

THE EAGLE

VOL. 4

SANTA BARBARA, CALIFORNIA, FRIDAY, JANUARY 16, 1925

NO. 16

Summer Session Will Be Held This Year

A summer session of this institution will be held this year, according to President Phelps. Although there has been some question about the possibility of conducting a summer session, the appropriation made to the college provides sufficient funds for the financing of a summer session. The summer school will be conducted in the same manner as in previous years.

Dr. Park Will Speak Before Students

Dr. Charles Park of Boston, a noted orator and scholar, will address Tuesday's assembly. He is an eminent speaker well worth hearing, according to Dr. Ellison, member of the committee arranging programs for regular assemblies. Dr. Park, who is in the west on a speaking tour, will spend a week in Santa Barbara. During his sojourn here he will speak before several clubs of the city, including the Rotary and Kiwanis clubs.

A. W. S. Elects Next Semester's Officers

Officers for the coming semester were elected by the A. W. S. at its last meeting of the semester held Tuesday morning. That Bernice Gange has been a popular president of this semester was indicated by her reelection for next semester. Marguerite Glatin was reelected to the office of vice-president. Marjorie Brown and Margaret McTavish were chosen secretary and treasurer respectively. The office of student councillor whose duties are to supervise the big and little sister movement was awarded by unanimous consent to Eleanor Warren, retiring secretary. Ruth Garner was reelected social chairman, while Sue Swearing was chosen as club room chairman.

Installation of officers will take place on February 3rd of next semester.

Etta Burnett was elected as an auditing chairman for the present semester.

Students Addressed By Education Expert

Miss Mabel Carney, expert on rural education, addressed students Thursday morning in the cafeteria on the subject of rural life improvement relative to education. She spoke especially of the illiteracy existing in the country and of the need of efficient, well-trained teachers in the country districts.

COLLEGE RECEIVES APPROPRIATION OF \$406,539 FOR MAINTENANCE

Santa Barbara State College has been appropriated \$406,539 for salaries, support, and permanent improvement this year under the budget recommendations of Governor Friend W. Richardson made to the legislature Monday, according to detailed accounts received by President Phelps Wednesday. Of the amount allotted to the College, \$246,539 was allowed for summer session, faculty salaries, institutional support, while \$160,000 was voted for improvements and permanent buildings, \$150,000 of which has been set aside for the construction of the main building and \$10,000 of which will be used for permanent improvement.

A reduction of \$100,000 of the amount asked for by the institution is believed to have come as a result of the rigid economy of Governor Richardson. Approximately

\$90,000 has been cut from the figures asked for the development program, while it is estimated that for salaries, summer session, and institutional support nearly \$10,000 was cut from the appropriation recommended by President Phelps. The reduction in the figures asked for by the College will eliminate the cost of the land which it was proposed to purchase as a part in the program of expansion. The reduction will also make impossible the construction of an Elementary School for training.

"We are very much concerned over the failure to include the necessary funds for the erection of a building for the Elementary School and especially concerned about the impossibility of purchasing additional land," commented President Phelps.

Health Benefit Fund Society Will Hold Membership Drive

Dues for the spring semester in the Health Benefit Association will be payable to Edith Comstock, treasurer, beginning next week. A special effort will be made to secure at least 150 members, thus insuring ample insurance protection for the members of the fund. Greatly facilitating the administration of the benefits of the fund will be membership cards which are to be issued to all members next semester.

These cards will contain full information for the members, and will make difficulties such as were encountered this term less likely. Members of the Benefit Fund have had some little trouble in knowing where to go for medical aid, and as to what benefits they were entitled to. All this data will be printed on the back of the membership cards.

There will be a balance of about \$75.00 in the treasury at the end of this semester, which speaks well for the administration of the fund. To date eight students have received benefits to the amount of about \$65.00 dollars, besides the reduction in the cost of the several doctor bills that have been rendered many of the students personally.

A meeting of the old members and interested prospective members will be held next Wednesday in room 44, in an effort to secure the desired number of members.

The progress of science took another large step when ten photographs were successfully transmitted from England to America.

Waburton Visits College In Interest Of La Cumbre

Mr. E. C. Waburton, of the Commercial Art and Engraving Co., visited the College last Tuesday to confer with the Editor and the Faculty Critic on the special borders and backgrounds that the northern firm is preparing for the 1925 La Cumbre. The high class work done by this concern for the 1924 book is the strongest recommendation that can be given it, and those old students who know the quality of last year's pictures and etchings, are looking forward to another delightful pictorial record of events.

Subect A Test To Be Given Soor

The examination in English, Subject A entrance requirement for all Junior College students will be given the first week of next semester, according to Dean Ashworth, head of the Junior College. The examination is open to two types of Junior College students. Students entering the Junior College for the first time are required to take the examination and those who have passed a semester's work in English X having previously failed to pass the examination in Subject A must also take the examination. If the latter students meet with further failure a repetition of the course in Subject A without credit is necessary.

A fee of fifty cents is necessary in order to take the examination, and Dean Ashworth requests that students have the money ready for

Work On Athletic Field To Start Next Week

Work on the athletic field to be constructed below the gymnasium building will start some time next week following the signing of papers calling for construction work. James Tracy has been secured as contractor and is ready to begin the work of leveling and filling the field as soon as final contracting papers have been duly signed and approved at headquarters in Sacramento.

The field, which measures about 40 by 70 yards, will be in constant use for athletic or play ground purposes. Children of the Elementary School will use the field as a playground throughout the day during their play times, and the women may take some training in Physical Education on the field. The men out for sports will be able to practice on the field, thus eliminating many unfavorable, inconvenient conditions now existing revalent to practice.

Tentative plans are being made to construct a swimming pool on the present site of the museum. According to President Phelps, the pool will be of regulation size.

Coverlets Will Be Exhibited Wednesday

There will be a coverlet exhibition in the sunroom on Wednesday afternoon of next week. Any who have coverlets are asked to leave them in the office Tuesday or Wednesday morning. Examples of overshot work, double faced and double woven varieties are solicited.

During the next three months opportunity will be given townspeople and visitors in the city to do weaving by paying regular registration fee and charge for use of looms, material and instruction.

Social Affair Will Be Big Surprise

It is to be a surprise! What? The "how" of the Student Body party, of course. That the party will begin at 8:00 in the cafeteria is widely known but beyond that fact all is mystery.

Despite this secrecy, it has been discovered that there are to be many novel and startling features. And "eats"—they are honestly going to be present!

Of course it will be jolly and of course you'd hate to miss such fun so be sure and come—Cafeteria at 8:00. Don't forget—tonight.

payment at the time of the tests. The papers will be sent to the University of California for correction before the class in English X is formed.

Public Speaking Society Elects New Officers

The following officers were elected at the meeting of the Public Speaking Society held Wednesday morning:

President—Margaret Cronise.
Vice-President—Catherine Berry.

Secretary—Marjorie Davis.
Chairman of the Program Committee—Ted Ellsworth.

Other members of the program committee—Roscoe McGuire and Lysle Hawkins.

A program consisting of parodies on well known selections was given at this meeting, the following taking part:

"Young Lochinvar as it Really Happened"—Roscoe McGuire.

"The Village Choir"—Lois Pearson.

"The Bachelor's Soliloquy"—Ted Ellsworth.

"The Heathen Pass-ee"—Margaret Cronise.

"Romeo and Juliet in Verse"—Helen Linquist.

San Jose College President Dies

Dr. Edwin R. Snyder, president of the San Jose State Teachers College, died at his home Tuesday night. Previous to his presidency of the San Jose College, Dr. Snyder served as state commissioner of vocational education. He will be missed by those with whom he came in contact for he was a genial, friendly, able man to whom people were generally devoted.

The faculty sent a telegram expressing their sense of loss of such an able man and expressing their sympathy.

Interior Decorating Class Takes Tour

The Interior Decorating Class under Mrs. Lyans made a tour of several furniture stores Tuesday in order to obtain ideas of interior decoration relative to draperies, furniture, color schemes, and other furnishings. The tour included the Waley Manufacturing Company, Levv's Furniture store, and Tucker's Interior Decorating Store.

EXCHANGES

Everybody's doing it now! The "California Tech." from Cal. Tech. has printed a cross-word puzzle in which the black spaces spell CAL TECH.

The Seniors of Occidental College are to have a bench that is to weigh approximately twenty tons, which will be four feet wide twelve feet long. It will be built of concrete and set down in the ground about twelve inches.

San Diego State Teachers College has been accepted as an associate member of the Southern California Conference. This act put the College in the Athletic march on a footing equal to that of Pomona, Occidental, Whittier, Cal Tech, U. S. L. A. and Redlands.

Mr. W. Leonard Atkins, head master of the Parramatta High School in New South Wales, Australia, who is finishing a tour of the world recently visited Santa Barbara High.

The Home Economics Club of the Chico State College voted that each member should earn \$1.00 to be contributed toward the purchase of some necessary equipment for the Chico Health Center.

The Home Economics Club of Chico College recently edited their school paper, "The Wildcat."

The night school of the Polytechnic High School, Long Beach, has undoubtedly one of the most interesting and most unusual classes and that is a lip reading class.

The class will furnish a model house which was recently constructed by members of the class according to Mrs. Lyans.

Next Tuesday the class will visit Hotel Semarkand, which has just been renovated and remodeled. Some of the interior decorating has been under the direction of Professor Stanley Edwards, instructor of needlework in the college.

Letter of Mr. Wolf (Continued from last week)

They work themselves into a religious frenzy by swaying closely huddled together in a line, to the rhythm of barbaric music, that becomes wilder every moment, until they disrobe to the waist and have thin rapier-like swords actually beaten through their flesh. One man walked about with a sword through his cheeks, another into the pit of his neck and a third with four swords, two of which were through the flesh of his shoulders and the flesh about the pelvis. Not only are they content with this but they eat live scorpions, swallow nails, glass, and roll on beds of cactus. That night I had one of the most delightful of nightmares.

A young shiek from the desert had just married and was celebrating for the benefit of his friends, and I was fortunate enough to be one of them.

He had the two best dancers from Tunis come for the occasion. This Arabian night, there gathered Arabs from all over the desert, whilst the veiled women of the harems looked down from the roof above, because they never mingle with their lords and masters in public.

La Harem and Rabiha were the dancers and amidst the applause of the crowd they danced such dances as we never see on our side of the world. I asked whether I might sketch them and the girls told the Arabs. They consented, which was an unusual privilege, for women are always veiled and supposed not to be seen, above all by a Christian.

I made the journey to Algiers across mountainous country, taking two days and the night, after I arrived we were shaken up by an earthquake, which caused the weather to change and the sea became so tempestuous that when the Mercedes started for Spain, we had to return to port. When we finally sailed, it was the worst trip I have yet experienced.

Spain is the most beautiful country of all and the people the kindest and most hospitable of any I have met.

I reached Alicante and went to Granada, by way of Murcia and it is in Granada that you visit the Alhambra, in whose court is the original pool, after which the one at college is fashioned.

If you walk down a street in the Barrio Santa Cruz, some moon-lit night, you will find more than one ardent youth outside on iron latticed window telling the lady of his heart inside, amidst the flowers, all the soft things he thinks of her.

When this finds its way into your hands, I will be on my way to ports in the West Indies in South America, Panama, Cuba and starting for home by Mexico City, so as to be back with you at college February first.

I can assure you that in the world, there is but one country, and in that country but one state, and in that state but one place I am mighty glad to call home, and that is Santa Barbara.

With best wishes to everyone,

Yours,
HAMILTON W. WOLF.

The second annual all-city tournament to determine the best French and Spanish students in the Los Angeles city high schools was conducted on January 10. The examination consisted of a vocabulary test, oral and written tests and translations from and into English.

Miss Maud Hayes Receives Presidency

Miss Maud E. Hayes, Supervisor of Home Economic work in the public schools at Long Beach, was elected president of the Southern Section of the Home Economic Association of California for this coming year. Miss Hayes was a class mate at Columbia University of Miss Emmeline Whitcomb, National Head of Home Economics in the Department of Education at Washington, D. C.

Former Instructor Dies In East

Miss Nina B. Forsythe, who was a member of the College faculty and head of the Domestic Art Work between 1912 and 1916, recently died following illness in the East. After leaving here she opened a school in Berkeley. She purchased one of the discarded public school buildings and renovated it to suit the needs for her own work and to make studios for the various phases of art work.

In the fall Miss Forsythe went east to study design in lower Massachusetts and had just completed her course of study, expecting to make several visits and then return to her work in California when she was suddenly stricken on December 19 and four days later, without recovering consciousness, died.

In her will she left the building and land to Mrs. Jessie F. Her-ring, director of the Berkeley League of Fine Arts, to be used as headquarters for the League. Eventually this building will be sold and the money directed towards a new building in which there will be a memorial to Miss Forsythe. Miss Forsythe was one of the most noted craftsmen and artists in the United States.

Mrs. Miller left Tuesday morning by motor for the San Joaquin Valley, where she is to spend a week.

New Financial Secretary To Assume Duties

Miss Wilma Lowsley will assume the duties of the financial secretary, for Miss Mildred Schauer, who is leaving at the end of January. Miss Lowsley has been in the office this week acquainting herself with her new duties. The new financial secretary graduated from the Santa Barbara High School a few years ago and later held a position in the First National Bank. She recently returned from a six months' visit in New York.

Miss Schauer who is resigning her position is to be married to Mr. Tevis Martin of San Francisco sometime in the spring.

Circus Dance Wins Hearty Approval

The General Professional Women gave a highly successful Circus Dance at the Arlington Grill last Friday night. The circus idea was carried out in both the decorations and the costumes.

The whistle dance and the balloon dance will long be remembered. In the elimination dance Dean Pyle and Dean Ashworth won the prize. Lucille Dexter, chairman of the General Professional Social Committee, managed the affair.

A. W. S. Will Give Kid Party Thursday

The A. W. S. will give a "Kid" party next Thursday afternoon in the cafeteria. Casting aside the seriousness and worries of college, the girls will revert to their childhood, everyone wearing kid clothes.

Two prizes will be awarded, one for the funniest, and one for the best costume.

The party will be held from 5:30 to 7:30. Each girl is to bring her own supper, while a hot drink will be served by the A. W. S.

PERSONALS

Marville Miller has an appointment to teach in Santa Paula and she will begin work the latter part of January.

Some of the costumes of the G. P.'s Circus would have turned a real circus performer's heart green with envy.

Pat Neely, Dorothy Pratt, Irene Cameron, Marguerite Glatin are planning a winning move. Their object is a five room place located on Micheltorena street. It is rumored that there is a cellar attached.

Members of the faculty have been invited to attend a party given by Mr. and Mrs. F. F. Peabody at the Montecito Country Club on January 23.

Dr. Stockton's wife, who has been in the hospital for the past few days is reported in an improving condition. We are glad to learn of her improvement.

Jesse Hawley and Betty Ryan both report "Have gone insane and proud of it."

President Phelps went to Santa Maria Tuesday to attend a luncheon given by the Rotary Club.

Work On La Cumbre Well Under Way

With the opening of the second semester, work on La Cumbre will begin in earnest. First copy will be due on the 27th of February, in order to allow plenty of time for corrections and proof reading.

During the past week, bids have been prepared for local printing houses for composition and binding. When returns from these bids are in, the firm that is to do the printing will be announced. Bids are being sent to two local houses only, as there are only that number that have sufficient equipment to handle the work.

The covers will be furnished by the Bechtold cover company of St. Louis, and promise to be very attractive. A new feature of the covers this year will be a backbone design that should relieve the monotony of a plain cover.

Individual pictures will be taken starting next Monday afternoon. Everett Hartwell will have charge of the making of the appointments for sittings. The first students to be photographed will be the February graduates, then all other individual and group pictures will follow in rapid succession.

Art work will begin at once by the staff artists, who include Clara Parrett, "Bill" Everitt, Barton Hopkins, Margaret Kincher and several others. A new feature in the art section of the book will be a two page design within the covers, both front and back. This design will be some campus, or near the campus scene, that will be in general keeping with the eucalyptus motif that has been chosen for the 1925 La Cumbre.

ALUMNI

Miss Nona Calhoun, of the June class of '12 is on a concert tour of the Western States and will give the Lincoln Day Program at the College. Miss Calhoun has had wide experience as a concert singer and possesses a dramatic soprano voice of excellent quality.

Edith Barnes, class of June '24 Home Economics Department, sailed the day before Christmas, for Hawaii where she is to take up the work of visiting housekeeper under the Social Science Bureau of Hawaii.

Miss Pearl Wynes, '23, and Miss Naomi Kasten, '24, teaching at the Maple School in Lompoc received the initiatory degrees of the Rebekah Lodge a week ago Tuesday evening there.

Cross-Word Puzzle Used As Test

Last week Dr. Lamb complained to his physiology class that it was not getting enough accomplished during lab periods, due to the advent of the cross-word puzzle. He had been told that students would bring daily papers to class and turn over their vocabularies while he was out of the room. To cure them he announced that he would give them a legitimate cross-word puzzle at the next meeting, and their ability to solve it would affect his records.

The physiology class came to the laboratory last Wednesday expecting a surprise, and they were not disappointed. Each student was given a cross-word puzzle blank and instructions as to how to proceed. The definitions dictated were those of various technical physiological names which the students were supposed to have known.

In spite of the fact that most of the horizontal words checked the vertical words, the students found their technical vocabulary inadequate. Anita Deardorf is reported to have won with 92 per cent of the words correct.

Miss Winham will address the Universal Club Friday afternoon.

If "saving the surface saves all," the modern American girl must be in a wonderful state of preservation.—Exchange.

The shingle bob probably got its name because it is so near wood.—Exchange.

Behold—Mr. Peters Recites

A deep working silence. The Eagle in the making. Mr. Peters enters the office. Not much disturbance. Suddenly, softly, but with increasing volume, a voice filled with poetic words is lifted to the ceiling. The Eagle staff looked up startled. Our mathematical Mr. Peters in the thralls of poetry! But glances affect him not. Calmly he proceeded through Ingersoll's "Speech at the Tomb of Napoleon" to "Horatio at the Bridge."

A head emerged from the treasurer's office. Next from the secretary's office some one peered out. Even the Dean of Men stopped his work; came out and listened. Students flocked from the corridor but Mr. Peters, unperturbed, went on.

Roadrunners Bump Off Friars 58-17

The Roadrunner five regained its old reputation in a practice game with the Mission Athletic Club last Wednesday evening by downing the visitors 58-17. The score does an injustice to both teams, for both fought hard until the final whistle and much faster and harder than the score would indicate.

The College margin in the one-sided score was due mainly to the consistent basket-shooting of Henry Minetti and the spectacular long shots of Jimmy Anderson. Minetti redeemed his reputation, which he feared he had lost in the Cal. game, by ringing up 24 points in the two quarters of the game that he played. Anderson scored 13 points, 12 of which came from long shots from the middle or edges of the court.

Coach Casey put in the second and third string to carry on the battle in the second and fourth quarters, during which periods 13 points were scored for the College against 8 for the Mission squad.

Laurence Stevens and Hank Boehm, football veterans of the same club, put up a remarkable game throughout, but found great difficulty in locating the hoop. Hunter, Mission left forward, was the chief machine for the Friars, but all that he managed to ring up was six lone points.

Mobley and Captain Linder played a consistently excellent guarding game for the Roadrunner quintet.

Tournament Planned For Interclass Men

Due to the increased interest displayed in tennis at the College this year, a mixed doubles, interclass tournament has been planned, to take place just after the opening of the spring semester. If present plans mature, each class will put two teams into the field.

An effort will be made to procure a cup to go to the winning class, thus increasing the spirit of competition in the tournament. Any teams that expect to compete should begin to practice at once if the matches are to be at all interesting.

Women's Volley Ball Season Starts

The first call for women interested in volley ball was sounded on Tuesday afternoon of this week when those interested in this sport turned out to sign up for the season. Although practice has been delayed due to lack of facilities in the name of a suitable court, a ground court has now been constructed below the cafeteria.

Regular practice nights will be scheduled as soon as possible, according to Marjorie Granger, women's athletic manager. Coaching will be done by Miss Winifred Weage, director of Physical Education.

Two Minor Improvements Appear On Campus

Two new minor improvements on the campus appeared the week before the holidays; a railing for The Eagle office, and additional supports for the fencing of the gym balcony railing. The Eagle office will soon look like a typical newspaper editorial room, lacking only signs that read "Don't Spit on the Floor" and "No Smoking." The reinforcements for the balcony railing in the gym have come as a response to a request by one of the students asking for strengthened supports before "the rail broke and killed a few persons." Things are looking up, we are starting the New Year right!

Brother Of Registrar Publishes Book

Mrs. Jane Cushing Miller, registrar, has received a copy of the book, "The Human Story of Coal" by George H. Cushing who is her brother. The book which has just recently been published tells the story of coal in an interesting and entertaining style. It is published by William Edwin Ridge of New York City.
