BY LINDA C. BLACK

FREE DELIVERY 961-1700

Check the day's rating: 10 is the easiest day, 0 the most challenging.

**Aries** (March 21-April 19)—Today is a 5—You're under a bit of stress this morning. A situation others might find simple has you tossed into a frenzy. It could be leftover tension from yesterday that's causing the problem. Heed a gentle friend's advice to settle down. Everything will work out well, and you don't have to make sure it happens. Let others take care of you for a change.

**Taurus** (April 20-May 20)—Today is a 7—You're in for a rude awakening. Something you thought you had all figured out may not go quite as planned. It may even backfire on you. Also, watch out for accidents caused by impetuous behavior. Not to worry. Everything calms down by dinnertime.

**Gemini** (May 21-June 21)—Today is a 5—You may have to turn down an invitation this morning due to a lack of funds. Don't despair. This might be just the motivation you need. Maybe you're not using enough of your natural talents. Remember the old line about finding a need and filling it? That's still a good way to make a fortune.

**Cancer** (June 22-July 22)—Today is an 8—Something you start around midday is practically guaranteed to succeed. Knowing that in advance, obviously you'll start as many things around then as possible. You'll also be good with words at that time. Don't be intimidated by a gruff character. Just relax. You'll wow 'em.

**Leo** (July 23-Aug. 22)—Today is a 5—There's an accident waiting to happen this morning and it wouldn't necessarily be your fault. Just because you're a good driver doesn't mean everybody else on the road is. Drive defensively. By the way, it's a good time to make sure you have enough insurance coverage.

**Virgo** (Aug. 23-Sept. 22)—Today is a 7—A meeting should go well this morning, after an initial hassle. The confrontation is about where to get the money. You get to be the moderator. Coax them out of the emotional level by presenting the facts over and over again.

**Libra** (Sept. 23-Oct. 23)—Today is a 4—You're looking sharp again today, but your patience may be short. Try not to get too irritated with an older person who has a tendency to whine. That's especially true if this person also happens to be the one who signs your paycheck. Stifle even the least little snide comment.

**Scorpio** (Oct. 24-Nov. 21)—Today is a 9—There's a bit of a hassle first thing this morning, but then conditions start to mellow out. By afternoon, you'll see the fruits of your labor begin to materialize. The idea you've been trying to bring about will turn out to be even better than you'd hoped.

**Sagittarius** (Nov. 22-Dec. 21)—Today is a 5—You were thinking that your goal was unattainable because you didn't have enough education. Now the education you're acquiring is making the goal look not only possible, but practically easy. Next, you need to confront whether you're actually willing to have a fantasy turn into reality.

**Capricorn** (Dec. 22-Jan. 19)—Today is a 6—If you want to attract the best person for you, tone down your approach a little. The one you need is a quiet, sensitive type. You have a tendency to get a little bit bossy. If you've got the perfect person in your life already, make sure to show your appreciation.

**Aquarius** (Jan. 20-Feb. 18)—Today is a 5—The difficulty you're facing isn't mechanical. That's the problem—it's emotional. No need to panic. Just remember to be sympathetic. If you can't muster that, at least listen patiently. Then suggest that the job be completed. It's worth a try.

**Pisces** (Feb. 19-March 20)—Today is an 8—You'd like to do something very special for a loved one this evening, but you're afraid of the cost. Don't worry. You're feeling extravagant, but you also have natural inhibitors that will prevent you from going over budget. Everything will work out well.

**Today's Birthday** (March 6). You're lucky in love this year, although at first it might not look like it. Your dreams are strong in March, but your money is short in April. Tilt the love finds a way by July, so don't give up hope. Do what needs to be done in September to maximize your natural talents. Education is probably required. Studying will be easier in November, and by December you may have graduated. You'll certainly be at a different level by then. By February, everything starts falling into place. You've got a security you'd never thought possible before. Just do what's required within the system to keep from being too confining. Don't let them stifle your creativity. That's your strong point.
