by the Associated Students, University of California, Santa Barbara. Printed in Santa Barbara by Rood Associates. Opinions expressed herein are those of the Editorial Board unless otherwise indicated. Entered as second-class matter Nov. 10, 1954, at the Post Office at Goleta, California, under the Act of March 3, 1879. Mailing charge is \$2 per year, payable in advance.

Mademoiselle Mag Offers Women Loot

Mademoiselle Magazine has announced its 1960 Annual college fiction contest for women undergraduates under twenty-six who are regularly enrolled in an accredited college or junior college.

Two winners will receive \$500 each for serial rights to their stories and in addition, winning stories will be published in Mademoiselle in the August 1960 issue. Two runners-up will receive honorable mention and Mademoiselle reserves the right to buy their work at the magazine's regular rates.

Deadline March 1

Entries must be postmarked by midnight, March 1, and mailed to College Fiction Contest, Mademoiselle, 575 Madison Ave., New York 22, N.Y. Stories must be original, have fictitious characters and run between 2,500 and 5,000 words. Contestants may send in more than one manuscript. Stories that have appeared in undergraduate publications are acceptable provided they have not been published elsewhere.

Manuscripts should be typewritten, and double-spaced on one side of each page of regulation-size typing paper. All work should be clearly marked with name, age, home address, school address and school year. Entries will be returned only if accompanied by a 9" by 12" manila envelope, stamped and self-addressed. The decisions of the Mademoiselle editors is final.

MISSION SINGERS ON SWISS AIR

Records of Christmas carols made by the wellknown Padre Choristers of the Santa Barbara Mission were heard in Switzerland this Christmas.

Instrumental in bringing this Santa Barbara Christmas music to the Swiss people was UCSB's Dr. Robert H. Billigmeier, assistant professor in the social sciences and foreign student advisor. Dr. Billigmeier is on leave from the University in Switzerland during the present academic year. Dr. Billigmeier has translated the text of the songs of the Padre Choristers into the Romanish language—that spoken in the eastern part of Switzerland.

In a recent radio interview in Zurich, Dr. Billigmeier told of the history of the Missions and answered questions about the geography and climate of Santa Barbara and the University.

REGISTRATION . . .

Continued from page one registration. These official class cards are to be filled out filed at the Registrar's Office beginning Feb. 16.

Further registration information is available in the Schedule of Classes and Directory.

History Seminar

A History 4-A seminar will be held Thursday, January 14 from 7:30 to 9 p.m. in the Music building auditorium. The seminar is sponsored by Squires and will feature Dr. Hollister as the speaker. All those interested are invited to attend.

"LITTLE STORIES WITH BIG MORALS"

First Little Story

Once upon a time a German exchange student from old Heidelberg came to an American university. He lived in the men's dormitory of the great American university. He was a fine, decent young man and all the other young men in the dormitory of the great American university tried very hard to make friends with him, but, unfortunately, he was so shy that he refused all their invitations to join their bull sessions. After a while his dormitory mates got tired of asking him and so the poor German exchange student, alas, spent every evening alone in his room.

One night while sitting all alone in his room, he smelled the most delicious aroma coming from the room next door. Conquering his shyness, he walked to the room next door and there he saw a bunch of his dormitory mates sitting around and discussing literature, art, culture, and like that. They were all smoking Marlboro cigarettes, which accounts for the delicious aroma smelled by the German exchange student.

"...he smelled the most delicious aroma..."

Timidly, he entered the room. "Excuse me," he said, "but what is that marvelous smell I smell?"

"It's our good Marlboro cigarettes," cried the men, who were named Fun-loving Ned, Happy Harry, Jolly Jim, and Tol'able David.

So the German exchange student took a Marlboro and enjoyed those better makin's, that finer filter, that smooth, hearty flavor, and soon he was comfortable and easy and lost his shyness.

From that night forward, whenever he smelled the good smell of Marlboro cigarettes, he always went next door and joined the bull session.

MORAL: WHERE THERE'S SMOKE, THERE'S MEYER

Second Little Story

Once upon a time there was an Indian brave named Walter T. Muskrat who had a squaw named Margaret Giggling Water. Margaret was sort of a mess but she sure could make beaded moccasins. Every day she whipped up a brand-new pair of beaded moccasins for Walter, which were so gorgeous that all the Indian maids on the reservation grew giddy with admiration.

Well, sir, Margaret got pretty tense about all the girls making eyes at Walter and one night they had a terrible quarrel. Walter flew into a rage and slapped her on the wrist, whereupon she started crying like all get-out and went home to her mother and never came back.

"Good riddance!" said Walter, but alas, he soon found out how wrong he was, for the Indian maids were not really interested in him, only in his moccasins, and when he stopped showing up with a new pair every day they quickly gave him the yo-heave-ho. Today he is a broken man, sitting all alone in his tepee and muttering ancient Ute curses.

MORAL: DON'T FIGHT THE HAND THAT BEATS YOU

Third Little Story

Once there was a lion which was a very quiet lion. In fact, the only time it ever made a sound was when it had a toothache.

MORAL: WHEN IT PAINS, IT ROARS

© 1960 Max Shulman

The makers of Marlboro would like to point a moral too: Nothing ventured, nothing gained. Try a pack of Marlboros or Marlboro's sister cigarettes—Philip Morris and Alpine—and gain yourself a heap of pleasure.

Dear Suzie,

Aren't you glad that the long Holiday is over and finals are almost here. The general topic of conversation seems to be how we all spent the entire vacation hidden away in some dark corner of a public library preparing for finals. It seems that all anyone has to do this week is just relax, forget about finals and start planning our program for next semester.

However, Suzie, if you don't find yourself in the above category then you had better find yourself a dark corner, buy plenty of cigarettes, coffee, o-doze, a "Do Not Disturb" sign; tell your friends goodbye and good luck, and try to get caught up before the Reinstatement board begins to catch up with you.

In any case, if after 349 hours of studying you feel like tearing your hair out by the roots, just stop. Instead of buying that double decker banana split, come down to **Lou Rose Annex** and see what we have for you. If you're in the mood for skirts, sweaters, blouses, slacks, bermudas, dresses, suits, coats, scarves, socks, hats, gloves, purses or jewelry, we have just what you want. To lift your spirits even more, Lou Rose is having a fabulous sale. So Suzie, if you hurry right down to the Annex, maybe you can find what Santa forgot to leave under the tree for you.

Anyway Suzie, don't let finals get you down and just remember to keep your spirits up, come into Lou Rose, "The Store Behind The iBq Tree," it's just what the doctor ordered. Good luck with all of your finals, if I don't see you in the library, I'll see you in the Annex.

Your Lou Rose
Campus Representative,

Kay

P.S. Until next semester . . .

annex

MERCUTIO AND THE NURSE played by Robert Crumb and Gail Anderson were part of the fine entertainment presented in the UCSB drama production of "Romeo and Juliet" last spring. The play was called one of the best in Santa Barbara in many years by one of the city critics. —Photo by Bob Quittner

"THE CINCH NOTES" and Aldous Huxley provided El Gaucho with two of its best pictures during the past year. "The Cinch Notes" were participants in last year's Spring Sing. Mr. Huxley just concluded a year as professor-at-large at UCSB. —Photos by Bob Quittner

Student Published

Janice Allison of La Mesa, a freshman tutorial major at UCSB, will have a poem published in the second annual *Anthology of American College Poetry*, to be released shortly. This society collects the best student poetical writings from colleges and universities throughout the U.S. and Canada.

FILM MAKING ART ON MUSEUM BILL

A special series of six meetings presenting studies of various styles and techniques in the art of film-making, including important phases in the artistic and creative development of motion picture making, both in the United States and abroad begin January 13 under the sponsorship of the Santa Barbara Museum of Art and the Friends of the Santa Barbara Public Library.

Beginning January 13 at 7:30 p.m. in the Faulkner Gallery of the Santa Barbara Public Library the series will feature early *Avant Garde* Experiments in France, showing the films "The Smiling Madame Beudet" 1923, "Menilmontant" 1925, "Ballet Mechanique" 1924, "Entracte" 1924 and "Rien que les Heures" 1926. January 20 the program will feature four essay comedies with Charlie Chaplin: "The Tramp," "A Woman," "The Bank" and "Police."

January 27 the program will switch locations to the Alhecama Theatre, 914 Santa Barbara St. showing Documentary studies: "Paris 1900": candid studies of Shaw, Rodin, Renoir, etc. Contemporary Animation (UPA Specials) will be featured February 3. In the McCormick Gallery,

Santa Barbara Museum of Art, zeginning February 10, three Studies in Art: "Conspiracy in Kyoto;" "Henry Moore;" and "From Renoir to Picasso" will be featured. February 17 the film Classic "Paisan," produced and directed by Roberto Rosselin will be shown.

"ONE OF THE BIG THINK CENTERS IN THE COUNTRY"

"We know costs but not values, we understand things but not people, we react instead of taking the initiative."

— Radio Network Executive in East, referring to Santa Barbara.

Rudolf Flesch, the noted exponent of clarity of expression, wrote in the L. A. Times Dec. 30:

"All over the world — in Europe, in Asia, in Africa, in Latin America — millions of people are working enthusiastically, building dams and skyscrapers and whole new cities — planning ahead for a better future. There is a fervor of idealism and optimism and intellectual ferment everywhere around the world — except here. What's the matter with this country, anyway?"

Well, the Goleta Gazette announced Dec. 30 that a "New City, with 30,000 Population, may go on El Capitan Ranch." It tells of a master plan for 4,000 acres, including schools, civic center, hospital. This complete new city would be planned from scratch on the big El Capitan ranch about 12 miles west of Goleta.

On a small scale it's like Brazil's new capital being built in the wilderness. We also read that Los Angeles will get an A-power plant.

One of Hollywood's young TV producers, David Susskind, asks "How do we ever expect to beat Russia in the intellectual struggle?" He refers to the sponsors' demand for proven dramas with "name stars, and resurrecting old films and plays, instead of experimenting with the new."

One thing about Hollywood, though, is its interest in what one should eat. First it was dieting, now it's health food. Wheat germ pancakes, soy beans, yogurt, tiger milk, yeast, carrot salad, sunflower seeds, honey, black bread and so on. Quite fascinating, especially to us supermarket folks.

It's good to know that thinking is becoming fashionable on the UCSB campus, that students and faculty see clearly that age itself is no virtue, that a lot of outmoded ideas are due for the ashcan.

Wear it as a sport coat... wear it as a suit... wear it with the weskit reversed to show the smart foulard pattern... which incidentally, matches the coat lining... or wear the weskit either way with slacks! It's really versatile! Black, Antelope, Tobacco Brown, Charcoal, Loden Green, Tan. Sizes 36-44, longs and shorts 38-44.

'THE RUB'

by Stephen Davis

The sickest, most worried girl on campus this week is the sophomore Phlegm Bodelism dumb-major whose Notebook I have stolen in preparation for this column.

Not even the local Mental Health Organization, which serves nuts, neuroses, and narcissism with its tea and bologna, will be able to restore her piece of mind.

An A plus minus over B minus plus student (1.3 units of resistance to a five-pound head hammer), her GPA, IQ, academic IOU, and hat size are threatened with radical diminution because Everything She Has Learned This Semester Is In My Briefcase.

Confused Head

Only bewilderment, wrath, and confusion remain in her head (mesaticephalic 77) and her body (38-26-37).

She is totally unprepared for National Notebook Week, wherein a few students study, fewer think, and most memorize. (The more imaginative of the latter have been known to read *How to Win, Friends* by Dill Carnegie, *Charlatan* van Doren, and Willy Loman; to borrow my copy of *University Curricula and Sleight-of-Hand* by Bob "Houdini" Hustings; or to experiment with variations in décolletage.)

After having spent four months racing the wrist and fingers of her writing hand against the jaw-bones of five instructors, she is suddenly bereft of the material by means of which she had hoped to *apfelspolieren* by providing the owners of those mobile maxillaries with neatly hand-wrought versions of their own *pur' addenda*.

(It is perhaps legitimate and valuable to record what'er proceeds from the horse's mouth; but if one focusses intently upon the page, how can one detect reversals of the anatomy?)

Generosity

As jealous as I am of my inches columnar, I am willing to give her a few, to publicize the contents of that MS which has been from her "so rudely forced":

"Dec. 7, Mon.: Shakespeare great dramatist. Eliot difficult. Smith. 1517. Papal bull (cattle?). See Jeanne about Michael's visitors are *supposed* to leave before ten. Did Cromwell really have a round head? Read complete Aquinas before spring. Ask Patricia for excuses she used last year re late paper. Look at a few Alexandrias in the *Furry Queen* by Herbert Spencer. Bentley says Ariosto didn't originate unities. Look up I Castiglioni by Cortegiani. I don't think he should mention Phlegm Bodelism in a classroom. Our phenomenological description of the three temporal ekstases should enable us at present to approach temporality as a total structure organizing within it secondary ekstastic structures. Tom will explain this to me after the show tonight."

Inventory

Included among the pages of her Notebook are several drippings from Readers' *INDIGESTION*, a pamphlet from the Marine Corps entitled "How Can Women *Really* Serve?", copies of four term papers by other students (all A's), and seven special pencils for a new kind of test which may be introduced later this month: one which, I have been told, involves making little black marks in little blue spaces with big purple pencils.

I have not been told whether the A's are awarded to those who produce the neatest or the most little black marks in little blue spaces with big purple pencils.

Get Pic Quick

Franklin's photo studios advise seniors to make their appointments for photo sittings as soon as possible. Call 4091 or stop by the studio at 924 State. This is the last call.

MARRIED STUDENTS AT UCSB MAKE UP OVER TEN PERCENT

Over 11 percent of the 2879 students currently enrolled at UCSB are married. Statistics compiled by the Housing Office show that there are 318 students at the university handling full-time or part time academic loads who have spouses. Almost half, or 157 have offspring.

It is further reported that there are 196 married men and 122 married women attending UCSB this fall; 27 of these married male students are mates of the same number of married women students.

Sixty-one married students have one child; 65 have two children; 18 have three children; 9 have four children; and two have five children; and two have six children.

The large percentage of married students live in Santa Barbara and vicinity although 40 commute from Ventura, Oxnard, Solvang, Santa Paula, Ojai, Summerland, Lompoc, Fillmore, Camarillo, Carpinteria and Santa Maria.

UCSB STUDENT AT MUNICH IN GRAD WORK

A 1959 graduate of UCSB has achieved the unusual distinction of being admitted to the Academy of Fine Arts in Munich for graduate study.

Norma Wagner, an art major from Vista, after visiting relatives in Bavaria this fall, went to Munich to take the entrance examination for the Academy. Out of more than 500 applicants, 170 were allowed to take the examination. After three days of drawing steadily, 120 students were accepted, including Miss Wagner.

William Dole, chairman of the UCSB art department, said that she is working under Prof. Deyrolle from France who was an assistant to Fernand Leger, the famous French artist. Miss Wagner reported that being in Munich as a student is a great advantage over being a tourist as everything is much cheaper for students.

SPORTS PICTURE OF YEAR is unusual water polo shot. This sport has just attained major league status at UCSB by action in Legislative Council last Tuesday night (See page 1). The Gauchero water polo team was very successful this year.

Attention Vets

Tomorrow is the last day for veterans to sign their vouchers for payment of January checks. Vouchers are in the Dean of Students office.

Vouchers for January are to be signed after veterans have

taken their last final. They are not to wait until after Feb. 1. As soon as a veteran's last examination is over he may sign his voucher in the Dean of Student's office.

The whole is equal to the sum of its parts

(But some of its parts are more equal than others!)

Even Euclid had to admit...

It's what's up front that counts

Euclid proved that a straight line is the shortest distance between two points. And if you'll walk a straight line to the nearest pack of Winstons, you'll find it the shortest distance to a really enjoyable smoke. It's the tobacco up front that makes

the difference and that's where Winston packs its own exclusive Filter-Blend—a special selection of light, mild tobacco, specially processed for filter smoking. You'll find Filter-Blend gives Winston a flavor without parallel. In fact, it's axiomatic that...

WINSTON TASTES GOOD, LIKE A CIGARETTE SHOULD!

Intramural Basketball Playoffs Go Tonight, Friday

Playoffs continue today and tomorrow for the intramural basketball title with the finals scheduled for tomorrow. The hall champ, Pima, faces the Court Cats, independent champ, tonight, and the winner faces fraternity champ, SAE.

The SAE's beat the Delt's in the fraternity playoff, 49-34, after both had ended the season with 4-1 records. The SAE's had beaten the Delt's 39-36 in the last game of the season to force the title into the playoffs. Ron Heusser led the winners with 13 followed by Keith LaMotte with 12 and Zeke DiCico with 10. Kermit Harcos had 17 and Tom Morgan 14 for the Delt's.

Pima beat Yuma for the ball title after the Yuma team had whipped Sequoia 47-43 for the "B" hall title and a chance to meet Pima, champs of the "A" league. Bob Funk had 24, Neal Randle and Dan Mulvey both had ten in their win over Sequoia. Bart Roggensack had 11 and Jack Wilmore 12 for the losers.

In the "B" league the Court Cats finished with a 5-0 mark, followed by the Football Five (4-1), Yuma and Sequoia (2-3) and Maricopa and the Apaches (1-4).

Pima won the "A" league with a 5-0 mark and was followed by Navajo and Modoc (3-2), and Ute and the EPS (2-3).

GAUCHOS WIN LEAGUE OPENER AND 'CLASSIC'

Christmas was good to the Gauchos as they captured the Winter Classic title and lost only one game, to Arizona State, while winning four. The Gauchos opened the CCAA play Saturday in the Robertson gym with a 59-44 win over Long Beach State in a game marked by a ruckus between Joe Fleiss and State's Marion Podue.

Fleiss, after being knocked down by Podue twice in skirmishes, showed his agner but a full scale fight was avoided. Tempers weren't the only thing that was hot as the Gauchos hit 73 per cent from the free throw line and 34.5 per cent from the floor. State could only counter with 44 and 29.8 percentages.

The Winter Classic win was especially sweet in beating Loyola 67-59 and Westmont 74-66. Coach Art Gallon was pointing for the Loyola victory as he had never beaten them and the Westmont win had the usual joy of dropping the cross town rival.

Westmont's Stan Anderson named the tourney's most out-

standing player by breaking the Classic scoring mark with a total of 49 points in the two games. Jerry McDonnell and Don Volpi, from UCSB, were on the tournament team which also included Loyola's Ed Bento and Tony Krallman and Hawaii's Frank De Lauro.

In other games in the tourney Westmont upset Hawaii 61-45 behind Anderson's 23 points and Loyola polished off Hawaii 71-53 in the fight for third place.

Holiday action also saw the Gauchos beat San Fernando Valley State College 78-58 and lose their second game of the season to Arizona State, 77-57.

'Basketball Buffoonery' Comes with Harlem Clowns

Those "basketball buffoons," the Harlem Clowns come to Robertson Gym tomorrow night at 8 p.m. to play an aggregate of former Santa Barbara and Westmont stars. The Clowns who hold a 90 winning percentage, unveil a host of stars including Al "Runt" Pulins, a casaba comedian, and dribbling phenom Clint Roberts.

Tickets are on sale now at the graduate office and are priced at \$1 for students and children and \$1.50 for general admission. All the money profits from this game go into the basketball fund which is used to schedule top opponents for the Gaucho varsity each year. UCSB needs this money to guarantee the top universities in the nation, such as this year's opponents California and Arizona State, when the Gauchos take their road trips.

Turnaway crowds are expected for this game, which was formerly held in the armory. 2,500 seats go on a first come, first served basis. The Clowns roster includes Big Bob Woods, Eddie Hurt, 6-9 Tom Young, Cecil Washington and Algin Sutton, former Cal Poly great. Roberts, the squads dribbling ace, is said to be as good as Marquis Haynes, the Harlem Globetrotters old dazzler.

The All-Stars are led by former Gaucho greats Dick Acres, now with the Kirby Shoes team in the industrial league, Johnny Osborne, Lee Smelzer, Dennis

Conference Play Resumes; Cagers Travel To Poly and Fresno for Week-End Tilts

by Wils Winnek
Staff Sports Writer

Art Gallon and his Gaucho basketballers hit the road tomorrow for a weekend of California Collegiate Athletic Association cage action. Tomorrow evening UCSB will tangle with the Cal Poly Mustangs in the new Poly gym's inaugural tilt. Saturday night the locals meet the "Battlin' Bulldogs" of Fresno State College in the Valley town.

The Gauchos, who rate as a darkhorse in CCAA play, will be the first test for Poly since the Mustangs returned December 19th from a junket which took them through Ohio to the east coast.

Four Starters Back

Vic DiGiovanni, 5-11 senior guard, leads the Mustangs which, in addition, have three other starters from last year, forwards, Mal McCormick, Joe Rycraw, and guard Jim Clark. DiGiovanni was the top scorer for the San Luis Obispo school with a better than 13 point-per-game average in 1959.

As with most of the other teams in the conference Coach Ed Jorgensen's Mustangs have a stronger bench. Four other lettermen and seven junior college transfers give Poly a speedy, hustling team which should better its 4-6 CCAA mark of last season.

Fresno's Title Talk

The Gallonmen will have to prove themselves a "second-night ballclub" when they take on Fresno. Nothing but optimism and title talk come from the Rasin City. Six lettermen, in-

cluding All-American candidate Babe Williams, regulars Al Brown and Tom Gilcrest, plus the "finest crop of junior college transfers since 1956," paint a rosey picture for Bill Vandenburg's Bulldogs.

Williams, with a deadly jump shot from outside the key, averaged nearly 14 points a game last year as he was named to both the All-CCAA and Little All-Coast teams. Standing just six feet, this senior guard has terrific speed and can make the night miserable for any opponent.

Gilcrest, 6-3, and Brown, 6-2, are senior forwards and bring experience and height to the Fresno front line. Both are tough on defense and play the boards well. Top JC transfer is Mike McFerson, from San Bernardino Junior College, who has nailed down the other starting guard spot opposite Williams. This gives the Bulldogs a potent backcourt scoring punch.

If the Gauchos, 1-0 in conference action, are able to get by Poly and upset Fresno State they will serve notice on the CCAA that UCSB is a team to be reckoned with and not just an early season flash in the pan. This is a must weekend for the Gauchos!

Santa Barbara will return home a week from Saturday to face San Diego State before taking a week off for final exams. Basketball continues in Robertson Gym between semesters when Westmont and the Cal Aggies come to Goleta Jan. 29 and 30 take on the Gauchos.

LIONS NIP GALLONMEN

Loyola and UCSB traded basket for basket for 36 minutes and then the Lions pulled to a five point lead with only four minutes to go as the Gauchos dropped their third game of the season 54-49, Monday night on the Loyola court.

With a minute left Jerry McDonnell pulled UCSB to within two points, 47-49, as he sank a field goal and a free shot. Jerry Grote iced the game for Loyola when he dropped in two free tosses with 45 seconds remaining. Grote topped all the scorers with 25 points.

Frosh Face Poly JV's

The Gaucho Frosh faces the Cal Poly JV's tomorrow night in the prelim to the varsity game at San Luis Obispo and then faces return matches with Westmont's JV's and Hancock JC on Jan. 29 and Feb. 5 respectively. The Westmont clash is at home.

The freshmen lost to Long Beach CC, last year's state JC champs, 79-58, despite George Jones 13 points and Wes Brasher's 15 markers. Monday night the Frosh lost to Loyola's Frosh 59-50.

Nielson and LeRoy Herrick. Westmont aces Paul Heinrichs and Dan Arens, the top two scorers last year, are also on the team.

LAST SB HUXLEY TALK CALLS FOR MIND-BODY TRAINING IN SCHOOLS

by Chris Quanton

In his last talk on the UCSB campus, noted author-lecturer Aldous Huxley called for a training program to help people use their full human potentials, describing the failure of schools to provide such a mind-body education program "one of the grave weaknesses of our current education."

Brave New World author Huxley has been serving as guest lecturer on the Santa Barbara campus since last spring. His Monday afternoon lectures have been the topic of wide comment.

"We have to consider what are the circumstances under which humans are most capable of realizing their potentialities," he said. "There is a pharmacological approach to this problem. The Soviets announced that they were trying to find pharmacological methods to increase capacities of the mind without doing any appreciable harm to the body."

Possible

"Pharmacologists say this is not an impossible dream. Chemical methods which do not seriously or appreciably harm the body may be found for doing all kinds of things which will help the mind to go forward in its task of realizing latent potentialities."

"We must have with this some kind of training. At present we teach our children to have an understanding of what is what, and to behave like civilized human beings. But we do not train the mind-bodies which have to do the learning. We give them moral injunctions, and we don't then go on to train them in such a way that they can carry these injunctions into effect. This is one of the grave weaknesses of our current education."

"The most basic and important of these fields is perception. In order to survive, to realize our needs and wants, to actualize our latent potentialities, we need to have a really efficient perceptual apparatus. This training in perception is something which we are only just beginning to think of. It has not really been given the attention it deserves."

Self-Knowledge

"We have to learn to perceive clearly how it feels to be what we are, where we are. We have to know what surrounds us, how we react to what surrounds us. We have to have a clear idea of what it is we are thinking. We have to obey the old Socratic maxim, 'Know thyself'."

"Let us consider what are the obstacles to self-knowledge. The greatest obstacle to awareness is neurosis. It can be defined as a fixation upon a single aspect of life, a looking at the world through one particular set of distorting lenses, an inability to see a wider angle of life and to see realistically what is going on around us. We are being influenced now by events which took place then. We are reacting

to the present in terms of the past.

"These memories are acting almost as post-hypnotic suggestions and compel us to act in an unrealistic way to events going on here and now. The cure for neurosis is some method by which the patient may be brought out to the full awareness of events taking place now."

Intellectualism

"Non-neurotic people have many other forms of obstacles in the way of awareness. There is the preoccupation with a single interest, a single passion. All the passions are essentially narrowings down of our awareness. They confine our vision to a very small field and prevent us from becoming conscious of ourselves and everything going on around us."

"Another obstacle is intellectualism, which regards words and concepts as being more real and more important, of thinking in terms of concepts and not paying attention to the data which the universe continually pushes up in front of us. Immediate experiences are the experiences of beauty."

"Another obstacle is habit and routine. These both are extremely valuable. They are also extremely dangerous. We tend to react to present events without spontaneity, in terms of something we learned in the past."

Newness

"Ideally, we should somehow make the best of our world. We have to be aware of things here and now, of newness. At the same time, we have to be aware of the unique events to permit our past experience to be more efficient in coping with immediate experiences."

"In many cases we find our reliance on habit, on words and concepts, tends to blind us to the immediate reality in front of us. It would be good if all children were trained to realize the importance of habit and non-habit."

"There are some forms of training of the mind-body. One is the training of the imagination."

"There is no question that we are able to go much further in the direction of immediate experience than we generally do go. It is important that we should be aware of the relationship between these experiences we are presented with."

Love

"At the same time there should be a training of the mind-body and a training of the mind in its use of language. Closely related to problems of perception, awareness, are the problems of love."

"Love and knowledge go very closely together. Love without knowledge is impotent and knowledge without love is frequently inhuman. Our problem is to find some way in which we can make it more possible for more humans to love in an aware and knowledge-directed way."

KERR DISCUSSES NEW MASTER PLAN SURVEY

I am convinced that I speak for the entire University of California in saying how pleased we are with the recommendations of the Master Plan Survey Team which were adopted today by the State Board of Education and the University Regents.

The negotiations have been marked throughout by a splendid spirit of cooperation on all sides. As a result, there has been developed a plan for higher education in California, including a proposed Constitutional amendment which, if accepted by the Legislature and the people of California, will lead the way to a coordinated and economical system of higher education in the State.

Many Questions

A year ago, California educators were faced by a great many questions. How could the State provide the expansion in staffs and facilities needed to accommodate the forthcoming "tidal wave" of students? What admission requirements were appropriate for the three different segments of public higher education? What should be the distribution of enrollments? How should new campus sites be determined? How could the State guard against needless duplication of facilities for research and doctoral programs?

A year ago, there was a feeling of pessimism about the solution of these difficult problems. Finally, the State Legislature asked for the survey which culminated in the Master Plan approved today. The plan was developed successfully, primarily because those who participated in it did not work simply as representatives of their own institutions, but kept firmly in mind the interests of the people of California. We owe all of them a debt of thanks. I would like to note particularly the outstanding

contribution of Arthur G. Coons, who served as Chairman of the Master Plan Survey Team in a truly statesmanlike manner.

Master Plan

The Master Plan approved today will enable us to preserve the best features of the historic tri-partite system of public higher education in this State. Moreover, it will increase the spirit of understanding among the segments which make up this system.

The Plan will allow fuller use of state college facilities for graduate work and research, while maintaining the University's leadership and responsibility in these areas. It will make available to every college-age youth in California the maximum opportunity to achieve the best education appropriate to his abilities and interests. It will increase the opportunity of the junior colleges to serve the State, and to work even more closely with the state colleges and the University.

New Boards

It will give the state colleges a system of government parallel to that of the University through a Board of Trustees similar to the University's Board of Regents. It will also provide a coordinating advisory body between the two Boards.

The Master Plan approved today is, in short, a milestone in

the history of California higher education. When fully implemented, it will work to the benefit of all parts of higher education in the State, and to the advantage of the people of California whom they serve.

Clark Kerr
President of the University

HELP WANTED FOR SYMPHONY PLANS

February 26, 27, and 28 are the dates scheduled for the 1960 All-California High School Symphony sponsored by the Associated Students according to Manager Ron Largent.

Applicants from high schools throughout the state are being selected and plans are now in process to provide housing and other facilities for the more than two hundred musicians expected.

Anyone wishing to help with housing, transportation, publicity, programs, ticket sales or staging and production should contact Ron Largent at the All-

Cal headquarters, room 2206 in the Music Building.

CONSTITUTIONAL AMENDMENT SOUGHT

Contained in the new Master Plan Survey for higher education in the State of California recently completed was a recommendation that the Constitution of the state be amended to add a new section to Article IX which deals with higher education. The following is the proposed addition:

Public higher education shall consist of the junior colleges, the State College System, and the University of California. Each shall strive for excellence in its sphere, as assigned in this section.

2. The junior colleges shall be governed by local boards selected for the purpose from each district maintaining one or more junior colleges. The State Board of Education shall prescribe minimum standards for the formation and operation of junior colleges, and shall exercise general supervision over said junior colleges, as prescribed by law. Said public junior colleges shall offer instruction through but not beyond the 14th grade level including but not limited to, one or more of the following: (a) standard collegiate courses for transfer to higher institutions; (b) vocational-technical fields leading to employment, and (c) general, or liberal arts courses. Studies in these fields may lead to the Associate in Arts or Associate in Science degree. Nothing in this section shall be construed as altering the status of the junior college as part of the Public School System as defined elsewhere in the Constitution.

3. The State College System:

(a) Shall constitute a public trust, to be administered by a body corporate known as "The Trustees of the State College System of California" with number, term of appointment and powers closely paralleling those of The Regents.

(b) The board shall consist of 5 ex-officio members: the Governor, the Lieutenant Governor, the Speaker of the Assembly, the Superintendent of Public Instruction, and the chief executive officer of the State College System; and sixteen appointive members appointed by the Governor for terms of sixteen years. The chief executive officer of the State College System shall also sit with The Regents in an advisory capacity, and the President of the University of California shall sit with the Trustees in an advisory capacity. The members of the State Board of Education shall serve ex-officio as first Trustees, being replaced by regular appointees at the expiration of their respective terms.

(c) The state colleges shall have as their primary function the provision of instruction in the liberal arts and sciences and in professions and applied fields which require more than two years of collegiate education, and teacher education, both for undergraduate students and graduate students through the master's degree. The doctoral degree may be awarded jointly with the University of California, as hereinafter provided. Faculty research, using facilities provided for and consistent with the primary function of the state colleges, is authorized.

4. The University of California shall be governed by The Regents as provided in Section 9 of this Article. The University shall provide instruction in the liberal arts and sciences, and in the professions, including teacher education, and shall have exclusive jurisdiction over training for the professions including but not by way of limitation, dentistry, law, medicine, veterinary medicine and graduate architecture. The University shall have the sole authority in public higher education to award the doc-

tor's degree in all fields of learning, except that it may agree with the state colleges to award joint doctor's degrees in selected fields. The University shall be the primary state-supported academic agency for research, and The Regents shall make reasonable provision for the use of its library and research facilities by qualified members of the faculties of other higher educational institutions, public and private.

5. An advisory body, the Coordinating Council for Higher Education:

(a) shall consist of twelve members, three representatives each from the University, the State College System, the junior colleges, and the independent colleges and universities. The University and the State College System each shall be represented by its chief executive officer and two board members appointed by the boards. The junior colleges shall be represented by

(1) a member of the State Board of Education or its Chief Executive Officer;

(2) a representative of the local governing boards;

(3) a representative of the local junior college administrators. The independent colleges and universities shall be represented as determined by agreement of the chief executive officers of the University and the State College System, in consultation with the association or associations of private higher educational institutions. All votes shall be recorded, but effective action shall require an affirmative vote of four of the six University and state college representatives; except that on junior college matters the junior college representatives shall have effective votes; and on the appointment and removal of a director of the Council all twelve shall be effective.

(b) A director of the staff for the Coordinating Council shall be appointed by a vote of eight of the twelve Council members, and may be removed by a vote of eight members of the Council. He shall appoint such staff as the Council authorizes.

(c) The Coordinating Council shall have the following functions, advisory to the governing boards and appropriate State officials:

(1) Review of the annual budget and capital outlay requests of the University and the State College System, and presentation to the Governor of comments on the general level of support sought;

(2) Interpretation of the functional differentiation among the publicly supported institutions provided in this section; and in accordance with the primary functions for each system as set forth above, advise The Regents and The Trustees on programs appropriate to each system.

(3) Development of plans for the orderly growth of higher education and making of recommendations to the governing boards on the need for an allocation of new facilities and programs.

(d) The Council shall have power to require the public institutions of higher education to submit data on costs, selection and retention of students, enrollments, capacities, and other matters pertinent to effective planning and coordination.

Higher Education Master Plans Formed, Governor Brown Submits to Questioning

Last Dec. 18 the Board of Regents and the State Board of Education decided on a Master Plan for higher education in California. Included in that Master Plan is a constitutional amendment which all segments of higher education feel must be passed to insure that the Plan is a success. (See other story on this page for text of amendment).

A press conference was held following this meeting. Answering questions were Governor Brown, Arthur Coons, Chairman of the Master Plan Survey Team, President Clark Kerr, Dr. Dean McHenry of the University of California, and President Glenn Dumke of San Francisco State College.

Governor Brown was asked first if he would definitely state that there would be a special session of the legislature on this issue. He said that such a session was probable, but that he could not definitely commit himself.

Board Powers

The Governor was next asked if he had any reservation about the control, especially fiscal control, of the state colleges by the proposed new state college board of trustees. Brown replied that the powers of the University's Regents were traditional and that he had no intention of limiting them in any way. Concerning the new proposed board, however, he stated that he did want to investigate its proposed power further before reaching any final decisions. At present, he has no misgivings "one way or the other."

Dr. Coons was then questioned about the new coordinating council proposed in the constitutional amendment. A reporter asked if the council, made up primarily of University and State college voting representatives, would not become a "third voice," merely backing up the opinion of the two boards, rather than acting as a watchdog. "Aren't you," the reporter asked, "putting a fox in charge of the henhouse?"

Coons remarked that he had stated repeatedly that this was to be an advisory body. It will advise the two boards, the Governor and the Legislature and other appropriate state officials, he said. It will review the budgets of the University and the State College system. The coordinating council, after this review, would make recommendations to the two boards, the governor, etc. It would recommend the appropriate level of support with respect to each segment of higher education. And it would use its research staff to obtain complete and independent data.

Dr. Coons also stressed that both the junior colleges and the independent colleges are represented on the advisory council. Furthermore, he added, neither the council nor the two boards could make the legislature adopt any budget it did not believe in.

Which Best?

A reporter then asked if it might not be better to substitute a super or independent board over the other two, rather than the coordinating council.

Coons stated that a super board of this nature would become "the real power," diminishing the effectiveness of the other two boards.

Dr. Dumke also answered the

question. He said that a tremendous amount of force in influencing public opinion could be derived from the proposed advisory council, director and staff. He stated that the proposed council would be a great safeguard, — an effective watchdog, not responsible to any single segment.

Dean McHenry also stressed that it would be unwise to set up one board that would take power away from the other two. The idea of a super board was discussed in committee, he said, but rejected for this reason.

Dr. Coons was then questioned about his "take it or leave it" statement of the day before concerning the presentation of the proposed amendment to the legislature. He was asked if the legislature might not make some advantageous changes.

Package Deal

Coons again repeated his statement that the amendment should be a "package deal." The principles outlined in the amendment, he said, were arrived at only with great effort. They are meant to solve an extremely complex problem and could easily be thrown out of balance. All segments of public higher education agree that these principles would benefit the State of California. If, on the other hand, these segments were forced into a plan to which they did not all agree, inevitable tensions would result.

"We have tried," he said, "to give back to the legislature just what it asked for . . . we had to get unanimity, and we got it. Let's hold on to it."

A reporter asked if a structure such as this had been tried before. Dean McHenry replied that this plan was "pretty much breaking new ground." He said that if this plan worked it would serve as a pattern for other large states.

The next question concerned the interchange of functions and/or campuses between the University and the State colleges. President Coons replied that this was a legal matter which had not really been solved. In the future, of course, the University and the

State colleges may want to trade some functions. Certainly, this would be easier under the proposed program of coordination than it is at present.

Save Taxes?

Dr. McHenry and President Coons were asked if the proposed system would really be a saving to the taxpayer — would any economy make up for the expense of the coordinating council, etc?

Compared to the costs of higher education, Coons said, this cost is relatively small. McHenry

commented that a first-rate program in this area could be conducted for \$100,000 a year. He said he would be surprised if not more than 100 times this amount was saved.

As the press conference drew to a close, Brown was asked again about the special session of the legislature. Brown repeated that he did not wish to commit himself. However, he added, this type of issue gains momentum and it is best to go along with this momentum. He said a special session was "very probable."

Letters to the Editor . . .

For the Birds

Mr. Sharsmith:
You said the wrong thing when you jokingly, I assume, wrote your little blurb to El Gaucho (see El Gaucho, Dec. 15, Sharsmith proposed lagoon money be spent to improve the slough). I have been very diligently following the controversy regarding the Lagoon Problem, about which most of the writers seem to be guided by a sense of aesthetics rather than facts. In introducing the Slough into the problem, you have stirred up someone who has the facts, and also a deep aesthetic fondness for the "unsightly mess." Name-ly, me.

Your term for the Slough brings to mind a retort taken from "Grammar School Wisdom":

Beauty is but skin deep;
Ugly lies the bone;
Beauty dies and fades away,
But ugly holds its own.

Some morning, when you are on your way to school, pause at the Slough and get a close look at what you call an "unsightly mess." If you are farsighted enough to bring a pair of binoculars, you will see some of the most beautiful and most stately birds found on this coast.

Types of Birds

Dotted along the Main Channel are the stooped Black Crowned Night Herons; the tall stately Great Blue Herons; and the aristocratic Egrets, American and Snowy. If you look past the Channel towards the Ponds of the Marshy Area, you will see Pintails, Shovellers, Mallards, and Seals. Swimming and diving in the Channel are the Surf Scoters and many species of Grebes. And, last but not least, is the ungainly Coot, or Mudhen, feeding in the marshy edges of the Mud Flats. These are but a few of the birds that may be seen these mornings.

The waters of the Slough abound in several kinds of fish, crabs and snails, all of which are of great importance to biologists like myself.

Mucked Around

I personally have walked, "jeeped", and motor-boated from one end of the slough to the other. I have slipped in mud and gotten quite wet and have "mucked" around in mud that is so deep that it reaches the thighs of hip boots. Biological research in this "unsightly mess" has been my work for almost a year now, and will remain same for at least six months more. There are also a number of classes in the biology Department that study the wildlife of the Slough. Biologists on this Campus have considered themselves very fortunate to have access to such an environment.

Why Rambling

Now, John Sharsmith, you are probably wondering why I am rambling on so passionately. One reason. When the Lagoon Beautification Project is finished, at least it will still look like and be a Lagoon. For mosquito abatement reasons, the Slough, which I think has far more Inherent Beauty and Value than the Lagoon, is being slowly dredged, filled and dried-out so that it will eventually closely resemble an irrigation project; or, if you are familiar with the area, Venice, California, after industrialization.

So, the next time you drive by the Slough look and see the Natural Beauty of the "unsightly mess." And, if you are still not convinced, I will be glad to take you and any others of your opinion on a tour through the Slough so that you may see it as any lover of Nature does.

Roy King

About Standards

Editor, El Gaucho:

During this semester there have been several questions raised as to the function and nature of the Associated Students Standards Committee. In addition, various misconceptions have arisen from these questions. As chairman, I should like to clarify the position of the Standards Committee in the college community.

Standards Committee is made up of several students with the Dean of Women and Dean of Men serving as advisors. The chairman is appointed by Legislative Council. The committee members are appointed by the chairman in conjunction with the faculty advisors.

Function

The present functions of Standards Committee is two-fold: 1) Recommendation of disciplinary action upon students whose conduct has not upheld the moral standards of the University; 2) Promotion of student standards. As popularly misconceived, this second function does not pertain to the dress habits of the students nor does it pertain to any other aspect of student life not involving the name of the University. Promotion of student standards is a difficult task since much of the committee's time is spent on disciplinary cases. Promoting the honor system, informing the student body of state laws pertaining to students, and acting as a liaison between student and faculty may fall within this realm.

The first function requires more detailed explanation because no one case of disciplinary action is like another. The committee may sit on classroom conduct, such as cheating in class, or it may sit on a case of student conduct in the community surrounding the college.

The committee, when hearing a case, does not determine guilt or innocence. The guilt must be precluded either by confession of the student, or students, involved or by evidence from a civil court before the committee can act. Our business concerns determining to what extent the student is aware of his guilt. Then, in consideration of the nature of the conduct in question and the nature of the student's attitude, the committee recommends disciplinary action to the administration.

Obstacles

There are two obstacles confronting Standards Committee at the present time; one external, the other internal. Out of the external obstacle has arisen the misconceptions about Standards Committee. Generally, Standards Committee cannot open its meetings to the general student body. The confidential nature of the committee cannot be sacrificed, primarily for the sake of those students who have become involved in instances of unbecoming conduct. However, for students who may be interested in

the way in which Standards Committee operates, there is a set of minutes generalizing the cases which have come before the committee. These minutes are not detailed and do not contain particulars for the same reason as mentioned above.

The internal problems facing Standards Committee pertain to the nebulous nature of its by-laws outlining the functions of the committee. At the present time we are working in conjunction with Judicial Committee on clarifying our by-laws. Our ultimate goal is the unification of the two committees into one all-encompassing body.

I hope I have answered some of the questions raised by the students; for this, too, falls under our function of promoting student standards. Also, in regard to this function we welcome any questions or complaints the students may have pertaining to student conduct.

Sincerely,
Janis Silver
Chairman,
Standards Committee

Where? Where?

Where are our noble cheer leaders? This is a question which has perturbed me, and I hope has perturbed many other loyal UCSB sports fans. With the exception of the football games and the initial game of the home season, they have been most noteworthy in their absence at the basketball games.

There are a number of possible answers to my initial question. First, they have gone into hibernation; this is an interesting possibility, but doubtful. Second, they were kidnapped by our big brothers from the north, who were envious of their abilities; this is not too likely. Finally, perhaps they have really wanted to come, but just have not had the time; if this is true, I hope they will be able to take in a game or two, for we do seem to have an excellent team.

Perhaps if they would come at some future date, they might even deign to lead a cheer or two, if only for old time's sake.

In conclusion, it might also interest them to know that a member of the Gaucho Band, embarrassed for them and for UCSB because of the lack of any unified vocal support for the team on the first night of the Winter Classics, led a number of cheers — and received the whole-hearted support of the entire "cheering" section.

Respectfully,
John S. Pearson
938 Embarcadero del Norte Place

(Ed. Notes That "band member" was the head cheer leader. Some of us had been to enough games to recognize him.)
