SUMMER SESSION, Vol. IV No. 1 June 18, 1962 University, California

## WELCOME TO SUMMER SESSION

On behalf of the administration I wish to welcome you to the 1962 Summer Session on the Santa Barbara campus of the University of California. This greeting is extended not only to our Summer Session faculty, and to all students in attendance, but to members of their families who have come with them. It is our sincere hope that the next six weeks will enhance your enthusiasm for knowledge and increase your competence and interest in your chosen fields of endeavor. Your comments regarding the Summer Session are solicited. We are especially anxious to learn of courses and areas of study which you believe should be included in the program of Summer Session offerings. Again for the fourth consecutive year we welcome a group of students who

### FACULTY-STUDENT HOUR TO HEAD SUMMER SESSION ACTIVITIES

A faculty-student hour is the first of a long line of events in the 1962 Summer Session beginning on June 19.

A lecture by Dr. Bruce Hopper entitled "The Far East: Collision Lines or Shared Responsibilities?" at 3 p.m. in South Hall was cancelled because of illness.

The informal faculty-student hour will be held from 4-5 p.m. in the South Hall Patio as previously planned. Refreshments will be served.

The next lecture will take place in South Hall at 3 p.m. Thursday when Marian Dobrosielski of the Embassy of the Polish People's Republic in Washington, D. C., will speak on "The Rapacki Plan."

Other activities during the first week of the summer session include a "Recreation Night" to be held on Friday, June 22, in Robertson Gym. Recreation Night will take place every Friday from 7-10:30 p.m. through July 20. Activities available are volleyball, badminton, table tennis, apparatus, trampoline, and folk and square dancing. Tennis shoes must be worn on the gym floor.

On Saturday, June 23, the all-University picnic will take place from 11 a.m. to 4 p.m. at Tucker's Grove. Reservations should be made at the Graduate Manager's Office behind the student union by June 20. (cont. on page 2)

have just completed their junior year in high school. The program in which they are enrolled has become one of the most dynamic aspects of Summer Session. Our goal for them is simple, but significant: to enable them to experience first hand the intellectual challenge of University life by living on campus and participating in lower division courses with college students. We know that all concerned will be kept on the qui vive!

To the members of the NSF Institute in Mathematics we extend an especial greeting. Your presence is a significant token of our common concern for continual improvement in the teaching of mathematics.

The attention of all persons in attendance in Summer Session is directed to the fine program of lectures, musical events, and films presented by the Committee on Arts and Lectures. Miss Barthels, the Supervisor of Recreation, has done an excellent job of planning a wide variety of events for you, your families and friends. Details may be found elsewhere in this issue of El Gauchito.

Once again let me urge you to call or visit the Summer Session Office, Room 115, Building 404, Extension 2275, if we can assist you in any way.

L.F. WALTON  
Director of  
Summer Session

The students have access to all university facilities, including residence and dining halls.

The conferences will include the following groups: U.S. Treasury Department Internal Revenue Service Management Workshop "A" from June 17-29; American Mathematical Society Summer institute, from June 17-30; and Southern California Youth Association, July 27-29.
