

ASSOCIATED STUDENTS PRESIDENT WELCOMES COLLEGE DAY VISITORS

May I extend a warm welcome to the College Day visitors on behalf of the Associated Students of the University of California, Santa Barbara College? We hope that your day will be an enlightening as well as entertaining and that you will become permanent members of our campus come next Fall.

One cannot help but notice as he walks around the campus that an extensive building program is underway — one that will make this College the Dream College of the West Coast. At the present time, the new Classroom Building is just being completed, at a cost of \$823,900, and should be ready for occupancy by late

March. It will contain the offices of the Provost and Divisional Deans as well as the departments of English, Mathematics, Foreign Languages, and Social Sciences.

Also under construction is the Dining Commons which will begin serving the 880 campus residents in January of 1958. Approximate cost of this structure was \$770,000.

Other permanent buildings which can be noticed are the Science Building, which will be converted to Physical Sciences only upon the building of the Biological Sciences unit in the near future; the Library, to which an addition is planned

shortly; the Music Building, completed last semester; and finally, the pride and joy of the campus, Santa Rosa Hall.

On the schedule for the near future is another Residence Hall, a fantastic gymnasium and Physical Education building, and a Fine Arts Building. This latter building is the next to be built and will contain the Industrial Arts Department — finally uniting that part of the College with this campus.

But besides physical and architectural beauty, Santa Barbara College contains many other advantages which will be yours upon enrollment. The chance to be a member of the second largest

University in the World (Calcutta is the largest) while enjoying the benefits of a small liberal arts campus is one not to be passed over lightly. Your professors are chosen by the University's high standards and are high in ability. A Liberal Arts degree from a college such as ours with a high student-faculty ratio is highly valued. Graduates of Santa Barbara College can be found in many of the Professional and Graduate Schools throughout the country. The facilities for those who desire to be teachers are excellent.

Besides offering academic advantages, Santa Barbara College

offers the new student a multitude of opportunities to partake in extra-curricular activities under the auspices of the Associated Students. There are over one hundred organizations recognized by the Associated Students that await the newcomer to Santa Barbara, as well as activities which appear to be "tailor made."

The athletic program gives good, hard competition but does not demand the performance of a big time university. It carries none of the penalties either.

Student Government here, under the guidance of a Legislative Council, welcomes interest and

participation from those who desire to partake in this phase of student life.

The four years of College which lie ahead of you will be among the best of your life. Your choice of a College is an important one — it is in the College environment that the final polish is put on the individual — both in educational and social skills.

Please make yourself at home, the purpose for which College Day was originated. Watch out for ditches and postholes on your tour — we hope to see you hale and hearty here next semester.

Goode Discusses Amendments

Of late, there have been proposed changes in the Associated Students Constitution. While agreeing that there is a definite necessity for certain revisions, I wholeheartedly disagree with the plan which has been outlined.

At the present time, our representatives are elected by the whole student body and are responsible to the whole of this organization. Each member of the Legislative Council's voting contingent puts the interests of the Associated Students before that of any specific group — something that one can find out for himself if he wishes to attend a meeting. The plan formulated would change this — an officer would be responsible only to the group that elected him, making the term Student Body Officer a misnomer.

Advocates claim that this would give a closer contact between representatives and those represented. Let us examine this. To add fourteen new Reps to our Council, which at 43 members is the second largest student legislative body west of the Rockies, would be impossible. Anyone who has been present at a Council meeting will attest to the fact that we have reached maximum size for efficient handling of business.

The new plan would double up the Representatives with Committee Chairmanships — both full-time jobs. How one can do an adequate job of running the Special Events or Assembly Committee and carry out the duties of a good Representative is a question to consider.

Another disadvantage is that

these officers would have to be elected in the Fall, leaving the Student Body with ten officers and no committee chairmen to organize the Fall activities which in the past have been carried out by committee chairmen and Reps; i. e. Gaucho Gambol, Rallies, Homecoming, etc.

The idea behind the change is a good one — the method is not. The purpose stated — closer contact between Reps and students — is defeated by the new problems it raises. Just because there is a Rep next door does not mean that you will talk to him — there must be an interest in Student Government, and, more importantly, you should have something to say.

The fact that the 923 students who live in widely separated locations off campus receive no closer contact with the Reps under this new plan is obvious. The idea that a Rep with no particular interest in a committee may be chosen to head it is also obvious.

Any unity that we might hope to obtain would be completely split by making a group-conscious campus out of this College. A representative would be nothing more than a lobbyist for his group, making business that much harder to transact.

Under our present system of representation, a student can get as much or as little representation as he desires. The solution lies in publicizing that such representation does exist and how to get it — as well as considering smaller, more feasible changes to the Constitution. In this way, we will achieve the goal we seek.

Dick Goode '57

FROM THE PRESIDENT'S DESK

Now that Barbary Coast is just around the corner, it might be a good time to clear up the question of "Just where does the forty percent taken out of the Barbary Coast proceeds go this year?" In the past, the entire forty percent went to various charities — as determined by the Charities Committee. This year however, twenty percent of the gross receipts of the Coast will go to charity and twenty percent will go into the Permanent Student Union Building Fund. This fund, which is an account carried on the books of the Associated Students, will eventually provide much of the capital for a Student Union — something that the University will not supply — and something that we badly need.

Source

Proceeds now going into this fund are the profits from the various concessions (such as coke machines) on the campus. Half of any money left over in the budget at the end of each Associated Students fiscal year will

revert to this Fund. To assure that there will be growth within this Fund, the money collected will be invested and the account is set up so that money can not be taken out for any purpose other than building a Student Union.

BAC Chairman

May I also note that there is a Board chairmanship vacant — that of the Board of Athletic Control. Those interested in filling out the year stop by the Associated Students Office, behind the Student Union and fill out an application before Wednesday. If you desire further information on the position contact myself or Morlan Lewis, 3810.

Open Meetings

Another plug. Legislative Council Meetings are open to everyone. They will be held in the Mesa Auditorium in March — every Tuesday night at 7:30. I hope many of you will take advantage of this opportunity to come, listen, and speak.

ASUCSBC President

SCHOOL REVIEW PLANNED BY BAND

Last week at Legislative Council, Hal Brendle and Bob Raleigh, directors of the Gaucho Band, presented an outline for an all-school musical show. The program will be sponsored by the Gaucho Band and will stage college talent in review style.

Both Brendle and Raleigh hope that the show will serve a two-fold purpose: 1) Establish school interest in the Gaucho Band with a view to improvements and added activities next fall, and (2) Draw the school together in a school-wide effort.

The dates for the musical will be April 26 and 27, with audition dates to be announced sometime in the near future, states Bob Raleigh. All interested persons should either place their names on a list in the Graduate Manager's Office or contact Brendle or Raleigh.

BEACHCOMBERS' BALL SET TO GO; DANCE TO FOLLOW HAWAIIAN MOTIF

by Dennis Naiman '60

Hey, hey! It's time to drag out those surfing pants and grass skirts for the tenth annual "Beachcomber's Ball" which is to be held tonight from 9 to 12:30 in the campus auditorium. From all indications this dance will prove to be one of this semester's biggest highlights.

Tickets for this all-school dance can still be obtained from any active member of Kappa Sigma, from the graduate manager's office, or at the door for \$1.75 per couple.

An added attraction of the dance will be the selection of the 1957 "Beachcomber Queen." Nominations for queen have been made in all women's residence halls and sororities. Finalists are: from Santa Rosa Hall, Susan Mathews, Jean Davis, Linda Eberly, Tony Saadi, Marilyn Venter, Gail Flemming; from Manzanita Hall, Lorie Long; from Madrona Hall, Mary Cheney. From Kappa Alpha Theta, Joan Taylor; from Alpha Phi, Joyce Griffith; from Delta Gamma, Carol Mueller; from Cayo Mega, Audrey Peterson; from Sigma Kappa, Didi Canonica. The queen will be chosen by those attending the dance on the basis of one

BARBARY COAST RETURNS TO CAMPUS; JUDGES CHOOSE BOTH, SHOWS

by John Stephenson '59

Yes, this year the tremendous Les Brown and his Band of Renown will be featured at the big Barbary Coast Carnival on Friday night, March 8. The carnival itself will run Friday night and all day Saturday starting at 1:30 p.m. and running on into the wee hours. Progress is one of this student body's products and Barbary Coast is no exception; each year it gets bigger and better. There is enough interest in this event among the residents of this area to warrant press, radio, and television coverage. Don't miss it!

Heading the list of top attractions is Les Brown, six top-notch shows featuring the cream of Santa Barbara talent, 20 concession booths including games of chance, refreshments, and a novel show of Australian and Hawaiian surf films; the last but not least on the exciting bill is the Whiskerino Contest featuring the more masculine men of campus who will display well trained beards rivalling the exploits of Moses and a host of Civil War generals.

The excitement starts on the dot at 6:30 p.m. on March 8th. The Carnival will start on all eight cylinders in high gear. The spot to gather is the athletic field opposite the campus gym. All six shows will be running. The organizations bringing you these attractions are: Kappa Alpha Theta, Chi Omega, Pi Beta Phi, Delta Gamma, Sigma Alpha Epsilon, and Mask and Scroll, our campus drama club. All the booths will be operating also and the shouts of barkers will direct you to every event. Two scrip booths will be conveniently located to sell the coupons good for all events being held.

On Saturday at 1:30 the carnival will operate mostly in the interest of the kids of Goleta and Santa Barbara. That evening from 6:30 to 11:30 p.m. Barbary Coast is in full swing again. The Whiskerino judging starts at 9:30. A half-hour later the awards will be handed out to the winning shows and booths.

First and second place trophies are given to the best in the show division. Booths are divided into four divisions: fraternity, sorority, residence hall, and organizations. The number of trophies to be awarded depends entirely upon the number of entries to be participating in each separate division. Judging is based mainly on costumes, audience appeal, adherence to theme, and general appearance.

Here are some interesting facts on the Les Brown band. They were voted No. 1 in Downbeat's annual poll, No. 1 in Metronome as Big Band of the Year, No. 1 Dance Band from the Billboard annual poll. Les has just recently completed his tenth big year with Bob Hope. Les Brown holds the record for engagements at the Hollywood Paladium with 23.

Appearances at the big and little colleges of the nation is a specialty of the Brown crew. Since February last the band has flown across the U.S. three times to make an appearance at some college. This group has compiled the biggest total of air miles than any other organized band since the plane was thought of.

There's one individual in the list of Brown's personnel that we'd like everyone to take special note of. This person is the dark-eyed singer for the band who answers to the name, Jo Ann

LES BROWN

VOTE NOW!

Today is the last chance for the students of Santa Barbara College to cast their ballot for their favorite candidate. The poles will be open today from 9 a.m. to 3 p.m. in front of the Library and also the Student Union. Campus residents will also be able to vote at Las Casitas cafeteria between 11 and 1.

Officers to be filled by this election are Freshman Class President and Vice President and Woman's Representative-at-Large. All students wishing to vote must present their Associated Students membership card.

The members of the Freshman Class are entitled to vote for their officers, but the entire student body is eligible to vote for the Woman's Representative-at-Large.

Tickets On Sale

Announcement has been received from the Graduate Manager's Office to the effect that tickets for the Les Brown appearance Friday, March 8, may be purchased at this time from the Graduate Manager's Office for \$2 a couple. If you wait until the night of March 8 to buy them they will cost you \$2.50.

Greer. The 24 year old songstress is in her third successful year with the band. Jo Ann is quite a busy girl, when she isn't working with the band she often appears on radio and television and also is sought after for dubbing on sound tracks for movies. When she has time she enjoys sailing, skin-diving, and knitting. You can hear her beautiful voice on March 8th from 10 to 1 p.m. when she appears with the rest of the Les Brown crew. See you there.

Stay Out 'Til 2 Tomorrow Night

The Dean of Women's office has announced that lock out hours will be extended until 2 a.m. Saturday night for the Beachcomber's Ball.

It was also announced that the Student Union annex will be open for coffee and goodies during the hours of the dance.

WORLD VIEW

by Larry Adams '59

Last time I discussed the report of the Senate subcommittee on airpower, and observed that most Americans would probably survey the subcommittee's findings with calm disbelief. What might be the convictions underlying this scepticism? What are some of the criticisms of the report?

It has been charged that the report is a politically motivated document, composed with the intent of embarrassing the Eisenhower Administration, since the report was signed only by the Democratic members of the subcommittee, Senators Symington, Jackson, and Ervin, while Republicans Saltonstall and Duff filed dissenting views. This accusation does not survive close examination. Although the subcommittee concluded its hearings late last summer, it purposely withheld publication of the report until after the Presidential elections, in an attempt to prevent it from becoming inextricably entangled in partisan politics. The majority findings are closely supported by the testimony of top-ranking government officials, and the sceptic who assumes that the majority manipulated the facts or tore testimony out of context will find very little to support his belief if he examines the relevant portions of the 1800 pages of sworn testimony. Furthermore, the minority statement, while it circles, sniffs, and growls suspiciously at the majority report, makes no serious effort to attack it.

Other objections have been expressed. Perhaps the most common is an argument which flows along these lines of least resistance: "We can't judge large questions involving top secrets — the public needn't concern itself with such matters. Military men are always eager to get their hands on as much money as they can for their services, and so they are prone to exaggerate their needs. Besides, we have a former military man in the White House. He knows what we need. Let's trust Ike!"

It is true that we outside of government and the possession of expert knowledge should not presume to design a defense program and urge it upon the government. This does not mean, however, that we cannot weigh for ourselves expert testimony and known fact and arrive at a judgment of our own as to whether our defenses probably are or probably are not adequate. Those

aspects of our defenses which cannot be revealed to public view largely relate to such matters as performance details and location of combat squadrons: facts not central to determination of overall military preparedness. We must realize, too, that public pressure for decreased government spending and lower taxes exerts a powerful influence upon our defense policies; we bear considerable responsibility for the dimensions of our defense programs whether or not we are aware of the fact.

While it may be true that military officials tend to expand the needs of their departments for funds, they must substantiate their claims with evidence, to their civilian superiors in the Department of Defense, and to the Congress. Their arguments must be grounded on comparisons of our own strength to that of the Soviets, which is estimated primarily on the findings of the civilian Central Intelligence Agency.

The "argument" of "Trust Ike," while it may have a certain superficial appeal, is scarcely one which the American people can take seriously. It is obvious that Mr. Eisenhower, who relies heavily upon his cabinet officers, has no intimations of infallibility.

"But America is the mightiest nation on earth. Russia can't seriously challenge our industrial potential. Why should we worry?" It is undeniable that the U.S. is the most powerful nation industrially on the globe, but in a future air-atomic war we would be unable to bring our industrial supremacy to bear, as we did in World War II. We will have to wage a future war with our "forces in being" because, almost certainly, our industrial plants will be devastated by nuclear bombing. As General LeMay put it: "I do not think any bomber will come out of the door after war starts."

The fundamental question which remains after all these (and other) objections have been boiled away is, Are the people willing to pay the price? Or can't we be bothered with giving our attention to such large and disturbing questions and our tax money to remote programs which some politicians will tell us are unnecessary? Theodore Roosevelt summed up the problem when he declared, "Free peoples can escape being mastered by others only by being able to master themselves."

LUTENIST PLAYS

The unique artistry of Suzanne Bloch, singer to the lute and player of virginals and recorders, will be displayed for Santa Barbarans the second time in five years on Monday, March 4, at 8:30 p.m. in a free concert in the Santa Barbara College Auditorium.

Miss Bloch, daughter of the eminent composer, Ernest Bloch, will be remembered by many who received her enthusiastically in her first concert here about five years ago. The UCSBC Committee on Drama, Lectures and Music has arranged for this second appearance.

Miss Bloch has programmed music from Medieval, Renaissance and Baroque periods to be played on her rarely heard instruments. A commentary termed by her reviewers witty and, when appropriate, humorous, is an integral part of her program, illuminating the development of musical forms that flowered from the early Renaissance and Tudor masters.

As a Burroughs Sales Representative the fun of succeeding comes early

As a Burroughs Sales Representative, you get off to a fast start. And you take your income as far as you want as fast as you want, because you earn as you sell.

You're a systems counselor—a career man who makes day-to-day calls at the management level, analyzes customers' needs, recommends appropriate systems, implements them with the necessary Burroughs products.

You represent a leading producer of business machines and data processing systems for business, government and industry.

And you have your own exclusive territory in a location to your liking. For Burroughs has offices in all principal cities of the United States.

As a Burroughs Sales Representative, you're well paid during thorough training for your

career. Even after you've gained experience under the guidance of Burroughs experts and are on your own, you'll be kept abreast of all the newest developments and methods you'll need for top sales performance.

FREE BOOKLET: For a more detailed story of just how fast you can enjoy the fun of success, write for our new career booklet today.

SPORT - TALK

by Pete Vorzimer

Gauchos Can Still Come Out On Top

Ah yes, all hope is not lost for the Wiltonmen . . . not yet. For the boys have a chance to tie it all up tonight. Yes, the top team, San Diego has a 6-2 CCAA record. At the present time, the Gaucho record stands 5-2 with a game left to be played — tonight — against L. A. State. This might mean two or more post-season games for the team (Will Ozzie ever get around to baseball?).

Try For Championship Tomorrow Night

This Saturday, tomorrow night, the Gauchos will meet Pasadena Nazarene at the Belleflower High School Gym at 7:30 p.m. Two hours later on the same floor, Westmont meets Whittier. Pasadena and Westmont are Independent Champs, Whittier is the SCIAA Champ, and we (don't laugh!) are CCAA Champs (because we're the only one eligible, in the upper four or so, to play in NAIA).

Playoff With San Diego

Should we beat L. A. State tonight, this will entitle us to a playoff to see who would get the NCAA bid. We've beaten L. A. before (90-78) and they were pretty powerful then . . . though the Gaucho team has slackened somewhat they'll need deserved support out their this weekend.

For those of you who are avid Gaucho followers, you might catch the Track meet at Long Beach in the afternoon and go over to Bellflower (not too far away) and catch the play-off game that evening (Saturday).

Acres Back

Gigantic Dick Acres made his comeback last Tuesday night at the Armory — played real good ball too. Held Heinrichs down to four goals and looked sharp on the boards. A valuable team asset which has been lacking since the first game, Acres will really help for these last important games.

A Flock of Fouls

A whopping 56 big fouls were called in the game last Tuesday night. 37 of these big ones were called against Santa Barbara. Five of our boys fouled out . . . Smelser, Acres, Osborne, Rargrove and Hoopongarner. Some of these were real close calls . . . perhaps you could say there were too many . . . perhaps not. The Gauchos had to press, they had to play fast and furious ball . . . most of the fouls were pretty good calls.

Jayvee-er Makes Good

The Jayvee team (a good and interesting team to watch, by the way) lost one before the Westmont game, but Frank Bennett, Gaucho forward racked up an impressive 36 points and played quite a game.

Track Team Goes To First Meet At Long Beach Tomorrow

Santa Barbara's track team heads for Long Beach to meet the Long Beach State 49ers tomorrow with the first event beginning at 3 p.m. The meet will be the first one for both this season.

Not too much is known about the 49ers except that they have a 10 flat or below 100 yard dash man in Harlow Richardson, and several other outstanding spikers.

On the basis of the Intramural and Interclass meets, the prospect of a good season loomed high in the minds of Gaucho track fans.

With returning lettermen Gordy McClenathen and Dick Richards together with the speedy Bill Collins and such outstanding newcomers as Raul Yanez, Jerry Mullin, Ned Wilson, and Hank Vallecamp, the 380, mile, and two mile should be the strongest events. All have turned in excellent early-season performances. Larry Smith, Tony Brambilla, and John Godfrey should all bring home points in the 440, while the sprints are headed by Ed Scott, Johnny Morris, and newcomers Larry Olivas and Duke Ellington.

The hurdles which have been a weak event in the past years, should be much stronger, with Dick Major, Jon Champeny, and Kenny Beavers all looking good in practice.

Most of the field events are going to be stronger than last year. Weightmen Kelly Hoover,

John Coutts, Jack Lyons, and Roger Van Pelt have all turned in impressive marks in the shot put and discus, while Don Kelliher, Mike Kahn, and Herb Williamson have already equalled or bettered their best tosses in the javelin. Gates Foss, Bob Foss and Mark Howenstein have looked good in the pole vault, and Duke Ellington and John Simms head an impressive list of broad jumpers.

The high jump is headed by Ron Drake and Mickey Dvotzszak and both have cleared around 6' so far this season.

Tennis Schedule

1957 — Home Games
March 8, Fri. — Long Beach St.
March 9, Sat. — Redlands
April 5, Fri. — Cal Tech
April 6, Sat. — Fresno State
April 9, Tues. — Pepperdine
April 13, Sat. — Portland U.
April 17, Wed. San Diego State
April 23, Tues. — U. of Arizona
April 29, Mon. — U. of Calif.

Jayvee Tennis Today

This afternoon the junior Varsity Tennis team will meet the Santa Barbara Junior College team at the Municipal Courts at 2:30.

GUADALAJARA SUMMER SCHOOL

The accredited bilingual school sponsored by the Universidad Autonoma de Guadalajara and members of Stanford University faculty will offer in Guadalajara, Mexico, July 1 - Aug. 10, courses in art, folklore, geography, history, language and literature. \$225 covers tuition, board and room.

GAUCHOS CAN TIE TONIGHT

BASEBALL SEASON OPENS

Santa Barbara's Gauchos open the 1957 baseball campaign tomorrow afternoon against a UC SB alumni squad. Game time is 2 p.m. on the local diamond.

Encourage in practice by the performance of his pitching staff, coach Rene Rochelle has high hopes for a successful season. Already impressed by Bob Pope and Jim Hezlep, Rochelle has found three more possible starters in Ron Huesser, a transfer from El Camino J.C., Clem Cohen, and Hal Biggers, a UCRiver-side transfer. Biggers is said to be the possessor of a jumping fast ball which should cause enemy hitters a lot of trouble this spring.

Bob Pope will open on the mound for Santa Barbara. Rochelle plans to use him for 2 or 3 innings, following with Hezlep, Cohen, Biggers and Huesser, as needed.

Supporting this formidable array of flingers will be an infield consisting of Don Evans, first base; Ed Coulter, Second base; Pat Mills, short stop; and Pete Walski, third base. Neil Wright will handle the catching duties. In the outfield Rochelle plans to start Fidenzio Brunello in left field; Dave Iman in center field; and either Frank Stevens or Vaughn Wipf in right field.

Following tomorrow's contest, the Gauchos travel south to do battle with the San Diego MCRD on March 7th and with the San Diego Naval Training Center on March 8th and 9th.

GAUCHOS DROP CLOSE ONE TO WESTMONT

by Ray Ward

After leading for three quarters Santa Barbara's cage quintet dropped their third game to Westmont's Warriors 81-78, Tuesday evening at the Santa Barbara Armory.

The shorter Gaucho hoopsters played a pressing, aggressive and rebounding the hosts, but had 39 points scored against them from the free throw line.

The UCSB cagers led their crosstown rivals 43-40 at the half way mark and lengthened this to an eight point margin five minutes into the final period. At the ten minute mark the Warriors had closed to five points, 62-57.

In the final ten minutes of play the score was tied four times and only once was the margin more than four points.

Westmont forward George Terzian, high point man of the evening, scored 29, tied the score at 66-66, with seven minutes remaining in the game, when he made a driving layup.

Seconds later Jim Robitaille, Gaucho center, connected on a hook shot to move the locals out in front and then Jim Hargrove intercepted a Westmont pass and converted it for two points on a jump shot to bring him within one point of his evenings total of 19 and put the Gauchos out front 70-66.

Two free throws by Terzian and a set shot seconds later tied the score again at 70-70 with

four minutes, 34 seconds left in the game.

After an exchange of baskets and four shots, Jim Hargrove added a charity toss to knot the score for the fourth time at 74-74.

The Warriors collected seven more free throws in the last minute and 54 seconds to total 81.

John Osborne collected on two free throws and Ralph Barkey dropped one in at the gun to pull the Gauchos to within three points.

All-CCAA Conference nominee Lee Smelser followed Hargrove in the point column with 11 digits.

Five Gauchos fouled out of the contest as the quintet had 37 penalties called against them. The Warriors garnered 39 points at the charity line compared to 18 for UCSB.

From the floor the Gauchos tallied 60 points against 42 for the hosts.

In the last 10 minutes of the game the winners outscored the Gauchos 24-16 with 16 of the Warriors points coming at the free throw line.

The Gauchos pressed their taller opponents throughout the game and capitalized on the majority of bad passes and stolen balls.

Coach Willie Wilton commented that although the pressing defense resulted in more fouls, it was necessary to combat the height advantage of the Westmont five.

Seniors... Make a date with tomorrow

If you are graduating in Science, Engineering, Business Administration or allied subjects, now is the time to get the facts on exceptional opportunities at North American Aviation.

Where the planes of the future are being created right now.

Where missiles that can conquer space are already under way.

FIND OUT ABOUT YOUR PROSPECTS WITH THE COMPANY WHERE TOMORROW'S METHODS ARE BEING PUT INTO PRACTICE TODAY. SEE OUR COLLEGE RELATIONS REPRESENTATIVE

MARCH 5th, 1957

You will find that the opportunity for a man to realize his full potential is an essential part of the way we operate at North American. The company is active in the most advanced fields of technology. Our leadership is maintained by doing successfully what has never been done before. North American has continuously delivered the world's outstanding airplanes.

Now you can participate in the most exciting projects of all: hypersonic aircraft and missiles, systems that control, guide and navigate themselves, and rocket power for space. Both technical and executive ability are at a premium.

CONTACT YOUR PLACEMENT OFFICE NOW . . . for appointment with the North American representative who will be able to give you full details of the career opportunities in these fields.

OR WRITE: Mr. D. R. Zook, Director of Personnel Services, Dept. Col, North American Aviation, Inc., Los Angeles 45, Calif.

fashion notes

we must admit to a preference for spring and when you add to it a season filled with the freshest, most femininely attractive fashions we've seen in years, our anticipation of spring '57 is almost out of bounds.

starting with the most

versatile fashion we know of, we recommend a look at the wonderful collection of long coat costumes at the annex . . . priced at a value-packed 29.95, there are spun linen coats with sleeveless plaid cotton sheaths and textured rupee (cohama's magic blend of spun rayon and raw silk) coats with print crepe sheaths to match the coat's linings . . . there is also a fine selection of pure silk print sheaths and full-skirted dresses at 14.95

if the beach beckons, we suggest you see our new collection of rose marie reed screen-print cotton swimsuits at 15.95 with matching skirts at 10.95 that — quick as a wink — turn your swimsuit into a sundress.

for more active sportswear, there's white stag's new sports separates . . . you can choose from their sunsheen, sail cloth and poplin groups that present more possibilities for mixing than a game of musical chairs . . . prices range from 2.98 to 9.95.

can't close without reporting that we've received a shipment of jack winter pants . . . long and slim in authentic tartan plaid tarpoon cloth . . . they're priced at 8.95 with companion jamaicas at 6.95.

don't forget helen garben is in the annex every saturday to introduce you to the exciting styles of spring '57!

GOLF

Important meeting for all golfers and for all people interested in competing in inter-collegiate Golf. There will be a meeting on March 6th, Wednesday, in Doc Kelliher's office in Building 420 at which there will be a discussion on schedule and participation in various meets.

by Pete Vorzimer

OLIGOPOLY

Thanx to Jay Bardwell of the Daily Cal and his invention of the game of Excomzam, I have invented (or better still plagiarized) the game of OLIGOPOLY.

The game is something like Monopoly. Each player is given a little thin figure in the shape of Phil Jacks, in which he moves around the board. He moves on the cast of the die.

There are squares (the red ones) which incur penalties, like the following:

"You have been declared ineligible. Go back to J.C. Do not pass Go. Do not collect \$57."

"Registration fee has been increased, forfeit one turn."

"Surf is up today. Wait 3 turns."

"Party at the Fraternity house. Pay assessment . . . 3 times amount shown on dice."

"Caught cheating in class . . . turn in crib notes and go back three spaces."

"Flunked Subject A . . . pay \$20."

"Messed up P.E. Department . . . Go to Afghanistan. Do not pass P.E. department. Do not collect \$200."

"Wine skin broke . . . return to Fraternity House."

"Your name is Dick Goode — please leave the game quietly."

"Lock out is in five minutes, start your car and proceed immediately to Santa Rosa Hall."

Then there are the other squares (the olive drab ones) which aid the player:

"You are an athlete, collect \$4000."

"Advance to T.G.I.F. Stay for three turns."

"Move token to Orgy. Pay owner twice the rental."

Oh yes, then there are the "CRAWL OUT OF THE SPIGOT, FREE" cards, mixed with other gems like: "TAKE A RIDE OVER TO BENNY'S and spend \$50 on each player," and "LIQUOR FOUND IN YOUR ROOM . . . remove your piece from Las Casitas Avenue."

The board is lined with all sorts of properties that one can buy and rent such as: Athletes, the Theta house, the DG house, assorted fraternities, Rincon Beach, the Spigot, Goleta Beach, Santa Rosa Hall. The object of the game is to get a block of sorority houses, a whole football team (these two have been combined for a greater and even greater profit), to achieve an OLIGOPOLY.

ARNOLD

Students Propose Amendments Complete Changes Presented

Last week, *El Gaucho* printed a letter from a group of students, in which certain amendments to the Associated Students Constitution were proposed. These students are now circulating a petition for the purpose of obtaining a special election to vote upon these amendments. Here, *El Gaucho* publishes the following full text of the proposed changes, as submitted by these students.

Amend the following articles to read:

ARTICLE III, SECTION 6

The elective officers of this organization shall be the following: President, Vice-President, Secretary, four Class Presidents, and the Representatives.

ARTICLE IV, SECTION 3

The voting members of the Legislative Council shall be the President of the Associated Students, the Vice-President of the Associated Students, the Secretary of the Associated Students, and the Representatives.

ARTICLE IV, SECTION 4

The non-voting members of the Legislative Council shall be the chairmen of all standing boards, the presidents of the Senior, Junior, Sophomore, and Freshman classes, the president of the Associated Men Students, the president of the Associated Women Students, *El Gaucho* editor, Graduate Manager, Dean of Men, Dean of Women, one faculty member appointed by the Provost, and the representative of the Mesa Campus.

ARTICLE IV, SECTION 7

Regular Legislative Council meetings shall be held weekly or as necessitated by pending business. Voting members shall attend all meetings. Non-voting members shall attend the first and third meetings each month and any other meeting as called by the President.

ARTICLE IV, SECTION 12

Unexcused absence from three Legislative Council meetings during the term of office shall constitute automatic removal from office. All excuses for absence shall be accepted by the President subject to the approval of the Legislative Council.

ARTICLE IV, SECTION 14

The Representatives shall be appointed in the following manner.

(a) The members of the Associated Students shall be divided into four groups according to place of residence. These groups shall be Women's Residence

Halls, Men's Residence Halls, Fraternities, Sororities, and Private Dwellings.

(b) Each group shall be entitled to one Representative for every five per cent or major fraction thereof, of the Associated Students which it contains.

(c) If any one of these groups is entitled to more than one Representative, it shall be divided into as many units as Representatives to which it is entitled. This division shall be the responsibility of the President of the Associated Students, the Vice-President of the Associated Students, the Secretary of the Associated Students, the Dean of Men, the Dean of Women, and the Graduate Manager, acting as a committee. This division shall be made immediately before each fall election.

(d) The Representatives must live within the unit from which they are elected.

(e) If a Representative moves out of the unit from which he is elected, he forfeits his office.

(f) A Representative must be elected by the voters from his unit.

ARTICLE V, SECTION 6

Chairmen of all standing committees, except the Elections Committee, shall be appointed by the Legislative Council from the Representatives.

ARTICLE VIII, SECTION 1

Regular Associated Students elections, except those for Representatives, shall be held in the Spring Semester, a minimum of three school weeks before the beginning of final examinations. Representatives shall be elected in the Fall Semester before the end of the third week of classes.

ARTICLE VIII, SECTION 2

In addition to the officers prescribed in ARTICLE III, Section 6 of this constitution, each class shall elect class officers. Freshman class officers shall be elected at the same time as the Representatives.

ARTICLE IX, SECTION 1

(a) Any student officer except class officers and Representatives may be subject to recall by presentation to the Legislative Council of a petition signed by ten percent of the regular members of the Association.

(b) Representatives may be subject to recall by presentation to the Legislative Council of a petition signed by twenty-five percent of those living within the unit from which they are elected.

SPECTRUM STUDENT WRITING IS GOOD; MAGAZINE'S LAUNCHING MAJOR EVENT

by Kelley Cartwright, '57

The publication of Volume I, Number 1, of *Spectrum* is, I feel, one of the major events on this campus in some time. This magazine has begun life, certainly, under far more auspicious stars than those which guided its predecessor, *Symposium*. It has the benefit of experienced faculty guidance, and better organization; it contains material by faculty and off-campus writers; it is better financed, and its launching coincides with the existence on campus of a better-than-average group of student writers.

The articles in this issue are those of Dr. Hugh Kenner and Mr. Donald Davie. Dr. Kenner's article is probably as appropriate for a lead story as any that could have been used, for it deals with the problems of the so-called "little magazine," of which *Spectrum* is one.

Since Kent Chapman's story is the lead short story, I shall discuss it first. One of the first things that strikes me about this story is its similarity to the central incident of *Death of a Salesman*. The treatment, of course, is quite different, both stylistically and in terms of the emotional impact of the incident upon the characters involved. This effect does not come off for me; the contrast is too striking between the slow and rather thick-witted way in which the central character reacts to the simple situation at the beginning of the story and the rapidity with which he comprehends the complex moral issue at stake, and takes considered action, in the climactic scene of the story.

The stylistic looseness of the story indicates that it was probably written in some haste. The most outstanding examples of this looseness are in the diction—compare, for instance, such examples as these: ". . . when you live in another place, the first place dies, yet the second never comes over you big;" and "The

stare of a father's infidelity would be unknown.

In the story by Jane Silver, on the other hand, quite extreme variations of diction (handled, unfortunately, rather haphazardly—an indication that this effect was perhaps unconscious) serve to augment the effect of the story. This is well used in the paragraph beginning "The room was cold," on p. 49. Here the progression is from a sophisticated to a childish diction—a neat transferral of the point of view from that of an impassionate observer to that of a child. Despite a couple of lapses, this is an excellent paragraph.

Jackie Newby's story demonstrates the best developed and most consistent style of the four. The evenness of the quality of the story indicates a good deal of thought on her part and a good knowledge of what effects she wants and how she can best achieve them. Her use of detail for character exposition is good; her selection of names is appropriate.

Cy Epstein's story interests me more than any other; not because it is the best (which it isn't) but because it was so clearly the most carefully conceived and the boldest. Cy is here attempting, I think, to experiment with words—the tools of the writer's trade—and the way in which choice of words influences the reader's impression of a character. Cy seems to be very interested in the difference between "beheld the suitcases" and saw the suitcases; between "dissevered" and ended; between "exceeded human velocity" and outran me. Sometimes he gets carried away by this and makes errors of syntax or creates effects he does not want, for example in "her natural light was stultified" or "stool of extraction" or "the epitome of sorrow and pain."

At times, it seems to me, his use of words is illegitimate in that it is designed only to demonstrate to the reader his (Cy's)
