

WHISKERS GROW; 'COAST' NEARS

LES BROWN
"Band of Renown"

With only a few days remaining, last-minute preparations for this year's Barbary Coast are being made at the new location, to the seaward side of the Science Building.

Activities will start at 6:30 Friday evening, with judging of the booths and shows to be done both Friday and Saturday nights, a new feature of this year's Coast. Townsmen will do the judging. Saturday will be "Kiddies Day" on the Barbary Coast, and things will get under way at 1:30 Saturday afternoon. Judging for the Whiskerino contest, evidences of which have been seen around the campus for the past few weeks, will be done at the barker's stand

at 9:30 p.m. Saturday. Judging of the booths and shows will be done by persons having no connections with the college and experienced in the entertainment business, emphasized Duke Mitchell, this year's Barbary Coast chairman.

Winding up the festivities Saturday will be a dance in the student auditorium. Les Brown and his "Band of Renown" are providing the music. Tickets for the dance are on sale at the graduate manager's office at \$1 apiece. Bob Lorden, graduate manager, emphasized that there is a limited number of tickets available.

Included among the shows participating are: Sigma Alpha Ep-

silon with "Barbary Coast SAE-loon," Pi Beta Phi with "Barbary Coast After Dark," Sigma Phi Epsilon with "Barbary Coast Pirates Go To School," Delta Gamma with an "opera," and a skit with a Cinderella theme by Alpha Phi.

Booths this year include: A tattoo booth, a sail to a port of fortune, mock marriages, peep shows, old-time movies, a pie-throwing booth, a seance parlor, a hidden-treasure search, a tower of strength, a sling-shot booth and a jello-throwing booth. Announcements of the winning booths and shows will be made at the intermission of the Saturday-night dance.

According to Mitchell, the appearance of the Barbary Coast will be closer to a "town" atmosphere this year than in the past. False building fronts will aid the illusion.

Money taken in by organizations participating in the Barbary Coast will be split as follows: 65 per cent to the organization, 30 per cent to charity, and the remaining 5 per cent will be used to cover operating costs.

The Les Brown band, since forming in 1940, has consistently won magazine popularity polls, including those conducted by *Billboard*, *Downbeat*, *Metronome* and the National Ballroom Operators of America.

In addition to recording for Columbia records, Brown and his group have been a part of the Bob Hope radio and television shows since 1946. The band also went along on Hope's tours to military outposts scattered over the globe. Brown is a graduate of the Ithaca Conservatory of Music, the New York Military Academy and Duke University. During his first two years at Duke, Brown played tenor sax with the Duke "Blue Devils," becoming leader in his junior year. Besides leading a band, he has done some composing. Perhaps his most famous brainchild is "Sentimental Journey."

QUEEN JOAN AND COURT REIGN AT JR.-SR. PROM

Combining a look of happiness and royalty, Joan Strand descended the stairway at the Coral Casino last Friday evening to ac-

cept the crown and bouquet of red roses symbolizing her regal office, "Queen of the 1958 Junior-Senior Prom."

Senior Class President Bill Tice did the honors of officially bedecking Queen Joan with her tokens of office. The crowning highlighted the intermission activities, and, in fact, the whole evening, at the "Moonmist and Melodies" dance.

Mary Congdon and Artie Deutermann were crowned princesses prior to the queen's coronation. The coeds were selected, by voting on the part of the upperclassmen attending the gala affair, from a field of ten. The young misses were nominated for the position of royalty by living groups on campus.

Queen Joan

Miss Strand, a senior from Covina, is also the class secretary. Majoring in junior-high education, she plans to teach in the San Francisco Bay area after receiving her B.A. degree.

While at UCSB she has participated in a wide variety of campus activities. A member of Chi Omega, Miss Strand was also a songleader, a member of the Associated Students Rally Committee, Junior Class secretary and Palm Hall president.

Princess Artie

A New Yorker by birth, Princess Artie Deutermann, 20-year-old physical-education major, is completing her fourth and final year here.

Upon graduation in June she receives a B.A. degree and a special secondary credential in physical education.

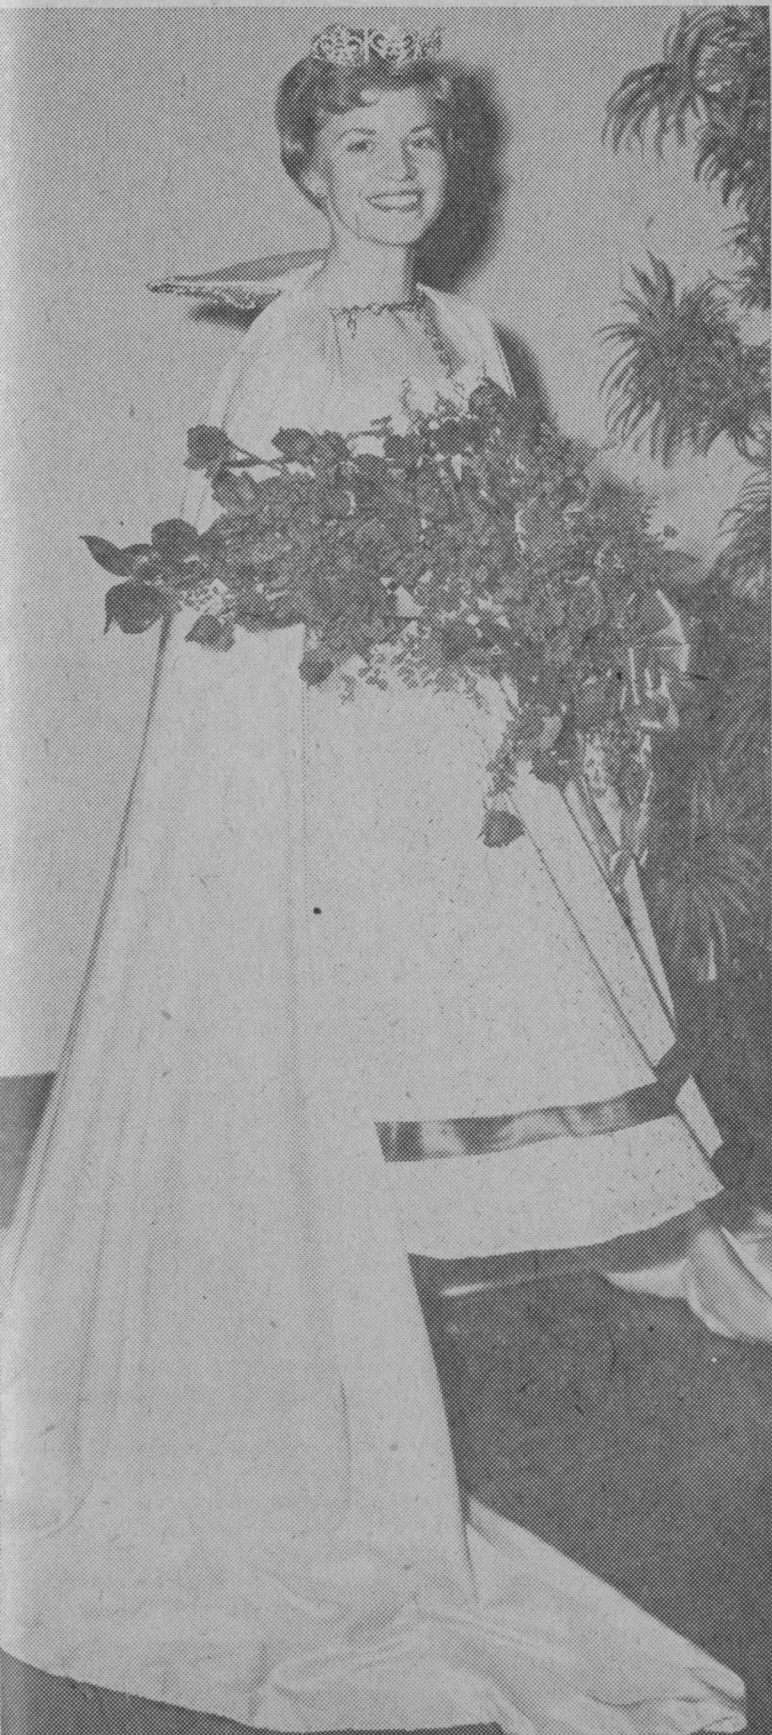

Once on her own she plans to teach in the San Francisco Bay area.

Miss Deutermann is president of Kappa Alpha Theta, chairman of the UCSB Aquacade, and was Sweetheart of Delta Tau Delta.

Princess Mary

Princess Mary Congdon, 21-year-old speech major, moved to Santa Barbara in 1955 from Minneapolis, Minn. At Minneapolis she attended Holy Angels Academy and participated in student activities. In 1953 she was admitted to Thespians, a national dramatic honorary society, and was Homecoming Queen for Breck Military Academy. After attending the University of Minnesota in 1954-1955, she moved to Santa Barbara.

Miss Congdon is affiliated with Alpha Phi sorority, has done technical work for the Little Theater and is a member of the Special Events Committee.

QUEEN JOAN STRAND
"Moonmist and Memories"

Pauling Talks On Roles of Science Today

Thursday, March 13, at 4 p.m., Dr. Linus Pauling will speak at a free lecture in the main auditorium of Santa Barbara College. His topic will be "Science in the Modern World."

Values of Science

In his talk he will explore the values of science in the world of today, the complexities of the scientific problem, and the issues which expanding science presents to the average person.

Dr. Pauling, a professor of chemistry at California Institute of Technology and Nobel Laureate, has in recent years been concerned with the problem of nuclear testing. He was a cosponsor of a letter to President Eisenhower discussing the danger of atomic and hydrogen bomb explosions.

After Pauling's speech there will be an opportunity for questions from the audience. The Associated Students Assembly Committee is sponsoring this program.

Dr. Pauling is the author of such books as *Structure of Line Spectra*, *Introduction of Quantum Mechanics* and *College Chemistry*.

Dr. Pauling is here in Santa Barbara in conjunction with the meeting of the Western College Association, where he will give a speech.

BARRETT ANSWERS IGY QUERIES TODAY, 4 P.M.

The world's greatest coordinated scientific program—the International Geophysical Year—will be the topic of the All-College Lecture at Santa Barbara College today at 4 p.m. in the lecture hall of the New Classroom Building. The lecture is open to the public.

The speaker will be Dr. Paul H. Barrett, assistant professor of physics, who is currently engaged in a research program in connection with the IGY effort. Dr. Barrett will describe the program in terms of the nature of geophysics and particular problems that have

led to the launching of the IGY.

He will explain some of the questions that have been raised by the geophysicists about our world and report some of the answers that have already been revealed, as well as new questions which have been raised as a result of research by the scientists.

The physicist at present is conducting a research project that is one of 15 studies in the field of cosmic rays sponsored by the U.S. IGY committee. A \$16,000 grant from the National Science Foundation is supporting the study of ultra-high-energy cosmic rays. Dr. Barrett has six cosmic-ray air-shower detectors located at various points on the campus to determine daily variations in the intensity of high-energy cosmic-ray particles. The readings are transmitted by short-wave radio to his research laboratory in the Science Building, where they are automatically recorded.

Analysis of this information will have a bearing on theories regarding the origin of cosmic rays.

Dr. Barrett joined the faculty at UCSB in 1955, coming from Syracuse University. He received his B.S. degree at Montana State College and his Ph.D. at the University of California, Berkeley.

Speech Dept. Will Present Program of Distinguished Films

The spring program of movies will be brought to the campus by the Speech Department, in cooperation with the Associated Students Assembly Committee.

The films are a part of a course in "The Art of the Film," which is being conducted by the Speech Department.

Open to Students

The 10 films, which are open to students, are: "Carnival of Flanders" on March 12, "Passion of St. Joan" on March 19, "Nanook of the North," "Night Mail" and "The River" on March 26, "Baker's Wife" on April 9, "The Quiet One" on April 16, "Last Laugh" on April 23, "Big Day" on May 14, and "S.S. Potemkin," for which the date has not yet been set.

"Carnival of Flanders," "Big Day" and "S.S. Potemkin" have been recommended by the Speech Department as particularly good films.

STUDENT LEGISLATIVE COUNCIL CONTINUES DEBATE ON CHANGES IN REPRESENTATION SYSTEM, VOTING NUMBER

Topping the agenda of tonight's Legislative Council meeting will be debate and vote on the proposed constitution revision, a revision which has caused quite a stir hereabouts.

The change, proposed by the Constitution Committee headed by Stan McGinley, and tabled from last week's council meeting, has three main items. They are:

- 1) Change in election procedure;
- 2) Change in the representative system, and
- 3) Changes in the voting membership of Legislative Council.

Items 2 and 3 are the ones causing the controversy, especially Item 3. The removal of the AMS, AWS and class presidents from voting roles on the council is a step that many feel to be a

serious one, for it would, in their opinion, deprive some of the most important organizations of effective representation on the council.

The proposed change in the representative system will probably also cause considerable debate tonight. Under the revision there will be one sorority representative, one fraternity representative, one women's residence-hall representative, one men's residence-hall representative, and two in-town representatives for men and women not affiliated with a sorority, fraternity or residence hall.

Everyone is urged to attend tonight's meeting, which will be held at 7:30 in the New Classroom Building Auditorium. It is sure to concern all students.

EDITOR-IN-CHIEF RAY WARD
Managing Editor Pat Gower

Letter To the Editor . . .

Editor, *El Gaucho*:
Since a recent student letter discussing ASB bookstore prices has not been answered as yet, we present a few more examples for student attention:

Fleming, *Arts and Ideas*; SBC price \$7.55, retail price \$7.50, difference .05.

Harbrace *Handbook*; SBC price \$2.80, retail price \$2.75, difference .05.

Dougherty, *Year Abroad*; SBC price \$3.65, retail price \$3.60, difference .05.

Giesecke, *Technical Drawing*; SBC price \$6.55, retail price \$6.50, difference .05.

We repeat the question: Are the students being cheated?

Sincerely,

Mike Seely
Jim Bell
Dick Hendrickson

I usually overlook a difference in prices unless it happens to be quite large.

As an English major, however, I have to buy inexpensive paperback editions of books—unless I wish to pay more than a hundred dollars a semester for books alone. Because of their cheapness, the Viking, Modern Library and Rinehart editions are very important to me. I don't object to paying an extra nickel for them, but I don't want the bookstore to lose its franchise for these editions. I have been told that nationally advertised prices cannot be raised without endangering the bookstore's chance of selling these books. I believe that many others had the same question in mind when they read the letter in *El Gaucho*. Could this matter be clarified?

Diana Hunt

Editor, *El Gaucho*:

Several students complained, in a recent *El Gaucho*, about bookstore prices. Like most people, I accept an over-charge without much complaint, in order to avoid an embarrassing situation.

Ed. Note: I'm sorry to say that at press time the *Gaucho* does not have this specific information. In the next few issues, however, there will be material on the bookstore situation.

CANADAY, SULLIVAN ARE APPOINTED UNIVERSITY OF CALIFORNIA REGENTS

Jerd F. Sullivan, prominent San Francisco banker and Berkeley graduate of the class of 1908, and John E. Canaday, aviation executive and Los Angeles campus graduate of the class of 1927, have been appointed Regents of the University of California.

Governor Goodwin J. Knight also announced the re-appointment of Mrs. Randolph Hearst, who has been completing the unexpired term of the late Edward A. Dickson. Mrs. Hearst was appointed on February 28, 1956.

Sullivan will serve out the term of the late Carl J. Fenston, through March 1, 1964. Canaday succeeds San Francisco financier Edward H. Heller, who declined reappointment because of his health.

Canaday, who was named the Los Angeles campus' Alumnus of the Year in 1956, served as Regent from January 1, 1950, to June 30, 1951, while President of the UCLA Alumni Association. He is Vice President of the Lockheed Aircraft Co. and is a Director of the California State Chamber of Commerce, the California Taxpayers Association, and the California Manufacturers' Association.

Sullivan is a Director and Executive Committee Member of the Crocker-Anglo Bank. He was President of the Crocker First National Bank before it merged with Anglo and is presently a member of the board of numerous large industrial firms.

FRESHMEN ARE TOPIC OF ASSOCIATION'S MEETING

Some 300 educators representing 50 colleges and universities in California converge at the Miramar Hotel today through Friday for the spring meeting of the Western College Association.

Returning after several years to Santa Barbara, the association forwards its duties as a regional accrediting agency for institutions of higher learning, with its sessions centered around the theme, "What Can We Expect of Our Entering Freshmen?" This problem, provocative and timely in the post-sputnik era, will be explored in committee meetings today and tomorrow, and in general sessions and discussion groups Thursday and Friday.

Palmer-Mudrick

UCSB is the host institution, handling local arrangements. Dr. Upton S. Palmer, chairman of the UCSB speech department, chairs the committee for local arrangements, and Dr. Marvin Mudrick, associate professor of English, chairs the program committee.

The influential body of educators, which includes among its members several college and university presidents, is headed by Dr. Robert E. Burns, president of College of the Pacific. Dr. Burns presides at the first general session Thursday at 9:30 a.m.

Greetings will be extended by Dr. Elmer R. Noble, acting provost, Santa Barbara College. Dr. Burns delivers the presidential address on "Reflections on Current Educational Issues" at this first session.

Dr. Noble presides over the dinner meeting that evening at the campus dining commons. Dr. Linus Pauling delivers the dinner address. Pauling is chairman of the Division of Chemistry and Chemical Engineering, California Institute of Technology. His topic is "The Freshman as an Independent Thinker."

Dr. Pauling will also deliver a free public lecture Thursday afternoon, 4 p.m., Campus Auditorium. His subject: "Science in the Modern World."

Scholarships To Be Outlined For Grads Here Next Monday

Scholarship opportunities for an unusual post-graduate training program leading to careers in public affairs will be outlined for interested Santa Barbara College students when representatives of Coro Foundation visit the campus Monday, March 17.

Twenty-four positions in Coro's Internship in Public Affairs program, with scholarships ranging from \$1500 to \$2000, are offered for 1958-59. Twelve will be for the 13th annual class in San Francisco and 12 for the first program to be offered in Los Angeles.

Interested students should contact Mrs. Betty Koral, Room 129, Bldg. 431 (Bureau of Occupations) for further information and interview scheduling prior to the arrival of the foundation's representatives on March 17.

Internship

The Internship in Public Affairs is an intensive full-time, nine-month program consisting of field assignments in local government offices, political campaigns, business firms and labor unions, and civic organizations.

Competition for both the Los Angeles and San Francisco programs is open to senior and graduate students whose proposed careers are related to the broad field of public affairs.

AS I . . . SEE IT

by Ray Ward

The blood drive was such a success the blood-bank people were forced to turn prospective donors away. Certainly much of the credit for the success must go to the people who supplied the material for the publicity and particularly to those students who spent a good part of one night making the rounds to the various living groups, encouraging them to donate.

This type of effort on the part of the student leaders can only be vigorously commended.

Whatever happened to the "Coffee Break" or coffee hour or whatever they called it—the one where the faculty and students could gather together over coffee in an informal atmosphere?

With a practical arrangement of hours and publicity, the occasion would be a success.

man in the future concerning yells and routines.

It'll be an improvement to have routines the cheering section can learn so they'll know the proper time to burst forth with loud noises.

The present situation resembles a guessing game on television.

Hugh Kenner Adds Essay Collection to List of Publishings

A collection of essays by Dr. Hugh Kenner, chairman of the Department of English at UCSB, has been published in book form under the title *Gnomon, Essays on Contemporary Literature*, it has been announced by Dr. Elmer R. Noble, acting provost.

The appearance of the new work follows closely upon the disclosure that Dr. Kenner has been awarded a fellowship in the Royal Society of Literature of the United Kingdom, a literary distinction bestowed on only a few outstanding writers in English.

The 19 essays in the latest collection, all commissioned by editors of literary journals, concern "those parts of the seminal poetry and prose of the twentieth century which seems at present in greatest need of clarification . . ."

Regarding the Junior-Senior Prom, an "I-told-you-so" is in order. The dance can be termed nothing but a success. Everyone who attended was treated to good music, an appropriate setting, and an impressive, well-organized crowning at intermission. The crowning, of course, refers to the coronation of Prom Queen Joan Strand and her court.

A job well done begins a tradition.

The recent honor bestowed on Hugh Kenner is not only an accolade for him but serves to prove the high caliber of the faculty of UCSB.

El Gaucho adds its own congratulations to the many others that are in order.

Council has taken a step in the direction of a more unified cheering section for next year's sports events by the approval of a move that the cheerleaders work closely with the Rally Committee chair-

Amendment Proposal

ARTICLE III OFFICERS

SECTION 6. The elective officers of this organization shall be the following: President, Vice-President, Secretary, three women Representatives-at-large and three men Representatives-at-large, and six Unit Representatives.

ARTICLE IV LEGISLATIVE COUNCIL

SECTION 3. The voting members of the Legislative Council shall be the President of the Associated Students, the Vice-President, three women Representatives-at-large, three men Representatives-at-large, and the following Unit Representatives: One sorority representative, one fraternity representative, one women's residence halls representative, one men's residence halls representative, and one non-affiliated men's representative.

ARTICLE VIII ELECTIONS

SECTION 1. Regular Associated Students elections shall be held on two consecutive days in the Spring semester a minimum of three school weeks before the beginning of final examinations.

SECTION 2. In addition to the officers prescribed in Article III, Section 6 of this constitution, officers shall be elected by the Sophomore Class, the Junior Class, the Senior Class, the Associated Women Students and the Associated Men Students. The Freshman Class officers shall be elected in the month of October.

SECTION 4. Delete

SECTION 6. The elective officers of the Associated Students shall be elected according to Hare's system of preferential voting as follows:

- The President, the Vice-President, the Secretary and the three women and three men Representatives-at-large shall be elected by vote of the entire student body.
- The Sorority Representative shall be elected by vote of all women students affiliated with social sororities.
- The Fraternity Representative shall be elected by vote of all men students affiliated with social fraternities.
- The women's Residence Hall Representative shall be elected by vote of all women students affiliated with women's residence halls.
- The men's Residence Hall Representative shall be elected by vote of all men students affiliated with men's residence halls.
- The non-affiliated women's Representative shall be elected by vote of all women students who are not affiliated with a social sorority or a residence hall.
- The non-affiliated men's Representative shall be elected by vote of all men students who are not affiliated with a social fraternity or a residence hall.

SECTION 7. Each Unit Representative shall be, and shall remain during the term of office, a member of the unit by which he is elected.

SECTION 8. No one shall be eligible to vote for more than one Unit Representative.

LA CUMBRE IN REVIEW

Yeats' Objectives Subject of Essay

What a major poet does for a living, according to Dr. Donald Pearce, is to alter and rectify the basic sensibility of a culture.

This is precisely the function that the Irish poet W. B. Yeats performed for 19th century romantic tradition, Dr. Pearce maintains in a recent essay in *Shenandoah* titled "Yeats and the Romantics." Dr. Pearce is an associate professor of English at UCSB and currently is acting chairman of the Department of English. His numerous critical writings concerned with European literature, especially English poetry, have appeared in many scholarly journals.

En Route

"Overhauling romanticism was only one of the several tasks which Yeats performed en route to bigger objectives," write Dr. Pearce. "But there is no better way of indicating the weight of his impact, the sheer scope of his undertakings as literary conscience, than by isolating the key problem which the earlier romantics had inherited . . . and observing how Yeats coped with it."

Yeats, according to Dr. Pearce, had inherited a radically split world—the "cold world" of science and the living world of the human spirit—the result of 17th century scientism and Renaissance skepticism.

The earlier romantic poets who faced this "cardinal intellectual problem" ultimately failed. They were Wordsworth, Shelley, Byron, Keats and Coleridge.

Selective Service Tests Set May 1

The Selective Service College Qualifying Test will be offered to college men May 1, Lt. Gen. Lewis B. Hershey, director of selective service, announced recently. The May 1 test will be the only test offered for the 1957-58

'Round Town

To the editor's desk from the Repertory Theater came this entertainment information: Dr. Lawrence Wilson will appear next Friday evening, 8:30, reading poems by Robert Frost and E. E. Cummings; Ruth Rowley and Gordon Woodburn present a song recital, accompanied by Charlotte Martin. Tickets for each performance are \$1.50.

Jazz fans, keep your eyes on local night spots. We predict some afternoon sessions in the

If you're looking for a way to impress that special girl, men, treat her to a real evening out—dinner and theater, all in one, at the Repertory Theater. Tennessee Williams's "Streetcar Named Desire" comes March 20-23. Performances are 8:30 nightly through Saturday, with a 2:30 p.m. performance Sunday. Price is \$5.25 for dinner with cocktail and theater after dinner. Call box office for further information, we're told.

DEADLINE! DEADLINE!—An exhausted Underwood rests its weary keyboard as a last bit of copy from staff writers Marilyn Hill, left, and Erline Elkin get a smile of approval from *La Cumbre* Editor Jan Bartlett. When the trio next see the typed words they will appear in the 1958 edition of *La Cumbre*.

Talented Yearbook Exec Aims For Career in Fashion World

Only a few months removed from high school, a freshman named Jan Bartlett stepped into the executive spot at the *La Cumbre* office last spring. She replaced Darryl Vincent as editor.

The product of her undertaking was the '57 yearbook, whose Ivy League smartness rated the enthusiastic acclaim of the student body. Jan shares the credit with last year's hard-working staff.

Looking Ahead

A year of college yearbook

experience behind her, plus two years of high-school annual work to her credit, boost Jan's hopes of entering the Tobe-Colburn School of Fashion Retailing in New York, a career which she feels would also put to use the skills developed in her art-home economics major. Layouts and advertising would be her chief interests in this realm.

Jan came to SBC from Tarzana. She attended Canoga Park High, graduating in 1956. Last September she affiliated with Kappa Alpha Theta sorority and served the first semester as pledge class president. In student government, Jan's position as *La Cumbre* editor gives her voice on Publicity Control Board and Legislative Council.

Pressure Off

Deadlines cause some anxious moments around the *La Cumbre* office, but now that copy is almost complete, pressure will soon turn to excitement as publication day looms ahead.

Jan says to look for the new features in the '58 *La Cumbre*, and she hopes you'll share with her the enthusiasm over the art work of Dick Phipps.

(Ed. Note: We'll be looking.)

FACULTY ARTISTS WIN RECOGNITION

Water colors, collages and drawings by William E. Dole, assistant professor of art, were recently featured in a one-man show at the Duveen-Graham Gallery in New York.

A painting entitled "Wooden Horses," by Howard Warshaw, assistant professor of art, was selected for purchase in advance of the annual National Invitational Exhibition at the Pennsylvania Academy of Fine Arts, for the academy's permanent collection.

Annual Heralds 37th Year: Quality, Quantity at Peak

STAFF OF THIRTY-FOUR COMPILE 288-PAGE ENTERPRISE FOR PRESS

by Mike Spizer

One of the University's most important publications is *La Cumbre*, the annual yearbook of Santa Barbara College. The name, which in Spanish means the peak or summit, is derived from La Cumbre Mountain, situated in the first line of the Santa Ynez Range, just north of the campus.

La Cumbre is the oldest student publication still in existence and has a history dating back to 1921 when the graduating class of that year of Santa Barbara State Teachers College assembled the first volume. This started the long line of annuals. The first consisted of a magazine-size hard-cover book of 177 pages, with small oval photographs of faculty and Senior Class members.

One of the most sacred traditions within *La Cumbre* is the dedication, which is always kept secret from the public. In the past, dedications have been made to outstanding individuals who have served the university with diligence and steadfastness, who have been a great help and given distinguished service.

The class of 1952 conferred this honor on Dr. Andres Rodrigues Ramon.

Complement Returned

Dr. Ramon chose to express his gratitude for the high compliment paid him. He recently wrote a book which he dedicated to the students here.

The book is a long poem composed in verbless Spanish. It has been translated into English, printed in both languages, and was published last year in a limited edition.

Last year the honor was awarded to the two retiring athletic coaches, Stan Williamson, football coach, and Willie Wilton, basketball, "who, through their outstanding service to the Associated Students, were equally worthy of the honor."

"This year's *La Cumbre* will be the longest yearbook we have yet compiled," says Jan Bartlett, editor. "It's going to run 288 pages, and we have added some new features to this one which haven't been incorporated into past annuals. We hope it will appeal to the student body."

The staff of *La Cumbre* has been working steadily all year to compile information, writeups, pictures, and to edit stories of special interest.

Under Jan Bartlett is the assistant editor, John Fiscallini; business manager, Sandy Fry, and copy chief, Tom Taylor. The section editors are: Karen Bohm, Index; Jan Silver, Seniors; Sue Swift, ASB; Pat Downie, Special Events; Meg Andrews, Organizations; Jean Hammond, Greeks; Ken Lavender, RHA; Don Sawyer, Athletics, and Val Hallor, Advertising.

Working diligently on committees are Sally Girard, Julie Humphries, Theony Condos, Laurie Gordon, Glenda Gardner, Cricket Langford, Nita Jo Stockholm, Marilyn Hill, Norma Springer, Margie Benbury, Mary Shropshire, Phil Rowe, Jack Brown and Amber Conner. Heading the staff writers is Erline Elkin, working with Laurie Blaine, Gladys Johnson and Diana Sanders.

Special Talents

An enterprise as comprehensive as *La Cumbre* also has need of special talents, which are supplied by Bruce McCurdy, cover design; Dick Phipps, interior art work, and Les Meredith, photography.

La Cumbre Preview

Occupying the rear of one of the wings of the Student Union, the *La Cumbre* staff has been working consistently all year. The final plan has been decided and the breakdown of the contents will be similar to this: The Administration and Prologue will

occupy the first 30 pages, seniors' pictures will be divided up into major departments and will cover 18 pages, the Associated Student Body officers and council require 30 pages, interest clubs and honor societies, including music, drama, speech and forensics, will cover 40 pages; Greek-letter fraternities and sororities will display a drawing of the pin, a picture of the house and a picture of a social affair, and will cover 38 pages.

One of the new ideas used for the first time this year is

JAN BARTLETT
Editor

an index of all the names mentioned, with the page numbers listed. There will be many candid snapshots throughout the book.

The residence halls will receive their share of the glory; each one will have a picture, and the Residence Hall Association will be presented. The Athletic Department also will have complete coverage, with year scores, pictures of teams, individual athletes and coaches.

Frosh Events In

The Special Events section will contain material on all the social events for the entire year, such as Frosh Indoctrination, Galloping Gaucho Review and Homecoming, All-Cal Weekend, Barbary Coast and all AS dances.

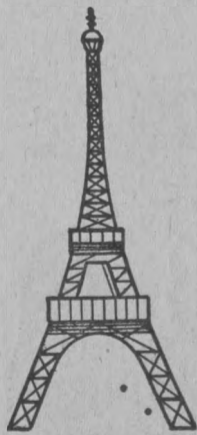

All a student needs to obtain his copy of *La Cumbre* is two student body cards. The price is included in the registration fee paid for the cards. Approximately \$4 from each student is allocated toward the yearbook, which has an annual budget of \$10,000. Whatever deficiency there may be is taken care of by advertisements, which will be mainly pictorial.

"We would like to urge all living groups and other organizations to make an appointment for their picture with *La Cumbre* office," said Jan Bartlett. "People have been forgetting to turn in the information we need to print with their pictures. The deadline for individuals is past, but please make sure your group is adequately represented."

DIAMOND NINE STOPPED IN TWO SOUTHERN TILTS

Last Friday and Saturday the 1958 Santa Barbara Gauchos traveled to San Diego to play the San Diego Marines, only to be defeated twice, 4-0 and 11-1.

Friday was the opening game of the season for the pro-studded Marines on Beeson Field. A ceremonial opening was held with the commanding general, T. A. Wornham, tossing the first ball to Col. Bruno A. Hochmuth, his chief of staff. During this time an ominous stickman faced the general on his brief mound stint. Facing the two-star hurler was Ralph Kiner, often-crowned Pittsburgh Pirate home-run king and current general manager of the San Diego Padres.

Following the ceremonies the Leathernecks took the field and the game was under way. From the very beginning it was a pitcher's battle between Bob Pope, hurling for UCSB, and Don Kenway, for the Marines. The bats were quiet all afternoon, with Pope and his relief help, in the seventh inning, Jim Hezley allowing only four hits, while Kenway and his reliever, Tad McCollum, issued only one single to the Gauchos. The owner of this single hit was catcher Roger Keller. Pope allowed three runs and Hezley one in the 4-0 loss.

Coach Rene Rochelle and Assistant Coach Ed Coulter were

impressed with the work of their pitchers but stated much was desired in the hitting department.

On Saturday the Gauchos changed their lineup in order to obtain some hitting and runs. This move looked like it was going to work as UCSB moved into an early 1-0 lead in the second inning. With Ned Permenter on base, successive singles by Ed Keenan and Jake Schmandt drove him across home plate.

The lead held up for only one inning, however, as the Marines unloaded four runs on only two hits and two errors. In the fourth inning four more runs were added on five hits and one error.

The telling blows off Gauchos starter Fred Warnecker were run-producing singles by Ray Tobacchi, Earl Wilson and former Gauchos Pete Walski, plus a two-run home run by Marine pitcher Ted Ellis. Warnecker was relieved by Jim Hezlep in the fifth inning after giving up eight runs and seven hits in four innings. Hezlep allowed the final three runs on home runs by Walski and Homer Hert.

The Gauchos produced six hits and were led by outfielder Dave Iman's two singles.

The Marines will be hosted later this season for a single game on the UCSB campus. The Gauchos will be seeking to save at least one game in the three-game series at that time.

Gauchos Big Bat

GAUCHO OUTFIELDER DAVE IMAN poses with his big bat, which Baseball Coach Rene Rochelle hopes will supply the UCSB nine with many runs this season. Horsehidors spent the weekend in San Diego tackling pro-studded Marine team.

ED SAUL COACH MEANS BOASTS FINE ATHLETIC RECORD

Along with the varsity, the UCSB junior varsity basketball team ended its season recently with a fine 10-1 record. The lone loss by the JV cagers came at the hands of an undefeated AAU team from Tulare. Leading the Santa Barbara team in his first year as assistant basketball coach was Dick Means, who is currently mentoring the varsity tennis squad.

Dick is a fine athlete in his own right, having captained the basketball team and the tennis team at his alma mater, the University of Minnesota. In tennis he was voted captain three years in a row and was one of the finest performers in the Big Ten. In his senior year he was voted the coveted Big Ten Medal, an award given on the basis of both scholarship and athletics.

Dick was born in Morristown, Ind., on Feb. 26, 1929. At Lincoln High School in Nebraska, where his family moved later, he participated in both tennis and basketball. In tennis he won the Missouri Valley Conference Singles Championship two years in a row. He was further honored by his classmates as he served as president of his graduating class.

Upon completion of his high school career, Dick matriculated at the University of Nebraska. After his freshman year he transferred to the University of Minnesota. Aside from the honors mentioned above, Dick is the holder of the Big Ten individual-game shooting record and was voted the most valuable basketball player on his team in 1952.

Serves In Air Corps

After his college graduation Dick was commissioned as a second lieutenant in the Air Corps, where he served until 1954, eventually reaching the post of first lieutenant. While in the service he further added to his athletic repute by being named to the first-team All-Air Force World Wide Volleyball Team for two consecutive years. He was also named as the most valuable player in the Southeast Basketball Conference, and won the Maxwell Air Force Base tennis championship two years running.

This spring Dick has taken over the tennis reins relinquished by Lyle Reynolds, who led the Gauchos to four consecutive CCAA championships. Things don't look as prosperous this season, but they may improve as the season wears on. Last year's team pulled a big upset in knocking off California in a dual match.

Nash Cashes In

One of the highlights of the basketball season for Means and the JV team was in the first Cal Poly game, when Gordon Nash stood calmly on the foul line and dropped in a free throw to break a 51-51 tie after the game had actually ended. Gordon was fouled on the last play of the game and the near-capacity crowd stood breathlessly by as he insured the UCSB cagers of their eighth victory.

Stars for the JV team all year have been Bill White, who could always be counted on to hit close to 20 points; Kermit Harcos, a fine rebounder and a great varsity prospect; Nash, who scored 28 points in the season closeout against Fresno State College freshmen; Ron Heusser, a fine defensive star, and Bill Haskell and Jim Reed, both of whom are the possessors of great shooting eyes.

Unless the CCAA changes its rule, which at present allows two-year junior college lettermen transfers three years of collegiate eligibility, Santa Barbara and other conference schools will be banned from participation in future NAIA post-season tournaments. The NAIA ruled this year that CCAA schools are not eligible for the basketball tournament because of this rule.

The NCAA rules that teams from conferences having such a rule are eligible to compete in post-season play, but any five-year athlete cannot make an appearance in the game. The Big Ten had such a five-year rule up until a short time ago.

Star Milers Vie In Relays

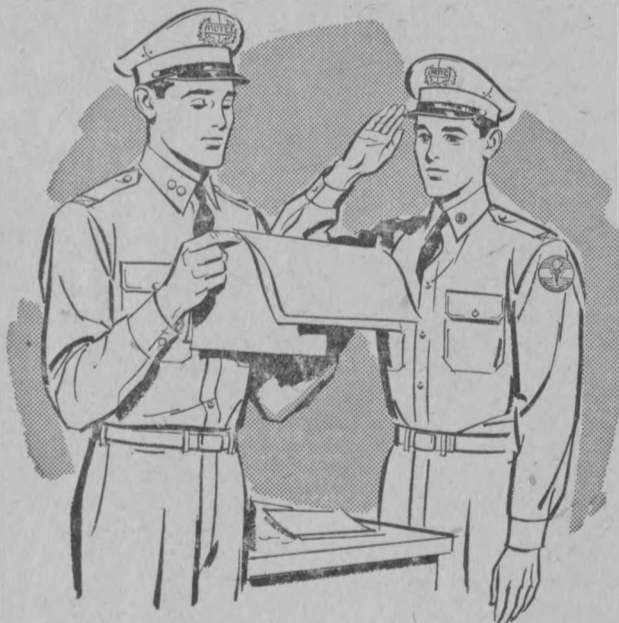

This year's UCSB-sponsored Easter Relays might be the occasion of a new world record in the mile. Four under-four-minute milers are invited to the affair: Hungary's Lazlo Tabori, Australia's Merv Lincoln, England's Herb Elliot and Ireland's Ron Delany. Delany, Olympic champion in the 1500 meters, has been setting a sizzling pace in the Eastern indoor season, while Elliot and Lincoln have been busy running three consecutive four-minute miles down under. Tabori, always one of the world's top four-lap men, has been working out hard in the warm Southern California climate and should be about ready for his best year.

Sophomore R.O.T.C. Students:

MAJOR IN LEADERSHIP

with the Advanced ARMY R.O.T.C. course

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:

1. Learn to Lead

With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.

2. Attain Officer's Rank

As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.

3. Receive Extra Income

With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around \$535 for the two-year course. You will also be paid \$117 for your six-week summer camp training and receive a travel allowance of five cents per mile to and from the camp.

GAUCHO SWIMMERS open season this afternoon in Pasadena. This is the first season of intercollegiate competition for the UCSB swimmers. From left to right are Les Meredith, Bob Miyashiro, Rick Beguelin, Dave Brickner, Richard Gunner, Paul Hodgert and Warren Glaser. These boys will be up against tough competition, as the hosts are one of the toughest JC swimming teams in the Los Angeles area.

SANTA BARBARA JV'S FINISH SECOND BEHIND EL CAMINO JR. COLLEGE

Net Season Opens For Defending CC Champion Gauchos

Coach Dick Means sent his Santa Barbara Gaucho tennis squad into intercollegiate competition last Friday against the Los Angeles State College Diablos. The team came away with one victory in singles and one in doubles matches.

The Gauchos will face a full schedule of CCAA opponents, as well as a liberal sprinkling of non-conference foes this season, including the University of Arizona, Redlands and Cal Tech. Gaucho fans will have plenty of opportunity to see the local racket men in action, with nine matches slated for local courts.

The UCSB net squad will be led by Bernie Teitelbaum, who is at present Coach Means's No. 1 singles man. Basketballer Gene Hughes and veteran Barry Bass will be fighting it out for the No. 2 position. Dan Cover and John Zellhoefer will be the Gauchos' fourth and fifth men, respectively, and the sixth spot is currently undecided between Jack Knudsen and Phil McMullen.

Although the SPAAU Relay track meet was called off due to rain, Coach Nick Carter's varsity spikemen were offered an opportunity to compete among themselves last Saturday while the JV squad indulged in a triangular meet with El Camino JC and Santa Barbara JC on the campus oval. The meet, which was won by

- this year for March 18.
- Summaries:
- Mile — Bevans, ECJC, 4:39.5; O'Haver, ECJC; Holland, ECJC.
 - 440 — Henderson, ECJC, 52.5; Frodsham, ECJC, Dougherty.
 - 100 — Hansen, ECJC, 10.4; Smith and Cavanaugh, UCSB-JV.
 - 120 HH — Carrier, ECJC, 16.1; Warren, UCSB-JV; Shankle.
 - 880 — Hester, ECJC, 2:00.3; Herzog, ECJC; Ortega, SBJC.
 - 220 — Carrier, ECJC, 22.9; Hansen, ECJC; Henderson.
 - 2-Mile — Bell, ECJC, 10:41.5; O'Haver, ECJC; Munger.
 - 220 LH — Shankle, ECJC, 25.7; Knipe, UCSB-JV; Grish.
 - Shot — Chappel, SBJC, 45' 7 1/4"; Olsen, ECJC; Wells, UCSB-JV.
 - HJ — Hansen, ECJC, 5' 11 1/2"; Rocco, UCSB-JV; Morsch, ECJC.
 - BJ — Hansen, ECJC, 21' 5 1/2"; Hildebrand, UCSB-JV; Simms.
 - Discus — Olsen, ECJC, 130 ft.; Hoover, UCSB-JV; Warner.
 - PV — Grish, ECJC, 12 ft.; Clark, ECJC; Hildebrand, UCSB-JV.
 - Mile Relay — UCSB Varsity (unofficial); El Camino JC, 3:39.0; Santa Barbara JC.

SBC Swimming Team Opens Season Today Against Pasadena City College Tankmen

This afternoon the UCSB swimming team enters into intercollegiate competition for the first time. The Gaucho mermen travel to Pasadena to meet Pasadena City College in the initial encounter. This is one of the many meets arranged by Swim Mentor Frank Rhoter. After meeting the Pasadena team, which is always one of the top junior college teams in the Southland, the Santa Barbara finmen will meet Long Beach State, El Camino Junior College, Los Angeles State College, Whittier College, California Institute of Technology and California Polytechnic.

The Gauchos will be fairly strong in the sprints with Al Cibula and Bobby Miyashiro first men in the 50-yard and 100-yard dashes, respectively. Backing up Cibula in the 50 will be Lester Slaback.

Miyashiro will be teaming with Dave Brickner and Wallace Hannibal.

In the longer distances Mark Olincy and Paul Hodgert (200-yard backstroke and butterfly), along with George Hart (backstroke) and Ray Peterson (freestyler), will compete for the Blue and Gold. Divers Ray Peterson and Rick Beguelin will provide strength in these events.

Coach Rhoter is still on the lookout for new material. He is expecting Art Blair and Stan Guth to come out later in the year but, he stated, "There is always room on the team for more good swimmers." This is only the first season the Gauchos will have had an active team, but they hope to have a successful season, starting with a good showing against Pasadena this afternoon.

Behind John Cobb's all-time record of 403 mph

A GENERAL PETROLEUM TEAM

Behind events like Cobb's speed run (whose record still stands after 10 years), the Gold Cup, Indianapolis 500, and practically every major engine competition you can name, stands a team of Mobil experts from General Petroleum and its affiliates in Socony Mobil.

Practically every type of college training is represented at General Petroleum where men with promise can make the first team.

For information about General Petroleum see your college placement director.

That's why in its far flung operations, General Petroleum uses college trained men. For oil hunting—geologists; producing and refining—chemists and engineers of all kinds. Marketing and selling use business majors, architectural engineers, accountants...and more because—

GENERAL PETROLEUM CORPORATION
Headquarters, Los Angeles
far western affiliate of Socony Mobil,
a pioneer in petroleum since 1866.

SUMMER SEES 'SHORT' SHORTS, TWO-PIECE SUITS

by Lee Vanosdall

With spring's sun and surf come summer fashions in play-clothes. Many new things have been added this season, so better take a look at your summer wardrobe and see how yours measures up.

News for this season in shorts are matching outfits of "short" shorts (made famous by that song currently heard on the big 690) and blouses or middy tops in innumerable fabrics and color combinations.

Most popular among these are the polished cottons in bright, flowery prints, which have the appearance of chambree. Also a big thing are pique outfits of the same type.

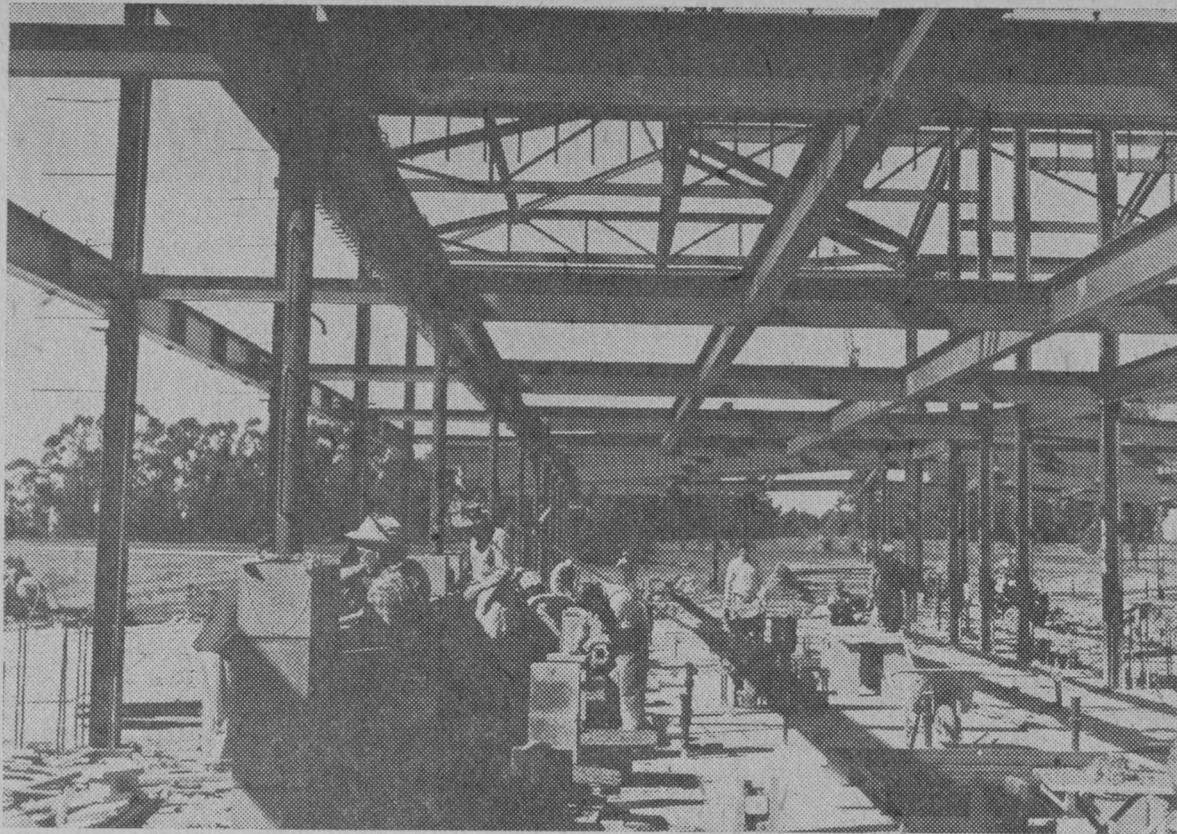

Cotton Swimsuits

Swimsuits of the two-piece variety are making a big splash in the fashion current. Most of the models shown are of cotton in a variety of fabrics and colors, both solids and prints. Matching beach jackets are also very popular.

The ever-popular capris are appearing in polished cottons with ivy stripes and matching blazers. Beige and white is the most popular color combination.

Promavero green, orange sherbet, all shades of blue, and red are the featured colors for spring. White also will play a big part in making spring fashion news.

In all, it looks like we're going to have a colorful and sharp summer beach time.

LATEST IN EQUIPMENT FEATURED IN BIG NEW INDUSTRIAL ARTS BUILDING

by Ken Ainge

Current topic of casual conversation among the "S. U. Card Sharks and Lawn Loungers Society" is the adjoining double-decked Arts Buildings which are progressing rapidly towards the primary stage of construction.

This week we'll try and

give you some information about the Industrial Arts Building (Unit 2), which is the first of the two buildings under construction.

This structure, which will house all Industrial Arts activities, will occupy three floors and will feature the latest in equip-

ment and technical methods.

A large wood shop and auto shop will occupy the basement area of the west end of this building, with metal, radio and electric shops found on the first floor. The first floor will also provide facilities for a large photographic lab and several spray booths for use with metal working.

On the second floor we find the home economics lab and an elementary I.A. room for practice-teaching procedures.

According to Jack Ostrander, project manager for Williams and Burrows, who are constructing the two-million-dollar structure, the second-floor girder framework is one of the most complicated that has been attempted to date. However, a minimum amount of difficulty was experienced in connecting the huge framework.

Club News

Tri-Beta

Beta Beta Beta, the UCSB science club, presents a movie at its next meeting, 12 noon on Thursday. The film, "The Capture and Training of the Golden Eagle," is narrated by Kent Durden, a zoology major. The place of the meeting will be announced later.

Home Economics

A tea given for city high school and junior high teachers and stu-

dent teachers of Santa Barbara, Ventura and Los Angeles counties is planned for tomorrow.

An annual affair, the tea is sponsored by Home Economics student teachers here at the college. It begins at 4 p.m. in the department's dining room.

International Students Club

The International Students Club holds its regular meeting in the Huddle, 4 p.m., Thursday.

SOUTHERN CALIFORNIA SPREADS ITS OWN JAZZ

by Clark Reynolds

"West Coast" jazz was the first sectionalized jazz since New Orleans and the Old Mississippi, and is centered about that area known as Southern California. Critics in the East refused to recognize it as a separate form until public opinion forced them to admit its presence.

Jazz on the West Coast is not noted for its vitality necessarily, but for its charm, and the style that eventually resulted brought on the first great market for jazz since the Swing Era.

The Pacific Coast, before this new innovation, had always enjoyed the presence of popular hot jazz bands. As early as 1919 Kid Ory's Sunshine Orchestra made its headquarters here, and was followed in 1927 by Ben Pollack's Californians at the Venice Ballroom.

The ne'er-to-be-forgotten tale of Benny Goodman's rise to fame

at the Palomar Ballroom was in the initial roots of the Dixieland Revival took place in the hands of Lu Watters in 1939.

West Coast Discoveries

Two of the greatest musicians and performers in all the world were indeed discovered on the West Coast—Messrs. Nat "King" Cole and Lionel Hampton. And Harry James has made his virtual home at the Hollywood Palladium.

The term "West Coast Jazz" had its beginning with producer Norman Granz's Jazz at the Philharmonic, which began in 1944. The style was essentially progressive, and is still being continued today at the Philharmonic Auditorium in Los Angeles.

All in all, this new medium is sweeping the country even today, and there is, fortunately, no end in sight.

UCSB Staff Member Presides at Meet

Miss Ellen E. Bowers, counselor of women students at UCSB, presided at the opening and closing sessions of the California Association of Women Deans and Vice-Principals, March 7 to 9, in Long Beach.

Miss Bowers is southern region chairman of the state-wide organization, elected in 1956. The 30-year-old association is made up of deans and vice-principals from junior and senior high schools, junior colleges, and colleges and universities. Dr. Helen Keener, UCSB dean of women, also attended the meeting.

At the opening general session Miss Bowers introduced the speaker, Dr. Joseph Kaplan of UCLA, chairman of the U.S. National Committee for the International Geophysical Year.

One of the speakers during the Saturday-morning session was Dr. Charlotte Elmore, formerly curriculum director of the Santa Barbara City Schools and now research director for the California Committee on the Older Girl and the Law.

URC NOTES

Interfaith Council meets tonight, 6:20, URC Building, to discuss future plans.

Westminster Fellowship meets tomorrow, 7:30 p.m., First Presbyterian Church, for Lenten Bible Study.

Canterbury (Episcopal) Evening Prayer and meeting, 7:15 p.m. tomorrow, URC Building. Rev. Jay Inwood is available for counseling from 3 to 4:30, URC Building.

LDS "Religion and Modern Problems" class meets at 3 p.m. Thursday, URC Building.

Religious Conference Chorus meets Thursday, 4 p.m., Room 2230, Busic Building. All students are invited to join this choral group and sing the great music of religion.

AMERICAN AIRLINES
America's Loving Airlines

Do you like to travel?

If you are single, a high school graduate and between 19½ and 26, there's a splendid opportunity waiting for you. Along with its current expansion, American Airlines needs many more attractive Stewardesses. You must be 5' 2" to 5' 8" in height, 130 lbs. or less in proportion to height with 20/50 eyesight or better without corrective lenses. Those accepted have FREE TRAINING, excellent salaries, liberal expense accounts, and the privilege of free travel. Even though you may not reach the minimum age requirement, if you are interested in this as a career, please feel free to discuss this with us.
