FAREWELL GREETING FROM DIRECTOR OF SUMMER SESSION

To all students and staff in the 1960 Summer Session I should like to send good wishes as we separate at the end of the session to go our several ways. We welcome your comments about the summer program. Naturally we are gratified to learn of those offerings which have been most stimulating and valuable. However, it is essential that we be informed of the ways in which we can better serve you. You will do yourself and the University a real service if you will send us your candid opinion.

We are especially interested in the students who participated in our College Orientation Program. It is our hope that this initial experience with University life has been most useful to you. After you have returned to your high school for your senior year we plan to write to you and request your cooperation in an evaluation of your summer work at Santa Barbara. If you think this program is valuable, please tell others about it. Our best wishes go with you as you complete your high school program and make plans for college. If this campus meets your needs, if you are avid for knowledge and eager to work for its acquisition, we shall be pleased to have you return as a college student.

We have some interesting plans for next summer, including several institutes in which widely known scholars, artists and scientists will participate. Be sure to write for a copy of the Summer Session Bulletin which will be available in February, 1961.

With sincere good wishes,

L. F. WALTON, Director
Summer Session
