

POLY ILLEGAL CAST PROBE CLOSED

UNIVERSITY OF CALIFORNIA

El Gaucho

SANTA BARBARA

Vol. XXXVIII

GOLETA, CALIFORNIA, FEBRUARY 5, 1959

No. 26

FACULTY BODY CAN FIND 'NO DIRECT EVIDENCE'

by Bruce Loebs, *El Gaucho* Editor

The case of the Cal Poly Cast is closed. After studying the matter thoroughly, the UCSB Faculty Athletic Committee terminated further investigation because of lack of direct evidence. (See editorial, Page 8.)

In a prepared statement to *El Gaucho*, FAC chairman Walter H. Muller stated:

"The Faculty Athletic Committee has carefully examined all of the evidence concerning the possible use of dangerous equipment in football games and has contacted various persons involved.

"Since there was no direct evidence that such equipment was worn in the game, there was no alternative but to accept the explanation offered by Coach Roy Hughes of the California State Polytechnic College."

Cast Found Nov. 22

The investigation was started two months ago with the finding of a plastic Castex arm cast in the Poly dressing room after the Nov. 21 game.

The cast has been described by Athletic Director Wilton M. Wilton as running from the knuckles to the elbow, "sharp as a razor blade. Sharp enough to cut a jugular vein or put an eye out."

CCAA Meeting

The matter was brought before the CCAA winter meeting at which time the Poly head coach and athletic director, LeRoy Hughes, sharply denied the charge. Hughes said the Poly team physician cut the cast off before the game. The CCAA officials accepted this explanation.

The FAC continued to study the case before concluding that it lacked enough direct evidence to file a formal complaint.

In other developments surrounding the affair:

Hughes Visits Campus

1. Coach Hughes visited the UCSB campus Jan. 16. He conferred with Dean of Students Lyle Reynolds and Dr. Stephen Goodspeed, Special Assistant to the Chancellor on Student Affairs.

According to Dr. Goodspeed, Hughes wants a retraction printed to an article on the cast affair which appeared in the Santa Barbara *News-Press*. Hughes showed Goodspeed and Reynolds an affidavit signed by the Poly team physician, Dr. James, stating that he had personally taken the cast off the arm of Mustang guard Willie Hudson before the game.

Asks for Apology

Hughes explained to Goodspeed and Reynolds that he had been embarrassed by the *News-Press* story and asked for an apology. Goodspeed told *El Gaucho*, "the word apologize wasn't used, but Dean Reynolds said he was sorry the incident had occurred. It was tantamount to an apology."

Athletic Director Wilton and FAC Chairman Muller were not present at the meeting with Hughes because of a mixup in the time of the meeting.

Game Films Viewed

2. Films of the game reveal *Gauchos* tackle Ralph Scales being struck in the mouth by a Poly player. According to Dr. Art Gallon, head basketball coach and member of the FAC, it could not definitely be ascertained whether or not the Poly player wore a plastic cast.

According to Gallon, Head Football Coach Ed Cody and Wilton, the Poly man wore tape of some kind on his hand, but not necessarily the cast.

Telephoned Warning

3. Graduate Manager Bob Lorden received a phone call the evening of the game from a Santa Barbara businessman informing him that he had heard two people say a Cal Poly lineman used a cast in the San Diego game against San Diego players.

Lorden relayed the message to UCSB equipment manager Wilbur Hillis. Hillis informed one of the game officials about the phone call. Dr. Muller stated that the headlinesman, field judge and referee had been contacted and questioned on the matter.

The referee said he had checked a few Poly players and found nothing illegal. The field judge and headlinesman are not concerned with equipment during a game. (Continued on page 8, col. 4)

DISCRIMINATORY CLAUSES EXTINCT

Recent Check Shows S.B. Without Racial, Religious Articles; All-U Conference Held

UCSB is free of Greek organizations that have discriminatory clauses in their constitutions. Reversing an earlier report that two fraternities on campus had such clauses, Dean of Men and IFC advisor John Groebli announced:

"Upon examination of more recent constitutions I found that only one house has such a discriminatory clause. After talking to the faculty advisor of that house I discovered that they no longer have the clause."

Dean of Women Helen Keener who acts as advisor to the Panhellenic Council announced earlier that no UCSB sororities have discriminatory clauses.

Brown's Decision

The checking was prompted by a Jan. 2 decision by former Attorney General, now Governor, Edmund G. Brown. Brown declared that a state-supported university cannot recognize a Greek organization with such a clause if the fraternity is regulated by the university.

Greek organizations on this campus are regulated by the Associated Students and the University in a number of ways.

Berkeley Conference

In other developments, a meeting of Chancellor's representatives of the branches of the University was held in Berkeley last week to discuss the Brown decision.

Dr. Stephen Goodspeed, Special Assistant to the Chancellor on Student Affairs, attended the session from Santa Barbara.

Goodspeed was not able to discuss the full details of the meeting. "The situation was thoroughly discussed. No final decisions or conclusions were reached. Santa Barbara's situation was explored. The President will make recommendations to the Board." (Continued on page 2, col. 1)

Committee Chairmen Selected for Camp

Committee chairmen for next fall's Frosh Camp have been selected, announced camp chairman Sally Richards.

The selections were made after applications were submitted. The new chairmen are: Discussions, Kitty Joyce and Roz Rubidoux; Assemblies, Sue Swift and Ron Largent; Housing, Joan Lund; Registration, Margo Draper and Pat Hansen.

Recreation, Bruce Patterson and Hal Jones; Program Co-ordinator, Dennis Naiman, and Assistant Director, Dave Quisling.

The first meeting of the new chairmen will be held Thursday, Feb. 12, at 3 p.m. in the Student Union Conference Room.

'El Gaucho' Editors Resign Jobs; Many Staff Posts Open

Four top *El Gaucho* editors have resigned, it was learned Monday. Arlen Collier, News Editor; Kerry Gough, Editorial Director; Jerry Robbins, Sports Editor, and Stan Aspitte, Assistant Feature Editor, all submitted formal resignations to the Press Control Board.

As a result of the surprise action, *El Gaucho* Editor Bruce Loebs announced applications are now open for all of the posts except Feature Editor. Jerry Bradley, who shared the feature job with Aspitte, will continue alone in that capacity.

Difficult to Fill

"It will be almost impossible to fill the open positions with persons of the caliber of Collier, Gough, Robbins and Aspitte," stated Loebs. "I urge any student who has some journalism experience to apply for the jobs."

The resigners gave different reasons for the action. Collier and Gough are compelled to take classes which would seriously conflict with their work on the paper.

Remain on Staff

In their resignation letters to PCB, Collier and Gough said they will remain as editors until "an adequate replacement" can be found. However, both men will be unable to work on the Friday issue of *El Gaucho*. Both will remain on the *El Gaucho* staff during the semester.

Robbins and Aspitte are leaving school. Robbins plans to work for the Postal Department in the Los Angeles area. Aspitte is contracted to write a novel, and will devote his time to working on the book.

Council Fills Jobs

The news editor, editorial director and sports editor posts must be filled by Legislative Council. This is a new policy which has been in effect only this year. Applicants are interviewed by the Press Control Board.

Adams Blood Drive Scheduled March 12

March 12 has been set as the date for the annual Larry Adams Blood Drive. Blood donated during this drive goes to Larry Adams, a hemophiliac and 1958 graduate of UCSB as well as to a reserve blood fund for UCSB students and faculty.

All students over 18 are eligible to donate but students under 21 must have a permit slip signed by their parents.

After obtaining the parents' signature, the permits should be turned in to living-group presidents and the Graduate Manager's office.

The Charities Committee will contact all living groups to provide further explanation concerning the drive.

Adams was selected as co-winner of last year's AMS Award for Outstanding Service to the University.

(For permit slip see Pg. 3)

Hollister Awarded Haynes Fellowship

A \$750 Haynes Fund Summer Fellowship Award has been given to Dr. C. Warren Hollister, a member of the UCSB history department, it was announced by Dr. Elmer R. Noble, vice chancellor.

This award is given to an instructor who wishes to have the summer free from teaching and other employment to complete the writing of a significant research manuscript.

Probation Students Meet With Deans

All students on scholastic probation during the spring semester are requested to meet with the Dean of Men and the Dean of Women Friday, Feb. 6, at 11 a.m. as follows: Men C1004 (Classroom Auditorium), Women S1100 (Science Auditorium).

'THE HUMAN SITUATION' HUXLEY LECTURE TOPIC

"The Human Situation" will be the topic of the weekly lectures given by visiting professor Aldous Huxley starting next Monday at 4 p.m. in the UCSB auditorium. With the exception of the academic holiday on Feb. 23, Huxley will deliver eight more lectures on consecutive Mondays at the same hour.

Huxley will also conduct a weekly seminar on Tuesdays which will be open to students selected from among those with a high academic standing by a committee of faculty members.

Prolific Author

The author of more than 20 books, Huxley was born in England in 1894. He is the son of Leonard Huxley and grandson of the famed biologist, Thomas Huxley, and the grandnephew of Matthew Arnold. His brother, Sir Julian Huxley, is a distinguished biologist.

He was educated at Eton and Balliol College, Oxford, where he took a degree in English literature. He had originally intended to become a physician, but he was stricken with serious eye

GREEKS SHOULD WITHDRAW FROM A.S. -- WILLIAMS

Fraternities and sororities should withdraw from the Associated Students and seek recognition from the University only, believes "Bo" Williams, Inter-Fraternity Council president in 1957-58 and IFC vice-president in 1956-57.

When fraternities and sororities are recognized by the AS they are placed under AS rules and regulations. "But they have their own rules and regulations and judicial system; those of the AS are superfluous," Williams said.

Fraternities don't benefit from being under AS rules and regulations, according to Williams. The benefits derived through recognition by the AS do not compare favorably to the greater benefits the AS receives from the fraternities and sororities, he said.

"For example," Williams continued, "the Greek organizations put in the best floats in the Homecoming Parade. They make the parade."

"It's the same with the Spring Sing. It started as a Greek function. Now it's open to all living groups, but without the fraternities and sororities it wouldn't be a success. Most of the awards go to the Greeks."

The main reason for having recognition by the AS is because without it the Greeks couldn't participate in AS activities.

"But without the Greeks the AS couldn't have these functions, at least not on the same scale," Williams stressed.

Williams listed permission to participate in AS activities and the privilege of using University facilities for Greek-sponsored functions like the "Playboy Dance" as the main benefits fraternities and sororities gain through AS recognition.

Williams emphasized that these were just his opinions, and that he was not trying to start a crusade for Greek withdrawal from the AS.

trouble at the age of 17 which left him nearly blind for two years.

Studied In Braille

During this period he continued his education under private tutors and by extensive reading in Braille. In 1913 he could see well enough to continue at Oxford, where he published his first books—two volumes of verse.

Following World War I he did a great deal of journalistic writing for a variety of newspapers and magazines, including *Athenaeum*, *Vogue*, *Vanity Fair*, *House and Garden*, the *London Mercury* and the daily *Westminster Gazette*, for which he wrote dramatic and, later, music criticism. (Continued on page 3, col. 3)

NOTED AUTHOR ON CAMPUS . . .

"BRAVE NEW WORLD"—Aldous Huxley is being brought to the campus as a visiting professor during 1959. The cost of the visiting professorship is supported jointly by the University and the Citizens' Advisory Committee for UCSB. He will give nine lectures on campus this semester.

A.S. INSURANCE PLAN AVAILABLE

The Accident and Sickness Medical Expense Plan, a voluntary program designed to supplement the UCSB Student Health Service, is being offered to new students as well as those who did not purchase the policy in September, announced Graduate Manager Bob Lorden.

The plan has been subscribed to by over 600 students. According to Lorden many married students obtained coverage for their wives and children as well as maternity care.

The policy costs slightly more than \$1 per month on an individual plan and will be effective until September 15, 1959. The plan gives coverage for accidents and hospital expenses when the student is away from the campus on weekends, spring recess, and during the summer vacation.

More information regarding the policy can be obtained from Florence Fong in the Graduate Manager's office. The plan, which sells for \$8, will only be offered the first month of the spring semester.

Lorden stated that the Chancellor's office, the Dean of Students and the Director of Student Health have endorsed the principle of this Associated Students insurance plan.

Greek Story . . .

(Continued from page 1)
the Regents sometime in the future."

UCSB Situation

In further explaining the local situation, Dean Groebli said, "I personally do not know of any case where a boy has been refused membership in a local fraternity because of race or religion. I have talked to kids who were wondering about it."

Asked what he would advise a non-Christian, non-Caucasian boy to do to enter a fraternity, Groebli declared, "I would suggest that he sign up and go through the rushing procedure like anyone else. I have no doubts that he would be admitted. I have enough faith in our fraternity groups on this campus to feel they will pick their members on an equal basis if they are permitted to do so by their nationals."

Social Status

There have been reports that two fraternities, Kappa Sigma and Sigma Phi Epsilon have members who are only permitted social status, not full status, because of race or religion.

Gil Romoff, President of Kappa Sigma, told *El Gaucho*, "In this case the man doesn't want to be in the fraternity. He has asked to be a social member. I think he could be a full member if he so desired."

Ron Miller, President of Sigma Phi Epsilon, stated, "The IFC is going to make a statement on this question. This statement will probably answer the question. I would rather not answer it at this time."

Social members of fraternities are not allowed to go through the ritual or vote at secret meetings. They are usually not permitted to wear fraternity pins.

According to the most recent information available only 10 of 62 national fraternities have discriminatory clauses in their constitutions at the present time.

Foreign Scholarship Deadline March 1

Competition for a scholarship offered by the American Committee on United Europe to attend the 1959-60 session of the College of Europe at Bruges, Belgium, is now open to American college graduates.

March 1, 1959, is the deadline for scholarship applications. Applicants must be United States citizens, under 30, single, able to speak French and have a bachelor degree by October 1959.

Two Men's Rep Jobs Open; Signups Close February 12

To fill vacancies in the Non-affiliated Men's Representative and Men's Representative-at-Large positions, Carolyn Jones, Vice President and Chairman of the AS Election Committee, announced that sign-ups would begin Thursday, Feb. 5, in the AS office and end Thursday, Feb. 12, at 4 p.m.

Some observers of Associated Student government feel that these elections will have important consequences for next semester's Legislative Council. Not only will these two positions have votes but also will entitle their holders to places on Associated Student committees.

\$100,000 Budget

The spring term of Council is also the period in which members vote on the \$100,000 budget.

The candidate elected to the office vacated by Frank Rath, present Non-affiliated Men's Rep, will be the third person this year to hold this title. This post was created last year by a constitutional amendment and it has thus only been in operation for one semester.

Last spring there were no candidates for the post, and Neil Kleinman was appointed acting Non-affiliated Men's Rep after receiving some write-in votes during the election.

Rep Rath Retires

In October of 1958 Rath was elected in a closely contested campaign. He must now retire because he is moving on campus.

The duty of the Non-affiliated Men's Rep is to serve as the spokesman for men living off campus and not affiliated with any fraternity. To be eligible a man must be unaffiliated himself.

McKeever Quits, Too

The position of Men's Rep-at-Large was held this past semester by Vic McKeever, who had to resign for personal reasons.

He was also a member of the Finance Committee, from which he resigned after leaving Council. The Men's Rep-at-Large can be any male in the Associated Students; his function is to represent all students on Council.

Constitution Tests

Constitution tests must be taken by all candidates for Associated Student offices. The test will be given Thursday, Feb. 12, at 4 p.m. in Building 431, Room 101.

Elections will take place Feb. 19 and 20. Miss Jones stated that there might be other office openings due to grade deficiencies by present holders.

Registration Begins Today; Check-List, Hours Announced

Spring semester registration begins this morning at 8:30 and continues Friday morning, with approximately 2,620 students expected to enroll. This is about 102 less than the fall enrollment. Instruction begins on Monday, Feb. 9.

Admittance to the gymnasium for registration will be allowed after presentation of:

A. Counseling card approved by faculty advisor.

B. Fee receipts. There will be no changes in fees except for those students who did not pay fees in cash last semester. They must obtain a waiver form from the Controller, Dean of Students, Director of Students, Director of Student Teaching, Personnel Office, or Registrar. Fees are paid at the Cashier's office, Building 427. The \$15 Student Body fee is mandatory of all regularly enrolled undergraduate students.

C. Statement from the Student Health Service for new or returning (after absence) student. Continuing students should check the lists posted in the Health Service Building and the Student Union bulletin board to see if physical exams are required.

D. Other requirements for new and returning students are listed on pages 8 and 9 of the "Schedule of Classes and Directory" for spring, 1959.

This morning registration includes Upper Division and graduate students (60 units and above): 8:30 D through H; 9:00 I-M; 9:30 N-R; 10:00 S-U; 10:30 V-Z; 11:00 A-C.

Freshmen students (0-29 units) register this afternoon in the

following order: 1:00 Honors at Entrance; 1:15 V-Z; 1:30 A-C; 2:00 D-H; 2:30 I-M; 3:00 N-R; 3:30 S-U.

Sophomore students (30-59 units) register Friday: 8:30 N-Z; 9:00 A-H; 9:30 I-M.

Fall semester grades will be available all day today and until noon Friday in Building 421, Room 110. After that they can be picked up at the Registrar's office.

Film Series Starts

"The Beginnings," a Museum of Modern Art Film Library compilation of early short films, will be shown as the initial program of the Department of Speech spring film series on Wednesday, Feb. 11, at 7:30 p.m. in the classroom building auditorium. There will be no admission charge.

dear susie;

hi there, thought i'd drop a line to see if your still among the living, finals have a delightful way of making you wonder the worth of it all. well enough of that dreary subject.

first off, I want to extend a word of welcome to all new students, i am your lou rose, mademoiselle campus representative and i'm always ready to aid you with your fashion problems, and to tell you whats new at the l.r. college annex.

in as much as valentines day and all the parties, dances that go with it are but around the corner, i thought i'd describe a few of the lovely creations that have just arrived at the annex.

one little number that is sure to be an eye catcher is a silk organza, full skirt with a sun burst fan pleated top, its shown in powder blue, coral and turquoise, the price only 29.95.

the other i have in mind is a white cotton lace sheath over taffeta, empire waist, it has matching taffeta streamers to provide back interest. the available color selection is just tremendous—powder blue, aqua, pink, mint and yellow, the price here too is 29.95.

of course, i've barely scratched the surface so for that approaching party or dance, remember the l.r. annex.

attention spring and summer brides, we have a lovely collection of dresses that would be most appropriate for your attendants, and the best part of all—we can order to meet your color needs.

well susie, i guess that about wraps it up for another fortnight. as before, i'll be in the annex every saturday, please drop in and see me, i'd just love to show you our latest fashions. until you hear from me again, i remain

your annex rep.

THE COPY CAT...

By Pattie Gower

KIST's deejay on "Jazz Incorporated" doesn't know much about jazz, but he spins an occasional side by Mort Sahl, and, of late, some loaded satire by Elaine May and Mike Nichols, which makes the show worthy listening!

It seems that property owners in Isla Vista could be putting their lots to better use, especially in the Embarcadero del Norte - Embarcadero del Sur area. The shopping center site in the U would be an ideal recreation center—volleyball courts, shuffleboard, picnic tables, and room for water fights—with the frat row on Del Norte and the sorority row on Del Sur. But, looks like this will never be. Some sororities are eyeing property in the More Mesa vicinity south of campus, but single - residence zoning and building restrictions may rule that area out and keep the Greeks west of the college.

SUGGESTIONS: Someone (someone with nothing else to do, that is) ought to take a survey to find out who makes better pizza—Mom's or Petrini's. The Petrini brothers win our vote; how 'bout yours? . . . STOP! That's what the red sign at the bottom of the hill leading off campus says, but in our opinion, it ought to say YIELD—if anything.

ARLEN COLLIER, if all goes well, is putting in an espresso coffee house in Goleta. But he can't think of an appropriate name for it. Drop by the *Gauche* office with any suggestions. We hope it will be more imaginative than Grand Avenue's "The Place."

Airport officials, we've been told, want to extend a runway across Fairview Avenue. Have they forgotten that the planes will be landing just a few feet away from the residential area, shopping center and the elementary school? . . .

To all new students, a big WELCOME TO UCSB. Happy registration, physical exam, psychological testing, etc. See you in the SU. . . To the old timers, let us know the latest news on pinnings, engagements and marriages . . . parties too!

HUXLEY . . .

(Continued from page 1)

Huxley's first book in prose was a volume of short stories, "Limbo," soon followed by a short novel, "Crome Yellow." In 1921-26 he lived in Italy and later in the south of France. His works, "Antic Hay," "Those Barren Leaves," "Point Counter Point" and "Brave New World" were the products of those years.

Extensive Traveler

During the next decade he took two extensive trips resulting in two travel books, "Jesting Pilate" and "Beyond the Mexique Bay." In 1937 he wrote "Ends and Means."

It was his eyesight, which was showing signs of failing com-

pletely, which caused him to stay in California following a visit in 1937. He found a practitioner of the Bates method of visual re-education who enabled Huxley to stabilize his sight.

Love for Desert

The outbreak of World War II found him still in California where he remained, living for several years in the Mojave desert. His love for the desert resulted in two essays published in a recent volume, "Tomorrow and Tomorrow."

While in the desert he wrote several volumes of essays, two novels, "Eyeless in Gaza," and, later, "Time Must Have a Stop" (which Huxley feels is, in some ways, his most successful novel), and two historical studies, "Grey Eminence" and "The Devils of London."

Huxley's most recent book is a study of the present threats to liberty, entitled "Brave New World Revisited."

GAUCHOS SCARE MIGHTY UCLA

Robbins' Nest

By J. R. Robbins, Sports Editor

BIG-TIME FOOTBALL . . .

The University of Southern California's athletic program took another setback in recent weeks with the NCAA imposing upon the Trojans another year of probation for their flagrant violation of the association's rules. With this ostracizing, SC's flaunted prestige, a vital factor for inducing prep players to a university, received more than a "setback."

Dissatisfaction, and justifiably so, amongst SC athletes has been reported in Los Angeles papers, since that university will not be able to enter any NCAA championships or participate in post-season bowl games in football. This additional year penalty could be the straw that breaks the camel's back when weighed with the other penalties—but of the many, it was the clearest violation. And it will leave SC's tennis, track and baseball teams, early favorites for NCAA titles, without a chance to prove their prowess.

Mistake? Deliberate Violation?

It's a pity that so many athletes will receive the brunt of the punishment, caused by several persons, whether the infraction was an honest mistake or made in knowledge of constituting a violation.

But in any case SC was guilty and a member of the Gaucho faculty is able to attest to the ruling.

Dr. Theodore Harder, a member of UCSB's physical education department and vice president at large for the NCAA, revealed the evidence that rested behind the NCAA's decision to Bob Magruder, Gaucho publicity director. This was the first time the evidence was released for publication.

A Gazette Scoop

Magruder's story was printed in the Goleta Gazette, and it is from this story that Paul Zimmerman, sports editor of the Los Angeles Times, learned the wanted facts last week concerning Ben Charles, the athlete involved. Zimmerman's truthful quip at the of the column read:

"P.S.: Like televised fights, it now appears the SC violations facts are only being blacked out locally."

Stipulated in the NCAA rules for colleges is the provision that a prospective athlete-student may visit a campus with the costs paid for by the hosting institution—but the college couldn't foot the bill if an athlete was already committed to that college.

This was the area for the infraction—Charles was in the lower fourth, scholastically, in his high-school graduating class and was advised by college recruiters to attend a junior college before being admitted to a four-year institution.

SC had already contracted Charles to enroll via Bakersfield Junior College—and provided that even if he was injured during his playing days at SC he would still receive the full legal grant-in-aid.

Harder's Explanation

Following is part of Dr. Harder's explanation of the penalty: "In subsequent letters written by (Al) Davis and SC alumni field secretary Nick Pappas, Charles was informed that he could come to Los Angeles at SC's expense on July 22, 1957, where he would be introduced to the staff at SC and to Homer Beatty, head football coach at Bakersfield College.

"SC argued that Charles had merely visited the campus as allowed by the NCAA, and had decided not to return after being contacted with an offer from the Bakersfield coach.

One-Way Ticket

"However, the letters introduced as evidence mentioned that Beatty would be present and all arrangements had already been made at Bakersfield. Also, the plane ticket, paid for by SC, had only been one-way."

The question of which institution—still unnamed—registered the complaint with the NCAA is not definitely unanswered. This writer received the rumor from a reliable source that the institution in question is Marshall College in Huntington, W.Va., unsuccessful in recruiting Charles due to SC's offer.

There it is, for the most part, and the penalty was justified in light of the circumstances. Perhaps it's all part of the problem of big-time football—a problem Gauchos won't fall prey to in the foreseeable future—UCSB hasn't the finances to be illegal.

Bruins Come Back to Win 63-59 After Trailing for 38 Minutes and 14 Points

For 38 minutes it looked like the UCSB Gauchos would do the impossible—defeat the mighty UCLA Bruins. But it didn't work out that way. The Bruins surged back from a 14-point deficit to edge the underrated Gauchos, 63-59, in the Westwood gym Friday night.

Had it not been for the Bruins' home-court advantage, the fact that Santa Barbara's leading scorer, Ed Haertel, missed the entire game because of an ankle injury, and a red-hot performance by UCLA's All-American candidate Walt Torrence, who hit 36 points, the Gauchos might have pulled off the biggest upset of the year.

"Terrific Game"

But Gaucho Coach Art Gallon has no regrets. "In retrospect we can look back and think about all the things we could have done differently, but the boys played a terrific game. We should be proud of them."

Santa Barbara was at least a 20-point underdog to the PCC-leading Bruins. The Gauchos have won only two ball games all season.

Led by 11 at Half

But the Gauchos weren't convinced. Using a tight zone and a fast break to good advantage, they built up an 11-point lead at halftime.

After the intermission the Bruins came back roaring, cutting the margin to seven points. But the Gauchos refused to fold and actually poured it on, leading by 14 points at one time.

"We know UCLA blows teams right off the court in the second half," stated Gallon. "They broke up our pattern of plays and got us unorganized. They are a quick-scoring team, and they cut our lead. We played conservative basketball in the second half."

Torrence Red Hot

Torrence hit 25 of his points in the second period. Frank Bennett paced the Gauchos with 21, and Dennis Nielson had 16.

"Ran Out of Gas"

"We just ran out of gas," explains Gallon. "But I am satisfied anytime we play as well as we did against UCLA. We really came together and played the kind of ball we are capable of playing. This should make us real tough the rest of the way."

Bruin Coach Johnny Wooden told Gallon after the game, "It was a tough one to lose, Art. Your kids played very well."

Swimmers Prepare For Opening Meet

Thirty-one students have announced their intentions for competing on the varsity and frosh swimming teams under the tutelage of Coach Frank Rohter for UCSB's second year of competition in the aqua sport.

With 10 meets scheduled for the season, Coach Rohter expects a strong showing in the conference because of the large turnout of swimmers and an increased swimming budget.

The first meet of the season will pit the varsity against the frosh in a tune-up for their first intercollegiate contest on Feb. 25.

Returning to bolster the team will be three veterans of the un-

Tennis Practice

Daily practice sessions for the varsity and freshman-junior varsity tennis teams will begin Monday, 3 to 5 p.m., on the tennis courts. All men interested in tennis should report to Mr. Thornton at that time. The 1959 varsity tennis team will open its season with Pepperdine College Friday, Feb. 13, in Los Angeles. On the following day it will meet Cal Poly (Pomona) in Pomona.

defeated four-man relay team of Henry Hill, Al Cibula and Rich Gunner. Warren Glasher receives the nod as the fourth man on the team.

IMPROVED GAUCHOS BATTLE BULLDOGS

GALLON FORECASTS WIN OVER FRESNO, ALCORN

by Bruce Loebs, El Gaucho Editor

"We have an excellent chance of beating Fresno."
—Art Gallon.

Almost conquerors of the mighty UCLA Bruins, the oft-beaten but rapidly improving UCSB Gauchos entertain the league-leading Fresno State Bulldogs in the National Guard Armory tomorrow night. Game time is 8 p.m.

Fresno, the defending CCAA champ, takes a 3-1 league record into the game. The Gauchos are 1-2 in league play.

However, Gaucho Coach Gallon refuses to concede that the Gauchos are out of the race.

"Not Out Yet"

"We aren't out of this race yet," predicted Gallon. "I know we are being counted out, but the team that wins the title this year will have at least two defeats. We have two now, which means we will have to go undefeated the rest of the way. We can do it."

Both the Gauchos and the Bulldogs come into the contest from tremendous efforts in their last games. The Gauchos sur-

CAPTAIN'S ADIEU...

JIM WAHLEN
Last Home Game

(Wahlen is not left-handed. The engraver goofed!)

prised everyone by playing the PCC-leading Bruins on even terms on the winners' court, leading by as much as 14 points before falling 63-59.

Fresno meanwhile clobbered previously undefeated San Diego State, 73-59, to move within a half-game of the pace-setting Aztecs.

Must Stop Alcorn

To win tomorrow the Gauchos must contain Fresno's 6'10" All-American candidate, center Gary Alcorn. Alcorn is currently third in the league scoring race with close to a 17-point average.

He made the California Basketball Assn. first team both as a freshman and a sophomore. Against faster competition in the CBA, Alcorn broke Bill Russell's league scoring record. Last year he made the CCAA first team, as well as All-American honorable mention.

Can Be Stopped

Gallon is not overly concerned with Alcorn's ability. "Alcorn has never hurt us too much," reveals the UCSB head man. "I fear Williams more than Alcorn, although I realize Alcorn will take the boards."

The Gauchos again will be forced to operate without the services of regular center and leading scorer Ed Haertel. He is out with a sprained ankle and is a doubtful starter.

Wahlen's Last

This will be the last home game for captain Jim Wahlen. The two-year veteran graduates in February. Bennett was red hot against UCLA, hitting 21 points and making him the top Gaucho scorer.

The Gauchos' lone CCAA win came over L.A. State. Los Angeles defeated Fresno by 13 points. Fresno's over-all record is 15-3, compared to Santa Barbara's 3-12.

Frosh Cagers Face L.A. Tech In Prelim

Seeking their fourth win of the season, the UCSB yearling basketball five meets Los Angeles Trade Tech in the preliminary to the Fresno varsity game tomorrow night at 6:30 in the Armory.

Frank Rohrer's frosh team currently has a 3-5 record for the year.

Tech plays four-year colleges as well as JCs and frosh squads. In its last game it lost a close 69-67 fight to Harbor JC.

Forward Pete Sachse is expected to pace the locals tomorrow night. The 6'2" freshman from Fallbrook is averaging 19.2 points per game.

Sachse has been bothered by a back injury and may not be in top form tomorrow.

The rest of the Santa Barbara starting lineup has Gary Erickson (6'3") at forward, Joel Verner (6'9½") at center and Dick Palmer (6'1") and Bruce Jones (6') at the guards.

Gauchos Top Aggies

Substituting freely, the Gauchos thumped the Cal Aggies, 94-59, in the Armory Tuesday night. Six Gauchos hit double figures. Frank Bennett with 15 and John McMillan with 14 led the scoring.

An Answer to the Pressures of Modern Living

To those troubled with the fears, tensions, and anxieties of modern living, Christian Science offers new hope and healing.

Men and women in all walks of life have found that spiritual understanding of God and man, as revealed in Christian Science, enables them to solve the pressing problems of daily life more successfully.

Learn what this can mean for you by attending this free lecture entitled:

"Christian Science Reveals Divine Love in Action" by Albert Clinton Moon, C.S.B., of Chicago, Illinois

Member of The Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

8:00 p.m.

Friday, February 6

Church Auditorium,

Student Art Exhibit Shows Several Noteworthy Pieces

by Neila Loebs and Colombe Leinau

A seldom-heard-about and almost-never-seen department of the campus, the Art Department, has reason to be proud of the current show in the campus art gallery.

The show displays a wide range of talent and technique. Work appears in forms ranging from sketches to sculpture, including photography.

Some pieces which warrant particular attention include a sculpture by Don Wright of a seated figure in cement.

A butterfly collage on a horizontal plane by Nick Borah is well rendered.

A watercolor with a nice feeling in greens, by Jeff Poklen, and a small free well-done drawing of a pig in brown by Don Lent also are outstanding.

Lent and Borah make a good showing in several media and almost dominate the show.

Other works which deserve credit are:

Sketches: Two figures in brown by Dick Phipps, an almost dramatic black-and-white bird by Bruce Marsh and a well-done figure by Mike Dvortsak.

Watercolor and collage: A simple watercolor with pencil of definite interest by Lent and a fine watercolor collage landscape by Borah.

Paintings: A small, vibrant, red-and-yellow canvas, which desires a little more honesty, to the figure, is unmarked. Also unmarked is an abstract from William Rohrbach's class distinguished by an orange incomplete circle which has nice color and balance in some sections.

Sculpture: A large plaster torso somewhat too angular but well done by Wright. Two baboon with a harmonious rhythm by Pat Sorensen. An unmarked wood sculpture of a male torso and two female torsos which seem to lack vitality, also unmarked.

Photographs: One with part of a gunnysack by Maureen McCartney and another of several trees with interesting light-and-dark patterns by Sorensen.

Included in the show are pieces from the classes of Howard Warshaw, William Dole, Rohrbach, Robert Thomas, Jacob Lindberg-Hansen, Howard Fenton and

some from the art education classes.

It is unfortunate that the work displayed is not properly labeled and some of the pieces are not framed to advantage. The show will remain in the gallery until the third week in February.

For some of the non-art majors, the gallery is located in the rear of Santa Rosa Hall and, of late, closely related to the growing dining commons now under construction.

A SECTION OF the currently exhibited student art show in the campus art gallery is pictured above. The show will remain through the third week of February. Covell Brown is the intent viewer. —Photo by Bob Quittner

Tjader Show Set; Tickets Available

"Jazz '59," a concert featuring Cal Tjader and his quintet, will be held Thursday, Feb. 19, in the campus auditorium, announced Sophomore Class President Ron Largent. The sophs are sponsoring Tjader's appearance.

The concert is open to the public. Tickets are now on sale in the Graduate Manager's office. Tickets will sell for the following prices: General admission at the door, \$1.50; students advance sale, \$1.25; sophomore students advance sale, \$1.

According to Largent, any profits from the event will be donated to the Student Union fund-raising campaign.

TV Class Continues

The second part of the Continental Classroom course in "Atomic and Nuclear Physics" will be viewed locally over KRCA-TV, Channel 4, on Monday through Friday from 6:30 to 7 a.m., starting Feb. 11. This is a nationwide television correspondence course in atomic-age physics which is being offered by the University of California Extension.

Auditions Scheduled

To obtain talent for the Alpha School Benefit a campus audition has been scheduled by the Charities Committee. The auditions will be held Feb. 9 from 2 to 4 p.m. and Feb. 11 from 3 to 5 p.m.

Grades Ready Today

Grades for all students registering for the spring semester will be available in Bldg. 421, Room 110, today from 8 to 12 and 1 to 4, and tomorrow from 8 to 11 a.m. After this they may be obtained at the Registrar's office.

Driver - Education Courses Available

With the approval of the Registrar's office, UCSB students may apply to take a course in "Procedures in Automobile Driver Training and Driver Education" from UC Extension.

Two units of credit may be earned from this course which meets on Tuesday evenings from 7 to 10 at Santa Barbara High School, 700 E. Anapamu, beginning Feb. 24.

Ten class meetings deal with procedures, techniques and materials for inaugurating and conducting driver-training and driver-education classes in the secondary school. The only prerequisite is possession of a valid motor vehicle operator's license.

This course, plus Health Education 105, entitles the student to the Special Secondary Credential in Public Safety and Accident Prevention Including Driver Education and Driver Training.

UCSB students taking this course must include it in their total course load and cannot apply the credits toward requirements for graduation. A special registration fee of \$25 is required.

Do You Think for Yourself? (ANSWER THESE QUESTIONS) AND YOU'LL FIND OUT!*

1. If you get stuck on a crossword puzzle, do you (A) finally refer to a dictionary, or (B) leave the puzzle unfinished?

A ☐ B ☐

2. Would you rather be (A) the designer of the first successful space vehicle to the moon, or (B) the first man to ride in it?

A ☐ B ☐

3. If you were faced with two tasks, one pleasant and the other unpleasant, would you first do (A) the unpleasant task, or (B) the pleasant task?

A ☐ B ☐

4. If you find you aren't doing well in an activity, do you (A) concentrate on it to improve your performance, or (B) devote your attention to things in which you do excel?

A ☐ B ☐

5. Would you prefer to play tennis with an opponent you know to be (A) not quite so good as you, or (B) a slightly better player?

A ☐ B ☐

6. In deciding whether to see a movie, are you more influenced by (A) what a casual friend tells you about it, or (B) what you know of the cast and story?

A ☐ B ☐

7. If you were a multimillionaire, would you rather have (A) everyone know it, or (B) only a very few know it?

A ☐ B ☐

8. Do you take more notice of someone's (A) good looks, or (B) good manners?

A ☐ B ☐

9. When making your choice of a filter cigarette, do you (A) act on the basis of what someone tells you, or (B) think it through for yourself?

A ☐ B ☐

If you're the kind of person who *thinks for yourself* . . . you use judgment in your choice of cigarettes, as in everything else. Men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

*If you checked (A) on three out of the first four questions, and (B) on four out of the last five . . . you really think for yourself!

Warshaw Commissioned to Paint Mural; 'Odyssey' Selected as Subject Matter

Howard Warshaw, assistant professor of art at UCSB and noted California painter, has been commissioned by the University to paint a large mural in the new UCSB Dining Commons, it was announced this week by Dr. Elmer R. Noble, Vice Chancellor.

The mural will be placed on an interior wall of the dining room measuring over seven feet high and 77 feet long, well lighted by the clerestory effect of the ceiling structure.

Warshaw is enthusiastic about this new mural project which will consist of a long, episodic scene.

Based on Homer's great classic, the "Odyssey," he conceives the mural as one continuous visual experience, establishing certain divisions but with the images passing across the divisions.

"This great humanistic theme allows freedom from exact images," Warshaw commented. "For example, there are no clear images of a 'Cyclops' or of the 'gods' and 'goddesses,' which gives many imaginative opportunities."

He feels that the Odyssey as a theme is in keeping with the academic spirit of a university campus. And he made it clear that this would not be a journalistic presentation.

Working with him will be three promising young UCSB art students — Donald Lent, Bruce Marsh and Harry Batlin.

Japanese Translate Hardin's Textbook

Dr. Garrett Hardin, professor of biology, reports that his textbook, "Biology: Its Human Implications," has been translated into Japanese. The Japanese script requires two volumes while the text in English is only one volume.

Dr. Hardin's biology text is used in colleges across the United States and in Canada, Australia and South Africa.

INFORMAL RUSH SET BY IFC

There will be no formal fraternity rushing during the spring semester, according to Charles Haral, public relations chairman of Inter-Fraternity Council.

A sign-up sheet will be posted in Dean Groebli's office during the first few weeks of spring semester for those men interested in becoming acquainted with fraternity life. Fraternities will contact those who have signed up and will invite them to their various functions.

Thomas Has Statue In UCLA Exhibit

Robert Thomas, assistant professor of art at UCSB, is showing his 7-foot statue, "Orpheus," at a special invitational exhibit of California painters and sculptors at the Dickson Art Center in Los Angeles.

This show, which will continue through Feb. 22, is sponsored by the UCLA Art Council. Thirty-five painters and 10 sculptors, all under 35 years of age, were invited to contribute specific works. Thomas's "Orpheus" was picked by Jules Langsner and lent for this show by the Esther Robles Gallery.

The 34-year-old sculptor recently won first prize at the 18th annual Invitational Art Exhibit of the Chaffey Community Art Assn. for "Orpheus and Eurydice," another 7-foot statue made of welded steel. Thomas is a UCSB graduate.

Arts Home Opens in March; Lautrec Exhibition Planned

UCSB's new Arts Building, designed to house both the Fine Arts and Industrial Arts departments, will be ready for occupancy in March, according to Robert E. Floyd, UCSB's planning engineer.

At this time the heavy equipment of the Industrial Arts department on the Mesa campus is being moved into the new \$1,972,000 building, the largest building on campus, covering more than 100,000 square feet. The IA department has arranged to schedule a good many of the required lecture classes for its students during the first part of the spring semester so that equipment moving does not interfere with the academic program.

The building consists of two separate pairs of structures, one for each department, and connected by covered walkways. Most of the structure is two stories, although some parts are three. One section extends over the edge of the bluff bordering the northernmost point of the campus lagoon.

The fine arts section contains watercolor, oil painting, crafts, lithograph drawing, design, sculpture and ceramics studios.

There is also a gallery which, according to Dr. William Dole, chairman of the Art department, will make an extensive difference in what the department can contribute to the cultural life of the University as a whole.

The opening exhibition may feature Toulouse Lautrec posters, according to Dole. Other exhibits of similar quality are planned for the future, Dole said.

POLY CASE -- 2 & 2 EQUALS 3 1-2...

Now that the Cal Poly Cast case has officially been closed by the Faculty Athletic Committee, two definite conclusions can be drawn. (For complete story see Page 1.)

- 1) Santa Barbara was justified in conducting the investigation.
- 2) The matter, at the outset, was poorly handled.

The Cal Poly student newspaper is 'way off base when it infers UCSB is using this case as an excuse to sever athletic relations.

There can be no question about the legitimacy of UCSB's right to investigate. In fact Santa Barbara officials were obligated to do so.

The finding of the cast itself got things under way. The statement by the San Marcos High School janitor who said he had thrown away numerous scraps of similar material caused suspicion.

The Call and the Cut

The question of the feasibility of a man wearing such a cast for protection off the field and then having it removed for a football game was raised.

The telephone call to Graduate Manager Bob Lorden, warning him of the use of such a device by Poly, could not be ignored. The unusual cut received by Gauchos tackle Ralph Scales during the game caused some concern. This evidence more than justified a detailed investigation.

Cast Could Inflict Damage

Whenever there is any question that the physical well-being of an athlete might be endangered, everything should be done to uncover the facts. This was what the Faculty Athletic Committee did. The cast, if it was ever used, could certainly inflict terrible damage.

But the investigation got off to an unfortunate beginning when UCSB officials brought it before the winter meeting of the CCAA. According to Athletic Director Wilton, Coach Cody wanted the matter brought up then, but did not make the cast available. Wilton also states that Cody was in Chicago on business and not able to present the case to the CCAA officials.

Wilton, Cody Differ

Wilton and Cody differ on this story. Cody says he was initially alarmed over the matter, but after thinking about it more carefully concluded that Santa Barbara did not have enough evidence to bring it before the CCAA at that time. He says he left for Chicago with the impression that the matter would not be discussed.

Wilton contends that since the item was on the agenda it was too late to do anything but discuss it. Cody replies that simply because it was on the agenda doesn't mean it had to be discussed; it could have been tabled.

UCSB Embarrassed

Aside from this misunderstanding, Santa Barbara was thoroughly embarrassed at the CCAA meeting. We had no evidence to support the charges. UCSB lost face. Cal Poly was able to explain its side of the matter. Coach LeRoy Hughes did so very effectively.

Hampered by the premature action at the CCAA session, Dr. Walter Muller and the Faculty Athletic Committee set about fitting the pieces together. They did a commendable job. They added two and two and came up with three and one-half. "No direct evidence" was the verdict.

The case is closed. Nobody around here seems convinced.

ATHLETES JOBS AVAILABLE...

In an editorial of Tuesday, Dec. 16, *El Gauchos* explained one serious phase of the athletic problem currently under study on this campus. We are operating under false pretenses in the California Collegiate Athletic Assn.

We enter our teams in the league but don't begin to give them enough financial support to compete on a near-even basis with the rest of the schools.

No Scholarships — Few Jobs

Most other league schools (Fresno, Cal Poly, L.A. State, Long Beach and San Diego) are able to give \$500-per-year scholarships plus numerous jobs paying a maximum salary of \$85 a month. UCSB has no athletic scholarships and, at the moment, about five on-campus jobs for athletes paying considerably less than \$85 a month.

El Gauchos made the point that we either get out of the CCAA or begin to operate like a CCAA team. The paper suggested that since, for the immediate future, we are obligated to the CCAA, we begin to at least offer more on-campus jobs to athletes. We were told that this would be next to impossible to accomplish.

Thomson Agrees on Jobs

Last Friday *El Gauchos* conferred with Business Manager H. S. Thomson on this very subject. After some discussion Thomson agreed that there is no reason why we can't offer more on-campus jobs to athletes. He said it would be possible to break up a normal eight-hour job among four athletes, each working two hours.

Thomson's primary concern is that the athletes do the work expected of them. Coaches Cody and Gallon have repeatedly stated that they can assure efficiency by the athletes.

Only Details Remain

All that remains then is the specifics. Thomson is perfectly willing to sit down with Athletic Department officials and work out a definite plan.

A question that is often raised by students and faculty is, why should the athletes be granted special privileges in this respect? *El Gauchos* will attempt to supply the answer in future editorials.

In the meantime it appears that one step towards solving the "big athletic problem" has been taken.

'El Gauchos' Probes Housing Problem In Isla Vista Area

by Gough and Collier
El Gauchos Editors

(Editor's Note: This is an introductory article to a series concerning off-campus housing for UCSB students. The focal point of the series will be Isla Vista.)

Isla Vista is rapidly becoming a college community. In its present transition from farm land to a student residential area many problems are arising. Some of these problems, to be discussed extensively in future issues of *El Gauchos*, are now becoming evident.

Already one problem, that of rent and quality of facilities, has been called to the attention of *El Gauchos* by students living in the area. With a brief afternoon's exploration of the community, talks with various apartment-house owners and a visit to the UCSB Housing Office, the reporters discovered other problems.

One concerns the parking situation. The county building code requires only one off-street parking space per apartment. However, when four college students share an apartment there are usually two or three cars per apartment. The result is the crowding of streets with parked cars.

Another question concerns the Isla Vista Improvement Assn. What is its role in the growth of the area? What does the organization plan to do to help improve Isla Vista? *El Gauchos* plans an interview with Miss Ada Bowers, president of the association, to answer these and other questions.

Another problem deals with the expected growth of the area, in both the aspect of residences and the need for conveniently located businesses to serve the residents.

The economic factor that has contributed to the change of Isla Vista from a family residential area to predominantly a student community will also be discussed.

Poly Cast Case

(Continued from page 1)

game. The umpire has not been available for comment.

Athletic Director Wilton informed *El Gauchos* that Coach Hughes told the CCAA officials at their meeting that one of the officials had witnessed the cutting off of the cast before the game.

Coach Cody did not learn of the phone call until several days after the game.

Poly Dean Upset

4. Gallon reported he had spoken to Poly Dean of Students Everett M. Chandler about the case last week before the Poly-L.A. State basketball game. Gallon said Chandler told him he had witnessed the cutting off of the cast before the game.

Gallon added that Chandler was quite upset with the investigation being carried on at Santa Barbara.

5. The Cal Poly student newspaper, *El Mustang*, has stated that UCSB is using this case as an

excuse to break off athletic relations with Cal Poly.

The Jan. 16 edition of "El Mustang" quoted Coach Hughes as saying, "The way it's being handled reflects on my professional integrity, both as a coach and athletic director. Furthermore, when I have to resort to illegal equipment to win football games, I'll take a job delivering milk."

Coach Cody, in commenting on the case, stated, "I accept Hughes's explanation. Hughes and I are the best of friends. We talked about this over a cup of coffee in Cincinnati several weeks ago."

The Faculty Athletic Committee has officially informed the Cal Poly officials that the case has been closed.
